Mr. Hain: Having engaged in discussion with hon. Members, Chief Constables, representatives of police authorities, local authorities, and other stakeholders across the whole of Wales. I see no realistic alternative to a single force for Wales if the objectives set out in the report by Her Majesty's Inspectorate of Constabulary are to be achieved.

However, the Government recognises that there are issues that require further discussion and we are working closely with forces and authorities to help refine their business cases and address any outstanding issues.

Welsh Budget

Mrs. Gillan: To ask the Secretary of State for Wales when he last met the Chancellor of the Exchequer to discuss the Welsh Budget. [40676]

Mr. Hain: I met the Chancellor and the Chief Secretary on 5 December 2005 and the Chancellor on 7 December 2005, in addition to which I engage with them on matters relevant to the Welsh Budget as and when they arise.

FOREIGN AND COMMONWEALTH AFFAIRS

British Embassy (Madagascar)

Ben Chapman: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the closure of the British embassy in Madagascar. [42008]

Ian Pearson: My right hon. Friend the Foreign Secretary gave a statement to the House on 15 December 2004, *Official Report*, columns 137–38WS covering the closure of several embassies and high commissions, including that of the British embassy in Madagascar. The embassy closed on 15 August 2005.

Burma

Martin Horwood: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) pursuant to the answer to the hon. Member for Northampton, South (Mr. Binley) of 2 November 2005, *Official Report*, column 1081W, on Burma, what actions in the United Nations Security Council he expects will promote reform and positive change in Burma; [32537]

(2) if he will make it his policy to seek the referral of Myanmar to the United Nations Security Council. [32772]

Ian Pearson: We fully support US efforts to get Burma onto the UN Security Council's agenda. We believe that a Security Council discussion of the situation in Burma, including human rights issues, would increase the pressure on the Burmese regime to effect genuine change. It would send a powerful signal to the Burmese leadership that the Security Council—the primary UN body responsible for international peace and security—is concerned about the human rights situation and is monitoring developments.

Egypt

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to investigate the allegations of harassment of Sudanese refugees in Cairo by the Egyptian authorities; and if he will make representations on behalf of those killed and injured as a result of the incident in Mostafa Mahmoud Park. [41529]

Dr. Howells: We have taken a close interest in the situation of Sudanese refugees in Egypt. The British embassy in Cairo has participated in meetings with the Egyptian authorities, as well as the United Nations High Commissioner for Refugees (UNHCR), and has expressed concern at the tragic incident in Mustafa Mahmoud Square on 30 December.

The Egyptian Foreign Ministry has informed the UNHCR that the Egyptian Prosecutor-General is carrying out an investigation of the incident.

Eritrea-Ethiopia

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact of the withdrawal of UN peacekeepers from Eritrea on *(a)* the peaceful resolution of the Eritrea-Ethiopia border dispute and *(b)* stability and security in the Horn of Africa. [39709]

Ian Pearson: The Eritrean demand for staff of Canadian, European, Russian and US nationalities to be removed from the UN Mission to Ethiopia/Eritrea (UNMEE) has added to the already highly tense situation. The withdrawal of those, plus other staff for their own safety, has in addition to the Eritrean restrictions on UNMEE already in place, further reduced UNMEE's monitoring and conflict prevention capability. This reduced capability and the resulting increase in tension may have a negative impact both on progress towards a peaceful resolution of the Ethiopia-Eritrea border dispute, and on stability and security in the Horn of Africa.

We supported a Security Council Presidential Statement strongly condemning the Eritrean demand and previous restrictions, and have urged Eritrea to co-operate fully with UNMEE. We also continue to underline to both Ethiopia and Eritrea that there should be no return to war; that the decision of the Boundary Commission is final and binding, and must be implemented; and that they should engage in dialogue on all the issues that divide them.

EU Structural Funds

Michael Gove: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have received advocating the broadening of the scope of EU structural funding to include a wider range of projects. [41815]

Mr. Douglas Alexander: The eligibility of projects for support from the EU structural funds is determined by the relevant Council and Commission Regulations governing those funds. The regulations for the 2007–13 period are still being negotiated. The Government's position in the negotiations is developed through consultation. Government departments and national and regional bodies maintain regular dialogue with stakeholders and their representatives, including Regional Development Agencies, Regional Assemblies, local authorities, MPs, MEPs, Councillors, through correspondence, information events, and meetings with ministers and officials.

The scope of structural funding has been an aspect of discussions on the proposals to improve the strategic focus of spending in this area over the next programming period. The Government supports these proposals, as have the majority of UK stakeholders. The change in focus will inevitably affect the eligibility of some activities.

European Council

Peter Law: To ask the Secretary of State for Foreign and Commonwealth Affairs what matters in respect of inward investment into the poorer regions of *(a)* the new member states from eastern Europe and *(b)* the United Kingdom were discussed at the European Council meeting on 15 to 16 December 2005; and what assessment he has made of the likely effects on the poorer areas of Wales of the agreed conclusions of the council. [41556]

Mr. Douglas Alexander: The European Council in December agreed the overall budgetary framework for the EU for the period 2007 to 2013, including Structural and Cohesion Funds (SCF). The agreement marked a historic shift in EU funding to the new EU member states, and they will receive over half of the SCF budget in the next period. Nevertheless, West Wales and the valleys will continue to receive an amount of convergence funding similar to which they received in this financial perspective.

Iran

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of whether Iran is organising training camps for non-Iranian operatives for *(a)* military and *(b)* terrorist activity. [41829]

Dr. Howells: We are aware of reports that Iran is providing training to groups seeking to undermine peace in the Middle East through violence. We remain deeply concerned about Iran's approach to terrorism and the nature of its relationship with Lebanese Hizballah and Palestinian Islamic Jihad. We are also deeply concerned about and continue to investigate Iran's links to extremist groups in Iraq. We have pressed Iran to renounce all support for groups using terror and violence. We have also urged Iran to take effective action against members of Al-Qaeda and "jihadist" groups using Iran as a base, transit route or refuge, and to co-operate actively with the rest of the international community against them.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what funds have been provided by his Department for the promotion of civil society in Iran. [43364]

Dr. Howells: Funding is available through the Foreign and Commonwealth Office's (FCO) programme budgets to support projects in Iran in areas such as engaging with the Islamic world; drugs and crime; climate change;

governance; and counter terrorism. The largest of these funds, the FCO's Global Opportunities Fund has a total of £34.6 million for use in projects around the world for financial year 2005–06.

Jordan

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the security situation in Jordan. [43366]

Dr. Howells: We assess that there is a high threat from terrorism in Jordan. Attacks could be indiscriminate and happen at any time and in any place. Further information about the security situation can be found on the travel advice pages of the Foreign and Commonwealth Office website at http://www.fco.gov.uk.

Nigeria

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Nigerian government on its decision to remove homeless people from Lagos and Abuja; and if he will make a statement. [41528]

Ian Pearson: The relocation of people and property in Abuja is part of a long-running policy of city structure planning and affects both residents and businesses in all levels of society. The Nigerian Minister for the Federal Capital Territory has assured us that only structures built without planning permission and valid land allocation have been affected, that occupants and property owners are given notification well in advance, and that alternative arrangements are being made for communities affected including the offer of plots of land at subsidised rates. We have raised this issue with the Nigerian Government to ensure that humanitarian concerns are being taken into account. The Department for International Development Nigeria Office is in contact with the Nigerian authorities about possible support on these issues.

In Lagos, civil servants have been moved out of government housing. This is a result of a change in the remuneration package for Nigerian civil servants, as part of a wider programme of civil service reform. The entitlement to many non-monetary allowances such as free housing and vehicles has been replaced by higher salaries. We have not made representations on these evictions.

Palestine

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the security situation in Gaza. [43365]

Dr. Howells: We remain concerned at the recent escalation of violence in Gaza and continue to call upon Palestinian Authority (PA) President Mahmoud Abbas to take all the necessary steps to take full control of security in the area. Some progress has been made but more needs to be done. The PA is working closely with the US Security Co-ordinator, General Dayton, in order to improve its effectiveness on security. The EU are working with the PA to expand the current EU Police Support mission to increase the operational capacity of the Palestinian police force.

On 6 January, we updated our travel advice, available from the Foreign and Commonwealth Office website at: http://www.fco.gov.uk, stating that we advise against all travel to the Gaza Strip due to the current security situation and urge all British nationals who do not have continuous and professional close security protection to leave Gaza. Our travel advice is kept under constant review.

Religious Freedom Panel

Mr. Spellar: To ask the Secretary of State for Foreign and Commonwealth Affairs when he next expects to convene a meeting of the Religious Freedom Panel; and if he will make a statement. [42809]

Ian Pearson: We will be contacting members of the panel this month to seek suggestions on possible themes for discussion and guest speakers with a view to convening a meeting in March.

Wherever possible, we aim to work with officials, religious leaders and non- governmental organisations (NGOs) at both an international and local level to promote mutual understanding and tolerance. While we have working contacts with many faith groups and NGOs, we value the breadth that the Freedom of Religion Panel can offer and look forward to a meeting in the near future.

Promotion of human rights, including freedom of thought, conscience and religion, is at the heart of our foreign policy. We condemn instances where individuals are persecuted because of their faith or belief, wherever they happen and whatever the religion of the individual or group concerned.

We take every appropriate opportunity, including with our EU partners, to urge states to pursue laws and practices which foster tolerance and mutual respect and to protect religious minorities against discrimination, intimidation and attacks. We also regularly raise specific cases of religious persecution with the Governments concerned.

Renditions

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government have refused a request by the United States for the rendition through the United Kingdom of *(a)* Mohammed Sadeek Odeh and *(b)* Mohammed Rashed Dauod al-Owhali since 1997. [43594]

Dr. Howells: We have found no evidence that the Government have refused a request from the United States for the rendition of Mohammed Sadeek Odeh or Mohammed Rashed Daoud al-Owhali since 1997.

Somalia

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to encourage the development of a democratic government in Somalia. [24294]

Ian Pearson: With international partners we supported the Somali National Reconciliation process in Nairobi, which led to the return of the Transitional Federal Government and Parliament to Somalia in June

2005. We continue to urge members of the Transitional Federal Government and Parliament in Jowhar and Mogadishu to reconcile their differences and create the conditions for effective, inclusive government, supervised by the Transitional Federal Parliament.

The Transitional Federal Charter envisages the development of a new constitution to be followed by democratic elections in five years. We and international partners are committed to supporting this process.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on the conduct of the Hamdab (Merowe) dam project, Sudan; and if he will make representations to the Chinese Government about the role of Chinese contractors in restricting traditional access to water supplies. [40460]

Ian Pearson: My right hon. Friend the Foreign Secretary has received no representations about the Merowe dam project but our embassy in Khartoum is following the matter closely. It is for the Government of Sudan to set the terms of contracts for infrastructure in its territory, and to ensure that these terms are complied with. Our ambassador discussed the dam project with the Governor of River Nile State, where the dam is located, on his visit to the area in December 2005 and pressed the Sudanese Government to work closely with those communities affected by the project and ensure that their rights and interests are respected. The embassy will continue to raise the consequences of the dam project with the Government of Sudan, and stress the importance of ensuring that such projects, and those implementing them, do not violate the local population's rights.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment he has made of the co-operation of the Government of Sudan with the deployment of the African Union force in Darfur; [40497]

(2) what discussions he has had with the Government of Sudan on expediting the clearance, movement and access throughout Darfur of equipment and personnel needed by the African Union force. [40498]

Ian Pearson: Relevant UN Security Council Resolutions require all parties to the conflict in Darfur to co-operate fully with the African Union Mission in Sudan (AMIS). We are currently pressing the African Union (AU) and the Government of Sudan to sign a Status of Mission Agreement, which will provide a clear legal basis for AMIS, and for other administrative barriers on issues such as customs clearance or the imposition of curfews to be resolved as soon as possible.

However, co-operation by the Government of Sudan has been inconsistent and, at times, detrimental to the effective deployment of AMIS. We regularly discuss this with the AU and any problems are pursued with the Government of Sudan directly by Ministers and via our embassy in Khartoum.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what discussions he has had with the members of the UN Security Council regarding greater co-operation between the Department of Peacekeeping Operations and the African Union to promote stability and security in Darfur; [40502]

(2) what discussions he has had with the members of the UN Security Council regarding the possible role of the Department of Peacekeeping Operations in the long-term stability of Darfur. [40503]

Ian Pearson: We regularly discuss such issues with the Department of Peacekeeping Operations (DPKO) and with members of the UN Security Council. The DPKO is responsible for the United Nations Mission in Sudan (UNMIS) which liaises closely with the African Union Mission in Sudan (AMIS). UNMIS and the African Union (AU) maintain close and regular contact and have undertaken joint activities on the ground in Darfur, such as training in policing and operational planning. They have also agreed that AU personnel will provide escorts for UNMIS human rights observers throughout Darfur. Additionally, the DPKO runs the UN Assistance Cell to the AU based in Addis Ababa, which helps support the AU in planning and providing technical advice for AMIS and works closely with other partners to facilitate the AU Commission's efforts to secure required resources and other support needs for AMIS. We will continue to encourage both the DPKO and the AU to co-operate closely to promote stability and security in Darfur.

Mr. Quentin Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) whether at the meeting of the General Affairs Council of the EU on 21 and 22 November 2005 he proposed supplying tactical lift helicopters to the African Union peacekeeping force in Darfur; [42182]

(2) whether at the meeting of the EU General Affairs Council on 21 and 22 November 2005 he proposed assisting the African Union peacekeeping force in Darfur by providing it with output from satellite surveillance; [42183]

(3) whether at the meeting of the EU General Affairs Council on 21 and 22 November 2005 he proposed providing intelligence from electronic interception to the African Union peacekeeping force in Darfur. [42184]

Ian Pearson: The meeting of the General Affairs and External Relations Council of the EU on 21 and 22 November 2005 discussed the EU's Strategy for Africa in detail, including the need for increased support for peace and security throughout the continent: there was no specific discussion on Sudan.

The UK and other international partners recently participated in a joint assessment mission with the African Union (AU) to examine the effectiveness of the AU Mission in Sudan. The recommendations and conclusions of this report were discussed by the AU at their Political and Security Council meeting on 12 January. We have made clear that we stand ready to help the AU implement the recommendations of this report and improve the effectiveness of the mission.

Zimbabwe

Mr. Kemp: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the treatment of *(a)* dissidents and *(b)* pro-democracy campaigners in Zimbabwe. [42438]

Ian Pearson: We and our EU partners judged the March 2005 presidential elections as neither free nor fair. In addition to the human rights situation, we held reservations about the election environment. We therefore commend the 5 December 2005 African Commission on Human and Peoples' Rights resolution on human rights abuses in Zimbabwe, available at http://www.zlhr.org.zw/media/releases/jan_02_06.htm.

Until there is the full restoration of democratic accountability, respect for human rights and the rule of law, the Government will continue to support those working for peaceful change in Zimbabwe.

Mr. Kemp: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the political situation in Zimbabwe; and what assessment he has made of the prospects for the restoration of democracy in that country. [42439]

Ian Pearson: The political situation remains dire. Mugabe's ZANU(PF) Government continues to tighten its grip on power, including by clamping down on political and social challenge through the illegal confiscation of passports and the harassment of journalists and the trade unionists.

Until Mugabe changes his policies, Zimbabwe will continue to suffer and ordinary citizens will be denied their basic and fundamental rights. Pressure to reform from within Africa is growing, and frustration within Zimbabwe is building. We will continue to support all those who are working towards the restoration of good governance in Zimbabwe.

CABINET OFFICE

Christmas Celebrations

David T.C. Davies: To ask the Chancellor of the Duchy of Lancaster what measures his Department took to celebrate Christmas in 2005. [42379]

Mr. Jim Murphy: The Cabinet Office provided decorated Christmas trees in some buildings. The Department had a corporate greeting card which was sent to people with whom we had worked during 2005. 100 per cent. of the material of the card was from sustainable managed forests, and 40 per cent. of its cost went to charity.

A number of Cabinet Office employees attended and participated in the Whitehall Carol Service organised by the Whitehall-wide Christian Network. Participants included myself and Sir Gus O'Donnell, the Cabinet Secretary, who gave a reading at the service.

Employees organised their own work unit celebrations in the form of meals or parties and some employees decorated their work areas as agreed with their management unit at their own cost. Christmas themed meals were sold on set days in departmental employee canteens.

Departmental Expenditure

Mrs. Villiers: To ask the Chancellor of the Duchy of Lancaster how much was spent by his Department on refreshments in each year since 1997. [41258]

Mr. Jim Murphy: The information requested for the Cabinet Office is not readily available and could be obtained only at disproportionate cost.

Departmental Vehicles

Mrs. Villiers: To ask the Chancellor of the Duchy of Lancaster how many cars are *(a)* owned and *(b)* leased by his Department; what models the cars are; what type of petrol each model requires; and what the fuel efficiency is of each model. [41347]

Mr. Jim Murphy: The number of cars owned by the Cabinet Office; what models the cars are; what type of petrol each model requires; and what the fuel efficiency is of each model, is shown in the table.

Number, model, fuel type and efficiency of cars owned by the Department

Make/model	*Type of petrol*	*Fuel efficiency*
2 × Toyota Prius	Hybrid electricity/ petrol	65.7 mpg (combined)
Vauxhall Vectra LS DTI	Diesel	10.76 average miles/ltr
Ford Focus LX TD DI	Diesel	10.47 average miles/ltr
Peugeot 406 GLX HDI	Diesel	9.52 average miles/ltr
LDV 400 Convoy Minibus	Diesel	5.78 average miles/ltr

For vehicles provided to Government Departments by the GCDA, my hon. Friend, the Parliamentary Under-Secretary of State at the Department of Transport has asked the Chief Executive of the GCDA to write to the hon. Member with the information requested.

All cars owned and leased are used whilst undertaking official business/duties.

Identity Fraud

Mike Penning: To ask the Chancellor of the Duchy of Lancaster what training the Department has provided for *(a)* front desk and *(b)* administrative staff in relation to identity fraud. [41281]

Mr. Jim Murphy: The Cabinet Office does not deliver services directly to the public which may be open to identity fraud. Therefore the Department does not provide this training for their front desk or administrative staff.

DEPUTY PRIME MINISTER

Departmental Estate

Mr. Amess: To ask the Deputy Prime Minister what *(a)* land and *(b)* property his Department owns in the Southend West constituency. [41754]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not own any land or property in the Southend West constituency.

Departmental Estate (Gravesham)

Mr. Holloway: To ask the Deputy Prime Minister what *(a)* land, *(b)* property and *(c)* other assets his Department owns in Gravesham constituency. [43279]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not own any land, property or other assets in the Gravesham constituency.

Departmental Land/Property

Bob Spink: To ask the Deputy Prime Minister what *(a)* land and *(b)* property is owned by his Department in Castle Point. [42897]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not own any land or property in the Castle Point constituency.

Electronic Government

Mrs. Spelman: To ask the Deputy Prime Minister what provisions the Government has made in relation to Implementing Electronic Government to facilitate *(a)* electronic exchange of property information between local authorities and the Valuation Office Agency and *(b)* extend the use of geographical information systems by local authorities. [42603]

Mr. Woolas: One of the 22 Local e-Gov National Projects was Valuebill, which examined ways of effectively and efficiently linking local government and the Valuation Office Agency. This project has now been completed and is being rolled out by London Connects. With regard to geographical information systems, these are readily available commercial products, which local authorities have been able to procure in the same way as any other business software package, according to business need. Local e-government priority outcome G14 requires all local authorities in England to provide

"GIS-based presentation of information on roadworks in the local area, including contact details and updated daily".

This outcome is required to be implemented by the end of March 2006.

English Partnerships

Mr. Benton: To ask the Deputy Prime Minister what criteria English Partnerships used in deciding to end support for housing market renewal land remediation schemes in South Sefton. [41243]

Yvette Cooper: English Partnerships (EP) is continuing to support housing market renewal schemes in Merseyside.

In Sefton, English Partnerships has already invested in acquiring properties in the Bootle area for a combination of refurbishment, new building and some demolition. Planning permission has been granted for two housing association projects providing affordable homes and work is expected to begin in February 2006.

English Partnerships has also provided funding for the acquisition of four former industrial sites and the remediation of one of those sites.

Any further investment by English Partnerships in Sefton will be dependent upon the identification of projects which deliver strategic and transformational physical change which could not be otherwise achieved, and the availability of funding (in addition to Housing Market Renewal Fund allocations, of which some £9 million has been allocated to Sefton in 2005–6).

Funding for housing market renewal areas has been increasing year by year, and against that background and an updated agenda for English Partnerships, English Partnerships is now taking a more strategic role in housing market renewal areas going forward.

In such areas, English Partnerships is no longer providing general funding to assist land assembly and demolition. It is intended that core housing market renewal funding will be used for these purposes. Instead, English Partnership will focus on a limited number of major strategic interventions which fit English Partnerships role in delivering and supporting regeneration projects of national significance, and which would not otherwise be achievable. By definition these projects will be large scale, complex in nature and involve transforming rundown urban areas.

English Partnerships is also continuing to offer valuable advice and support to pathfinders, including on masterplanning, delivery models and best practice drawn from other national programmes.

Local Government Compensation

Mrs. Spelman: To ask the Deputy Prime Minister what the cost of compensation claims to local government was in 2004–05; and what assessment the Government has made of the effect of the trend towards compensation claims on local government. [42608]

Mr. Woolas: The information requested is not held centrally and could be provided only at disproportionate cost.

London Gateway Port Harbour

Bob Spink: To ask the Deputy Prime Minister why the representations made by the hon. Member for Castle Point on the London Gateway Port Harbour proposal during 2005 were not included in his most recent circular letter listing representations received. [43312]

Dr. Ladyman: I have been asked to reply.

The Secretary of State circulated on 9 January representations he received in direct response to his minded approval letter of 20 July 2005 on the proposed London Gateway Port Harbour Empowerment Order in which he had invited representations on certain particular matters. The hon. Members letters sent before the Secretary of State's letter of 20 July were taken in account in the writing of that letter.

It remains open to the hon. Member to make a representation in response to the invitation contained in the Secretary of State's letter of 9 January.

Official Residences (Council Tax)

Mrs. Spelman: To ask the Deputy Prime Minister (1) pursuant to his answer of 12 January 2006, *Official Report*, columns 782–3W, on official residences (council tax), whether *(a)* he and *(b)* a civil servant

registered his residence at Admiralty House with Westminster City Council as a second home for council tax purposes; [43381]

(2) pursuant to his answer of 12 January 2006, *Official Report*, columns 782–3W, on official residences (council tax), whether he has had his council tax bill for his residence in Hull paid from public funds in each year since 1997–98; [43382]

(3) pursuant to his answer of 12 January 2006, *Official Report*, columns 782–3W, on official residences (council tax), on what date he became aware that his council tax bill on his Admiralty House residence was being paid from public funds. [43383]

Jim Fitzpatrick: The answer given by my right hon. Friend the Deputy Prime Minister on 12 January 2006, *Official Report*, column 782W, set out in full the arrangements for the payment of council tax on his official residences.

Park Police (Newham)

Mrs. Spelman: To ask the Deputy Prime Minister what representations his Office has received on the activities of Newham council's park police. [33162]

Mr. Woolas: The Office of the Deputy Prime Minister (ODPM) has had no representation on the activities of Newham council's park police as this does not fall under ODPM remit.

South East Plan

Mr. Soames: To ask the Deputy Prime Minister (1) what estimate he has made of how many additional *(a)* general practitioners, *(b)* hospitals, *(c)* health centres, *(d)* teachers, *(e)* primary schools, *(f)* secondary schools, *(g)* further education institutions, *(h)* police officers, *(i)* police stations, *(j)* court facilities, *(k)* social workers, *(l)* other care workers, *(m)* fire officers and *(n)* fire stations will be required in West Sussex in relation to the additional 58,000 houses indicated in the South East Plan; [42372]

(2) what assessment he has made of what improvements to transport infrastructure will be required before an additional 58,000 houses can be built in West Sussex, as indicated in the South East Plan. [42373]

Yvette Cooper *[holding answer 16 January 2006]:* My right hon. Friend the Deputy Prime Minister has not made any such estimates. The South East Plan is still being drafted by the South East England Regional Assembly. The Assembly expects to submit the remainder to Government at the end of March 2006. Thereafter the plan will be subject of public consultation and also testing by an independent panel, to enable Government to reach conclusions about the amount of housing required in West Sussex and all other parts of the South East.

Vacant Dwellings

Mr. Amess: To ask the Deputy Prime Minister what assessment he has made of the reasons for dwellings being vacant in *(a)* each local authority in Essex and *(b)* each London borough in each of the last five years. [42385]

Yvette Cooper: It is for local housing authorities to assess, as part of their strategic housing function, the reasons why dwellings in their areas are vacant. In general, the Government recognises that dwellings are vacant for a variety of reasons. About half of all private sector vacant dwellings are empty for less than six months and many of these will be unoccupied for transactional reasons to do with sale and renovation and will come back into occupation once sold or renovated. Dwellings that are vacant for non-transactional reasons often have problems associated with disrepair that must be overcome. From April local authorities will have new powers to bring empty houses back into use. We urge every local authority to use their new powers to improve housing in their area.

Valuation Office Agency

Mrs. Spelman: To ask the Deputy Prime Minister what criteria the Valuation Office Agency is applying in assessing whether a residential property starts incurring a business rate liability if a householder works at home in whole or part; and when these criteria were last amended. [42609]

Mr. Woolas: The criteria applied by valuation officers of the Valuation Office Agency (VOA) are set out in the council tax manual published by the VOA on its website at www.voa.gov.uk. The guidance was last updated on 4 March 2004 to reflect the decision of the Lands Tribunal in the case of Tully *v.* Jorgensen (VO) 2003 RA 233.

Mrs. Spelman: To ask the Deputy Prime Minister what role the Valuation Office Agency plays in valuing properties owned by *(a)* central government, *(b)* public sector agencies and *(c)* local authorities other than local authority housing stock. [43007]

Mr. Woolas: The Valuation Office Agency provides valuation advice to central government departments, public sector agencies and local authorities through its District Valuer Services business stream.

The range of valuation advice encompasses asset Valuations for resource accounting and compulsory purchase; advice on the purchase and sale of property; specialist building surveying advice and valuations of mineral bearing property, land fill sites and plant and machinery.

Wind Turbine Projects

Mr. Greenway: To ask the Deputy Prime Minister what planning guidance his Department has issued in respect of wind turbine developments on domestic premises. [42324]

Yvette Cooper: Planning Policy Statement 22 "Renewable Energy" published in 2004 sets out the Government's planning policies for all types and scales of renewable energy projects. PPS22 sets a positive framework for the development of renewable energy by ensuring that local planning authorities include policies in their plans to promote and encourage, rather than restrict, the development of renewable energy resources.

In particular, it notes that small scale renewable energy projects can provide a limited but nonetheless valuable contribution to meeting local and national needs.

PPS22 does not contain specific advice on the issue of wind turbine developments on domestic premises. However, the Office of the Deputy Prime Minister will be reviewing the relevant Part of the General Permitted Development Order later this year, to see if it would be appropriate to extent householders' permitted development rights in respect of the installation of micro-generation technology.

WORK AND PENSIONS

Benefits

Anne Snelgrove: To ask the Secretary of State for Work and Pensions what measures are in place to notify widows and widowers of the monetary benefits available to them when a spouse has passed away. [42170]

Mr. Plaskitt: We keep under review the way that information is made available about benefits so that bereaved people, at this very difficult time in their lives, know about their possible right to benefit and can act on it at the right time. Information is available from the local Jobcentre Plus and social security offices, and the Department for Work and Pensions website gives information about bereavement benefits together with leaflets and claim forms for downloading. Leaflets NP45 "A guide to Bereavement Benefit", D49 "What to do after a death in England and Wales" and D49S "What to do after a death in Scotland" are available for professional advisers and the public, and are reviewed and revised as necessary annually.

As well as providing traditional sources of information, we have been working in partnership with funeral directors, registrars and voluntary groups such as Cruse, National Association of Widows and Citizens Advice Bureaux who may be contacted by bereaved people. In addition we will continue to look for opportunities across Government and their services as they develop, to improve advice about this particular benefit, to those most in need of it—the newly bereaved.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the *(a)* smallest, *(b)* average and *(c)* largest amount fraudulently claimed in benefits which has resulted in a prosecution in respect of which all proceedings are complete is since 1997. [39536]

Mr. Plaskitt *[holding answer 9 January 2006]:* The smallest amount fraudulently overpaid in benefits which has resulted in a prosecution is £0.00. Examples of cases where there has been no benefit overpayment are; collusive employers; attempted duplicate encashment of benefit cheques and order books; aiding and abetting; and identity fraud involving applications for a national insurance number.

Information regarding the average and largest amounts fraudulently claimed in cases which lead to prosecution is not available as such records are not maintained.

Dr. Cable: To ask the Secretary of State for Work and Pensions how much his Department has spent on advertising in respect of benefit fraud in each of the last five years for which figures are available. [41984]

Mr. Plaskitt: The information is in the table.

£000

	Advertising spent
2001–02	8,039
2002–03	35
2003–04	8,383
2004–05	6,017
2005–06	4,553

Notes:
1. Figures are for the advertising spent for the Targeting Fraud (2001 to 2002) and Targeting Benefit Fraud (2003 to 2006) campaigns. The figure for 2005–06 is for invoices paid in the year to date.
2. All figures are exclusive of VAT.
3. The figures in these tables refer to media spend only, excluding production and other costs.
4. All figures have been rounded to the nearest thousand.

Mr. Sanders: To ask the Secretary of State for Work and Pensions what the national targets are for the Benefit Fraud Inspectorate; and what the performance of relevant offices in South Devon has been against those targets. [41995]

Mr. Plaskitt: Nationally, the three main business objectives of the Benefit Fraud Inspectorate for 2005–06 are; to complete 50 full and focused inspections; to complete two specialist inspections; and to complete 100 assignments by the Performance Development team.

The Benefit Fraud Inspectorate has no offices in South Devon.

Mr. Ruffley: To ask the Secretary of State for Work and Pensions how many and what percentage of local authorities detected fraudulent claims for *(a)* housing benefit and *(b)* council tax benefit resulted in prosecutions in each of the last six years. [42547]

Mr. Plaskitt: Information on the number of fraudulent claims for housing benefit and council tax benefit that have been detected is not available. Therefore it is not possible to provide the percentage of fraudulent claims that have been prosecuted.

The number of successful prosecutions for benefit fraud by local authorities in each of the last six years is given as follows.

Prosecutions and conviction for benefit fraud by local authorities

	Number of court summons issued (prosecutions)	*Number of successful prosecutions (convictions)*
1999–2000	—	861
2000–01	—	1,112
2001–02	2,101	1,732
2002–03	3,187	2,503
2003–04	4,601	3,747
2004–05	5,544	4,688
2005–06 (Q1 and Q2 only)	3,336	2,892

Note:
The number of court summons issued is not available prior to 2001–02.

Housing Benefit/Council Tax Benefit Management Information Returns.

Chris Ruane: To ask the Secretary of State for Work and Pensions what steps he *(a)* has taken and *(b)* plans to take to reduce the complexity of the benefits system. [41825]

Mr. Plaskitt: The National Audit Office in Annex A of its report "Dealing with the complexity of the benefits system", published on 18 November 2005, acknowledged that the Department has already taken a number of steps to tackle complexity. We announced at the Public Accounts Committee hearing on 7 December 2005 that we are setting up a dedicated benefit simplification team which will seek to build on those steps.

Mr. Laws: To ask the Secretary of State for Work and Pensions what his Department's expenditure was on each benefit listed in the 7 December 2005 Uprating Statement in each year from 1990–91 in *(a)* cash terms and *(b)* real terms using 2003–04 prices. [41490]

Mr. Plaskitt: The information has been placed in the library.

Mr. Laws: To ask the Secretary of State for Work and Pensions what his latest estimate is of the take-up rate of council tax benefit *(a)* in total and *(b)* by income decile; and if he will make a statement. [41575]

Mr. Plaskitt: The latest information on the take-up rate of council tax benefit is available in "Income Related Benefits Estimates of Take-Up in 2002/2003", a copy of which is in the Library.

The information is not available broken down by income decile.

Danny Alexander: To ask the Secretary of State for Work and Pensions when he plans to publish a bill on housing benefit reform; and if he will make a statement. [40884]

Mr. Plaskitt: The Government set out its intention in the Queen's speech to bring forward legislation by the end of this Parliamentary Session to reform support for housing costs. We will also be setting out more broadly our proposals for welfare reform in a Green Paper to be published shortly.

Danny Alexander: To ask the Secretary of State for Work and Pensions what evidence he has collected on the effect of the local housing allowance on work incentives in Pathfinder areas; and if he will make a statement. [40885]

Mr. Plaskitt: The Department has commissioned a comprehensive evaluation of the nine Pathfinder local authorities where the local housing allowance is being tested. The evaluation is collecting evidence on work incentives in Pathfinder areas but this will not be reported upon until the end of the evaluation later this year.

Danny Alexander: To ask the Secretary of State for Work and Pensions what the average change has been in the amount of housing benefit overpayments going unrecovered in *(a)* Pathfinder and *(b)* non-Pathfinder areas since the Pathfinder pilots started. [40887]

Mr. Plaskitt: The information is not available.

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will estimate the cost of rolling out the local housing allowance to *(a)* Scotland, *(b)* England, *(c)* Wales and *(d)* Northern Ireland if additional central funding was provided to benefit authorities to support the transition at a level comparable to the funding provided to Pathfinder authorities. [40917]

Mr. Plaskitt: Until the evaluation of the local housing allowance Pathfinders is complete and the design, timing and approach to a national rollout is determined, we are unable to say what amount of transitional funding would be made.

It is unlikely that funding provision to cover the transition to the local housing allowance would be identical under a national roll-out to that provided to the Pathfinder authorities, because of the additional costs associated with running and evaluating a pilot.

Mr. Pelling: To ask the Secretary of State for Work and Pensions what the total housing benefit paid to residents was in *(a)* the London borough of Croydon and *(b)* Greater London in 2004–05. [41137]

Mr. Plaskitt: The total housing benefit paid in the London borough of Croydon for 2004–05 was £118,986,098. The total housing benefit paid in all London boroughs for 2004–05 was £3,396,902,703.

These figures are the gross expenditure amounts taken from the 2004–05 housing benefit audited final subsidy claims. As audit processes are not yet complete, the amounts are subject to change.

Mr. Kemp: To ask the Secretary of State for Work and Pensions whether he plans to include in the proposed Housing Benefit Bill a pilot scheme for the social rented sector and housing benefit sanctions for antisocial neighbours. [42735]

Mr. Plaskitt: The Government set out its intention in the Queen's speech to bring forward legislation by the end of this parliamentary session to reform support for housing costs. We will also be setting out more broadly our proposals for welfare reform in a Green Paper due to be published shortly.

The Government announced in the Respect Action Plan, published on 10 January, that it is considering the use of sanctions to ensure that those households who are evicted for antisocial behaviour take up help offered to them. If we decide to go ahead, we will look for a suitable legislative vehicle.

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will estimate the cost of raising all housing benefit and council tax benefit earned income disregards in line with inflation since 1988. [38495]

Mr. Plaskitt: The information necessary from which to make such an estimate is not available.

Danny Alexander: To ask the Secretary of State for Work and Pensions what the average shortfall resulting from the single room rent restriction on housing benefit has been in each year since its introduction. [38496]

Mr. Plaskitt: The available information is in the table.

Median rent shortfall for housing benefit claimants restricted by the single room rent

	£
1997–98	25
1998–99	24
1999–2000	24
2000–01	26
2001–02	26
2002–03	[1]
2003–04	30
2004–05	31

[1] A reliable estimate of the median shortfall in 2002–03 is not available due to data limitations.

Notes:
1. A shortfall is defined as the difference between the rent charged by the landlord and the maximum amount of housing benefit a claimant could receive. This does not take into account non-dependant deductions or any income over the applicable amount.
2. The average measure given in this response is the median as this will not be as influenced as the mean by a small number of extreme observations, some of which may be recorded incorrectly in the data. It is therefore more representative of the average rent shortfall.
3. The average rent shortfalls presented in the table apply only to those cases assessed under the single room rent restriction where this restriction results in a rent shortfall. Some cases assessed under the single room rent restriction will be bound by other Rent Officer restrictions and some will not face a shortfall. In 2004–05 three-quarters of all cases assessed under the single room rent restriction faced a shortfall as a result of this restriction.
4. Average rent shortfalls are rounded to the nearest pound.

Source:
Rent Officer data, England and Wales from 1997–98 to 2000–01 and England only from 2001–02 onwards.

Mr. Ruffley: To ask the Secretary of State for Work and Pensions if he will update the table on the number of households claiming means-tested benefits set out on 31 March 2003, *Official Report*, column 602W, broken down by *(a)* household type and *(b)* number of children. [42543]

Mr. Plaskitt: The most recent available information is in the following table.

Income support (IS), income-based jobseeker's allowance (JSA(IB)), housing benefit (HB) and council tax benefit (CTB) recipients by family type: Great Britain, May 2003

	IS/JSA(IB)	HB	CTB
Single (no children)	2,977,000	2,195,000	2,728,000
Couple (no children)	442,000	439,000	686,000
Single parent (one child)	473,000	411,000	422,000
Single parent (two children)	315,000	293,000	306,000
Single parent (three or more children)	208,000	199,000	209,000
Couple (one child)	92,000	91,000	99,000
Couple (two children)	87,000	88,000	93,000
Couple (three or more children)	92,000	79,000	84,000
Total benefit units with at least one person receiving benefit	4,686,000	3,796,000	4,628,000
Total number of adults in benefit units where at least one person is receiving benefit	5,399,000	4,494,000	5,591,000
Total number of children in benefit units where at least one person is receiving benefit	2,431,000	2,244,000	2,348,000

Notes:
1. Figures are rounded to the nearest thousand.
2. Numbers are based on 1 per cent., 5 per cent. and 100 per cent. samples, and are therefore subject to a degree of sampling variation.
3. JSA(IB) figures have been derived by applying 5 per cent. proportions to 100 per cent. WPLS totals.
4. The data refers to benefit units, which may be a single person or a couple.
5. Income-based JSA includes cases with underlying entitlement to contribution-based JSA.
6. Council tax benefit totals exclude any second adult rebate cases.
7. Housing benefit figures exclude any extended payment cases.
8. Children are defined as children aged under 16 and young persons aged 16 to 18 in full time education.
9. There will be a significant overlap between the figures as most people receive both HB and CTB, and a significant proportion also receives IS or JSA.
10. Single parents are defined as all claimants with dependants and without a partner.
11. Figures may be affected by the introduction of the new tax credits in April 2003.
12. IS figures include MIG claimants.

Sources:
1. Information Directorate, 5 per cent. samples.
2. Work and Pensions Longitudinal Study (WPLS) 100 per cent. data.
3. Housing Benefit and Council Tax Benefit Management Information System, Annual 1 per cent. sample, taken in May 2003.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many people he estimates were entitled to but did not receive each benefit administered by his Department and its agencies in each year since 1997–98; what the sum of unclaimed benefit was in each year; and if he will make a statement. [41464]

Mr. Plaskitt: Estimates of the numbers entitled to, but not receiving the main income-related benefits administered by the DWP—minimum income guarantee/income support, jobseeker's allowance (income-based)—as well as local authority administered housing benefit and council tax benefit, can be found in the DWP publication series entitled: "Income Related Benefits Estimates of Take-Up", along with estimates of unclaimed benefit. Copies of the annual reports are held in the Library. The latest edition presents patterns in the take-up of each benefit, between 1997–98 and 2002–03.

These estimates predate the introduction of pension credit, which replaced MIG in October 2003. Estimates of pension credit will be published on 31 January 2006; this publication will include the first six months of pension credit. Estimates for the full year 2004–05 are expected to be published in May 2006.

Currently it is not possible to estimate take-up rates for disability living allowance and attendance allowance. Following a recommendation in "Meeting DWP's long-term information needs on disability: a feasibility report", (DWP Research report number 267), the Department is commissioning research to test two possible approaches to establish whether it is possible to estimate take-up rates for these benefits. Results will be available in 2007.

Information on other DWP administered benefits is not available.

Child Maintenance

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how much child maintenance outstanding from 1993–94 to 2004–05 from non-resident parents with cases with the Child Support Agency resulted from *(a)* full maintenance assessments and maintenance calculations where the outstanding amount is deemed to be possibly uncollectable or collectable, *(b)* full maintenance assessments and maintenance calculations where the outstanding amount is deemed probably uncollectable, *(c)* interim maintenance assessments where the outstanding amount is deemed to be possibly uncollectable or collectable and *(d)* interim maintenance assessments where the outstanding amount is deemed to be probably uncollectable; and what proportion of each category of debt has been recovered. [27502]

Mr. Plaskitt *[holding answer 11 November 2005]:* The administration of the Child Support Agency is a matter for the chief executive Mr. Stephen Geraghty. He will write to the right hon. Member with the information requested.

Letter from Stephen Geraghty, dated 19 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions how much child maintenance outstanding from 1993–94 to 2004–05 from non-resident parents with cases with the Child Support Agency resulted from *(a)* full maintenance assessments and maintenance calculations where the outstanding amount is deemed to be possibly uncollectable or collectable, *(b)* full maintenance assessments and maintenance calculations where the outstanding amount is deemed probably uncollectable, *(c)* interim maintenance assessments where the outstanding amount is deemed to be possibly uncollectable or collectable and *(d)* interim maintenance assessments where the outstanding amount is deemed to be probably uncollectable; and what proportion of each category of debt has been recovered.

The tables provided show Agency debt from 1994–1995 to 2004–2005 split by collectability and assessment type. These are cumulative figures representing debt arising from the respective year and all previous years as no debt has ever been written off by the Agency.

As reported in the 2004/05 annual report, the Agency updated the classification criteria used to analyse debt. This was to reflect improved management information around the recoverability of debt, resulting in more debt being classified as collectable. The outstanding amounts will be pursued vigorously through the Enforcement Directorate.

The Agency currently receives over £585 million maintenance per year however there is still a culture surrounding its activities whereby some non-resident parents perceive it as acceptable not to comply with the Agency and make their maintenance payments. The Agency has therefore begun to take steps to tackle this issue.

Debt has been increasing year on year because many non-resident parents actively avoid their obligations for example by changing jobs when the Agency imposes enforcement action on them or changing addresses whenever the Agency locates them. The Agency recognises that it needs to make more use of its powers of enforcement, and has started to take steps to do this, however this is constrained by the requirements of the legal process and dependent on decisions made by the courts.

A dedicated Enforcement Directorate has been set up to focus on the collection of debt from the more difficult cases and the Agency is aggressively pursuing non-compliant clients more pro-actively than in the past. The directorate's aims are also to change the culture to one where it is not acceptable to deliberately avoid payment of maintenance.

The creation of the Enforcement Directorate has already improved the Agency's enforcement performance and effectiveness with improved outcomes at the more routine stages of enforcement for example, bailiff action, third party debt orders and charging orders.

The number of liability orders granted is improving with more than 4,500 liability orders being granted already this financial year. Also this year the amount collected by bailiff teams has doubled to £3 million and the Agency has achieved successful outcomes in increasing numbers of committal actions. In addition, the directorate has achieved collections of £8.39 million from April to November 2005, with November achieving the highest in month collections of £1.42 million.

The actions outlined above should therefore start to reduce the historic debt levels and improve compliance.

The achievements are modest in the context of the total debt but demonstrate that more focussed enforcement action can be successful. I have also made recommendations to Ministers on further improving enforcement following my review of the operations of the Agency.

I hope you find this response helpful.

Child maintenance outstanding as reported in annual report and accounts

£ million

Cumulative Agency Debt position at year end 2004–05	*Full maintenance assessment*	*Maintenance calculation*	*Interim maintenance assessment*	*Default maintenance decision*
Collectable	459.19	88.9	78.5	11.2
Possibly uncollectable	290.24	n/a	309.30	n/a
Probably uncollectable	1,017.26	28.5	938.66	n/a
Deferred	30.83	n/a	0.17	n/a
Total	1,797.52	117.40	1,326.63	11.20

Maintenance collected as reported in the annual report and accounts

£ million

Sums received	*Full maintenance assessments*	*Maintenance calculations*	*Interim maintenance assessments*	*Default maintenance assessments*	*Total*
2004–05	482.70	93.02	8.78	0.91	585.41
2003–04	549.14	18.89	11.96	0.28	580.27
2002–03	558.57	n/a	13.98	n/a	572.55
2001–02	513.93	n/a	14.52	n/a	528.45
2000–01	483.84	n/a	18.71	n/a	502.55
1999–2000	437.25	n/a	23.43	n/a	460.68
1998–99	370.08	n/a	22.30	n/a	392.38
1997–98	286.48	n/a	19.68	n/a	306.16
1996–97	201.41	n/a	11.80	n/a	213.21
1995–96	127.73	n/a	6.72	n/a	134.45
1994–95	74.20	n/a	—	n/a	74.20

n/a = Not available.

Notes:

1. The annual report and accounts for previous years were re-published in 1997–98, due to a change in accounting policy in reporting collectability of the debt. Also, the Agency did not publish audited accounts in 1993–94; and no figures are therefore shown for this year.
2. The new scheme was launched on 3 March 2003, and (monies from new scheme cases and default maintenance decisions) began to accrue in the 2002–03. Information is provided from this date.
3. The "Deferred" figures represent arrears maintenance that the Agency has agreed not to collect from non-resident parents because the Agency was wholly or partly responsible for the build-up of those arrears.
4. Full maintenance assessments and interim maintenance assessments include new and old scheme cases. Maintenance calculated and default maintenance decisions are new scheme only.
5. The Agency is unable to provide the proportion recovered for each debt category. The principle behind the recoverability of debt as reported in the annual report and accounts is based on a sample of cases examined as part of a National Audit Office approved annual debt analysis exercise.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions how many requests for information Child Support Agency staff may make to the DVLA each month; how many requests were made in each month since 2001; and what the average time taken to respond was. [30092]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member.

Letter from Hilary Reynolds, dated 19 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive, as Stephen Geraghty is on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions, how many requests for information Child Support Agency staff may make to the DVLA each month; how many requests were made in each month since 2001; and what the average time taken to respond was.

Under the terms of the July 2002 Service Level Agreement, the Child Support Agency may issue up to 70 requests for information from the DVLA per calendar month (840 per year) nationally.

The Agency holds robust data on the number of requests for information issued to the DVLA for each month since 1st December 2003:

	Number
2003	
December 2003	29
2004	
January	48
February	54
March	60
April	56
May	52
June	48
July	47
August	54
September	44
October	39
November	52
December	45
2005	
January	47
February	46
March	45
April	47
May	41
June	60
July	41
August	33
September	55
October	45

We can also say with accuracy that a total of 871 requests for information were issued to the DVLA in the period from 1st April 2002 to 30th November 2003, although we cannot break this down on a monthly basis.

We do not currently have robust information on volumes of requests issued to the DVLA earlier than April 2002.

The average time taken to obtain a response from the DVLA is not available, but under the terms of the Service Level Agreement requests for information from the Child Support Agency should be returned within 10 working days of their receipt by the DVLA. The table below outlines the current success rate achieved against that target in the current financial year:

	Percentage
2005	
April	90
May	66
June	40
July	71
August	82
September	87
October	100

I hope you find this information useful.

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of cases on the Child Support Agency old scheme have been reassessed in the last three years. [30004]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member.

Letter from Stephen Geraghty, dated 19 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions what proportion of cases on the Child Support Agency old scheme have been reassessed in the last three years.

The information requested is not available.

I am sorry I can't be more helpful at this time.

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions (1) what contingency plans he has prepared in relation to computer systems used by the Child Support Agency; [30018]

(2) by what date he will decide whether to cease using the new computer system provided by EDS to assess Child Support Agency cases; and if he will make a statement. [30023]

Mr. Plaskitt: We recognise that there are ongoing problems with the service delivered to clients of the Child Support Agency via the computer system. These are unacceptable and we continue to work closely with EDS to effect improvement.

Danny Alexander: To ask the Secretary of State for Work and Pensions how many people in Scotland have been non-compliant with their Child Support Agency assessment in each quarter since the first quarter of 1996. [31129]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 19 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many people in Scotland have been non-compliant with their Child Support Agency assessment in each quarter since the first quarter of 1996.

Such information as is available is set out in the attached table.

The information requested cannot be extracted for new scheme cases and old scheme cases on the new computer system in Scotland for the period March 2003 to the present. Therefore the table refers to old scheme cases prior to the introduction of the new scheme.

It should be noted that whilst the number of non compliant cases increased by two thousand between February 1996 and February 2003, the overall caseload also increased over the same period. The compliance rate in reality increased over this time from 58 to 76 per cent.

I hope you find this information helpful.

Number of non compliant Child Support Agency collection service cases in Scotland, in each quarter from February 1996 to February 2003

	Non compliant cases
February 1996	7,000
May 1996	6,000
August 1996	7,000
November 1996	7,000
February 1997	7,000
May 1997	7,000
August 1997	6,000
November 1997	6,000
February 1998	6,000
May 1998	7,000
August 1998	8,000
November 1998	8,000
February 1999	9,000
May 1999	7,000
August 1999	9,000
November 1999	10,000
February 2000	10,000
May 2000	10,000
August 2000	10,000
November 2000	11,000
February 2001	12,000
May 2001	12,000
August 2001	12,000
November 2001	13,000
February 2002	12,000
May 2002	10,000
August 2002	9,000
November 2002	8,000
February 2003	9,000

Notes:

1. Numbers are rounded to the nearest thousand.
2. Compliance is defined as all those cases which are open and have paid money via the collection service in Scotland over the preceding quarter.
3. The table only includes old scheme cases with a full maintenance assessment. Those with a punitive interim maintenance assessment are excluded from this analysis, in line with the Agency's target definition.

Miss McIntosh: To ask the Secretary of State for Work and Pensions what use has been made by the Child Support Agency of *(a)* attachment of earnings orders, *(b)* withdrawal of driving licences and *(c)* other enforcement powers in each of the last three years; and what estimate he has made of the cost of tagging absent parents failing to pay monies owed for their children. [41106]

Mr. Plaskitt: The Child Support Agency does not use attachment of earnings orders; the child support legislation allows for a deduction from earnings order (DEO) to be made.

The following table below shows the number of cases with a DEO as a method of maintenance collection in the particular month stated. This table also shows the percentage of cases this affects.

Month	*Cases with DEO as a method of maintenance collection*	*Percentage of cases with DEO as a method of collection*
November 2002	134,000	24
November 2003	—	—
November 2004	131,000	22
September 2005	147,000	22

Notes:
1. Numbers include deduction from earnings requests (DER's), which are issued when the non-resident parent is in the armed forces.
2. Numbers are rounded to the nearest thousand.
3. Robust information covering the period May 2003 to February 2004 is not currently available.
4. The number of cases includes those old scheme cases with a full maintenance assessment, and those new scheme cases with either a full maintenance calculation, or a default maintenance decision. Old scheme cases with a punitive interim maintenance assessment (an imposed assessment due to the non co-operation of the non-resident parent), a small number of which would have deductions from earnings orders in place, are excluded from this analysis in line with the Agency's target definitions, as are new scheme cases being processed clerically. There are also currently around 5,000 cases for which the method of payment is unknown, some of which could be DEOs.

Committal to prison or disqualification from holding a driving license are enforcement sanctions used as a last resort by the agency when all other enforcement measures have failed. The court will decide which of the sanctions is the most appropriate.

The following table shows the committal to prison and disqualification from driving outcomes in Great Britain.

Number

	Suspended committal sentence	*Committal sentence*	*Driving licence—suspended sentence*	*Driving licence—disqualified*
2003–04	95	8	9	1
2004–05	224	8	31	5
November 2005–06	212	8	13	4
Total	531	24	53	10

The following table shows the number of litigation cases instigated in England and Wales.

Number

	County court judgements	*Bailiffs*	*Third party debt orders*	*Charging orders*
2003–04	513	3062	1395	922
2004–05	1180	4446	1292	851
November 2005–06	1348	4962	1132	878
Total	3041	12470	3819	2651

The following table shows the number of litigation cases instigated in Scotland.

Number

	Arrestments	*Attachments*	*Attached goods auction*	*Letters of inhibition*
2003–04	768	81	4	102
2004–05	457	115	2	232
November 2005–06	323	97	2	331
Total	1548	293	8	665

Mr. Laws: To ask the Secretary of State for Work and Pensions what targets his Department has for improvement in customer perception of the performance of the Child Support Agency; and if he will make a statement. [41333]

Mr. Plaskitt: Ministers will set targets for 2006–07 which will be aimed at ensuring real, sustained progress towards performance improvements and delivery.

Mr. Laws: To ask the Secretary of State for Work and Pensions what guidelines are given to staff at the Child Support Agency in relation to the circumstances in which deduction of earnings orders can be imposed; and if he will make a statement. [41371]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 19 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what guidelines are given to staff at the Child Support Agency in relation to the circumstances in which deduction of earnings orders can be imposed; and if he will make a statement.

A deduction from earnings order is a method of enforcement action to be used on non-resident parents in employment if there is an indication that payment will not be made or when payment breaks down. The law does not require the Agency to repeatedly warn clients or wait for a history of non-payment to emerge.

Child Support Agency staff are advised of the action to take in cases where a deduction from earnings order is appropriate in on-line procedural guidance, Adviceline bulletins and through training. They are asked to consider imposing a deduction from earnings order on a case if any of the following situations arise:

Other methods of payment have been ineffective with payments late, missed or partial.

The non-resident parent fails to respond to arrears notices, warning letters or calls.

The Agency holds a confident employer details for the non-resident parent.

The non-resident parent voluntarily requests payment direct from earnings.

Our staff are advised that whether or not a deduction from earnings order can be imposed depends upon the type of income the non-resident parent is receiving. I have listed below a summary of the additional scenarios that should be taken into account before a deduction from earnings order is imposed:

The non-resident parent has two or more employers

The non-resident parent is not classed as employed.

The non-resident parent is self-employed

The non-resident parent is in receipt of Statutory Sick Pay

The non-resident parent is in receipt of Statutory Maternity Pay,

The non-resident parent is in receipt of Statutory Redundancy Pay.

The non-resident parent is the subject of Sequestration (in Scotland).

The non-resident parent's employer is outside of Child Support Agency jurisdiction.

I hope you find this helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions whether it is his policy that there will be no major reductions in front line staffing at the Child Support Agency; and if he will make a statement. [41385]

Mr. Plaskitt: As stated in the Government response to the Work and Pensions Select Committee report on 24 March 2005, there will be no major reductions in front line staffing until the new computer system is working effectively.

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will publish the assessment of the Child Support Agency's business transformation plan made by the new chief executive; and if he will make a statement. [41400]

Mr. Plaskitt: We have received the report from the chief executive and we are considering the findings. The Secretary of State will make an announcement on child support shortly.

Mr. Laws: To ask the Secretary of State for Work and Pensions what action he is taking to strengthen the Child Support Agency's powers to require non-resident parents to provide information on their current address and employment details; and if he will make a statement. [41545]

Mr. Plaskitt: It is a criminal offence, under Section 14A of the Child Support Act, for not supplying information to the Agency when requested to do so or by knowingly providing false information. This offence currently carries a maximum £1,000 fine.

Harry Cohen: To ask the Secretary of State for Work and Pensions how the Child Support Agency has responded to representations to it from men who were deemed to be fathers without care but subsequently proved not to be the father for compensation or interest on the sums taken from them in addition to reimbursement of the sum itself; and if he will make a statement. [42683]

Mr. Plaskitt: If maintenance has already been paid by the alleged non-resident parent when he is found not to be the father, he will receive a refund of any maintenance paid.

Compensation or interest would not normally be paid in addition unless there has been maladministration on the part of the Agency. Each case is considered on its merits.

Mr. Laws: To ask the Secretary of State for Work and Pensions what the total cost has been of running the Child Support Agency including all capital costs, in each year since 1994–95; and if he will make a statement. [21433]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 19 January, 2006:

You asked the Secretary of State for Work and Pensions, what the total cost has been of running the Child Support Agency including all capital costs in each year since 1994–95. The information that you requested is in the following table:

£ million

	Net administration costs	*Capital expenditure*	*Maintenance paid*
1994–95	192.393	1.993	82.4
1995–96	199.268	1.880	128.63
1996–97	224.525	3.937	207.75
1997–98	225.942	1.375	298.80
1998–99	231.174	2.458	389.96
1999–2000	260.333	4.310	457.44
2000–01	250.046	1.423	498.86
2001–02	290.413	0.247	526.80
2002–03	294.286	1.467	570.69
2003–04	322.983	0.517	580.09
2004–05	325.619	0.457	583.15

Anne Snelgrove: To ask the Secretary of State for Work and Pensions in how many Child Support Agency cases which have gone to court those paying maintenance have been ordered to make repayments over a period of longer than 16 years. [26099]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to my hon. Friend with the information requested.

Letter from Stephen Geraghty, dated 19 January 2006:

In reply to your recent Parliamentary about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions in how many Child Support Agency cases which have gone to court those paying maintenance have been ordered to make repayments over a period of longer than 16 years.

I am not able to provide this information as the Agency does not hold data that can identify what repayment arrangements have been ordered by the courts. I am sorry I could not be more helpful.

Disability Discrimination Act

Sarah Teather: To ask the Secretary of State for Work and Pensions whether his Department has carried out research into awareness of the implications of the Disability Discrimination Act 2005 for recruitment and employment of disabled people among *(a)* small, *(b)* medium-sized and *(c)* large businesses; and what steps he is taking to increase awareness among such businesses with particular reference to enabling access to workplaces. [30943]

Mrs. McGuire: The primary impact on recruitment and employment of disabled people among businesses of all sizes stems from the Disability Discrimination Act 1995 as amended by the Disability Discrimination Act 1995 (Amendment) Regulations 2003. These Regulations significantly extended the employment provisions of the 1995 Act to cover small employers and all previously excluded occupations, except the armed forces, from 1 October 2004. Research into the impact of the Act has formed part of DWP's on-going programme of research into the awareness of Disability Discrimination legislation.

The Department commissioned two research projects to determine employers' awareness of, and their responses, to the duties introduced in October 2004, The results were published in 'Research Report 202: Disability in the workplace: Employers and service providers responses to the Disability Discrimination Act in 2003 and preparation for 2004 changes'; and 'Research Report 277: Disability in the workplace: Small employers' awareness and responses to the

Disability Discrimination Act 1995 and the October 2004 duties'. Copies of these reports can be found in the House of Commons Library.

DWP is planning research that will continue to analyse the awareness of and response to the Disability Discrimination Act, particularly among those with duties specific to the DDA 2005. Employers of all sizes will be captured both within the survey and case study aspect of this research, and results will be published in a report due in autumn 2006.

DWP launched a further awareness campaign on 1 December 2005 aimed at reminding small businesses about the duties placed on them by the October 2004 legislative changes.

Electronic Data Systems

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what discussions his Department has had with the National Audit Office on the Child Support Agency contract with Electronic Data Systems. [41665]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the right hon. Member with the information requested.

Letter from Stephen Geraghty, dated 19 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what representations his Department has received from the National Audit Office on the background to the Child Support Agency contract with Electronic Data Systems.

The Select Committee Report in January 2005, on the Performance of the Child Support Agency provided Government with a number of recommendations. Recommendation 3 focused on the CSA contract with EDS:

"We recommend that the National Audit Office undertakes a comprehensive study of the background to the CSA contract with EDS as soon as it is feasible to do so, and that Parliament should debate the findings in Government time on the floor of the House."

The Government noted this recommendation in its response to the Select Committee in March 2005.

National Audit Office has commenced an investigation into Child Support Reforms, which will address this recommendation. It is currently in the process of gathering evidence.

I hope you find this information helpful.

Job Losses (Warrington)

Helen Jones: To ask the Secretary of State for Work and Pensions what support his Department will provide to people in Warrington who lose their jobs as a result of the closure of the Safeway distribution centre. [43242]

Margaret Hodge: Funding has been approved to enable the Jobcentre Plus Rapid Response Service to support the Safeway workers in a variety of ways. A Skills Training Analysis will be conducted to assess individuals' existing skills and to identify specific needs in relation to further employment. In addition, funding will enable the provision of job focused training if not available from other sources or Jobcentre Plus partners.

Specific funding has also been allocated to enable Jobcentre Plus staff within the affected district to assist individuals through this process, giving information, advice and guidance.

Additionally, Jobcentre Plus staff are working closely with the company to provide help by:

attending planning meetings with the company's Human Resources team;

holding one to one briefing sessions for affected staff;

placing financial advisers with the company, initially for two weeks;

holding a mini Jobsfair at the company;

conducting interviews for claiming benefit on the company premises and issuing all relevant paperwork;

making arrangements to take claims on Saturday mornings at the Jobcentre;

arranging for personal advisers to contact staff currently off sick to offer assistance.

Jobseeker's Allowance

Mr. Laws: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of increasing the level of jobseeker's allowance (JSA) by *(a)* £1 per week, *(b)* £5 per week and *(c)* £10 per week for each rate of JSA. [41384]

Mr. Plaskitt: No such estimate has been made.

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of the off-flow from jobseeker's allowance found work in each year from 1990–91; and if he will make a statement. [41438]

Mr. Plaskitt: Information is not available prior to 1998. For the available information, I refer the hon. Member to the written answer I gave on 8 November 2005, *Official Report*, column 381W.

Mr. Kemp: To ask the Secretary of State for Work and Pensions how many people aged over 50 years claimed jobseeker's allowance (JSA) in Houghton and Washington, East constituency in *(a)* 2001–02, *(b)* 2002–03, *(c)* 2003–04 and *(d)* 2004–05; and what percentage (i) remained on JSA, (ii) found work, (iii) moved onto income support and (iv) moved onto incapacity benefit in each year. [42446]

Mr. Plaskitt: The information is not available in the format requested. The available information is in the table.

Jobseeker's allowance (JSA) claims where the claimant is aged 50 or over in the Houghton and Washington, East parliamentary constituency and percentage who left the benefit

	Case load	*Percentage left JSA*
2001–02	900	77.8
2002–03	900	66.7
2003–04	1,000	70.0
2004–05	1,100	81.8

Notes:
1. Figures refer to financial years from 1 April to 31 March.
2. All figures refer to JSA claims where the claimant is aged 50 or over. People who have had multiple JSA claims will be counted more than once.
3. Per cent. left JSA refers to the percentage of JSA claims (where the claimant was aged 50 or over) that had terminated by the end of the financial year.
4. Numbers are rounded to the nearest hundred; percentages are rounded to one decimal place.

Source:
DWP Information Directorate, 5 per cent. terminations dataset.

National Insurance Numbers

Lynne Jones: To ask the Secretary of State for Work and Pensions how many applicants for national insurance numbers have been waiting more than *(a)* one month, *(b)* three months and *(c)* six months for them to be issued. [42214]

Mr. Plaskitt: The information is not collected centrally and can be obtained only at disproportionate cost.

Non-resident Parents (Maintenance Payments)

Vera Baird: To ask the Secretary of State for Work and Pensions how many *(a)* custodial sentences have been imposed and *(b)* driving licences have been confiscated for the persistent non-payment of maintenance by non-resident parents in each of the last three years (i) in the United Kingdom and (ii) in the Middlesbrough courts area. [38943]

Mr. Plaskitt *[holding answer 20 December 2005]:* The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 19 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions how many *(a)* custodial sentences have been imposed and *(b)* driving licences have been confiscated for the persistent non-payment of maintenance by non-resident parents in each of the last three years (i) in the United Kingdom and (ii) in the Middlesbrough courts area.

The information you requested is set out as follows:

Committal to prison and the removal of driving licences in Great Britain:

	Number of cases referred to court	*Suspended prison sentences*	*Committal to prison*	*Suspended driving licence withdrawals*	*Driving licence withdrawals*
2003–04	240	95	8	9	1
2004–05	662	224	8	31	5
2005–06 (April to November)	554	212	8	13	4

Notes to table:

(i) The figures are given for Great Britain since the Northern Ireland Child Support Agency administers child support in Northern Ireland.

(ii) The fact that the number of suspensions and actual penalties is less than half the number of referrals is explained by the number of debtors who enter into agreements to pay rather than attend court. Similarly, only a very small number of debtors actually go to prison or lose their driving licences because the courts normally suspend a sentence on condition that the defendant commits to pay.

No custodial sentences have been imposed in the Middlesbrough courts area.

One driving licence has been withdrawn in the Middlesbrough courts area. This was in June 2005.

I hope this information is helpful.

Pensioners (Castle Point)

Bob Spink: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of pensioners in Castle Point who do not claim their full entitlement of benefits and allowances. [42828]

Mr. Timms: The information requested is not available.

Latest estimates of the number of pensioners who are entitled to but not receiving the minimum income guarantee, housing benefit and council tax benefit are available on a national basis only. They can be found in the DWP report entitled "Income Related Benefits Estimates of Take-Up in 2002/2003". Copies of the publication are available in the Library.

These estimates are published annually in the DWP report "Income Related Benefits Estimates of Take-up". The next set of statistics, due to be released on 31 January 2006, will contain figures for the first six months of pension credit.

Currently it is not possible to estimate take-up rates for disability living allowance and attendance allowance. The Department is commissioning research to establish whether it is possible to estimate take-up rates for these benefits. Results will be available in 2007.

Information on the number of pensioners entitled to but not receiving other DWP administered benefits is not available.

Pensions

Mr. Dodds: To ask the Secretary of State for Work and Pensions if he will estimate expenditure on state pensions with the winter fuel allowance and pension credit being abolished, state second pension being retained and the basic state pension being raised to the level of the guaranteed credit and increased in line with earnings thereafter for *(a)* 2006, *(b)* 2010, *(c)* 2020, *(d)* 2030, *(e)* 2040 and *(f)* 2050 as a percentage of gross domestic product. [34789]

Mr. Timms: The information is in the table:

	Total expenditure (percentage)
2006	5.4
2010	5.8
2020	6.3
2030	7.7
2040	8.6
2050	9.3

Notes:

1. The figures include spending on basic state pensions, additional pensions, over 75s TV licence and Christmas bonuses.
2. Expenditure on basic state pension, additional pension and other pensioner benefits are based on PBR 2005 long-term projections for future GB benefit expenditure.
3. The additional gross cost of raising the BSP to the GC level from 2006–07 has been provided by the Government Actuary's Department (GAD). These figures are for GB only.
4. All figures are rounded to the nearest 0.1 percent.

5. There would also be a reduction in spending on other means tested benefits such as housing and council tax benefit and increase in tax revenues if the basic state pension was linked to guarantee credit level and then uprated by earnings.
6. Under this hypothetical policy change there would be losers. People who had less than full BSP or received pension credit with a disabled or carers premium may lose under this system.

Mr. Dodds: To ask the Secretary of State for Work and Pensions if he will estimate expenditure on state pensions with the winter fuel and pension credit being abolished, state second pension being abolished and the basic state pension being raised to the level of the guaranteed credit and increased in line with earnings thereafter for *(a)* 2006, *(b)* 2010, *(c)* 2020, *(d)* 2030, *(e)* 2040 and *(f)* 2050 as a percentage of gross domestic product. [34848]

Mr. Timms: The information is in the table:

	Total expenditure (percentage)
2006	5.4
2010	5.8
2020	6.2
2030	7.3
2040	7.8
2050	7.9

Notes:
1. The figures include spending on basic state pensions, additional pensions, over 75s TV license and Christmas bonuses.
2. Expenditure on basic state pension, additional pension and other pensioner benefits are based on PBR 2005 long-term projections for future GB benefit expenditure.
3. The figures for additional pension are based on the assumption that all SEPRS and S2P accruals up to 5 of April 2006 would still be paid.
4. The figures for the gross costs of raising the basic state pension to the guarantee credit level from 2006–7 and the costs of paying the existing SERPS and S2P accruals are provided by the Government Actuary's Department, they are based on PBR forecasts and are for GB only.
5. There would also be a reduction in spending on other means tested benefits such as housing and council tax benefit and increase in tax revenues if the basic state pension was linked to guarantee credit level and then uprated by earnings.
6. Under this hypothetical policy change there would still be losers. People who had less than full BSP or received pension credit with a disabled or carers premium may lose under this system.
7. The figures are rounded to the nearest 0.1 percent.

Abolishing S2P would mean that the contracted out rebate would no longer need to be paid. This would save:

	Percentage
2006	0.9
2010	0.7
2020	0.6
2030	0.5
2040	0.4
2050	0.4

Note:
The figures are rounded to the nearest 0.1 percent.

Mr. Iain Wright: To ask the Secretary of State for Work and Pensions what steps his Department is taking to help contracted and sub-contracted workers achieve appropriate pensions. [39757]

Mr. Timms: The Government have taken a number of steps to help all people save for their retirement, including contracted and sub-contracted workers who do not have access to a suitable company pension scheme. For employees, the introduction of the state second pension in April 2002 is helping around 18.7 million people to build up entitlement to a second tier pension: this includes around 5.8 million low earners, and around 8.8 million moderate earners.

We also introduced stakeholder pensions in April 2001 as an additional pension option. These are flexible and portable with a limit on annual management charges, and they allow for minimum contributions of as little as £20 at a time. As stakeholder pensions are also open to non-earners, policy holders can continue to contribute to their pension plan in any periods of non-employment. These features may be of particular benefit to contracted and sub-contracted workers, who may have interrupted work patterns.

The Government's informed choice programme is also helping people, including contracted and sub-contracted workers, improve their pension provision by raising overall levels of financial education and awareness of the need to plan and provide for retirement. We aim to ensure people have tailored, accurate and timely information, and to improve levels of financial literacy and capability. Overall we are trying to achieve a behavioural and cultural change so that all people actively plan for their retirement.

Mr. Laws: To ask the Secretary of State for Work and Pensions what assessment his Department is undertaking of the merits of the Pensions Commission's recommendation of a national pension savings scheme run by an independent not-for-profit body. [41852]

Mr. Timms: The Government have welcomed the Pensions Commission's second report, and welcomed its proposals and options as the right basis for building the concensus we need.

The Government are in the process of examining the recommendations made by the Commission in detail. This includes recommendations on a National Pension Savings Scheme. We are consulting with the public and stakeholders on these key issues, as part of the National Pension Debate; in order to develop these ideas and test them against the criteria that we believe will deliver a lasting settlement.

At this stage of the debate no decisions have been taken on this specific recommendation, and we are ruling nothing in and nothing out.

Telephone Helplines

Mr. Laws: To ask the Secretary of State for Work and Pensions how many telephone calls to the Child Support Agency *(a)* were received, *(b)* received an engaged tone and *(c)* were disconnected during the interactive voice response process for the period April 2002 to September 2005 for (i) all calls and (ii) calls relating to the cases being progressed on the new computer system; and if he will make a statement. [24540]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 19 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions: how many telephone calls to the Child Support Agency were *(a)* received *(b)* engaged and *(c)* disconnected during the interactive voice response process for the period April 2002 to September 2005 for (i) all calls and (ii) calls relating to the cases being progressed on the new computer system; and if he will make a statement.

The information requested is contained in the attached table.

As you will see, since experiencing the major, well-documented problems associated with the introduction of the new Child Support Scheme in March 2003, the Agency has shown significant improvements in telephony performance.

In particular, for those calls for which management information is available as to the eventual outcome of the call:

In the period April-September 2005, 82 per cent. of total calls received were answered, up from 58 per cent. in 2003–04.

In the period April-September 2005, only 3 per cent. of total calls received were ineffective (which means they received an engaged tone, or failed due to other system problems) down from 14 per cent. in 2003–04.

Calls abandoned can be split into two types, those abandoned while in queues waiting for staff to answer them and those calls abandoned in the automated touch tone/Interactive Voice Response (IVR) part of the process before they have joined a queue to be answered by staff (for example if the client does not have a National Insurance number to hand and hangs up to go and find it before calling back).

Calls abandoned in the automated touch-tone/IVR part of the process have remained relatively stable at around 6 per cent. of total calls received over the last 3 years.

Calls abandoned once in a queue has fallen from 22 per cent. of total calls received in 2003–04 to 10 per cent. in the period April-September 2005.

89 per cent. of calls which entered a queue after passing through the IVR/touchtone part of the process were successfully answered between April and September 2005, up from 73 per cent. in 2003–04.

I hope you find this information helpful.

Number of calls received by the CSA and the outcomes of those calls April 2002 September 2005

Numbers of calls (Thousand)	*April 2002-March 2003*	*April 2003-March 2004*	*April 2004-March 2005*	*April-September 2005*

Total CSA (both schemes and systems)				
Attempted customer calls to both CSCS and CS2 numbers	4,145	6,051	5,738	2,705
calls for which outcome not recorded	45	145	48	27
calls for which outcome recorded	4,100	5,906	5,689	2,678
calls that received an engaged / busy tone	See note 1	498	126	21
other ineffective calls	See note 1	355	210	72
calls abandoned / lost during the IVR process	n/a	362	320	135
calls that were answered from the queue (post IVR)	3,121	3,417	4,240	2,189
calls abandoned in queue (post IVR)	528	1,274	794	261
% of accounted for calls answered	76	58	75	82
% of calls that were answered from the queue	86	73	84	89

Notes:

1. Total calls received exclude calls outside working hours.
2. It is not possible to break down ineffective calls into those that did or did not receive an engaged tone for old system calls in 2002–03.
3. Other ineffective calls are those that result in a ring tone but no reply, fail due to network technical problems, or are answered by a BT message but do not connect to the CSA system.
4. The figures exclude new system (CS2) calls received between April 2003 and June 2003 (of which there were 225,000) as the Agency does not hold disaggregated management information as to the outcome of these calls.
5. 'Calls for which outcome not recorded', are those which were received but for which, due to problems with the MI system, the eventual outcome was not recorded. Some of these calls would have been answered, and others would have been abandoned. The volume of such calls has decreased significantly in the last 3 years as management information systems have improved.
6. 'Calls for which outcome recorded' are those which were received and for which there is management information to track the eventual outcome.

7. IVR denotes the automated touch tone part of the process where customers enter their details via the telephone key pad. Once callers have cleared this part of the process, they enter a queue to be answered by a member of CSA staff. There is no IVR process on the old system.
8. Numbers are rounded to the nearest thousand, and percentages to the nearest per cent. Components may not sum to totals due to rounding.

Winter Fuel Payments

Mr. Hollobone: To ask the Secretary of State for Work and Pensions how many pensioners in Kettering constituency were entitled to winter fuel payment in each year since its introduction. [37048]

Mr. Timms: Information relating to winter fuel payments for the winters of 1997–98 and 1998–99 is not available. The information for Kettering constituency from winter 1999–2000 is in the following table. These figures are also available in the Library.

Kettering constituency	*Payments made*
1999–2000	17,360
2000–01	19,395
2001–02	19,745
2002–03	19,965
2003–04	20,425
2004–05	20,510

Notes:
1. Figures are rounded to the nearest five.
2. Local authorities and parliamentary constituencies are assigned by matching postcodes against the relevant ONS postcode directory.

Source:
Information Directorate, 100 per cent. sample

Jeff Ennis: To ask the Secretary of State for Work and Pensions how many people received winter fuel payments in *(a)* Barnsley and *(b)* Doncaster in 2004–05. [42118]

Mr. Timms: In winter 2004–05 there were 44,700 people in the Barnsley local authority area and 58,575 people in the Doncaster local authority area who received a winter fuel payment.

Notes:
1. Figures are rounded to the nearest five.
2. Local authorities are assigned by matching postcodes against the relevant ONS postcode directory.

Source:
Information Directorate, 100 per cent. sample.

Norman Lamb: To ask the Secretary of State for Work and Pensions (1) what factors he took into account when deciding that pensioners who reached pensionable age after 25 September 2005 should not be eligible to claim winter fuel payments for the winter of 2005–06; [42382]

(2) what the annual cost implications are of restricting eligibility for the winter fuel payments to those pensioners who reach pensionable age before 25 September of the year in which the allowance becomes payable. [42383]

Mr. Timms: To be eligible for a winter fuel payment people must have reached age 60 by the end of the qualifying week, which for this winter was the 25 September 2005. This is to ensure that the majority of payments are made before Christmas.

If the qualifying week in Great Britain had been 31 December for this winter's payment, around an additional 160,000 people in Great Britain would have become eligible to receive a payment around March 2006 at a cost of approximately £23 million.

Hywel Williams: To ask the Secretary of State for Work and Pensions what arrangements are in place to suspend the payment of the winter fuel payment when a claimant enters residential care. [42662]

Mr. Timms: Anyone who satisfies the conditions for receiving a winter fuel payment for any day in the relevant week is entitled to receive a payment. Decisions about entitlement are based on information in the Department's record. Customers are entitled to question decisions if the information on which they are based is incorrect.

HOME DEPARTMENT

Central Witness Bureau

Lynne Featherstone: To ask the Secretary of State for the Home Department what progress has been made on the creation of a central witness bureau; and if he will make a statement. [42778]

Fiona Mactaggart: This project is progressing well and we expect to be able to make an announcement before the beginning of the next financial year.

Child Pornography

Mr. Gibb: To ask the Secretary of State for the Home Department how many people *(a)* received a police caution for and *(b)* were convicted of possession of indecent photographs of children in each year since 1995. [42573]

Paul Goggins: The information from the court proceedings database held by the Office for Criminal Justice Reform is contained in the table and gives the number of offenders cautioned and found guilty of possession of indecent photographs of children in England and Wales, 1995 to 2004.

Number of offenders cautioned and found guilty at all courts for offences relating to child pornography, England and Wales, 1995 to 2004[1]

Offence Description	*Disposal*	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
Take or make indecent photographs of children[2]	Cautioned	18	15	14	26	31	35	38	63	239	201
	Found guilty	44	69	103	82	139	218	289	434	1,048	978
Possession of an indecent photograph of a child[3]	Cautioned	11	16	17	19	34	25	32	53	205	162
	Found guilty	37	79	81	105	99	77	75	97	239	184

[1] All data given refer to the principal offence only.
[2] Offences under the Protection of Children Act 1978, section 1 and section 6 as amended by the Criminal Justice and Public Order Act 1994, section 84.
[3] Offences under the Criminal Justice Act 1988, section 160 as amended by the Criminal Justice and Services Act 2000, section 41(3) (previously 181/06).

Criminal Cases Review Commission

Keith Vaz: To ask the Secretary of State for the Home Department how many appeals to the Criminal Cases Review Commission have been received; and how many cases the Criminal Cases Review Commission has referred back to the courts. [42025]

Fiona Mactaggart: The total number of applications received by the Criminal Cases Review Commission up to 31 December 2005 is 8,343. Out of these 308 have been referred back to the courts.

Criminal Damage Act

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females were (i) prosecuted and (ii) convicted during 2004 of an offence under section 1(1) of the Criminal Damage Act 1971. [41010]

Fiona Mactaggart: Data from the court proceedings database held by the Office for Criminal Justice Reform on the number of males and females proceeded against at the magistrates courts and found guilty at all courts for offences under section 1(1) of the Criminal Damage Act 1971, England and Wales, 2004 is given in the following table.

Number of males and females proceeded against at magistrates courts and found guilty at all courts for offences under section 1(1) Criminal Damage Act 1971, England and Wales, 2004[1]

Offence description	*Principal statute*	*Males*		*Females*	
		Proceeded against	*Found guilty*	*Proceeded against*	*Found guilty*
Arson not endangering life	Criminal Damage Act 1971 S.1(1) (named 'arson' by virtue of s.1(3))	1,163	850	174	172
Other criminal damage	Explosive Substances Act S.2 (in part) and S.3 (in part); Malicious Damage Act 1861 SS.35, 36, 47 and 48; Ancient Monuments and Archaeological Area Act 1979 S.28(1); Post Office Act 1953 S.60; Criminal Damage Act 1971 S.1 (1) (an offence or offences against the Criminal Damage Act 1971, value of damage over £5,000 or one offence under the Criminal Damage Act 1971 whatever the value of damage involved, when committed at the same time as an additional offence other than Criminal Damage)	12,032	8,157	1,327	972
Racially aggravated other criminal damage	Criminal Damage Act 1971 S.1 (1) as amended by the Crime and Disorder Act 1998 S.30(1) and (2)	448	195	69	34
Religiously aggravated other criminal damage	Criminal Damage Act 1971 S. 1(1) as amended by the Crime and Disorder Act 1998 S.30(1) and (2)	14	9	3	—
Racially or religiously aggravated other criminal damage	Criminal Damage Act 1971 S. 1(1) as amended by the Crime and Disorder Act 1998 S.30(1) and (2)	74	43	13	9
Causing damage to an allotment through negligence or any unlawful act. Criminal damage, value £5,000 or less	Allotments Act 1922 S.1 9; Criminal Damage Act 1971 S.1(1); Magistrates Courts Act 1980 S.22 as amended by Criminal Justice and Public Order Act 1994 S.46	38,714	28,620	4,105	2,876

[1] These data are provided on the principal offence basis

Criminal Law (Environmental Matters)

Mr. Gauke: To ask the Secretary of State for the Home Department whether he plans to amend the criminal law in relation to environmental matters as a consequence of the judgment of the European Court of Justice of 15 September 2003. [41027]

Fiona Mactaggart: In its judgment of 13 September 2005 the European Court of Justice annulled certain European legislation to protect the environment through criminal law because it had been adopted under the wrong treaty provisions. That annulment has no impact on the application of national laws of the United Kingdom. Moreover, the United Kingdom relied largely on existing legislation in order to comply with the instrument. The Government have no plans to amend the criminal law in relation to environmental matters as a consequence of the judgment.

Departmental Objectives

Mr. Amess: To ask the Secretary of State for the Home Department if he will make a statement on progress towards his Department's strategic objective 2. [41055]

Fiona Mactaggart: Strategic objective 2 (more offenders are caught, punished and stop offending, and victims are better supported) is underpinned by our public sector agreement (PSA) targets:

No. 2 part (f)—to improve victim and witness satisfaction

No. 3—to improve the delivery of justice

And our PSA Standard to reduce reoffending.

The latest performance against these targets and the Standard was published in the Home Office autumn performance report 2005 Cm6707 on 19 December 2005 and is available on the Home Office website.

More information is available in the Home Office departmental report Cm6528 which was published in June 2005 and is also available on the Home Office website. The next Home Office department report will be published shortly after the end of the 2005-06 financial year.

DNA Database

Daniel Kawczynski: To ask the Secretary of State for the Home Department if he will take steps to bring the number of British citizens whose DNA is kept on record down to the EU average. [43285]

Andy Burnham: There are no plans to bring the number down. The relatively large number of people on the British National DNA Database means there is a greater chance of matching DNA found at the scene of a crime to a suspect. The Database provides the public with a vital intelligence tool, providing around 3,000 intelligence matches per month. There has been a four-fold increase in the number of detections obtained through the use of DNA between 1999 and 2005.

Drug Addicts (Treatment)

Andrew Rosindell: To ask the Secretary of State for the Home Department if he will make a statement on the scheme of giving drug addicts who commit non-violent offences treatment in the community rather than short prison terms; and whether there are plans to expand the scheme to include those who commit non-violent offences under the influence of alcohol. [39591]

Fiona Mactaggart: The Drug Interventions Programme (DIP) aims to make the most of opportunities provided by the criminal justice system to direct drug misusing offenders out of crime and into treatment and break the destructive cycle of drugs, offending and prison.

Key elements of the Programme are delivered in all areas of England while the "intensive" elements of the Programme are currently operational in 97 areas with high levels of acquisitive crime. This includes testing individuals for Class A drugs who are charged with a trigger offence. Testing on Arrest is currently operational in three areas of England and will commence in all other DIP intensive areas in England on 31 March 2006. The results of the tests are also used to inform court decisions on bail and sentencing. It is a matter for the courts to determine the most appropriate sentence according to the offence committed.

From October 2000 until the introduction of the community order of the Criminal Justice Act 2003 in April 2005, drug treatment was delivered as a requirement of a community sentence through the Drug Treatment and Testing Order (DTTO). The DTTO is gradually being replaced by the Drug Rehabilitation Requirement (DRR) of the community order for offenders aged 18 or over.

There are no plans to extend DIP to include those who commit offences under the influence of alcohol. An Alcohol Treatment Requirement (ATR) is available to courts as a non-custodial sentencing option for offences linked to alcohol use.

Drugs Act

Paul Flynn: To ask the Secretary of State for the Home Department what estimate he has made of the change in the numbers of people who will be *(a)* arrested, *(b)* brought to court and *(c)* imprisoned in the next three years as a result of the Drugs Act 2005. [41698]

Paul Goggins: The regulatory impact assessment drawn up in connection with the implementation of the Drugs Act 2005 focussed on the additional number of convictions and offenders imprisoned on an annual basis. The figures were 2,294 and 287 respectively. No estimate was put on numbers of arrests and prosecutions.

Drugs Rehabilitation Programme

Peter Viggers: To ask the Secretary of State for the Home Department what response the Government have made to requests for funding for the detoxification and rehabilitation programme operated by RADAR in conjunction with Coldturkey UK. [41421]

Caroline Flint *[holding answer 16 January 2006]:* I have been asked to reply.

We have no record of having received any formal bid to central Government for the funding of any drug services operated by The Royal Association for Disability and Rehabilitation (RADAR).

However, the Department's currently funds RADAR through the section 64 general scheme as follows:

	£
2003-04	86,400
2004-05	95,000
2005-06	95,000

This core funding is for RADAR's central administrative costs, and covers their objectives to work towards change enabling disabled people to control their own lives, by promoting regulation, good practice and equality of opportunity, advocating the removal of physical and attitudinal barriers: informing disabled people, disability organisations and others on matters affecting disabled people, and supporting disability organisations.

Golden Jubilee Medal

Mrs. Moon: To ask the Secretary of State for the Home Department if he will extend HM the Queen's Golden Jubilee Medal awarded to prison officers or armed forces personnel who had five years of service by February 2002 to officers working in private prisons. [36288]

Fiona Mactaggart: Prison Custody Officers (PCO) currently working in contracted sector prisons who had completed five years of service in the public sector Prison Service by February 2002 and who fall within the set eligibility criteria are eligible for the Queen's Golden Jubilee Medal. There are no plans to extend the Queen's Golden Jubilee Medal to any other staff employed within the contracted prison sector.

Highways Act

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* males and *(b)* females were (i) prosecuted and (ii) convicted during 2004 of an offence under section 132(1) of the Highways Act 1980. [41012]

Fiona Mactaggart: Persons proceeded against and found guilty at the magistrates courts of offences under section 132(1) of the Highways Act 1980 cannot be separately identified on the court proceedings database held by the Office for Criminal Justice Reform as they form part of a miscellaneous group which cannot be analysed.

Home Detention Curfew Scheme

David Davis: To ask the Secretary of State for the Home Department how many offences have been committed by those released on home detention curfew, broken down by offence. [30808]

Fiona Mactaggart: As at 31 October 2005 over 119,000 offenders had been released on to the home detention curfew scheme since it was introduced in January 1999. As of 31 October 2005, the Home Office had been notified of 4,095 offenders (or 3.4 per cent. of the total) who had been convicted, cautioned or were awaiting prosecution for 7,437 further offences committed or allegedly committed while they were subject to the scheme. The following table breaks down this figure by further offences.

Breakdown of all further offences

28 January 1999 to 31 October 2005	*Total*
Total	7,437
Violence against the person	833
Sexual offences	18
Burglary	337
Robbery	100
Theft and handling	1,780
Fraud and forgery	252
Drug offences	589
Motoring offences	1,733
Other	1,794

Independent Monitoring Boards

Mr. Bellingham: To ask the Secretary of State for the Home Department what the size is of the independent monitoring board for each *(a)* prison and *(b)* Immigration Removal Centre establishment; what the membership is of each board; and if he will make a statement. [16380]

Fiona Mactaggart: The complement of each prison and immigration removal centre Independent Monitoring Board is shown the following table together with the number of members in each Board as on 3 October 2005.

Board	*Complement (maximum Board size[1])*	*Number of members (as on 3 October 2005)*

[1] New board complements were issued, as a guide to Boards, in spring 2005. Minimum and maximum board sizes were set at 10 and 20 Board members respectively and recommended complements are being achieved though natural wastage.

Mr. Bellingham: To ask the Secretary of State for the Home Department how many applications were submitted to join the Independent Monitoring Board for each prison and immigration removal centre establishment in each of the last five years; what proportion were successful; and if he will make a statement. [16382]

Fiona Mactaggart: The information is provided in the following tables.

Applications and appointments made to IMBs in prisons in the last five years

Period	Number of applications	Number of appointments	Percentage of appointed
Year ending 3 October:			
2000–01	261	116	44.4
2001–02	189	79	41.8
2002–03	388	260	67
2003–04	336	275	81.8
2004–05	233	191	82
Last five years	1,407	921	65.5

Applications and appointments made to immigration removal centres in prisons in the last five years

Period	Number of applications	Number of appointments	Percentage of appointed
Year ending 3 October:			
2000–01	6	3	50
2001–02[1]	8	9	112.5
2002–03	7	7	100

2004–05	14	10	71.4
Last five years	55	49	89.1

[1] Included a transfer.

Parenting Contracts

David Davis: To ask the Secretary of State for the Home Department how many parenting contracts have been signed in each of the past two years. [42148]

Fiona Mactaggart: The Youth Justice Board has collected data on the number of parenting contracts entered into by youth offending teams since one April 2004. 555 parenting contracts were made between 1 April 2004 and 31 March 2005 and 218 between 1 April 2004 and 30 September 2005 (the latest period for which data is available).

The Department for Education and Skills has collected data regarding parenting contracts in cases of non-attendance and exclusion from school since September 2004. 5,717 parenting contracts were recorded for truancy and 410 for exclusion between September 2004 and 31 July 2005 (the latest period for which data is available).

David Davis: To ask the Secretary of State for the Home Department how many parenting contracts have been breached in each of the past two years. [42149]

Fiona Mactaggart: Data is not collected on the number of parenting contracts that are breached.

David Davis: To ask the Secretary of State for the Home Department how many breached parenting contracts have led to parenting orders in each of the past two years. [42150]

Fiona Mactaggart: Data is not collected on the number of parenting contracts which are not complied with and lead to a parenting order.

Parenting Orders

David Davis: To ask the Secretary of State for the Home Department how many parenting orders have been made without the child or young person appearing in court for offending in each of the past two years. [42155]

Fiona Mactaggart: Section 26 of the Anti-social Behaviour Act 2003 allows youth offending teams to apply for parenting orders in respect of children and young people who have engaged in antisocial behaviour or criminal conduct. Parenting orders under section 26 can be made without the child or young person appearing in court.

This power came into force on 27 February 2004. The Youth Justice Board has collected data on its use since 1 April 2004. 80 parenting orders under section 26 were made during April 2004 to March 2005 and 71 were made during April 2005 to September 2005 (which is the latest available data).

Prison Escapes

Lynne Featherstone: To ask the Secretary of State for the Home Department how many escapes from *(a)* prisons and *(b)* young offenders institutions there have been in each year since 1995, broken down by the relevant categories set out in the Departmental Annual Report; and if he will make a statement. [42779]

Fiona Mactaggart: The number of escapes from prisons and Prison Service escorts for each category of establishment is shown in the following table.

Escapes from prisons in England and Wales April 1995 to December 2005

	Adult		*Young offender*		*Juvenile*		*Total*	
	Prison	*Prison service escort*	*Prison*	*Prison service escort*	*Prison*	*Prison service escort*	*Prison*	*Prison service escort*
1995–96	41	33	4	3	7	0	52	36
1996–97	30	19	3	1	0	0	33	20

2005–06[1]	1	7	0	0	0	0	1	7

[1] To December

Prisons

John Bercow: To ask the Secretary of State for the Home Department what help is offered by his Department to prisoners to cease smoking. [39660]

Fiona Mactaggart: People in prison are being helped to stop smoking through services specially targeted to meet their needs, including nicotine replacement therapy. In 2001–02 the Department of Health ran a pilot project on smoking cessation in prison. It publication, "Acquitted", is a reference guide for those starting up new stop smoking services in the prison setting and outlines key learning points from the project. It is targeted at both NHS smoking services and prisons. An evaluation is under way to report on the Department of Health's £1.5 million investment, between 2003 and 2006, for smoking cessation services in prisons.

Mrs. Moon: To ask the Secretary of State for the Home Department what steps he is taking to reduce the number of vulnerable people in prison. [41153]

Fiona Mactaggart: As regards adult offenders, the Criminal Justice Act 2003 provides that a custodial sentence may only be imposed on adult offenders when the offence is so serious that no other sentence can be justified. A wide range of non-custodial sentences is available to deal with offenders. While sentencing in individual cases is entirely a matter for the courts, the Government believes that prison should be reserved for dangerous, violent and seriously persistent offenders.

The 2003 Act also provides that before passing a custodial sentence on an offender who is or appears to be mentally disordered, the court must consider any information before it relating to his mental condition, and the likely effect of a custodial sentence on that condition. Section 166 of the Act specifically allows the court to mitigate sentences for mentally disordered offenders, and to impose non-custodial sentences where normally a custodial sentence would be justified.

Hospital orders rather than custodial orders can be issued at the sentencing stage, and where mental health issues come to light only while in custody, the offender can be removed from prison and transferred to a secure hospital.

The Sentencing Guidelines Council (which issues sentencing guidelines to which criminal courts in England and Wales must have regard) has issued a guideline confirming that mental illness is generally a mitigating factor in sentencing.

The 'Development Programme for Extending Offender Health Support', a joint initiative between the Home Office and Department of Health, has recently

been introduced to help the courts identify, assess and make appropriate recommendations for the care and management of offenders with health and social care needs. The programme's underpinning goal is to ensure that prison is not a default destination for vulnerable individuals whose care and management needs could more appropriately be met elsewhere.

Juvenile offenders are dealt with under a separate sentencing structure that provides for their special vulnerability.

Keith Vaz: To ask the Secretary of State for the Home Department why recent services at the mosque in Broadmoor Prison have been cancelled. [41685]

Jane Kennedy: I have been asked to reply.

I am informed by North West London strategic health authority that services at the mosque in Broadmoor hospital have not been cancelled. Just before Eid celebrations, the weekly prayer session at the mosque was postponed due to the unavailability of the visiting Imam.

I understand at Broadmoor hospital, prayer sessions are conducted at the mosque by a visiting Imam every Friday. I have been assured that Broadmoor hospital has no intention or desire to reduce access to the mosque.

Mr. Greg Knight: To ask the Secretary of State for the Home Department what plans he has for the *(a)* expansion of and *(b)* creation of new prison facilities at HMP Full Sutton, near York; and if he will make a statement. [42364]

Fiona Mactaggart: There are no plans, at present, to either expand Her Majesty's Prison Full Sutton or to build a new prison on the site adjacent to the existing prison.

Development of this site remains an option for providing additional prison capacity if necessary.

Mr. Hollobone: To ask the Secretary of State for the Home Department how many prosecutions there have been for supplying illegal drugs in prisons in each year since 1997. [36135]

Paul Goggins: Decisions to prosecute are taken by the Crown Prosecution Service and the number of prosecutions undertaken is not collated by the Prison Service. The number of visitors arrested on suspicion of supplying drugs into prison and the number of prisoners found guilty at adjudication of offences involving drug smuggling through visits is given in the table.

	Number of visitors arrested on suspicion	*Number of prisoners found guilty of smuggling drugs through visits at adjudication*
2004–05	439	1,065
2003–04	448	884
2002–03	404	988
2001–02	526	1,123
2000–01	499	1,169
1999–2000	728	1,086

Probation Officers

Mr. Amess: To ask the Secretary of State for the Home Department if he will list the complaints made by *(a)* members of the public, *(b)* hon. Members and *(c)* members of the House of Lords in each of the last 10 years for which figures are available; and what the outcome of each complaint was about the conduct of probation officers. [37548]

Fiona Mactaggart: The Department does not collect the information in the form requested. A National Complaints Procedure, agreed by the Secretary of State, enables local probation areas to handle complaints. Complaints must be from offenders or their nominated representatives. Unresolved local complaints are escalated to the independent Prison and Probation ombudsman. The following table details the number of complaints received by the Prison and Probation ombudsman since 1 September 2001, the date on which the NPS complaints procedure, and the ombudsman's responsibility for investigating complaints about the probation service were implemented.

Complaints made by offenders or their representatives about the Probation Service, received by the Prison and Probation ombudsman since 1 September 2001

	Number received	*Number eligible*
September 2001 to March 2002	83	5
April 2002 to March 2003	191	31
April 2003 to March 2004	279	28
April 2004 to March 2005	307	41

The number eligible column shows the number of complaints out of all those received that have been eligible for the ombudsman to investigate. The ombudsman's terms of reference (and the NPS complaint procedure) require that all three stages of the complaint procedure must have been completed before the ombudsman may investigate a complaint. The three stages are: informal investigation by the local office, formal investigation by the Chief Officer or a senior officer nominated by the CO, and finally the appeal stage when a panel of three Board members hears the appeal. The ombudsman may accept complaints that are referred to him within one month of the complainant receiving the result of the appeal.

Security Guards

Paul Flynn: To ask the Secretary of State for the Home Department if he will extend the 20 March deadline for the licensing of security guards. [43105]

Paul Goggins: From 20 March 2006 it will be an offence to work as a manned guard (security guard, CCTV operative, Cash and Valuables in Transit, Close Protection) without a licence from the Security Industry Authority. Keyholders will also need to be licensed from that date. This date will not be extended beyond 20 March.

Serious Organised Crime and Police Act

Mr. Rob Wilson: To ask the Secretary of State for the Home Department what guidance his Department has issued to the police on the implementation of the Serious

Organised Crime and Police Act 2005 in the vicinity of Parliament since the recent arrest and conviction of Maya Anne Evans. [38812]

Paul Goggins: No guidance has been issued on the provisions of the Serious Organised Crime Act dealing with Parliament Square. Home Office officials have worked closely with the Metropolitan police on the implementation of this legislation. We do not consider that written guidance to the Commissioner is necessary. However, we keep the need for guidance under review, in the light of operational experience.

Torture

John Bercow: To ask the Secretary of State for the Home Department how many convictions will be affected by the Law Lords ruling that evidence extracted under torture is inadmissible in judicial proceedings. [39751]

Fiona Mactaggart: We have no reason to believe that any convictions will be affected by this ruling. In criminal proceedings in England and Wales, the courts have a range of powers to prevent the admission of evidence that may have been obtained improperly or illegally, including through means of torture. Courts have the discretion to exclude evidence if it is unduly prejudicial or unfair, and a judicial discretion to stay proceedings if they are considered to be an abuse of the court's process. Defendants also enjoy the protections afforded by Article six of the European Convention of Human Rights (ECHR), the right to a fair trial. Article three of the ECHR also prohibits torture and inhuman or degrading treatment.

In addition, a confession is not admissible unless it meets the requirements set out in sections 76 and 78 of Police and Criminal Evidence Act (PACE). That is, the evidence will not be admissible if it is unreliable or has been obtained by oppression. Section 76(8) of PACE states that oppression includes torture, inhuman and degrading treatment and the use or threat of violence

Young Offenders

David Davis: To ask the Secretary of State for the Home Department what the recidivism rate among young offenders was in each of the last eight years. [42168]

Fiona Mactaggart: Reconviction rates for young offenders following a pre-court disposal, a non-custodial sentence at court or discharge from custody have been published as part of the Home Office's monitoring of its PSA (Public Service Agreement) target on reducing reoffending. The most recent data were published in "Juvenile reconviction: results from the 2003 cohort". The report shows one year reconviction rates for juvenile offenders (those aged 10 to 17) for 1997 and 2000 to 2003.

Some statistics on reconviction rates for young offenders released from prison or starting a community sentence have been published in "Prison Statistics: England and Wales" and "Probation Statistics, England and Wales" but these are on a different basis from the PSA results. These publications are available in the House of Commons Library.

Reconviction rates should be used with caution as a number of different factors can influence them. Reconviction rates can be adjusted to take account of the changing characteristics of offenders and these adjusted rates are published on the Home Office's website. The most recent data show that there has been a reduction in re-offending for young offenders of 2.4 per cent. against the 2000 baseline. The Home Office Public Service Agreement target is to reduce re-offending by 5 per cent. by 2006.

Youth Resettlement Action Plan

David Davis: To ask the Secretary of State for the Home Department when his Department expects to publish the Youth Resettlement Action Plan. [42164]

Fiona Mactaggart: A National Youth Resettlement Framework for Action is in the final stages of development by the Youth Justice Board for England and Wales. The framework should be ready for publication by the end of February. I will ensure the hon. Member receives a printed copy and will arrange for copies to be placed in the House Libraries.

NORTHERN IRELAND

Benefit Fraud

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland were prosecuted for illegally obtaining benefits in each year since 1999. [43628]

Mr. Hanson: The total number of people who have been prosecuted for illegally obtaining benefits in each year since 1999 is:

	Prosecuted
2000–01	245
2001–02	471
2002–03	335
2003–04	243
2004–05	236
2005–2006[1]	161

[1] To 17 January 2006.

CCTV

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many police-monitored CCTV cameras are in operation in *(a)* East Belfast District Command Unit, *(b)* South Belfast and *(c)* North Belfast. [22883]

Mr. Woodward: The following table provides the number of PSNI monitored CCTV cameras in East, South and North Belfast District Command Units:

District command unit	*Number of CCTV cameras monitored by PSNI*
South Belfast	29
North Belfast	36
East Belfast	11

Hospital Staff (Working Hours)

Mr. Dodds: To ask the Secretary of State for Northern Ireland what progress has been made in the implementation of the European Working Time Directive in relation to the working hours of *(a)* consultants, *(b)* junior house doctors and *(c)* nursing staff in hospitals in Northern Ireland. [42415]

Mr. Woodward: The latest information on junior doctors indicates that 71 per cent. of junior doctors are compliant with the European Working Time Directive. Information on consultants and nursing staff is not held centrally and could be provided only at disproportionate cost.

Housing Benefit

Mr. Spellar: To ask the Secretary of State for Northern Ireland how much was spent on housing benefit in Northern Ireland in respect of tenants in *(a)* Housing Executive property, *(b)* Housing Association property and *(c)* the Private Sector in 2005. [43056]

Mr. Hanson: £195 million was spent on housing benefit in Northern Ireland in respect of tenants in Housing Executive properties and £176.5 million in respect of Housing Association and Private Sector properties in the financial year 2004–05. Information with regard to this latter figure cannot be disaggregated further.

Independent Monitoring Commission

Lady Hermon: To ask the Secretary of State for Northern Ireland when the Government expects the publication of the next report by the Independent Monitoring Commission. [42689]

Mr. Woodward: The next report of the Independent Monitoring Commission is expected at the end of January and will be published as soon as possible thereafter.

Joseph Rafferty

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what representations he has made to the Prime Minister of the Irish Republic about the murder of Joseph Rafferty on 12 April. [14894]

Mr. Woodward: There have been no representations made by the Secretary of State for Northern Ireland with the Prime Minister of the Irish Republic about the murder of Joseph Rafferty on 12 April.

Loyalist Paramilitary Disarmament

Andrew Rosindell: To ask the Secretary of State for Northern Ireland if he will call for loyalist paramilitary disarmament in Northern Ireland. [43724]

Mr. Woodward: The Government's position is clear; there is no place for paramilitary and criminal activity in a democratically governed Northern Ireland. As with the IRA, we remain committed to seeing complete and verified decommissioning of weapons held by all loyalist groups.

Male Prisoners (Nationality)

Lady Hermon: To ask the Secretary of State for Northern Ireland what percentage of *(a)* female and *(b)* male prisoners in Northern Ireland are of foreign nationality; and what the nationalities concerned are in each case. [42720]

Mr. Woodward: As of 12 January 2006 the Northern Ireland Prison Service had: *(a)* 3.6 per cent. (1) of the total female population of 28 were foreign national prisoners and *(b)* 2.4 per cent. (31) of a total male prisoner population of 1,279 were foreign nationals. A breakdown by nationality is provided in the table.

Nationality	*Number of female prisoners*	*Number of male prisoners*
Algerian	—	1
Belgian	—	1
Chinese	—	4
East Timorese	—	1
French	—	1
German	—	1
Italian	—	2
Latvian	—	2
Liberian	—	1
Lithuanian	—	10
Polish	—	5
South African	1	1
Spanish	—	1
Total	1	31
Percentage of total populations as at 12 January 2006 (28 and 1,279)	3.6%	2.4%

Note:
These figures exclude immigration detainees as these persons are not prisoners under the terms of the Prison Service Act 1953.

Motoring Offences

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many *(a)* women and *(b)* men were convicted of motoring offences in Northern Ireland in each of the last five years. [21633]

Mr. Woodward: The following table provides statistics, by gender, of persons convicted of motoring offences during the period 1999 to 2003 (2003 is the most up-to-date data currently available).

Persons convicted of motoring offences, by gender: 1999–2003

	Convictions		
	Male	*Female*	*Total*
1999	13,869	1,913	15,782
2000	13,344	2,046	15,390
2001	12,403	2,063	14,466
2002	12,330	2,014	14,344
2003	14,049	2,293	16,342

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many people were stopped by police for suspected motoring offences in each of Northern Ireland's parliamentary constituencies in each of the last 24 months; and how many were subsequently prosecuted in each month. [41108]

Mr. Woodward: The Police Service of Northern Ireland do not record statistics of the number of motorists stopped for motoring offences. The closest available information is detailed in the tables 1 to 4 and

relates to road policing detections by District Officers and Road Policing Officers recorded by District Command Unit (DCU).

Statistics relating to convictions are also only available by District Command Unit. Tables 5 and 6 provide details of the number of prosecutions for motoring offences during the period 2002–03 (2003 being the most recent year for which statistics are available).

The tables have been placed in the Library.

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many people were breathalysed in each of Northern Ireland's parliamentary constituencies in each of the last 24 months; and how many were subsequently prosecuted in each month. [41109]

Mr. Woodward: The Police Service of Northern Ireland do not record statistics relating to the number of people breathalysed by parliamentary constituency but by District Command Unit. Tables detailing the number of preliminary breath tests conducted in each DCU by District Officers and Roads Policing Officers during the period 2004–05 have been placed in the Library.

Prosecution data relating to drink driving offences is also only available by District Command Unit. The statistics provided in tables 5 and 6 covers the period 2002–03 (2003 being the most recent year for which this data is available).

Paramilitary Arms

Mr. Hollobone: To ask the Secretary of State for Northern Ireland what recent assessment he has made of the quantity of paramilitary arms at large in Northern Ireland. [19414]

Mr. Woodward: The decommissioning of paramilitary weapons is a vital element in the process of taking violence out of Northern Ireland permanently.

On 26 September 2005, the IICD determined that the IRA had met its commitment to put all its arms beyond use in a manner called for by the legislation and that it remained for them to address the arms of all loyalist paramilitary groups, as well as other paramilitary organisations. The IICD has confirmed that it has an inventory of decommissioned IRA weapons. The IICD will, however, retain possession of this inventory until its mandate is complete and will, along with the Government, continue to work tirelessly in the pursuit of complete decommissioning by all paramilitary organisations both republican and loyalist.

Police Numbers

David Simpson: To ask the Secretary of State for Northern Ireland what the average number of police officers on out-of-station duty each day was in each district command unit in the Province in each of the last five years. [17534]

Mr. Woodward: The PSNI Human Resource Department do not hold data in relation to the average number of police officers "out-of-station duty" on each day in each DCU for the last five years.

However, since the inception of the Human Resource Planning Strategy under the objective of Improving Organisational Performance through efficient and effective deployment practices, the PSNI has committed to increasing the percentage of officer time spent on front line policing to 72 per cent. by 2007–08.

The Front Line Policing Measure for the PSNI currently stands at 56.6 per cent. for 2004–05 and they are currently on target to achieve the 2005–06 target of 60 per cent.. This figure cannot be fully calculated until the completion of activity sampling towards the end of the financial year.

Police Service of Northern Ireland

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many regular Police Service of Northern Ireland *(a)* full-time reserve and *(b)* part-time reserve officers are on (i) long-term sick leave and (ii) short-term sick leave within Castlereagh. [19574]

Mr. Woodward: As of the 19 October 2005, Castlereagh DCU recorded the following sick absence details for regular, full-time reserve and part-time reserve officers:

9 regular officers on long-term sick absence (over 28 days)

28 regular officers on short-term sickness absence (under 28 days)

2 full-time reserve on long-term sickness absence (over 28 days)

1 full-time reserve on short-term sickness absence (under 28 days)

No part-time reserve constable recorded as sick.

Sammy Wilson: To ask the Secretary of State for Northern Ireland (1) what ballistic and armouring tests are carried out on *(a)* patrol cars, *(b)* armoured land rovers and *(c)* VIP cars in the Police Service of Northern Ireland fleet; and to what standard such testing is conducted; [27303]

(2) what *(a)* standards and *(b)* procedures are used by the Police Service of Northern Ireland in relation to the procurement and use of ballistic steel for armouring purposes; [27304]

(3) in what posts *(a)* Mr. David Graham, *(b)* Mr. John Wilson, *(c)* Mr. Nigel Booth, *(d)* Mr. Gerry Murray and *(e)* Mr. Dave Bradley have served with (i) the Police Authority of Northern Ireland and (ii) the Police Service of Northern Ireland; what the duration of their service was in each case; what experience each has in (A) ballistic engineering and (B) vehicle armoury; and what professional qualifications each has. [27464]

Mr. Woodward: These questions deal with issues that are currently subject to an ongoing criminal investigation and no further information can be made available at this stage.

Sammy Wilson: To ask the Secretary of State for Northern Ireland what guidelines apply to the suspension of Police Service of Northern Ireland officers and staff pending the formal investigation of irregularities; and in what circumstances staff are suspended. [27367]

Mr. Woodward: There are two distinct sets of guidelines which cover police officers and police staff. These are as follows:

1. Police Staff are covered by NICS code paragraph 1084, which states:

An individual may at any time be suspended from duty if, in the opinion of the person exercising disciplinary powers, that course is a necessary precaution in the public interest pending the outcome of criminal or disciplinary investigations or proceedings, and no alternative course eg transfer to other duties is appropriate. Suspension in these circumstances, as distinct from suspension as a disciplinary penalty (see paragraph 1093d), does not imply any decisions about the case, and this important distinction should be kept in mind whenever any record or report of the period of absence is necessary. Pay in respect of any period of suspension may be withheld wholly or in part so long as such suspension continues, if the person exercising disciplinary powers so decides. In such circumstances individuals may be told that they may be eligible to claim for National Insurance benefits such as unemployment or sickness or supplementary benefits. Where it is decided that pay, in the whole or in part, should continue, for the purposes of calculating the amount to be paid the person on suspension should be treated in the same way as staff treated during the first six months of sickness absence. This would entail, among other things, paying shift disturbance (SDA) for the first 30 days but not paying notional overtime. Any decision to withhold pay will be subject to early and regular review; among the factors taken into account will be the circumstances of the alleged offence and the person's dependents. If disciplinary proceedings result in a penalty any withheld pay in respect of the suspension will be forfeited wholly or in part if the person exercising disciplinary powers so determines after consideration of all the circumstances of the case. Any withheld pay which it is decided will not be forfeited will be paid. Someone cleared of all charges, will receive a net sum making up any shortfall in net pay that would have been received during the period of suspension. Where it is concluded that someone should be paid during the period of suspension including retrospective payment, the period, the period should reckon under the Principal Civil Service Pension Scheme in the normal way. The procedures set out in this paragraph do not affect the practice whereby a line manager may send someone home if the circumstances seem to require this: unless this is for a very brief period, however, consideration should be given by the person exercising disciplinary powers to the need for formal suspension.

2. Police Officers

The PSNI has introduced a very robust, human rights compliant suspension policy which was crafted following a long and detailed consultation process with counsel, human rights etc. The policy takes into account 20 substantive considerations when deciding whether or not an officer should be suspended from duty (Code Section 9 App. 9 as attached). In practice the investigating officer, the District Commander, the Supervising Member and the Head of Internal Investigation Branch forward recommendations to the Deputy Chief Constable regarding the issue of suspension. These recommendations are based on the substantive considerations. The Deputy Chief Constable is the person responsible for deciding whether or not an officer should be suspended from duty. The circumstances of the suspension is reviewed on a monthly basis by the Head of Internal Investigation Branch and the Supervising Member.

Appendix 9(9)—Suspension: Substantive Considerations—(See RUC Code Section 9, paragraph 25)

Matters to be considered—Listed below are various factors which may be taken into account in considering whether to suspend a member from duty. These factors provide general guidance and are not exhaustive of the considerations which may be examined and weighed in any given case. Further, the weight, if any, to be accorded by the decision-maker to the factors which they consider will be a matter for them.

1. Whether continued duty by the member concerned would be conducive to the promotion and maintenance of high standards of discipline within the police service.

2. The nature and seriousness of the alleged misconduct and any apparent aggravating or mitigating factors.

3. Relevant medical reports on the member concerned.

4. The member's personal and family circumstances, including the impact which suspension from duty is likely to have on them.

5. The past performance and disciplinary record, if any, of the member concerned.

6. Consideration of the wishes and interests of the victim of the member's alleged offences, including any reparation they may have obtained in some other form of proceedings.

7. The strength of the case against the member concerned, including the member's defence to, or explanation of, the matters under investigation, (where known).

8. The range of penalties available, or likely to be available, in the event that the member s conduct was determined not to have met the appropriate standard.

9. The likelihood of getting a member to a discipline hearing, especially where medical considerations might militate against a discipline hearing. (See N1O Guidance paragraphs 3.67 and 3.68 and Annex T.

10. Recommendations from the member detecting the offence/ investigating officer, divisional commander(s) and 'G' Department. [Code Section 9, paragraph 25(2)].

11. The member's apparent role in the matter under investigation. Were they, for example, under the influence of a higher rank? Were they a victim of circumstances? Have they been adequately dealt with by the criminal courts? Was the member concerned in a supervisory position, which brings with it the necessity to provide an example to more junior members? etc.

12. The message required to be sent to the police service or wider community. Relevant considerations may include recent events which have impacted upon, or shaped the expectations of the public regarding the professionalism, probity and conduct of police officers.

13. Cognisance to be paid to the Chief Constable's policy on the circumstances surrounding the discipline incident, eg discrimination, harassment, equal opportunities policy, drink driving.

14. Any possible or actual legal proceedings—such as a civil action or employment tribunal proceedings.

15. The need to remove the member from an area, in order to protect witnesses, evidence or the integrity of the investigation.

16. In criminal cases, whether a prosecution has been initiated against the member concerned or the prospects of a direction to prosecute issuing.

17. The member's continued credibility to perform police duties, ie give evidence in court, interview suspects or witnesses, or deal with other police matters of a sensitive or delicate nature.

18. Whether temporary transfer of the member concerned from their normal duties during the formal investigation or pending the outcome of misconduct proceedings, is appropriate and proportionate.

19. The public interest generally.

20. The overall interests of the police service.

Sammy Wilson: To ask the Secretary of State for Northern Ireland what assessment he has made of the effectiveness of the Police Service of Northern Ireland's arrangements for *(a)* tendering, *(b)* ordering,

(c) delivery, *(d)* invoicing and *(e)* payment for goods and services in relation to vehicle transactions; and if he will make a statement. [27465]

Mr. Woodward: A Project Board, chaired by a non-executive director, comprising members of the Police Service of Northern Ireland's Audit and Risk Committee and the Policing Board's Audit and Best Value Committee has been established to oversee a review of policies, procedures and responsibilities for *(a)* tendering, *(b)* ordering, *(c)* delivering, *(d)* invoicing and *(e)* payment for goods and services.

Sammy Wilson: To ask the Secretary of State for Northern Ireland (1) what assessment he has made of the level of *(a)* technical qualifications and *(b)* expertise in relation to ballistic and armouring protection matters of (i) managers and (ii) staff in the Police Service of Northern Ireland Transport Services Department; [27466]

(2) who took the decision to contest the civil proceedings brought by Northern Ireland Sheet Metal Works Ltd. in respect of steel contracts; what criteria were used to decide that the case should proceed; and who gave authority to settle the case; [27467]

(3) if he will list *(a)* corporate entertaining and *(b)* receipt of gifts declared by (i) Mr. David Graham and (ii) Mr. Joe Stewart of the Police Service of Northern Ireland in each of the last five years; [27468]

(4) on whose authority Mr. David Graham declined to give evidence at the recent court proceedings involving Northern Ireland Sheet Metal Works Ltd. and the Police Service of Northern Ireland regarding contracts to supply steel; and for what reasons the decision was taken. [27469]

Mr. Woodward: These are management issues for the Chief Constable and the Northern Ireland Policing Board. The Chief Constable will write to the hon. Member. A copy of the letter will be placed in the Library.

Schools (Employment of Offenders)

Mr. Lidington: To ask the Secretary of State for Northern Ireland what steps are in place to regulate the employment in a job working with children in Northern Ireland of *(a)* people with a conviction for a sexual offence and *(b)* people with a caution for a sexual offence; and if he will make a statement. [43556]

Mr. Woodward: With effect from 1 April 2005, the Protection of Children and Vulnerable Adults (NI) Order 2003 (POCVA) introduced a statutory requirement for childcare organisations to carry out a vetting check on prospective employees wishing to work with children in Northern Ireland. Vetting checks provide details of an individual's criminal record which includes all cautions, convictions and bind overs and whether the individual has been included on the Department of Health, Social Services and Public Safety Disqualification from Working with Children List or the Department of Education's List 99. PSNI can also share non-conviction information where they consider it appropriate to do so applying the pressing needs test. Decisions are made on a case-by-case basis but records are likely to be disclosed where it is clear that this is necessary to protect children.

POCVA also introduced disqualification orders, which may be issued by a court when an individual is convicted and sentenced to at least 12 months imprisonment for any offence listed in POCVA. These offences include sexual and violent offences against children. It is an offence for anyone who is subject to a disqualification order or whose name appears on any of the lists created under POCVA, to seek employment in a regulated position. It is also an offence for anyone to knowingly offer work in a regulated position to such a person, or fail to remove such a person from such work.

Further protection is provided through regulation of professionals e.g. doctors, nurses and social workers by their respective regulatory body.

The final decision to employ, or not to employ an individual rests with the prospective employer.

Sexual Violence

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland, when he will publish the consultation paper on sexual violence. [43859]

Mr Woodward: The development of a regional strategy to address sexual violence in Northern Ireland is being taken forward jointly by the Department of Health, Social Services and Public Safety and the Northern Ireland Office, in conjunction with other Departments and agencies whose responsibilities also have a bearing on matters relating to sexual violence. It is proposed to publish a consultation document by this summer and to publish the final strategy in April 2007.

Speed Cameras

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many times mobile speed cameras were used in each of Northern Ireland's parliamentary constituencies in each of the last 24 months. [41110]

Mr. Woodward: The Police Service of Northern Ireland do not record statistics relating to mobile speed cameras by parliamentary constituency, but by district command unit. The closest available information is detailed in tables 1 and 2 and shows the number of occasions mobile safety cameras were deployed to DCU's over the period 2004–05.

Table 1: Roads policing unit monthly deployments per DCU—2004

Note

Larne and Strabane do not currently have any identified camera locations for mobile safety cameras.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many people were *(a)* killed and *(b)* seriously injured in the three years prior to the establishment of camera sites in (i) East Belfast and (ii) Castlereagh District Command Unit; and how many have been (A) killed and (B) seriously injured in each year since their establishment. [24151]

Mr. Woodward: The fixed safety camera sites at the Upper Newtownards Road (East Belfast DCU) and at the Saintfield Road (Castlereagh DCU) were introduced on 1 July 2003. The number of people (i) killed and (ii) seriously injured at each site for three years prior to their establishment and for each year since are provided in the following tables:

1. East Belfast DCU Fixed Camera: Upper Newtownards Road

	Killed	Seriously injured
Before		
1 July 2000 to 30 June 2001	0	3
1 July 2001 to 30 June 2002	0	3
1 July 2002 to 30 June 2003	0	1
After		
1 July 2003 to 30 June 2004	0	2
1 July 2004 to 30 June 2005	0	1

2. Castlereagh DCU Fixed Camera: Saintfield Road

	Killed	Seriously injured
Before		
1 July 2000 to 30 June 2001	0	1
1 July 2001 to 30 June 2002	0	3
1 July 2002 to 30 June 2003	0	1
After		
1 July 2003 to 30 June 2004	0	1
1 July 2004 to 30 June 2005	0	0

EDUCATION AND SKILLS

Agency Regulation

Mr. Drew: To ask the Secretary of State for Education and Skills what plans she has to reform the regulation of all agencies that supply *(a)* teachers and *(b)* non-teaching staff for schools and colleges. [43741]

Ruth Kelly: We plan to introduce a new mandatory Criminal Records Bureau (CRB) check for all newly appointed school employees. This will in effect require agencies to carry out such checks in order to meet the requirements of the employer. We will also consider the case for taking further steps, including introducing a formal requirement on all supply agencies to have a CRB disclosure for all staff who work in schools, FE institutions and local authority education services.

Child Care

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what targets she has set for increasing the number of people working in child care; and what progress has been made towards meeting these targets. [43809]

Beverley Hughes: There are no set targets for increasing the number of people working in child care, but work force growth is needed to support the continuing expansion of the child care sector. Recruiting and retaining sufficient numbers of good quality staff to support this expansion is essential and we are helping child care employers to do so. Our 2002/03 Childcare and Early Years Workforce Survey shows that the child care work force overall has grown from 238,500 in 1998 to 279,100 in 2002/03, an increase of 17 per cent.

Child Protection

Mr. Davey: To ask the Secretary of State for Education and Skills what criteria Ministers have been using to assess teachers' appeals against appearing on List 99; who drew up the criteria; and when they were last revised. [43779]

Ruth Kelly: My statement, and the accompanying report, of earlier today set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Tim Loughton: To ask the Secretary of State for Education and Skills how many individuals who have worked with children through employment by an agency have been *(a)* on List 99 and *(b)* on the sex offenders' register since the establishment of each. [44470]

Ruth Kelly: My statement and accompanying report explain the work underway to establish how many people on the list of registered sex offenders are currently employed in schools in England and Wales. We are carrying out work with local Multi Agency Protection Panels, which include the police.

Tim Loughton: To ask the Secretary of State for Education and Skills whether her Department imposes a legal obligation on agencies employing those who work with children to carry out a check on an applicant's previous history of sexual offences before *(a)* allowing them to join the agency and *(b)* offering them work. [44471]

Mr. Willetts: To ask the Secretary of State for Education and Skills (1) how many people on List 99 have limited permission to work *(a)* with some types of children and *(b)* in certain types of school; [43773]

(2) if she will publish the guidelines used by the Children's Safeguard Unit in advising her on cases in which she has discretion in relation to List 99. [43769]

Judy Mallaber: To ask the Secretary of State for Education and Skills if she will ensure that, as part of her review on safeguarding children, measures are taken to ensure that nobody will be allowed to be a teacher who *(a)* has been convicted of and *(b)* has accepted a caution for downloading child pornography, and has been placed on the Sex Offenders Register. [42958]

Ruth Kelly: My statement, and the accompanying report, of earlier today set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Tim Loughton: To ask the Secretary of State for Education and Skills how many people on the sex offenders' register have *(a)* been registered as a foster parent and *(b)* worked as a foster parent in each of the last eight years. [44474]

Ruth Kelly: Details of individual foster carers are not recorded centrally. However, in deciding whether to approve a prospective foster carer, fostering service providers are required under the Fostering Services Regulations 2002 to consider a range of information about that individual. This includes: an enhanced criminal record certificate (or, where this is not available, details of any criminal offences of which the

person has been convicted, including spent convictions and cautions); particulars of any previous approval or refusal of approval to foster or adopt, or to register for childminding or day care, relating either to that individual or to any other members of the household; and details of any criminal offences in respect of which other adult members of the household have been convicted or cautioned.

The regulations require that in cases where an individual, or any other adult member of the household, has committed a specified offence—including an offence against a child—that individual shall not be considered suitable to act as a foster carer, unless the provider is satisfied that the welfare of a particular child requires it and either: the individual (or a member of the household) is a relative of the child; or the individual is already acting as a foster carer for the child.

Fostering service providers are also required under the Fostering Services Regulations 2002 to maintain a register of their foster carers, including carers' details and the terms of their approval.

Children's Centres

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many children's centres have been established in each year for which figures are available; and how many places have been available at each centre. [43795]

Beverley Hughes: Local authorities were asked to start planning the development of children's centres in February 2003 and 67 centres were designated in 2003–04. An additional 163 centres were designated in 2004–05, and we expect a further 600 centres to be designated in 2005–06. Local authorities are still developing plans for children centre delivery for 2006–08, and a breakdown of numbers of centres to be opened in these years is not centrally available. However, by the end of this period we expect 2,500 to be designated.

Children's centres are expected to reach 650,000 children under the age of five by March 2006. Local authorities should ensure that all families are aware of the services that the children's centre can provide for them. All children's centres will deliver integrated childcare and early learning as part of the core offer.

The Government intends to develop 3,500 Sure Start children's centres by 2010. This will mean every community in England will have a children centre coordinating a range of integrated services for pre-school children and their parents.

Children's Trusts

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills (1) how many children's trusts were established in each year for which figures are available; [43940]

(2) how many local authorities have established children's trusts; and if she will make a statement. [43941]

Beverley Hughes: All local authorities, primary care trusts and their partners are setting up a children's trust in their local area—they are on target to meet the Government's expectation that most areas will have a children's trust by April 2006, and all by 2008. 35 pathfinders and many other local areas have already established their children's trust arrangements, and some 135 local authorities say that their directors of children's services have been or are being appointed.

Criminal Records Bureau

Lynne Featherstone: To ask the Secretary of State for Education and Skills how the Government decide whether someone is eligible for the Criminal Records Bureau enhanced disclosure checks; and if she will make a statement. [44413]

Ruth Kelly: My statement, and the accompanying report, of earlier today set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Mr. Gibb: To ask the Secretary of State for Education and Skills whether it is necessary to request a criminal record check from the Criminal Records Bureau before employing a new teacher. [42575]

Ruth Kelly: My statement, and the accompanying report, of earlier today set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Departmental Equipment

Mrs. Villiers: To ask the Secretary of State for Education and Skills how many *(a)* laptops and *(b)* mobile phones her Department bought in each year since 1997; and what the cost of each category of equipment was in each year. [41267]

Phil Hope: The number and cost of laptops and mobile phones purchased in each complete year since 1999/2000 is shown as follows. Figures in respect of 1997/98 and 1998/99 could be obtained only at disproportionate cost.

	Mobile phones		*Laptops*	
	Quantity	*Cost (incl. VAT)*	*Quantity*	*Cost (incl. VAT)*
1999/2000	47	9431.73	745	1,255,243.35
2000/01	487	67,647.10	624	1,063,000.76
2001/02	342	34,870.48	639	1,054,995.39
2002/03	439	36,989.00	360	540,455.28
2003/04	401	41,908.26	721	953,492.51
2004/05	361	23,872.48	482	558,598.16

Departmental IT Systems

Mrs. Villiers: To ask the Secretary of State for Education and Skills how much her Department has spent on IT systems in each year since 1997; what the purpose of each system is; what the outturn against planned expenditure of each system was; and what the *(a)* planned and *(b)* actual date of completion was of each system. [41326]

Phil Hope: The information as requested is not readily available centrally within the Department for Education and Skills. To respond fully would involve an extensive

internal and external information collection exercise which would exceed the recommended disproportionate cost threshold.

However, to be helpful, I refer the hon. Member to the answers given by the Parliamentary Under-Secretary of State for Children Young People and Families on 3 November 2005, *Official Report*, column 1314W; and 13 June 2005, *Official Report*, column 192W.

Early Support Pilot Programme

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what assessment she has made of the effectiveness of the Early Support Pilot Programme; and if she will make a statement. [43949]

Beverley Hughes: An independent evaluation of the Early Support Pilot Programme began in July 2004 and is being undertaken by the University of Manchester, in association with the University of Central Lancashire. A report on the outcomes and cost effectiveness of the programme will be available towards the end of June 2006. To date, feedback about the programme and its materials from parents and professionals working with disabled children has been extremely positive.

Employment Training Pilots

Dr. Francis: To ask the Secretary of State for Education and Skills what policy options will be considered following the Institute of Fiscal Studies evaluation of the work of employment training pilots up to 2004. [43738]

Phil Hope: The IFS report covers the first phase of the Employer Training Pilots (ETP) and has highlighted that we need to do more to attract the harder to reach employers. The subsequent phases of the pilots have shown us better how to do this, which has been one of the many real values of the pilots and their evaluation. ETP has also been the subject of an ongoing evaluation by the Institute of Employment Studies (IES). The development of the new national programme, Train to Gain, was based on the lessons learned from these evaluations. The final IES evaluation report is due in the spring, and we will consider the findings of that report alongside the IFS report.

Skills brokers in Train to Gain will have a target of at least half the employers they engage being "hard to reach", additional employers. We are making £15 million available in 2005–06 and £20 million in 2006–07 to develop the capacity of the brokerage network and implement a performance management system that focuses services on this priority and rewards achievement accordingly.

A number of evaluations, including the IFS report, have shown that employers identify many benefits from ETP including productivity improvement, changed attitudes to learning, improved motivation and provided employers and employees with a platform for progression. Participating employers were more likely to train their low-skilled staff to the benefit of their business and say that ETP has allowed them to train more people over a shorter period of time. So we are confident that we are already involving more hard-to-reach learners.

We expect Train to Gain to deliver over 40,000 additional level 2 qualifications in 2006–07; over 140,000 in 2007–08 and, by the time the programme reaches full capacity, 175,000 in 2008–09 and in each year thereafter.

Extended Schools Programme

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many *(a)* children and *(b)* adults have made use of the extended schools programme in each year for which figures are available; and how many schools have used the programme in each year. [43938]

Beverley Hughes: We do not currently hold data on the number of children and adults that have made use of extended services accessed through schools and it could only be provided at disproportionate cost. However we do have data on the number of schools offering access to extended services from a baseline survey of maintained schools published in September 2005. This survey showed that 87 per cent. of primary and 95 per cent. of secondary schools provide some form of childcare or activities outside of normal school hours; 69 per cent. of primary and 66 per cent. of secondary schools provide some form of parenting support; and 75 per cent. of primary schools and 97 per cent. of secondary schools provide wider community access to their facilities such as sports, arts and ICT facilities. This is a good baseline to build on and we will continue to monitor progress.

Higher Education

Dr. Francis: To ask the Secretary of State for Education and Skills what research she will undertake on the effects on willingness to study the 50 per cent. threshold requirement for financial support for part-time higher education students. [43739]

Bill Rammell: We have no current plans for undertaking research on this issue, but will keep the need for further research under review, as we assess the impact of the improved funding package for part-time students which will be introduced in 2006.

For 2006–07 the support package available for eligible part-time English-domiciled students studying in England will include: an increase in the grant for fees of 27 per cent. to a maximum of £1,125 alongside a course grant of £250; an additional £40 million in institutional funding—provided jointly with the Higher Education Funding Council for England—to encourage participation from, and improve provision for, the most under-represented groups; and an increase in the Access to Learning Fund allocation available to part-time students from £3 million to £12 million. Welsh-domiciled students will, from 2006, be funded according to the decisions of the National Assembly for Wales.

Information Sharing and Assessment Index Project

Mr. Burstow: To ask the Secretary of State for Education and Skills what her Department's estimate is of the cost of *(a)* setting up and *(b)* running the Information Sharing and Assessment Index Project; and how much her Department has (i) spent to date and (ii) plans to spend on consultants and other specialist staff associated with the project. [43447]

Beverley Hughes: As announced on 8 December, the estimated set-up costs are £224 million over the next three years. This includes the costs of adapting existing systems that will supply the data to the index and ensuring that data are accurate; adapting the day-to-day systems used by practitioners so they can access the index from those systems; introducing robust arrangements to ensure security, and training staff to use the index properly.

Estimated operating costs, thereafter, will be £41 million per year. Most of this will pay for the additional staff needed to ensure the ongoing security, accuracy and audit of the index.

Since the start of the feasibility phase of the index project in February 2004 we have spent around £5 million on consultants and other specialist staff. We expect to spend around a further £15 million on such support between now and the completion of index roll-out in 2008. Developing and implementing large IT-enabled systems is not an area where DfES can rely on employing permanent civil servants to deliver, since we cannot offer the career structure or range of projects that people with the necessary specialist skills will be seeking. There is no alternative approach which will deliver to Government at lower cost the expert people with the skills we need to deliver this project.

Keith Hudson

Mr. Gibb: To ask the Secretary of State for Education and Skills which *(a)* Minister and *(b)* official (i) advised on and (ii) signed the letter in relation to the decision on the List 99 determination in the case of Keith Hudson. [43409]

Ruth Kelly: The powers under section 142 of the Education Act 2002 whether or not to make a direction that an individual should be added to List 99 are exercised by the Secretary of State for Education and Skills. The Department for Education and Skills does not disclose the names of individual officials or Ministers, advising or exercising those power as a matter of policy.

Learning and Skills Council

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills what the budget for learners with learning needs and disabilities is in each learning and skills council in 2005–06; and if she will make a statement. [42782]

Bill Rammell: My Department does not allocate separate budgets to meet the needs of most learners with learning difficulties and/or disabilities. The majority of learners access mainstream programmes where their needs are met through core funding or through additional funding support where required. In the most recent year for which information is available the Learning and Skills Council (LSC) supported 579,000 learners with learning difficulties and/or disabilities at a cost of around £1.3 billion. The figures for 2005/06 are not yet available. We do make available a separate budget for specialist colleges for learners with the most severe needs. We are providing £158 million for this purpose in 2006–07. Support for learners with learning difficulties and/or disabilities is a key priority identified in our grant letter to the LSC and is in turn reflected in the LSC's annual statement of priorities.

List 99

Mr. Willetts: To ask the Secretary of State for Education and Skills how many people on List 99 have been given permission to teach GCSE courses only in the last 10 years. [43659]

Ruth Kelly: No one on List 99 has been given permission to teach GCSE courses specifically.

Bob Spink: To ask the Secretary of State for Education and Skills how many *(a)* males and *(b)* females are on List 99. [43921]

Ruth Kelly: There were 449 females and 3,596 males on list 99 on 18 January 2006.

Local Education Authorities

Bob Spink: To ask the Secretary of State for Education and Skills what her most recent advice to local education authorities is on the employment of individuals before all *(a)* Criminal Records Bureau and *(b)* other character checks are completed; and if she will make a statement. [43919]

Ruth Kelly: Our guidance note 'Child Protection: Preventing Unsuitable People from Working with Children and Young Persons in the Education Service' gives comprehensive advice on the full range of pre-employment checks that local authorities ought to make before employing and individual. Supplementary advice relating to Criminal Records Bureau disclosures is provided in the guidance note 'Criminal Records Bureau:Managing the Demand for Disclosures'. Both documents can be found on the DfES website at http://www.teachernet.gov.uk/docbank/index.cfm?id=2172 and http://www.teachernet.gov.uk/docbank/index.cfm?ID=3334

New Schools (Cumbria)

Tim Farron: To ask the Secretary of State for Education and Skills how much funding has been awarded to Cumbria County Council for new buildings in schools in Cumbria in each of the last three years; how much was awarded to each school in each case; and if she will make a statement. [42395]

Jacqui Smith *[holding answer 16 January 2006]:* Cumbria county council and its schools have been awarded the following capital allocations in the last three years: £21.2 million (2003–04); £23.7 million (2004–05); and £19 million (2005–06).

The Department does not hold information on the amounts allocated for new buildings or at individual school level. We expect these decisions to be made locally by the County Council in accordance with its Assets Management Plan.

Overseas Trained Teacher Programme

Mr. Hands: To ask the Secretary of State for Education and Skills how many teachers are placed in each local authority under the Overseas Trained Teacher Programme. [43604]

Jacqui Smith: In 2004/05, 116 local authorities in England had 1,544 overseas trained teachers on programmes, the majority in London and the South East. A breakdown of the numbers by local authority is shown in the following table:

Local authority	*OTTs*	*Percentage*
Surrey	66	4
Southwark	62	4
Essex	58	4
Brent	51	3
Kent	50	3
Hertfordshire	44	3
Hackney	42	3
Hillingdon	42	3
Baling	41	3
Birmingham	38	2
Newham	38	2
Greenwich	33	2
Lambeth	32	2
Buckinghamshire	31	2
Croydon	31	2

Mr. Hands: To ask the Secretary of State for Education and Skills what procedures are in place for background checks on teachers taken on under the Overseas Trained Teacher Programme. [43606]

Ruth Kelly: Overseas teachers are subject to the same vetting procedures as UK teachers. The Department provides detailed guidance on the necessary checks which must be carried out before engaging any teacher, including a supply teacher. The guidance requires that employers conduct checks to confirm that a teacher has declared their true identity, that supply teachers have the necessary qualifications and experience and that foreign nationals have permission to work in the UK.

In the future we will require mandatory CRB checks as part of any appointment process on anyone selected for appointment who is or has been resident in the UK. However, it will not be possible to check someone who has never lived in this country because he/she will not

have a criminal record here and will not be on List 99. We already advise employers to take extra care in other checks on overseas candidates and to seek information about the person's criminal history from their country of origin wherever possible. The CRB provides advice to employers about countries from which it is possible to obtain such information and how to obtain it.

We will be reviewing the process for vetting overseas teachers.

Parent Support Advisers

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what estimate she has made of the cost of each Parent Support Adviser; and if she will make a statement. [43943]

Beverley Hughes: The Government have set aside 20m to support the piloting of Parent Support Advisers in over 600 primary and secondary schools in the most deprived areas. These advisers will offer early preventative support for children and families where there are signs that they could benefit from additional help. Parent Support Advisers will work with families to identify the most effective support for them.

We are in the process of working up delivery proposals for Parent Support Advisers which build on good practice in early intervention with children and families and provide for a range of approaches across the pilot areas.

Pre-school Provision

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what comparative analysis of the effects of pre-school provision on educational attainment in other countries *(a)* has been and *(b)* will be undertaken by the Effective Provision of Pre-School Education Project. [43665]

Beverley Hughes: The Department's Effective Provision of Pre-School Education (EPPE) study has reported that the EPPE findings are similar to those of research studies in other countries, including the US, Canada, Norway, Germany and New Zealand. The EPPE study uses the same quality measures as in key US studies to facilitate comparisons. It will continue to follow children's development to the end of Key Stage 2, looking at comparisons with international research. Additionally, in 2003, my Department's Early Years and Childcare International Evidence project reported on the relationship of early years programmes to child outcomes.

This international body of literature shows that early education is especially important for the educational attainment of disadvantaged children, but has positive impacts for all children. Another consistent finding is that integrated early years settings, quality provision and higher staff qualifications are associated with more positive child outcomes.

Public Sector (Graduates)

Mr. Hayes: To ask the Secretary of State for Education and Skills in what academic disciplines the Government have identified a need for more graduates in the public sector work force; and if she will make a statement. [43075]

Bill Rammell: Almost 14 million jobs will need to be filled by 2012 across the economy of which nearly 7 million will demand graduates. Historically we have not precisely identified the balance of provision between different disciplines or the public and private sectors. However, in our response to HEFCE's advice on subjects of strategic importance (a copy of which is being placed in the Library), we indicated that demand and supply side trends in those subjects would be monitored in future.

School Intakes

Andrew Selous: To ask the Secretary of State for Education and Skills whether she plans to enable schools to extend the age range of children they teach. [43153]

Jacqui Smith *[holding answer 18 January 2006]:* The Department has no immediate plans to change the existing arrangements whereby local authorities and school governing bodies may publish statutory proposals to change the age range of a school. Proposals are decided locally or by the Schools Adjudicator.

Governing bodies may use their discretionary powers under Section 27 of the EA 2002 to provide directly, or in partnership with others, facilities or services for the benefit of pupils, their families or the wider community. This may include childcare for children aged five and under. Subject to parliamentary approval of the provisions set out in the Childcare Bill, any such provision from 2008, would be based on, and consistent with, the Early Years Foundation Stage. This will ensure that learning and development activities are age appropriate and contribute to improved outcomes for children.

Senior Medical Officer

Mr. Davey: To ask the Secretary of State for Education and Skills how many people have held the position of Senior Medical Officer in her Department over the past 10 years. [43846]

Ruth Kelly: One person has held the post of Senior Medical Officer in this Department over the past 10 years. In 2003 the post ceased to exist, as the activities performed by the Senior Medical Officer were contracted out.

Mr. Davey: To ask the Secretary of State for Education and Skills what *(a)* qualifications and *(b)* experience are required of candidates for the post of her Senior Medical Officer. [43848]

Ruth Kelly: This post no longer exists. Our medical services contractor retains the services of specialist consultants in forensic psychiatry to consider cases that involve child protection issues, including those where an individual may be placed on List 99, and also advises whether assessments and reports should be commissioned by specialists with other professional qualifications and experience.

Sex Offenders

Mr. Willetts: To ask the Secretary of State for Education and Skills what arrangements her Department has in place to ensure that registered sex offenders seeking employment in schools are considered for being placed on List 99. [41420]

Ruth Kelly: My statement, and the accompanying report of earlier today set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Tim Loughton: To ask the Secretary of State for Education and Skills who advises her on who should be placed on List 99; and how such people are *(a)* chosen and *(b)* trained. [42090]

Ruth Kelly: My statement, and the accompanying report, of earlier today set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Tim Loughton: To ask the Secretary of State for Education and Skills (1) whether being placed on the sex offenders' register is a criterion for being placed on List 99; [42092]

(2) what criteria she uses when deciding who should be placed on List 99. [42091]

Mr. Willetts: To ask the Secretary of State for Education and Skills (1) whether she has approved any person on the register of sex offenders to work at a school in her period as Secretary of State; [41419]

(2) how many people are on the list of registered sex offenders but not on List 99; [41418]

(3) how many people are on List 99; and how many of these are on the list of registered sex offenders. [41417]

Ruth Kelly *[holding answer 12 January 2006]:* My statement, and the accompanying report, of earlier today set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Tim Loughton: To ask the Secretary of State for Education and Skills how many people are on List 99; and how many people were on List 99 in each of the last 10 years. [42105]

Ruth Kelly: The number of people on List 99 is included in the report which accompanied my statement earlier today. The list is continuously updated and data are not collected on an annual basis. Therefore we do not have the information requested about the total number of people on List 99 in each of the last 10 years.

Tim Loughton: To ask the Secretary of State for Education and Skills what *(a)* criteria and *(b)* procedures are used when it is decided to take someone off List 99. [42107]

Ruth Kelly: My statement, and the accompanying report, of earlier today set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Mr. Willetts: To ask the Secretary of State for Education and Skills whether anyone with a conviction for a sexual offence is working in a school. [42556]

Ruth Kelly: My statement, and the accompanying report, of earlier today set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Mr. Willetts: To ask the Secretary of State for Education and Skills for what reasons someone on the register of sexual offenders might be allowed to work in a school. [42557]

Ruth Kelly: My statement, and the accompanying report, of earlier today set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Mr. Gibb: To ask the Secretary of State for Education and Skills what guidance her Department issues to schools on the employment of ex-offenders. [42574]

Ruth Kelly: My Department does not issue specific advice in respect of the employment of ex-offenders. The DfES Circular "Child Protection: Preventing Unsuitable People From Working With Children and Young Persons in the Education Service" sets out the procedures schools should follow in deciding whether to appoint staff. It emphasises that decisions must be made on after considering a range of pre-employment checks. It points out that a criminal record does not automatically make an individual unsuitable to work with children.

The guidance advises prospective employers to consider several factors, including the nature of any offence(s); the length of time since the offence was committed; and the frequency of offending. It emphasises that sexual, violent, or drugs related offences are likely to indicate that someone is unsuitable to work with children, and that recent offences and/or a history of repeated offending are of much more concern than an isolated minor conviction many years ago.

Mr. Willetts: To ask the Secretary of State for Education and Skills how many people on the Register of Sexual Offenders are working in schools; and in what capacities. [42765]

Ruth Kelly [holding answer 16 January 2006]: My statement and accompanying report explain the work under way to establish how many people on the list of registered sex offenders are currently employed in schools, which will also establish the capacity of each individual. We are carrying out follow up work with local Multi Agency Protection Panels, which include the police.

Mrs. Humble: To ask the Secretary of State for Education and Skills how many people on the Sex Offenders Register are employed by schools in *(a)* Blackpool and *(b)* Lancashire. [42801]

Ruth Kelly: My statement and accompanying report explain the work underway to establish how many people on the list of registered sex offenders are

currently employed in schools in England and Wales. We are carrying out follow up work with local Multi Agency Protection Panels, which include the police.

Bob Spink: To ask the Secretary of State for Education and Skills how many schools in Essex have staff who are on the Sex Offenders Register. [42922]

Ruth Kelly: My statement and accompanying report explain the work under way to establish how many people on the list of registered sex offenders are currently employed in schools. We are carrying out follow up work with local Multi Agency Protection Panels, which include the police.

Bob Spink: To ask the Secretary of State for Education and Skills if she will list local education authorities which have schools with staff who are on the Sex Offenders Register. [42923]

Ruth Kelly: My statement and accompanying report explain the work under way to establish how many people on the list of registered sex offenders are currently employed in schools. We are carrying out follow up work with local Multi Agency Protection Panels, which include the police.

Sex Offenders Register

Greg Mulholland: To ask the Secretary of State for Education and Skills how many people employed in schools on a *(a)* temporary, *(b)* permanent and *(c)* contracted basis in the Leeds metropolitan area in each year since 1997 (i) are and (ii) have been on the sex offenders register. [43524]

Ruth Kelly: My statement and the accompanying report explain the work underway to establish how many people on the list of registered sex offenders are currently employed in schools in England and Wales. We are carrying out follow up work with local Multi Agency Protection Panels, which include the police.

Special Education Needs

Ms Angela C. Smith: To ask the Secretary of State for Education and Skills how much was spent on the provision of special education needs *(a)* in total and *(b)* as a percentage of total education spending in each region of England. [43090]

Maria Eagle: The information requested is contained within the following table and is for the financial year 2005–06:

Region	*Total planned expenditure on the education of children with SEN[1] (£) (a)*	*Total planned expenditure on SEN transport (£) (b)*	*Total planned educational revenue expenditure (£) (c)*	*Total planned expenditure on the education of children with SEN (excluding SEN transport)[1] as a percentage of total education spending [a/c]*	*Total planned expenditure on the education of children with SEN (including SEN transport) as a percentage of total education spending [(a+b)/c]*
England	4,120,353,000	499,593,000	31,157,614,000	13.2	14.8
of which:					
North East	210,457,000	20,739,000	1,588,695,000	13.2	14.6
North West and Merseyside	569,293,000	70,800,000	4,392,054,000	13.0	14.6
Yorkshire and Humberside	382,531,000	42,858,000	3,173,505,000	12.1	13.4
East Midlands	314,149,000	37,814,000	2,619,375,000	12.0	13.4
West Midlands	475,781,000	50,417,000	3,460,564,000	13.7	15.2
Eastern	393,061,000	55,799,000	3,316,037,000	11.9	13.5
South East	676,225,000	96,236,000	4,680,733,000	14.4	16.5
London	749,993,000	90,415,000	5,105,297,000	14.7	16.5
South West	348,864,000	34,515,000	2,821,354,000	12.4	13.6

[1] Includes planned expenditure on the provision for pupils with statements and the provision for non-statemented pupils with SEN, support for inclusion, inter authority recoupment, fees for pupils at

Notes:

1. Figures are in cash terms as reported by LEAs at 13 January 2006 and rounded to the nearest thousand pounds and may not sum due to rounding. independent special schools and abroad, educational psychology service, LA functions in relation to child protection, therapies and other health related services, parent partnership, guidance and information, the monitoring of SEN provision and inclusion administration, assessment and co-ordination. Also included is the funding delegated to local authority maintained nursery, primary and secondary schools identified as "notional SEN" and the individual schools budget for special schools. The figures recorded against "notional SEN" are only indicative of the amount that might by spent by schools on SEN. Not included is any budgeted SEN transport expenditure.
2. The data are taken from local authorities' 2005–06 Section 52 Budget Statements submitted to the DfES.

Staying-on Rates (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Education and Skills what the average staying-on rate in post-16 education was in Tamworth constituency in each of the past 10 years. [43467]

Bill Rammell: The percentage of 16-year-olds in full-time education in England at the end of 2004 was estimated to be 74.2 per cent.—the highest ever rate. Percentage figures on participation in education by young people are not available for parliamentary constituencies, but are available for local authorities—including Staffordshire LEA. These were published in the Statistical First Release "Participation in education and training by 16 and 17-year-olds in each local area in England"—SFR11/2005 on 31 March 2005.

The publication is accessible on the DfES website via the link, http://www.dfes.gov.uk/rsgateway/DB/SFR/s000568/index.shtml.

The specific figures are available through the following link: http://www.dfes.gov.uk/rsgateway/DB/SFR/s000568/SFR11-2005tables_lea.xls.

Sure Start

John Cummings: To ask the Secretary of State for Education and Skills how many children are participating in the Sure Start programme in Easington constituency; and how many have done so since the programme commenced. [42702]

Beverley Hughes: One Sure Start children's centre has been designated so far in Easington constituency—Sure Start Peterlee, designated in September 2003. There are two Sure Start local programmes (Seaham, and Hornden and Easington Colliery) and a mini-programme operational, all of which are working towards children's centre status. Together this Sure Start provision is serving approximately 2,500 children under five and their families. Figures for the number of children actually supported by Sure Start since the programme began are not collated centrally. However there are a total of 10 children's centres planned for this constituency by March 2008. By March 2010 all children under five in the area will have access to a range of high quality integrated services.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what assessment she has *(a)* made and *(b)* plans to make of the effectiveness of (i) Sure Start and (ii) Mini Sure Start; and if she will make a statement. [43841]

Beverley Hughes: There is a comprehensive national level evaluation of Sure Start local programmes in place which began in January 2001, which will run until 2008. It examines the implementation, cost-effectiveness and impact of Sure Start on children, families and communities, in the short, medium and long term. There have been 14 reports published to date.

An evaluation of the Mini Sure Start programme was published in January 2005. Research reports related to Sure Start and early years policy can be found at www.surestart.gov.uk/research.

Subsidised School Milk

Mr. Drew: To ask the Secretary of State for Education and Skills what the evidential basis was on which the decision was taken to remove subsidised milk from schools. [42256]

Jim Knight: I have been asked to reply.

The evaluation of the national top-up to the EU school milk subsidy scheme in England was published on 4 January. The report contained a number of recommendations which included ending the top-up and spending the £1.5 million released as a result on other programmes to promote milk consumption by young people. The Government have, however, decided that the subsidy scheme has a valuable role to play and should remain unchanged.

Teachers

Tim Farron: To ask the Secretary of State for Education and Skills how many teaching posts were vacant in *(a)* primary and *(b)* secondary schools in Westmorland and Lonsdale in each year since 1997; and what the average vacancy rate for a local education authority in England was in each year. [43384]

Jacqui Smith: Information on teacher vacancies is collected at local authority level and is not available for individual parliamentary constituencies.

The following table provides the number of full-time teacher vacancies in maintained nursery, primary, and secondary schools in Cumbria local authority and vacancy rates for Cumbria and England in each January since 1997.

Full-time teacher vacancy numbers[1] and rates[2] in maintained nursery, primary and secondary schools in Cumbria and England, January 1997 to 2005

	Cumbria				*England*	
	Nursery/primary		*Secondary*		*Percentage*	
	Vacancy numbers	*Vacancy rates (percentage)*	*Vacancy numbers*	*Vacancy rates (percentage)*	*Nursery/primary vacancy rates*	*Secondary vacancy rates*
1997	0	0.0	4	0.2	0.6	0.4
1998	1	0.1	1	0.1	0.8	0.6
1999	0	0.0	2	0.1	0.8	0.5
2000	0	0.0	0	0.0	0.8	0.7
2001	4	0.2	2	0.1	1.2	1.4
2002	8	0.4	8	0.4	1.0	1.3
2003	3	0.2	6	0.3	0.6	1.1
2004	5	0.3	2	0.1	0.5	0.9
2005	1	0.1	9	0.4	0.4	0.8

[1] Advertised vacancies for full-time permanent appointments (or appointments of at least one terms duration). Includes vacancies being filled on a temporary basis of less than one term.

[2] Vacancies as a percentage of teachers in post i.e. full-time regular teachers in maintained nursery, primary and secondary schools, plus full-time regular divided service, peripatetic, advisory and miscellaneous teachers.

Source:

DfES annual survey of teachers in service and teacher vacancies (Form 618G)

Teachers (Convictions)

Mr. Gibb: To ask the Secretary of State for Education and Skills how many teachers have *(a)* convictions, including spent convictions and *(b)* police cautions. [42576]

Ruth Kelly: The information is not available. There is no central record of convictions and cautions incurred by teachers.

Truanting

Mr. Hayes: To ask the Secretary of State for Education and Skills how many pupils truanted for at least one day from secondary school in each academic year since 2001/02; and if she will make a statement. [40435]

Jacqui Smith *[holding answer 9 January 2006]:* Figures are only available for pupils missing at least one half day through unauthorised absence. The information requested can be found as follows.

Number of pupils absent for at least one half day due to 'unauthorised'[1] absence in maintained mainstream secondary schools

	Number of pupils absent
2001/02	566,644
2002/03	631,669
2003/04	696,600
2004/05	774,347

[1] Unauthorised absence is absence without leave from a teacher or other authorised representative of the school. This includes all unexplained or unjustified absences, such as lateness, holidays during term time not authorised by the school, absence where reason is not yet established and truancy. Truancy forms only one part of the unauthorised figures.

Written Answers to Questions

Friday 20 January 2006

TRANSPORT

Aircraft (Contaminated Air)

Paul Flynn: To ask the Secretary of State for Transport what steps he is taking in relation to contaminated air events on commercial aircraft. [41983]

Ms Buck: The House of Lords Select Committee on Science and Technology report dated November 2000 (paragraph 4.41) found concerns about contaminated air events to be unsubstantiated. Nevertheless, we have requested an evidence review of documentation submitted by BALPA on this matter by the independent Committee on Toxicity; and this is in hand.

Hard Shoulder Running

Mr. Spellar: To ask the Secretary of State for Transport pursuant to his answer of 10 January 2006, *Official Report*, column 495W, what the timetable for the decision-making process on the introduction of hard shoulder running is; and what the schedule is for rolling out the programme. [42975]

Dr. Ladyman: There is little I can add to my previous answer.

Controlled use of the hard shoulder during peak periods of traffic congestion is due to be implemented on the M42 in the West Midlands by March 2007 as part of the Highways Agency's Active Traffic Management pilot. In order to establish fully the effectiveness of these measures, the project will be monitored over a three-year period. Initial conclusions from operation of the scheme will be reviewed in 2008, but in the meantime it would be premature to develop a programme for the wider use of further hard shoulder running.

M3

Mrs. Maria Miller: To ask the Secretary of State for Transport what recent estimate he has made of the peak flow of traffic at the southern roundabout of junction 6 on the M3. [43112]

Dr. Ladyman: A traffic count was carried out at junction 6 of the M3 on 27 September 2005. The results of the peak period vehicle count was as follows:

	Peak	
	8 am to 9 am	*5 am to 6 pm*
M3 southbound off slip	1,600	1,440
M3 southbound on slip	530	1,210
M3 northbound off slip	1,680	550
M3 northbound on slip	1,400	1,420
Total	5,210	4,620

The survey was undertaken as part of a study to investigate and identify possible improvements in relation to congestion and safety issues at M3 junction 6.

Night-flight Restrictions

Justine Greening: To ask the Secretary of State for Transport what the total cost was of conducting the stage *(a)* one and *(b)* two consultation on night flight restrictions at Heathrow, Gatwick and Stansted airports; and if he will make a statement. [44545]

Ms Buck: Preparation and publication of the stage one consultation paper cost approximately £12,500 and stage two approximately £11,000. These figures do not include departmental staff costs and overheads and do not include the cost of Civil Aviation Authority staff who prepared the noise contours and other technical data.

In addition, to increase awareness of the consultation exercise among the local community, advertisements were taken out in local newspapers explaining where the consultation paper could be obtained. This cost approximately £6,500 (stage one) and £4,000 (stage two).

EDUCATION AND SKILLS

Child Protection

Greg Mulholland: To ask the Secretary of State for Education and Skills what checks are carried out on workers subcontracted to carry out work on school premises, including cleaners and maintenance workers. [43523]

Ruth Kelly: My statement, and the accompanying report, of 19 January set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

The Safeguarding Children: Safer Recruitment and Selection in Education Settings guidance issued in June 2005 states that:

> "Local authorities, schools, and Further Education institutions should ensure that the terms of any contract they let that requires the contractor to employ staff to work with, or provide services for, children for whom the LA, school or FE institution is responsible also requires the contractor to adopt and implement the measures described in this guidance. They should also monitor the contractor's compliance."

Among other things the measures described include pre appointment checks of List 99 and CRB disclosures—copy at www.teachernet.gov.uk/childprotection

Annette Brooke: To ask the Secretary of State for Education and Skills whether her Department has given permission for an individual whose name appears on *(a)* the sex offenders register, *(b)* List 99 and *(c)* the Protection of Children Act List to work in (i) the provision of child care in all settings from birth to entry to school and (ii) the provision of youth services in each of the last four years. [43768]

Ruth Kelly: The Department does not give permission for people to work in specific settings. Employment decisions are a matter for individual employers. Any individual who appears on List 99 or the POCA List (other than provisionally) on the grounds of

unsuitability to work with children is barred from working in a "regulated position" within the meaning of section 36 of the Criminal Justice and Court Services Act 2000 which includes, for example, a position whose normal duties include caring for, training, supervising or being in sole charge of children.

Mr. Willetts: To ask the Secretary of State for Education and Skills how many people on the register of sex offenders have been permitted to work in schools and have subsequently committed a sexual offence. [43772]

Ruth Kelly *[holding answer 19 January 2006]:* My statement and accompanying report explain the work under way to establish how many people on the list of registered sex offenders are currently employed in schools. We are carrying out follow up work with local Multi Agency Protection Panels, which include the police.

Mr. Willetts: To ask the Secretary of State for Education and Skills which offences lead to an automatic ban from working in schools. [43770]

Tim Loughton: To ask the Secretary of State for Education and Skills what duty is placed on local authorities to report to her Department incidents of individuals with a record of sex offending working with children. [44473]

Ruth Kelly: My statement, and the accompanying report, of 19 January set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Criminal Records Bureau

Bob Spink: To ask the Secretary of State for Education and Skills what discussions her Department has had with the Home Office about making Criminal Records Bureau searches more effective in respect of school staff. [43928]

Ruth Kelly: The Criminal Records Bureau (CRB) searches several different databases before issuing a disclosure. We are not aware of any instances where the CRB has failed to perform a fully effective search of its databases. My Department is involved in discussions with the Home Office about further improving the information flows for the purpose of establishing the new vetting and barring scheme arising from Sir Michael Bichard's report.

Home Tutors

James Duddridge: To ask the Secretary of State for Education and Skills whether the Government have a list of all home tutors working in England. [44284]

Ruth Kelly: The Government do not maintain a list of all home tutors working in England.

James Duddridge: To ask the Secretary of State for Education and Skills whether her Department plans to review the regulation of home tutors within the education system; and if she will make a statement. [44546]

Ruth Kelly: Individuals working as self-employed home tutors are not able to independently obtain a Criminal Records Bureau Disclosure as the application must be signed by a person who is entitled to ask an exempted question in relation to the Rehabilitation of Offenders Act.

The Department strongly advises parents to check the background of home tutors by requesting references and checking a tutor's registration with the relevant General Teaching Council. Parents are also advised to make appropriate arrangements for a child who is receiving home tuition, for example having an adult present.

The Department is fully aware that parents have limited access to information. The new scheme to be implemented as part of the Bichard Inquiry recommendations is giving consideration to how parents can access information on people they wish to employ as home tutors.

List 99

Mr. Gibb: To ask the Secretary of State for Education and Skills by whom the case of Keith Hudson was referred to her Department for a List 99 determination. [43407]

Ruth Kelly: The case of Keith Hudson was referred by More House School, Farnham, Surrey.

Mr. Willetts: To ask the Secretary of State for Education and Skills to which Ministers power to decide List 99 determinations has been devolved since 1997. [43655]

Ruth Kelly: It is Departmental policy not to identify anyone below the Secretary of State.

Mr. Willetts: To ask the Secretary of State for Education and Skills how many cases heard by the Care Standards Tribunal in each year since it was established relate to List 99. [43657]

Ruth Kelly: The number of cases heard by the Care Standards Tribunal in each year since it was established that relate to List 99 are as follows:

	Number
2002	2
2003	3
2004	4
2005	3

Mr. Willetts: To ask the Secretary of State for Education and Skills how many people included on List 99 have been given permission to teach in an establishment which does not admit *(a)* male pupils and *(b)* female pupils. [43658]

Ruth Kelly: It is not possible to provide this information in the format requested.

Mr. Davey: To ask the Secretary of State for Education and Skills what discussions have been held between her Department and the Home Office on List 99 in the past 12 months; and whether discussions were initiated by her Department. [43845]

Ruth Kelly: My Department has an ongoing dialogue with both the Home Office and the Criminal Records Bureau, to improve safeguarding. Recently this dialogue, along with discussions between the CRB and others of its stakeholders, has led to improvements including: an interim Police Local Cross Checking (i-PLX) system pending implementation of the full system; revised guidance; consolidation of CRB's two websites into one; and an electronic application route. Other discussions have focused on improving the information flows for the purpose of establishing the new vetting and barring scheme arising from Sir Michael Bichard's report.

Mr. Willetts: To ask the Secretary of State for Education and Skills which offences require her to determine whether a person should be included on List 99. [43660]

Bob Spink: To ask the Secretary of State for Education and Skills (1) what action she has taken to ensure that schools *(a)* employing and *(b)* considering employing people who are on (i) List 99 and (ii) the Sex Offenders Register are made aware of their status; [43924]

(2) what criteria she uses when deciding whether to give someone on List 99 permission to work with children. [43925]

Ruth Kelly: My statement, and the accompanying report, of 19 January set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Bob Spink: To ask the Secretary of State for Education and Skills what schools have employed people on List 99 in the last five years. [43927]

Ruth Kelly: There are 210 people on List 99 with restrictions, so they are able to teach children provided they observe the terms of their restriction. Schools will be aware of those restricted as a result of their List 99 checks.

Mr. Gibb: To ask the Secretary of State for Education and Skills on what date the case of Paul Reeve was referred to her Department for a List 99 determination; and on what date it was decided. [43394]

Ruth Kelly: The case of Paul Reeve was referred to this Department on 23 October 2003 and determined on 5 May 2005.

Mr. Gibb: To ask the Secretary of State for Education and Skills by whom the case of Paul Reeve was referred to her Department for a List 99 determination. [43395]

Ruth Kelly: Norfolk Constabulary referred the case of Paul Reeve to this Department on 23 October 2003.

Mr. Gibb: To ask the Secretary of State for Education and Skills which official *(a)* advised and *(b)* signed the letter in relation to the decision on the List 99 determination in the case of Paul Reeve. [43396]

Ruth Kelly: This decision, as with all such cases, was a decision taken in the name of the Secretary of State. The Department does not disclose the names of officials who advise the Secretary of State or who sign letters to individuals on her behalf.

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will list the individuals and organisations consulted in helping her reach a decision in the case of the Paul Reeve List 99 determination. [43397]

Ruth Kelly: The organisations consulted in reaching a decision were:

National Identification Service, New Scotland Yard

Norfolk Constabulary

Norfolk County Council

The Department does not release the names of individuals who supply information or evidence.

Mr. Gibb: To ask the Secretary of State for Education and Skills whether the *(a)* head teacher and *(b)* governing body of the Hewett School in Norwich knew that Paul Reeve (i) had received a caution for accessing a paedophile website and (ii) was on the Sex Offenders Register before his appointment. [43398]

Ruth Kelly: We understand that the head teacher of Hewett School in Norwich knew that Paul Reeve had received a caution in respect of an offence under section 1 of the Protection of Children Act 1978 and was on the Sex Offenders Register before his appointment. We do not know whether the governing body was aware of these circumstances.

Mr. Gibb: To ask the Secretary of State for Education and Skills on what date Paul Reeve was interviewed at her Department in connection with the decision of his List 99 determination and who conducted the interview. [43399]

Ruth Kelly: Mr. Reeve was interviewed on 25 January 2005 by Departmental officials and on 18 February by a consultant forensic psychiatrist. The identity of officials and the doctor conducting the interview in these cases is not disclosed by the Department.

Postgraduate Research

Mr. Hayes: To ask the Secretary of State for Education and Skills what are the 10 subject areas which received the most funding for postgraduate research in each of the last five years. [43080]

Barry Gardiner: I have been asked to reply.

The Department provides funds to the Research Councils to support postgraduate training in the UK. Figures are shown for each Research Council as follows. The cost of producing figures providing a breakdown of individual subject areas would incur disproportionate costs.

Research Council spend on postgraduate training (£ million, non-indexed)

Research Council	*2000/01*	*2001/02*	*2002/03*	*2003/04*	*2004/05*
Arts and Humanities Research Council (AHRC)[1]	—	15.4	26.5	27.7	30.5
Biotechnology and Biological Research Council (BBSRC)	21.9	25.2	27.7	28.0	29.9
Council for the Central Laboratory of the Research Councils (CCLRC)[2]	—	—	0.5	0.5	0.5
Engineering and Physical Sciences Research Council (EPSRC)	72.3	83.8	87.3	94.8	119.8
Economic and Social Research Council (ESRC)	22.1	22.8	22.2	23.1	28.3
Medical Research Council (MRC)[3]	38.4	44.8	45.0	52.2	50.4
Natural Environment Research Council (NERC)	13.7	15.4	15.8	17.6	19.1
Particle Physics and Astronomy Research Council (PPARC)	6.9	7.5	8.4	9.0	9.4

[1] AHRC became a Research Council on 1 April 2005. The figures presented are from the predecessor body AHRB (which received its funding from the UK Funding Councils not OST). Figures are not available for 2001/01.
[2] CCLRC does not directly fund any PhD or Masters students. CCLRC does fund training for postgraduates through Research Network, facility development grants and CCLRC facility access provision (figures are an approximation). Figures are not available for 2001/02 or 2000/01.
[3] This figure includes all MRC personal career awards (spend on Masters and Doctoral studentships, clinical and non-clinical fellowships, research readerships and professorships plus other funds for postgraduate training e.g. Roberts skills training).

Sex Offenders

Mr. Willetts: To ask the Secretary of State for Education and Skills how many people on the list of registered sex offenders have been employed in schools in each year since 1997. [41416]

Ruth Kelly *[holding answer 12 January 2006]:* My statement and accompanying report explain the work under way to establish how many people on the list of registered sex offenders are currently employed in schools. We are carrying out follow up work with local Multi-Agency Protection Panels, which include the police.

Mr. Willetts: To ask the Secretary of State for Education and Skills how many people on the register of sexual offenders have been allowed to work in schools under each successive Secretary of State since 1997. [42558]

Ruth Kelly: My statement and accompanying report explain the work under way to establish how many people on the list of registered sex offenders are currently employed in schools. We are carrying out follow-up work with local Multi-Agency Protection Panels, which include the police.

Greg Mulholland: To ask the Secretary of State for Education and Skills how many people who *(a)* are working for and *(b)* have worked for her Department in the Leeds Metropolitan area in the last 10 years (i) are on and (ii) have been on the sex offenders register. [43931]

Tim Farron: To ask the Secretary of State for Education and Skills how many people have been employed in schools on a *(a)* temporary, *(b)* permanent and *(c)* contracted basis in Westmorland and Lonsdale constituency who are, or have at any time in the past, been on the Sex Offenders Register in each year since 1997. [44267]

Ruth Kelly: My statement and the accompanying report explain the work under way to establish how many people on the list of registered sex offenders are currently employed in schools in England and Wales.

It is not the Government's policy to reveal publicly information that may lead to the identification and whereabouts of any individual on the Sex Offenders Register. Identifying individuals in this way does not enhance child protection.

Mrs. Villiers: To ask the Secretary of State for Education and Skills if she will list people working in schools in Chipping Barnet who are on the Sex Offenders Register, broken down by school. [44500]

Ruth Kelly: My statement and the accompanying report explain the work under way to establish how many people on the list of registered sex offenders are currently employed in schools in England and Wales. We are carrying out follow-up work with local Multi Agency Protection Panels, which include the police.

Subcontractors (Checks)

Tim Farron: To ask the Secretary of State for Education and Skills what checks are carried out on workers sub-contracted to carry out work on school premises in Westmorland and Lonsdale constituency. [44257]

Ruth Kelly: We do not collect information about the precise arrangements for checking sub-contractors in Westmorland and Lonsdale.

Safeguarding Children: Safer Recruitment and Selection in Education Settings guidance issued in June 2005 states that:

> "Local authorities, schools, and further education institutions should ensure that the terms of any contract they let that requires the contractor to employ staff to work with, or provide services for, children for whom the LA, school or FE institution is responsible also requires the contractor to adopt and implement the measures described in this guidance. They should also monitor the contractor's compliance."

Among other things the measures described include pre-appointment checks of List 99 and CRB disclosures—copy at www.teachernet.gov.uk/childprotection

Teaching Staff (Checks)

Mr. Davey: To ask the Secretary of State for Education and Skills what background checks *(a)* community schools, *(b)* voluntary-aided schools, *(c)* foundation schools, *(d)* city technology colleges and *(e)* academies are (i) legally required and (ii) recommended to make when recruiting teaching staff. [44544]

Ruth Kelly: My statement, and the accompanying report, of 19 January set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

My Department's guidance on safer recruitment, published in June 2005, aims to assist all schools, further education institutions and local education authorities to review and, where appropriate, modify their practice and procedures to strengthen safeguards for children, by helping to deter and prevent abuse.

William Gibson

Mr. Gibb: To ask the Secretary of State for Education and Skills whether the *(a)* head teacher and *(b)* governing body of Hebburn Comprehensive School on Tyneside knew that before his appointment William Gibson had a conviction for indecently assaulting a girl of 15 years of age and a conviction for fraud, forgery and theft. [43402]

Ruth Kelly: We understand that the head teacher at St. Joseph's school in Hebburn was not aware of Mr. Gibson's convictions when he started work as a supply teacher, but that a subsequent Criminal Records Bureau check provided information about all his convictions, which led to Mr. Gibson leaving the school. We do not know whether the governing body was aware of Mr. Gibson's convictions before his appointment.

Mr. Gibb: To ask the Secretary of State for Education and Skills which *(a)* Minister and *(b)* official (i) advised and (ii) signed the letter in relation to the decision on the List 99 determination in the case of William Gibson. [43404]

Ruth Kelly: This decision, as with all such cases, was a decision taken in the name of the Secretary of State. In such cases, the Department does not disclose the identity of any Minister involved or the names of officials who advise the Secretary of State or who sign letters to individuals on her behalf.

WALES

Audible Fire Alarms

Bob Spink: To ask the Secretary of State for Wales what proportion of the premises occupied by his Department is fitted with audible fire alarms. [42868]

Nick Ainger: All rooms/areas occupied by the Wales Office are fitted with audible fire alarms.

Council Tax Revaluation

Mrs. Spelman: To ask the Secretary of State for Wales when he expects the next council tax revaluation in Wales will take place. [42592]

Nick Ainger: The timing of council tax revaluation's in Wales is a matter for the National Assembly to determine, subject to the requirements of the Local Government Finance Act 1992.

Mrs. Spelman: To ask the Secretary of State for Wales whether *(a)* aerial and *(b)* satellite photography was used as part of the council tax revaluation in Wales. [42957]

Nick Ainger: Neither aerial nor satellite photography were used by the Valuation Office Agency in conducting the revaluation exercise in Wales.

Departmental Assets

David T.C. Davies: To ask the Secretary of State for Wales if he will list the items valued at over £100 that have been reported as stolen from Welsh Office buildings in the past 12 months. [43443]

Nick Ainger: The Wales Office have had no items stolen in the past 12 months.

Departmental Expenditure

Mr. Spellar: To ask the Secretary of State for Wales how much his Department spent on bottled water in 2004–05. [40322]

Nick Ainger: In financial year 2004–05, the Wales Office spent £35.19 on bottled water for meetings or receptions.

EU Funding

Peter Law: To ask the Secretary of State for Wales what assessment he has made of the likely effects of the agreement at the European Council on 17 December 2005 on the EU financial perspective 2007–13 on the economic regeneration of the South East Welsh Valleys. [41539]

Nick Ainger: As part of the agreement reached by member states on the EU budget for 2007–13, the West Wales and the Valleys region will remain eligible for full Objective One funding (re-branded "Convergence" for the period 2007–13). It is expected that West Wales and the Valleys will receive funding similar in size to the current Objective One programme.

The South East Welsh Valleys therefore stand to gain significantly from this new deal, which will build on the economic regeneration in the area currently under way.

The Welsh Assembly Government are responsible for distributing the funding to different programmes and monitoring and evaluating them. Work is already well under way to prepare the new round of programmes, which are due to commence in January 2007.

Railways

Peter Law: To ask the Secretary of State for Wales what recent discussions he has had with the Secretary of State for Transport on development of passenger train links between Cardiff and Ebbw Vale. [41534]

Nick Ainger: My right hon. Friend discusses transport matters in Wales regularly with the Secretary of State for Transport. The Welsh Assembly Government is providing almost £28 million for the Ebbw Valley railway project to accommodate passenger services between Ebbw Vale, Cardiff and Newport. I understand that an hourly service from Ebbw Vale to Cardiff will start in 2007.

Daniel Kawczynski: To ask the Secretary of State for Wales if he will make representations within Government in support of a direct rail link between London and Shrewsbury. [41558]

Nick Ainger: My right hon. Friend the Secretary of State for Transport is examining the possibility of direct rail passenger services linking Shrewsbury with London, as part of the 2008 timetable changes being

delivered with completion of the West Coast Route Modernisation Project. This proposal is dependent upon the business case and is being considered in conjunction with the railway industry, local authorities and other interested bodies.

Peter Law: To ask the Secretary of State for Wales what discussions he has had with *(a)* the Secretary of State for Transport and *(b)* the Welsh Assembly Government Minister for Economic Development and Transport on the economic and environmental benefits of increasing the railway network in (i) Wales and (ii) Blaenau Gwent. [39756]

Nick Ainger: I have regular discussions with both ministerial and Assembly Government colleagues about matters affecting transport in Wales. In June of last year, rail passenger services returned to the Vale of Glamorgan line for the first time in over 40 years.

The new Arriva Trains Wales timetable launched in December offers further service improvements. Passengers will benefit from an additional 950 services a week across the network; a 28 per cent. increase in Sunday services; more seats on peak-time trains and new two-hourly direct services from Holyhead to Cardiff and from Milford Haven to Manchester.

The Assembly Government is providing almost £28 million for the Ebbw Valley railway project to accommodate passenger services between Ebbw Vale, Cardiff and Newport. I understand that an hourly service from Ebbw Vale to Cardiff will start in 2007 and that the Newport service is likely to begin in 2009.

Wales Office

Mrs. Gillan: To ask the Secretary of State for Wales how many invoices rendered to the Wales Office have failed to be paid within 30 days. [40729]

Nick Ainger: During financial year 2004–05, 98 per cent. of all Wales Office invoices were paid within 30 days, 19 invoices, or 2 per cent. were not paid within the 30 days.

Full breakdown of statistical information can be found in Wales Office Annual Report 2005 Cm6545. Copies are posted on the Wales Office website: www.walesoffice.gov.uk

Payment data for current financial year 2005–06 will be available in spring 2006.

Wind Farms

Mrs. Gillan: To ask the Secretary of State for Wales what discussions he has had with *(a)* the National Assembly for Wales and *(b)* the Department for Environment, Food and Rural Affairs on the effects of offshore wind farm construction on porpoises. [40812]

Nick Ainger: Offshore wind farms play a vital role in meeting our renewable energy targets and tackling the threat of climate change. I therefore have regular discussions with my counterparts at the Assembly and DEFRA about offshore wind and other technologies. Wales is set to continue its role as a centre of excellence in the construction of wind farms.

I am aware that the Countryside Council for Wales, the Government's statutory advisor on nature conservation and countryside matters, has been working with Offshore Windfarm Developers to ensure that the best option for a high standard of protection to all marine mammals is in place during construction.

TREASURY

Birth Abnormalities

Lembit Öpik: To ask the Chancellor of the Exchequer how many *(a)* babies and *(b)* stillborn babies were reported as having birth abnormalities in each year since 1995. [40793]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 20 January 2006:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many *(a)* babies and *(b)* stillborn babies were reported as having birth abnormalities in each year since 1995. (40793)

The Office for National Statistics (ONS) is responsible for maintaining the National Congenital Anomaly System (NCAS) notifications in England and Wales. These notifications are provided by NHS Trusts on a voluntary basis either directly to ONS on form SD56 or via local congenital anomaly registers that exchange data with ONS.

The scheme was introduced to monitor short term changes in notification levels. These registers cover only 42 percent of births in England and the number of registers joining the system increases every year. As a result increasing numbers notified are not necessarily an indication of an increased trend in abnormalities.

Figures for live and stillborn babies with congenital abnormalities that were reported to NCAS from 1995 to 2004 are given in the attached table.

Number of (a) live and (b) stillborn babies with a congenital anomaly notified to the National Congenital Anomaly System, England and Wales 1995–2004

	Live birth	*Stillbirth*	*Total*[1]
1995	5,671	171	5,861
1996	5,794	175	5,998
1997	5,771	171	5,966
1998	6,334	204	6,555
1999	7,488	238	7,750
2000	7,820	308	8,152
2001	7,380	315	7,715
2002	6,978	344	7,347
2003	6,624	332	6,983
2004	6,023	322	6,358

[1] Includes cases where information was not available to NCAS on whether the baby was live or still born.

Child Trust Fund

Greg Mulholland: To ask the Chancellor of the Exchequer how many people eligible for the child trust fund have applied for and taken up the fund in each month since the scheme was introduced. [44333]

Dawn Primarolo: Child trust fund statistics are produced quarterly. The latest set were published on 30 November 2005 at: http://www.hmrc.gov.uk/stats/child_trust_funds/child-trust-funds.htm. The next set will be published in February 2006.

Correspondence

Sir Michael Spicer: To ask the Chancellor of the Exchequer when the Paymaster General will reply to the faxed letter of 6 December 2005 from the hon. Member for West Worcestershire. [44144]

Dawn Primarolo: I hope to be in a position to reply to the hon. Member shortly.

Employment (Tamworth)

Mr. Jenkins: To ask the Chancellor of the Exchequer what proportion of Tamworth residents were in *(a)* the top 10 per cent. and *(b)* the bottom 10 per cent. of income earners in (i) 1994 and (ii) 2004. [43473]

Dawn Primarolo: The information requested is not available at constituency level.

Equal Tax Treatment

Mr. Hoban: To ask the Chancellor of the Exchequer what steps he is taking to ensure that there is equal tax treatment for *(a)* UK-resident building subcontractors and *(b)* those working in the UK who are resident in other EU countries. [44197]

Dawn Primarolo: Any subcontractor working in the construction industry in the United Kingdom, whether a resident here or not, needs to register under the Construction Industry Scheme (CIS). Without a CIS tax certificate or registration card the subcontractor cannot be paid.

The United Kingdom charges income tax on the profits of all trades carried on by UK residents whether wholly or partly in the United Kingdom. So that where a subcontractor is resident in the UK the profits of their trade whether carried on in the UK or abroad will be charged to income tax in the UK.

Where a subcontractor is not resident in the UK but carries on a trade either wholly in the UK or partly in the UK and partly elsewhere, the profits from the trade carried on in the UK will be charged to income tax in the UK. This is subject to any relief provided by a relevant double taxation agreement between the United Kingdom and the country of residence of the subcontractor. Such an agreement will in most cases ensure that just one country has taxing rights over the relevant trade income so avoiding economic double taxation of the income.

Where a subcontractor is trading in the UK through a non-resident company, that company will be liable to UK corporation tax on all profits that are attributable to its permanent establishment (i.e. a fixed place of business or an agency) in the UK. Again this is subject to any relief from UK tax provided by a relevant double taxation agreement. If the company does not have a permanent establishment in the UK it will not be within the charge to corporation tax.

For income tax there is therefore under existing UK law equal tax treatment between a UK resident and a resident of another EU member state in respect of the profits of a trade carried on in the United Kingdom and chargeable to tax here.

For corporation tax the requirement that the non-resident company has a permanent establishment in the UK before it becomes chargeable is not present for UK resident companies. This mirrors the restriction in double taxation agreements through which UK companies get reciprocal relief in other EU states.

National Insurance Contributions

Mr. Boswell: To ask the Chancellor of the Exchequer (1) how much has been collected in each of the past five years in employer national insurance contributions for *(a)* males and *(b)* females over the state retirement age; and what additional revenue in each category would have been collected if employee contributions were also payable; [42658]

(2) what estimate he has made of the extra revenue from national insurance contributions that will accrue annually on account of the progressive raising of the state retirement age to 65 years for females. [43058]

Dawn Primarolo: Information on the amount of secondary contributions paid for males and females in work and above state retirement age for the past five years is not available except at a disproportionate cost.

Similarly, the amount of extra revenue from national insurance contributions that will accrue annually on account of raising the pension age on a phased basis between 2010 and 2020 for females to 65 years is not available except at a disproportionate cost.

Tax Relief

Mr. Dodds: To ask the Chancellor of the Exchequer how much tax relief was received by persons in the top tax bracket in the last year for which figures are available. [44511]

Dawn Primarolo: Information on the amount of all tax reliefs received by higher rate taxpayers is not available, except at a disproportionate cost.

Thames Gateway Organisation

Bob Spink: To ask Mr Chancellor of the Exchequer how many paid directors there are in each branch of the Thames Gateway organisation; and what the total employment cost of each has been to date. [42914]

Yvette Cooper: I have been asked to reply.

Until 13 January, the senior staff of the Thames Gateway Directorate comprised one director (grade SCS 1A) and two divisional managers (grade SCSI). A further director has now been appointed on secondment reflecting increasing workload in preparation for the London Olympics. The total administrative costs of the Directorate are expected to be £2,474,000 in the current financial year, which includes the rental of the Thames Gateway office in Docklands.

Unemployment Statistics

Tim Farron: To ask the Chancellor of the Exchequer what the levels of long-term *(a)* adult and *(b)* youth unemployment were in Westmorland and Lonsdale in each year since 1997. [44294]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell, dated 20 January 2006:

As National Statistician, I have asked to reply to your Parliamentary Question about unemployment. (44294)

The Office for National Statistics (OHS) compiles statistics of unemployment for local areas from the annual local area Labour Force Survey following International Labour Organisation definitions.

However, for the Westmorland and Lonsdale constituency sample numbers are insufficient to provide estimates of the levels of long-term adult and youth unemployment.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). The attached table shows the annual average number of JSA claimants claiming for over 12 months and those aged 18 to 24 claiming for over 12 months, resident in the Westmorland and Lonsdale constituency since 1997.

JSA claimants, claiming for over 12 months, resident in the Westmorland and Lonsdale constituency

	Long-term (claiming over 12 months) [1]	
Annual averages	*All*	*Youth (aged 18 to 24)*
1997	165	20
1998	90	5
1999	75	5
2000	55	0
2001	20	0
2002	15	5
2003	20	0
2004	15	0
2005	15	0

TRADE AND INDUSTRY

Biotechnology and Biological Sciences Research Council

Dr. Gibson: To ask the Secretary of State for Trade and Industry (1) what staffing reductions have occurred in the Biotechnology and Biological Sciences Research Council funded institutes in each of the last five years; and what assessment he has made of the effect of the reductions on the scientific skills base; [41362]

(2) what plans he has under the Shared Service Policy to merge Biotechnology and Biological Sciences Research Council funded institutes; and if he will make a statement. [41363]

Barry Gardiner: The BBSRC received an increased level of funding from the Science Budget following the 2004 Spending Review. Its initial allocation was £336.186 million in 2005–06, £371.644 million in 2006–07 and £381.829 million in 2007–08. An increased proportion of BBSRC's total budget over this period will support research in Higher Education Institutions. In the period 2000 to 2003 (the latest date statistics are available) the total number of staff employed in Biological Sciences in Higher Education Institutions increased by approximately 500 from 6,900 to 7,400.

The following table gives details of the net reduction in the number of posts in BBSRC Institutes in each of the past five years.

	Net reduction in posts
2000–01	0

BBSRC has sought to ensure that past staff reductions do not have a material effect on the overall skills base in the UK. In the case of land based research, BBSRC is in active discussion with relevant Government Departments about the impact of staffing reductions.

BBSRC has no current plans to merge institutes but is considering the establishment of an Edinburgh BioScience Research Centre (EBRC) which would include researchers from the Roslin Institute and some from the Institute for Animal Health (those currently based in the Edinburgh Neuropathogenisis Unit). The EBRC would also involve closer collaboration with other research organisations in the area.

A number of BBSRC institutes are reviewing their administrative services to identify efficiency savings, including through the sharing of services between institutes, so as to enable additional funding to go into scientific research.

Herbal Medicines

Mr. Hancock: To ask the Secretary of State for Trade and Industry if he will assist small and medium-sized enterprises with the costs of compliance with the Traditional Herbal Medicinal Products Directive; and if he will make a statement. [42005]

Jane Kennedy: I have been asked to reply.

I refer the hon. Member to the reply I gave on 11 January 2006, *Official Report*, column 724W to my hon. Friend, the Member for Great Grimsby (Mr. Mitchell).

Natural Environment Research Council

Gregory Barker: To ask the Secretary of State for Trade and Industry what representations the National Environment Research Council made to the Government concerning additional funding for the Centre for Ecology and Hydrology in the past two years; what amounts were requested; and whether they were granted. [42553]

Barry Gardiner: The Natural Environment Research Council (NERC) indicated, during the allocation process following the Spending Review 2004, that providing the Centre for Ecology and Hydrology (CEH) with a sustainable future was a high priority and that it intended to examine options to achieve this. NERC's original allocation from the Department was £359.4 million and £367.2 million for the financial years

2006–07 and 2007–08 respectively. The Department has indicated subsequently that it would be willing to increase NERC's allocation by £2.7 million and £11.5 million in these years so as to support the delivery of its core programmes in the event that the restructuring of CEH goes ahead.

Gregory Barker: To ask the Secretary of State for Trade and Industry how many *(a)* letters, *(b)* emails and *(c)* telephone calls (i) the Government, (ii) the Natural Environment Research Council and (iii) the Centre for Ecology and Hydrology received regarding the proposed closure of sites in the last two years; and how many in each case concerned Monks Wood in Cambridgeshire. [42554]

Barry Gardiner: Following the December 2005 announcement by the Natural Environment Research Council (NERC) to consult the public and staff on its proposed changes to the Centre for Ecology and Hydrology (CEH), the number of communications received by 16 January 2006 is as follows:

	(i) Government[1]	*(ii) NERC*	*(iii) CEH*	*Concerning Monks Wood*[2]
(a) Letters[3]	37	55	0	17
(b) E-mails[3]	29	207	0	43
(c) Telephone calls	8	43	0[4]	0

[1] Department of Trade and Industry (DTI) and Department for Environment, Food and Rural Affairs (Defra).
[2] Specifically relating, or referring, to Monks Wood.
[3] Figures may contain duplications as some letters and e-mails have been copied to more than one recipient, and some individuals have written more than one letter or e-mail.
[4] CEH received 20 calls but these were passed on to NERC and are therefore included in the NERC figure.

CULTURE, MEDIA AND SPORT

Departmental Vehicles

Mrs. Villiers: To ask the Secretary of State for Culture, Media and Sport how many cars are *(a)* owned and *(b)* leased by her Department; what models the cars are; what type of petrol each model requires; and what the fuel efficiency is of each model. [41351]

Mr. Lammy: The information is as follows.

(a) DCMS does not own any cars,

(b) DCMS lease five cars from the Government Car and Despatch Agency (GCDA). For vehicles provided to Government Departments by the GCDA my hon. Friend the Parliamentary Under-Secretary of State for Transport has asked the Chief Executive of the GCDA to write to the hon. Member with the information requested.

Free Television Licences

Mr. Evans: To ask the Secretary of State for Culture, Media and Sport how many households in Ribble Valley are in receipt of a free television licence. [43147]

James Purnell: TV Licensing, who administer free television licences for people aged 75 or over as agents for the BBC, are not able to provide geographical breakdowns of the number of free licences issued. However, the number of households with at least one person aged 75 or over claiming the winter fuel payment in the Ribble Valley constituency in 2004–05 was 6,010, according to Department for Work and Pensions records.

Green Ministers

Jo Swinson: To ask the Secretary of State for Culture, Media and Sport what meetings her Department's Green Minister has attended in the last 12 months in an official capacity; and if she will list the meetings at which her Department has been represented in the last 12 months on the delivery of sustainable development across government which have been co-ordinated by the Ministerial Sub-Committee of Green Ministers. [44255]

James Purnell: Following the general election in May, the Cabinet Sub-Committee of Green Ministers (ENV(G)) was replaced by the Ministerial Sub-Committee on Sustainable Development in Government (EE(SD)) whose members are departmental Sustainable Development Ministers. It is established practice not to disclose information relating to the proceedings of Cabinet Committees or any activities co-ordinated by them. My right hon. Friend Baroness Morris of Yardley (Estelle Morris) represented the Department for Culture, Media and Sport on ENV(G) committee until May 2005. After that date I was appointed to represent DCMS on EE(SD). I attended an informal breakfast seminar organised by the Department for the Environment, Food and Rural Affairs last July in that capacity. Since then I have had a bi-lateral meeting in the same capacity with the Minister for Energy and Environment.

WORK AND PENSIONS

Adult Dependency Benefit

David Mundell: To ask the Secretary of State for Work and Pensions whether he intends to bring forward legislation to amend the law so that the adult dependency benefit can be claimed by married women. [41952]

Mr. Timms: Married women in receipt of state pension are in certain limited cases entitled to an adult dependency increase.

We have no plans currently to widen the scope of the rules for entitlement.

Allied Steel and Wire

Julie Morgan: To ask the Secretary of State for Work and Pensions pursuant to the oral answer of 9 January 2006, *Official Report*, column 12, on ASW Sheerness (pension scheme), what the basis is of the estimate of 15,000 pensioners qualifying for assistance under the Financial Assistance Scheme. [44271]

Mr. Timms: Based on the limited data we have been able to obtain from affected pension schemes, this is our best estimate of the number of members of eligible schemes likely to be within three years of scheme pension age in May 2004 and have less than 80 per cent. of their core pension rights covered by the scheme.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions how many prosecutions have been brought by the Child Support Agency under section 14A of the 1991 Act in each year since 31 January 2001; how many convictions have been obtained in relation to those prosecutions; and what the average fine imposed by the courts was for such offences in each year. [31208]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 9 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions how many prosecutions have been brought by the Child Support Agency under section 14A of the 1991 Act in each year since 31 January 2001 to date; how many convictions have been obtained in relation to those prosecutions; and what the averaged fine imposed by the courts was for such offences in each year.

I have provided the relevant information in the attached table.

I hope you find this response helpful.

Numbers of prosecutions and convictions under Section 14A

£

Section 14 Prosecutions	*2001*	*2002*	*2003*	*2004*	*January–31 October 2005*	*Total*
Prosecutions	0	16	233	196	313	758
Found guilty	0	16	231	195	306	748
Total amount of fines issued	0	4,080	42,735	32,275	70,288	149,378
Conditional discharges	0	5	22	25	28	80
Absolute discharge	0	0	0	1	5	6
Deferred sentence	0	0	0	1	0	1
Average fine	0	370.91	204.47	192.11	257.47	225.99

Notes:

1. The average fines have been calculated using the total fines imposed divided by the number of convictions (excluding the conditional and absolute discharges).
2. The maximum fine that can be imposed upon a person found guilty of an offence under Sections 14A(2) and 14A(3) of the Child Support Act 1991 is £1,000.

HM Treasury

Mr. Laws: To ask the Secretary of State for Work and Pensions what responsibilities of his Department have been transferred to HM Treasury since 1 May 1997; and if he will make a statement. [41335]

Margaret Hodge: The Department for Work and Pensions (DWP) was established in June 2001. The Tax Credits Act 2002 transferred to HM Treasury responsibility for policy relating to child benefit and guardian's allowance, with the setting of the levels of those benefits and the rules of entitlement and this transfer took place on 1 April 2003. The Secretary of State's remaining functions relating to child benefit and guardian's allowance were transferred at the same time to the Commissioners of Inland Revenue. Additionally family credit, disability working allowance and certain payments for children in other benefits have been superseded by tax credits, administered by HMRC as a consequence of the Tax Credits Acts of 1999 and 2002.

The Social Security Contributions (Transfer of Functions, etc.) Act 1999 effected the transfer of the Contributions Agency and national insurance contributions policy from what is now the Department for Work and Pensions to the Inland Revenue now HM Revenue and Customs (HMRC) from 1 April 1999.

Housing Benefit

Mr. McGovern: To ask the Secretary of State for Work and Pensions what the cost of housing benefit was in each of the past three years for which records are available. [44049]

Mr. Plaskitt: The information is in the table.

£

	Total housing benefit
2002–03	12,672,020,416
2003–04	12,349,634,512
2004–05	13,170,618,972

Notes:

1. Figures are for Great Britain.
2. Final figures for 2004–05 are not yet available and are subject to change.

Source:

Subsidy claims data.

Race Relations

Keith Vaz: To ask the Secretary of State for Work and Pensions how many and what percentage of staff in his Department have received training on the general and specific duties of the Race Relations (Amendment) Act 2000, broken down by *(a)* ethnicity and *(b)* grade. [3557]

Mrs. McGuire: All staff are required to undertake training on the provisions of the Race Relations (Amendment) Act 2000. Race Relations (Amendment) Act 2000 awareness is also part of the induction package for all new employees.

Race relations training has been delivered in a variety of ways throughout the Department, for example through trainer-led events in classrooms, team workshops, roadshows and the DWP Diversity Toolkit which is an e-learning and development tool with modules covering all areas of equality.

We do not currently have a system to monitor all the training undertaken and we are therefore unable to specify how many and what percentage of staff have received training. We are in the process of developing a new resource management system, due for implementation during 2006. One of the features of the new system will enable us to address our need to monitor and will collect data on training applications, broken down by ethnicity, age, gender, disability and grade.

NORTHERN IRELAND

Department for Rural Development

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland if he will break down the Department for Rural Development's Roads Service Budget for 2006–07 by main budget heading. [44059]

Mr. Woodward: The chief executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin, dated 19 January 2006:

You recently asked the Secretary of State for Northern Ireland a parliamentary question regarding the break down of the Department for Rural Development's Roads Service Budget for 2006–07 by main budget heading. I have been asked to reply as these issues fall within my responsibility as Chief Executive of Roads Service, an agency within the Department for Regional Development.

The following table gives the analysis of the Roads Service budget for 2006–07.

Budget 2006–07

£ million

	Amount
Admin	76.0
Other resource	93.9
Capital	107.9

It should be noted however, that these amounts are subject to amendment as a result of the in-year budget monitoring rounds, which form part of the public expenditure process.

I hope this information is helpful.

Departmental Vehicles

Mrs. Villiers: To ask the Secretary of State for Northern Ireland how many cars are *(a)* owned and *(b)* leased by his Department; what models the cars are; what type of petrol each model requires; and what the fuel efficiency is of each model. [41349]

Mr. Hain: The information requested is as follows:

(a) Four owned:

Model	*Petrol*	*Fuel efficiency mpg*
Ford Mondeo	Unleaded	36.4
Vauxhall Vectra	Unleaded	37.2
Vauxhall Omega	Unleaded	23.2
Vauxhall Combo Van	Diesel	53.4

(b) 16 leased:

Model	*Petrol*	*Fuel efficiency mpg*
6—Volvo s.80	Unleaded	30.7
Fiat Punto	Unleaded	42.6
Peugeot 307	Unleaded	46.4
Ford Focus	Diesel	58.9
Ford Transit Van	Diesel	45.6
Renault Kangoo Van	Diesel	54.6
Ford Focus	Unleaded	35.3
Kia Sedona	Unleaded	26.6
Toyota Rav 4	Unleaded	30.4
Ford Mondeo	Unleaded	36.4
Peugeot 406	Unleaded	38.6

INTERNATIONAL DEVELOPMENT

Coercive Abortion

Mr. Amess: To ask the Secretary of State for International Development what steps the Government have taken during its G8 and EU presidencies to tackle coercive abortion; and if he will make a statement. [41762]

Mr. Thomas: Our presidencies of the G8 and the EU delivered significant results for development and for increasing assistance for health. We did not focus on tackling coercive abortion. Our policies and work on reproductive health, and our support to organisations such as the United Nations Population Fund (UNFPA) and International Planned Parenthood Foundation (IPPF), are about promoting choice and challenging coercive abortion. UK officials have raised the issue bilaterally in appropriate circumstances.

Departmental Expenditure

Pete Wishart: To ask the Secretary of State for International Development what the annual expenditure on vehicles by *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland was in each of the last three financial years; and what the planned expenditure is for 2005–06. [40000]

Mr. Thomas: For details of expenditure on Ministerial vehicles provided to the Department by the Government Car and Despatch Agency I refer the hon. Member to the letter of 20 December 2005 from the Chief Executive of the Government Car and Despatch Agency to the hon. Member for Lewes (Norman Baker). Copies of this letter are available in the Library.

One other vehicle is leased by DFID in London, for which the costs (including the driver) are as follows:

	£
2002–03	0
2003–04	0
2004–05	48,000
2005–06	[1]48,000

[1] estimated

Information on expenditure on vehicles overseas is not held centrally and cannot be obtained without incurring a disproportionate cost.

There are no non-departmental public bodies (NDPB)s or agencies for which DFID is responsible. Our one other public body, CDC Group PLC, based in London, incurred no expenditure on vehicles over this period.

Mrs. Villiers: To ask the Secretary of State for International Development how much was spent by his Department on refreshments in each year since 1997. [41245]

Mr. Thomas: The amounts spent by DFID on refreshments (including working lunches, and refreshments at meetings) is as follows:

	£
1996–97	10,000
1997–98	24,000
1998–99	43,000
1999–2000	62,000
2000–01	48,000
2001–02	55,000
2002–03	82,000
2003–04	219,000
2004–05	303,000
2005–06	253,000

Expenditure is made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in "Government Accounting".

In 2003–04, DFID introduced new procedures to draw together administration costs, including those entertainment costs which had previously been recorded on country programme budgets. These changes have improved transparency and management of administration costs, but mean that figures from 2003–04 now include entertainment costs that were previously funded by country programmes and as a result are not comparable with earlier years.

Mrs. Villiers: To ask the Secretary of State for International Development how many *(a)* laptops and *(b)* mobile phones his Department bought in each year since 1997; and what the cost of each category of equipment was in each year. [41266]

Mr. Thomas: The numbers and cost of laptops and UK mobile phones purchased by DFID in each financial year since 1997 was as follows:

	Number of laptops	*Cost of laptops*	*Number of UK mobile phones*	*Cost of UK mobile phones*
1997–98	121	n/a	n/a	n/a
1998–99	125	n/a	n/a	n/a
1999–2000	148	207,200	7	800
2000–01	265	424,000	55	3,500
2001–02	251	376,500	95	7,900
2002–03	734	1,027,000	149	11,200
2003–04	900	930,000	165	13,100
2004–05	270	297,000	258	19,350

The cost of laptops, and the number and cost of mobile phones, in the year before 1999 could not be obtained without incurring a disproportionate cost.

Mobile phones are purchased locally at each DFID office. The figures in the table show the number of mobile phones on the UK contracts. The numbers at each overseas office cannot be provided without incurring a disproportionate cost.

DFID has made a substantial investment in laptop computers and mobile phones in the last three years as part of a structured move to new ways of working. Over half of DFID's staff now use a laptop instead of a desktop computer. This enables staff to work while travelling, and from DFID offices and other locations away from their normal base.

Mrs. Villiers: To ask the Secretary of State for International Development how much his Department has spent on IT systems in each year since 1997; what the purpose of each system is; what the outturn against planned expenditure of each system was; and what the *(a)* planned and *(b)* actual date of completion was of each system. [41325]

Mr. Thomas: DFID has let three major IT contracts since 1997.

The Human Resources (HR) system had a projected supplier cost at tender of £1.18 million and was due to be implemented in 30 months. The first four modules were implemented in 36 months at a total supplier cost of £1.22 million. The HR system project was superseded by an HR Transformation project which aims to radically change the way HR services are delivered and improve people management. The HR Transformation project is primarily a business change project but includes the remaining modules of the HR system project and a number of small IT components. This project is currently on track to deliver to time and budget.

The Quest Electronic Document and Record Management system had a projected supplier base cost at tender of £8.98 million and was due to be implemented in 24 months. The Quest project is currently on track to deliver in 27 months. The projected total supplier cost is £10.76 million. This includes a number of additional cost options available under the original contract.

The Aries Finance, Procurement and Reporting System, had a projected base supplier cost at tender of £11 million and is due to be implemented in 36 months. A number of additional cost options are available under the contract. The Aries project is currently on track to deliver to time and budget.

DFID has also let a number of small IT related contracts. However, our central records do not distinguish IT contracts, so provision of details for these contracts would incur disproportionate costs.

CABINET OFFICE

Buncefield Depot Fire

Miss McIntosh: To ask the Chancellor of the Duchy of Lancaster what assessment the Civil Contingency Secretariat has made of the responses to the Buncefield Depot fire; and if he will make a statement. [42411]

Mr. Jim Murphy: The Health and Safety Executive is leading the investigation into the cause of the accident and the implications for operations at similar sites elsewhere. The Civil Contingencies Secretariat has been in close contact with other Government Departments, and through the Government Office for the East of England with local responders—both during the response and the ongoing recovery phase—to ensure wider issues with applicability to national disaster response arrangements are captured. The results of this work will feed into the on-going process for assessing issues arising from major emergencies and exercises so that lessons are identified, addressed and applied in the future.

Departmental Expenditure

Mrs. Villiers: To ask the Chancellor of the Duchy of Lancaster how many *(a)* laptops and *(b)* mobile phones his Department bought in each year since 1997; and what the cost of each category of equipment was in each year. [41271]

Mr. Jim Murphy: Statistics on the quantities and costs of laptops and mobile phones bought in each year since 1997 are available only at disproportionate cost.

Mrs. Villiers: To ask the Chancellor of the Duchy of Lancaster how much his Department has spent on IT systems in each year since 1997; what the purpose of each system is; what the outturn against planned expenditure of each system was; and what the outturn time for implementation against planned time was. [41312]

Mr. Jim Murphy: The information requested can be provided only at disproportionate cost.

Mr. Francois: To ask the Chancellor of the Duchy of Lancaster how much has been spent in each year since 1997 by his Department on salaries paid to civil servants. [41578]

Mr. Jim Murphy: The table shows Cabinet Office expenditure on civil servants' salaries each year since 1997–98 to 2004–05.

	National pay (£000)	*National pay as a percentage of total expenditure*
1997–98	25,779	33
1998–99	30,119	29
1999–2000	35,116	33
2000–01	39,956	34
2001–02	48,573	28
2002–03	58,563	36
2003–04	56,776	36
2004–05	58,709	37

Public Appointments

Mr. Gordon Prentice: To ask the Chancellor of the Duchy of Lancaster how many people on renewable public appointments since 1997 did not have their contract renewed. [44199]

Mr. Jim Murphy: Precise figures are not available for the number of people whose appointments have not been renewed. Statistics on the number of new appointments and re-appointments to public bodies within the Commissioner for Public Appointments' remit are published in her annual report. Summary details of appointments made each year since 1997 are shown in the table. During this time, the number of bodies within the Commissioner's remit has changed and explanations are given where this has had a significant impact on the figures.

	New appointments	*Re-appointments*	*Total*
1997–98	1,186	744	1,930
1998–99[1]	1,696	1,549	3,245
1999–2000	2,117	723	2,840
2000–2001[2]	2,793	1,063	3,856
2001–2002	1,849	1,657	3,506
2002–2003[3]	2,510	970	3,480
2003–2004	1,765	1,113	2,878
2004–2005	1,959	1,363	3,322

[1] On 1 October 1998, the Commissioner's remit was extended to advisory bodies, public corporations, nationalised industries and the utility regulators.
[2] Increase in appointments largely due to new primary care trusts.
[3] Increase in appointments largely due to new primary care trusts and new strategic health authorities.

Commissioner for Public Appointments Annual Reports

HOME DEPARTMENT

Asylum Seekers

Philip Davies: To ask the Secretary of State for the Home Department how many people claiming asylum have requested that their case be referred to judicial review in each of the last eight years; and what proportion of those cases were found in favour of the asylum seeker in each year. [42796]

Mr. McNulty: Information on applications for judicial review and outcomes is published in the annual statistical bulletin Asylum Statistics United Kingdom.

Mr. Kidney: To ask the Secretary of State for the Home Department how long Tirth Singh Malhi (reference number S835998) has been waiting for the outcome of his application for leave to remain in the United Kingdom; what the reasons are for the length of wait; and when he expects a decision to be made. [43339]

Mr. McNulty: Mr. Tirth Singh Malhi has been waiting for the outcome of his application for leave to remain in the United Kingdom for approximately three years and ten months. The reason for this length of wait is administrative error. The immigration and nationality directorate wrote to Mr. Tirth Singh Malhi's solicitors on 17 January 2006 and refused his application. However, Mr. Tirth Singh Malhi has been granted a right of appeal.

Bicester Accommodation Centre

Tony Baldry: To ask the Secretary of State for the Home Department if he will list the subcontractors instructed by GSL UK Ltd. on the project to build an accommodation centre for asylum seekers at Bicester. [43505]

Mr. McNulty: Carillion is the subcontractor named in the contract between immigration and nationality directorate (IND) and GSL (UK) Ltd.

Control Orders

Mr. Dismore: To ask the Secretary of State for the Home Department what the nationalities are of the non-British subjects of control orders. [41339]

Mr. Charles Clarke: I cannot comment on individual cases.

There are anonymity orders in place protecting the identity of the individuals subject to control orders. The anonymity orders do not in themselves prevent disclosure of nationality, but in certain cases this may allow their identity to be determined. The Home Secretary has therefore made the decision not to reveal the nationalities of foreign nationals who have been made the subject of control orders.

Departmental Staff

Mr. Weir: To ask the Secretary of State for the Home Department how many and what percentage of jobs in *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which his Department is responsible are located in (A) Scotland, (B) England, excluding Greater London, (C) Greater London, (D) Wales, (E) Northern Ireland and (F) overseas. [39933]

Mr. Charles Clarke: The number and percentage of jobs in *(a)* Home Office, *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which the Home Office is responsible are located in (A) Scotland, (B) England, excluding Greater London, *(c)* Greater England, (D) Wales, (E) Northern Ireland and (F) overseas, are listed in the following table:

	(A) Scotland	*(B) England Excluding GL*	*(C) Greater London*	*(D) Wales*	*(E) Northern Ireland*	*(F) Overseas*	*No location*[1]
(a) Department							
CORE Home Office	0	681.06	3,781.30	2.8	0	2	14
Percentage	—	15.20	84.40	0.05	—	0.04	0.31
Prison Service	0	40,418	5,725	980	0	0	0

[1] Staff on long term leave, or in transit between posts where no location is centrally recorded, or where location is withheld for reasons of security, such as in respect of animal inspectorate.
[2] For operational reasons it would not be appropriate to disclose geographical allocation of staff in respect of NCS and NCIS.

Deportations

Mr. Dismore: To ask the Secretary of State for the Home Department from which country each of those detained pending deportation originated; and to which country it is intended to deport them, subject to an acceptable Memorandum of Understanding. [41338]

Mr. McNulty: 10 persons from several countries including Algeria and Jordan are currently detained, under immigration powers, pending deportation to their country of origin for reasons of national security. In all cases eventual deportation is subject to the negotiation of Memorandum of Understandings (MoUs) and specific assurances with the home country of the individuals concerned.

Immigration and Nationality Directorate

Mr. Lidington: To ask the Secretary of State for the Home Department when the immigration and nationality directorate will reply to the letter from the hon. Member for Aylesbury of 23 September 2005 to the immigration and nationality directorate about the case of Ms V.E.S. of Aylesbury (reference S1198241 and B22849/5). [44547]

Mr. McNulty: The director general of the immigration and nationality directorate wrote to my hon. Friend on 18 January.

DEFENCE

Afghanistan

Dr. Fox: To ask the Secretary of State for Defence how much money the Government spent on counter-narcotics work in Afghanistan during 2004–05. [42987]

Dr. Howells: I have been asked to reply.

The UK spent £24,442,350.00 on counter-narcotics (CN) work in Afghanistan during 2004–05. The activity this funded included: the running of seven training courses on intelligence and investigation techniques for the Afghan Counter-Narcotics Police; support for over five major seizures of opiates; the provision of a mobile forensic laboratory; and help to establish regional law enforcement offices in seven provincial centres outside Kabul.

On 5 September, I announced new UK funding for Afghan CN in a joint press conference with Afghan CN Minister Qaderi. Details of this are available at http://www.fco.gov.uk/servlet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c-Page&cid=1007029391638&a=KArticle&aid=1125559465083%20&year=2005&month=2005-09-01&date=2005-09-05. The UK is to provide more than £270 million over the next three years. £130 million of the funding will be provided by the Department for International Development with the rest coming from other Government Departments including the Foreign and Commonwealth Office and Ministry of Defence.

Mr. Ancram: To ask the Secretary of State for Defence what procedures will govern the UK's handling of prisoners captured and detained by International Security Assistance Force (ISAF) forces in Afghanistan when captured by UK contingents *(a)* as a part of NATO ISAF and *(b)* operating as a part of Operation Enduring Freedom. [44266]

Mr. Ingram: All personnel receive appropriate pre-deployment training in advance of commencing operations; for those to whom it is relevant, this includes specific training on the rules and principles involved in handling prisoners of war, internees and detainees; this can also include briefing by institutions such as the International Committee of the Red Cross.

United Kingdom procedures governing the handling of prisoners are consistent with the principles of the Geneva Conventions whether detaining as part of an ISAF operation or Operation Enduring Freedom. Joint Warfare Publication 1–10 "Prisoners of War Handling" covers the principles, responsibilities, practices and procedures for the UK armed forces in handling prisoners of war. This publication is available on the Ministry of Defence website at www.mod.uk/jdcc.

Mr. Rob Wilson: To ask the Secretary of State for Defence how many mobilised reservists in each of the three services he expects to be required for deployment to Helmand province, Afghanistan. [43286]

Mr. Ingram: No final decisions have been made on the possible deployment of British forces to Southern Afghanistan as part of the expansion of the international security assistance force. Consequently it would be premature to give details of the number of reservists that might be required.

Audible Fire Alarms

Bob Spink: To ask the Secretary of State for Defence what proportion of the premises occupied by his Department is fitted with audible fire alarms. [42884]

Mr. Touhig: The information is not collected in this form and could be provided only at disproportionate cost. The Ministry of Defence is committed to ensuring compliance with fire safety law in premises it occupies. That includes provision of fire detection and warning systems that are appropriate to the circumstances of the case.

British Base, Cyprus

Mr. David Hamilton: To ask the Secretary of State for Defence what the cost to public funds of the British base in Cyprus has been in each of the last five years. [42436]

Mr. Ingram: The costs of maintaining UK military facilities on Cyprus for each of the last five years are as follows:

	£ million
2004–05	223
2003–04	247
2002–03	240
2001–02	206
2000–01	213

C-130 Hercules

Mr. Gray: To ask the Secretary of State for Defence if he will make a statement on the defensive aids fitted to the Hercules aircraft shot down in Iraq in 2005. [43370]

John Reid *[holding answer 19 January 2006]:* The Hercules that was shot down was fully equipped with infra-red defensive counter measures, plus an enhanced defensive capability.

Departmental Estate

Mr. Devine: To ask the Secretary of State for Defence what plans he has for the disposal of departmental land in Livingston constituency. [44020]

Mr. Touhig: The Ministry of Defence has no current plans to dispose of any land or property in the Livingston constituency.

Departmental Vehicles

Mrs. Villiers: To ask the Secretary of State for Defence how many cars are *(a)* owned and *(b)* leased by his Department; what models the cars are; what type of petrol each model requires; and what the fuel efficiency is of each model. [41353]

Mr. Touhig: The Ministry of Defence currently leases in excess of 8,800 cars for non-operational use, the overwhelming majority of which are powered by diesel engines. The requirement for vehicles is specified in output terms rather than by vehicle model. Information on the total number and fuel efficiency of each model leased is not therefore held centrally and could be provided only at disproportionate cost.

In addition there are a small quantity of cars owned by the Ministry of Defence for use on operations. Information on these is being withheld on the basis that disclosure could prejudice operational capability.

Iraq

Lynne Featherstone: To ask the Secretary of State for Defence pursuant to the answer of 9 January 2006, *Official Report*, column 223W, on Iraq, in what month in 2002–03 operations commenced for the purposes of the calculation of total expenditure on operations in Iraq. [43138]

John Reid: Operation Telic commenced on the 20 March 2003 at which time the Ministry of Defence was allowed to claim the additional cost of the operation from the Treasury Reserve.

Ministry of Defence Stores

Mr. Djanogly: To ask the Secretary of State for Defence what the total gross replacement value of Ministry of Defence stores lodged with its contractors and subsequently found to be either lost or otherwise not available for use for Ministry of Defence purposes was in each quarter since January 1999; and what costs have been recovered by his Department in respect of such stores. [43202]

Mr. Ingram: *[holding answer 18 January 2006]:* The information requested is not held centrally and could be provided only at disproportionate cost.

However, detailed as follows are the financial recoveries notified to the Department's Asset Accounting Centre (AAC) during the period April 2000 to December 2005.

Nuclear Operations (RAF Lakenheath)

Alan Simpson: To ask the Secretary of State for Defence (1) what procedures are in place to ensure that US aircraft based at RAF Lakenheath only carry out nuclear operations with the consent of the British Government; [43790]

(2) whether he has had any discussions with the US Administration following the leaking of the draft Joint Doctrine for Nuclear Operations concerning US strategies for using US nuclear weapons stored at RAF Lakenheath; [43792]

(3) whether he has power of veto over the operational use of US nuclear weapons based at RAF Lakenheath; [43836]

(4) what procedures are in place to monitor US activity involving the *(a)* nuclear weapons and *(b)* aircraft based at RAF Lakenheath. [43843]

Mr. Ingram: It is Government policy to neither confirm nor deny the presence of nuclear weapons at any particular location or any particular time.

I can confirm that HMG has to be fully consulted and agree before any UK-based US forces are deployed operationally. The Joint Churchill-Truman Communiqué of January 1952 stated:

> "Under arrangements made for the common defence, the United States has the use of certain bases in the United Kingdom. We reaffirm the understanding that the use of these bases in an emergency would be a matter for joint decision by HM Government and the US Government in the light of the circumstances prevailing at the time."

There have not been any discussions with the US Administration following the leaking of a draft of a revised US Doctrine for Joint Nuclear Operations.

QinetiQ

Mr. Drew: To ask the Secretary of State for Defence if he will place in the Library the information upon which the decision to sell off the remaining Government stake in QinetiQ was taken. [41555]

John Reid: The decision to float Qinetiq was taken by the Government, Carlyle and Qinetiq, informed by the advice from our joint financial advisers. This advice was given under contractually committed confidentiality agreements, and I am therefore unable to release it. It remains the Government's intention to retain a stake in Qinetiq after the flotation.

Mr. Wallace: To ask the Secretary of State for Defence what measures are in place to safeguard the terms and conditions of current employees of QinetiQ after privatisation. [42421]

John Reid: QinetiQ became a company in July 2001. Employees who were transferred to the company were protected under TUPE regulations. This position will not change as a result of the Initial Public Offering.

Mr. Wallace: To ask the Secretary of State for Defence what measures are in place to protect QinetiQ sites from closure after privatisation. [42423]

John Reid: The position regarding site closures will not change as a result of an Initial Private Offering. When QinetiQ vested as a company in 2001, MOD put arrangements in place to protect assets or capabilities that are of strategic importance to UK defence and security. These are enforced through the retention of a Government special share in QinetiQ, as well as through provisions in specific contracts such as the Long Term Partnering Agreement for test and evaluation.

Mr. Wallace: To ask the Secretary of State for Defence whether receipts from the sale of QinetiQ assets and estates after privatisation will be *(a)* kept by the new owners and *(b)* paid to the Government. [42424]

John Reid: The position regarding receipts from the sale of assets and estates will not change as a result of an IPO. When QinetiQ vested as a company in 2001, it was required to purchase the assets from the Government. This transaction was fully audited by the National Audit Office. Consequently, the receipts from the sale of assets go directly to the company. In relation to land sales, the Ministry of Defence put clawback arrangements in place to ensure that the taxpayer would benefit directly from any substantial subsequent increase in value.

Mr. Wallace: To ask the Secretary of State for Defence whether he plans to float QinetiQ as a single entity. [42426]

John Reid: The intention is to float QinetiQ as a single entity.

James Duddridge: To ask the Secretary of State for Defence (1) if he will list sites in the UK occupied by Qinetiq; and how much land is owned in each case; [42494]

(2) if he will list sites owned by Qinetiq in the UK that have planning permission for *(a)* greenfield and *(b)* brownfield developments. [42495]

John Reid: This is an operational matter for the company; questions should be referred to the Chief Executive at the following address:

Graham Love
Chief Executive
QinetiQ Limited
Cody Technology Park
Building Al
Ively Road
Farnborough
Hampshire
GU14 0LX

James Duddridge: To ask the Secretary of State for Defence what the value is of the land owned by *(a)* his Department and *(b)* QinetiQ in Rochford and Southend East constituency. [42496]

Mr. Touhig: The value of the land owned by the Ministry of Defence in the Rochford and Southend East has been recorded as £11.5 million in existing use (that is depreciated replacement costs) terms. Land owned by QinetiQ, is an operational matter for the company; questions should be referred to the Chief Executive at the following address:

Graham Love
Chief Executive
QinetiQ Limited
Cody Technology Park
Building Al
Ively Road
Farnborough
Hampshire
GU14 0LX

Royal Navy

Mr. Streeter: To ask the Secretary of State for Defence whether UK naval vessels have recently been prevented from going to sea due to a shortage of fuel or the resources to pay for fuel; and if he will make a statement. [44018]

Mr. Ingram: No Royal Navy vessels have recently been prevented from going to sea due to a shortage of fuel or the resources to pay for fuel.

Territorial Army

Ann Winterton: To ask the Secretary of State for Defence whether the financial package remains the same for Territorial Army personnel who volunteer for a second deployment within a three-year period, having fulfilled their compulsory deployment. [43675]

Mr. Touhig: The financial package remains the same for both periods of mobilised service should a member of the Territorial Army volunteer for an additional period of service after completing a compulsory commitment. In April of last year, the Department introduced statutory instrument 859, which improves considerably the financial assistance available to reservists on call-out.

Ann Winterton: To ask the Secretary of State for Defence what the Territorial Army commitment is to the civil contingency reaction force; and if he will make a statement. [43681]

Mr. Touhig: Civil contingency reaction forces (CCRFs) are based on the 14 Territorial Army (TA) infantry battalions spread across the country. Each CCRF comprises a pool of around 500 personnel drawn from the volunteer reserve forces, mainly the TA, who have volunteered for the CCRF commitment in addition to their normal role.

Ann Winterton: To ask the Secretary of State for Defence under what circumstances the 12-month Territorial Army compulsory mobilisation within a three-year period can be extended. [43682]

Mr. Touhig: Operational requirements may necessitate the extension of the 12-month period of compulsory mobilisation for members of the reserve forces to two years but this would only occur under exceptional circumstances. There are no plans to extend the duration of the maximum period of obligatory service permitted under part VI of the Reserve Forces Act 1996. Reservists may voluntarily agree to extend their period of service.

Veterans' Badges

Mr. Paul Murphy: To ask the Secretary of State for Defence how many veterans' badges have been issued since the badge was introduced. [44492]

Mr. Touhig: The veterans' badge scheme was launched in May 2004 and, to date, some 182,000 ex-Service personnel have applied for and received the badge.

HEALTH

Abortions

Mr. Amess: To ask the Secretary of State for Health what steps her Department plans to take to reduce the number of abortions in each of the next five years; and if she will make a statement. [41634]

Caroline Flint: For information on action being taken to reduce the number of abortions, I refer the hon. Member to the answer I gave on 21 July 2005, *Official Report*, column 2142W.

Improving access to contraception was identified as a priority area in the Choosing Health White Paper. An extra £40 million for primary care trusts has been provided for the next two years. We are currently carrying out a national audit of contraceptive services, which we aim to publish in the spring. We are also working with the Healthcare Commission to see what further steps might be taken to improve the local delivery of teenage pregnancy prevention, contraceptive and abortion services as part of a wider programme of improvement of sexual health services.

Acute Trusts

Dr. Pugh: To ask the Secretary of State for Health whether each acute trust which is in deficit has engaged in self-commissioning activity above the value of £10,000 over the last five years. [34914]

Mr. Byrne: Acute trusts do not self-commission.

Mr. Maude: To ask the Secretary of State for Health what the average length of stay was for patients in *(a)* acute trusts, *(b)* Surrey and Sussex health authority area and *(c)* England in the last year for which figures are available. [35154]

Mr. Byrne: The data requested are shown in the table.

Mean length of spell in days national health service hospitals in England 2004-05	*Mean length of stay in days*
(a) Acute Trusts	5.3
(b1) Surrey and Sussex Strategic Health Authority (SHA) of Residence	7.6
(b2) Surrey and Sussex SHA of Treatment	7.9
(c) England	7.1

Notes:

1. The mean length of stay in *(b1)* is based on the patients that were resident in Surrey and Sussex Strategic Health Authority (SHA) area and *(b2)* is based on the patients that were treated in Surrey and Sussex SHA area.

2. A length of spell is defined as a period of in-patient care within one health care provider that commences with the patient's admission and ends on the date of discharge. It may comprise of one or more finished consultant episodes.

3. A length of stay (LOS) is calculated as the difference in days between the admission date and the discharge date, where both are given. LOS is based on hospital spells and only applies to ordinary admissions, i.e. day cases are excluded. Information relating to LOS figures, including discharge method or destination, diagnoses and any operative procedures, is based only on the final episode of the spell.

4. Figures have not been adjusted for shortfalls in data, that is, the data is ungrossed.

Source:

Hospital Episode Statistics, NHS Health and Social Care Information Centre

Alcohol Data

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 19 December 2005, *Official Report*, column 2600W, on alcohol, (1) for what reasons data for 2004–05 were omitted; and if she will publish the data for 2004–05 on counts of finished consultant episodes; [41956]

(2) pursuant to the answer of 19 December 2005, *Official Report*, column 2603W, on alcohol, for what reasons data for 2004–05 were omitted; and if she will publish the data for 2004–05 on counts of finished admission episodes. [41957]

Caroline Flint: The information requested is shown in the table. I regret that my previous reply was incomplete.

Counts of finished consultant episodes where there was a primary diagnosis code for selected alcohol-related diseases[1]

F10: Mental and behavioural disorders due to use of alcohol

K70: Alcoholic liver disease

T51: Toxic effect of alcohol

NHS Hospitals, England 2004–05

Alcohol Licensing

Mr. Amess: To ask the Secretary of State for Health whether the exemption under Part 1, Clause 3, sub-section (2)*(b)* of the proposed Health Bill will apply to bingo club premises holding a premises licence under the Licensing Act 2003 allowing the consumption of alcohol on the premises, providing that food is not supplied. [28148]

Caroline Flint: The very specific circumstances of a bingo club as described in the question are not detailed on the face of the Bill.

We will give this point due consideration in drafting regulations.

Alzheimer's Disease

Clive Efford: To ask the Secretary of State for Health (1) when she expects to receive the recommendation of the National Institute for Health and Clinical Excellence relating to *(a)* Donepezil, *(b)* Rivastigmine, *(c)* Galantamine and *(d)* Memantine; and if she will make a statement; [42203]

(2) pursuant to the answer of 29 November 2005, *Official Report*, column 398W, on Alzheimer's disease, what discussions she has had with the National Institute for Health and Clinical Excellence since her meeting of 9 June regarding appraisal of drugs for the treatment of Alzheimer's disease; [42204]

(3) what estimate she has made of the annual cost of treating a patient suffering from Alzheimer's disease with *(a)* Donepezil, *(b)* Rivastigmine, *(c)* Galantamine and *(d)* Memantine. [42205]

Jane Kennedy: The National Institute for Health and Clinical Excellence (NICE) communicated the decision of its appraisal committee to consultees, including the Department, under NICE's normal rules of confidentiality on 16 January 2006. This communication will be published on its website on 23 January, at www.nice.org.uk.

Since 9 June 2005, I have had no further meetings with NICE regarding its appraisal of drugs for the treatment of Alzheimer's disease. However, I received a brief factual update from the chairman of NICE when I met him at the NICE annual conference on 7 December 2005.

NICE'S Appraisal "Consultation Document on drugs for Alzheimer's disease" (March 2005) suggested that the cost of a year's supply of each of these four drugs is:

	£
Donepezil	[1]828.30 to 1,160.96
Rivastigmine	886.95
Galantamine	[1]890.60 to £1,095
Memantine	899.54

[1] Depending on dose

These costs are based on prices published in the British National Formulary and exclude value added tax. Costs may vary in different settings because of negotiated procurement discounts.

Ambulance Response Times

Mr. Greg Knight: To ask the Secretary of State for Health what the ambulance response times are for *(a)* Bridlington, *(b)* Driffield and *(c)* England for the past 12 months for which figures are available. [42333]

Mr. Byrne: The Department collects ambulance response time data by ambulance trust rather than by geographical area. Therefore, the information for parts *(a)* and *(b)* of the question is not centrally collected in the requested format.

The data that the Department does collect on ambulance response times are published in tables 5a, 5b, 6 and 7 of the statistical bulletin, "Ambulance services, England: 2004–05", which is available in the Library and on the Department's website at: www.dh.gov.uk/assetRoot/04/11/36/79/04113679.pdf.

This publication includes ambulance response time data for the Tees, East and North Yorkshire Ambulance Trust, which covers Bridlington and Driffield (East Yorkshire), and for the whole of England for 2004–05.

Ambulance Staff (Assaults)

Mr. Marsden: To ask the Secretary of State for Health how many private prosecutions for assault of ambulance staff while on duty were brought in conjunction with the Legal Protection Unit in each of the last three years for which figures are available; and how many of these resulted in convictions. [25510]

Jane Kennedy: The NHS Security Management Service Legal Protection Unit (NHS SMS LPU) became fully operational from March 2004, and provides for the first-time ever the national health service with nationally consistent legal advice on what can be done to deal with those who abuse and assault NHS staff.

Since its creation, the NHS LPU has provided advice to 12 ambulance trusts on a number of cases involving violence and abuse against NHS staff. It has also undertaken a successful civil action on behalf of Mersey regional ambulance service involving an individual who had abused NHS staff over a number of years.

The overall number of identified prosecutions involving physical assaults on ambulance staff in England for 2004–05 totalled 100.

Calcium (Children)

Mr. Hoyle: To ask the Secretary of State for Health (1) what assessment she has made of the impact on intake of calcium in children's diets of the proposed withdrawal of the provision of milk in schools, with particular reference to areas of social deprivation; [42039]

(2) what assessment she has made of the effect of the provision of milk in schools on children's health. [42040]

Caroline Flint: The Department recognises the nutritional value of milk within the context of a healthy balanced diet, particularly as a good source of calcium in children's diet. Indeed many low income families receive free milk as part of the welfare food scheme.

Although there is no statutory requirement for milk to be provided in schools, the Government encourages local education authorities and schools to make milk

available for those pupils who want it. The European Union school milk subsidy scheme and the national top-up scheme subsidise the provision of milk to children in those primary and nursery schools wishing to participate. Appropriate Government departments have considered the recommendations from the recent independent report on the national top-up and agreed that the subsidy for school milk should remain unchanged.

Cancer Services

Mr. Baron: To ask the Secretary of State for Health how payment by results will operate in respect of cancer services; and if she will make a statement. [42475]

Mr. Byrne *[holding answer 16 January 2006]*: Under payment by results (PbR), hospitals are paid according to the number and complexity of cases treated. PbR is being implemented incrementally over a four-year transition period and will cover 67 per cent. of commissioning expenditure by 2008–09.

From 2008–09, the intention is to expand the scope of PbR to include chemotherapy and radiotherapy through the introduction of revised casemix classifications known as Healthcare Resource Groups, that is, HRGs Version 4.0. In addition, HRGs are being developed for specialist palliative care. In the meantime, commissioning of these services remain outside the scope of PbR and prices for these services continue to be negotiated locally.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 7 November 2005, *Official Report*, column 278W, on waiting times, what meetings her Department has held with stakeholders about the *(a)* resourcing, *(b)* implementation and *(c)* monitoring of the 2005 Labour party manifesto commitment that all women with breast symptoms should be seen within two weeks of referral by their general practitioner; which groups attended these meetings; what the content of these meetings was; what the timetable is for developing a framework determining the (i) resourcing, (ii) implementation and (iii) monitoring of this commitment; and if she will make a statement. [41954]

Ms Rosie Winterton: Breakthrough Breast Cancer was closely involved in the early thinking about this commitment and representatives from the Department met with the charity early in 2005 and will be meeting with the charity again shortly to further discuss this commitment. The Department has assessed the need for additional staff required to meet the commitment and we have commissioned Skills for Health, which is the Sector Skills Council for Health, to develop competencies in breast assessment. Once these competencies are agreed they could be used to develop training programmes to increase the number of breast assessment staff. Skills for Health are engaging with a wide range of stakeholders in the development and piloting of the competencies including charities, Royal Colleges, professional groups and national health service organisations. The Department will also be engaging with further stakeholders to determine resourcing, implementation and monitoring arrangements.

Capital Schemes

Mr. Burstow: To ask the Secretary of State for Health what the capital cost was of each publicly funded capital scheme over £10 million for which her Department is responsible *(a)* at the outline business case stage, *(b)* as reported in the 2004–05 financial year and *(c)* in the 2005–06 financial year; and what the percentage change in capital costs (i) has been since the outline business case stage and (ii) is in the last 12 months. [35148]

Mr. Byrne: The Department does not hold the information requested.

Care Homes

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 12 December 2005, *Official Report*, column 1799W, on care homes, whether local authorities have *(a)* a duty and *(b)* discretion (i) to contract with a care home for an individual's accommodation and care and (ii) to charge the individual under the charging rules according to their financial circumstances. [41907]

Mr. Byrne: Section 21 of the National Assistance Act 1948 (NAA) provides for a local authority (LA) to make arrangements to provide residential accommodation where, as a result of their age, illness, disability or other circumstances, a person over 18 is in need of care and attention which is not otherwise available to them. LAs have a duty to arrange accommodation in such circumstances for persons who are ordinarily resident in their area or who are in urgent need of the accommodation concerned. They have a power to arrange it for persons with no settled residence or, with the agreement of that authority, for persons who are ordinarily resident in the area of another LA. Where the person is assessed as not needing care and attention or as having care and attention otherwise available to them, for example because they have both the resources and the ability to arrange their own care, there is no power or duty under the NAA for a LA to make arrangements for a person to be accommodated in a home. In this case, if requested, a LA may provide information and advice to help the person find an appropriate care home.

Where the LA arranges accommodation, it is required to charge the person to whom the accommodation is provided in accordance with a statutory scheme.

Cerebral Palsy

Mr. Lansley: To ask the Secretary of State for Health what steps she is taking to improve the care offered to those with cerebral palsy. [31906]

Mr. Byrne: The national service framework (NSF) for long-term conditions, published in March 2005, specifically focuses on improving services for people with neurological conditions such as cerebral palsy. People with these conditions will get faster diagnosis, more rapid treatment and a comprehensive package of care under the NSF.

Services in the NSF include:

comprehensive assessment and regular review of people's problems;

joint health and social care plans that change over time (especially for people with rapidly progressing conditions) and take other needs into account such as housing, transport, benefits, education, careers advice, employment and leisure;

everyone having a single point of access to services via a named contact;

self-referral, allowing people to refer themselves quickly back to services as their care needs change;

access to a broad range of services including rehabilitation, equipment, accommodation, and personal care to help people live as independently as possible at home, and palliative care; and

support to help people to work or take up other vocational opportunities.

Mr. Lansley: To ask the Secretary of State for Health what estimate she has made of the number of people suffering from cerebral palsy in each year since 1997. [31913]

Mr. Byrne: Information on the number of people living with cerebral palsy is not collected.

Community Care

Mr. Lansley: To ask the Secretary of State for Health how many service users of social services departments have been in receipt of direct payments in each year since 1997; and how many adults receiving community care services provided by social services departments there were in each year since 1997. [42021]

Mr. Byrne: The table shows the number of people aged 18 and over receiving community based services as at 31 March for the years 2001 to 2005 in England and the number from these totals who received direct payments. Data are not available for the earlier years.

Number of adults[1] receiving community based services[2] and direct payments at 31 March, 2001–05—England

At 31 March:	*Total[5]*	*Of whom received direct payments*
2001	941,200	4,000
2002	968,400	5,300
2003[3]	982,100	8,600
2004[3]	994,400	14,000
2005[3,4]	980700	22,100

[1] Adults aged 18 and over.
[2] Community based services includes day care, meals, respite care, direct payments, professional support, transport and equipment as well as home care.
[3] Data includes clients formerly in receipt of preserved rights.
[4] Data for 2005 are provisional.
[5] Data on the number of people receiving community based services in 2005 is not comparable to data for previous years. In 2005 restated guidance was issued to exclude people receiving services from grant-funded organisations who had not had a community care assessment.
Note:
Figures may not sum due to rounding.

RAP proforma P2s, KS1

Co-terminous Boundaries

Mr. Lancaster: To ask the Secretary of State for Health if she will make it her policy to promote co-terminous boundaries for primary care trusts and unitary authorities. [26113]

Mr. Byrne: One of the key criteria from 'Commissioning a Patient Led NHS' was to

"improve co-ordination with social services through greater congruence of PCT and local authority boundaries".

Currently 44 per cent. of primary care trusts (PCTs) are co-terminous with local government boundaries, this will rise to a minimum of 77 per cent. as a result of the PCT reconfiguration exercise which is currently the subject of public consultation. The percentage co-terminous could be considerably higher depending on the outcome of that consultation.

However, 'Commissioning a Patient Led NHS' also identified seven other criteria which must be met when considering PCT reconfiguration. This may mean that co-terminosity with local authorities may not always be the optimum configuration, and in some cases it may be sensible for PCTs to contain more than one unitary authority within their boundaries or to have several PCTs in a large local government area in order to meet local health needs.

Dentistry

Mr. Hollobone: To ask the Secretary of State for Health how much was spent on *(a)* NHS dentistry and *(b)* the NHS as a whole in (i) 1997 and (ii) the latest year for which figures are available. [38911]

Ms Rosie Winterton: The main elements of national health service dental services are the primary care services provided through the general dental services (GDS). In addition, a significant proportion of primary dental care is now provided by dentists working within the personal dental services (PDS) under new local commissioning arrangements agreed with primary care trusts. These elements, together with total NHS expenditure, are shown in the table. Net PDS expenditure is shown as an estimated range because the 2004–05 accounts format did not permit a precise identification of PCTs' net expenditure on PDS separate from other elements of discretionary health expenditure.

PCTs also commission community and hospital dental services to provide oral health programmes, or care to patients with special needs or more complex dental problems, but expenditure on these services is not separately identified in central returns.

NHS net expenditure: NHS, GDS, PDS

£ million

	1997–98[1]	*2004–05[2]*
Net NHS expenditure: England[3]	34,664	69,706
Net GDS expenditure: England	959	1,246
Estimated net PDS expenditure: England	0	225–250

[1] 1997–98 expenditure is on a cash basis.
[2] 2004–05 expenditure is on a stage two resource budgeting basis and is therefore not directly comparable with the 1997–98 data.
[3] Total NHS expenditure data are shown net of all sources of income. GDS and PDS data are shown net of dental charges paid by patients.

Mr. Bone: To ask the Secretary of State for Health how many dentists were admitting new NHS patients on 1 December 2005 in *(a)* England, *(b)* Northamptonshire and *(c)* Wellingborough. [40540]

Ms Rosie Winterton: Data regarding the number of dentists admitting new national health service patients are not available centrally. Individual primary care trusts should be able to provide this information for their local areas.

Diabetes

Mr. Lansley: To ask the Secretary of State for Health what estimate she has made of the total cost to the NHS of providing care to those with diabetes for the most recent year for which figures are available. [41964]

Ms Rosie Winterton: The Department's resource accounts shows gross expenditure on diabetes in 2004–05 was £687 million.

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the total number of people with *(a)* type 1 and *(b)* type 2 diabetes in each year since 1997; how many finished episodes of care relating to the treatment of diabetes there have been in each year since 1997; what estimate she has made of the total number of patients who will have (i) type 1 and (ii) type 2 diabetes in 2010; and if she will make a statement. [41967]

Ms Rosie Winterton: Information on the number of people with diabetes is not available in the exact form requested. The following information is available for diagnosed diabetes only.

Estimates of the number of people aged 16 and over with doctor-diagnosed diabetes can be derived for some earlier years from the Health Survey for England, collected every five years, and are shown in table one.

Table 1: People aged 16 and over with doctor-diagnosed diabetes in England

	Number
1998	1,070,000
2003	1,550,000

The Health Survey for England estimated that in 2003, around 90 per cent. of those with doctor-diagnosed diabetes had type two diabetes[1].

The number of patients diagnosed with diabetes identified by general practitioner practices in England in 2004–05 was 1,766,391[2]. This is the first year of data from this source. Figures are not available for type one and type two diabetes separately.

Table two shows all diagnoses count of finished consultant episodes for diabetes NHS Hospitals, England 1997–98 to 2004–05.

Table 2: All diagnoses count of finished consultant episodes

	Number
1997–98	413,340
1998–99	454,632
1999–2000	498,179
2000–01	543,867
2001–02	585,770
2002–03	667,352
2003–04	731,708
2004–05	829,160

Source:
Hospital Episode Statistics (HES), Health and Social Care Information Centre

Projections suggest that in England around 2.6 million people will have diabetes by 2010[3].

[1] Self-reported prevalence estimates published in 2003 Health Survey for England.
[2] 2004–05 Quality and Outcomes Framework data published by the Health and Social Care Information Centre.
[3] PBS Prevalence Model.

Family Planning

Mr. Drew: To ask the Secretary of State for Health what advice her Department offers to those bodies offering family planning concerning whether there is a minimum age for offering contraception *(a)* with and *(b)* without parental consent. [42224]

Caroline Flint: Health professionals provide contraception to young people under 16 within an established legal framework which involves assessing the young person's competence to understand the choices they are making and encouraging them to talk to their parents. A young person's request for confidentiality is respected unless there are child protection concerns. The Department's guidance "Best practice guidance for doctors and other health professionals on the provision of advice and treatment to young people under 16 on contraception, sexual and reproductive health", stresses that duty of confidentiality is not absolute. Where a health professional believes that there is a risk to the health, safety or welfare of a young person which is so serious as to outweigh the young person's right to privacy, they should follow locally agreed child protection protocols as outlined in the Government guidance "Working Together to Safeguard Children" (1999).

The younger the teenager the greater concern about possible abuse or exploitation, but health professionals will assess risk on the facts of each individual case.

Fertility Treatment

Mrs. Riordan: To ask the Secretary of State for Health pursuant to the answer of 8 December 2005, *Official Report*, column 1568W, on fertility treatment, whether the Department has issued guidance to primary care trusts (PCTs) on how they should involve patient groups in decision-making on the prioritisation of funding for health services; what formal structures PCTs are expected to have in place to ensure that they involve patient groups in such decision-making; what monitoring is undertaken of PCTs' involvement of such groups; and who carries out that monitoring. [42724]

Caroline Flint: The Department's guidance, "Strengthening Accountability" (2003), provides details on how to deliver the legal requirement in section 11 of the Health and Social Care Act 2001 for all national health service organisations to involve and consult patients and the public on service development and provision on an on going basis. Compliance with Section 11 is assessed by the Healthcare Commission, and effectiveness in fulfilling the duty goes towards organisations' overall performance ratings. Primary care trusts are not required to have any formal structures but must show that they have arrangements in place to ensure that patients, the public and their representatives are involved in the planning and development of services.

Freedom of Information

Mr. Roger Williams: To ask the Secretary of State for Health how many Freedom of Information applications her Department has received; how many have taken more than 20 days to process; and how many of these gave rise to complaints about the time taken. [31230]

Jane Kennedy: The Department received 660 freedom of information (FOI) applications between the period 1 January 2005 and 30 June 2005. 271 FOI applications took more than 20 days to process. Of these, 20 were requests where the 20 days deadline for response was extended to allow for consideration of the balance of public interest. The Department has received one complaint about the time taken to respond.

The Department for Constitutional Affairs (DCA) is committed to publishing quarterly updates in relation to departmental performance under FOI, including information on both the volume and outcomes of requests. The bulletin for the second quarter was published on 30 September 2005 and is available on the DCA's website at www.foi.gov.uk/statsapr-jun05.htm and is available in the Library. The next bulletin was published before Christmas, and an annual report will be published in early 2006.

Genito-urinary Medicine Clinics

Mr. Holloway: To ask the Secretary of State for Health what the *(a)* Government target and *(b)* waiting times for an appointment at a genito-urinary medicine clinic within the Gravesham constituency were in the last period for which figures are available. [43262]

Caroline Flint: All primary care trusts' local delivery plans now include a target that the percentage of patients attending genito-urinary medicine (GUM) clinics who are offered an appointment to be seen within 48 hours of contacting a service reach 100 per cent. by 2008.

The report from the most recent survey of GUM clinic waiting times for August 2005 is published by the Health Protection Agency (HPA). This report provides details of the numbers of attendees seen within 48 hours of first contacting the clinic, and the number offered an appointment within 48 hours, including those who chose not to attend. This report which includes data for individual clinics, including those in the Gravesham area, is available on HPA's website at:

www.hpa.org.uk/infections/topics_az/hiv_and_sti/epidemiology/August_2005_waiting_times_report.pdf

Mr. Lansley: To ask the Secretary of State for Health what percentage of attenders at genito-urinary medicine clinics were not given an appointment within two weeks in the most recent period for which figures are available. [41962]

Caroline Flint: The most recent audit of waiting times for genito-urinary medicine (GUM) clinics, for which data are available, was carried out in August 2005. This audit showed that 21 per cent. of attendees at GUM clinics were not seen within two weeks. However, some of these patients will have been offered an earlier appointment but been unable to attend.

A summary of August 2005 data is published on the Health Protection Agency website at the following web address: www.hpa.org.uk/infections/topics_az/hiv_and_sti/epidemiology/wtimes.htm.

Overall, the number of attendees at GUM clinics being offered an appointment within 48 hours in England increased from 45 per cent. in May 2005 to 48 per cent. in August 2005.

Gershon Review

Mr. Francois: To ask the Secretary of State for Health what progress has been made, in terms of *(a)* headcount reductions and *(b)* cost savings, in achieving the efficiency objectives set for the Department by the Gershon review. [21306]

Mr. Byrne: Early 2004–05 gains were reported in Budget 2005 and the Department's annual report. Gains to quarter 2 2005–06 were in our autumn performance report.

Goldman Algorithm

Mr. Gibb: To ask the Secretary of State for Health pursuant to the answer of 4 January 2996 to Question 3775 on the Goldman algorithm, if she will list the algorithms used by the NHS in the assessment of acute myocardial infarction. [41557]

Ms Rosie Winterton: This information is not collected centrally. However, when the Department published the national service framework for coronary heart disease in 2000, chapter 3, "Heart attacks and other acute coronary syndromes" provided best practice guides and protocols regarding the assessment of suspected myocardial infarction. The algorithms used will vary according to the clinician's preference.

Health Budget

Mr. Lansley: To ask the Secretary of State for Health what evidence was used to inform the statement in her speech to the London School of Economics on 13 December that less of the country's health budget is spent on prevention than almost any other developed country. [39354]

Mr. Byrne: The evidence is in the Organisation for Economic Co-operation and Development's report, "A System of Health Accounts".

Health Expenditure

Mr. Lansley: To ask the Secretary of State for Health if she will list *(a)* the programmes funded from her Department's Centrally Funded Initiatives and Services and Special Allocations budget in each year since 1997–98 and *(b)* future expenditure commitments already announced by Ministers which will be financed from this budget in the 2005–06 financial year. [39350]

Mr. Byrne: The information requested has been placed in the Library.

Health Services (West Lancashire)

Rosie Cooper: To ask the Secretary of State for Health what estimate her Department has made of the number

of people in the West Lancashire constituency in at risk groups who have not received a seasonal influenza vaccination this winter. [38373]

Caroline Flint: This information is not collected centrally.

The flu programme is general practitioner (GP) led. It is the responsibility of the GP to order sufficient flu vaccine for those in at risk groups on his or her register.

Hearing Services

Mr. Truswell: To ask the Secretary of State for Health (1) what steps her Department has taken to increase the number of trained audiologists; [39257]

(2) how many audiologists were *(a)* employed by the NHS and *(b)* undergoing training in each of the last 10 years for which figures are available. [39258]

Mr. Byrne: As at 30 September 2004, there were 1,582 qualified health care scientists working in audiology in the national health service in England. Prior to 2004, it is not possible to separate staff recorded in the NHS work force census working in audiology from other health care scientists. The numbers undertaking audiology training is shown in the table (these are the only years for which figures are available):

	Grade A training for clinical scientists in audiology	*BSc in audiology*[1]	*Training for audiology technicians*	*Diploma in hearing therapy*
1998–99	10	—	0	0
1999–2000	10	—	0	0
2000–01	10	—	1	0
2001–02	21	—	49	1
2002–03	20	—	57	52
2003–04	89	—	51	0
2004–05	22	180	33	6

[1] Not separately identified in departmental training information.

Source:
Quarterly monitoring.

A range of initiatives are in place to increase the number of trained audiologists working in the NHS, including the introduction in 2003–04 of the new BSc in audiology. We are also exploring the introduction of a new assistant practitioner role in audiology, which will help to increase capacity further. Furthermore, we have implemented initiatives to improve recruitment and retention for all staff, including audiologists, by improving pay and conditions, encouraging the NHS to become a better, more flexible and diverse employer, providing help with accessing child care, and running national and local recruitment campaigns.

HIV/AIDS

Anne Main: To ask the Secretary of State for Health how many patients were diagnosed as having HIV/AIDS in *(a)* St Albans, *(b)* Hertfordshire and *(c)* England in each year since 1997. [43130]

Caroline Flint: Data on HIV diagnoses are not available by town or by county; they are available by strategic health authority (SHA). The data for Bedfordshire and Hertfordshire SHA and England can be found on the Health Protection Agency's website at:

www.hpa.org.uk/infections/topics_az/hiv_and_sti/hiv/epidemiology/hars_tables.htm.

Home Oxygen Service

Stephen Williams: To ask the Secretary of State for Health what consultation took place with *(a)* general practitioners, *(b)* pharmacists and *(c)* patients regarding the quality of products and services supplied by Air Products Ltd and British Oxygen Cylinders before the contract for the new Home Oxygen Service for the South West was awarded in July 2005. [42730]

Jane Kennedy: Consultation took place with representatives of clinical staff, including pharmacists, and those representing patients using the home oxygen service to develop the new service specification, which was included with documents issued in October 2004 to all those tendering for the service. Among other things, those submitting tenders included details of the range of equipment offered to support delivery of the new service requirements. Those assessing tenders received for the South West included local clinical and other national health service staff involved in the provision of respiratory care services.

Hospitals (North-West)

Helen Jones: To ask the Secretary of State for Health how many meetings have taken place between the Cheshire and Merseyside strategic health authority and *(a)* chief executives of trusts and *(b)* non-executive directors of trusts to discuss possible changes to hospital services in Warrington; and what the date was of each meeting. [42640]

Mr. Byrne *[holding answer 17 January 2006]:* The information requested is not held centrally and can instead be obtained direct from the Cheshire and Merseyside strategic health authority.

Mrs. Ellman: To ask the Secretary of State for Health when she last discussed funding for *(a)* Royal Liverpool University hospital and *(b)* Royal Liverpool children's hospital at Alder Hey; and if she will make a statement. [43559]

Mr. Byrne *[holding answer 19 January 2006]:* I refer the hon. Member to the reply I gave on 17 November 2005, *Official Report*, column 1449W. The Royal Liverpool and Broadgreen University hospitals national health service trust and the Royal Liverpool Children's NHS Trust are still developing their respective outline business cases before submitting them for approval to Cheshire and Merseyside strategic health authority and then the Department.

Independent Sector Treatment

Mr. Maude: To ask the Secretary of State for Health how many NHS-funded *(a)* operations and *(b)* imaging scans have been (i) funded and (ii) performed in the independent sector in each of the last seven years, broken down by health authority. [25717]

Mr. Byrne: Information on the number of procedures performed by centrally procured independent sector schemes from 2003–04 is shown in the table.

Information on other independent sector providers commissioned locally is not collected centrally.

Procedures and diagnostics, by strategic health authority (SHA), by financial year figures to 30 November 2005

	Procedures			Diagnostics		
SHA	*2003–04 Activity*	*2004–05 Activity*	*2005–06 Activity*	*2003–04 Diags*	*2004–05 Diags*	*2005–06 Diags*

	—	—	86,695	—	—	99,297
Overall	—	—	185,992	—	—	—

Frank Dobson: To ask the Secretary of State for Health pursuant to the answer of 16 March 2005, *Official Report*, column 271W, on independent sector treatment centres, what the equivalent figures were for 2004–05. [38945]

Mr. Byrne *[holding answer 20 December 2005]:* In 2004–05, it is estimated that procedures purchased under the independent sector treatment centre programme cost an average 11.2 per cent. above the national health service equivalent cost, using NHS tariff as the base for the equivalent cost calculation. The range and complexity of procedure included in the 2004–05 calculation differs from those reflected in the 2003–04 calculation shown in the answer of 16 March 2005, *Official Report*, column 271W, to my right hon. Friend.

Influenza Vaccine

Mr. Lansley: To ask the Secretary of State for Health what the uptake rate for free influenza vaccine has been in each at-risk group in 2005–06; and what the rate was in each year since 1997–98. [33196]

Caroline Flint: Data on flu vaccine uptake in the over 65 age group were first collected from the start of the flu campaign in 2000 when we introduced the programme to vaccinate the over 65s. Uptake in this group over for the last five years is shown in the table.

Flu uptake, December 2000 to October 2005

Position at end December:	*Uptake (%)*
2000	65.3
2001	67.7
2002	68.5
2003	71.0
2004	71.5
October 2005	49

Data on vaccine uptake in those under 65 years of age in a medical risk group have only been collected since 2004. Vaccine uptake data in these groups was 43 per cent. by the end of December 2004.

Data on vaccine uptake by individual medical risk group were started this year. By the end of October 2005, 25 per cent. of at-risk people under 65 years of age had been vaccinated.

Vaccine uptake in those under 65 years of age within each risk group was:

	Percentage
Chronic respiratory disease, including asthma	12
Chronic heart disease	29
Chronic renal disease	21
Chronic liver disease	10
Diabetes	37
Immunosuppression	18

Intensive Care

Mr. Gordon Prentice: To ask the Secretary of State for Health pursuant to her answer of 6 December 2005, what data on intensive care units are available to the emergency beds service. [36410]

Mr. Byrne: The national intensive care bed information service holds information about whether a hospital has facilities to support general intensive

and high dependency care. The service also holds information on whether a hospital can provide specialist critical care to treat, for example, serious burn injuries, neurological conditions, serious head injuries, adverse reactions to drugs and poisons, renal failure, liver failure, spinal injuries and other critical conditions. The service holds unvalidated, snapshot management information on the number of intensive care beds reported as staffed; open; occupied and available.

IT Projects

Gregory Barker: To ask the Secretary of State for Health how much her Department has spent on cost overruns on information technology projects in the NHS since 1997. [27501]

Mr. Byrne *[holding answer 11 November 2005]:* Funding of information technology projects in the national health service has historically been the responsibility of individual NHS bodies. Before the advent of the national programme for information technology at the beginning of 2003, any funding provided by the Department was given as a contribution to local initiatives, for which business responsibility and overall expenditure control rested with the NHS bodies concerned.

All the systems being funded and deployed by the Department as part of the national programme are proceeding on budget. No additional costs have been incurred.

Late Payments

Anne Main: To ask the Secretary of State for Health how many suppliers have waited longer than 30 days for payment in each year since NHS Professionals was established; and what the amounts of the payments were. [38870]

Mr. Byrne: NHS Professionals was established on 1 April 2004. In 2004–05, NHS Professionals paid 97 per cent. of its bills within 30 days or contract terms. 1,092 bills were not paid on time out of a total of 35,698; these bills amounted to a value of £1.9 million in comparison to a total value of £36.6 million.

Mental Health

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 8 December 2005, *Official Report*, column 1565W, on antidepressants, if she will provide the information broken down by the following age groups: *(a)* 0 to 15 years, *(b)* 16 to 18 years and in full-time education and *(c)* people aged 60 years and over. [38892]

Mr. Byrne: Aged-based prescription data is available only for the exemption categories as shown in the following tables. The data refers to the quantity prescribed and the cost to the national health service in England for each antidepressant in 2004–05. Data is not available for other years.

Table 1: Antidepressant quantities prescribed on the NHS in England 2004–05 for charge-exempt age categories

	Number of NHS prescriptions in England 2004–05		
Name of antidepressant	*0–15 years*	*16 to 18 years and in full-time education*	*60 years and over*
Amitriptyline Embonate	0	0	18
Amitriptyline Hydrochloride	18,284	15,912	2,737,111
Amoxapine	0	0	1,441
Citalopram Hydrobromide	9,627	25,861	1,783,585
Clomipramine Hydrochloride	1,356	945	157,195
Desipramine Hydrochloride	0	0	10
Dosulepin Hydrochloride	2,672	5,607	1,239,658
Doxepin	144	371	77,104
Escitalopram	1,751	6,341	250,768
Fluoxetine Hydrochloride	26,422	40,991	1,163,009
Flupentixol Hydrochloride	480	739	109,057
Fluvoxamine Maleate	533	445	8,703
Imipramine Hydrochloride	10,896	1,392	131,384
Iproniazid	0	0	0
Isocarboxazid	0	0	2,840
Lofepramine Hydrochloride	1,075	2,576	235,138
Maprotiline Hydrochloride	20	81	7,472
Mianserin Hydrochloride	0	0	16,244
Mirtazapine	1,596	3,072	461,135
Moclobemide	20	79	10,426
Nefazodone Hydrochloride	0	0	1,295
Nortriptyline	564	343	85,906
Other Preparations	0	0	0
Oxitriptan	2	0	0
Paroxetine Hydrochloride	2,601	4,290	699,456
Phenelzine Sulphate	20	20	15,556
Protriptyline Hydrochloride	0	0	0
Reboxetine	2	8	539
Sertraline Hydrochloride	10,457	12,395	696,421
Tranylcypromine Sulphate	40	20	11,095
Trazodone Hydrochloride	943	1,373	280,134
Trimipramine Maleate	382	241	100,877
Tryptophan	20	20	1,774
Venlafaxine	2,913	8,037	1,007,590
Total	92,820	131,159	11,292,941

Table 2: Costs for antidepressants prescribed in England 2004–05 for charge-exempt age categories

	Cost of NHS prescriptions in England 2004–05 (£)		
Name of antidepressant	*0 to 15 years*	*16 to 18 years and in full-time education*	*60 years and over*
Amitriptyline Embonate	0.00	0.00	79.53
Amitriptyline Hydrochloride	6,473.63	29,724.31	5,043,584.32
Amoxapine	0.00	0.00	19,026.28
Citalopram Hydrobromide	171,030.39	433,873.22	27,890,019.25

Venlafaxine	99,938.48	264,447.15	33,149,022.21

Methylphenidate

Tim Loughton: To ask the Secretary of State for Health if her Department will commission research into whether methylphenidate affects children's growth. [23993]

Jane Kennedy: It is recognised that stimulants such as methylphenidate can affect weight gain and growth in children following long-term use. The product information, for prescribers and patients or carers, and the British National Formulary contain warnings about this risk and advise that the child's weight and height should be regularly checked throughout treatment.

A number of studies have been conducted to investigate this issue and these inform current clinical guidance. It is unlikely that additional studies would impact on the current recommendations for regular monitoring and treatment breaks in children who are not gaining weight or growing as expected.

Midwife-led Birthing Centres

Tim Farron: To ask the Secretary of State for Health how many midwife-led birthing centres there are in Westmorland and Lonsdale. [42386]

Mr. Byrne *[holding answer 16 January 2006]:* The information requested is not collected centrally.

Ministerial Visits

Mr. Jim Cunningham: To ask the Secretary of State for Health whether she has plans to visit Coventry, South. [39236]

Ms Rosie Winterton *[holding answer 20 December 2005]:* The Secretary of State for Health has no current plans to visit Coventry, South.

Munchausen Syndrome by Proxy

John Hemming: To ask the Secretary of State for Health what evidence she has received to support the decision that Munchausen Syndrome by Proxy is a valid syndrome. [30110]

Mr. Byrne: We no longer use the term Munchausen Syndrome by Proxy to refer to fabricated or induced illness. However, some adults do fabricate illness in their children, or exaggerate their symptoms, or sometimes even induce the illness, for example by poisoning. At least two mothers have received prison sentences after their children died because of illnesses induced by salt poisoning.

National Trauma Service

Mike Penning: To ask the Secretary of State for Health what assessment she has made of the Royal College of Surgeons' proposals for a National Trauma Service in a Level 2 hospital with particular reference to proposals for *(a)* a 24-hour Accident and Emergency department, *(b)* a consultant-led resuscitate trauma team, *(c)* Intensive Care Unit and trauma beds and *(d)* helicopter landing access; and if she will make a statement. [27254]

Mr. Byrne: The Department has not made any recent assessment of the Royal College of Surgeons' and the British Orthopaedic Association's joint proposals for a national trauma service, as set out in their July 2000 publication Better care for the severely injured.

NHS Direct

Clive Efford: To ask the Secretary of State for Health what plans she has *(a)* to restructure NHS Direct and *(b)* to close NHS Direct call centres; and if she will make a statement. [31649]

Mr. Byrne: NHS Direct is within the ambit of the Department's review of arm's length bodies (ALBs), announced in July 2004 by the Secretary of State. As part of the review we are committed to work with NHS Direct to establish it as a body outside the ALB sector with an appropriate governance structure.

There are no plans to close or reconfigure NHS Direct call centres as part of that review. However, the NHS Direct Special Health Authority is responsible for delivering the best possible service for patients and value for money for commissioners. Discharging this duty may from time to time involve reconfiguring the call centre network. Where NHS Direct considers any such changes necessary, its proposals would be subject to the normal consultation with staff, trade unions, commissioners and other stakeholders. The Department does not routinely hold details of these operational matters and my hon. Friend may wish to contact the chair of the NHS Direct Special Health Authority for further information.

NHS Finance Data

Mr. Lansley: To ask the Secretary of State for Health pursuant to the written statement of 1 December 2005, *Official Report*, column 37WS, on NHS finance data, what discussions she has had with Monitor regarding the publication of the year-end forecasts for NHS foundation trusts. [39314]

Mr. Byrne: National health service foundation trusts (NHSFTs) are required by statute to submit forward planning information to Monitor, the statutory name of which is the independent regulator of NHSFTs, who is accountable to Parliament. I have been advised by the chairman of Monitor that the annual plans for 2005–06 for each of the 32 NHSFTs were submitted to Monitor earlier this year and are publicly available on Monitor's website at: www.monitor-nhsft.gov.uk

NHS Sites

Bob Russell: To ask the Secretary of State for Health how many of the estimated 100 surplus NHS sites announced by her Department on 7 April 2004 have been transferred to the responsibility of the Office of the Deputy Prime Minister. [42429]

Jane Kennedy: As part of an agreement between the Department and the Office of the Deputy Prime Minister, ownership of 67 surplus properties owned by the Secretary of State for Health transferred to English Partnerships on 6 April 2005. A further 14 are programmed to transfer by 31 March 2006 with the balance in 2006–07.

NHS Trusts (Mergers)

Helen Jones: To ask the Secretary of State for Health what information she takes into account when deciding whether to approve mergers of NHS trusts; and by whom that information is provided. [42493]

Mr. Byrne *[holding answer 16 January 2006]:* Strategic health authorities (SHAs) are responsible for putting proposals to Ministers on merging national health service trusts. Before they do so, SHAs must be satisfied that any reconfiguration and resulting service integration proposals within an area fit with the longer-term viability of the NHS trust. This will include ensuring a robust risk analysis around activity, costs and income is consistent with the direction of modern health care delivery. This will incorporate the reduction of health inequalities, be clinically led and supported and be subject to full statutory public consultation.

NHS Turnaround Teams

Justine Greening: To ask the Secretary of State for Health (1) how much her Department has spent to date on NHS turnaround teams in each NHS trust; and if she will make a statement; [43458]

(2) how much money contained in the departmental budget reflected by the latest departmental winter supplementary estimate 2005–06 will be allocated for financial turnaround teams working with NHS trusts; and if she will make a statement. [43459]

Mr. Byrne *[holding answer 19 January 2006]:* The winter supplementary estimates for the Department were presented to Parliament on 17 November 2005 as part of the central government supply estimates procedures. The estimate did not specifically refer to financial turnaround teams. Planned expenditure for these teams is part of this expenditure.

The contract for the initial assessment part of the turnaround teamwork was for the complete assessment and was not broken down by organisation. The amount of the contract is to be treated as commercial in confidence.

NHS-funded Operations

Mr. Truswell: To ask the Secretary of State for Health how many NHS-funded operations have been commissioned from the private healthcare sector in the last five years for patients living in *(a)* Leeds, *(b)* each strategic health authority area and *(c)* England, broken down by specialty. [18915]

Mr. Byrne: Information on the number of operations commissioned centrally from the independent sector for national health service patients nationally and by strategic health authority is shown in the table. Information is not available by area of residence or relating to operations commissioned locally.

Program name	*Strategic health authority*	*Specialties*	*Total procedures over contract period*
East Cornwall	South West Peninsula	General Surgery, Urology, Trauma and orthopaedics, ENT, Oral surgery, General medicine, Gastroenterology, Cardiology, Dermatology, Thoracic medicine, Rheumatology, Paediatrics, Gynaecology, Dietetics, Physio assessment, Ophthalmology, Plastic Surgery	26,767
East Lincs	Trent	Ophthalmology, urology, hernias, varicose veins, colonoscopies and minor skin	7,263
West Lincs	Trent	Ophthalmology, gastroscopies, colonoscopies, orthopaedic, urology and minor skin	6,365
North Oxford (Horton)	Thames Valley	Orthopaedics	11,197
NEYNL	North and East Yorkshire and North Lincolnshire	General Surgery, Trauma and orthopaedics	9,964
Southampton	Hampshire and Isle of Wight	Orthopaedics	11,468
Northumberland	Northumberland, Tyne and Wear	Upper scopes, hernias, varicose veins, minor skin	10,080
TV3500	Thames Valley	General Surgery, Urology, Trauma and orthopaedics, Dermatology, Gynaecology	5,735
		Orthopaedics	3,345
		General Surgery, Urology, Trauma and orthopaedics, Dermatology, Gynaecology	8,337
GC4 West Surrey (tba)	Surrey and Sussex	Orthopaedics	0

Program name	Strategic health authority	Specialties	Total procedures over contract period
Kidderminster	West Midlands South	Orthopaedics	9,000
Cheshire and Merseyside	Cheshire and Merseyside	Orthopaedics	24,817
Nottingham	Trent	Orthopaedic, Gynaecology, General surgical, Dermatology, Endoscopies, Oral Surgery, Vascular Surgery, Chronic Pain	110,700
Maidstone	Kent and Medway	Chemotherapy, minor surgery and endoscopes	55,589
Outer North East London (BHRT)	North East London	Ophthalmology, Orthopaedics, ENT, Oral, General Surgery, Urology	56,043
Brighton	Surrey and Sussex	Orthopaedics	26,451
Medway	Kent and Medway	General Surgery, Gastroenterology, ENT, Orthopaedics, Urology, Diagnostics—endoscopy only	19,770
Portsmouth	Hampshire and Isle of Wight	Walk in centre/minor injuries unit, day surgery, diagnostics, ophthalmology	34,155
Lister Surgical centre	Beds and Herts	Paed, paed ENT, endoscope, urology, ophthalmology, gynaecology and other specialities	72,477
Hemel Hampstead Surgi centre	Beds and Herts	Paed, paed ENT, endoscope, urology, ophthalmology, gynaecology and other specialities	63,636
Bradford	West Yorkshire	General Surgery, Gastroenterology, ENT, Gynae, Ophthalmics, Orthopaedics, Plastics, Urology, Oral Surgery, Ultrasound scans—general, Ultrasound scans—doppler, CT scans, MRI scans, Plain films and x-rays, Fluoroscopy	27,416
Burton	Shropshire and Staffordshire	General Surgery, ENT, Gynaecology, Ophthalmology, Orthopaedics, Plastics, Urology, Oral Surgery, Rheumatology, Pain procedures, Ophthalmology	64,814

GSUP2	n/a	Orthopaedic, general surgery	12,167
England total			894,567

NICE Guidance

Tim Loughton: To ask the Secretary of State for Health what assessment she has made of the consequences of a general review of the National Institute for Health and Clinical Excellence's Clinical Guideline on the management of schizophrenia on the availability of atypical anti-psychotics drugs. [40232]

Ms Rosie Winterton: No assessment has been made of the review by the National Institute for Health and Clinical Excellence on managing schizophrenia with atypical antipsychotic medicines.

Obesity (Westmorland and Lonsdale)

Tim Farron: To ask the Secretary of State for Health how many people in Westmorland and Lonsdale aged *(a)* under 20, *(b)* 20 to 29, *(c)* 30 to 39, *(d)* 40 to 50 and *(e)* over 50 years are estimated to be clinically obese. [43046]

Mr. Byrne *[holding answer 17 January 2006]*: The information is not available in the format requested. However, national data is shown in the table.

Prevalence of adults aged 16 and over who have a body mass index (BMI) over 30, by sex and age range (England, 2004)

Percentage

Sex	*Men*	*Women*
16–24	7.9	12.2
25–34	17.9	17.9
35–44	25.2	23.6
45–54	29.6	25.8
55–64	30.1	32.2
65–74	27.8	28.2
75+	19	20.3
Total	22.7	23.8

Notes:

1. The figures are based on weighted data.

2. The main source of data on the prevalence of obesity is the Health Survey for England (HSE). The sample size of the Health Survey does not allow figures to be produced to the level of parliamentary constituencies. For adults (aged 16 and over) figures are presented for England and Government office regions (GOR). Information is provided for the GOR which covers Westmorland and Lonsdale. For children (aged two to 15) national figures are presented using the national BMI percentile classification.

3. The data presented are the most recent available. The available information is presented in this table, using the results of the HSE for 2002, 2003 and 2004. The method in which overweight and obesity is calculated is different for adults and for children (see background notes 3 and 4 for details).

4. We are not able to identify how many people are estimated to be clinically obese, but are able to supply an estimate of the prevalence of obesity among children aged two to 15 and adults aged 16 and over.

Source:

Health Survey for England 2004: The Health of Minority Ethnic Groups, NHS Health and Social Care Information Centre.

Older Persons (Care Charges)

Mr. Drew: To ask the Secretary of State for Health (1) what the average percentage change in charges for older persons' care proposed for 2006–07, in each local authority is; and if she will make a statement; [43024]

(2) what the proposed changes in personnel employed in social services departments are for 2006–07, in each local authority; [43047]

(3) what plans she has to discuss *(a)* increases in care charges and *(b)* job reductions in social services with local authorities. [43054]

Mr. Byrne *[holding answer 18 January 2006]:* Residential care charges are governed by a statutory system, under the "National Assistance (Assessment of Resources) Regulations 1992" and the "Charges for Residential Accommodation Guide". Copies are available in the Library. Charges for non-residential social care are set by local councils, but councils must be guided by "Fairer Charging Policies for Home Care and other non-residential social services-Guidance for Councils with Social Services Responsibilities". A copy is available in the Library.

The level of charges for non-residential care and the numbers of people employed are matters for local determination rather than by central Government. Information on the amount by which charges are increased and information on job reductions in social services departments is not held centrally.

Osteoporosis

Charlotte Atkins: To ask the Secretary of State for Health how her Department plans to monitor the implementation of the National Institute for Health and Clinic Excellence guidance on the secondary prevention of osteoporotic fractures. [19398]

Mr. Byrne *[holding answer 31 October 2005]:* The Department does not monitor implementation of guidance issued by the National Institute for Health and Clinic Excellence (NICE).

NICE will be tracking the implementation of the guidance once it is published and using the information obtained to inform the development of future tools and resources and ensure the guidance achieves positive and sustainable changes.

Outpatient Waiting Lists

Mr. Crabb: To ask the Secretary of State for Health what guidance her Department issues on the compilation of outpatient waiting lists. [41548]

Mr. Byrne *[holding answer 12 January 2006]:* The Department issued Getting patients treated: the Waiting List Action Team Handbooks August 1999, which gives practical guidance on managing and recording waiting lists. It makes clear that clinical priority must be the main determinant of when patients are seen. The handbook is available on the Department's website at: www.dh.gov.uk/assetRoot/04/05/11/03/04051103.pdf.

Paediatric Continence Services

Mr. Burstow: To ask the Secretary of State for Health what discussions her Department has had with the Department for Education and Skills on providing hygienic and well maintained toilets for pupils. [43576]

Caroline Flint: The Department and the Department for Education and Skills meet regularly to discuss matters to do with the health and well-being of schoolchildren such as through the Healthy Schools Programme Board.

The provision of hygienic and well maintained toilets for pupils is a matter for individual heads of schools and local authorities.

Parliamentary Questions

Lynne Jones: To ask the Secretary of State for Health when she will reply to Questions *(a)* 23665 and *(b)* 21605, on independent sector treatment centres. [33622]

Mr. Byrne: I refer my hon. Friend to the replies I gave her on 29 November 2005, *Official Report*, column 404W, and on 9 January 2006, *Official Report*, column 160W.

Mary Creagh: To ask the Secretary of State for Health when she will reply to the question tabled by the hon. Member for Wakefield on 8 November, reference 27398, on NHS bursaries. [35723]

Mr. Byrne *[holding answer 8 December 2005]:* I refer my hon. Friend to the answer I gave her on 9 January 2006, *Official Report*, column 173W.

Pathology Departments

Mike Penning: To ask the Secretary of State for Health what percentage of total sample processing time was spent on *(a)* administrative procedures and *(b)* chemical analysis in clinical biochemistry and haematology laboratories within pathology departments in the last year for which figures are available; and if she will make a statement. [27982]

Ms Rosie Winterton: The Department does not collect this information. However, we recognise the importance of pathology to patient care and we have asked Lord Carter of Coles to conduct an independent review of pathology services. Its terms of reference are

> "to advise Ministers, in the context of current resource constraints, on the timeliness, reliability, capacity and efficiency of current pathology services in England, benchmarked against international standards and the feasibility of and efficiency benefits arising from wide-scale service reconfiguration, innovation and modernisation and involvement of the private sector".

The review will consider the workings of pathology laboratories in all disciplines.

Patient and Public Involvement Resource Centre

Mr. Baron: To ask the Secretary of State for Health how the performance and effectiveness of the patient and public involvement resource centre will be *(a)* managed and *(b)* evaluated; and who has operational responsibility for the resource centre. [42136]

Ms Rosie Winterton *[holding answer 16 January 2006]:* The Department is looking for a supplier to design, develop and have operational responsibility for a new centre to support the delivery of patient and public involvement in the health care delivery system. The procurement process is on-going and until it is complete we are unable to name the provider.

The NHS Institute for Improvement and Innovation will be responsible for managing and evaluating the performance and effectiveness of the centre.

Mr. Baron: To ask the Secretary of State for Health how much the patient and public involvement resource centre cost to set up; and what the budget for the resource centre will be in each of the next three years. [42138]

Ms Rosie Winterton *[holding answer 16 January 2006]:* The Department is currently in the process of procuring a supplier to design, develop and deliver a new centre to support the delivery of patient and public involvement in health care.

As we are in the middle of this procurement process the budget is commercially sensitive.

Mr. Baron: To ask the Secretary of State for Health whether a policy paper on patient and public involvement in health has been produced by the Having Your Say taskforce chaired by Ed Mayo. [42196]

Mr. Byrne *[holding answer 16 January 2006]:* The "having my say" taskforce has submitted a report on improving public involvement in health and social care. We will set out our plans shortly in a White Paper on a new direction for community health and social care and publish the "having my say" taskforce report on the Department's website at www.dh.gov.uk.

Practice-based Commissioning

Mr. Lansley: To ask the Secretary of State for Health what estimate she has made of the transaction costs involved in allowing general practitioners to negotiate and hold individual contracts with providers under practice-based commissioning arrangements. [39282]

Mr. Byrne: Under the proposals for practice-based commissioning, negotiating and holding individual contracts with providers will remain the responsibility of primary care trusts. There will not, therefore, be an increase in transaction costs associated with contracting with providers under practice-based commissioning.

Mr. Lansley: To ask the Secretary of State for Health whether she plans to permit general practitioners holding commissioning budgets under proposals for practice-based commissioning to pool their budgets for the purpose of collective commissioning of services. [39358]

Mr. Byrne: Under practice-based commissioning participating general practitioner practices will be permitted to pool their indicative budgets for the purpose of collective commissioning of services. This subject is covered in paragraph 25 of the publication "Practice Based Commissioning—promoting clinical engagement" which is available on the Department's website at: www.dh.gov.uk/assetRoot/04/09/85/65/04098565.pdf.

Pregnancy-related Deaths

Mr. Amess: To ask the Secretary of State for Health pursuant to the answer of 14 July 2005, *Official Report*, column 1199W, on pregnancy-related deaths, if she will break down the figures by primary care trust for each year for which this information is available. [42505]

Mr. Byrne: This information is not available centrally. The data provided previously were taken from the confidential inquiry into maternal deaths, which collects information relating to women dying from pregnancy-related conditions. The data are anonymised with no address details available.

Prisons

John Bercow: To ask the Secretary of State for Health if she will make a statement on the development of prison health care services. [39404]

Ms Rosie Winterton: Prison health, the joint Home Office and Department of Health unit, has been working since 2000 to improve health care provision for prisoners. It has led and managed a work programme to modernise services, step up national health service engagement and improve performance monitoring. Key achievements include developing better mental health provision, including NHS-funded mental health in-reach teams. Nearly £20 million is being spent on mental health provision in 2005–06. 102 prisons have mental health in-reach teams with some 360 extra staff employed. Prison health has also supported

improvements in primary care services; developed the prison health workforce and improved the prison health estate.

Funding responsibility for primary healthcare services in the publicly run prisons in England and Wales was transferred in April 2003 from the Home Office to the Department. The NHS primary care trusts started to assume responsibility for the commissioning of prison health services in public prisons in England in April 2004 and will assume full responsibility in April 2006. £118 million was transferred for prison healthcare for 2002–03: the amount allocated for 2005–06 is nearly £176 million.

Prison health is now engaged in a further programme to improve health and social care for prisoners. This includes improving the transfer process so that those whose mental ill health means that they require hospital treatment can be moved more quickly. It also includes the development of an integrated drug treatment system; the inclusion of offenders in relevant departmental initiatives; further improving workforce provision, developing a modern prison information technology system which aids the flow of information about prisoners' healthcare on admission, transfer or release, and the further improvement of the healthcare estate.

All of these measures will help us to meet our aim that prisoners receive a similar level of service from the NHS as that received by the general public.

Private Finance Initiative

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 12 July 2005, *Official Report*, columns 988–99W, on the private finance initiative (PFI), what the amount of surcharges paid to PFI contractors was in each year to date. [30680]

Mr. Byrne: The payment mechanism in a private finance initiative contract contains a volume element under which the quantity of variable items such as meals or linen provided is directly related to the throughput of patients, so where the volume of services is above those initially stated in the private finance initiative contract, trusts will make additional payments.

Detailed information on service volumes from all of the private finance initiative contracts signed to date, could be provided only at disproportionate cost.

Private Sector Treatment Centres

Frank Dobson: To ask the Secretary of State for Health how much was paid from NHS funds to private sector treatment centres in 2004–05; and what the estimate is for *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08. [38054]

Mr. Byrne: *[holding answer 15 December 2005]:* Expenditure on wave 1 of the centrally procured independent sector elective treatment programme for the year 2004–05 and estimates for the years to 2007–08 are shown in the table.

Expenditure on wave 1 of the centrally procured independent sector elective treatment programme

	£ million
2004–05	78.8
2005–06	103.5
2006–07	210
2007–08	263

Note:
Figures for 2005–06, 2006–07 and 2007–08 are estimated.

In addition, the Department is currently in the process of procuring a second wave of independent sector elective provision.

Expenditure on locally procured independent sector elective provision is not separately identified from the annual financial returns of national health service trusts, primary care trusts and health authorities.

Rehabilitation Officers

Lynne Featherstone: To ask the Secretary of State for Health how many rehabilitation officers for blind and partially-sighted people are employed by each London borough; and if she will make a statement. [42945]

Jane Kennedy: The information requested is not held centrally.

Severalls Hospital Site

Bob Russell: To ask the Secretary of State for Health on what date the former Severalls hospital site in Colchester was transferred to the responsibility of the Deputy Prime Minister. [42457]

Jane Kennedy: As part of an agreement between the Department and the Office of the Deputy Prime Minister, ownership of that part of the Severalls hospital site owned by the Secretary of State for Health was transferred to the ownership of English Partnerships on 6 April 2005.

Sexually Transmitted Diseases

Mr. Burstow: To ask the Secretary of State for Health (1) what steps she is taking to ensure that the prevention, detection and treatment of *(a)* sexually transmitted diseases and *(b)* HIV/AIDS is a priority for commissioners in the NHS; [43320]

(2) what arrangements she has made to audit *(a)* planned and *(b)* actual spending on the prevention, detection and treatment of (i) sexually transmitted diseases and (ii) HIV/AIDS. [43321]

Caroline Flint: Sexual health was identified as a key priority in the public health White Paper, 'Choosing Health', backed by major new investment of £300 million over three years and improved performance management to ensure delivery at local level.

Primary care trusts (PCTs) will receive funding for implementing the targets in the 'Choosing Health' White Paper in their mainstream allocations. Rather than audit PCT spending, we will be monitoring the outcomes from this investment. In particular, the progress towards targets to reduce the level of new infections of gonorrhoea, as a marker for all sexually transmitted infections, to ensure patients have access to

genito-urinary medicine clinics within 48 hours by 2008 and numbers of screens undertaken in the chlamydia screening programme. These improved performance measures, should significantly strengthen the incentive for local investment and service modernisation.

In addition, a letter has been sent by the Department to strategic health authority chief executives highlighting that when considering any savings from implementing 'Commissioning a patient led NHS', savings should not be identified from those posts working on implementation of 'Choosing Health'. This includes posts in front-line services.

Smoking

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the likely effect on the numbers of people who smoke of banning the sale of tobacco in pubs and clubs. [42935]

Caroline Flint: The Government have not made an assessment of the likely effect on the numbers of people who smoke of banning the sale of tobacco in pubs and clubs.

Strategic Health Authorities (Consultants)

Helen Jones: To ask the Secretary of State for Health if she will make it her policy that senior officers of strategic health authorities who *(a)* take voluntary redundancy and *(b)* retire from the authority may not subsequently return to the authority's employment as consultants. [42641]

Mr. Byrne *[holding answer 17 January 2006]:* The Department would not expect senior managers who are made redundant from strategic health authorities (SHAs) to return to the authority's employment as consultants. SHAs are responsible for local employment decisions.

Urosotomy Prescriptions

Dr. Cable: To ask the Secretary of State for Health what improvements are being made to the provision of treatment for urosotomy patients. [41987]

Mr. Byrne *[holding answer 18 January 2006]:* The national service framework (NSF) for long-term conditions is concerned with improving health and social care services for people with long-term conditions. The Department also published "Supporting People with Long-Term Conditions-An NHS and Social Care Model to support innovation and integration" on 5 January 2005. The purpose of the model is to improve the health and quality of life of people with a long-term condition, such as urostomy, by providing personalised, yet systematic ongoing support.

vCJD Trust

Nick Harvey: To ask the Secretary of State for Health what proportion of the vCJD Trust's budget has been allocated to legal and professional fees since the Trust was established; and how much has been allocated for such fees in the next financial year. [32945]

Caroline Flint: The variant Creutzfeldt-Jakob disease (vCJD) Trust's published annual report and accounts include full details of legal and professional costs.

The report and accounts are available on the vCJD Trust's website at: www.cjdtrust.co.uk/

The vCJD Trust has, to date, paid £7.4 million for legal and professional fees. These include legal fees for solicitors acting for the trust and for claimants, trustees' expenses and fees, medical experts and accountants' fees, taxation, and other disbursements.

The total sums managed by the vCJD Trust in its main and discretionary funds amount to £67.5 million.

The vCJD Trust does not allocate a proportion of the annual budget for fees or expenses in advance.

Waiting Times

Mr. Lansley: To ask the Secretary of State for Health what the *(a)* mean and *(b)* median waiting time for a first out-patient appointment has been in each year since 1997–98. [39363]

Mr. Byrne: Estimated mean and median waiting times for a first out-patient appointment with a consultant following general practitioner referral are shown in the table.

Estimated mean and median out-patient waiting times (in weeks)

	Median	Mean
March 1998	6.4	9.5
March 1999	7.0	10.5
March 2000	7.7	11.7
March 2001	7.5	10.9
March 2002	7.6	11.1
March 2003	7.4	9.0
March 2004	7.1	8.5
March 2005	7.0	7.5
September 2005	6.8	7.2

Source:
Department of Health, QM08R return

Mr. Lansley: To ask the Secretary of State for Health what the total number of patients admitted onto the in-patient waiting list has been in each year since 1997–98. [39364]

Mr. Byrne: The data is shown in the table. A key factor in the number of decisions to admit is the increase in the number of patients dealt with in an out-patient setting rather than through in-patient admission.

Number of decisions to admit, all specialties, England, 1997 to 2005

	Decisions to admit
1997–98	n/a
1998–99	4,189,323
1999–2000	4,159,078
2000–01	3,935,930
2001–02	3,781,437
2002–03	3,778,390
2003–04	3,802,744
2004–05	3,787,713

Note:
Data was not collected in 1997–98.
Source:
Department of Health form KH06

Mr. Bone: To ask the Secretary of State for Health how many people had been waiting more than six months for an NHS operation on 1 December. [38849]

Mr. Byrne: At the end of November 2005, 12,269 people had been waiting more than six months for a national health service operation according to monthly commissioner-based data. We remain confident that our year end target of a maximum waiting time of six months will have been met.

Women's Health Services

Jessica Morden: To ask the Secretary of State for Health which primary care trusts offer women suffering from *(a)* uterine fibroids and *(b)* menorrhagia alternative treatment options to hysterectomy which include (i) uterine fibroid embolisation, (ii) endometrial ablation, (iii) myomectomy and (iv) myolysis. [31504]

Mr. Byrne: Information broken down by primary care trusts is not available due to instances of small numbers for these gynaecological treatments. Data from hospital episode statistics (HES) giving counts of admissions to national health service hospitals are shown in the tables.

For women admitted into hospital in England in 2003–04 with a primary diagnosis of fibroids.

Treatment provided	*Numbers of women*
Hysterectomy	Less than 10
Uterine fibroid embolisation	350
Ablation	2,400
Myomectomy	1,500
Myolysis	Not available

For women admitted into hospital with a primary diagnosis of menorrhagia.

Treatment provided	*Numbers of women*
Hysterectomy	Less than 10
Uterine fibroid embolisation	15
Ablation	5,300
Myomectomy	60
Myolysis	Not available

DEPUTY PRIME MINISTER

Bed-and-breakfast Accommodation (London)

Mr. Hands: To ask the Deputy Prime Minister how many 16 to 18-year-olds are living in bed and breakfast accommodation in each London borough. [42920]

Yvette Cooper: The information requested is not held centrally, and could be provided only at disproportionate cost.

Carbon Emissions

Gregory Barker: To ask the Deputy Prime Minister which unit within his Department is responsible for reducing carbon emissions. [39903]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) has a range of policy responsibilities—including planning, building regulations, housing and local government—that have a role to play in reducing carbon emissions. The ODPM's Corporate Strategy and Resources Group is responsible for co-ordinating the ODPM's contribution towards tackling climate change.

Commercial Planning

Mr. McGovern: To ask the Deputy Prime Minister if he will issue planning guidance for new commercial premises to ensure that the secure transfer of cash to and from cash-in-transit carriers at banks, shopping centres, supermarkets and cash machines is taken into account. [43036]

Yvette Cooper: "Planning Policy Statement 1: Delivering Sustainable Development" (PPS1), published in 2005, sets the planning policy context for England. It places strong emphasis on the role of planning in helping to reduce crime. Planning authorities are asked to have robust policies which address crime prevention issues in their development plans. Crime prevention is also capable of being a material planning consideration in the consideration of planning applications.

The Government have also published "Safer Places: The Planning System and Crime Prevention" which provides detailed advice on the layout of all buildings and spaces to reduce the risk of crime, including, where appropriate, the incorporation of target hardening measures such CCTV in new development. The guidance urges planners, designers and crime prevention practitioners/police to work together to develop solutions from an early stage in the design process.

Planning policy in Scotland is a matter for the Scottish Executive. I understand the Scottish Executive will be publishing a planning advisory note on designing safer places shortly.

Council Tax Revaluation

Mrs. Spelman: To ask the Deputy Prime Minister if he will list representations the Government have received from retailers, including DIY stores, in relation to the council tax revaluation in the last two years. [42611]

Mr. Woolas: Two representations have been identified from retailers, both from B&Q plc, received by the Office of the Deputy Prime Minister in relation to council tax revaluation in the last two years.

Design for Manufacture Competition

Mrs. Spelman: To ask the Deputy Prime Minister if he will list the location of each site in the Design for Manufacture competition, and the estimated number of *(a)* commercial and *(b)* affordable households to be constructed at each site in relation to the competition. [17446]

Yvette Cooper *[pursuant to the reply, 18 October 2005, Official Report, c. 876W]:* I regret that the answer contained incorrect information in relation to the number of affordable dwellings that are anticipated to be built at the former Rowan High School site in the London borough of Merton as a result of the Design for Manufacture competition. The correct answer to the question should be as follows.

There is no significant commercial property to be developed on the 10 Design for Manufacture Competition sites, other than incidental corner shops and community facilities that will be subject to detailed planning approval. These will be detailed during the next stage as the proposals for each individual site go through the planning process.

The number of homes on each site is as follows:

Oxley Park, Milton Keynes, Phase 2 site. Total of 145 homes, of which 43 are anticipated to be affordable housing.

Oxford Road, Former Territorial Army Centre, Aylesbury Vale. Total of 100 homes, of which 30 are anticipated to be affordable housing.

Upton, Northampton, Site D2. Total of 165 homes, of which 36 are anticipated to be affordable housing.

Allerton Bywater Millennium Community, Leeds, Yorkshire. Total of 150 homes, of which 30 are anticipated to be affordable.

School Road, Hastings. Total of 12 homes, with affordable housing level to be determined.

Horns Cross, Stone, Dartford. Total of 37 homes, of which 11 are anticipated to be affordable housing.

Former Rowan High School site, Merton, London. Total of 180 homes, of which 54 are anticipated to be affordable housing.

Former Renny Lodge Hospital, London Road, Newport Pagnell, Bucks. Total of 60 homes, of which 20 are anticipated to be affordable housing.

Former Park Prewett Hospital, Kingsclere Road, Basingstoke. Total of 137 homes, of which 47 are anticipated to be affordable housing.

Former Linton Hospital site, Maidstone. Total of 123 homes, of which 43 are anticipated to be affordable housing.

Fire Alarms

Bob Spink: To ask the Deputy Prime Minister what discussions he has had with fire authorities about the provision of fire alarms in *(a)* park home properties, *(b)* residential homes and *(c)* homes in multiple occupation; and if he will make a statement. [42907]

Jim Fitzpatrick: There has been wide ranging consultation with relevant stakeholders, including fire and rescue authorities, on fire safety in park homes, residential care homes, and houses in multiple occupation. Formal consultation has taken place on the Housing Health and Safety Rating System which covers fire hazards in all dwellings, and requirements on fire safety in licensed houses in multiple occupation under the Housing Act 2004. The Office of the Deputy Prime Minister has also consulted extensively on the Fire Safety Order 2005 and forthcoming guidance, which covers the common areas in which park homes are located, residential care homes, and the common parts of houses in multiple occupation. There has been similar consultation on the proposed revision to Approved Document B (Fire Safety) to the Building Regulations which covers all new buildings and material alterations to existing buildings.

Bob Spink: To ask the Deputy Prime Minister what proportion of the premises occupied by his Department is fitted with audible fire alarms. [42883]

Jim Fitzpatrick: With the exception of the Fire Experimental Unit Still-Air Testing Facility at Little Rissington, where such a system would be inappropriate, all of the premises occupied by the Office of the Deputy Prime Minister are fitted with audible fire alarms.

This answer does not include buildings occupied by Government Offices, who carry out functions on behalf of 10 Government Departments.

Fuel Storage Depots

Mr. Crabb: To ask the Deputy Prime Minister (1) what guidelines exist for the siting of fuel storage depots near residential areas; [42789]

(2) what the minimum distance required is between fuel storage depots and housing; [42790]

(3) which Government agency is responsible for ensuring that fuel storage depots are operated and maintained safely. [42791]

Yvette Cooper: Decisions on proposals for development are taken by a local planning authority in accordance with its development plan. Essentially, this comprises the regional spatial strategy prepared by the regional planning body and local development documents prepared by the local planning authority.

The Town and Country Planning (Regional Planning) (England) Regulations 2004 (SI No 2203) and the Town and Country Planning (Local Development) (England) Regulations 2004 (SI No 2204) specify the form and content of regional spatial strategies and development plan documents. These make clear that in preparing their plans the planning bodies are required to have regard to the objectives of preventing major accidents and of limiting the consequences of such accidents; and to have regard to the need, in the long term, to maintain appropriate distances between establishments where dangerous substances are present and residential areas.

Guidance issued in Planning Policy Statement 12 on Local Development Frameworks makes clear that, in preparing or reviewing local development documents, local planning authorities need to ensure that they include a policy or policies relating to the location of establishments where hazardous substances are used or stored, and to the development of land within the vicinity of establishments where hazardous substances are present.

Article 10 of The Town and Country Planning (General Development Procedure) Order 1995 requires local planning authorities to consult with the Health and Safety Executive when residential development is proposed within an area that has been notified to the local planning authority by the Health and Safety Executive because of the presence of hazardous substances within the vicinity. They must also consult with the Health and Safety Executive about development involving the siting of new establishments where hazardous substances will be present.

There is no specified minimum distance that has to be maintained between a fuel storage depot and housing. The decision on whether any proposed development should be permitted to take place within the vicinity of a fuel storage depot is a matter for the local planning authority, taking advice from the Health and Safety Executive on the suitability of the development with regard to the potential off-site risk so that those risks can be given due weight when balanced against other relevant planning considerations.

Primary responsibility for the safe operation and maintenance of fuel storage depots rests with those who operate the site. The relevant regulatory agency for such operators and sites will depend on the quantity of fuel stored. The Health and Safety and the relevant Environment Agency together form a joint competent authority for such regulation at large scale fuel storage depots within the scope of the Control of Major Accident Hazards (COMAH) Regulations 1999. For smaller sites not covered by COMAH, Health and Safety Executive is the relevant regulator.

High Hedges

Lynne Jones: To ask the Deputy Prime Minister what guidance he has issued on the circumstances in which *(a)* Leyland cypress and *(b)* other evergreen species may be reduced by more than one-third under high hedges legislation; and if he will make a statement. [42774]

Yvette Cooper: The circumstances in which Leyland cypress and other evergreen species may be reduced by more than one-third will vary according to species, and also depends on the age and health of the trees or shrubs in question and how they have been maintained in the past. As a result, the guidance issued by the Office of the Deputy Prime Minister in relation to the high hedges legislation advises local authorities to obtain arboricultural advice when specifying action to be taken in relation to the hedge in order to remedy any adverse effect that it is causing.

Lynne Jones: To ask the Deputy Prime Minister if he will issue guidance to local authorities to clarify *(a)* how far a hedge can be reduced before it is destroyed and *(b)* that the example of reducing a hedge by one-third is not a stipulation that only one-third of a hedge can safely be trimmed. [42776]

Yvette Cooper: Guidance on how far a hedge can be reduced before it is destroyed is available on the Office of the Deputy Prime Minister's website under "Frequently Asked Questions on High Hedges" at: www.odpm.gov.uk/index.asp?id=1127837#P155_26271. It indicates these are matters of professional judgment, to be made in the light of the particular circumstances.

The Office of the Deputy Prime Minister will shortly be expanding the "Frequently Asked Questions on High Hedges" to clarify that the guidance document "High Hedges Complaints: Prevention and Cure" does not stipulate that only one-third of a hedge can be safely trimmed.

Housing

Tim Farron: To ask the Deputy Prime Minister how many affordable homes have been provided by housing associations in Cumbria in each year since 1997. [42394]

Yvette Cooper: The number of affordable housing units completed in Cumbria by housing associations funded through the Housing Corporation's Approved Development Programme for each year since 1997 are shown as follows:

	Units
1997–98	143
1998–99	251
1999–2000	207
2000–01	193
2001–02	116
2002–03	137
2003–04	114
2004–05	107

Mrs. Spelman: To ask the Deputy Prime Minister what items of information about property will be contained in a home condition report. [42615]

Yvette Cooper: The home condition report is an objective report on the physical condition of a property, including an energy performance certificate complying with the European Union (EU) Directive on the Energy Performance of Buildings. It is one of the documents required to be provided in a home information pack, which also contains local search information, including whether or not the property is on the local authority's contaminated land register. The pack will also contain legal information about the property, such as evidence of title and leasehold information, and forms relating to contents and terms of sale.

The purpose of the home condition report is to provide the buyer, seller and mortgage lender with reliable information about the condition and energy performance of a home.

A home condition report must comply with requirements to be set out in regulations. It is intended that a home condition report will contain the home inspector's record of the following information about a property, as set out in the draft Home Information Pack Regulations, published on the Office of the Deputy Prime Minister's website:

- The property address, the year of construction (or an estimate), and the number of storeys and rooms in the property.
- The provision of parking.
- The utility services connected to the property, and the condition of visible parts of these.
- For flats/maisonettes, the number of storeys and other flats within the building, whether there is a lift, and the condition of the building and common areas.
- Health and safety risks identified.
- The condition of the outside and inside parts of the property and any outbuildings.
- The energy performance of the property.
- Whether there were any parts of the property not accessible for inspection.

The draft regulations also provide that the home condition report must not include anything which would identify or express an opinion on an individual, or any information about security features of a property.

Mrs. Spelman: To ask the Deputy Prime Minister which organisations will have access to the register of home condition reports. [42616]

Yvette Cooper: The Housing Act 2004 requires that access to the information stored in the register of home condition reports is controlled by regulations. The Government is currently considering which organisations and/or individuals should be given access to the information held in the home condition report register, and will take account of the views of stakeholders before making a final decision.

Mr. Davey: To ask the Deputy Prime Minister how many house repossessions were made in each of the last five years in *(a)* England, *(b)* London and *(c)* Kingston and Surbiton. [43190]

Yvette Cooper: I refer the hon. Member to the answer given to my hon. Friend the Member for Tamworth (Mr. Jenkins) on 20 January 2006.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what the change will be in the amount charged in rent under the housing subsidy determinations for 2006–07; and how much of this will be retained by the Government. [40348]

Yvette Cooper: Rent setting is a matter for individual landlords.

Actual rents are forecast to rise by an average 4.7 per cent. in England, with the average for any individual authority constrained by a 5 per cent. cap.

Rental income is not retained by the Government.

Mobile Phone Masts

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 20 December 2005, *Official Report*, column 2836W, on mobile phone masts, if he will place in the Library the figures for the number of communication stations registered for business rates in England in each local authority area in the most recent year for which figures are available. [42602]

Mr. Woolas: A table with the break down, of the 20,930 hereditaments shown in the Rating List at 31 March 2005 has been made available in the Library of the House.

Official Residences (Council Tax)

Sarah Teather: To ask the Deputy Prime Minister pursuant to the answer to the hon. Member for Meriden of 12 January 2006, *Official Report*, columns 782–3W, on official residences (council tax), whether the sum he has repaid for outstanding council tax includes interest on the money owed; and if he will make a statement. [44067]

Jim Fitzpatrick: The payments that my right hon. Friend the Deputy Prime Minister is making to Westminster City Council are entirely voluntary and he has no legal obligation to make them. There is no need for my right hon. Friend the Deputy Prime Minister to add interest to them.

Ordnance Survey

Mrs. Spelman: To ask the Deputy Prime Minister how many aerial photographs Ordnance Survey *(a)* took and *(b)* purchased from external suppliers in each of the last five years. [42655]

Jim Fitzpatrick: The number of aerial photographs captured by Ordnance Survey and purchased from external suppliers in each of the last five financial years is as follows.

	Ordnance survey	*External suppliers*
2001–02	29,420	0
2002–03	39,842	72,591
2003–04	54,678	103,616
2004–05	30,023	45,297
2005–06 to date	40,224	108,619

Overcrowding

Ms Keeble: To ask the Deputy Prime Minister when he expects to consult on new standards for overcrowding in housing. [42569]

Yvette Cooper: The Office of the Deputy Prime Minister is still considering options for reviewing the statutory standards and will take a decision on the timing of consultation as soon as possible.

Overhead Power Lines (Kent)

Dr. Stoate: To ask the Deputy Prime Minister what assessment he has made of the *(a)* cost and *(b)* feasibility of undergrounding overhead power lines in Kent Thameside as part of the on-going regeneration of the area. [42201]

Yvette Cooper: The Office of the Deputy Prime Minister is taking forward its programme of regeneration with local partners, including private developers. To date, this issue has not emerged as a major barrier to regenerating the area. Therefore, there is no current feasibility work under way looking at undergrounding overhead power lines in North Kent.

Developers should work with local authorities and other relevant bodies at an early stage in the planning process to find sustainable and, where appropriate, innovative solutions towards creating positive and high quality environments.

Park Homes

Mr. Roger Williams: To ask the Deputy Prime Minister how many park homes are registered in *(a)* Band A, *(b)* Band B, *(c)* Band C, *(d)* Band D, *(e)* Band E, *(f)* Band F, *(g)* Band G and *(h)* Band H for council tax purposes. [43182]

Yvette Cooper: Information on the number of park homes in England in each council tax band is not held centrally, and could be provided only at disproportionate cost. Council tax in Wales is the responsibility of the Welsh Assembly Government.

Private Garden Development

Lynne Featherstone: To ask the Deputy Prime Minister what estimate he has made of the *(a)* number and *(b)* total area of privately-owned gardens in each London borough that has been developed in each year since 1997; and if he will make a statement. [42951]

Yvette Cooper: The information requested is not held centrally, and could be provided only at disproportionate cost. Land Use Change Statistics record the amounts of residential land developed but do not record whether it was privately owned or how much of the land was occupied by any garden.

Repossessions

Mr. Jenkins: To ask the Deputy Prime Minister how many repossessions were made in each of the last 10 years in *(a)* England and *(b)* Tamworth constituency. [43463]

Yvette Cooper: Information on mortgage possessions is only available for the United Kingdom as a whole and is collected by the Council of Mortgage Lenders. The figures in the table include properties that are surrendered voluntarily.

	Mortgages at end of period	*Properties taken into possession*	
	Number	*Number*	*% all loans*
1995	10,521,000	49,410	0.47
1996	10,637,000	42,560	0.40
1997	10,738,000	32,770	0.31
1998	10,821,000	33,870	0.31
1999	10,982,000	29,990	0.27
2000	11,173,000	22,870	0.20
2001	11,247,000	18,280	0.16
2002	11,364,000	11,970	0.11
2003	11,452,000	7,830	0.07
2004	11,512,000	6,230	0.05
2005 January-June	11,550,000	4,640	0.04

Source:
Council of Mortgage Lenders

Right To Buy (Houghton and Washington)

Mr. Kemp: To ask the Deputy Prime Minister what proportion of the council housing stock of *(a)* houses and *(b)* flats has been sold under the Right to Buy scheme in Houghton and Washington East constituency since 1980. [42445]

Yvette Cooper: Information is not collected for the Houghton and Washington East constituency. The following relates to Sunderland city council.

An estimated 30 per cent. of the housing stock formerly owned by Sunderland city council was sold through the Right to Buy scheme between the introduction of the scheme in 1980 and the Large Scale Voluntary Transfer of the stock to Sunderland Housing Group in 2000–01.

Separate information on the number of flats sold through the Right to Buy scheme is not held centrally, and could be provided only at disproportionate cost.

Right to Buy (Kent)

Mr. Holloway: To ask the Deputy Prime Minister how many right-to-buy completions there were in *(a)* Gravesham and *(b)* Kent in each year since 1996–97. [43278]

Yvette Cooper: The number of Right to Buy sales in Gravesham and Kent can be found on the Office of the Deputy Prime Minister's website at:

http://www.odpm.gov.uk/embedded_object.asp?id:=1156373

Right to Buy (Lincolnshire)

Shona McIsaac: To ask the Deputy Prime Minister how many council homes in *(a)* North East Lincolnshire and *(b)* North Lincolnshire were sold under the right-to-buy scheme in each year since its introduction; and what the average sale price was in each of those years. [42971]

Yvette Cooper: The number of council homes sold under the Right to Buy scheme and the average sale price per dwelling, as reported by North East Lincolnshire and North Lincolnshire for each available financial year is tabulated as follows.

Due to boundary changes it is not possible to supply data for years prior to those shown.

Financial year	*Number of Right to Buy sales*	*Average price net of discount (£)*
North East Lincolnshire UA		
1996–97	48	15,813
1997–98	79	16,114

Vacant Domestic Properties

Mr. Jenkins: To ask the Deputy Prime Minister how many vacant domestic properties there were in *(a)* England and *(b)* Tamworth constituency in each of the last five years, broken down by tenure. [43464]

Yvette Cooper: The following table contains the total number of vacant dwellings in England and in Tamworth, broken down by tenure for 2000 to 2004. This provides the latest available data:

	These figures include dwellings which have been empty for fewer than six months, some of which for less than 1 month				
	Local authority	*Registered social landlords*	*"Other" public sector*	*Private sector[2] (non-RSL)*	*Total[1]*
Count date	1 April	31 March	1 April	[2]—	April/November
England					
2000	87,200	37,500	12,600	623,200	760,500
2001	80,300	39,300	10,900	622,600	753,100
2002	78,100	39,700	9,000	631,200	758,100
2003	62,600	44,900	9,100	633,300	750,000
2004	57,500	43,300	7,400	608,600	716,800
Tamworth					
2000	37	11	0	522	570
2001	48	11	0	561	620
2002	41	16	0	423	480
2003	50	7	0	455	512
2004	453	17	0	29	499

[1] For the total tenure dwellings, Council Tax Base 1 Supplement CTB1(S) return is used. It is regarded as the most reliable source but it does not have the tenure breakdown. It has been collected from 2000 but is considered to be only reliable from 2002 onwards. Hence HSSA is used for 2000 and 2001 figures. CTB1(S) data are for a specified date in November, which is different from both the HSSA (1 April) and RSR (31 March). The total figure may not equal to the sum of individual tenures' figures if different sources were used or rounding has been applied. CTB1(S) data for 2005 are not yet available.

[2] For the private sector tenure figures, before 2002, 1 April figures from HSSA are used. For the years 2002 through to 2004, to obtain the number of private sector (non RSLs) vacant dwellings LA, RSL and "Other public sector" figures were subtracted from the total vacant dwellings figure from the council tax data. This residual method is considered to be better than the less reliable private sector figure supplied in the HSSA return. (In order to adopt the residual method, CTBl's November figure has been taken to represent the data at 1 April. This assumes that the effect caused by these different snap-shot dates is insignificant. This is considered reasonable as properties become vacant and re-occupied and vice versa all the time i.e. there is a balancing effect. Hence over such a small period of time there should be minimal difference in the overall numbers between the two dates. The minute difference between 1 April and 31 March (from RSR) can also simply be ignored.)

From April local authorities will have new powers to bring empty properties back into use.

Sources:

Housing Strategy Statistical Appendix (HSSA) return for LA and 'Other' public sector tenures

Regulatory Statistical Return (RSR) for RSL tenure

Council Tax Base 1 (CTB1) return for the total tenure figures (see footnote 1)

Mr. Kemp: To ask the Deputy Prime Minister how many vacant domestic properties there were in *(a)* England and *(b)* Houghton and Washington East constituency in each of the last five years, broken down by tenure. [42444]

Yvette Cooper: Figures on vacant dwellings at constituency level are not held centrally, but the Office of the Deputy Prime Minister does hold relevant local authority level figures.

The following table contains the total number of vacant dwellings in England and in Sunderland, broken down by tenure for 2000 to 2004. This provides the latest available data:

	Local authority	*Registered social landlords*	*"Other" public sector*	*Private sector[1] (non-RSL)*	*Total[2]*
Count date	1 April	31 March	1 April	[1]—	April/November
England					
2000	87,200	37,500	12,600	623,200	760,500
2001	80,300	39,300	10,900	622,600	753,100
2002	78,100	39,700	9,000	631,200	758,100
2003	62,600	44,900	9,100	633,300	750,000
2004	57,500	43,300	7,400	608,600	716,800
Sunderland					
2000	1,102	116	0	2,562	3,780
2001	0	[3]1,009	0	3,925	4,934
2002	0	995	0	2,633	3,628
2003	0	1,198	0	2,942	4,140
2004	0	1,432	0	2,682	4,114

[1] For the private sector tenure figures, before 2002, 1 April figures from HSSA are used. For the years 2002 through to 2004, to obtain the number of private sector (non-RSLs) vacant dwellings LA, RSL and "Other public sector" figures were subtracted from the total vacant dwellings figure from the council tax data. This residual method is considered to be better than the less reliable private sector figure supplied in the HSSA return. (In order to adopt the residual method, CTBl's November figure has been taken to represent the data at 1 April. This assumes that the effect caused by these different snap-shot dates is insignificant. This is considered reasonable as properties become vacant and re-occupied and vice versa all the time i.e. there is a balancing effect. Hence over such a small period of time there should be minimal difference in the overall numbers between the two dates. The minute difference between 1 April and 31 March (from RSR) can also simply be ignored.)

[2] For the total tenure dwellings, Council Tax Base 1 Supplement CTB1(S)) return is used. It is regarded as the most reliable source but it does not have the tenure breakdown. It has been collected from 2000 but is considered to be reliable only from 2002 onwards. Hence HSSA is used for 2000 and 2001 figures. CTB1(S) data are for a specified date in November, which is different from both the HSSA (1 April) and RSR (31 March). The total figure may not equal to the sum of individual tenures' figures if different sources were used or rounding has been applied. CTB1(S) data for 2005 are not yet available.
[3] This figure is based on HSSA return because the reported RSR value missed out the transferred stock from LA to RSL.
Notes:
1. These figures include dwellings which have been empty for fewer than six months, some of which for less than one month.
2. Figures as at 1 April unless otherwise stated.
Sources:
Housing Strategy Statistical Appendix (HSSA) return for LA and "Other" public sector tenures.

Council Tax Base 1 (CTB1) return for the total tenure figures (see footnote 2).

From April, local authorities will have new powers to bring empty properties back into use.

Valuation Office Agency

Mrs. Spelman: To ask the Deputy Prime Minister how many residential properties the Valuation Office Agency has inspected in each year since 1997 to determine whether the property is used in whole or part for business purposes. [42604]

Mr. Woolas: The information requested is not held centrally, and could be provided only at disproportionate cost.

Mrs. Spelman: To ask the Deputy Prime Minister what geographical information system *(a)* products, *(b)* data and *(c)* software the Valuation Office Agency has obtained in the last five years; and if he will list the suppliers. [42619]

Mr. Woolas: The Valuation Office Agency does not have a Geographic Information System. The Valuation Office Agency does use digital mapping systems (Master Map and Land Line) provided by Ordnance Survey.

Mrs. Spelman: To ask the Deputy Prime Minister whether the Valuation Office Agency will have access to *(a)* the National Register of Social Housing and *(b)* information held in home information packs in carrying out its work. [42956]

Mr. Woolas: The Valuation Office Agency has had access to data held in the National Register of Social Housing.

No decisions have yet been taken on which, if any, organisations should be given access to the information held in home information packs. The Government intend to consider the views of stakeholders before deciding whether third parties, including other Government Departments and agencies, should have access to this information.

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to Council Tax Information Letter 1–2005, if he will place in the Library a copy of the letter from the Valuation Office Agency sent to local authorities in relation to the sharing of planning information. [43032]

Mr. Woolas: The letter referred to was a draft sent by the Valuation Office Agency's Chief Executive's Office to listing officers around the country for their use where appropriate, seeking cooperation in ensuring property attribute data was kept up to date. Whether or not this was sent to local authorities in their area was a decision taken by individual listing officers. A copy of the draft has been made available in the Library of the House.

Mrs. Spelman: To ask the Deputy Prime Minister what types of data the Valuation Office Agency *(a)* supplies, *(b)* makes available and *(c)* sells to the public. [43034]

Mr. Woolas: The Valuation Office Agency is statutorily required to publish the valuation lists for council tax and the rating lists for non-domestic rating. The lists are made available in a variety of formats including the Agency's website at: www.voa.gov.uk and no charge are made for these.

Alternative formats are available—for which a charge is made—for compilations of the published entries in the non-domestic rating lists for England and Wales and the summary valuations supporting the valuations in those lists. No equivalent is available for the council tax lists.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what the level of poppy cultivation was in Afghanistan in 2005; and what the latest estimate is for 2006. [42627]

Dr. Howells: The UN Office on Drugs and Crime (UNODC) confirmed the poppy cultivation figures for 2004–05 from their annual survey in November 2005. UNODC reported a 21 per cent. reduction in poppy cultivation from 131,000 hectares (ha) in 2003–04 (4,200 metric tonnes) to 104,000 hectares in 2004–05 (4,100 metric tonnes). Although cultivation decreased significantly, the rise in yield in 2004–05 was due to good weather and an absence of crop disease. These overall percentages, however, mask significant variations between provinces. For example, Nangarhar (-96 per cent.), Badakshan (-53 per cent.) and Helmand (-10 per cent.) saw the most significant decreases. But other provinces, such as Balkh and Farah, saw increases. The US Office of National Drug Control policy also publicly released its cultivation figures in November, which match those of UNODC

It seems likely that cultivation may increase again this year—initial reports suggest that farmers in some provinces are threatening to return to cultivation. Our goal is to ensure that the downward trend in cultivation is maintained in the long-term. We are working hard with the Government of Afghanistan (GoA) and other international partners to ensure the GoA is able to deliver on this goal. An early indication of this year's

figures will be reflected in the UNODC's Rapid Assessment Survey, which will be published in the next few weeks.

Consular Procedures

Mr. Keetch: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what the standard procedure followed by his Department's consular staff is in dealing with deaths of British nationals abroad; [43121]

(2) whether a date has been set for the introduction of a system of collecting detailed information on deaths of British nationals abroad; [43122]

(3) what steps are taken when consular guidelines for dealing with British nationals in difficulty abroad are not followed; [43123]

(4) what procedures are followed by consular staff when a British national is murdered abroad. [43124]

Dr. Howells: Consular staff deal with some 4,000 deaths of British nationals overseas each year. Not all such deaths abroad are reported to the local British mission. But when a death is reported, and their next of kin (NoK) is not present, we will ask the UK police to inform them. If they are not in the UK, we will ask our consular staff in the country where they are to perform this duty. In exceptional circumstances, we may inform the NoK by telephone. Following initial notification, consular staff in London will normally write to the NoK in the UK with further information on how deaths are dealt with in the country concerned and providing a point of contact in the Foreign and Commonwealth Office in London.

Consular staff in London can pass on to our staff overseas the NoK's wishes about dealing with the body. They will do their best to ensure that these are carried out. Responsibility for the treatment of bodies, including storage, post mortems and removal of organs, remains with the local authorities and practices may differ from the UK. Where this is the case, consular staff will inform the NoK.

Consular staff can advise on the cost of local burial or cremation, including providing a list of local funeral directors, or the transport of the body and personal property back to the UK. They can help transfer money from friends and relatives in the UK to pay any necessary costs. They cannot pay any burial, cremation or repatriation expenses or settle any debts.

Where there is evidence of suspicious circumstances, consular staff can suggest to the NoK the best way to raise concerns with the local authorities. However, they cannot investigate deaths themselves. Consular staff will monitor the progress of investigations and, where applicable, any resulting court case. Consular staff can provide a list of lawyers if the NoK wish to appoint one to look after their interests in court.

Consular staff in London are available to meet family representatives, and will maintain contact and inform them if they are told of any new developments by the investigating authorities.

From April 2006, a new consular database called Compass will be able to provide statistics of serious assistance casework. It breaks down causes of death into the following categories: accidental, execution, murder, natural and suicide.

Consular staff aim to follow the guidelines at all times within the constraints of local conditions. Where the guidelines have not been followed, without a good operational reason, and problems arise as a result, consular staff will aim to resolve them as quickly and effectively as possible. Consular Directorate takes all complaints very seriously and seeks feedback to ensure consular services are the best they can be.

Cuba

Mr. Kemp: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the treatment of *(a)* dissidents and *(b)* pro-democracy campaigners in Cuba. [42437]

Mr. Douglas Alexander: We regularly express our concern to the Cuban authorities about the treatment of dissidents and pro-democracy campaigners in Cuba. My noble Friend the Foreign and Commonwealth Office Minister responsible for the Caribbean, Lord Triesman of Tottenham, raised this with the Cuban ambassador at the All Party Parliamentary Group Cuba meeting on 8 November 2005. During our EU presidency, we issued a number of statements expressing our concern at the Cuban authorities' harsh treatment of the opposition.

According to the main non-official Cuban human rights organisation, there are currently 333 political prisoners in Cuba. We consider the imprisonment of such figures to be a violation of articles 19 and 20 of the Universal Declaration of Human Rights which guarantee the right to freedom of expression and freedom of assembly. We carefully monitor the situation of a number of political prisoners and the UK, along with EU partners, continues to urge the Cuban Government to release all political prisoners.

We are also increasingly concerned by a trend towards organised public attacks on the opposition and on the families of political prisoners. We continue to monitor this situation closely.

Mr. Kemp: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the prospects for the restoration of democracy in Cuba. [42440]

Mr. Douglas Alexander: UK and EU policy is to encourage a process of peaceful transition to pluralist democracy in Cuba as well as respect for human rights and fundamental freedoms. As part of this policy we maintain a dialogue with pro-democracy campaigners in Cuba, as well as with members of the current regime.

In December we invited Oswaldo Payá, a leading civil society figure, to speak at the EU-non-governmental organisations forum on 'Freedom of Expression'. He is the author of a citizens' petition calling for greater fundamental freedoms and the holding of free and fair democratic elections in Cuba. Unfortunately, the Cuban Government refused to grant him permission to travel to the UK. The fact that over 25,000 people

have already signed the citizens' petition, despite considerable state intimidation and lack of access to media, suggests that popular support for the restoration of democracy in Cuba is considerable.

European Union (Classified Documentation)

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the procedure for vetting personnel employed by the European Union with access to classified documentation released from the UK. [43424]

Mr. Douglas Alexander: Candidates for European Union positions are required to complete a standard vetting form that is submitted to the competent agency of the applicant's member state. That agency then carries out the vetting process. The relevant EU institution is then informed of the outcome of the vetting.

Responsibility for vetting UK nationals for positions within the European Union institutions rests with the Foreign and Commonwealth Office.

Identity Fraud

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs what training his Department has provided for *(a)* front desk and *(b)* administrative staff in relation to identity fraud. [41277]

Dr. Howells: Entry Clearance Officers (ECOs) who work on the front desk undertake a three-week induction course, which includes a half-day at the National Documentation Forgery Unit for an overview of forgery detection techniques. ECOs who have previously worked for the Home Office as Immigration Officers (IOs) attend a shorter course, as they already have a basic forgery detection background. Once ECOs arrive at the overseas Visa Section, further forgery and fraud detection training is conducted on an ad hoc basis, either by an Airline Liaison Officer, a local visa forgery specialist or by a Risk Assessment Unit as applicable. Administrative staff provide support such as undertaking employment, bank and documentation checks. Some checks may require local language skills, which many of our administrative staff are able to offer. They do not, however, have any decision-making powers though they do, nevertheless, receive local training as appropriate.

Foreign and Commonwealth Office staff who work in consular sections abroad also deal with identity documentation. Those who have responsibility for issuing passports overseas are required to undertake a consular course, which includes a specific session, within the passport and nationality section, on detecting fraud. In posts where we are aware that applicants may try to obtain passports fraudulently, ad hoc, in-house, 'knowledge-sharing' sessions take place, which may also involve UKvisas and assistance from the local authorities.

Israel

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 19 December 2005, *Official Report*, columns 2485–86W, on Israel, (1) why he has no plans to raise the Government's concern about the damage caused by Israeli Defence Force low-flying aircraft in the Occupied Territories with the United Nations; and what the outcome was when the ambassador in Tel Aviv *raised this issue with the Israeli Defence Force Chief of* General Staff on 8 December 2003; [40618]

(2) why he does not plan to raise with the UN his concerns regarding the damage caused by Israeli low-flying aircraft in Gaza. [42757]

Dr. Howells: Our voting record at the United Nations will continue to reflect our concerns about the damage caused by low-flying aircraft over Gaza. The United Nations are fully aware of our concerns relating to this issue. The British ambassador to the United Nations, Sir Emyr Jones-Parry, will raise this at his next monthly statement at the United Nations Security Council open consultations.

During the ambassador's meeting with the Israel Defence Force Chief of Staff, Lt. Gen. Halutz, on 8 December 2005, they discussed low-flying aircraft over Gaza. The ambassador expressed our concerns over these actions. Lt. Gen. Halutz said that these actions would continue to take place but that they had taken into consideration the effect that the low-flying aircraft is having on the Palestinian population.

Syria

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs when he was first informed of the information disclosed by Mr. Paul Bremer that President Assad of Syria encouraged Grand Ayatollah Ail al-Sistani to wage war on United States and United Kingdom forces; and what action he took. [42473]

Dr. Howells: It is the policy of the Government not to comment on the origin of information of this kind.

Uzbekistan

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the British ambassador to Tashkent on *(a)* human rights and *(b)* the treatment of political prisoners in Uzbekistan. [43603]

Mr. Douglas Alexander: The British ambassador to Tashkent visited the Foreign and Commonwealth Office (FCO) in December for meetings with officials on the political situation in Uzbekistan. In addition, an FCO official visited the country in December, including Andizhan.

Throughout 2005, the embassy has provided regular reports on human rights issues, including Andizhan-related trials, the detention of opposition figures and restrictions on non-governmental organisations. We continue to be concerned about Uzbekistan's human rights record and, together with the EU presidency and our other partners, have raised these concerns with the Uzbek authorities.

Written Answers to Questions

Monday 23 January 2006

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Byways

Mr. Laxton: To ask the Secretary of State for Environment, Food and Rural Affairs how many byways claims have been made by *(a)* the Trail Riders Federation, *(b)* motorway groups and *(c)* the Land Access and Recreation Association since December 2003. [43428]

Jim Knight: We do not have the particular data that you specify. This information is held by local highway authorities and could be gathered only at a disproportionate cost. I will write to you with information on the number of applications for byways open to all traffic.

Coastal Defence (Nuclear Power Plants)

Greg Clark: To ask the Secretary of State for Environment, Food and Rural Affairs what coastal defence work *(a)* has recently been, *(b)* is being and *(c)* is planned to be undertaken as a result of the proximity of nuclear power plants. [40258]

Malcolm Wicks: I have been asked to reply.

The following coastal defence work is taking place, or is proposed, in the proximity of nuclear power plants:

At Berkeley, Gloucestershire, a proposed sea wall repair will provide erosion protection for 25 years.

At Dungeness, Kent, a beach feeding programme is routinely undertaken to protect the foreshore and is likely to be maintained until at least 2018 (when generation at Dungeness B is expected to end). Long-term management options for the area adjacent to the power stations is under consideration.

At Hartlepool, a proposal to extend a marine recycling facility navigation channel may require that the coastal defences of the power station be reinforced. Discussions with the developer are under way.

At Sizewell B, Suffolk, the frontage of the adjacent Minsmere Bird Reserve is not secure and long-term management options are being considered.

Dairy Processing

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the competitive position of the dairy processing industry in each EU member state. [41868]

Jim Knight: My noble Friend, the Lord Bach, announced in September 2005 that the Dairy Supply Chain Forum would fund a study benchmarking the technical efficiency of our farmers and of our processing plants against a number of their EU and international counterparts. The work is due to start shortly.

Departmental Expenditure

Mrs. Villiers: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by her Department on refreshments in each year since 1997. [41253]

Jim Knight: DEFRA came into being in June 2001. From information held centrally, the total value of expenditure by core-DEFRA on catering contracts in financial year 2004–05 was £281,413; on hospitality was £370,544; and on conference facilities was £1,105,762. The expenditure figures for catering contracts, hospitality and conference facilities for the first six months of financial year 2005–06 are £494,864, £208,394 and £354,162 respectively. The specific costs of working breakfasts or lunches, official entertainment and refreshments at meetings or conferences could be provided only at disproportionate cost. All expenditure on official entertainment is made in accordance with the principles set out in Government Accounting.

Identity Fraud

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs what training her Department has provided for *(a)* front desk and *(b)* administrative staff in relation to identity fraud. [41410]

Jim Knight: Guidance on identity verification is available to staff via our intranet. The Department carries out identity checks on all recruits including casuals, consultants and agency temps and also on contractors working in our London buildings. Training is given to staff carrying out these identity checks.

National Parks

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been allocated to each national park for each year since 1997. [43705]

Jim Knight: Defra has provided the following National Park Grants (figures prior to 2000–01 are estimates):

Authority	£
Broads Authority	
1996–97	2,133,333
1997–98	2,070,667
1998–99	2,000,000
1999–2000	2,224,000
2000–01	2,212,000
2001–02	2,411,261
2002–03	2,801,437
2003–04	3,196,877
2004–05	3,065,680
2005–06	3,933,182
Dartmoor National Park Authority	
1996–97	2,433,333
1997–98	2,789,333
1998–99	2,589,333
1999–2000	2,858,667
2000–01	2,863,000
2001–02	3,127,480
2002–03	3,721,705
2003–04	4,177,323
2004–05	3,965,325
2005–06	4,308,058

Authority	£
Exmoor National Park Authority	
1996–97	2,032,000
1997–98	2,224,000
1998–99	2,142,667
1999–2000	2,377,333
2000–01	2,369,000
2001–02	2,582,842
2002–03	3,059,763
2003–04	3,518,950
2004–05	3,290,756
2005–06	3,616,422
Lake District National Park Authority	
1996–97	3,700,000
1997–98	3,897,333
1998–99	3,781,333
1999–2000	4,144,000
2000–01	4,180,000
2001–02	4,640,000
2002–03	5,460,856
2003–04	6,107,102

[1] National Park created 1 March 2005.

[2] Includes £500,000 capital grant towards new office accommodation.

School Milk

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the proposed withdrawal of the subsidy for the provision of milk in nursery and primary schools. [42041]

Jim Knight: The evaluation of the national top-up to the EU school milk subsidy scheme in England was published on 4 January 2006. The report contained a number of recommendations which included ending the top-up and spending the £1.5 million released as a result on other programmes to promote milk consumption by young people. The Government have, however, decided that the subsidy scheme has a valuable role to play and should remain unchanged.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions *(a)* she has had and *(b)* officials within her Department have had with (i) representatives from Milk for Schools, (ii) local education authorities, (iii) headteachers and (iv) Dairy UK about the proposed withdrawal of subsidy for the provision of milk in nursery and primary schools. [42042]

Jim Knight: Ministers and officials from the Department and its agencies are in regular contact with stakeholders in the dairy sector, and other interested parties, on a range of issues. We have no plans to change the school milk subsidy scheme.

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the free milk to schools scheme. [43137]

Jim Knight: An evaluation of the national top-up to the EU school milk subsidy scheme in England was published on 4 January. The report contained a number of recommendations which included ending the top-up and spending the £1.5 million released as a result on other programmes to promote milk consumption by young people. The Government have, however, decided that the subsidy scheme has a valuable role to play and should remain unchanged.

Decisions on the implementation of the EU school milk subsidy scheme and the national top-up scheme in Wales are the responsibility of the Welsh Assembly Government.

SOLICITOR-GENERAL

Crown Prosecution Service

Miss McIntosh: To ask the Solicitor-General how many people were employed by the Crown Prosecution Service on *(a)* 1 January 1997 and *(b)* 1 January 2005. [41184]

The Solicitor-General: The number of people who were employed by the Crown Prosecution Service on *(a)* 1 January 1997 and *(b)* 1 January 2005 are as follows.

Staff in post FTE (full-time equivalent)

	Number
1 January 1997	5,853
1 January 2005	8,056

The increase in staff reflects additional responsibilities given to the CPS through, for example, the introduction of the charging programme, provision of better support to victims and witnesses and more advocacy undertaken by CPS prosecutors, as well as the demands of other initiatives to improve the effectiveness of the CPS.

Suspicious Deaths

Mr. Amess: To ask the Solicitor-General what account the Crown Prosecution Service takes of the judgment of a coroner's inquest in deciding whether to bring charges in the case of a suspicious death where no charges have previously been made; and if he will make a statement. [44399]

The Solicitor-General: The Crown Prosecution Service (CPS) will decide whether or not to prosecute in accordance with the principles set out in the Code for Crown Prosecutors: it will prosecute cases when there is a realistic prospect of conviction and it is in the public interest to do so. The CPS will have regard to the verdict of a coroner's court and will take into consideration evidence that emerges at a coroner's inquest which affects the decision whether or not to bring a prosecution. Each case will be considered on its own particular facts.

CHURCH COMMISSIONERS

Disclosure of Documents

Kate Hoey: To ask the hon. Member for Middlesbrough, representing the Church Commissioners for what reasons the Commissioners will not disclose the documents relating to claims against them for damages to the housing units in Ufford street, Mitre road and Webber street without a court order. [43411]

Sir Stuart Bell: The Commissioners have been notified, by solicitors acting for a number of residents, of potential claims against them for damages arising from the improvements carried out by the Commissioners to premises in Ufford street, Mitre road and Webber street. This matter is the subject of potential litigation and it is therefore inappropriate for the Commissioners to make disclosure of documents outside the legal process. The Commissioners would not rule out making disclosure without a court order and without any admission of liability if the solicitors for the residents properly formulate their claims.

PRIME MINISTER

"A Day in the Life"

Mr. Crabb: To ask the Prime Minister whether the costs of A Day in the Life were met from Labour party or from Government funds. [44273]

The Prime Minister: I refer the hon. Member to the answer I gave the hon. Member for Hemel Hempstead (Mike Penning) on 12 January 2006, *Official Report*, column 742W.

Mr. Crabb: To ask the Prime Minister whether his office sought guidance from *(a)* the Cabinet Secretary and *(b)* others as to whether A Day in the Life complied with (i) the Ministerial Code of Conduct and (ii) Government Communications Network guidance. [44274]

The Prime Minister: The film complies with Government Communications guidance, copies of which are available at http: //www.comms.gov.uk/guidance/propriety/default.htm.

Audible Fire Alarms

Bob Spink: To ask the Prime Minister what proportion of the premises occupied by his office is fitted with audible fire alarms. [42874]

The Prime Minister: For these purposes my office forms part of the Cabinet Office. I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Mr. Murphy) on 18 January 2006, *Official Report*, column 1414W.

Departmental Expenditure

Pete Wishart: To ask the Prime Minister what the annual expenditure on vehicles by his office has been in each of the last three years; and what the planned expenditure is for 2005–06. [40267]

The Prime Minister: For these purposes my office forms part of the Cabinet Office. I have therefore asked my hon. Friend the Parliamentary Secretary for the Cabinet Office (Mr. Murphy) to reply. A copy of the reply will be placed in the Library of the House.

Diary Commitments

Mr. Crabb: To ask the Prime Minister if he will list his diary commitments for *(a)* Monday 2 January and *(b)* Tuesday 3 January. [44275]

The Prime Minister: As my office made public at the time, I was on a short holiday over the Christmas recess. On Tuesday 3 January I met with ministerial colleagues and others.

Political Honours

Mr. Meacher: To ask the Prime Minister why he abolished the political honours scrutiny committee. [44550]

The Prime Minister: I refer my right hon. Friend to recommendation 10 of "Reform of the Honours System" (cm 6479). Copies are available in the Libraries of the House.

Working Hours

Mike Penning: To ask the Prime Minister what EU regulations govern his working hours; what opt outs exist to provide for him to surpass working hour

regulations; what court cases are currently before the European courts reviewing the legality of these opt outs; and if he will make a statement. [43426]

The Prime Minister: Holders of political offices in the UK are not defined as "workers" under the terms of European working time legislation, and are therefore not subject to the working time limits: as such, they do not need to opt out.

DEFENCE

Security

10. **Mr. Randall:** To ask the Secretary of State for Defence, if he will make a statement on the security situation in the Balkans. [44077]

Mr. Ingram: The security situation in Bosnia and Herzegovina remains stable; the EU led operation continues to deter, to reassure and to provide a safe and secure environment. In Kosovo the security situation remains stable following the commencement of the final status process; NATO's Kosovo Force continues to provide a safe and secure environment.

Visits (RAF Cosford)

11. **Rob Marris:** To ask the Secretary of State for Defence, how often he has visited RAF Cosford to assess training facilities during the last 12 months. [44078]

Mr. Touhig: My right hon. Friend the former Secretary of State for Defence, Geoff Hoon, was the last Defence Minister to visit the Defence College of Aeronautical Engineering at Cosford, on 24 February 2005.

Security (Afghanistan)

12. **Mr. Simon:** To ask the Secretary of State for Defence, if he will make a statement on the security situation in Afghanistan. [44079]

John Reid: The international community, including the UK, is in Afghanistan: to support the Government of Afghanistan as it extends its authority across the entire country; to facilitate reconstruction and development; to improve security; and to counter the narcotics trade. We have made progress on all these things but much remains for us to do. The security situation remains fragile, which is why we remain committed to the expansion of the International Security Assistance Force across Afghanistan.

Veterans Awareness Week

13. **Laura Moffatt:** To ask the Secretary of State for Defence, what representations has he received from the ex-service community about the Veterans Awareness Week in July 2005. [44080]

Mr. Touhig: I have received many positive comments from the ex-Service community during and after Veterans Awareness Week, and I am sure hon. Members will agree that the events, which culminated with the parade of standards along the Mall, were truly memorable.

British Infantry

14. **Stephen Hammond:** To ask the Secretary of State for Defence, what assessment he has made of the adequacy and availability of British infantry to fulfil additional urgent deployments. [44081]

Mr. Ingram: Our plans ensure that we have forces of appropriately high readiness, including the Infantry, in place to meet urgent contingent operations.

Military Equipment (Complaints)

15. **Andrew Rosindell:** To ask the Secretary of State for Defence, if he will make a statement on the complaints by troops concerning military equipment in Iraq and Afghanistan. [44082]

Mr. Ingram: Our troops are among the best in the world at what they do and I am determined that they should continue to receive the equipment they need to carry out the tasks they are given.

In general, our equipment continues to perform well in extremely demanding environments and the number of complaints we receive from troops reflects this. Learning from experience is a vital element in achieving this aim. This is why there is an established system for collating information about the performance of military equipment on operations. This provides valuable feedback from the front line enabling rapid action to be taken to correct defects and to improve reliability.

Iraq

16. **Bob Spink:** To ask the Secretary of State for Defence, if he will make a statement on the training the UK is giving to Iraqi security forces. [44083]

John Reid: The United Kingdom is engaged in a number of training initiatives with the Iraqi security forces in Multi National Division (South East) and in Baghdad to enable the Iraqi Government to progressively take on responsibility for security.

18. **Mr. Rob Wilson:** To ask the Secretary of State for Defence, how many mobilised reservists are deployed in Iraq in each of the three services. [44085]

John Reid: There are currently around 700 reservists deployed in Iraq. This figure comprises: over 650 Army reserves; 28 Royal Air Force reserves; and 20 Royal Marine reserves.

19. **Mr. Ingram:** To ask the Secretary of State for Defence, if he will make a statement on the location of new regimental headquarters. [44086]

Mr. Ingram: As the hon. Member may be aware, there is an ongoing study into the future of infantry regimental headquarters. It is too early to speculate on what the outcomes of this review will be, but we expect to make a decision in the spring.

Mr. Kemp: To ask the Secretary of State for Defence pursuant to the answer of 19 December 2005, *Official Report*, column 2342W, on Iraq, what are the names of the individuals suspected of being responsible for the deaths of the six members of the Royal military police. [44128]

Mr. Ingram: It would be inappropriate to provide this information. The release of such information could prejudice the central criminal court of Iraq's ongoing investigation.

Mr. Ancram: To ask the Secretary of State for Defence how many neurologists were employed by his Department in 2003; and how many were deployed with Operation Telic. [44218]

Mr. Touhig: In 2003, two neurologists were members of our Reserve Forces, one of whom was deployed as part of a neurosurgical team from 1 March to 18 May 2003.

Jeremy Corbyn: To ask the Secretary of State for Defence what studies have been undertaken by his Department of the effects of depleted uranium on *(a)* Coalition forces, *(b)* Iraqi forces and *(c)* civilians in Iraq since May 2003; and if he will make a statement. [44461]

Mr. Ingram: Information on the Ministry of Defence Depleted Uranium research programme was announced to the House on 14 March 2002, *Official Report*, columns 1179–80W. A more detailed description of the research has been published on the Departmental website (http://www.mod.uk/issues/depleted_uranium/index.htm). In addition to this, in June 2003, MOD scientists completed a preliminary technical assessment of a number of Iraqi tanks thought to have been struck by DU rounds. Very low levels of DU were found in the vicinity of and on the tanks. I refer my hon. Friend to the answer given in another place by my noble Friend the then Parliamentary Under-Secretary for Defence (Lord Bach) on 26 May 2004, *Official Report*, column 196WA. Biological monitoring has also been carried out on several hundred UK troops and civilians involved in operations in Iraq. No DU was detected in anyone other than a small number of personnel who received shrapnel injuries in an incident involving friendly fire.

This research is not specifically directed at examining the effects on Iraqis as the health of the Iraqi people is primarily the responsibility of their Government. However, as announced in the House on 29 January 2001, *Official Report*, column 61W, in relation to operations in the Balkans, the UK will provide help and advice to assist the relevant authorities to decide what action, if any, is needed. This also applies to Iraq. As part of this commitment, MOD has provided United Nations Environment Programme with information on its use of DU munitions in Iraq in 2003 and with a report of its monitoring activities in June 2003.

Defence Training

20. **Mr. McFadden:** To ask the Secretary of State for Defence, what recent representations he has received on the future of defence training; and if he will make a statement. (44087)

Mr. Touhig: The Defence Training Review is a complex programme with many stakeholders and interested parties. I have received many representations but as I have said in previous replies, a rigorous evaluation of bid proposals is currently under way.

Landing Ships Dock (Auxiliary) Project

21. **Philip Davies:** To ask the Secretary of State for Defence, what recent progress there has been on the Landing Ships Dock (Auxiliary) project; and if he will make a statement. [44088]

Mr. Ingram: The Landing Ship Dock (Auxiliary) project continues to make progress towards the completion of the four bay class vessels. RFA Mounts Bay, the first ship built by BAE Systems in Glasgow, was accepted off contract on 15 December 2005 and is now undergoing her capability trials in readiness for meeting her in-service date in late 2006. Build and testing continues on the remaining three ships.

Joint Combat Aircraft Project

22. **Mr. Jack:** To ask the Secretary of State for Defence, when he last discussed the UK's participation in the joint combat aircraft project with his US counterpart. [44089]

Mr. Ingram: Regular discussions take place at all levels with the US Administration on all aspects of the joint combat aircraft project. Ministry of Defence and other Ministers continue to raise project issues during their discussions with key members of the US Administration.

Future Aircraft Carriers

23. **Mr. Quentin Davies:** To ask the Secretary of State for Defence if he will make a statement on the new aircraft carrier programme. [44090]

Mr. Ingram: As my right hon. Friend the Secretary of State for Defence announced on 14 December, we have taken major steps forward in our plans for the Future Aircraft Carriers.

We have completed the detailed assessment work and have committed to the £300 million demonstration phase.

An innovative shipbuilding strategy has been agreed which is central to our Defence Industrial Strategy with separate "super blocks" built at four yards and final assembly at Rosyth.

This will create and sustain some 10,000 jobs in the United Kingdom.

We are on course to provide the UK armed forces with the largest and most powerful warships ever constructed in the UK, and an expeditionary capability unparalleled outside of the US.

Mr. Sanders: To ask the Secretary of State for Defence when he expects orders to be placed for the two CVF aircraft carriers; and if he will make a statement. [43632]

Mr. Ingram: Plans to acquire two new future aircraft carriers (CVF) are progressing well following the transition into the Demonstration Phase announced on 14 December 2005. The Demonstration Phase will deliver a mature design, provide more detailed cost definition, reduce risk and produce a contractual framework that will allow a decision to be made to commit to manufacture.

Surplus Equipment

24. **Mr. Quentin Davies:** To ask the Secretary of State for Defence if he will make a statement on controls over the end use of surplus military equipment sold by his Department. [44091]

Mr. Ingram: Surplus equipment that is considered to have potential further use in a military application is subject to inter-departmental clearance procedures on security, political, industrial and technological grounds including consideration of the end use where sold to other Governments. All sales agreements with other Governments make specific provision for Her Majesty's Government to approve any subsequent transfer or sale.

For sales into the commercial market, once title has transferred, there is no restriction placed upon subsequent transfer or sale provided the buyer complies with all the requirements of the export licensing regime should it be decided to export from the UK.

We routinely demilitarise the most sensitive military equipment and dispose as waste or recycle equipment that cannot be sold for further use.

Falklands Campaign (Commemoration)

25. **Mr. Hoyle:** To ask the Secretary of State for Defence what plans the Government have to mark the anniversary of the Falklands war. [44092]

Mr. Touhig: Officials are working with the South Atlantic Medal Association 1982 and other representatives of the veterans of the Falklands campaign to develop plans for commemoration of the 25th anniversary. The main event will be in London on Sunday 17 June 2007. I will announce details in the near future.

Cadet Forces

Mr. Paul Murphy: To ask the Secretary of State for Defence what support his Department gives to cadet forces. [44491]

Mr. Touhig: The Ministry of Defence provides direct funding to the individual services to allow their respective cadet forces to offer a vast range of personal development and educational opportunities for youngsters and, with their nationwide reach, acts as a genuine force for good both for the youngsters who join as well as for the communities in which they live. In addition the services provide significant benefit in kind to support cadet training activities; primarily the use of training facilities but also material and limited manpower resources.

Co-operative Engagement Capability

Mr. Hancock: To ask the Secretary of State for Defence pursuant to his answer of 20 December 2005, *Official Report*, column 2759W, on co-operative engagement capability, which capabilities over and above those originally planned for the first class Type-45 destroyers are not currently expected to be fitted to the class in addition to the enhanced electronic warfare capabilities; and if he will make a statement. [43879]

Mr. Ingram: Most of the capability originally planned to be fitted to the Type 45 through the incremental acquisition plan relates to upgrades in software to enhance elements of the ship's combat system. It is not possible to provide any more specific details as to what these capabilities are as to do so could prejudice the protection of national sovereignty against internal or external threats.

DCAE Cosford

Mr. McFadden: To ask the Secretary of State for Defence what assessment his Department has made of the potential impact *(a)* closure and *(b)* downsizing of DCAE Cosford may have on the (i) Shropshire and (ii) West Midlands economies. [38990]

Mr. Touhig: The Defence Training Review is currently evaluating the bidding consortia's proposals. Until this phase is complete and a decision has been taken to select a preferred training partner, I am not in a position to make any detailed comment on the potential impact on any site or region of the United Kingdom.

Defence Training Review

Mr. Ian Austin: To ask the Secretary of State for Defence what assessment his Department has made of the locations of *(a)* population centres, *(b)* labour markets, *(c)* higher education institutions and *(d)* aerospace companies in choosing locations as part of the Defence Training Review. [40394]

Mr. Touhig: The procurement strategy of the Defence Training Review (DTR) Programme has required bidders to select training sites as part of their responses to the Invitations to Negotiate. This has been essential to ensure an integrated training and estates solution which delivers value for money. A comprehensive and rigorous evaluation of the bidding consortia's proposals is under way judged against defined evaluation criteria. Before a decision is reached on the preferred bidder, a Regional Socio-Economic Report will also be undertaken to assess the broader impact of the DTR Programme on the surrounding regions. This will not be concluded until the summer 2006.

Mr. Ian Austin: To ask the Secretary of State for Defence (1) what assessment he has made of the potential impact of the Defence Training Review on the aerospace industry in the West Midlands; [40396]

(2) what criteria he included in the Defence Training Review to ensure that its proposals will take account of the potential impact on businesses in the aerospace and engineering sectors. [40424]

Mr. Touhig: The Defence Training Review (DTR) Programme is conducting a comprehensive and rigorous evaluation of the bidding consortia's proposals against defined evaluation criteria. As part of the MOD's wider assessment process a Regional Socio-Economic Report will be undertaken to assess the broader impact of the DTR Programme on the surrounding region and its economy. Until the evaluation phase is complete and a decision has been taken to select a preferred training partner, currently expected in summer 2006, I am not in a position to make any detailed comment on the wider impact of the DTR solution.

Electoral Administration

Mr. Tyrie: To ask the Secretary of State for Defence (1) if he will publish the questionnaire for the survey to establish the level of voter registration among service personnel; and when he will publish the findings of the survey; [43612]

(2) which agency or organisation within his Department was responsible for *(a)* devising and *(b)* carrying out the survey to establish the level of voter registration among service personnel; [43642]

(3) which Minister within his Department is responsible for the survey to establish the level of voter registration among service personnel; [43643]

(4) where the survey to establish the level of voter registration among service personnel was carried out, broken down by *(a)* service, *(b)* unit and *(c)* base; what the sample size was; and over what period the survey was carried out; [43644]

(5) what estimate he has made of the likely response rate to the survey to establish the level of voter registration among service personnel; and what adjustment he will make to the findings of the survey to allow for non-responses. [43645]

Mr. Touhig: The survey to establish the level of voter registration among Service personnel has been planned in conjunction with the Electoral Commission. The Defence Analytical Services Agency (DASA) devised the sampling strategy and is carrying out the survey. The questionnaire was despatched during the second week of December to 8,849 randomly selected service personnel, UK based and abroad, across all ranks and services. Responses are due for return by 3 February 2006.

The survey has been designed to produce results accurate to 5 per cent. for each service by officers and other ranks, and by posting in the UK or overseas, assuming a response rate of 45 per cent. Where response rates vary by groups, for example other ranks posted overseas, results will be weighted to ensure results are representative. As the Minister responsible for the survey, I intend that the results will be published and hope to be able to do so by the end of March 2006. Meanwhile, I am placing a copy of the questionnaire in the Library of the House.

Equal Opportunity Advisers

Mrs. Humble: To ask the Secretary of State for Defence what his estimate is of the number of unit equal opportunity advisers in each of the armed forces. [38598]

Mr. Touhig: Although 5,714 members of the armed forces have been trained as unit equal opportunities advisers no information is held centrally on the number of these personnel currently acting in this capacity.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the future role in Gibraltar of the *(a)* RAF, *(b)* Royal Navy, *(c)* Army, *(d)* the Department's Gibraltarian workforce, *(e)* Navy, Army and Airforce Institution, *(f)* Department Hospital and *(g)* Department's schools. [44147]

Mr. Ingram: There are no plans to change Gibraltar's current military role, which centres on providing a forward mounting base and other facilities to support overseas operations. This role will be kept under regular review.

An Infrastructure Service Provider (ISP) is to be introduced covering a number of facilities management functions. Introduction of the ISP will be based on a fair and open competition, which includes consideration of an in-house option. Efficiency measures will be achieved without reduction in output. These are essential to safeguard the Ministry of Defence's long-term commitment to Gibraltar.

The Navy, Army and Airforce Institution (NAAFI) facility in Gibraltar, providing a range of retail services comparable with those at other overseas stations where UK armed forces and their families are based, is located at Devil's Tower Camp. It is NAAFI's intent to open an additional facility at Europa Point in the near future.

An Integrated Healthcare Facility at Devil's Tower Camp will replace the Royal Naval Hospital (RNH) and the Joint Medical Centre and Dental Unit (JMDU). This project is on schedule to open in November 2007, at which point the RNH and JMDU sites will be handed over to the Government of Gibraltar.

Improvements are being made to the internal condition of St. Christopher School, and a programme is under way to develop management at the school.

QinetiQ

Mr. Hancock: To ask the Secretary of State for Defence if he will make it his policy to seek parliamentary approval before sale of the 'golden share' in QinetiQ and if he will make a statement. [43869]

John Reid: The Special (or Golden) Share that MOD presently holds in QinetiQ will be retained after the flotation of the company, to protect UK defence and security interests, as currently. There are no plans to relinquish the Special Share, even after any subsequent sell-down of the remainder of the Government's shareholding in QinetiQ, although this will be kept under review. If in the future there were any such plans, Ministers would anticipate informing Parliament.

RAF Leeming

Miss McIntosh: To ask the Secretary of State for Defence if he will make a statement on the future of RAF Leeming. [44499]

Mr. Ingram: As stated in my written ministerial statement of 17 January 2006, *Official Report*, column 25WS, I have decided, subject to trade unions consultation, that the RAF communications hub will be formed at RAF Leeming. This means that communications personnel would move from RAF Sealand to RAF Leeming by April 2006. Communications personnel from RAF Brize Norton and RAF High Wycombe would move to RAF Leeming in 2007.

Royal Ordnance

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the future of security

of supply of *(a)* boxer caps, *(b)* initiators and *(c)* detonators; and which countries he expects to supply his Department via BAE Systems contracts if Royal Ordnance Chorley is closed. [43904]

Mr. Ingram: BAE Systems Land Systems will remain responsible for the security of supply of products previously manufactured at Chorley. Decisions on alternate sources are a commercial matter for the company.

Mr. Hoyle: To ask the Secretary of State for Defence which suppliers to his Department are being considered to replace Royal Ordnance Chorley. [43617]

Mr. Ingram *[holding answer 19 January 2006]:* BAE Systems Land Systems will remain responsible for the security of supply of products previously manufactured at Chorley. Decisions on alternate sources are a commercial matter for the company.

Mr. Hoyle: To ask the Secretary of State for Defence what assessment the Munitions Corporate Business Unit has made of the proposed cessation of manufacturing at Royal Ordnance Chorley. [43619]

Mr. Ingram *[holding answer 19 January 2006]:* The Ministry of Defence are fully engaged with BAES Land Systems and a joint team has been formed to oversee the cessation of manufacturing. We remain confident that risks are being effectively managed and the company's plans are realistic and workable.

Territorial Army

Ann Winterton: To ask the Secretary of State for Defence when he expects to extend the three-year period for a 12-months mobilisation to five years for Territorial Army personnel. [43685]

Mr. Touhig: There are no plans to make any orders under the Reserve Forces Act 1996 to extend the obligatory periods of mobilised service set out in that Act. It is our policy intention that reservists should only be mobilised compulsorily for a total of up to one year in any five except where no viable alternative exists.

Ann Winterton: To ask the Secretary of State for Defence what length of time Territorial Army personnel have to be on continuous overseas duty before they are exempted from income tax. [43673]

Mr. Touhig: Territorial Army personnel, like all Crown Servants, are not exempt from paying income tax when they are on overseas duty.

Training and Evaluation Capabilities

Dr. Fox: To ask the Secretary of State for Defence when the next routine five-yearly review of long-term partnership agreements on capabilities in training and evaluation will take place. [44173]

Mr. Ingram: The first quinquennial review of the Long Term Partnering Agreement between the Ministry of Defence and QinetiQ for the provision of Test, Evaluation and Training Services is due to complete by April 2008. Initial planning and scoping of the necessary workstreams is already under way.

Veterans' Badges

Mr. Paul Murphy: To ask the Secretary of State for Defence who is eligible to apply for the UK armed forces veterans' badge. [44490]

Mr. Touhig: The armed forces veterans' badge will be issued to all service veterans. To cope with demand, eligibility to apply for the badge has been extended to veterans in tranches. Currently those eligible to apply include men and women who served in HM armed forces up to and including 31 December 1954.

Merchant seamen, Polish forces under United Kingdom command, the Cyprus Regiment and the Home Guard are also eligible to receive the badge. Widow(ers) whose spouse died from an injury or illness attributable to their service and who are in receipt of a war widow(ers) pension are also eligible to apply for the armed forces veteran's badge.

For a one-year trial period from February 2005, those currently leaving the armed forces have also been eligible. This arrangement will be reviewed shortly.

TRANSPORT

A418/A413

John Bercow: To ask the Secretary of State for Transport (1) if he will make a statement on the timetable for the *(a)* A418 Wing bypass and *(b)* A413 Wendover Road corridor improvements; [43307]

(2) if he will make a statement on his policy on a bypass for Bierton in Buckinghamshire. [43309]

Ms Buck: These relate to improvements on local roads, and as such are matters for Buckinghamshire county council to bring forward within their local transport plan.

Local road schemes costing more than £5 million are subject to prioritisation within the regional funding allocation, on the basis of advice from the region.

Administration Costs

Mr. MacNeil: To ask the Secretary of State for Transport what the administrative costs were of each agency for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [39846]

Ms Buck: The total administrative costs reported by each agency of the Department for 2004–05 are set out in the following table.

Agency	*Administrative costs 2004–05 (£000)*
Driving Standards Agency	129,571
Driver and Vehicle Licensing Agency	404,070
Vehicle and Operator Services Agency	136,298
Vehicle Certification Agency	2,174
Highways Agency	94,823
Maritime and Coastguard Agency	65,964
Total	832,900

Administrative costs include staff, accommodation and other operating costs, including depreciation and other non-cash charges where appropriate. Fuller information on the income and expenditure of each agency is published in its Annual Report and Accounts, which is available in the Library of the House.

With the exception of the Maritime and Coastguard Agency (MCA), net expenditure of the agencies is 'identifiable' for the purposes of the Public Expenditure Statistical Analyses (PESA) published by the Treasury. MCA net expenditure is deemed to be non-identifiable and is considered to benefit the UK as a whole.

Alstom Rail Test Track

Tom Brake: To ask the Secretary of State for Transport what discussions his Department has held with *(a)* Network Rail, *(b)* the Association of Train Operating Companies and *(c)* Alstom about the impact of the closure of the Alstom rail test track on (i) jobs and (ii) engineering capacity in the UK. [41057]

Derek Twigg: The Department has held informal discussions with Network Rail and the Association of Train Operating Companies about the implications for UK railway testing capability of Alstom's announcement of its intention to surrender its lease of the Asfordby/Old Dalby test track. Alstom's announcement was not preceded by discussions with the Department. BRB Residuary Ltd. has subsequently asked Alstom to clarify its intentions so that the future of the facility can be considered.

Aylesbury Southern Link Road

John Bercow: To ask the Secretary of State for Transport if he will make a statement on the proposed Aylesbury southern link road. [43308]

Ms Buck: There are currently no proposals for an Aylesbury southern relief road before the Secretary of State. I am aware that local authorities in the Milton Keynes and South Midlands area submitted sub-regional studies to the South East England Regional Assembly on proposals for delivering housing growth, including infrastructure to support new developments. This scheme was included in the information supplied by the Buckinghamshire and Milton Keynes authorities. It is for the Regional Assembly to consider the study's recommendations as they develop the South East Plan.

Bus Companies

Mr. Graham Stuart: To ask the Secretary of State for Transport how many bus companies were in existence in each of the last five years. [44250]

Ms Buck: Information relating specifically to bus companies is not held centrally. The following table relates to the number of Public Service Vehicle Operator's licences (which are required by any bus or coach operator) in issue for the last five years:

	2000–01	*2001–02*	*2002–03*	*2003–04*	*2004–05*[1]
Special restricted	146	120	128	126	112
Restricted	2,373	2,303	2,107	2,701	2,986
Standard	2,865	2,837	2,663	3,029	3,065
Standard international	2,780	2,672	2,540	2,647	2,563
Total	8,164	7,932	7,438	8,403	8,726

[1] Provisional

A Public Service Operator licence is generally required to carry passengers for hire or reward in vehicles adapted to carry nine or more passengers, and smaller vehicles in some circumstances.

There are four types of Public Service Vehicle Operator's licence. The special restricted licence is only available to Hackney Carriage operators who wish to use their taxis to operate a registered local bus service. The restricted licence only allows the operation of a maximum of two vehicles up to 16 seats. There are no restrictions on the number or size of vehicles for the other two types of licence which are, essentially, those used by bus and coach operators.

Currently there are approximately 1,700 PSV licence holders claiming Bus Service Operators Grant, which is a rebate on the fuel duty paid by the operator for the fuel used while operating a local bus service.

Mr. Graham Stuart: To ask the Secretary of State for Transport what recent assessment he has made of the impact of fuel duty on local bus operators. [44249]

Ms Buck: Operators of local bus services are entitled to claim Bus Service Operators Grant (BSOG) from this Department. In general this grant is equivalent to 80 per cent. of the duty paid on the fuel used in operating services (the percentage of duty reimbursed is higher for gas used as a road fuel and bio-diesel).

The rate of BSOG is kept under regular review.

Policy on fuel duty is of course a matter for HM Treasury and HM Revenue and Customs.

Concessionary Travel

Annette Brooke: To ask the Secretary of State for Transport whether a senior citizen will be eligible for free travel in an area where he *(a)* is not a council taxpayer and *(b)* has a second home under new proposals for concessionary travel. [44626]

Ms Buck: In such cases, it is at the local authority's discretion.

Cycling England

Dr. Kumar: To ask the Secretary of State for Transport what the Department's funding to Cycling England is for each of the next three years. [43296]

Derek Twigg: The Department has provided Cycling England with a budget of £5 million per year for the three financial years from 2005–06.

Executive Agencies

Anne Main: To ask the Secretary of State for Transport what *(a)* targets, *(b)* advice and *(c)* guidance his Department has given to executive agencies that fall under the remit of his Department on the reorganisation of their administrative functions on a regional basis; and if he will make a statement. [41648]

Ms Buck: Agency key targets are set annually and agreed with the Department and Ministers, taking into account wider government objectives and priorities. Since its formation on 29 May 2002, the central Department has set no specific targets and offered no specific advice or guidance to the executive agencies on the subject of reorganisation of their administrative functions on a regional basis.

Identity Fraud

Mike Penning: To ask the Secretary of State for Transport what training his Department has provided for *(a)* front desk and *(b)* administrative staff in relation to identity fraud. [41411]

Ms Buck: The Department is fully committed to reducing identity fraud and provides training for staff where it is required as part of their role. Such training is provided through specific courses, as part of general job specific training, or through mentoring.

Night Flying Restrictions

Chris Grayling: To ask the Secretary of State for Transport whether it is his policy to allow the overall number of night flights into and out of Heathrow airport to increase. [43185]

Ms Buck: We have published a consultation paper, "Night Flying Restrictions at Heathrow, Gatwick and Stansted Airports, Stage 2. of Consultation on Restrictions to apply from 30 October 2005". This invited views on proposals for future night flight restrictions. We are considering responses to that consultation and will announce our decisions in due course.

Predictive Dialling

John Hemming: To ask the Secretary of State for Transport pursuant to the answer of 19 December 2005, *Official Report*, column 2315W, on predictive diallers, whether his Department makes calls using predictive dialling technology to groups other than members of the public. [43737]

Ms Buck: The Department for Transport does not use predictive dialling technology.

Public Transport

John Bercow: To ask the Secretary of State for Transport what assessment he has made of the merits of a public transport *(a)* hub and *(b)* corridor for Aylesbury; and if he will make a statement. [43310]

Ms Buck: A public transport hub proposal for Aylesbury was provisionally approved for Community Infrastructure Fund (CIF) bid funding in March 2005. Ministers are expecting to announce the final decision on this shortly, as well as on other transport CIF proposals in Aylesbury.

Mr. Graham Stuart: To ask the Secretary of State for Transport how much has been spent on subsidies for *(a)* rail and *(b)* bus travel in East Yorkshire in each of the last five years. [44248]

Ms Buck: Rail services in East Yorkshire are supplied as part of four rail franchises with wider geographical boundaries than the county. Subsidies cannot be identified to a particular region.

Information on subsidies for local bus services is not available for East Yorkshire. However, figures are available for the East Riding of Yorkshire unitary authority. Expenditure by the authority on support of bus services is shown in the table (this includes expenditure funded by the Department's Rural Bus Subsidy Grant.)

	Bus subsidy (£000)
2000–01	2,196
2001–02	2,748
2002–03	3,029
2003–04	3,151
2004–05	3,511

John Bercow: To ask the Secretary of State for Transport (1) what his policy is on the proposed new *(a)* railway station and *(b)* park and ride scheme at Stoke Mandeville; [43294]

(2) what his policy is on park and ride schemes for *(a)* Weedon Hill and *(b)* Aston Clinton. [43303]

Ms Buck: The Community Infrastructure Fund (CIF) proposal for Aylesbury Parkway rail station to the north of Aylesbury includes a park and ride scheme. This was provisionally approved in March 2005 for CIF funding. Ministers are expecting to announce the final decision on this shortly, as well as on other CIF proposals in Aylesbury.

A park and ride scheme at Stoke Mandeville is included in a list of schemes recently proposed by Milton Keynes and Buckinghamshire local authorities for inclusion in the South East Plan. It is now for the South East Regional Assembly to consider this proposal as they develop the South East Plan.

New park and ride schemes at Weedon Hill and Aston Clinton are not identified as major schemes in the Buckinghamshire county council's provisional local transport plan. Any such proposals are for the local authority to consider and develop as appropriate.

Mr. Holloway: To ask the Secretary of State for Transport how much money has been spent on improvements in transport infrastructure in Gravesham since 1997. [43275]

Ms Buck: Since the introduction of Local Transport Plans in 2000, Kent county council has received around £160 million for local transport improvements and maintenance schemes. In addition the county council has £16 million for the Kent Fasttrack public transport scheme.

Between 1997 and 2000 the county council received approximately £159 million for local transport capital investment. £16 million was provided for the South Thames-side Development Route Section 4 (some of which is included in the £159 million). The Department does not have the data to identify a figure for all local transport investment in Gravesham.

The Highways Agency's improvements have included the widening of the A2 between Bean and Cobham Phase One, costing £23 million. This work was completed in 2005.

Kent has benefited from the new trains and associated power supply and depot upgrades delivered as part of the Mark 1 "slam door" stock replacement programme, the total value of the investment (benefiting Kent and other parts of London and the South East) being in the region of £2 billion.

The Gravesham constituency has also benefited from the £4.6 billion Channel Tunnel Rail Link project, which includes a major new station within Gravesham constituency at Ebbsfleet, which will be served by international trains to Paris and Brussels from 2007 and high speed domestic trains to St. Pancras from 2009 (journey time Ebbsfleet to St. Pancras 16 minutes).

Mr. Holloway: To ask the Secretary of State for Transport what steps he is taking to improve access to public transport for disabled people in Gravesham. [43276]

Ms Buck: We have introduced "accessibility planning" into the local transport planning process to encourage local authorities and other agencies to assess more systematically whether people can access transport services in their areas. This process covers all forms of transport from buses, coaches and taxis to cycling and walking networks. Making provision for disabled people is a condition against which the resulting Local Transport Plans (LTPs) are assessed.

At a local level, we are supporting the continued introduction of low floor buses in Gravesham. The Kickstart project (services 495/498 between Kings Farm, Christianfields, Gravesend Town Centre, Pepper Hill and Bluewater), launched in March 2005, introduced low floor single deck buses to the route replacing minibuses which were inaccessible to wheelchair users. The introduction of the new vehicles was combined with a programme of work to introduce raised kerbs and bus boarders on this route.

The Department continues to invest in accessibility improvements in Gravesham through LTP funding. Kent county council, Gravesham's local bus provider, Arriva and the Gravesham Access Group (which represents disabled people in the district) work in close partnership to identify priorities for funding. This includes identifying stops which require raised kerbing, dropped kerbs or hard standing.

LTP funding has also resulted in a £14.5 million investment in Fastrack, the new bus based transit system serving Gravesend, which will have fully accessible vehicles and roadside infrastructure designed in accordance with current best practice. Due to commence in March 2006, Fastrack will have bus boarders at all Gravesham stops to complement the fleet of new low-floor vehicles, providing level access for all passengers. All Fastrack stops will also be fitted with real time information displays.

Arriva estimates that at present over 70 per cent. of their Gravesham buses are low floor. They also endeavour to ensure that all staff receive disability awareness training.

Rail services in Gravesham are also generally accessible, a situation that will be enhanced with the completion of Ebbsfleet station. When opened, this station will offer high standards of accessibility and will be served by trains which meet the Rail Vehicle Accessibility Regulations 1998 (RVAR) operating on the Integrated Kent Franchise. This will provide fast access to Stratford International and London St. Pancras stations (both of which will be fully accessible) and also south to Ashford International together with access to 'Eurostar' services to Belgium and France. The new station will have ample parking including convenient spaces reserved for disabled passengers.

More generally disabled people in Gravesham, as elsewhere in the country, will also benefit from the provisions in the Disability Discrimination Act 2005 (DDA 2005). We have already laid regulations which will, from 4 December 2006, lift the transport exemption in Part 3 of the Act for land-based public transport, vehicle hire, breakdown services and vehicles used on leisure and tourism transport services. We will also be consulting shortly on draft regulations to set an "end date" of no later than 1 January 2020 when all trains will have to meet RVAR and to apply those regulations to older trains when they are refurbished.

Rail Modernisation Fund

Stephen Hammond: To ask the Secretary of State for Transport how much of the Rail Modernisation Fund had been spent at the end of the financial year 2004–05. [40860]

Derek Twigg: We have invested some £7.7 billion between 2001–05 and plan to invest some £19 billion further by 2009.

Road Building (Lancashire)

Geraldine Smith: To ask the Secretary of State for Transport what advice the Environment Agency has offered to Lancashire county council regarding *(a)* the Heysham M6 link and *(b)* the proposed bridge over the River Lune at Halton. [44657]

Dr. Ladyman: The Environment Agency is commissioned by Lancashire county council to advise on the Heysham-M6 Link Road scheme. Lancashire county council has been having ongoing discussions with the agency about all environmental aspects of the Heysham-M6 Link scheme. The design of the proposed bridge over the River Lune at Halton has been amended in accordance with advice from the agency.

Road Safety

Mr. Malins: To ask the Secretary of State for Transport what proportion of fatal road traffic

accidents were assessed as being wholly or in part attributable to the consumption of illegal drugs by drivers in each of the last five years. [44638]

Dr. Ladyman: Estimates of fatalities in road accidents where the use of legal or illegal drugs by drivers was a contributory factor are not available, because routine accident reports do not currently record such factors. However under a pilot scheme, information on contributory factors to road accidents has been collected by 15 police forces. The use of legal or illegal drugs by drivers was considered a contributory factor in about 3 per cent. of fatal accidents recorded under this pilot scheme from 2000 to 2004.

Strategic Health Authority Staff

Mrs. May: To ask the Secretary of State for Transport how many former Strategic Health Authority staff have been redeployed to *(a)* Network Rail, *(b)* the Office of the Rail Regulator, *(c)* other Government bodies and *(d)* his Department; and how many have been made redundant. [43035]

Derek Twigg: 14 staff of the Strategic Rail Authority have transferred to Network Rail, four to the Office of Rail Regulation and 171 to the Department for Transport. As at 31 January 2006, 139 will have been made redundant. Figures are not available in respect of staff moving to other Government bodies.

Tram Schemes

Greg Mulholland: To ask the Secretary of State for Transport how much direct Government funding has been allocated to proposed tram schemes in *(a)* Merseyside, *(b)* Manchester and *(c)* West Yorkshire; and what meetings he has attended where schemes were discussed in the past 10 months. [37885]

Derek Twigg *[holding answer 15 December 2005]:* I refer the hon. Member to my Statement to the House on 29 November 2005, *Official Report*, column 17WS, about Merseytram, and the Secretary of State's Statement on 3 November 2005, *Official Report*, column 60WS, about Leeds Supertram. These Statements made clear that funding was no longer available for these schemes.

I also refer the hon. Member to the Secretary of State for Transport's Statement on 16 December 2004, *Official Report*, column 152WS, about Manchester Metrolink, which confirmed that £520 million public funding would be made available to deal with transport problems in areas covered by Phase III. The £520 million budget included an up-front local contribution of £60 million, and £70 million to be recouped through deductions of £7 million per annum from Greater Manchester Passenger Transport Executive's Local Transport Plan allocations, for 10 years.

The Secretary of State has attended frequent meetings with ministerial colleagues and officials to discuss a whole range of departmental policies.

Transport 2010 Document

Stephen Hammond: To ask the Secretary of State for Transport what progress has been made towards meeting the targets in the Transport 2010 plan for *(a)* increased rail passenger kilometres and *(b)* increased rail freight. [40857]

Derek Twigg: Annual passenger rail use has increased from 38.2 billion passenger kilometres in April 2001 to 42.4 billion passenger kilometres at the end of March 2005. This represents an increase of 11 per cent.

The amount of rail freight has increased from 18.1 billion net tonne kilometres in 2000–01 to 20.6 billion net tonne kilometres in 2004–05. This is an increase of almost 14 per cent.

Tyne and Wear Metro

Jim Cousins: To ask the Secretary of State for Transport how the operating subsidy for the Tyne and Wear Metro is determined; what the operating subsidy is for 2005–06; what discussions he has had on the operating subsidy for 2006–07; and when he expects those discussions to be concluded. [44589]

Derek Twigg: Prior to 1997–98 support for metropolitan rail services was paid indirectly to all Passenger Transport Executives. In the case of Tyne and Wear these payments supported both heavy rail and Metro services.

Subsequently, heavy rail subsidy has been provided through franchise payments to Train Operating Companies and a separate subsidy has been provided for the Tyne and Wear Metro. This was calculated, until 2005–06 on the basis of a formula similar to that in place under the previous arrangements. Additional amounts were paid to subsidise the operation of the Sunderland extension, which opened in 2002, according to the actual operating deficit rather than the formula.

The Department has been engaged in detailed discussions with Nexus, the Tyne and Wear Passenger Transport Executive, to establish a new basis for providing operating subsidy from 2006–07 onwards and an agreement should be concluded soon, enabling the subsidy level for 2006–07 to be finalised.

Vehicle Operating Service Authority

John McDonnell: To ask the Secretary of State for Transport how many consultants the Vehicle Operating Service Authority employs; how long each has been employed; in what capacity; and at what cost. [35830]

Ms Buck: The Vehicle and Operator Services Agency (VOSA) currently utilise 16 consultants. The majority have been working with VOSA for less than 12 months mainly assisting in specialist areas within projects such as MOT Computerisation project. This table sets out job functions and start dates of these consultants.

Job title	*Start date*
Interfaces Project Manager	1 April 2002
IT Project Manager	21 March 2005
Contract Manager	17 March 2005
Programme Assurance Manager	6 September 2004
Programme Manager	14 December 2004
Project Management Consultant (employed on ad hoc basis)	22 October 2003
Change Controller	4 April 2005
Head of Service Management Delivery	8 August 2005
Technical Assurance Manager	1997
Project Manager	13 June 2005

Job title	Start date
MOT Computerisation Reviews (employed on ad hoc basis)	1 September 2005
Project and Programme Quality Assurance	8 August 2005
Organisation Design Project	1 September 2005
Technical Assurance Review of the Commercial Portal (project 50 days work in total)	24 October 2005
Technical Assurance Review of the Commercial Portal (project 50 days work in total)	24 October 2005
Technical Assurance Review of the Commercial Portal (project 50 days work in total)	24 October 2005

Although over the course of the current financial year, there have been other consultants working with VOSA, it would involve disproportionate cost to establish the total number. In total, in the financial year up to 20 December 2005, VOSA attributed £2,592,420 to all consultancy work.

TREASURY

Africa (Debt Repayments)

Ann McKechin: To ask the Chancellor of the Exchequer what the value of bilateral debt repayments to the United Kingdom by each country in Africa was for *(a)* the calendar year 2005 and *(b)* financial year 2004–05; and what the expected value is for 2005–06. [42085]

John Healey: The following table shows the official bilateral debt payments received from African countries, and the debts cancelled, by the UK Government for the financial years 2004–05 and 2005–06. The figures for the 2005 calendar year are not held centrally within HM Treasury, DfID or the ECGD, and to gather all the information would incur disproportionate costs.

£ million

	2004–05		*2005–06*	
Market	*Recoveries*	*Debt forgiveness*	*Recoveries*	*Debt forgiveness*
Algeria	17.800	—	20.227	—
Botswana	0.02	—	—	—
Cameroon	—	5.782	—	—
Cote d'Ivoire	—	0.956	—	—
D R Congo	—	2.539	—	—
Egypt	12.153	—	12.966	—
Ethiopia	—	10.551	—	—
Gabon	8.249	—	19.155	—
Ghana	—	66.056	—	—
Kenya	2.422	—	0.595	—
Madagascar	—	24.064	—	—
Malawi	—	0.079	—	—
Morocco	8.203	—	6.471	—
Niger	—	4.967	—	—
Nigeria	105.954	—	1,052.662	1,142.412
Republic of Congo	—	74.000	0.153	—
Senegal	—	0.143	—	0.881
Sierra Leone	—	0.052	—	0.001
Zambia	—	162.390	—	—
Zimbabwe	0.6	—	0.08	—
Totals	155.383	351.579	1,112.223	1,143.294

1. Debt forgiveness figures as at 31 December 2005. There may be additional debt forgiveness before March 2006, but this cannot be estimated at present.

2. The payments by Zimbabwe were for ODA loans given by DfID.

3. The data for Botswana and Kenya include payments to CDC, formerly known as the Commonwealth Development Corporation.

4. Debt relief figures do not include payments from DFID to ECGD to allow 100 per cent. cancellation of ECGD loans and reimbursements under the Hold in Trust policy. These amounted to about £12.5 million in 2004–05. The estimate for 2005–06 is £1.2 million.

Bars and London NHS Trust

Mr. Lansley: To ask the Chancellor of the Exchequer what meetings officials from his Department have had with representatives of the Barts and the London NHS Trust; when such meetings took place; what discussions took place at such meetings; and if he will make a statement. [43457]

Mr. Des Browne: Treasury Ministers and officials have meetings with a wide range of organisations and individuals as part of the process of policy development and analysis. As was the case with previous Administrations, it is not the Government's practice to provide details of all such meetings.

Business Rates

Mrs. Spelman: To ask the Chancellor of the Exchequer what amendments have been made to *(a)* regulations, *(b)* primary legislation and *(c)* legislation relating to the levying of business rates on domestic properties used in whole or part of business purposes since May 1997. [42836]

Mr. Woolas: I have been asked to reply.

None of the provisions in primary legislation or regulations which relate specifically to the rating of properties which are used for both domestic and non-domestic purposes has been amended since 1997.

Charities

Dr. Starkey: To ask the Chancellor of the Exchequer if he will takes steps to ensure that *(a)* documentary evidence is provided to support the allegations to be made about UK charities at the forthcoming meeting between the Israeli ambassador and the Economic Secretary and *(b)* that evidence is made available to (i) the Charities Commission and (ii) the charity concerned at the earliest possible opportunity. [43668]

John Healey: The regulation of UK charities is a matter for the Charities Commission. The Treasury, along with other Government Departments and the Charities Commission take all allegations against UK charities seriously and we stand ready to take any appropriate action.

Child Trust Fund

Mr. Laws: To ask the Chancellor of the Exchequer what estimate he has made of the cost of the Child Trust Fund for each year from 2004–05 to 2009–10; and if he will make a statement. [41225]

Mr. Paul Goodman: To ask the Chancellor of the Exchequer what the cost of child trust funds was in 2005. [43664]

Dawn Primarolo: I refer the hon. Gentlemen to the answer given to the hon. Member for Birmingham, Hodge Hill (Mr. Byrne) on 22 March 2005, *Official Report*, column 701W.

Compensation Claims

Paul Flynn: To ask the Chancellor of the Exchequer what steps he is taking to protect the public from excessive claims for commission by companies pursuing claims compensation. [41696]

Bridget Prentice: I have been asked to reply.

Part 2 of the Compensation Bill, introduced in the House of Lords on 2 November 2005, sets out a statutory framework for the regulation of claims management services.

The legislation will require those providing claims management services to be authorised by a regulator and abide by rules of conduct and a code of practice. These will make clear that the level of charges or fees for providing claims management services must be made clear to the claimant at the outset and be proportionate to the amount of work involved.

Departmental Staff

Bob Spink: To ask the Chancellor of the Exchequer how many disciplinary actions against civil servants employed in his Department *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43485]

John Healey: The number of disciplinary procedures that have resulted in disciplinary penalties being applied to employees of HM Treasury in each of the last five years is as follows:

	Number of disciplinary procedures
2001	4
2002	5
2003	3
2004	3
2005	1

In addition, disciplinary procedures have been initiated against employees who have resigned before the disciplinary case has been concluded as follows:

	Number of procedures initiated against employees who resigned
2001	0
2002	1
2003	0
2004	0
2005	3

The Department does not keep a record of the number of disciplinary cases that are initiated and concluded but not proven.

Drug-related Deaths

Mr. Malins: To ask the Chancellor of the Exchequer in how many deaths consumption of illegal drugs was the primary cause in each of the last 10 years. [44726]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 23 January 2006:

The National Statistician has been asked to reply to your recent question asking in how many deaths consumption of illegal drugs was the primary cause in each of the last 10 years. I am replying in her absence. (44726)

The most recent year for which figures are available is 2003. The table below shows the number of deaths for which any drug controlled under the Misuse of Drugs Act was mentioned on the death certificate and the underlying cause was drug poisoning, for each of the ten years 1994 to 2003.

Deaths from drug-related poisoning[1] involving illegal substances,[2] England and Wales 1994 to 2003[3]

	Number of deaths
1994	936
1995	1,012
1996	1,174
1997	1,204
1998	1,349
1999	1,471
2000	1,571
2001	1,535
2002	1,430
2003	1,294

[1] Cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 292, 304, 305.2–305.9, E850-E858, E950.0-E950.5, E962.0 and E980.0-E980.5 for 1994 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) codes F11-F16, F18-F19, X40-X44, X60-X64, X85 and Y10-Y14 from 2001 onwards.

[2] Includes deaths where the underlying cause was drug-related poisoning and a drug controlled under the Misuse of Drugs Act 1971 was mentioned on the death record.

[3] Figures are for deaths occurring in each calendar year.

Economic Inactivity (Beverley and Holderness)

Mr. Graham Stuart: To ask the Chancellor of the Exchequer how many people in Beverley and Holderness under the age of 25 years were economically inactive in each year since 1997. [44318]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell, dated 23 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question concerning economic inactivity. (44318)

The Office for National Statistics compiles statistics of inactivity for local areas from the annual local area Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation definitions.

The attached table shows the numbers of inactive people aged 16 to 24, resident in the Beverley and Holderness constituency, for the 12 month periods ending February 1998 to February 2004 from the annual local area LFS, and for the 12 months ending March 2005 from the APS. The table also shows the figures as a percentage of the resident population aged 16 to 24.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. Changes in the estimates from year to year should be treated with particular caution.

Number of economically inactive persons aged 16 to 24 resident in the Beverley and Holderness parliamentary constituency

	Economically inactive persons aged 16 to 24	
Twelve months ending:	*Level (thousand)*	*Rate (percentage)*
February 1998	3	32
February 1999	3	31
February 2000	1	14
February 2001	2	28

Number of economically inactive persons aged 16 to 24 resident in the Beverley and Holderness parliamentary constituency

	Economically inactive persons aged 16 to 24	
Twelve months ending:	*Level (thousand)*	*Rate (percentage)*
February 2002	2	39
February 2003	2	20
February 2004	2	27
March 2005	4	40

Notes:
1. Estimates are subject to sampling variability.
2. Changes from year-to-year should be treated with particular caution.

Source:
Annual local area Labour Force Survey; Annual Population Survey.

EU Committees

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Contact Committee on certain schemes for collective investment in securities, *(b)* Contact Committee: European economic interest grouping and *(c)* Accounting Directives Contact Committee have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representations of the devolved governments; and if he will make a statement. [38810]

John Healey: The Contact Committee on certain schemes for collective investment in securities has been wound up and its work taken over by the European Securities Committee. Financial services is a reserved matter for the UK Government and Treasury officials represent the UK at ESC meetings. HM Treasury has regular contacts with significant financial services centres throughout the UK to inform the position of the UK at these meetings.

There were no meetings of the Contact Committee on European Economic Interest Groups during the UK presidency.

The Contact Committee on the Accounting Directives has now been amalgamated with the Accounting Regulatory Committee. The Committee met three times during the UK Presidency. Meetings were chaired by the European Commission. The UK is represented by officials from the Department of Trade and Industry.

EU Meetings

Chris Huhne: To ask the Chancellor of the Exchequer if he will list EU meetings of *(a)* heads of state and *(b)* government that he has attended in the company of the Prime Minister since June 1997. [39900]

John Healey: In normal circumstances the Prime Minister represents the UK at European Councils, accompanied by the Foreign Secretary. The Chancellor of the Exchequer represents the UK at the Economic and Financial Affairs Council.

In addition, Finance Ministers also occasionally attend the spring European Council which focuses on EU Economic Reform.

Gershon Review

Dr. Cable: To ask the Chancellor of the Exchequer if he will provide a break down by *(a)* Department and *(b)* activity of the £4.7 billion efficiency savings as a result of the Gershon Review announced in the pre-Budget report. [37150]

Mr. Des Browne: This information is available in departmental Autumn Performance Reports that have been published and in forthcoming Departmental Reports which all departments are required to publish by April.

Table 2: Efficiency Gains Reported to September 2005, by workstream

Workstream	*Total gains reported (£ million)*
Procurement	1,978
Productive Time	894
Policy, Funding and Regulation	520
Corporate Services	288
Transactions	113
Other[1]	942
Total	4,735

[1] SR04 efficiencies where Departments have not specified an allocation to a Gershon workstream.

Insurance Premium Tax

Gregory Barker: To ask the Chancellor of the Exchequer what representations he has received from insurance companies under investigation for alleged fraud regarding the insurance premium tax. [44795]

Dawn Primarolo: The Treasury has received no such representations.

Local Pay Arrangements

Mr. Fallon: To ask the Chancellor of the Exchequer if he will list the Government Departments that operate local pay arrangements, excluding London weighting. [44941]

Mr. Des Browne: Departments and agencies have authority to determine pay and conditions for their staff below the Senior Civil Service, which are appropriate to their business needs and which take account of Government policies on public sector pay. Under these arrangements Departments and agencies are required to submit a Pay Remit to Treasury outlining its proposals for increases in pay.

Departments and agencies are expected to ensure that their pay systems reflect the local labour markets in which they operate. However as a consequence of delegated pay no centrally collected list exists of the number of Government Departments that operate local pay arrangements excluding London Weighting.

Online Gambling Companies

Mr. Swire: To ask the Chancellor of the Exchequer how much tax was paid by online gambling companies in the last year for which figures are available. [44289]

John Healey: Separate figures for the amount of tax paid by online gambling companies are not available.

Private Finance Initiative Scheme

John Hemming: To ask the Chancellor of the Exchequer what calculations are performed to compare

the costs of a private finance initiative scheme with traditional funding schemes from public sector borrowing. [44807]

John Healey: The required analysis for comparing whether a given project would be value for money using PFI compared with conventional funding is laid out in the Value for Money Guidance and the accompanying Quantitative User Guide, published in August 2004. These can be found on the HM Treasury website at:

http://www.hm-treasury.gov.uk/documents/public_private_partnerships/key_documents/ppp_keydocs_vfm.cfm

Private Members' Clubs

Mr. Lansley: To ask the Chancellor of the Exchequer how many *(a)* working men's clubs and *(b)* other private members' clubs there were in England in the most recent year for which figures are available, broken down by local authority. [43532]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 23 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning how many *(a)* working men's clubs and *(b)* other private members' clubs there were in England in the most recent year for which figures are available, broken down by local authority. (43532)

Working men's clubs are included within the standard industrial classification (SIC) for licensed clubs. Private members' clubs are included within activities of other membership organisations not elsewhere classified. I am placing a table in the House of Commons Library showing the figures for licensed clubs (SIC 55401) and for activities of other membership organisations (SIC 91330).

These figures are based on the criteria used in the National Statistics publication "UK Business: Activity, Size and Location for 2005", published on the National Statistics website: www.statistics.gov.uk/ukbusiness, and relate to the number of local units operated by businesses registered for VAT as at March 2005.

All figures have been rounded to the nearest five to avoid disclosure.

Tax Arrears

Harry Cohen: To ask the Chancellor of the Exchequer for what reason HM Revenue and Customs (HMRC) charges interest on tax arrears determined following reviews of tax accounts, from a date prior to that on which HMRC *(a)* determined and *(b)* informed the liable person that such arrears existed; if he will amend this practice so that interest on tax arrears is only charged from the point that the liable person could reasonably first have made payment; and if he will make a statement. [44784]

Dawn Primarolo: Interest is not a penalty, and is charged in order to recompense the Exchequer where tax is paid later than the due date. In that, it is like any commercial interest. Interest applies whatever the reason for the delayed payment, and I cannot accept the case for different dates applying depending on the reason payment was not made on time.

Tax Credits

Greg Clark: To ask the Chancellor of the Exchequer pursuant to the answer of 10 January 2006, *Official Report*, column 556W, on tax credit, whether an estimate was made by his Department in advance of the pre-Budget report of the prospective cost of the increase in the disregard from £2,500 to £25,000. [44872]

Dawn Primarolo: I refer the hon. Member to the answer given to the right hon. Member for Birkenhead (Mr. Field) and the hon. Member for Yeovil (Mr. Laws) on 13 December 2005, *Official Report*, column 1836W.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer how many staff in his Department have administered each tax credit in each year since their introduction; and what the cost of administering each tax credit in each year has been. [43763]

Dawn Primarolo: The information is not available in the format requested.

Transformation Fund

Mr. Paul Goodman: To ask the Chancellor of the Exchequer which local authorities have received support from the Transformation Fund since its inception; and how much each has received. [43736]

Beverley Hughes: I have been asked to reply.

The Transformation Fund was announced in the 2004–05 pre-Budget report. It will provide £125 million in each of 2006–07 and 2007–08 to invest in the professional development of the child care work force. The fund takes effect from April 2006 and therefore no local authorities have yet received support from it.

VAT

Geraldine Smith: To ask the Chancellor of the Exchequer by how much tax revenue would change as a result of an increase in VAT of *(a)* 1 per cent., *(b)* 2 per cent., *(c)* 3 per cent. and *(d)* 4 per cent. [44651]

Dawn Primarolo: Effects of illustrative changes in VAT rates are published in Table 6 of the Tax Ready Reckoner and Tax Reliefs, which can be found at http://www.hm-treasury.gov.uk/media/FA1/96/pbr05_taxreadyreckoner_223.pdf and is published annually alongside the pre-Budget report. A hard copy can be found in the House of Commons' Library.

Geraldine Smith: To ask the Chancellor of the Exchequer what items are exempt from VAT. [44652]

Dawn Primarolo: VAT exemption applies to a wide range of goods and services. Among the major categories are certain supplies of, or related to: land; insurance; financial services; postal services; education; health and welfare; charities; burial and cremation; betting and gaming; admission to certain cultural bodies; and subscriptions to trade unions and professional and public interest bodies.

The full list of supplies of goods and services which are exempt from VAT can be found in schedule 9 of the Value Added Tax Act 1994 which is reproduced in HM Revenue and Customs (HMRC) Notice 701/39, 'VAT liability law', which can found on HMRC's website at www.hmrc.gov.uk

INTERNATIONAL DEVELOPMENT

Afghanistan

Linda Gilroy: To ask the Secretary of State for International Development pursuant to the answer of 12 October 2005, *Official Report*, column 278, on Afghanistan, when he expects the applied research programme to publish its conclusions on alternative livelihoods for poppy-growing Afghan farmers. [42643]

Hilary Benn *[holding answer 17 January 2006]:* The DFID funded Research in Alternative Livelihoods Fund (RALF), is identifying innovative opportunities that add to the range of options available to rural people in different parts of Afghanistan.

The field research commenced during 2005, and will continue until the end of 2006. Publication and dissemination of the results of that research will take place thereafter. Dissemination outputs will be targeted to local institutions and Afghan research and development agencies, presenting research findings in a readily accessible form.

Although research, especially looking at agricultural commodities, takes time to show results, there are encouraging signs that the projects funded by RALF will translate into practicable recommendations to improve incomes or food security, or provide alternative employment. DFID is planning a mid-term review of this programme in March 2006. The report of this review will be posted on the RALF website www.icarda.cgiar.org/RALFweb/RALF.htm.

Dr. Fox: To ask the Secretary of State for International Development what plans he has to provide alternative cash crops for opium producers in Afghanistan; and if he will make a statement. [42997]

Hilary Benn: DFID leads the British Government's efforts to develop alternative livelihoods in Afghanistan. In the financial year of 2005–06, DFID is to spend over £45 million for this purpose. This is an almost tenfold increase on the amount spent in 2003–04. In the financial year of 2006–07, spending is expected to continue at similar levels.

A proportion of this funding will continue to be specifically targeted on improving agricultural opportunities for Afghan farmers. This includes research to help identify, test and implement new crops and technologies. Innovative ways for farmers to make a living are also being pursued. Examples include apricot drying, honey bee keeping, and the introduction of fruit tree nurseries and greenhouses for vegetable production. DFID has also jointly funded, with United States Agency for International Development (USAID), a $25 million nationwide programme to increase access by over 500,000 farmers to seeds and fertiliser for alternative crops.

At the same time as developing agricultural opportunities, and in the interests of sustainability, it is important to also develop non-farm alternative livelihoods. DFID will continue to support activities which identify sustainable economic alternatives and social incentives to enable farmers to stop growing poppy.

Civil Servants (Retirement)

Mr. Laws: To ask the Secretary of State for International Development what the cost of the enhanced early retirement scheme for civil servants in his Department and its agencies was in each year from 1997–98 to 2004–05; what the estimated cost is for each year from 2005–06 to 2007–08; and if he will make a statement. [44768]

Mr. Thomas: The cost to The Department for International Development (DFID) of early departures is as follows:

	Cost (£)
1997–98	926,268
1998–99	494,903
1999–2000	620,471
2000–01	422,910
2001–02	562,967
2002–03	581,708
2003–04	1,639,414
2004–05	1,257,039
2005–06[1]	1,039,270
2006–07[1]	965,565
2007–08[1]	570,464

[1] Estimated costs based on expenditure arising from existing commitments.

Commission for Africa

Tony Baldry: To ask the Secretary of State for International Development what mechanisms his Department has in place to implement the relevant recommendations of the Commission for Africa. [43812]

Hilary Benn: The Recommendations of the Commission for Africa report have been adopted as Government policy. Many of the recommendations are being taken forward through DFID's bilateral development programmes, through its contributions to multilateral agencies and through joint initiatives with other donor and African partners, such as the recently launched Africa Infrastructure Consortium. Other recommendations are directed at Africa and its leaders, and DFID is encouraging them to take action.

In addition, through its presidency of the G8 in 2005, the UK has built broader commitment to key recommendations, such as increasing aid and debt relief. Progress against these commitments will be monitored, reviewed and reported through a joint action plan, currently being developed.

Departmental Assets

David T.C. Davies: To ask the Secretary of State for International Development if he will list the items valued at over £100 that have been reported as stolen from buildings occupied by his Department in the past 12 months. [43437]

Mr. Thomas: The items reported as stolen from DFID buildings over the last year, valued at over £100, are as follows.

	Number
Compaq IPAC pocket PC	1
Lamp posts	4
Bicycles	3
Laptop computers	6

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for International Development what expenditure on *(a)* buildings and *(b)* insurance of buildings and staff was by (i) his Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which his Department is responsible in (1) Scotland, (2) Wales, (3) each English region and (4) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40097]

Hilary Benn: In accordance with Government accounting policy, DFID does not normally insure its buildings or staff. The following figures are for expenditure on its headquarters buildings in UK only.

Financial year	£
2002–03	8,748,344
2003–04	8,720,705
2004–05	9,668,959
2005–06 (Forecast)	9,450,000

Information on overseas offices is not held centrally and cannot be obtained without incurring a disproportionate cost.

DFID is not responsible for any other non-departmental public bodies (NDPB)s or agencies, but is responsible for CDC (formerly Commonwealth Development Corporation), a self-financing public corporation, based in London. The relevant figures for CDC are:

£

	Buildings	Insurance
2003	613,700	759,600
2004	963,600	648,700
2005 (Forecast)	262,000	308,000
2006 (Budget)	271,000	340,000

Departmental Staff

Bob Spink: To ask the Secretary of State for International Development how many disciplinary actions against civil servants employed in his Department *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43491]

Mr. Thomas: DIFD's Disciplinary Procedures are fully compliant with UK legislation and apply to civil servants working in the UK and overseas. We also apply them to our locally appointed staff overseas who work under local contracts, unless local law dictates otherwise.

The procedure covers dismissal and other disciplinary proceedings in respect of:

Unacceptable behaviour (misconduct). In the event of gross misconduct, the individual may be summarily dismissed.

Poor or unacceptable performance (capability).

The sanctions which may be applied are (this is a non exhaustive list): a written warning; a final written warning; dismissal with notice; dismissal without notice (summary dismissal). In serious cases, the penalties may also include downgrading or redeployment, stoppage of future performance pay, and a ban on promotion or consideration for a specified period.

We did not hold a central record of disciplinary action for all staff until October 2004 so the statistics include our best estimate of cases prior to this date.

	Commenced	Disciplinary action taken
2001	5	5
2002	12	11
2003	3	2
2004	3	2
2005	10	9
Total	33	29

Ethiopia

Ms Abbott: To ask the Secretary of State for International Development if he will make a statement on his Department's proposed review of UK aid to Ethiopia. [43136]

Hilary Benn: I visited Ethiopia on 18 January and met Prime Minister Meles. I expressed my deep concern over recent political events in Ethiopia and told the Prime Minister that the UK, together with all other budget support donors, will not at present provide general budget support which the Ethiopian Government can use for any purpose.

However, we remain committed to supporting poor people in Ethiopia. We are working with other donors and Government to design a new mechanism for providing funds in a more transparent and accountable way, so that basic services such as education and health and water can continue to be provided throughout the country.

Gaza/West Bank

Mr. Fabian Hamilton: To ask the Secretary of State for International Development what plans he has to visit Gaza and the occupied West Bank in the next four months. [41935]

Hilary Benn: I have no current plans to do so.

Gleneagles Commitments

Tony Baldry: To ask the Secretary of State for International Development what mechanisms he has in place for his Department to follow up the donor commitments made by the G8 member countries at Gleneagles in 2005. [43813]

Hilary Benn: The Government are committed to ensuring that G8 pledges made at Gleneagles are implemented. DFID is involved in the implementation

of specific initiatives: for example, the Infrastructure Consortium for Africa and the Investment Climate Facility. DFID is also working with others to ensure effective monitoring mechanisms to hold governments to account for delivery of their commitments and to assess results.

At a national level, the "Gleneagles Implementation Plan" sets out the milestones the UK believes need to be achieved in 2006 to set us on the right track for delivery of the Gleneagles' commitments. This Plan has been placed in the Libraries of the House and will be updated monthly to show further progress. At the international level, the Africa Partnership Forum (APF) will monitor, review and report progress against the respective commitments by Africa and its development partners (not just the G8), on the basis of a Joint Action Plan now being developed. As one of the 2005 APF Co-Chairs, DFID, on behalf of the UK, has been closely involved in the development of this Plan and we remain fully committed to this process. We are also supporting the Archbishop of Cape Town's proposal for an 'African Monitor', which will track the implementation of commitments, and their impact, through a network of civil society groups.

HIV/AIDS (Paediatric Care)

Mr. Hunt: To ask the Secretary of State for International Development pursuant to the written answer on 11 January 2006, *Official Report*, column 210W, on HIV/AIDS, what discussions *(a)* have taken place and *(b)* are planned with the Global Steering Committee to ensure that children will receive paediatric drugs by 2010. [43410]

Hilary Benn: The UK is co-chair of the Global Steering Committee on Scaling up Towards Universal Access, (GSC) which is due to report to the UN General Assembly High Level meeting in June 2006. The GSC is considering the obstacles to scaling up comprehensive AIDS programmes, including access to treatment.

Early discussions have already highlighted the need to unblock obstacles to treatment for children, including the lack of adequate diagnostics and treatments for children, and the poor disaggregation by age and gender of reporting on treatment.

The GSC, which met for the first time on 9 and 10 January, is expected to meet twice more, in February and March, before finalising in April its report to the UN General Assembly High Level meeting in early June.

The UK is hosting with UNICEF, the Global Partners Forum on Children Affected by HIV and AIDS (GPF) in early February. One of the six streams of the GPF is access to treatment and care for children with HIV and AIDS. Discussions at the Global Partners Forum will feed into the work of the Global Steering Committee.

Identity Fraud

Mike Penning: To ask the Secretary of State for International Development what training the Department has provided for *(a)* front desk and *(b)* administrative staff in relation to identity fraud. [41283]

Mr. Thomas: Fraud awareness, including identity fraud is included in the induction training for all staff appointed by DFID.

In relation to front desk staff, all visitors to the Department have to be identified and then accompanied by a member of staff throughout their visit.

Guidelines are in place for administrative staff carrying out identity checks as part of the appointment and security clearance procedures for all new staff. These include sight of passports, birth certificates and other data that are checked as part of our security vetting process.

Inter-ministerial Meetings

Mr. Weir: To ask the Secretary of State for International Development how many inter-ministerial meetings his Department has held with the Scottish Executive since May 1999; and what the *(a)* Scottish Executive department concerned, *(b)* subject and *(c)* date was in each case. [39872]

Mr. Thomas: Ministers have regular dialogues with ministerial colleagues in the Scottish Executive, discussing a wide range of issues of mutual interest. It is not our practice to disclose details of such meetings.

Millennium Development Goals

Tony Baldry: To ask the Secretary of State for International Development what public service agreements his Department is now relating to the millennium development goals. [43810]

Hilary Benn: The Department for International Development's public service agreement (PSA) 2005–08, has the overall aim of 'eliminating poverty in poorer countries, in particular through achievement by 2015 of the millennium development goals' (MDGs).

The PSA contains six targets and 13 sub-targets. Targets one and two are directly linked to the MDGs, seeking progress towards the MDGs in 16 key countries in Africa and nine key countries in Asia. The sub-targets seek a reduction in the proportion of people living in poverty, an increase in primary school enrolment and in the ratio of girls to boys enrolled in primary school, a reduction in under-five mortality rates, an increase in the proportion of births assisted by skilled birth attendants, and the achievement of targets on HIV and tuberculosis, all of which tie in with the first six MDGs.

Target three on improving the effectiveness of the multilateral system, target four on improving trading opportunities, target six on ensuring that at least 90 per cent. of DFID's bilateral programme goes to low-income countries and the Africa sub-target on enhancing partnership to increase the effectiveness of aid and ensure that international policies support African development, all feed into MDG eight on developing a global partnership for development.

Tony Baldry: To ask the Secretary of State for International Development what mechanisms he is setting in place for an annual evaluation of progress towards the millennium development goals. [43811]

Hilary Benn: Progress against the Department for International Development's public service agreement (PSA) targets, which tie in to the millennium development goals, is assessed twice-yearly in DFID's autumn performance reports and departmental reports. The most recent analysis of progress against the Department for International Development's public service agreement (PSA) targets for the period 2003 to 2006 was published, in the Autumn Performance Report 2005, which was laid before Parliament on 9 December 2005. It is available both in hard copy in the Libraries of the House and electronically on DFID's website:

http://www.dfid.gov.uk/pubs/files/autumnperfreport05.pdf

The Technical Note to DFID's 2005–08 public service agreement provides full details of the indicators and methodologies which are used to monitor performance against the targets. The Technical Note is available on DFID's website:

www.dfid.gov.uk/pubs/files/PSA/technicalnotes.pdf

Updated assessments of performance against all PSA targets and sub-targets will be provided in DFID's Departmental Report 2006, which is expected to be published in May.

The UK Government are supporting the proposed International Development (Transparency and Reporting) Bill. When enacted, this will require DFID to place an annual report before Parliament setting out the UK Government's policies and use of resources in support of international development, including achievement of the millennium development goals. DFID welcomes the Bill and is actively supporting its development.

Overseas Aid

Tony Baldry: To ask the Secretary of State for International Development whether it is his policy to find other mechanisms to fund pro-poor policies in those countries that have had budgetary support suspended or reduced as a consequence of actions by the recipient government. [43815]

Hilary Benn: It is DFID policy to seek other ways to fund poverty reduction efforts in countries where budget support has been suspended or reduced.

DFID may decide to suspend or reduce budget support if we think that a partner government has breached its partnership commitments. DFID will consider a range of responses, including to change the way we deliver our aid to government and/or to switch some or all of our aid away from government to non-government channels.

In deciding how to respond to a breach, DFID will consider the impact that any decision will have on poor people and longer term poverty reduction efforts. For example in Uganda, at the end of 2005, DFID decided to re-allocate £15 million to humanitarian assistance in northern Uganda provided through the UN. In Ethiopia in 2005, DFID decided to suspend budget support due to election related violence and detention of the opposition. Instead we plan to channel the aid through a safety net programme for the most vulnerable people, and support to service delivery by local government.

Tony Baldry: To ask the Secretary of State for International Development to which countries offered budgetary support, where budgetary support has subsequently been suspended or refused; and what the reasons were in each case. [43820]

Hilary Benn: In 2005–06, DFID formally committed to provide Poverty Reduction Budget Support (PRBS) (which includes both budget support which is provided to finance implementation of the poverty reduction strategy, and budget support earmarked to specific sectors within governments' programmes) to the Governments of Bangladesh, Ethiopia, Ghana, India, Malawi, Mozambique, Nepal, Nicaragua, Pakistan, Rwanda, Sierra Leone, Tanzania, Uganda, Vietnam and Zambia.

Thus far, in 2005–06, the PRBS has been either fully or partially suspended in Ethiopia and Uganda.

In Ethiopia, £50 million of general budget support was suspended following election related violence and the detention of opposition.

In Uganda, of the £50 million general budget support planned, £15 million was suspended due to a significant overspend on public administration and concerns about the political transition and prospects for a free and fair election.

Palestinian Authority

Michael Gove: To ask the Secretary of State for International Development what steps he has taken to monitor the expenditure of development aid within the Palestinian authority to ensure that it does not *(a)* support and *(b)* sustain terrorist-related activities. [41892]

Hilary Benn *[holding answer 18 January 2006]:* The UK Government absolutely condemns all acts of terrorism and takes concern over the use of UK aid very seriously. The UK Government are committed to ensuring that all UK development assistance is properly accounted for, used for the intended purposes and represents value for money.

Since 2004, all DFID financial support to the Palestinian Authority (PA) budget has been provided through a Reform Trust Fund managed by the World Bank. Funding is conditional on the achievement of benchmarks for reform, progress against which is carefully monitored. The benchmarks cover the PA's audit and accounting processes as well as issues such as pension reform, the wage bill and the PA's budget process. The benchmarks require that the PA submit its annual financial statements to the Palestinian Legislative Council and be independently audited. This is intended to ensure legitimate usage of PA funds and that taxpayers' funds achieve value for money.

DFID, along with the World Bank, International Monetary Fund (IMF) and other donors that provide budget support, undertake twice-yearly reviews of the PA's progress against its reform benchmarks and maintain close contact with the PA at all times. DFID and other Trust Fund donors have made it clear to the

PA that it would be unacceptable if PA budgetary resources were used in any way that supported or condoned terrorism and that budget support would be suspended in such an event.

Other forms of DFID assistance to the Palestinian people are channelled through organisations whose accounts are independently audited.

Priority Countries (Funding)

Huw Irranca-Davies: To ask the Secretary of State for International Development how much funding has been allocated to budget support for each of his Department's 20 priority countries; and how much of that funding has been allocated to *(a)* health and *(b)* education. [42449]

Hilary Benn: DFID does not have a classification list of priority countries as such but in our public service agreement we do have a number of key countries in Africa and Asia, 25 in total, in which we monitor progress towards the Millennium Development Goals. These countries have been chosen because they are DFID partner countries with high numbers of poor people and receive the largest proportions of total DFID spending in these continents.

These countries are set out in the following table along with the amounts of poverty reduction budget support received over the past five years. The amount of budget support allocated to the specific sectors of health and education are detailed in the second table but the majority of this funding is provided as general budget support and not allocated to any specific sector.

Poverty reduction budget support for DFID PSA countries

£ million

Private Members' Bills

Mr. Amess: To ask the Secretary of State for International Development if he will list private Members' Bills introduced *(a)* under Standing Order No. 14(6), *(b)* Standing Order No. 23 and *(c)* Standing Order No. 57 which were (i) supported and (ii) opposed by his Department in each session since 1997–98. [41637]

Hilary Benn: In July 2005, the hon. Member for Stone (Mr. Cash) introduced the International Development (Anti-corruption Audit) Bill under Standing Order 57. This was tabled for Second Reading on 14 October and again on 28 October but was not reached. In 2002–03 and 2003–04 no private Members' Bills were introduced which fell under the departmental responsibility of DFID. No information is held about private Members' Bills presented prior to this time.

Sub-Saharan Africa

Ann McKechin: To ask the Secretary of State for International Development what the United Kingdom aid budget to sub-Saharan Africa excluding debt cancellation was for *(a)* the 2005 calendar year and *(b)* financial year 2004–05; and what the expected budget is for 2005–06. [42084]

Hilary Benn: In 2004–05 the UK's gross public expenditure on development in sub-Sarahan Africa amounted to £1.18 billion. This figure is reported in table 11 in our annual publication, Statistics in International Development (SID).

Of this figure, £269.8 million represents debt relief to countries in sub-Sarahan Africa. This comprises of: £246.6 million for the Export Credit Guarantee Department (ECGD), £9 million for CDC (see SID Table 24), £1.7 million for DFID (see SID Table 12.1) and £12.5 million in payments to allow 100 per cent. cancellation of ECGD loans and reimbursements under the Hold in Trust policy (see SID Table 23).

This means that in total, the UK channelled £911 million of bilateral assistance to sub-Sarahan Africa, if bilateral debt relief of all forms is excluded. Note that the UK also spent money in Africa via multilateral agencies, however this amount is not disaggregated to show how much went to Africa. The UK also made a payment to the heavily indebted poor countries (HIPC) trust fund amounting to £42.1 million in 2004–05 for the cancellation of multilateral debt.

Aid can also be reported according to the international classification 'official development assistance' (ODA). This is undertaken on a calendar year basis. In 2004 (the latest year for which data are available), the UK ODA expenditure for sub-Sarahan Africa was £1.236 billion of which £387 million was debt relief. Excluding debt relief, the total ODA for sub-Sarahan Africa was £849 million.

The target for the bilateral programme (excluding debt relief) for 2005–06 in sub-Sarahan Africa is £1 billion.

Sudan

Mr. Lancaster: To ask the Secretary of State for International Development what actions the Government are taking to help people of Southern Sudan. [43907]

Hilary Benn: DFID is helping the people of Southern Sudan in a variety of ways. First and foremost we are working to ensure that peace and security is sustained, through strong political support for the 9 January 2005 Comprehensive Peace Agreement, and for the deployment of UN peace-keepers. DFID is also providing immediate practical assistance to help establish the new Government of South Sudan and strengthen the capacity of the police and legal system there.

On the humanitarian front, DFID is providing approximately £27 million a year through UN agencies and NGOs to help meet the urgent needs of the existing population, and those returning from other areas. This is providing food and shelter, and access to basic services such as water and sanitation, health care and education. Over two million people remain displaced from Southern Sudan, many in camps around Khartoum, and with others we are pressing to ensure that their rights are protected.

DFID is also helping to fund longer-term development needs in the south, including infrastructure, by our support for the Multi-donor Trust Fund, to which we have committed approximately £24 million over three years.

Water and Sanitation (Funding)

Ms Dari Taylor: To ask the Secretary of State for International Development pursuant to his answer of 14 November 2005, *Official Report*, column 871W, on water and sanitation (funding), what agreements were made by EU member states at the December European Council on allocations of aid. [42736]

Hilary Benn: The 15–16 December European Council endorsed the "European Consensus on Development" that was agreed by EU Development Ministers on 22 November at the General Affairs and External Relations Council (GAERC). In May 2005, member states made commitments that should see annual EU aid double to over €66 billion per year by 2010.

The first part of the consensus sets out a common development vision to guide all EU member states development co-operation activities. Under the consensus, least developed and low income countries will be given priority in terms of overall resource allocation. It states that resources will be allocated in an objective and transparent way, based on the needs and performance of the beneficiary countries, taking into account specific situations.

Part 2 of the consensus sets out the revised EC Development Policy Statement to guide EC aid. It makes clear that the Community will apply all the principles in Part 1. It also provides more detail on needs criteria and performance criteria. The needs criteria include population, income per capita and the extent of poverty, income distribution and the level of social development. The performance criteria include political, economic and social progress, progress in good governance and the effective use of aid. The 22 November GAERC also asked the Commission and member states to publish aid projections by type and country over the next three years and possibly over a longer period.

The European consensus states that investing in areas including health, water management and infrastructure are among the top priorities for combating poverty. Part 2 sets out the aims of the EC's 'integrated water resources management' policy framework which is designed to ensure a supply of sufficient, good quality drinking water, adequate sanitation and hygiene for all human beings.

The December European Council also adopted the EU-Africa Strategy. The strategy re-emphasised the EU's commitment to facilitate access to water and sanitation in Africa.

Yemen

Keith Vaz: To ask the Secretary of State for International Development when his Department will publish a full Country Assistance Plan for Yemen. [43886]

Mr. Thomas: The Department for International Development is planning to publish its Country Assistance Plan for Yemen by July 2006.

Keith Vaz: To ask the Secretary of State for International Development what steps his Department is taking to help improve literacy of women in Yemen. [43887]

Mr. Thomas: Improving female literacy rates is one of the main objectives of the Government of Yemen's Basic Education Development Strategy. Currently 73.5 per cent. of Yemeni women are illiterate, one of the highest illiteracy rates in the world. The Department for International Development (DFID) is providing £15 million over five years to support this strategy

through a project co-funded with the World Bank and other donors. The project aims to increase the number of girls enrolled in basic education by 23 per cent. and the number of girls completing basic education by 30 per cent. by 2010. This will be done by helping increase girls' access to school, including by providing more girls only classrooms and female teachers.

To help keep girls in school, the project will enable parents to have greater involvement in school management, and provide community based adult literacy classes, as evidence shows that adult literacy has a major impact on pupil attendance and performance. The project also aims to improve the quality of education through improvements to teacher training, curriculum development, and education policy, planning, and implementation. This should contribute to better learning outcomes, including higher rates of female literacy.

DFID is also providing £12 million to the Yemen Social Fund for Development (SFD) over four years which provides community level development. Approximately half of the SFD's funds are used to improve access to and quality of education, with a strong focus on girls education.

DFID has also funded Yemeni participation in regional adult literacy workshops in Algeria and Cairo as part of the G8-Broader Middle East Partnership for Progress that has adult literacy as one of its key themes.

Keith Vaz: To ask the Secretary of State for International Development what assessment his Department has made of water shortages in Yemen; and what steps his Department plans to take to help alleviate water shortages. [43888]

Mr. Thomas: The Department for International Development (DFID) recognises that the rapid depletion and mismanagement of water resources are a major threat to Yemen's development and future stability. Yemen receives relatively little aid in relation to its levels of poverty, and few donors are operating in Yemen. To improve the effectiveness of the aid which Yemen receives, DFID is helping the Government of Yemen and donors to improve the co-ordination of donor aid and persuade donors to support Government of Yemen policies rather than unco-ordinated projects. An important part of improving aid effectiveness is that donors focus their assistance in a few areas, and do not duplicate assistance from other donors.

The Yemeni Ministry of Water and Environment has, with donor support, developed a National Water Sector Strategy and Investment Plan (NWSSIP) which is a comprehensive assessment of Yemen's water sector and an action plan to improve water management. Donors, (including the UK) and Government of Yemen, have signed a declaration of support for NWSSIP. DFID also encouraged the Government of Yemen to include the NWSSIP into its new plan for tackling overall development and poverty reduction, to help ensure that water management is considered in other areas of government policy. This ensures sector needs are reflected in planning and budget allocations.

The World Bank, the German and the Dutch Governments are providing substantive assistance to the water sector in Yemen, allowing DFID to focus on other areas. We do however help to improve water management through our contributions to the Social Fund for Development (£12 million over four years) which provides community level development including improving water supply and sanitation to the poorest communities. We recognise the importance of strengthened donor engagement including helping the government develop better policies. We are therefore considering support to finance a water specialist to the World Bank office in Sana'a.

Keith Vaz: To ask the Secretary of State for International Development what recent assessment his officials have made of the poverty reduction strategy in Yemen. [43889]

Mr. Thomas: The Department for International Development is providing £3 million over three years in support of the Yemen poverty reduction strategy (PRS). This includes actively supporting development of the 3rd PRS (which is known as the Development Plan for Poverty Reduction-DPPR).

DFID officials assess the content and implementation of the PRS/ DPPR at key stages; for example, when the Government releases a monitoring report, and in response to the needs assessment for the DDPR, which will be based on the Millennium Development Goals. Together with other donors, we will also assess the content of the DPPR when it is released and throughout its implementation. Concerns we have raised include the need to strengthen:

links between the PRS/ DPPR and a comprehensive, transparent budget;

strategies to address political and social exclusion, gender inequality, and severe poverty;

attention to governance reforms and under-emphasised fields such as justice;

evidence of impacts of the PRS in key sectors such as health and education; and

indicators on which to gauge progress.

In addition to our assessments of the PRS/ DPPR, DFID's support is particularly geared to enabling Yemenis themselves to assess and influence these strategies. Through Oxfam and other partners, we are supporting civil society groups to: shape the content of the plans; ensure that they are in the interests of the poor and promote gender equality; and monitor and hold the Government accountable for delivering on the commitments they contain.

Keith Vaz: To ask the Secretary of State for International Development which projects his Department supports for the promotion of *(a)* democracy and *(b)* transparency of civic institutions in Yemen. [43890]

Mr. Thomas: The Department for International Development's programme in Yemen focuses on supporting the development of a more stable, responsive, and accountable state. This includes enabling Yemeni citizens to contribute to how government services are delivered, and holding the Government accountable for their quality.

DFID is directly supporting the promotion of democracy and transparent civic institutions through provision of £900,000 for improving the effectiveness of the Supreme Commission for Elections and Referenda

(SCER), which is responsible for administering elections in Yemen and ensuring that they are free and fair.

Presidential and local council elections will be held in Yemen in September 2006. DFID's funding will be used to provide expert advice in how to prepare and conduct elections, including helping to improve legislation to ensure good management of the electoral process and to train SCER staff in administration of elections. It will also be used to help increase participation, particularly by women, in the electoral process and political life through a public information campaign conducted by the SCER in cooperation with civil society organisations.

Zimbabwe

Mr. Clifton-Brown: To ask the Secretary of State for International Development what measures are in place to monitor the application of British Government aid in Zimbabwe. [42470]

Hilary Benn: DFID channels its support to the people of Zimbabwe through United Nations agencies and non-governmental organisations, rather than providing direct support to the Government of Zimbabwe.

All proposals for DFID funding are subject to rigorous scrutiny, particularly with regard to the target group affected by the intervention in question, transparency of funding mechanisms and the presence of robust monitoring and evaluation systems. DFID Zimbabwe requires regular reporting from partner organisations and carries out its own monitoring and evaluation exercises on a regular, generally quarterly or six-monthly, basis. In cases where partner organisations are funded in instalments, funding is contingent upon evidence that previous contributions from DFID have been disbursed in the manner agreed in our formal agreement with that organisation.

Mr. Clifton-Brown: To ask the Secretary of State for International Development how much money the British Government gave under their aid programme in Zimbabwe to *(a)* the Republic Police Grant, *(b)* the Zimbabwe Republic Police Organisation Development, *(c)* the UK/Zimbabwe Air Traffic Control Radar, *(d)* Land Rovers ATP and *(e)* LANPOL Police ATP in each year between 1997 and 2001. [42472]

Hilary Benn: The following table shows how much money the UK Government gave under their aid programme in Zimbabwe to the following programmes between 1997 and 2001.

The Republic Police Grant and the Zimbabwe Republic Police Organisation Development programme are one and the same.

Expenditure by UK financial year

£000

Programme title	*1996–07*	*1997–08*	*1998–09*	*1999–2000*	*2000–01*	*2001–02*
Zimbabwe Republic Police Organisation Development	8	90	741	741	96	—
Air Traffic Control Radar Phase 2 Monitoring Consultancy—Civil Aviation Authority	83	115	88	39	19	—
Aid-and-Trade Provision Supply of 300 Land Rovers	224	62	—	—	—	—
Land Rovers for Zimbabwe Republic Police Aid-and-Trade Provision Project	—	—	5,354	1,355	24	[1]-49

[1] Indicates that amount was returned to DFID.

DFID suspended development assistance to Zimbabwe in 2002, in protest at continuing disregard for democratic principles and mismanagement of the economy by the Government of Zimbabwe. Since that time, DFID has only supported the international response to the humanitarian and HIV/AIDS crisis in Zimbabwe, through funding to United Nations agencies and non-governmental organisations.

Mr. Lancaster: To ask the Secretary of State for International Development what steps the Government will be taking to help alleviate the effects of the recent cholera outbreak in Harare, Zimbabwe. [43906]

Hilary Benn: There have been several outbreaks of cholera across Zimbabwe in the past two months, which is not unusual at this time of year. In Harare, there have been five suspected cases with three deaths. There have been other outbreaks, including in the Chikomba district (219 suspected cases and seven deaths), and the Buhera district (51 suspected cases and three deaths). While the Harare figures remain low by comparison and do not yet constitute an epidemic, the danger of cholera spreading rapidly through urban areas with high population density remains high.

The Zimbabwean Ministry of Health and Child Welfare, supported by the World Health Organisation, has led investigations into suspected cases in Harare and notes that, although many cases have been presented with symptoms suggestive of cholera, only a few have been given a positive diagnosis following laboratory tests.

The situation so far is under control. DFID is in contact with the World Health Organisation and UNICEF who are monitoring the situation closely. DFID has funded an emergency preparedness project with the Save the Children Fund (UK), who have stocks of cholera kits for deployment, including intravenous fluids, should this be necessary. Should the problem escalate, DFID stands ready to offer additional assistance in the form of funds for procurement of commodities as well as provision of technical expertise according to need.

LEADER OF THE HOUSE

Departmental Staff

Bob Spink: To ask the Leader of the House how many disciplinary actions against civil servants employed in his Office *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43504]

Mr. Hoon: No disciplinary action has been taken against civil servants in the Office of the Leader of the House of Commons within the last five years.

Ministerial Visits

David Mundell: To ask the Leader of the House further to his oral statement of 17 November 2005, *Official Report*, column 1115, what the arrangements are for his visit to the Scottish Parliament to discuss Sewel motions. [43028]

Mr. Hoon: My visit to the Scottish Parliament has not yet been confirmed.

HOUSE OF COMMONS COMMISSION

Early-day Motions

Mr. Steen: To ask the hon. Member for North Devon, representing the House of Commons Commission what the cost was of printing and administering early day motions in each of the last four parliamentary Sessions. [44625]

Nick Harvey: House of Commons printing and publishing charges are calculated in arrears by financial year and are therefore available only in this form. The cost of printing and publishing early day motions (EDMs), to the nearest £1,000, for the last four financial years, has been:

	Amount (£)
2001–02	338,000
2002–03	516,000
2003–04	573,000
2004–05	614,000

As a consequence of in House origination and pagination, the cost per printed page has been held at around £60 a page over the past three years, compared to the cost in 2000–01 of £77 a page.

Other costs associated with administering EDMs, such as editorial preparation and control, and electronic publishing, are not separately identifiable. The number of EDMs tabled, and the number of signatures added, have risen markedly in the past four years:

	Average number of EDMs tabled per week	*Average number of signatures added per week*
2001–02	41	2,167
2002–03	52	2,673
2003–04	63	3,055
2004–05	60	3,090

Mail (Security Scanning)

Mr. Drew: To ask the hon. Member for North Devon, representing the House of Commons Commission what recent assessment he has made of the performance of the organisation which is responsible for security scanning mail to the House; on how many occasions the House authorities have made complaints about its work; what assessment has been made of the environmental consequences of the journeys required to process mail; and if he will make a statement. [44424]

Nick Harvey: The performance of the company responsible for security scanning is under constant review with regular meetings being held between representatives of the company and representatives of both Houses of Parliament. A number of teething problems occurred during the first weeks of the new contract last year; these appear to have abated and there has been no cause for complaint in the last two months. Some of the concerns raised were related to the interface between the screening and the mail processes, and both organisations involved have worked hard to improve these. No assessment has been made of the environmental consequences of the journeys required to process the mail, in view of the need for extensive off-site security screening in the current security climate.

CULTURE, MEDIA AND SPORT

Civil Servants

Mr. Francois: To ask the Secretary of State for Culture, Media and Sport how much has been spent in each year since 1997 by her Department on salaries paid to civil servants. [41582]

Mr. Lammy: The Department's civil servant salary costs in each year since 1997 are shown in the table:

	Salary (£000)	*Salary as percentage of net resource outturn*
1997–98	8,458	0.29
1998–99	9,112	0.30
1999–2000	10,169	0.31
2000–01	10,654	0.35
2001–02	12,245	0.38
2002–03	13,392	0.38
2003–04	14,488	0.35
2004–05	15,319	0.40

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Culture, Media and Sport (1) how much was spent on external consultants and advisers by *(a)* her Department, *(b)* each (i) non-departmental public body and (ii) Executive agency for which her Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by her Department in each year since May 1997; [39102]

(2) if she will list the public relations companies that have had contracts with *(a)* her Department, *(b)* each (i) non-departmental public body and (ii) Executive agency for which her Department is responsible and

(c) independent statutory bodies, organisations and bodies financially sponsored by her Department and other such organisations since May 1997. [39103]

Mr. Lammy: The Department for Culture, Media and Sport has over 60 sponsored bodies/Executive agencies and the figures for them could be provided only at disproportionate cost.

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what has been the annual expenditure on vehicles for *(a)* her Department and *(b)* each (i) non-departmental public body, (ii) Executive agency and (iii) other public body for which she is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [39994]

Mr. Lammy: The Department for Culture, Media and Sport (DCMS) lease five cars from the Government Car and Despatch Agency (GCDA). Four for our Ministers and one for our permanent secretary.

The Department for Culture, Media and Sport has over 60 sponsored bodies/Executive agencies and the figures for them could be provided only at disproportionate cost.

For details of expenditure on ministerial vehicles provided to the Department by the Government Car and Despatch Agency I refer the hon. Member to the letter of 20 December 2005 from the chief executive of the Government Car and Despatch Agency to the hon. Member for Lewes (Norman Baker). Copies of this letter are available in the Library of the House.

Departmental Property

David T.C. Davies: To ask the Secretary of State for Culture, Media and Sport if she will list the items valued at over £100 that have been reported as stolen from buildings occupied by her Department in the past 12 months. [43429]

Mr. Lammy: In 2005 the items reported stolen, valued at over £100 were: 1 desktop PC and 1 mobile phone.

Departmental Staff (Disciplinary Actions)

Bob Spink: To ask the Secretary of State for Culture, Media and Sport how many disciplinary actions against civil servants employed in her Department *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43499]

Mr. Lammy: The Department commenced disciplinary actions against eight civil servants during the last five years; one in 2000–01, one in 2001–02, four in 2003–04 and two in 2004–05. Seven of the disciplinary actions resulted in a sanction being applied.

Departmental Targets

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport (1) whether *(a)* opera, *(b)* (i) classical, (ii) jazz, (iii) blues and (iv) choral music and *(c)* folk singing is recorded as participation in an arts activity for the purposes of her Department's Public Service Agreement performance target 3; and if she will make a statement; [44022]

(2) whether attending a *(a)* book or poetry reading, *(b)* street performance, *(c)* musical, *(d)* film, *(e)* cultural festival and *(f)* carnival is recorded as an attendance for the purposes of her Department's Public Service Agreement performance target 3; and if she will make a statement; [44026]

(3) whether attending a *(a)* world, *(b)* dance, *(c)* rock, *(d)* alternative, *(e)* blues, *(f)* electronica, *(g)* hip-hop, *(h)* rap, *(i)* rhythm and blues, *(j)* soul, *(k)* bangra, *(l)* jungle, *(m)* punk, *(n)* folk and *(o)* choral music event is recorded as an attendance for the purposes of her Department's Public Service Agreement performance target 3; and if she will make a statement; [44027]

(4) whether designing *(a)* clothes and *(b)* websites is recorded as participation in an arts activity for the purposes of her Department's Public Service Agreement performance target 3; and if she will make a statement; [44035]

(5) whether *(a)* directing, *(b)* stage designing and *(c)* costume designing for (i) plays, (ii) television programmes and (iii) films is recorded as participation in an arts activity for the purposes of her Department's Public Service Agreement performance target 3; and if she will make a statement. [44036]

Mr. Lammy: The information requested can be found in the 2005–08 Public Service Agreements (PSA) Technical Note, which is on my Department's website at: http://www.culture.gov.uk/global/publications/archive_2005/psa_tech_note.htm

This Technical Note sets out how the Department for Culture, Media and Sport will measure progress towards its PSA targets.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport whether she has responded to the conclusion in the Statistics Commission's report that her Department's reporting against Public Service Agreement performance target 4 uses low level results from a sample survey which is not taken into account in target setting; and if she will make a statement. [44029]

Mr. Caborn: The Department's Public Service Agreement (PSA) Technical Note publishes information about the data used to measure target 4 and its limitations. The issues raised by the Commission will be considered in the setting of future targets.

In reporting progress against PSA target 4, the Department does currently produce cumulative averages and trends for HMT as additional background information.

The target is measured using data from the Office for National Statistics' Annual Business Inquiry. This survey provides detailed information about the industries covered by the target and is the best source available.

Digital Television

Mr. McGovern: To ask the Secretary of State for Culture, Media and Sport (1) when she estimates digital television will be accessible to all people living in Dundee through household aerials; [44045]

(2) when she plans to switch off the analogue signal in Dundee. [44046]

Mr. Caborn *[holding answer 20 January 2006]:* The Government are committed to ensuring that at Digital Switchover everyone in the UK who can currently get the main public service broadcasting channels in analogue form can receive them on digital without needing to pay a subscription.

Switchover for the Grampian region will happen in the first half of 2010.

Mr. McGovern: To ask the Secretary of State for Culture, Media and Sport what percentage of households in the UK had access to digital television through their household aerial in each of the past three years. [44048]

Mr. Caborn *[holding answer 20 January 2006]:* Around 73 per cent. of UK households can access Freeview services via their aerial, with the right equipment. The figure is the same for each of the past three years.

Football Foundation

Dr. Kumar: To ask the Secretary of State for Culture, Media and Sport what schemes have been financed by the Football Foundation in *(a)* the Tees Valley and *(b)* the Middlesbrough South and East Cleveland constituency area. [43806]

Mr. Caborn: In the Middlesbrough South and East Cleveland area, the Football Foundation has funded four junior kit schemes for schools and is currently considering two applications under the Barclays Spaces for Sport Coaching Pack and one under the Barclaycard Free Kicks schemes.

To date, the Football Foundation has not funded any schemes in the Tees Valley area.

Gambling

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what information her Department collects on internet-related problem gambling. [44290]

Mr. Caborn: In 1999, the National Centre for Social Research conducted a study into the prevalence of problem gambling in Britain. It did not include the online gambling sector which was not of sufficient size or maturity to make a statistical impact.

This summer, the Gambling Commission will be conducting a baseline study into the prevalence of problem gambling in all gambling sectors, including online gambling. This study will be repeated at three-yearly intervals once the Gambling Act 2005 is fully implemented in September 2007.

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what research she has commissioned on the effects of internet gambling. [44291]

Mr. Caborn: My Department has commissioned research into attitudes towards gambling, gambling spend and participation in gambling activities. This includes, but is not specific to, online gambling.

This summer, the Gambling Commission will be conducting a study into the prevalence of problem gambling in all gambling sectors, including online gambling, which will be published before the Gambling Act 2005 is fully implemented in September 2007.

Inter-ministerial Meetings (Scottish Executive)

Mr. Weir: To ask the Secretary of State for Culture, Media and Sport how many inter-ministerial meetings her Department has held with the Scottish Executive since May 1999; and what the *(a)* Scottish Executive department concerned, *(b)* subject and *(c)* date was of each such meeting. [39939]

Mr. Lammy: I am sorry for not replying sooner to the hon. Member's question, tabled on 19 December 2005.

Ministers have regular dialogues with ministerial colleagues in the Scottish Executive, discussing a wide range of issues of mutual interest. It is not our practice to disclose details of such meetings.

Licensing Act 2003

Mr. Holloway: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the effects of the Licensing Act 2003 on levels of crime and disorder in *(a)* Gravesham and *(b)* England and Wales. [43280]

Mr. Caborn: It is too early to draw any firm conclusions about the impact of the Licensing Act 2003 on the level of crime and disorder. However, there are anecdotal signs of some positive impact from the new flexibility in closing times to reduce flash points at 11 pm, and we have received no evidence that licensing law changes have had an adverse impact on accident and emergency facilities.

The Government will continue to monitor the impact of the new legislation closely, including a programme of evaluation being conducted by the Home Office into the impact of the licensing reforms on crime and disorder.

Olympic Games

Tim Farron: To ask the Secretary of State for Culture, Media and Sport what level of funding has been made available to support youth sport up to the 2012 London Olympics. [44296]

Mr. Caborn *[holding answer 20 January 2006]:* In the five years leading up to 2008, DCMS, DfES and lottery investment in PE and school sport will total over £1.5 billion. This is being invested in schemes benefiting children and young people through PE, School Sport, Club Links and Coaching.

In addition, Sport England is funding a number of programmes up to 2009[1], which will help support and deliver youth sport.

Examples of these programmes include £100 million Exchequer funding up to 2008 in England for the Community Club Development Programme, to assist National Governing Bodies in developing community sports clubs which increase participation and widen access to sport for groups including young people.

A further example is the £17 million Exchequer funding allocated to the Talented Athlete Scholarship Scheme up to 2008 and the £2 million Lottery funding allocated to 2012 scholarships, to support our young medal hopefuls[2].

[1] DCMS has a three year commitment until 2008 to provide Sport England and UK Sport with Exchequer funding. Lottery distribution shares within the Sport good cause are fixed until 2009 to allow Sport England and UK Sport to distribute Lottery funding. As such, details of funding commitments beyond 2009 are currently not available.

[2] From 1 April 2006, the Talented Athlete Scholarship Scheme and 2012 scholarships will be funded by UK Sport.

Poetry

John Battle: To ask the Secretary of State for Culture, Media and Sport what steps the Arts Council is planning to take to promote poetry in the 2005 to 2008 period; what funding has been allocated for this purpose in the budget for that period; and if she will make a statement. [44435]

Mr. Lammy: Poetry is promoted throughout the 2005 to 2008 period through the 24 Arts Council England (ACE) poetry Regularly Funded Organisations (RFOs). ACE is funding organisations and activity that encourage both writing and reading across all age groups and right across society.

The following table shows the amount ACE has given to literature RFOs, and within this amount those which focus on poetry. Many literature organisations which may not be poetry specific, do also have a poetry remit.

£

	Funding		
Art form	*2005–06*	*2006–07*	*2007–08*
Literature	5,419,289	5,529,656	5,782,567
Poetry	1,759,165	1,617,152	1,612,683

TV Licence

Mrs. Iris Robinson: To ask the Secretary of State for Culture, Media and Sport if she will end the practice of charging TV licence payers a separate fee for holiday homes and other permanent structures where it is evident that the television could not be viewed simultaneously at both properties. [43953]

Mr. Caborn: No. The Government have no plans for any changes to the existing licensing requirements for permanent structure second homes.

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport what the total amount raised by the television licence fee has been since it was last reviewed. [44873]

Mr. Caborn: The current television licence fee settlement was announced in February 2000. Total television licence fee revenue for the financial years 2000–01 to 2004–05 inclusive, as recorded in the BBC annual reports and accounts, was £13,301 million. This includes payments to the BBC by the Department for Work and Pensions for free licences issued to people aged 75 or over.

TRADE AND INDUSTRY

Air Routes (Price Fixing)

Daniel Kawczynski: To ask the Secretary of State for Trade and Industry what steps he is taking to create a more competitive market on air routes between Heathrow and the USA; whether he has made any assessment of price fixing on such routes; and if he will make a statement. [43101]

Ms Buck: I have been asked to reply.

The UK Government is actively engaged, alongside our EU partners, in negotiations towards an EU-wide Air Services Agreement with the US. Such an agreement could remove existing limitations on services between Heathrow and the US, enabling an unlimited number of services to be operated by any EU or US airline, subject to the availability of appropriate slots. However, no agreement has yet been reached.

The Department is not aware of any evidence of price fixing on Heathrow-USA routes. It would be for the UK's competition regulator, the Office of Fair Trading, to investigate such matters.

Artists Resale Levy

Ms Gisela Stuart: To ask the Secretary of State for Trade and Industry what criteria were used in setting the level of sales in relation to the artists' resale levy below €3,000; what assessment has been made of the administrative costs of setting the level at this rate; and if he will make a statement. [44409]

Barry Gardiner: *[holding answer 20 January 2006]:* The Government considered all evidence and opinion submitted during consultation and in subsequent discussions with key interests. This included submissions from artists and the art market, the report of House of Commons Select Committee and the most up to date independent economic research. Setting the threshold at €1,000 would allow a large number of UK artists to receive royalties. Below €1,000 the administrative costs do become disproportionate to the benefit to the artist. We have balanced the need to protect our art market with the need to reward artists for their creativity. The draft regulations were laid before this House on 15 December and will be debated in due course.

Audible Fire Alarms

Bob Spink: To ask the Secretary of State for Trade and Industry what proportion of the premises occupied by his Department is fitted with audible fire alarms. [42871]

Alan Johnson: All buildings on the DTI HQ estate are fitted with audible fire alarms.

Business Review

Jim Cousins: To ask the Secretary of State for Trade and Industry how many companies will be required to produce the proposed enhanced Business Review; how many would have been required to produce an Operating and Financial Review; whether all companies

operating in the United Kingdom will have to produce such business reviews; and what enhancements to the proposed Business Review will be made. [42145]

Alun Michael: Under provisions introduced into the Companies Act 1985 by the Companies Act 1985 (Operating and Financial Review and Directors' Report etc.) Regulations of March 2005, all GB quoted companies would have been required to produce an Operating and Financial Review. The associated Regulatory Impact Assessment put the number of quoted companies at 1,290.

Only GB registered companies will be required to produce a Directors' Report including a Business Review, under section 234ZZB of the Companies Act 1985, for financial years beginning on or after 1 April 2005. The Regulatory Impact Assessment accompanying the regulations which introduced the requirement indicated that 37,290 GB companies will have to publish a Directors' Report including a Business Review. This does not include companies which meet the statutory definition of a small company which will not have to include a Business Review.

As I indicated in my statement to the House before Christmas, the Government are currently inviting views on whether any particular requirements of the Business Review need to be further clarified; and on any other considerations which Ministers should take into account in deciding how to frame suitable amendments for the Company Law Reform Bill on these matters. The consultation closes on 15 February and therefore no decisions have been taken.

Cape Town Treaty

Peter Luff: To ask the Secretary of State for Trade and Industry what plans the UK Government have to ratify the Cape Town treaty. [42028]

Alun Michael: The UK played an active role in negotiations on the Cape Town Convention and Aircraft Protocol at the 2001 Diplomatic Conference and is committed to its ratification though there are no immediate plans to do so.

It should be noted that the convention is one of a number of so-called "mixed competence" Treaties where conclusion at EU level has been blocked due to disagreement between the UK and Spain over Gibraltar. Spain does not formally recognise Gibraltar competent authorities, because it does not recognise Gibraltar's 1969 constitution. In April 2000, a set of "Postboxing Arrangements" was concluded, to facilitate communications between Gibraltar authorities and their counterparts elsewhere in the European Union by indirect contact through the Foreign and Commonwealth Office in London. These arrangements were circulated to all member states and the institutions of the EU on 19 April 2000. They laid down how "postboxing" would operate in relation both to EU instruments and to certain named international conventions. They would only apply to other treaties if both sides agreed. For its part, the UK has also made clear that it would need to obtain the consent of the Government of Gibraltar.

Coal Reserves (Scotland)

David Mundell: To ask the Secretary of State for Trade and Industry what licences have been granted for *(a)* the extraction of coal and *(b)* coal exploration in South Lanarkshire; and in what areas in each case. [44235]

Malcolm Wicks: Information on current Coal Authority licences in South Lanarkshire are as follows:

Name	*Licensee*	*Address*
Broken Cross	The Scottish Coal Company Ltd.	Lanark
Chapelhill Site	The Scottish Coal Company Ltd.	Carmacoup
Climpy	CRE Energy Ltd.	Forth
Dalquhandy Site	The Scottish Coal Company Ltd.	Bankend, Coalburn
Edge Farm	George Raeburn	East Kilbride
Edge Farm Site	George Raeburn	East Kilbride
Glentaggart	The Scottish Coal Company Ltd.	Lanark
Wilsontown	Hall Construction Services Ltd.	Forth

Other exploration and opencast licences/agreements have been issued by the Coal Authority in South Lanarkshire but these are now expired.

David Mundell: To ask the Secretary of State for Trade and Industry (1) what the total coal reserves are in Scotland; [44236]

(2) what the total coal reserves are in South Lanarkshire; and in what areas they are situated; [44237]

(3) what the total coal reserves are in the Douglas and Nethan valleys; in what areas they are situated; and how many tonnes each area has. [44238]

Malcolm Wicks: There are no reliable estimates of total potential coal reserves in Scotland.

50.1 million tonnes of reserves suitable for surface mining are known at existing opencast mines and sites either with planning approval or at the planning application or pre-application stage. 13.3 million tonnes of these reserves are situated in South Lanarkshire. Information is not available concerning such reserves in the Douglas and Nethan valleys.

Correspondence

Mr. Winnick: To ask the Secretary of State for Trade and Industry why the letter from the hon. Member for Walsall, North sent to the Department for the Environment, Food and Rural Affairs on 2 November and transferred to his Department on 11 November was not transferred to the Department for Transport until 6 December; and if he will make a statement. [37867]

Alan Johnson *[holding answer 15 December 2005]:* This letter was held up in the transfer administration process. I apologise to my hon. Friend and to his constituent for the delay.

Mr. Salmond: To ask the Secretary of State for Trade and Industry when he will reply to the letter dated 26 October from the hon. Member for Banff and Buchan on Exports to China. [38549]

Alan Johnson *[holding answer 20 December 2005]:* My hon. Friend, the Minister for Trade, replied to this letter on 9 January. The reason for the delay in responding is explained in his letter.

Departmental Buildings/Equipment

Mr. Andrew Smith: To ask the Secretary of State for Trade and Industry what steps he has taken to ensure that the buildings and electrical equipment used by his Department are energy efficient. [42562]

Alan Johnson: DTI is working toward achieving the energy efficiency targets expressed in the framework for sustainable development, Part E—Energy. The targets set are to improve the energy efficiency of the buildings on the estate by 15 per cent. in terms of KWH usage and that used per square metre by 2010–11.

The DTI London HQ estate is being reduced by approximately 30 per cent. as the result of a major rationalisation programme to make more efficient use of our accommodation with significant associated reductions in the Department's overall energy usage.

The Department has implemented a number of energy efficiency initiatives since the target was published. The main strategy is to gain efficiencies as a result of the estate strategy to reduce the physical size of the estate and the number of buildings. We have also included a number of energy efficiency projects in our main buildings to improve lighting and environmental controls as well as occupant awareness.

Departmental Publications

Norman Lamb: To ask the Secretary of State for Trade and Industry what the total cost was of the literature produced for his Department's Corporate Responsibility conference on 1 and 2 December 2005; and what percentage of paper used in this literature was recycled. [42381]

Alan Johnson: The total cost for the literature produced for the Corporate Responsibility conference on 1 and 2 December 2005 was £2,001. In addition to this we purchased 400 recycled A4 presidency writing pads from the FCO for £360.

It is the Department's policy to produce all publications on recycled paper containing a minimum of 75 per cent. post consumer waste.

EU Waste Electrical and Electronic Equipment Directive

Gregory Barker: To ask the Secretary of State for Trade and Industry (1) what new infrastructure will be put in place to help producers of electrical and electronic equipment to comply with recycling obligations under the Waste Electrical and Electronic Equipment Directive and the Restrictions on Hazardous Substances Directive; [41859]

(2) how many waste electronic and electrical collection facilities for domestic users the Government plans to set up in *(a)* 2006, *(b)* 2007 and *(c)* 2008; where these will be based; and whether doorstep collections will be arranged if there is no collection facility nearby; [41861]

(3) how the planned *(a)* domestic and *(b)* industrial collection facilities will be financed when the Waste Electrical and Electronic Equipment Directive is implemented; and by whom. [41862]

Malcolm Wicks: On 14 December 2005, I announced a review of proposals for implementing the WEEE Directive. This will lead to a full consultation exercise in the spring. At this stage of the process, I am unable to assess what new infrastructure will be required. Officials in the Department are working closely with all relevant stakeholders to ensure the most pragmatic and practical way forward. There are no recycling obligations under the Restrictions on Hazardous Substances Directive.

Mr. Quentin Davies: To ask the Secretary of State for Trade and Industry when he proposes to implement the Waste Electrical and Electronic Equipment Directive in the United Kingdom. [42179]

Malcolm Wicks: On 14 December 2005, I announced a review of proposals for implementing the Waste Electrical and Electronic Equipment Directive in the UK. A new timetable for implementation will not be set until the review is concluded.

Mr. Quentin Davies: To ask the Secretary of State for Trade and Industry what the reason is for the postponement in implementing the Waste Electrical and Electronic Equipment Directive in the United Kingdom announced by his Department on 15 December 2005. [42180]

Malcolm Wicks: The Government is committed to implementing the Waste Electrical and Electronic Directive in the UK in a way which maximises the environmental benefits associated with the directive and minimises the costs to business. The implementation of the directive has been delayed in order to take full account of concerns expressed by businesses and other stakeholders.

Mr. Duncan: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact of the delay in the implementation of the Waste Electrical and Electronic Equipment Directive on business. [42296]

Malcolm Wicks: The delay in the implementation of the Waste Electrical and Electronic Equipment Directive in the UK has been welcomed by business. It will give the Government time to ensure that the costs to business are minimised once the directive has been fully implemented.

Mr. Duncan: To ask the Secretary of State for Trade and Industry when full implementation of the Waste Electrical and Electronic Equipment Directive is expected to take place. [42297]

Malcolm Wicks: On 14 December 2005, I announced a review of proposals for implementing the Waste Electrical and Electronic Equipment Directive in the UK. A new timetable for implementation will not be set until the review is concluded.

Mr. Duncan: To ask the Secretary of State for Trade and Industry what costs will be incurred by the Government as a result of the delayed implementation of the Waste Electrical and Electronic Equipment Directive. [42298]

Malcolm Wicks: The delay to the implementation of the Waste Electrical and Electronic Equipment Directive will have significant implications for local

authorities. The Department has agreed to meet any new costs in relation to the delay. We will consult local authority representatives about these amounts.

Mr. Duncan: To ask the Secretary of State for Trade and Industry how many man-hours have been spent on each *(a)* review of and *(b)* consultation on implementation of the Waste Electrical and Electronic Equipment Directive; and how much each such (i) review and (ii) consultation has cost. [42300]

Malcolm Wicks: This question cannot be answered without incurring disproportionate cost to the Department.

European Regional Development Fund

Mr. Alan Reid: To ask the Secretary of State for Trade and Industry what factors affected the decision on which regions should receive additional allocations from the European Regional Development Fund under paragraph 54 of the final comprehensive proposal from the Presidency of the Financial Perspective 2007 to 2013; what account he took of the position of the Highlands and Islands when making the proposal; and if he will make a statement. [44277]

Alun Michael *[holding answer 20 January 2006]:* Paragraph 43 of the final comprehensive proposal from the presidency, explained that the methods, definitions and arrangements set out in the document for allocating the structural and cohesion funds to the member states are by necessity of a general nature. They do not allow an adequate response to certain circumstances, such as the need to take into account revisions of the most recent statistical data; the disproportionate impact on certain regions and countries of mechanically applying certain criteria and exceptional geographic and demographic circumstances.

Some member states and regions were identified as having circumstances that justified special provision. This is reflected in paragraphs 44 to 54 of the proposal.

I am aware of the particular difficulties of the Highlands and Islands as a result of falling GDP levels. The December budget settlement will provide further substantial European support, to enable the Highlands and Islands to tackle those challenges over the next seven years. This support comes on top of the quarter of a billion euros the region has received since 2000.

Export Licences

Jim Cousins: To ask the Secretary of State for Trade and Industry how many requests for export licences for Man Portable Air Defence Systems to Governments or their agents were made under the June 2003 G8 Evian protocol; and how many were granted. [38294]

Malcolm Wicks: ECO has not received any applications to export complete MANPAD systems since June 2003.

ECO has issued three and refused one export licence(s) for components for MANPADS.

Freepost

Mr. Drew: To ask the Secretary of State for Trade and Industry what the annual cost has been to Royal Mail of fraudulent or abusive misuse of the freepost system in each of the last five years. [44189]

Barry Gardiner: This is an operational matter for Royal Mail and the chief executive has been asked to reply direct to the hon. Member.

Gas Prices

Mr. Bone: To ask the Secretary of State for Trade and Industry if he will make a statement on the effect of UK gas prices on industry. [43900]

Malcolm Wicks: The Government take the recent increases in gas prices very seriously, and particularly their impact on the competitiveness of UK industry. We understand that this creates tough trading conditions, especially for energy intensive users, and we are aware of a few companies having reduced production in response to the very high prices since November. This will, of course, have a negative impact on UK industrial output, but in terms of overall GDP this will be relatively minor.

I have visited a number of major industrial gas users and am continuing to meet with companies, business representatives and gas suppliers to discuss gas prices and security of supply. We are also undertaking some research into the capability of UK industry to reduce their gas demand.

The impact on UK businesses of increases in gas prices will depend on a variety of factors, including how much gas a particular company uses, the degree of their exposure to spot and forward prices and the duration of high prices. It will also be affected by the energy prices paid by their competitors. A further sector-specific issue is whether they are in a competitive market where international trade sets the price or in a sector where prices are determined more locally and rising energy costs could be passed on.

Provisional data for October 2005 show that UK retail gas prices for small, medium and large industrial users were below the EU15 median. However, individual companies will have agreed commercially confidential contract terms and prices that might differ from these averages. I am also aware, from my industry visits and meetings, that, there is some evidence that gas prices in the UK for some of our very large industrial users are above those on the Continent, and I recognise the risk that this presents to UK competitiveness. Officials are working closely with Industry and Ofgem, with a view to help, wherever possible, to mitigate the situation and reduce these impacts.

Marine Bill

Julia Goldsworthy: To ask the Secretary of State for Trade and Industry what steps his Department is taking to contribute to the Marine Bill, with particular reference to *(a)* streamlining consents for activities in the marine environment and *(b)* improving the planning regime for such activities. [43166]

Malcolm Wicks: The Department is working closely with Defra as the Department leading on preparation of a Marine Bill. Making consenting and offshore planning processes more efficient is an important objective for the Bill.

Julia Goldsworthy: To ask the Secretary of State for Trade and Industry what representations he has received on the content of the draft Marine Bill; and if he will make a statement. [43167]

Malcolm Wicks: The Department has had various discussions with other departments, industry and stakeholders on proposals for a Bill. The Government will shortly be undertaking a public consultation on most of the main issues that a Marine Bill might cover and will in due course publish a summary of the representations received in response to that consultation.

Miners Compensation Scheme

John Mann: To ask the Secretary of State for Trade and Industry when he expects to resolve the pension loss issues at co-defendant rates in the coal miners compensation scheme. [44540]

Malcolm Wicks *[holding answer 20 January 2006]:* The Department is working hard to reach agreement on this issue with all parties. The information that is required to process claims affected by this issue is not with the Department but with the claimants' representatives and insurers of the small mines. I am therefore unable to give a firm date for resolution of this issue, but hope that we will soon be able to reach an agreement with the other parties.

Natural Environment Research Council

Gregory Barker: To ask the Secretary of State for Trade and Industry how many requests for additional funding the Natural Environment Research Council made in each year since 1997; what the amounts were in each case; and how many of these requests were granted. [42552]

Barry Gardiner: During the course of each Spending Review since 1997, the Natural Environment Research Council has requested funding to support its key priorities. NERC received the following allocations from the Department (as set out in the Science Budget allocations publications at http://www.ost.gov.uk/research/gov_spend.htm), which are subject to technical budgeting adjustments:

Budget (£ million)

	Science
1997–98	165.1
1998–99	168.8
1999–2000	178.5
2000–01	181.8
2001–02	192.9
2002–03	205.4
2003–04	264.1
2004–05	314.2
2005–06	334.0

In addition, the Department administers the Large Facilities Capital Fund which provides capital funding for large scientific projects. NERC sought support from the fund towards the construction of RRS James Cook and a rebuild of the Halley Antarctic Station, and has been granted upto £25 million for the first and £20.1 million for the second.

NERC has also requested additional funding outside the normal allocation process. In particular it has requested support for the following:

2001—a contribution towards the estimated £3.023 million costs of reconstruction of the Bonner Laboratory at the Rothera research station in Antarctica following its destruction by fire. The Department agreed to provide up to £2.49 million to support the rebuilding costs.

2001—a request for support for costs arising from impact of the foot and mouth outbreak. No additional support was provided and the costs were met by NERC from within its existing allocation.

2002—a request for additional funding during the transition to Resource Accounting and Budgeting (RAB). No additional support was provided.

2005—a contribution towards the redevelopment of part of the British Geological Survey site at Keyworth. The Department has agreed to provide up to £5 million towards capital costs.

2005—restructuring of CEH (see answer to PQ No. 42553 answered on 20 January 2006.)

Patents Act

Mr. Amess: To ask the Secretary of State for Trade and Industry if he will make a statement on the operation of sections 1 to 4 of the Patents Act 2004. [41002]

Alan Johnson: Sections 1 to 4 of the Patents Act 2004 will bring UK patents legislation into line with the revised European Patent Convention ("EPC"). These provisions will be brought into force at the same time as the revised EPC itself takes effect. This is desirable in order to maintain consistency between the UK and European patents systems. It is uncertain exactly when this will be, because the revised EPC takes effect two years after the 15th state has ratified or acceded, or (if earlier) three months after the final state has ratified or acceded. At present I understand that 14 states have done so, and that includes the UK. The revised EPC, and the corresponding provisions in the 2004 Act, are therefore unlikely to take effect before mid-2008.

Pension Contributions

Pete Wishart: To ask the Secretary of State for Trade and Industry what the cost was of pension contributions incurred by *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [39993]

Alan Johnson: The pension contributions recorded in the Department of Trade and Industry's Consolidated Resource Accounts (which include the executive agencies, The Insolvency Service, Employment Tribunals Service, National Weights And Measures Laboratory and the NDPB The Advisory Conciliation and Arbitration Service) are as follows:

	£000
2002–03	30,053
2003–04	32,076
2004–05	34,876

The pension costs of the non-consolidated bodies for which the Department is responsible are accounted for in each of the individual body's published accounts. To table each of these bodies to obtain this information would result in the incurring of disproportionate costs.

For 2005–06, employers' contributions are payable to the Principal Civil Service Pension Scheme (PCSPS) at one of four rates in the ranges 16.2 per cent. to 24.6 per cent. of pensionable pay, based on salary bands. The Scheme Actuary reviews employer contributions every four years following a full scheme valuation; last carried out as at 31 March 2003. The contribution rates reflect the cost of benefits as they accrue (net of employee contributions), not the costs as they are actually incurred, and reflect past experience of the scheme.

Postcomm

Tony Baldry: To ask the Secretary of State for Trade and Industry what reasons Postcomm gave for its decision to remove Presstream from price control when the new price control regime starts in April; and if he will make a statement. [44256]

Barry Gardiner: Price control is a matter for Postcomm, the industry regulator. Background information regarding its decision can be found on its website at http://www.psc.gov.uk/policy-and-consultations/consultations/price-control.html

Renewable Energy Systems

Mr. Cox: To ask the Secretary of State for Trade and Industry for how many projects Renewable Energy Systems Groups has received Government grants, including grants from regional development agencies; and what the level of funding received was for each project. [43358]

Malcolm Wicks: None.

Mr. Cox: To ask the Secretary of State for Trade and Industry what estimate his Department has made of the annual premiums Renewable Energy Systems would receive on electricity generated at the proposed wind farm at Den Brook. [43359]

Malcolm Wicks: The Department has made no estimate of the annual premiums Renewable Energy Systems would receive on electricity generated from the proposed wind farm at Den Brook.

This is primarily a matter for the developer.

Wind Farms

Mr. Cox: To ask the Secretary of State for Trade and Industry what discussions his Department has had with Renewable Energy Systems Groups regarding the proposed wind farm at Yelland, Devon. [43357]

Malcolm Wicks: The Department has had no discussions with Renewable Energy Systems regarding the proposed wind farm at Yelland in Devon.

Mr. Cox: To ask the Secretary of State for Trade and Industry what premiums the Government offers to companies running wind farms for the energy that they contribute to the National Grid which is not available to energy generated through other means. [43355]

Malcolm Wicks: The Government does not offer companies running wind farms a premium for their electricity that is not available to energy generated through other means.

However, wind farms, like some other sources of renewable energy such as wave and tidal power, are supported under the Renewables Obligation.

Mr. Cox: To ask the Secretary of State for Trade and Industry what the cost to public funds of grants to companies for the construction of wind farms has been for each of the last five years, broken down by company. [43360]

Malcolm Wicks: The cost to public funds of grants to companies for the construction of offshore wind farms in the last five financial years is as follows:

£ million

Financial year	*Project*	*Developer*	*Cost*
2004–05	North Hoyle	National Wind Power	7.5
2004–05	Scroby Sands	EON UK	7.5
2005–06	Kentish Flats	Kentish Flats Ltd.	8.7
2005–06	Barrow Offshore	Centrica and Dong A/S	6.5
2005–06	North Hoyle	National Wind Power	2.3
2005–06	Scroby Sands	EON UK	2.2
Total			34.7

No capital grants have been paid to companies for the construction of onshore wind farms in the last five financial years.

HOME DEPARTMENT

Antisocial Behaviour Orders

Mr. Iain Wright: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued by courts in Hartlepool since the penalty was introduced; and how many have been breached. [39173]

Hazel Blears: A table giving a breakdown by the local government authority area in which prohibitions are imposed within antisocial behaviour orders (ASBOs) is available on the crime reduction website at www.crimereduction.gov.uk. This table gives data by year since ASBOs were introduced. The Home Office court proceedings database holds breach proceedings only where there has been a conviction. These data are available at criminal justice area level only.

Asylum/Immigration

Lynne Jones: To ask the Secretary of State for the Home Department pursuant to the Minister's statement in the Standing Committee on the Immigration, Asylum and Nationality Bill, on 25 October 2005, *Official Report*, column 237, when the full review and evaluation of section 9 of the Asylum and Immigration (Treatment of Claimants, etc.) Act 2004, will be completed; if he will place a copy of the study and its results in the Library; and if he will make a statement. [41908]

Mr. McNulty: The Immigration Service/National Asylum Support Service (NASS) review and evaluate section 9 is currently ongoing. The document is scheduled to be completed by the end of February.

Damian Green: To ask the Secretary of State for the Home Department how many asylum applicants were returned to other EU countries under the terms of the Dublin Regulations in each month since June 2005. [40356]

Mr. McNulty: The approximate number of asylum applicants returned to other EU countries under the terms of the Dublin Regulations in each month since June 2005 is as follows:

	Number
June 2005	130
July 2005	140
August 2005	150
September 2005	140

These figures are based on internal management information and as such are not of sufficient quality to be published as National Statistics.

Mr. Bone: To ask the Secretary of State for the Home Department if he will make a statement on the removal of failed asylum seekers from the United Kingdom. [40442]

Mr. McNulty: All asylum claims are considered on their individual merits by specially trained caseworkers with access to comprehensive and up to date country information, with due regard to the United Kingdom's obligations under both the 1951 Convention relating to the Status of Refugees and the Human Rights Act 1998.

Asylum seekers whose claims are not successful are given every opportunity to leave the United Kingdom voluntarily. However, it is essential to the maintenance of a fair immigration and asylum system that those who have no right to remain in the United Kingdom and who have chosen not to leave voluntarily are removed.

This is always done in the most sensitive way possible, treating those being removed with courtesy and professionalism. We will only remove an asylum seeker from the UK where it has been found that it is safe to do so.

Lynne Featherstone: To ask the Secretary of State for the Home Department pursuant to the answer of 20 December 2005, *Official Report*, column 2877W on asylum/immigration, what the cost would be of providing a quantitative answer to the question; and if he will make a statement. [43044]

Mr. McNulty: *[holding answer 17 January 2006]:* As part of the Home Office, IND is not obliged to comply with any information request where the prescribed costs of supplying the information exceed £600. The £600 limit applies to all central Government Departments. At the end of September 2005 there were 6,100 outstanding asylum applications awaiting an initial decision.

As the number of asylum cases outstanding by nationality is not available, confirming how many outstanding applications for leave to remain on grounds of asylum there are from applicants from each member state of the European Union would require an examination of each individual case record. The IND has estimated that this would considerably exceed the £600 figure.

Ms Abbott: To ask the Secretary of State for the Home Department how many asylum applications were made by Eritreans to the United Kingdom during 2004–05; and how many of these applications were successful. [43134]

Mr. McNulty: The requested information is not available. Information on asylum applications, grants of asylum at initial decision and appeal outcomes for Eritrean nationals is published quarterly and annually. Copies are available from the Library of the House and on the Home Office Research Development and Statistics Directorate website at: http://homeoffice.gov.uk/rds/immigration1.html

Mr. Weir: To ask the Secretary of State for the Home Department whether he plans to set up an Immigration and Nationality Directorate office in Scotland for the purpose of attracting more immigrants to Scotland. [39937]

Mr. McNulty: There is currently a Public Enquiry Office in Glasgow which offers a same day service for the consideration of straightforward applications for leave to remain and settlement from non-EEA nationals living anywhere in the UK.

Bicester Accommodation Centre

Tony Baldry: To ask the Secretary of State for the Home Department how much of his Department's budget was allocated to building an accommodation centre for asylum seekers at Bicester in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06. [43509]

Mr. McNulty: The capital budget allocation for the development of the trial of accommodation centres was £3 million in 2003–04 and £54 million in 2004–05. The capital budget allocation in 2005–06 was £52 million and related only to the centre near Bicester.

Community Support Officers

Miss McIntosh: To ask the Secretary of State for the Home Department what criteria were used in making the decision not to give community support officers powers to arrest. [43415]

Hazel Blears: The primary role of community support officers (CSOs) is to provide high visibility reassurance policing and to tackle low level crime and anti-social behaviour. We have set out our proposals to establish a standard set of powers for CSOs which includes the power to detain a person for up to 30 minutes, pending the arrival of a constable. The proposed standard set of powers will ensure that all CSOs have the powers necessary to play a full role in neighbourhood policing teams.

Correspondence

Daniel Kawczynski: To ask the Secretary of State for the Home Department when he will reply to the letter dated 28 November 2005 regarding police re-organisation from Mr. Terrence S. Hyde, a constituent of the hon. Member for Shrewsbury and Atcham. [43060]

Hazel Blears: A reply was sent to Mr. Terence Hyde, on 16 January 2006, and a copy has been sent to the hon. Member.

Clare Short: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the letter of 22 November 2005 from the right hon. Member for Birmingham, Ladywood, on behalf of Juliet Johnson (Home Office reference J1094975, acknowledgement reference B28026/5). [43175]

Mr. McNulty: Immigration and Nationality Directorate wrote to the right hon. Member for Birmingham, Ladywood on 18 January 2006.

Clare Short: To ask the Secretary of State for the Home Department when the immigration and nationality directorate will reply to the letter of 22 November 2005 from the hon. Member for Birmingham, Ladywood, on behalf of Ansumana Barrow and Fatoumata Barrow (reference B453843, acknowledgement reference BZ8028/5). [44108]

Mr. McNulty: The immigration and nationality directorate replied to the right hon. Member for Birmingham, Ladywood on 19 January 2006.

Lynne Featherstone: To ask the Secretary of State for the Home Department when he will reply to the letter of 12 October 2005 from the hon. Member for Hornsey and Wood Green regarding her constituent Mr. Isaac Amas-Osasu (Home Office ref: A1435001). [44722]

Mr. McNulty: The immigration and nationality directorate replied to the hon. Member's letter to the Head of Member of Parliament Correspondence Section on 20 January 2005.

Crime Statistics

Mr. Laws: To ask the Secretary of State for the Home Department how many notifiable offences were committed in England in each year since 1976–77, broken down by *(a)* burglary, *(b)* car crime, *(c)* robbery, *(d)* violent crime and *(e)* other offences; what the percentage change was in each year; and if he will make a statement. [41306]

Hazel Blears: The available information is given in the following tables.

Table 1: Offences recorded by the police in England

Number and percentage

	All burglary		*Vehicle crime*		*Robbery*	
	Number	*Percentage change*	*Number*	*Percentage change*	*Number*	*Percentage change*
1976	486,771	n/a	480,394	n/a	11,267	n/a
1977[2]	571,101	n/a	575,770	n/a	13,395	n/a
1978	536,683	-6	581,395	1	12,867	-4

2004–05	1,127,681	7	2,817,212	-5	5,295,049	-6

[1] The National Crime Recording Standard was introduced nationally in April 2002. Because of this, figures in this table are not directly comparable with those for earlier years.
[2] Includes violence against the person, sexual offences and robbery.

Mr. Jenkins: To ask the Secretary of State for the Home Department how many recorded offences of *(a)* burglary, *(b)* thefts and *(c)* thefts from cars there have been in each division of the Staffordshire police force in each year since 1997. [43474]

Hazel Blears: The available information relates to offences recorded in basic command units (BCUs) in the Staffordshire police force area and is given in the tables. Data at BCD level have only been collected since 1999.

Table 1: Recorded offences in Staffordshire 1999–2000 to 2001–02

Number of offences

Basic Command Unit	Offence	1999–2000	2000–01	2001–02
Chase	Domestic burglary	1,624	1,615	1,912
	Thefts	[1]—	10,094	9,750
	of which:			
	Thefts from cars	2,536	3,134	2,968
North Staffordshire	Domestic burglary	1,600	1,235	1,417
	Thefts	[1]—	6,347	7,791
	of which:			
	Thefts from cars	2,625	2,086	2,861
Stoke on Trent	Domestic burglary	4,336	3,176	3,093
	Thefts	[1]—	12,435	14,095
	of which:			
	Thefts from cars	4,275	3,367	3,857
Trent Valley	Domestic burglary	1,513	1,523	1,661
	Thefts	[1]—	9,085	10,132
	of which:			
	Thefts from cars	2,162	2,000	2,632

[1] Not available

Note:

The data in this table are prior to the introduction of the National Crime Recording Standard. The data are therefore not directly comparable with those for subsequent years.

Table 2: Recorded offences in Staffordshire 2002–03 to 2004–05

Number of offences

Basic Command Unit	Offence	2002–03	2003–04	2004–05
Chase	Domestic burglary	1,446	1,342	1,003
	Thefts	9,098	8,955	8,001
	of which:			
	Thefts from cars	2,302	2,505	2,030
North Staffordshire	Domestic burglary	1,178	922	753
	Thefts	6,989	6212	5,329
	of which:			
	Thefts from cars	2,198	1,832	1,489
Stoke on Trent	Domestic burglary	2,438	2,491	1,732
	Thefts	12,711	12,100	10,448
	of which:			
	Thefts from cars	3,237	3,106	2,501
Trent Valley	Domestic burglary	1,396	1,410	1,225
	Thefts	9,606	9,226	8,439
	of which:			
	Thefts from cars	2,357	2,133	1,780

Note:

The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. The data are therefore not directly comparable with those for earlier years.

Criminal Records Bureau

Mr. Gibb: To ask the Secretary of State for the Home Department what details of an offence are recorded in information included in disclosures by the Criminal Records Bureau. [42572]

Andy Burnham: All Criminal Records Bureau (CRB) disclosures provide employers with information concerning individuals' offences as recorded on the police national computer (PNC), including convictions, cautions, reprimands and warnings. This would include the date of the conviction, the description of the offence, the disposal and the court or police force concerned. In the case of cautions, the date of the caution and the place it was issued are also included.

Where an application indicates that the position involves working with children and/or vulnerable adults, the disclosure, whether it is at the standard or enhanced level, will detail the nature of an individual's inclusion on the Protection of Children Act list or list 99, where the position involves working with children, or details of inclusion on the protection of vulnerable adults list where the position involves working with vulnerable adults. Where the individual is not included on either or all of those lists, the disclosure will record that fact.

An enhanced CRB check involves a further level of checking against non-conviction information which may be held locally by individual police forces. Additionally, any relevant adult or child protection list should be checked where relevant to the position applied for and if a match is found that fact is included on the disclosure.

Steve McCabe: To ask the Secretary of State for the Home Department whether he will make changes to the Criminal Records Bureau's portability scheme with a view to reducing the financial burden placed on voluntary bodies. [42788]

Andy Burnham: The Criminal Records Bureau's Portability Service operates at no cost to the registered body network, which includes organisations belonging to the voluntary sector. Changes to the Portability Service are under consideration but not with the specific aim to reduce the financial burden on voluntary bodies. The Criminal Records Bureau (CRB) remains committed to its stated support of voluntary bodies by processing free of charge disclosure checks for those who fall within the definition of a volunteer.

The primary aim of the changes is to minimise the inherent risks involved in reusing disclosures. The decision to accept 'ported' disclosures lies entirely with the employer or regulating body concerned, as does the accompanying risk of making use of potentially out of date information when assessing suitability.

Departmental Objectives

Mr. Amess: To ask the Secretary of State for the Home Department if he will make a statement on progress towards his Department's strategic objective IV. [41060]

Mr. McNulty: The Government's strategy for a comprehensive reform of the asylum and immigration process "Controlling our Borders: Making Migration Work for Britain" was published in February 2004. The subsequent consultation period on the new points-based system for managed migration described in "Selective Admission: Making migration work for Britain" ended on 7 November 2005.

We anticipate publishing our response in the spring with a timetable for next steps. The e-borders programme will deliver a fully integrated border control system and is planned to roll out in three stages from 2004 to 2014. We have introduced a range of legislative and operational measures which have successfully reduced the number of unfounded asylum applications and processing times.

The Department remains committed to achieving its aim of tipping the balance and the number of failed asylum seekers being removed from the UK has risen significantly. We removed three, 935 asylum seekers in

Q3 2005, 10 per cent. more than in Q3 2004. The 'New Asylum Model' will introduce faster, tightly-managed processes for all new asylum claimants.

We have negotiated returns arrangements to assist in returning immigration offenders and are putting immigration at the centre of our relationship with all major countries from which illegal migrants and failed asylum seekers come. We continue to engage closely with other EU member states on returns and have taken part in a number of successful joint operations in this area. The Immigration, Asylum and Nationality Bill which is currently before Parliament will provide the necessary legislative basis for those parts of the strategy which require primary legislation.

DNA Profiles

Lynne Featherstone: To ask the Secretary of State for the Home Department pursuant to the answer of 20 December 2005, *Official Report*, column 2890W, on DNA profiles, how many *(a)* murderers and *(b)* rapists who had been arrested but had not initially been charged or cautioned for an offence have been caught as a consequence of having their profiles stored on the national DNA database; and if he will make a statement. [44407]

Andy Burnham: Research carried out in January 2006 indicates that: 37 murders/manslaughters, 16 attempted murders and 90 rapes have so far been linked to people who had DNA samples taken on arrest but who were not subsequently proceeded against for the arresting offence. It is not possible at the current time to determine the outcome of the police investigation of these crimes.

Extradition

Mr. Boris Johnson: To ask the Secretary of State for the Home Department how many certificates under section 70(1) of the Extradition Act 2003 have been signed by his Department in respect of requests from the US since 1 January 2005; and how many requests have been received from the US for which a certificate has yet to be issued. [43893]

Andy Burnham: Certification of an extradition request is only carried out after the full request has been received. Usually the person concerned is not arrested until after receipt of the full request, but it is also possible in a case of urgency for the person concerned to be arrested provisionally. The requesting state can then submit the full request at a later date.

We do not comment on any cases in which arrests have not been made, as to give such information might endanger the course of justice. In the period 1 January 2005 to 18 January 2006, eight arrests have taken place in respect of extradition requests from the US which are dealt with by the Home Office. Certificates have been issued in respect of six of these cases.

The other two cases are provisional arrest requests in which the full request has yet to be received from the US. The legal deadline for receipt of those requests has not yet passed.

Highly Skilled Migrant Programme

Stephen Williams: To ask the Secretary of State for the Home Department how many people have been accepted under the Highly Skilled Migrant Programme in each year since its introduction; and, how many of those were unemployed on the latest date for which figures are available. [38715]

Mr. McNulty: The following table provides detail of the numbers of approvals issued under the Highly Skilled Migrant Programme (HSMP) for each calendar year since the programme was launched. These approvals allow individuals to apply either for leave to enter or leave to remain in the United Kingdom as Highly Skilled Migrants. (These data have not been provided under National Statistics protocols. They have been derived from local management information and are therefore provisional and subject to change.)

The increase in the number of applications approved followed a review of the programme in October 2003. This review resulted in the introduction of a number of changes to the HSMP criteria to ensure that the programme attracted a greater share of highly skilled individuals to the United Kingdom. Information is not collected to determine if a Highly Skilled Migrant is unemployed. Successful applicants have to demonstrate though that they are able to maintain themselves and any dependants without recourse to public funds.

Initial grants of leave issued to Highly Skilled Migrants are limited to a period of 12 months. Only where a Highly Skilled Migrant has been able to establish that they have taken all reasonable steps to become lawfully economically active in the UK during this initial period, will an extension to their stay, for a further period of 36 months, be granted.

Identity Cards

Mr. Heald: To ask the Secretary of State for the Home Department what role council electoral registration departments will play in the administration of the planned identity card scheme. [41239]

Andy Burnham: Currently, it is not anticipated that council electoral registration departments will have any role in the administration of the planned identity card scheme.

Illegal Broadcasting

James Brokenshire: To ask the Secretary of State for the Home Department how many convictions there were in each of the last five years in relation to *(a)* pirate radio stations and *(b)* illegal broadcasts. [38023]

Alun Michael *[holding answer 15 December 2005]:* I have been asked to reply.

I am informed by Ofcom that convictions concerning pirate radio stations and illegal broadcasts in the last five years were as follows.

	Number
2000	41
2001	20
2002	[1]49
2003	[2]103
2004	[3]60
2005	[4]16

[1] Also two formal cautions April to December 2002.
[2] Also five formal cautions.
[3] Also six formal cautions.
[4] Also eight formal cautions and 34 outstanding prosecutions.

Note:
The figures for formal cautions are drawn from an information system which came into service on 1 April 2002.

There is no legal distinction between illegal broadcasters (pirate radio stations) and illegal broadcasts. The figures given therefore cover the two categories.

Immigration and Nationality Directorate

Mr. Holloway: To ask the Secretary of State for the Home Department for what reasons the full report of his Department's investigation into allegations that visas were issued and refused on the basis of applicants' appearance at Lunar House, Croydon will not be published. [43272]

Mr. McNulty: I have undertaken to publish the results of the investigation as fully as I can and will do so as quickly as possible. It is important that those conducting the investigation are not constrained in any way during the investigation and that the outcome is unprejudiced.

By promising to publish a summary of the investigation report I have not ruled out the full report being published, but have enabled the Immigration and Nationality Directorate to maintain the protection of any security processes which may be required.

IRIS Project

Mr. Wallace: To ask the Secretary of State for the Home Department pursuant to the answer of 30 November 2005, *Official Report*, column 597W, on the IRIS project, when he expects to publish the key findings of the project IRIS operational pilot. [42708]

Mr. McNulty: The evaluation of the Project IRIS operational pilot will be commercially sensitive but I will report the key findings to the House.

Jo Martinson

Mr. Amess: To ask the Secretary of State for the Home Department if he will take steps to ensure disciplinary action is taken against members of the police involved in the failure to bring to court the case of the death of Jo Martinson. [44395]

Hazel Blears: The Chief Officer of Essex has sole responsibility for all operational matters. If any of his officers are found to have breached the Code of Conduct, as set out, in this case, in The Police (Conduct) Regulations 1999 (Statutory Instrument 1999 no. 730), he can institute disciplinary action.

Knives

Mr. Burstow: To ask the Secretary of State for the Home Department how many people have been *(a)* fined and *(b)* imprisoned for (i) illegally selling knives to under 16-year-olds and (ii) marketing a bladed product in a manner which (A) indicates that it is suitable for combat and (B) is likely to promote simulations of violent behaviour since the Knives Act 1997 in (1) Greater London and (2) each London borough. [43577]

Hazel Blears: The information for London is shown in the table. Statistics are not available for each London borough.

Offenders sentenced to fines and imprisonment for offences under the Knives Act 1997, London

	1997	1998	1999	2000	2001	2002	2003	2004
Unlawful marketing of knives (selling or hiring)[1]								
Sentenced	0	0	0	0	0	0	0	0
Fine	0	0	0	0	0	0	0	0
Immediate custody	0	0	0	0	0	0	0	0
Unlawful marketing of knives (offering or exposing to sell or hire)[1]								
Sentenced	0	0	0	0	0	0	0	0
Fine	0	0	0	0	0	0	0	0
Immediate custody	0	0	0	0	0	0	0	0
Unlawful marketing of knives—having in possession for the purpose of sale or hire[1]								
Sentenced	0	0	0	0	0	0	0	0
Fine	0	0	0	0	0	0	0	0
Immediate custody	0	0	0	0	0	0	0	0
Publication of any written pictorial or other material in connection with the marketing of any knife—the material suggesting/indicating knife suitable for combat September 1997[1]								
Sentenced	0	0	0	0	0	0	0	0
Fine	0	0	0	0	0	0	0	0
Immediate custody	0	0	0	0	0	0	0	0

Offenders sentenced to fines and imprisonment for offences under the Knives Act 1997, London

	1997	1998	1999	2000	2001	2002	2003	2004
Publication of any written pictorial or other material in connection with the marketing of any knife—the material is otherwise likely to simulate or encourage violent behaviour involving use of the knife as a weapon[1]								
Sentenced	0	0	0	0	0	0	0	0
Fine	0	0	0	0	0	0	0	0
Immediate custody	0	0	0	0	0	0	0	0
Selling a knife etc. to a person under 16 years[2]								
Sentenced	0	2	1	0	1	3	3	1
Fine	0	2	1	0	1	3	3	1
Immediate custody	0	0	0	0	0	0	0	0

[1] These sections of the Act came into force in September 1997.
[2] This offence is not included in the Knives Act 1997. It is covered by the Offensive Weapons Act 1996 S.6(1).

RDS-NOMS 18 January 2006.

London Bombings

Bob Spink: To ask the Secretary of State for the Home Department what use the police made of public mobile communications networks during the response operation to the incidents on the London Underground and bus network on 7 July 2005. [43780]

Hazel Blears: I refer the hon. member to the answer I gave on 17 January 2006, *Official Report*, column 1273W .

Miniature Motorbikes

Philip Davies: To ask the Secretary of State for the Home Department what representations he has received from the police about the illegal use of miniature motorbikes and quad bikes; what plans his Department has to tackle this misuse; if he will establish a compulsory registration scheme for such bikes; and if he will take steps to prohibit ownership for a set period of time by individuals who have been caught using them illegally. [41834]

Hazel Blears: We are aware of public concern about the misuse of these vehicles and the issue has been raised with us by the police and by other antisocial behaviour practitioners.

The police already have a power under the Police Reform Act to seize any mechanically propelled vehicle which is being driven either in a careless and inconsiderate manner on-road or off-road without lawful authority contrary to s3 or s34 of the Road Traffic Act 1988, and is causing or likely to cause alarm, distress or annoyance to members of the public. The driver can also be prosecuted for the Road Traffic Act offence and penalised accordingly.

The Home Office issued on 1 November additional guidance to the police on this legislation, explaining the rationale behind its various aspects, clarifying its terms and the circumstances in which it might be used and offering examples of effective operations. At the same time Regulations governing use of the power were simplified. The Government are now considering what more can be done to curb the problem; including whether there is a need for further legislation, and mandatory registration. We have no current plans to prohibit ownership.

National Criminal Intelligence Service

Grant Shapps: To ask the Secretary of State for the Home Department if he will require the National Criminal Intelligence Service to allow inward communication from the public via e-mail and the internet; and if he will make a statement. [44240]

Hazel Blears: The National Criminal Intelligence Service was not set up to receive reports direct from members of the public, but provides links which the public can use to make contact electronically with the appropriate authority.

National Identity Register

Mr. Gibb: To ask the Secretary of State for the Home Department what access police will have to biometric information on the proposed national identity register in conducting criminal investigations other than for use in identifying a particular suspect. [41671]

Andy Burnham: The police will not have access to the National Identity Register. However, they can apply to be provided with information, including biometric information, from the Register, where it is in the interests of national security or for purposes connected with the prevention or detection of crime, subject to safeguards provided for under clause 23 of the Identity Cards Bill.

In addition, with regard to applying for photographs, signatures, fingerprints or other biometric information, clause 23(1) provides that a police application for this information will only be successful if they show that it would not have been practicable for them to have obtained the information by other means-by conducting a search on their own fingerprint records for example.

NSPCC

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department pursuant to the answer of 29 November 2005, *Official Report*, column 452W, on the National Society for the Prevention of Cruelty to Children, what the basis is for his confidence in social workers' awareness of the risks of prejudicing future police investigations; and if he will make a statement. [42511]

Hazel Blears: It is the responsibility of the Senior Investigating Officer to set the parameters of the police investigation and to ensure that third parties involved in the case are aware of the risks of prejudicing the investigation.

'Working together to safeguard children: a guide to inter-agency working to safeguard and promote the welfare of children' was jointly published by the Home Office, Department for Health and Department for Skills and Education in 1999. Chapter five includes guidance on investigative interviews with children where social workers have a role and states at paragraph 5.36 that "leading or suggestive communications should always be avoided". In addition, paragraphs 6.24 to 6.26 sets out guidance in relation to investigating organised and multiple abuse and states the need for the police and other agencies involved to agree clear written protocols in relation to all key operational and policy matters.

Passports

John Hemming: To ask the Secretary of State for the Home Department pursuant to the answer of 9 January 2006, *Official Report*, column 378W, on passports, when his Department will revise published guidelines on photograph standards. [43881]

Andy Burnham: The photo guidance leaflet contained in the passport application pack is being updated to take account of the revised guidelines published on the UKPS website in November, and will be available in passport application packs distributed in late February or early March 2006. The UKPS website also displays the current photo guidance leaflet and this will be replaced as soon as the design for its successor is confirmed, within the next fortnight. The website has updated information on photographs on other pages, and this newer information is signposted from the main page.

Police

Bob Russell: To ask the Secretary of State for the Home Department (1) what level of fitness is required for police officers; [42461]

(2) if he will instigate an assessment of *(a)* the fitness of police officers and *(b)* possible measures to improve fitness. [42458]

Hazel Blears: All applicants recruited to the post of constable must be in good health and able both physically and mentally to perform the duties of a police officer.

As part of the standard recruitment process, applicants are required to pass a national job related physical fitness test to ensure that they are capable of meeting the physical demands of police work and to ensure that they are not put at risk from undertaking police tasks. The test must be passed prior to entry and again during the probationary period.

We are also considering the introduction of regular testing of all officers in-service to ensure maintenance of the minimum fitness standard.

Details of the recruit fitness test are contained on the Police Could You website at www.policecouldyou.co.uk and are set out for forces in Home Office Circular 43/2004. We are placing a copy of the Circular in the Library of the House.

Officers in certain specialist roles are also required to demonstrate a higher level of fitness on a regular basis. Work is being undertaken to ensure consistency in standards across the Service.

Officers are encouraged to develop and maintain health and fitness as part of the Home Office's strategy for a healthy police service and individual force occupational force strategies.

Lynne Featherstone: To ask the Secretary of State for the Home Department pursuant to the answer of 20 June 2005, *Official Report*, column 771W, on police, how many fatal accidents involving police service vehicles there were in 2004–05; and if he will make a statement. [40900]

Hazel Blears: Figures are provided in the table. Data collected on behalf of HM Inspectorate of Constabulary appear in column A and provide the number of fatalities resulting from road traffic collisions on public roads involving police vehicles and those resulting from immediate/emergency response and police pursuits.

The figures in this column are comparable with the figures provided in the previous PQ answer. The Independent Police Complaints Commission published the bulletin on "Deaths during or following police contact: Statistics for England and Wales 2004–05" on 19 November 2005. This includes a wider definition of road traffic fatalities which, for the purpose of the reporting, are defined as deaths of motorists, cyclists or pedestrians resulting from police pursuits, police vehicles responding to emergency calls and other police traffic-related activity. These data are provided in column B.

Fatal accidents involving police service vehicles—2004–05

[2] Force is unable to provide figures in 2004–05.

Stephen Hammond: To ask the Secretary of State for the Home Department when the rollout of safer neighbourhood policing teams will be completed for each ward in Wimbledon constituency. [41705]

Hazel Blears: There are currently 285 safer neighbourhoods teams in London; a minimum of eight per borough. On Tuesday 10 January the Commissioner of the Metropolitan Police Service Sir Ian Blair and Mayor of London Ken Livingstone announced that the roll out of safer neighbourhoods is being accelerated to ensure every neighbourhood in London will have a full team in place during the next financial year (2006–07). This will mean that the remaining 340 wards will initially have teams of four staff in place by April 2006, rising to six staff by April 2007. This will increase the number of teams from the current 285 to a total of 625 a year ahead of schedule

Justine Greening: To ask the Secretary of State for the Home Department when the rollout of the remaining safer neighbourhood policing teams is planned to be fully completed in each ward of the London borough of Wandsworth; and if he will make a statement. [40909]

Hazel Blears: There are currently 285 safer neighbourhoods teams in London; a minimum of eight per borough. On Tuesday 10 January the Commissioner of the Metropolitan Police Service, Sir Ian Blair and Mayor of London, Ken Livingstone announced that the roll out of safer neighbourhoods is being accelerated to ensure every neighbourhood in London will have a full team in place during the next financial year (2006–07). This will mean that the remaining 340 wards will initially have teams of four staff in place by April 2006, rising to six staff by April 2007. This will increase the number of teams from the current 285 to a total of 625 a year ahead of schedule.

Lynne Featherstone: To ask the Secretary of State for the Home Department when the roll-out of the Safer Neighbourhood policing teams is planned in each ward of the London borough of Haringey; and if he will make a statement. [42639]

Hazel Blears: There are currently 285 Safer Neighbourhoods teams in London; a minimum of eight per borough.

On 10 January the Commissioner of the Metropolitan Police Service Sir Ian Blair and Mayor of London Ken Livingstone announced that the roll out of Safer Neighbourhoods is being accelerated to ensure that every neighbourhood in London will have a full team in place during the next financial year (2006–07).

This will mean that the remaining 340 wards will initially have teams of four staff in place by April 2006, rising to six staff by April 2007. This will increase the number of teams from the current 285 to a total of 625 a year ahead of schedule.

Racially Aggravated Offences

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent discussions he has had with the Crown Prosecution Service on the prosecution of racially aggravated offences. [35650]

Hazel Blears: Discussions have been, and will continue to be, held in the context of making the criminal justice system more effective in bringing offences, including racially aggravated offences, to justice.

Recorded Offences (Humberside)

Shona McIsaac: To ask the Secretary of State for the Home Department how many people have been found to be carrying knives in public without good reason or lawful authority in each division of Humberside police in each year since the introduction of the Knives Act 1997. [42586]

Hazel Blears: Data from the court proceedings database held by the Office for Criminal Justice Reform which show that the number of people proceeded against at the magistrates courts and found guilty at all courts for carrying knives in public without good reason or lawful authority for Humberside police force area, 2002–04 are contained in the table.

It is not possible to identify those convictions by each division of Humberside police as the data are not collected at this level of detail.

Number of defendants proceeded against at magistrates courts and found guilty at all courts under Criminal Justice Act 1988, Sec 139(1), Humberside police force area, 1997 to 2004

Offence description	*Statute*	*Year*	*Proceeded against*	*Found guilty*
Having an article with blade or point in public place	Criminal Justice Act 1988, Sec 139 as amended by Offensive Weapons Act 1996, Sec 3	1997	60	43

[1] These data are on the principal offence basis.

Stateless People

Mr. Chaytor: To ask the Secretary of State for the Home Department how many stateless people were known to be resident in the United Kingdom in each of the last five years; and what his policy is on considering applications for leave to remain. [43049]

Mr. McNulty: No distinction is made between applications for leave to remain from stateless people and from people who have a nationality. Stateless people whose applications are successful are granted leave to enter or remain in the usual way. Those whose applications fail are expected to leave the United Kingdom, usually to return to their countries of habitual residence. Statistics on grants of settlement—that is, grants of permanent residence—to stateless persons, 2000 to 2004, are given in the following table. However, they are not cumulative and they do not take account of persons who subsequently embark or acquire British Citizenship.

Further immigration statistics can be found in the Command Papers "Control of Immigration: Statistics United Kingdom" available from the Library and from the Home Office websitehttp://www.homeoffice.gov.uk/rds/immigration1.html

Grants of settlement, stateless persons [1,2], 2000–04

United Kingdom Nationality	*Number of persons Stateless*
2000	930
2001	390
2002	215
2003	330
2004[3]	205

[1] Includes persons whose nationality is recorded as unknown.
[2] Data from 2003 also exclude dependants of EEA and Swiss nationals in confirmed relationships
[3] Provisional
Data rounded to the nearest 5.

Under-age Sales

Tim Farron: To ask the Secretary of State for the Home Department how many businesses were prosecuted for selling *(a)* alcohol, *(b)* glue products and *(c)* fireworks to under-age people in the South Lakeland Crime and Disorder Partnership in 2004–05. [43379]

Hazel Blears: The available information from the court proceedings database held by the Office for Criminal Justice Reform shows that there were no prosecutions in South Lakeland petty sessional area for selling intoxicating substances or fireworks to persons under age in 2004. In addition, there were no prosecutions as notified to the court proceedings database for retailers supplying intoxicating substances or fireworks to persons under 18.

Statistics on court proceedings for 2005 will be published in the autumn.

Violent Crime

Gregory Barker: To ask the Secretary of State for the Home Department what assessment he has made of the reasons for changes in the number of recorded violent crime in each of the last four quarters. [41872]

Hazel Blears: There are three main reasons for the increases in recorded crime in each of the last four quarters for which figures are available (i.e. ending April to June 2005).

There is still some residual effect from the introduction of the National Crime Recording Standard in 2002. Analysis shows that there is some increase in recording as police forces improve compliance with the standard.

Many of the Government's programmes for tackling domestic violence and sexual crime are encouraging the reporting and therefore recording of offences

which had hitherto been grossly under-reported. The reclassification of some offences (such as indecent exposure) as violent has also led to increases.

More pro-active policing and increased police effectiveness may cause an increase in recorded crime. Use of CCTV, for example, may lead to recording and detection of assaults which would otherwise have gone unreported and unrecorded.

The British Crime Survey, which is widely-regarded as providing a more reliable trend measure because it is resistant to changes in reporting, police recording and local policing activity, showed a fall of 7 per cent. in violent crime during this period (though this was not statistically significant).

Work Permits

Andrew George: To ask the Secretary of State for the Home Department how many work permits were granted to health workers from overseas in *(a)* 2004 and *(b)* each month in 2005 for which records are available, broken down by country. [24259]

Mr. McNulty *[holding answer 1 November 2005]*: Table 1 displays the number of permits approved for health workers from overseas in 2004 broken down by country. These figures include all approvals made for overseas applications, in-country applications, extension applications and change of employment applications.

Table 2 displays the number of permits approved for health workers from overseas for each month in 2005 for which records are available, broken down by nationality. These figures include all approvals made for overseas applications, in-country applications, extension applications and change of employment applications.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs what the change in the level of opium production in Afghanistan was in 2002 to 2004. [44121]

Dr. Howells: Opium production in Afghanistan increased in the years 2002 to 2004. The United Nations Office on Drugs and Crime (UNODC) conducts an annual survey into the level of opium poppy cultivation and production in Afghanistan. Full details can be found on their website http://www.unodc.org

According to the survey, opium production in the years 2001–04 was estimated as follows:

	Production (Tonnes)
2001	185
2002	3,400
2003	3,600
2004	4,200

The production figures were lower in 2001 as the Taliban had imposed a ban on opium poppy cultivation in July 2000 in order to manipulate the world price for the illegal product. By July 2001, the tactics they employed had led to a 91 per cent. reduction. This ban was enforced with a combination of fear and bribery and drove up the price of opium so that those with opium stockpiles profited, many of whom colluded with the Taliban Government.

The lack of viable central state and war-damaged infrastructure in Afghanistan created conditions in which opium cultivation could thrive once again. President Karzai, with support from the international community, is working hard to change this and has made clear that eliminating opium is vital for Afghanistan's future and is key to stability.

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely change in the level of the production of opium and its derivatives in Afghanistan in the next 12 months. [44122]

Dr. Howells: In November 2005, the UN Office for Drug Control and Crime Prevention (UNODC) confirmed the poppy cultivation and production figures for the 2004–05 season from their annual survey. They estimated that opium production was around 4,100 metric tonnes, a decrease of only 100 tonnes (2.4 per cent.) compared to 2004, despite a significant 21 per cent. reduction in poppy cultivation from 131,000 hectares (ha) in 2003–04 to 104,000 ha in 2004–05. Good weather and an absence of crop disease were responsible for a significant increase in yield in 2004–05. UNODC will provide an early indication of this season's (2005–06) production figures in their Rapid Assessment Survey, which is due to be published in the next couple of weeks.

While the UNODC figures were encouraging last year, we need to be cautious about the future. There is a risk that cultivation and production may increase again in the next 12 months—initial reports suggest that farmers in some provinces are threatening to return to cultivation. Our goal is to ensure that the downward trend in cultivation and production is maintained in the long term. We are working hard with the Government of Afghanistan and other international partners to ensure the Government of Afghanistan is able to deliver on this goal.

Arms Exports

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the use of UK arms equipment by the Indonesian military in relation to the EU code of conduct on Arms Exports. [43392]

Ian Pearson: We have had no confirmed reports that British-supplied military equipment has been used in Indonesia in contravention of the EU code of conduct.

All export licence applications for Indonesia are rigorously assessed on a case by case basis against the consolidated EU and national arms export licensing criteria taking account of the circumstances prevailing at the time.

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letters of 1 December and 20 December 2005 from the hon. Member for West Worcestershire about the US Congress. [44064]

Ian Pearson *[holding answer 20 January 2006]:* Officials are consulting the British embassy in Washington about the hon. Member's proposal to hold a reception in connection with the Congressional-Parliamentary Tennis Challenge. I will reply to his letters on behalf of my right hon. Friend the Foreign Secretary as soon as possible.

Democratic Republic of Congo

Mr. Mullin: To ask the Secretary of State for Foreign and Commonwealth Affairs on what date Henri Nswana was accredited to the UK from the Democratic Republic of Congo *(a)* as chargé d'affaires and *(b)* as ambassador; and when his accreditation ended. [41307]

Ian Pearson: Mr Henri Nswana began his posting as Minister Counsellor at the Democratic Republic of the Congo embassy in the UK in 1998. He was accredited as chargé d'affaires in early 2000, and became ambassador for the Democratic Republic of Congo on 6 July 2003. His accreditation ended on 20 October 2005.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what monitoring of the recent referendum in the Democratic Republic of the Congo was undertaken by his officials or representatives; and what advice he was given on its *(a)* administration and *(b)* outcome. [44468]

Ian Pearson: The EU sent an official Electoral Observation mission to the Democratic Republic of the Congo to monitor the referendum. UK representatives

from the British embassy in Kinshasa also observed the referendum. Despite the logistical challenges of organising a referendum in such a vast country, it took place in a largely peaceful and positive atmosphere, and the turnout was good. International observers agreed that it had largely been properly and freely conducted, with few incidents of violence.

The UK welcomes the outcome of the referendum: the strong endorsement of the draft constitution underlines the desire of the Congolese people for completion of the transition to full democratic government as soon as possible. We continue to urge the Congolese Government and National Assembly to maintain the momentum of the political process and ensure that the envisaged timetable for elections before 30 June 2006 can be met.

Departmental Equipment

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* personal computers, *(b)* laptops, *(c)* servers, *(d)* printers, *(e)* scanners, *(f)* photocopiers and *(g)* fax machines (i) his Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which his Department is responsible in each English region owned in (1) 2003–04 and (2) 2004–05. [40083]

Mr. Straw: While core IT equipment is centrally provided, the Foreign and Commonwealth Office (FCO) also operates a devolved system of budgeting under which directorates have freedom to buy a range of IT and other equipment to support their work. Fax machines, in particular, are paid for from such devolved budgets and no central figures exist for the numbers used within the FCO. Some other equipment is refreshed regularly under existing contracts. The following figures are available, but not necessarily complete, for IT equipment in use in the English regions, at sites in London and in the south east, particularly Hanslope Park, near Milton Keynes, Buckinghamshire:

	Current	*Acquired 2003–04*	*Acquired 2004–05*
(a) Personal computers	4,857	359	580
(b) Laptops	290	53	134
(c) Servers	343	28	88
(d) Printers	491	125	130
(e) Scanners	80	14	20

	2003–04	*2004–05*
(f) Photocopiers (NB photocopiers used by the FCO in the UK are leased and not actually owned by the Department)	335	355

Non-departmental public bodies (NDPB):

British Council

The British Council, which has offices throughout the country, has no central data on photocopiers or fax machines. For the other equipment in question it has outsourced its infrastructure support to Logica CMG which owns all the relevant assets.

Details of equipment held for other NDPBs for which the FCO is responsible, all of which are based in London, are as follows:

The Great Britain-China Centre

	2003–04	*2004–05*
(a) personal computers	6	6
(b) laptops	2	2
(c) servers	1	1
(d) printers	2	2
(e) scanners	1	1
(f) photocopiers	1	1
(g) fax machines	1	1

The British Association for Central and Eastern Europe

	2003–04	*2004–05*
(a) personal computers	3	3
(b) laptops	2	2
(c) servers	1	1
(d) printers	5	5
(e) scanners	1	1
(f) photocopiers	1	1
(g) fax machines	1	1

The Westminster Foundation for Democracy

	2003–04	*2004–05*
(a) personal computers	14	17
(b) laptops	4	4
(c) servers	2	2
(d) printers	9	9
(e) scanners	1	1
(f) photocopiers	2	2
(g) fax machines	1	1

The Marshall Aid Commemoration Commission (MACC)

The Marshall Aid Commemoration Commission owns no IT equipment, and did not do so during 2003–05. The Association of Commonwealth Universities, which provides the secretariat to the MACC, does have some of the IT listed, but buys and maintains this from its own budget.

Equipment used for FCO's advisory NDPB's is included within the totals given elsewhere in this answer.

Executive Agencies

Wilton Park (Near Steyning, West Sussex)

	2003–04	*2004–05*
(a) Personal computers	52	57
(b) Laptops	12	13
(c) Servers	5	6
(d) Printers	28	29
(e) Scanners	4	4
(f) Photocopiers	8	8
(g) Fax machines	5	5

Some of the categories include multi-function machines. Three photocopiers also act as combined scanners. The other photocopiers also act as fax machines.

Departmental Estate (Castle Point)

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* land and *(b)* property is owned by his Department in Castle Point. [42894]

Mr. Straw: None.

Departmental Expenditure

Pete Wishart: To ask the Secretary of State for Foreign and Commonwealth Affairs what the annual expenditure on vehicles by *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland was in each of the last three financial years; and what the planned expenditure is for 2005–06. [39979]

Mr. Straw: The information is as follows:

Annual expenditure on vehicles for the Foreign and Commonwealth Office (FCO) in each of the last three financial years; and planned expenditure for 2005–06.

Vehicle running costs for the FCO home fleets operating out of Hanslope Park near Milton Keynes, Buckinghamshire and King Charles street, London in south east England, including fuel, maintenance at Hanslope Park and insurance are as follows:

	Vehicle running costs (£)
2002–03	142,160
2003–04	159,102
2004–05	185,697
April to December 2005–06	126,535

Expenditure for replacement vehicles for the FCO home fleets operating out of Hanslope Park near Milton Keynes, Buckinghamshire and King Charles street, London in south east England, are as follows:

	Expenditure for replacement vehicles (£)
2002–03	123,128.29
2003–04	92,997.98
2004–05	115,242.00
2005–06	54,050.49

Annual expenditure on vehicles for each of the FCO non-departmental and other public bodies in each of the last three financial years and planned expenditure for 2005–06.

The BBC World Service operates two vehicles in the UK both of which are located in Caversham, Reading in south east England. Running costs, including fuel, maintenance and insurance, are as follows:

	Vehicle running costs (£)
2002–03	2,500
2003–04	2,500
2004–05	2,500
2005–06	2,500

One replacement vehicle was purchased in March 2005 (2004–05) at a cost of £16,250. The BBC World Service car pool remains at two vehicles.

There has been no expenditure for vehicles in each of the last three financial years and none is planned for:

The Marshall Aid Commemoration Commission

The British Association for Central and Eastern Europe

The Diplomatic Service Appeal Board

The Foreign Compensation Committee

The Westminster Foundation for Democracy

The Wilton Park Academic Council

The British Council

The Great Britain–China Centre

The Government Hospitality Advisory Committee for the Purchase of Wine

Annual expenditure on vehicles for each of the FCO executive agencies in each of the last three financial years and planned expenditure for 2005–06 is as follows:

Wilton Park operated two cars from April 2002 until July 2004. Thereafter this decreased to one car. There is also one delivery/storage van. All of the vehicles are operated in south east England. The running costs for these vehicles, including fuel, maintenance and insurance are as follows:

	Vehicle running costs (£)
2002–03	5,500
2003–04	5,500
2004–05	5,150
2005–06	4,180

Replacement vehicles have not been purchased during the last three financial years, and there are no plans to replace these vehicles in the current or next financial years.

There has been no annual expenditure on vehicles for other public bodies for which the FCO is responsible in Scotland, Wales, each of the English regions and Northern Ireland in each of the last three financial years and none is planned for 2005–06.

Departmental Staff

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs how many disciplinary actions against civil servants employed in his Department *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43894]

Mr. Straw: Details of disciplinary actions which were commenced against civil servants employed in the Foreign and Commonwealth Office (FCO) and which resulted in a sanction being applied in each of the last five years are as follows:

	Disciplinary actions commenced	*Sanctions applied*
2001	8	7
2002	14	9
2003	21	19
2004	9	7
2005	19	17

The figures given for the disciplinary actions commenced include cases which were not upheld or where the individuals left the FCO before the procedure was completed. The figures given for sanctions applied are the number of penalties handed out where an allegation of misconduct was upheld in line with our Misconduct Procedure. We do not keep central records for all oral warnings and these have not been included in the above information. A copy of the FCO Misconduct Procedure is available in the Library of the House.

East Africa

Mr. Martyn Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment he has made of the border dispute on the horn of Africa between Eritrea and Ethiopia; and if he will make a statement; [33191]

(2) what assessment he has made of the recent UN Security Council threat to implement sanctions against Eritrea and Ethiopia; and if he will make a statement; [33192]

(3) what assessment he has made of the ban instituted by Eritrea on flights by the UN Mission in Ethiopia and Eritrea within its airspace; and if he will make a statement. [33193]

Ian Pearson: We remain concerned at the continuing tensions between Ethiopia and Eritrea over their disputed border. We continue to underline to both parties that there should be no return to war; that the decision of the boundary commission is final and binding, and must be implemented; and that they should engage in dialogue on all the issues that divide them.

We have also supported United Nations Security Council Resolution 1640, urging Eritrea to restore full co-operation with the UN force, the United Nations Mission in Ethiopia and Eritrea, urging both parties to show maximum restraint and return to previous deployment levels, and stressing the UN Security Council's readiness to consider further measures if one or both parties fail to comply. We call on both Ethiopia and Eritrea to respond promptly and positively to the Council's demands.

Ethiopia

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Ethiopia on the continuing imprisonment of Daniel Behele and Netsanet Demessie. [41526]

Ian Pearson: We have made representations to the Government of Ethiopia at ministerial and official level regarding all those, including civil society representatives, detained in connection with the political disturbances in 2005. Most recently, my noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, raised our concerns directly with Prime Minister Meles on 17 December. He stressed the need for the trials of those charged to be transparent, independent and impartial. The international community is monitoring the trials closely.

Ms Abbott: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to ensure that the Ethiopian President adheres to the final and binding boundary commission border demarcation. [43132]

Ian Pearson: We supported UN Security Council resolution 1640, which demanded that Ethiopia accept fully and without further delay the final and binding decision of the Eritrea-Ethiopia boundary commission and take immediately concrete steps to enable, without preconditions, the commission to demarcate the border completely and promptly. On 17 December 2005, my noble Friend, the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, met Prime Minister Meles in Addis Ababa and had constructive discussions on the border. As a consequence we are consulting widely with international partners to further the process.

Ms Abbott: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the viability of sanctions to ensure that President Meles Zenawi complies with the Algiers Agreement; and if he will make a statement. [43133]

Ian Pearson: UN Security Council resolution 1640 demands that Ethiopia accept fully and without further delay the final and binding decision of the Eritrea-Ethiopia boundary commission. It did not threaten sanctions against Ethiopia for failing to implement the boundary commission's ruling as set out in the Algiers Agreement. It threatened sanctions in the event that Ethiopia or Eritrea did not meet the Security Council's demand to return forces to December 2004 levels of deployment.

The UN Security Council considered the implementation of Security Council resolution 1640 on 9 January 2006 when it decided to postpone further consideration to allow time for bilateral initiatives. We, along with Security Council partners, will consider next steps in light of the progress of these initiatives.

Ms Abbott: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to secure the release of the 131 recently detained Ethiopian opposition leaders, reporters and aid workers. [43135]

Ian Pearson: We remain concerned at the arrest and detention of Coalition for Unity and Democracy opposition leaders, media and civil society representatives. We continue to raise those concerns with the Government of Ethiopia at every suitable opportunity. Most recently, my noble Friend, the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, met with Prime Minister Meles Zenawi and stressed the importance that those detained and charged with offences should receive a fair, open and transparent judicial trial and those not charged should be released immediately.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs when a new Governor of Gibraltar will be appointed; and who will be consulted on the appointment. [44537]

Mr. Douglas Alexander *[holding answer 20 January 2006]:* The Foreign and Commonwealth Office, in consultation with the Ministry of Defence will consider candidates to succeed Sir Francis Richards as Governor of Gibraltar.

In keeping with the commitment made by my noble Friend Baroness Amos, the then Foreign and Commonwealth Office Parliamentary Under-Secretary of State, at the Overseas Territories Consultative Council in September 2002, the Chief Minister of Gibraltar will be involved in the consultation process.

This recruitment process is already under way, and we hope to make an announcement in the spring.

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress of talks on the transfer of powers from the Governor of Gibraltar and the UK Government to the Gibraltar Government. [44538]

Mr. Douglas Alexander *[holding answer 20 January 2006]:* The Chief Minister of Gibraltar wrote to my right. hon. Friend the Foreign Secretary in December 2003 formally tabling proposals for the reform of the 1969 Gibraltar Constitution. These proposals have been considered very carefully and have been the subject of two rounds of discussion between officials and a cross-party Gibraltar delegation, led by the Chief Minister. My right hon. Friend the Foreign Secretary recently met the Chief Minister to discuss a number of the more important issues. Substantial progress has been made, but a number of outstanding issues remain.

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress of talks between the UK, Gibraltar and Spain. [44539]

Mr. Douglas Alexander *[holding answer 20 January 2006]:* My right. hon. Friend the Foreign Secretary and his Spanish counterpart, Sr Moratinos, announced the creation of the new Trilateral Forum on Gibraltar in October 2004. Since then, the Chief Minister and senior officials from the Foreign and Commonwealth Office and Spanish Foreign Ministry have met on four occasions to discuss a range of issues, including telecommunications, aviation issues, pensions and cross-border co-operation. These talks are progressing well and they are likely to meet again in the first half of next month.

Guy Patrice Lumumba

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the arrest of Guy Patrice Lumumba in the Democratic Republic of Congo. [42502]

Ian Pearson *[holding answer 17 January 2006]:* Guy Patrice Lumumba was arrested on 17 December 2005 in Kinshasa and accused of a common law violation. I am not aware of any official statements from the Congolese authorities relating to his case.

India

Mr. Streeter: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to encourage the Government of India to ensure the protection of the minority Christian and Muslim communities in the Darys district of Gujarat from violence threatened by Hindu extremist groups. [44772]

Dr. Howells: We are aware of the alleged involvement of Hindu extremist organisations in attacks against religious minorities in India. We condemn all instances where individuals are persecuted because of their faith or belief, wherever they happen and whatever the religion of the individual or group concerned. Our High Commission in New Delhi continues to monitor the issue of religious freedom, with staff making regular calls on the appropriate Indian authorities to flag up our concern about incidents of religious intolerance. We will continue to insist that the right to freedom of religion is upheld, and that those responsible for attacks against people on grounds of their religion are brought to justice.

Indonesia

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will assess the position of the Christian community in Indonesia, with particular reference to those facing *(a)* prosecution and *(b)* the death penalty. [44423]

Ian Pearson: Christians in Indonesia enjoy a high degree of religious freedom. Their right to worship is protected under the Indonesian constitution. There are sporadic incidents of inter-religious violence in certain religiously mixed areas which have adversely affected both the Christian and Muslim populations. However, these have decreased in recent years and the Government of Indonesia is keen to ensure good inter-communal relations, including by working with Muslim and Christian community leaders to reduce tensions.

There are a small number of court cases involving Christians. Where the death penalty has been imposed, as in any other court case, we urge the Indonesian Government to refrain from carrying out executions, and to consider the abolition of the death penalty.

Iran

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the *(a)* bilateral and *(b)* multi-lateral contact he has had with the Government of Iran since January 2005 concerning nuclear processing; and what plans he has for further contact. [44458]

Dr. Howells: My right hon. Friend the Foreign Secretary has had regular bilateral and multi-lateral contact with the Government of Iran since January 2005.

He presently has no plans for further meetings.

Iraq

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his officials have had with the Kurdish Regional Government of Iraq concerning *(a)* removal of non-Kurdish people from the area and *(b)* freedom of expression; and if he will make a statement. [44463]

Dr. Howells: Officials have had no discussions with the Kurdish Regional Government (KRG) on the removal of non-Kurdish people from the Kurdish region.

The Government are committed to supporting freedom of expression in Iraq. Our embassy offices in Iraq discuss such matters with the Iraqi Government, including the KRG, on a regular basis.

Maldives

Mr. Streeter: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Maldivian Government about the recent incident of harassment of Minivan Radio by Interpol; and if he will make a statement. [44725]

Dr. Howells: My right hon. Friend the Foreign Secretary has not had any discussions with the Government of the Maldives on this subject. However, officials from the British high commission in Colombo, accredited to the Maldives, raised this incident with the Maldivian Deputy Foreign Minister on 16 January 2006. We are aware that the Sri Lankan police, acting on a request through Interpol from the Government of the Maldives, made inquiries at the offices of Minivan Radio in Colombo in December 2005. We have no detailed information about the nature of these inquiries. We understand that the Sri Lankan police have indicated that no further action is to be taken. Minivan has relocated its Sri Lankan office to the United Kingdom.

We support democratic reform in the Maldives. Guaranteeing press freedom is an essential part of this process. In support of this, we have funded training for private and state media in Maldives which seeks to raise the quality of political reporting and public debate.

Nuclear Proliferation

Mr. Maples: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the UK Government have taken since the June 2005 Non-Proliferation Treaty Review Conference to strengthen the nuclear non-proliferation treaty; and if he will make a statement. [44498]

Dr. Howells: Since June 2005, the UK has continued to play a proactive role in international efforts in a range of fora to strengthen all three pillars of the Non-Proliferation Treaty (NPT), including:

at the UN world summit, where we worked extensively for proactive language on non-proliferation;

through our continuing involvement in the Norwegian-led seven-country initiative designed to generate broad support for a forward-looking non-proliferation agenda;

in the International Atomic Energy Agency, where we have actively participated in discussions designed to strengthen the NPT and address the issue of non-compliance;

as G8 President during 2005, including by leading G8 efforts to encourage all states to adopt the IAEA's Additional Protocol;

through active participation in the diplomatic conference which agreed the Amendment on the Convention on the Physical Protection of Nuclear Material.

Somalia

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what British participation there has been in the peace process in Somalia; and if he will make a statement. [44455]

Ian Pearson: We have been closely engaged in the Somali National Reconciliation Conference and the subsequent political process and continue to work closely with the UN and other members of the international community to achieve a comprehensive and lasting settlement and a return to good governance in Somalia. My noble Friend, the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, and my right hon. Friend, the Secretary of State for International Development and their officials have met the Transitional Federal President, Speaker and Prime Minister of Somalia on many occasions and have urged them to resolve their differences through dialogue.

They have also met with and fully support the Special Representative of the UN Secretary-General in encouraging Somali-owned reconciliation initiatives. We are working with other members of the international community to help convene an early meeting of the Transitional Federal Parliament inside Somalia and remain prepared to offer further assistance to reconciliation and rebuilding the Somali state.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what monitoring of the human rights situation in Somalia is undertaken by his officials; and if he will make a statement. [44457]

Ian Pearson: Our ability to monitor the human rights situation in Somalia is severely limited because of the dangerous internal security situation, but as set out in the Foreign and Commonwealth Office Annual Report on Human Rights 2005, our judgment is that Somalia's population, many of whom have been displaced, both internally and across borders, lacks access to basic economic, social and political rights as well as formal judicial systems.

Somaliland

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent communications he has had with the Government of Somaliland; and if he will make a statement on future relations. [44454]

Ian Pearson: My noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, met the Somaliland authorities' Foreign Affairs spokesperson, Edna Adan, on 20 May 2005. During the year he exchanged letters with the Head of the Somaliland authorities, His Excellency Dahir Rayale Kahin, on the London bombings and the Somaliland elections. We acknowledge the progress achieved by Somaliland and hope to help the authorities there to further their democratic and developmental agenda through bilateral and multilateral contributions to aid programmes.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's

most recent assessment is of criminal violence in Sudan; and what recent reports it has received from the United Nations Mission in Sudan on this issue. [18120]

Ian Pearson: The United Nations Mission in Sudan provides regular reports on the security situation in Sudan. The security situation has improved in the south since the signing of the Comprehensive Peace Agreement. However, criminal violence and banditry are widespread in Darfur. When my noble Friend the Foreign and Commonwealth Office Minister for Africa, Lord Triesman of Tottenham, visited Sudan from 5–8 October he made clear to the Government of Sudan that more must be done to improve security in Darfur. The Government are providing almost £32 million to support the African Union Mission in Darfur, which includes a sizeable civilian policing element.

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to tackle the ongoing violence and rape in Darfur; and if he will make a statement. [44039]

Ian Pearson: We deplore the ongoing rape and sexual violence in Darfur. Such attacks are abhorrent and totally unacceptable. In his latest report on Darfur, the UN Secretary-General notes that reports of sexual assaults are received on a daily basis. The African Union (AU) mission in Darfur is increasingly co-ordinating its patrols to provide protection for women when they leave the camps for Internally Displaced Persons. Where this is happening the number of reported rapes has decreased significantly, and we are encouraging the AU to promote this practice. The UK has provided almost £32 million in support to the AU.

We have made, and continue to make clear to the Government of Sudan that more must be done to provide security for the citizens of Darfur, and that perpetrators of such crimes must be brought to justice. In late December 2005, the UK participated in a mission to assess human rights in West Darfur consisting of representatives of the Government of Sudan, the UN and international community. The mission paid specific attention to sexual violence, and produced a number of recommendations. We are pressing the Government of Sudan to implement these recommendations as a matter of urgency.

Terror Suspects

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what NATO's policy is on the rendition of terror suspects detained by International Security Assistance Force (ISAF) forces in Afghanistan; and if he will make a statement. [44265]

Dr. Howells *[holding answer 20 January 2006]:* Troops deployed under the International Security Assistance Force (ISAF) are able to arrest and detain by virtue of the authorisations permitting use of all necessary measures to fulfil its mandate contained in, most recently, United Nations Security Council Resolution 1623 (2005), and by agreement with the Government of Afghanistan. NATO-agreed ISAF detention policy is that individuals should be transferred to the Afghan authorities at the first opportunity and within 96 hours or released.

UN Convention Against Corruption

Andrew George: To ask the Secretary of State for Foreign and Commonwealth Affairs when the Government will ratify the United Nations Convention Against Corruption. [44441]

Ian Pearson: The Government's policy on international treaties is that we only move to ratification once UK law is in compliance. In order to comply with the commitments contained in the United Nations Convention Against Corruption it was necessary, inter alia, to introduce secondary legislation under the Criminal Justice (International Co-operation) Act 1990 (Enforcement of Overseas Forfeiture Orders) and the Proceeds of Crime Act 2002 (External Requests and Orders). The relevant Orders in Council came into force by 1 January 2006. The Foreign and Commonwealth Office is now in the process of drafting the instrument of ratification. This requires the Secretary of State's signature and must be formally presented to the depository organisation, in this case the United Nations Office on Drugs and Crime. The process should be completed early in 2006.

UN Human Rights Convention

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the members of the UK delegation to the 2006 United Nations Human Rights Convention in Geneva; and what issues the delegation proposes to bring before it. [44573]

Ian Pearson: The UN World Summit on 14–16 September 2005 agreed to create a new UN Human Rights Council to replace the Commission on Human Rights. Negotiations on the mandate, functions and other elements of the Council are ongoing in New York. Their conclusion and its timing will influence the format of this year's Commission on Human Rights, and the work that it will undertake. For this reason it is not yet possible to list the UK's delegation, although we can confirm that it will be headed by the UK Permanent Representative to the UN in Geneva, ambassador Nick Thorne. For the same reasons, no decisions have been taken on what issues we might bring before the Commission. We expect to work closely with EU and other partners in ensuring a smooth transition from the Commission to the Human Rights Council.

Western Sahara

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effects of the EU-Morocco Fishing Agreement on the peace process in the Western Sahara. [44577]

Dr. Howells: The UK fully supports the United Nations process, including the efforts of the UN Secretary-General and his Personal Envoy to Western Sahara, to assist the parties to achieve a political solution to the question of Western Sahara. The EU-Morocco fisheries agreement is an EU bilateral partnership agreement and should have no effect on the question of the status of Western Sahara being dealt with under the UN process.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the progress of decolonisation of the Western Sahara; and when he expects a referendum to be held. [44578]

Dr. Howells: The UK fully supports the efforts of the UN Secretary-General, Kofi Annan, and his new Personal Envoy to Western Sahara, Peter Van Walsum, to assist the parties to achieve a just, lasting and mutually acceptable political solution, which will provide for the self-determination of the people of Western Sahara. On 18 January 2006, Mr. van Walsum briefed the UN Security Council on progress. The UK will now consider his comments carefully.

On 28 October, the Security Council unanimously adopted United Nations Security Council Resolution 1634 which renewed the mandate for the UN Mission for the Referendum in Western Sahara. The Government supported this. There are, however, no plans for a UN referendum to be held in the near future.

DEPUTY PRIME MINISTER

Adenstar (Portslade)

Norman Baker: To ask the Deputy Prime Minister what factors he took into account in accepting the invitation to open the new offices of Adenstar in Portslade on 13 May 2002; and if he will make a statement. [44786]

Jim Fitzpatrick: Information relating to internal meetings, discussion and advice is not disclosed as to do so could harm the frankness and candour of internal discussion.

Audit Commission Chairman

Mrs. Spelman: To ask the Deputy Prime Minister what criteria were used when making the decision to reappoint James Strachan as Chairman of the Audit Commission. [42598]

Mr. Woolas: Mr. Strachan was offered re-appointment as Chairman of the Audit Commission for a period of two years. In December 2005 he wrote to inform my right hon. Friend the Deputy Prime Minister of his decision not to take up his reappointment.

Beach Safety

Mrs. Moon: To ask the Deputy Prime Minister if he will take steps to make beach safety provision a statutory responsibility of *(a)* local authorities and *(b)* other beach owners. [44704]

Jim Fitzpatrick: At present the provision of beach safety services is at the discretion of local authorities. The Government have no plans to replace the current discretionary power with a statutory obligation.

The Government wants to see local authorities act as effective and responsible community leaders, listening to the views of local people and providing services which meet their needs.

There are no plans to legislate to alter the responsibilities of private beach owners.

Brighton and Hove Albion

Norman Baker: To ask the Deputy Prime Minister whether he *(a)* informed and *(b)* sought advice from (i) his Permanent Secretary and (ii) other officials before deciding (A) to meet the Chairman of Brighton and Hove Albion and (B) to accept hospitality from the club on 16 December. [44789]

Jim Fitzpatrick: Information relating to internal meetings, discussion and advice is not disclosed as to do so could harm the frankness and candour of internal discussion.

The hospitality provided to my right hon. Friend the Deputy Prime Minister by Brighton and Hove Albion on 16 December consisted of a steak and kidney pie and a glass of water in the crèche temporarily being used as the directors' box. This event was also attended by the directors of both clubs.

Council Tax

Geraldine Smith: To ask the Deputy Prime Minister how much money was raised by council tax in each of the last seven years. [44649]

Mr. Woolas: The council tax received in England in each of the last seven years is tabled as follows. The figures include both arrears received for previous years and prepayment of council tax for subsequent years.

	£ million
1998–99	10,579
1999–2000	11,457
2000–01	12,242
2001–02	13,208
2003–03	14,510
2003–04	16,392
2004–05	17,372

The data are as reported on QRC4 forms submitted by all billing authorities to the Office of the Deputy Prime Minister each year.

Geraldine Smith: To ask the Deputy Prime Minister how many people were billed for council tax in 2004–05. [44658]

Mr. Woolas: The number of council tax demand notices issued by local billing authorities in 2004–05 is not held centrally, and could be provided only at disproportionate cost.

Details of the number of chargeable dwellings in England in 2004–05 are published in Table 2.2k of Local Government Financial Statistics England No. 16, a copy of which is available in the Library of the House and on the Office of the Deputy Prime Minister's

website at: http ://www.local.odpm.gov.uk/finance/stats/lgfs/2005/lgfs16/h/lgfs16/xlsfiles/lgfs16-2-2k.xls.

Mrs. Spelman: To ask the Deputy Prime Minister if he will place in the Library a copy of each response to the Department's Consultation Paper on council tax revaluation in England: publication of property information. [43006]

Mr. Woolas: The responses to the Office of the Deputy Prime Minister's Consultation Paper—'Council Tax Revaluation in England: Publication of Property Information' have been made available in the Library of the House. A large majority of these are supportive of the inclusion of property details in any new council tax valuation list. A new valuation list will only be compiled at such time as a council tax revaluation takes place. There are no plans to publish additional information on property details as part of the current list.

Departmental Expenditure

Pete Wishart: To ask the Deputy Prime Minister what the cost was of pension contributions incurred by *(a)* his Department, *(b)* each (i) non-departmental public body, (ii) Executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [39984]

Mr. Woolas: Set out as follows are the contributions incurred by the Office of the Deputy Prime Minister, Executive agencies and non-departmental public bodies (NDPB) for financial years 2002–03 to 2004–05. The planned expenditure for bodies other than ODPM are not held centrally, and could be provided only at disproportionate cost. In addition, the geographical split across the regions can be obtained only at disproportionate cost:

£000

	2002–03	2003–04	2004–05	2005–06 (planned)
(a) ODPM	17,025	20,414	22,103	29,855

n/a—Data not applicable
[1] Not disclosed

For 2005–06, employers' contributions are payable to the Principal Civil Service Pension Scheme (PCSPS) at one of four rates in the ranges 16.2 to 24.6 per cent. of pensionable pay, based on salary bands. The Scheme Actuary reviews employer contributions every four years following a full scheme valuation; last carried out as at 31 March 2003. The contribution rates reflect the cost of benefits as they accrue (net of employee contributions), not the costs as they are actually incurred, and reflect past experience of the scheme.

Engagements

Mrs. Spelman: To ask the Deputy Prime Minister whether staff from his Department plan to attend *(a)* the Mass Appraisal Valuation Symposium in Vancouver, Canada on 6–7 February 2006, *(b)* the Integrating GIS and CAMA Conference in Orlando, Florida on 19–22 February 2006 and *(c)* the International Property Tax Institute International Conference in Kuala Lumpur, Malaysia in August. [42594]

Mr. Woolas: No staff within the Office of the Deputy Prime Minister will attend any of the events listed.

Mrs. Spelman: To ask the Deputy Prime Minister whether staff from his Department attended *(a)* the International Property Tax Institute International Conference in Prague on 23–24 August 2005, *(b)* the Southern African Tax Institute Workshop on the Valuation and Rating of Public Service Infrastructure on 2–3 June 2005 in Pretoria, South Africa and *(c)* the Eighth International Conference of the Institute of Revenues Rating and Valuation in Alicante, Spain on 22–25 February 2005. [42595]

Mr. Woolas: The Office of the Deputy Prime Minister has no record of any of its staff attending any of the events listed.

EU Funding

Danny Alexander: To ask the Deputy Prime Minister what assessment he has made of the impact of agreed changes to the EU budget on funds provided by the EU for regeneration in deprived areas of the UK; and if he will make a statement. [44253]

Alun Michael: I have been asked to reply.

In my written statement to Parliament of 20 December 2005 I set out the impact of the EU budget settlement for the UK's future Structural Funds allocations. The UK will receive approximately €2.6 billion in Convergence funding (previously called Objective 1 funding) for its poorest regions. Cornwall and West Wales and the Valleys will receive full Convergence funding, while the Highlands and Islands will receive phasing-out Convergence funding averaging approximately two-fifths of the intervention rates for the UK's future full Convergence regions. The UK will also receive approximately €6.2 billion in Competitiveness funding for its other regions. Of this, South Yorkshire and Merseyside will receive phasing-in Competitiveness funding averaging approximately one-third of the intervention rates for the UK's future full Convergence regions. We have now started the process of deciding how the UK's remaining Competitiveness funding should be allocated between our nations and regions. Finally, the UK will receive approximately €0.6 billion in Co-operation funding. The Government will also need to agree with the Commission how this should be allocated.

Fire Service (Mobile Communications)

Bob Spink: To ask the Deputy Prime Minister what use the fire service made of public mobile communications networks during the response operation to the incidents on the London Underground and bus network on 7 July 2005. [43783]

Jim Fitzpatrick: The fire and rescue service made very limited use of the public mobile communications networks at the incidents they attended on the 7 July 2005. The public mobile phone systems are not used by the London Fire Brigade as the primary means of communication for the mobilisation of officers or appliances to attend incidents, nor to pass information from the incidents. All the primary communication systems performed efficiently on the 7 July.

Bob Spink: To ask the Deputy Prime Minister how many instances have been recorded of the fire service using mobile phone location data to effect a rescue operation. [43784]

Jim Fitzpatrick: The information requested is not held centrally. The fire and rescue service is not responsible for tracking criminals.

Local Authority Allowances

Mrs. Spelman: To ask the Deputy Prime Minister if he will list the guidance and regulations the Government have published since May 1997 on allowances for local authority members of *(a)* national park authorities, *(b)* passenger transport authorities, *(c)* fire authorities, *(d)* police authorities and *(e)* regional chambers. [42607]

Mr. Woolas: Legislation provides that a special responsibility allowance may be payable to members representing their local authority at meetings of another body.

Since 1997 guidance has been issued to accompany legislation on members' allowances in 2001 and 2003.

Since 1997 the following legislation having relevance to attendance, and later special responsibility, allowances have been published:

The Local Authorities (Members' Allowances) (Amendment) Regulations 1998/556 came into force: 1 April 1998

The Local Authorities (Members' Allowances) (Amendment) (No. 2) Regulations 1998/557 came into force: 1 April 1998

The Local Authorities (Members' Allowances) (Amendment) Regulations 1999/1086 came into force: 30 April 1999

The Local Authorities (Members' Allowances) (Amendment) (No. 2) Regulations 1999/1087 came into force: 30 April 1999

The Local Government Act 2000 came into force: 28 July 2001

The Local Authorities (Members' Allowances) (England) Regulations 2001/1280 came into force: 4 May 2001

The Local Authorities (Members' Allowances) (England) Regulations 2003/1021 came into force: 1 May 2003

The Local Authorities (Members' Allowances) (England) (Amendment) Regulations 2003/1692 came into force: 31 July 2003

Local Government Finance

Mrs. Spelman: To ask the Deputy Prime Minister if he will list the representations the Government has received from hotel companies and the tourism industry in relation to the reform of local government finance in the last two years. [42610]

Mr. Woolas: The Office of the Deputy Prime Minister has no record of any such representations. The Department for Culture Media and Sport have received copies of representations made by such groups to Sir Michael Lyons' independent Inquiry. Sir Michael published an interim report and consultation paper on 15 December. This report lists contributors to his inquiry and understand that links to the representations received will be posted shortly on the inquiry's website at: www.lyonsinquiry.org

Pay and Work Force Strategies

Mr. Fallon: To ask the Deputy Prime Minister how many local authorities are implementing local government pay and workforce strategies. [44950]

Mr. Woolas: A People Management Survey 2005 conducted by the Employers Organisation showed that 83 per cent. of local authorities have a work force strategy in place.

Telecommunications Masts

Mr. Hunt: To ask the Deputy Prime Minister what recent discussions his Department has had with mobile phone operators on the siting of mobile phone masts; and if he will make a statement. [41472]

Yvette Cooper: Since the beginning of November the Office of the Deputy Prime Minister has had one meeting with the Mobile Operators Association and a representative of each of the five mobile network operators, which discussed the Code of Best Practice on siting of mobile phone masts.

Representatives of the mobile networks operators have attended a project meeting for the research to identify the future direction of mobile phone and electronic communications network technology.

Officials have also had telephone conversations with representatives of the mobile networks operators about a number of different issues.

Valuation Office Agency

Mrs. Spelman: To ask the Deputy Prime Minister whether the Ordnance Survey has provided the Valuation Office Agency with *(a)* aerial and *(b)* satellite imagery. [42593]

Mr. Woolas: No.

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 20 December 2005, *Official Report*, column 2837W, on the Valuation Office Agency, what penalties can be levied on businesses who refuse to allow a valuation officer or his agent to conduct an internal inspection after written notice has been given of the inspection. [42596]

Mr. Woolas: The maximum fine for refusing access to a valuation officer who has given notice as required of the exercise of the power of entry is level 1 on the standard scale, under legislation introduced in 1988.

Mrs. Spelman: To ask the Deputy Prime Minister what information Ordnance Survey has provided to the Valuation Office Agency in relation to council tax valuations and revaluations. [42917]

Mr. Woolas: No such information has been provided.

Mrs. Spelman: To ask the Deputy Prime Minister whether the Valuation Office Agency *(a)* collects and *(b)* collates information from local planning authorities on (i) business planning applications and (ii) residential planning applications. [43100]

Mr. Woolas: The Valuation Office Agency may obtain information from local planning authorities which is relevant to its various valuation activities.

Value Bill Project

Mrs. Spelman: To ask the Deputy Prime Minister if he will make a statement on the *(a)* purpose, *(b)* extent and *(c)* status of the Value Bill project; how much has been spent on the project to date; and what the total forecast expenditure is for the whole project. [42620]

Jim Fitzpatrick: The information is as follows:

(a) The Value Bill Project is one of the 22 Local e-Gov National. The project examined ways of effectively and efficiently linking local government and the Valuation Office Agency.

(b) The project has achieved its objective.

(c) This project has now completed its development phase. It was awarded grants totalling £2,660,950.00 over two years (2002–04). The products are now being rolled out by London Connects.

WORK AND PENSIONS

Benefit Helplines

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how many staff will be answering calls on each of the benefit helplines at his Department from 23 December 2005 to 3 January 2006; and what the equivalent figures were for *(a)* 2004 and *(b)* 2003. [39178]

Mr. Plaskitt: The number of people answering calls at any helpline may vary during each day in order to provide as consistent a level of service as possible to the varying volume of calls being received.

The information that is available is recorded in the table:

n/a = Not available.
[1] Debt Management figures are unavailable due to installation of new IT system.
[2] In addition, Jobcentre Plus Direct, First Contact will have 194 staff answering calls from Scotland on 28 December 2005.
[3] Jobcentre Plus Direct, First Contact figures are unavailable for 2003–04 and 2004–05 as, prior to the establishment of the new organisational structure in April 2004 calls, would have been dealt with right across the dispersed regional organisation.
[4] In addition, Employer Direct will have six staff answering calls on 31 December 2005.
[5] Employer Direct has only recently joined the Jobcentre Plus Directorate, exact figures are not available for 2003–04 or 2004–05.
[6] National Benefit Fraud Hotline has only recently joined the Jobcentre Plus Directorate, exact figures are not available for 2003–04 or 2004–05.
[7] Comparable Pension centre figures are not available for 2003–04 or 2004–05.
[8] No further Pension Credit Application Line data is available.
[9] Data for the Future Pension Centre is not available for 2003–04.
[10] Data for the International Pension Centre are not available for 2003–04 or 2004–05.
[11] Data for the Pension Information Order Line are not available for 2003–04 or 2004–05.
Note:
No information is available for the outsourced Winter Fuels Line.

Benefit Payment Times

Ms Katy Clark: To ask the Secretary of State for Work and Pensions (1) what the average time taken from application was for claimants to receive their payments of each benefit that the Department distributes in the last period for which figures are available; [39393]

(2) what proportion of payments of each benefit that his Department distributes were not distributed within the target timescale in the last period for which figures are available. [39394]

Margaret Hodge: The available information is in the table.

Target	Achievement (percentage)	Average actual clearance time (days)
Attendance allowance[1]: clear claim in 22 days	100	17.9
Attendance allowance[2]: clear claim in 8 days	100	4.5
Bereavement benefit/widows benefit	[3]n/a	10.6
Carers allowance: clear claim in 22 days	100	13.4
Disability living allowance[1]: clear claim in 39 days	100	34.5
Disability living allowance[2]: clear claim in 8 days	100	5.7
Incapacity benefit: clear claim in 19 days	92.4	15.4
Income support: clear claim in 12 days	95.41	11
Jobseekers allowance: clear claim in 12 days	91.62	14
Maternity allowance	[3]n/a	11.5
Pension credit: average actual clearance time 10 days[1]	n/a	8.62
State pension claims: clear 95 per cent. in 60 days[4]	97.05	n/a
State pension claims: clear 91 per cent. in 28 days[4]	90.64	n/a

[1] Figures are year to date to November 2005.
[2] Normal rules
[3] Special rules (those cases where the claimant has a terminal illness)
[4] Measured from when evidence requirements are met
[5] Target applies only to non-complex cases (complex cases are those claims to state pension from customers who have been widowed or divorced and the spouse's national insurance contributions are taken into consideration).
Note:
Not part of any PSA or reportable performance measure and do not appear on the management information portal. We still collect data through MISP but the information is purely used as a local measurement tool.

Benefit Services

Chris Ruane: To ask the Secretary of State for Work and Pensions what assessment he has made of the impact of the free telephone service on the take-up of *(a)* crisis loans and *(b)* other benefits. [41823]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 23 January 2006:

The Secretary of State has asked me to reply to your question asking what assessment he has made of the impact of the free telephone service on the take up of *(a)* crisis loans and *(b)* other benefits. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

In areas that are covered by the new Jobcentre Plus model, the customer calls a contact centre to make a claim for any working age benefit. This call is charged at local rate, or alternatively the customer can use a dedicated Customer Access phone in their local Jobcentre free of charge. We have not undertaken any central assessment of the impact of the availability of Customer Access phones on the take-up of working age benefits.

The free telephone service for crisis loans is not yet available in every part of the country and, therefore, we are not yet able to formally assess the impact of the service on national take-up of Crisis Loans.

I hope this helpful.

Child Poverty

Mr. Laws: To ask the Secretary of State for Work and Pensions how many children were living in poverty in each year since 1975–76, measured in terms of *(a)* absolute low income, *(b)* relative low income and *(c)* material deprivation; and if he will make a statement. [41195]

Margaret Hodge: The information requested is not available. The available information is in the tables.

Children with income below 60 per cent. of 1996–97 median income held constant in real terms, 1994–05 to 2003–04, (absolute low income)

Number (Million)

	Below 60 per cent. median	
FRS (GB)	*Before housing costs*	*After housing costs*
1994–95	3.3	4.3
1995–96	3.2	4.4
1996–97	3.2	4.2
1997–98	3.0	4.0
1998–99	2.8	3.9
1999–2000	2.4	3.6
2000–01	2.0	3.0
2001–02	1.6	2.5
2002–03	1.5	2.2
2003–04	1.4	2.2

Children falling below 60 per cent. of contemporay median income, (relative low income)

Number (Million)

	Below 60 per cent. median	
FRS (GB)	*Before housing costs*	*After housing costs*
1994–95	2.9	4.0
1995–96	2.8	4.0
1996–97	3.2	4.2
1997–98	3.1	4.1
1998–99	3.1	4.1
1999–2000	3.0	4.1
2000–01	2.7	3.8
2001–02	2.6	3.7
2002–03	2.6	3.6
2003–04	2.6	3.5

Notes:
1. The Family Resources Survey (FRS) data is for all financial years 1994–95 until 2003–04. Comparisons of estimates between the two sources should be treated carefully.
2. FRS figures are for Great Britain. The reference period for FRS figures is single financial years.

Source:
FRS.

Detailed information about the number and proportion of children living in low income households is published in 'Households Below Average Income 1994/95–2003/04', available in the Library. The report includes comparisons of incomes against low income thresholds, such as the commonly used relative low income threshold of 60 per cent. of contemporary median income.

Data to measure material deprivation have been collected on the Family Resources Survey since 2004. Baseline data for the material deprivation and low income combined tier of the child poverty measure will be available in spring 2006.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many children lived in workless households in each year since 1975–76; and if he will make a statement. [41223]

Margaret Hodge: At spring 2005 there were 1.75 million children living in a household with no adult in work. Information prior to 1992 is not available; the available information is in the table.

Period	*Children in households with no one in work*
Spring 1992	2,224,705
Spring 1993	2,312,341
Spring 1994	2,420,001
Spring 1995	2,370,800
Spring 1996	2,292,382
Spring 1997	2,126,242
Spring 1998	2,132,863
Spring 1999	2,080,762
Spring 2000	1,900,721
Spring 2001	1,841,432
Spring 2002	1,899,472
Spring 2003	1,820,008
Spring 2004	1,782,604
Spring 2005	1,752,731

Source:
Household Labour Force Survey

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of children in *(a)* working and *(b)* workless households were living in relative poverty in the last period for which figures are available; and if he will make a statement. [41291]

Margaret Hodge: The seventh annual "Opportunity for all" report (Cm 6673) sets out the Government's strategy for tackling poverty and social exclusion and reports progress against a range of indicators. Detailed information about the number and proportion of children living in low income households is published in "Households Below Average Income 1994/95–2003/04", available in the Library. The threshold of below 60 per cent. contemporary median income is the most commonly used in reporting trends in low income.

The information requested is in the table.

Percentage of children living in households with income less than 60 per cent. of contemporary median income, Great Britain

2003–04	*Percentage*
Before housing costs	
Working	13
Workless	55

Percentage of children living in households with income less than 60 per cent. of contemporary median income, Great Britain

2003–04	*Percentage*
After housing costs	
Working	17
Workless	77

Notes:
1. Working households are defined as having at least one adult in work, where an adult is over 16 years of age including those above state retirement age.
2. Workless households are defined as having no adults in work.

Mr. Laws: To ask the Secretary of State for Work and Pensions by what date he plans to start to measure the number of children experiencing material deprivation in the United Kingdom; what targets he will set for reducing this measure of deprivation; and if he will make a statement. [41308]

Margaret Hodge: Data to measure material deprivation have been collected on the Family Resources Survey since 2004. Baseline data for the material deprivation and low-income combined tier of the child poverty measure will be available in spring 2006.

The technical note setting out details of how the child poverty PSA target announced in the 2004 Spending Review will be measured is available in the Library.

Child Support Agency

Mr. Holloway: To ask the Secretary of State for Work and Pensions how much information relating to Child Support Agency cases in Kent has been lost due to the new IT system. [28595]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Substantive answer from James Plaskitt to Adam Holloway:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how much information relating to Child Support Agency cases in Kent has been lost due to the new IT system.

Neither the Agency nor the service supplier (EDS) are aware that any data has been lost from the new computer system (CS2) in any area of the country. Any information relating to child support cases that has been saved to the system is retained in the system.

I hope you find this information helpful.

Customer Management Computer Systems

Danny Alexander: To ask the Secretary of State for Work and Pensions what performance standards are contractually required for the provision of the Customer Management computer system; what sanctions there are for the system provider if the standards are not met; on what occasions these standards have not been met; and what action was taken as a result. [34252]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 23 January 2006:

The Secretary of State for Work and Pensions has asked me to reply to your question concerning the performance standards that are contractually required for the provision of the Customer Management computer system; what sanctions there are for the system provider if the standards are not met; on what occasions these standards have not been met; and what action was taken as a result. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The contract for the Customer Management System (CMS) contains two measures of performance standards; service availability and response times.

The CMS service availability level measures the extent to which the CMS end to end operational service is accessible for use by all CMS registered users in each Service Management Period (SMP). The service level for CMS is that the system should be available for at least 98.5 percent of the time in each SMP. This has not been met on four occasions since CMS began in October 2003.

The other criteria that we use to measure system performance are system response times that are measured using a variety of different system transactions. These have not been met on only one occasion.

There are sanctions for non-compliance with the service levels in the form of service credits against the service charge for the SMP. The value of the service credits increases on a pre-determined scale depending on the extent of the failure. We have claimed back the appropriate service credits on each of the five occasions that the service levels have not been met.

Throughout, we have worked jointly with our service providers on a programme of continual and sustained service improvement resulting in a number of system releases during 2004 and 2005 to remove non-critical system defects and improve the performance and reliability of the system.

I hope this response is helpful.

Departmental Advisers

Mr. Ruffley: To ask the Secretary of State for Work and Pensions what the costs were to his Department of external *(a)* consultants, *(b)* advisers, *(c)* accountants and *(d)* lawyers in each of the last six years. [42770]

Margaret Hodge: A breakdown into the specific categories requested is not available.

Expenditure on externally provided management and technical support, including consultants, advisers, accountants and lawyers is as follows, however the figures cover costs for a more comprehensive definition than the categories requested. It includes management and IT consultants, staff providing professional services, including financial and legal services.

	Total (£ million)
2001–02	169.49
2002–03	291.52
2003–04	412.53
2004–05	345.63

Note:
The Department for Work and Pensions was established in June 2001.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Work and Pensions how much was spent on external consultants and advisers by *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* each

independent statutory body, organisation and body financially sponsored by his Department in each year since May 1997. [39077]

Margaret Hodge: Spend on external consultants and advisers since May 1997 (where available) is in the table. Spend for April 2005 to date is also given in some instances but is not yet available in every case.

(a) The Department was established in June 2001 and information relates from this date only.

The Department

Financial year	*£ million*
2001–02	94.46
2002–03	141.04
2003–04	306.72
2004–05	168.37

(b) (i) Each non-departmental public body. Listed are those who operate separate accounting systems, others for example the Independent Review Service and the National Employer Panel are included in the total at answer *(a)*.

The Disability Rights Commission

Financial year	*£*
2000–01	19,488
2001–02	797,045
2002–03	435,415
2003–04	611,676
2004–05	789,438

Private Pensions Fund—established 6 April 2005

Financial year	*£*
April-November 2005	576,00

Independent Living Funds[1]

Financial year	*£*
2001–02	56,235
2002–03	13,363
2003–04	35,014
2004–05	73,151

[1] No figures available before 2001

Pensions Ombudsman[1]

Financial year	*£*
2002–03	24,100
2003–04	10,800
2004–05	74,200

[1] No figures available before 2002–03

Remploy Ltd.

Financial year	*£*
1997–98	740,000
1998–99	924,000
1999–2000	1,712,00
2000–01	3,335,000
2001–02	2,479,000
2002–03	2,171,000
2003–04	2,559,000
2004–05	3,240,000

(b) (ii) Each executive agency for which the Department is responsible.

With the exception of The Rent Service and The Health and Safety Executive listed in the table, who operate separate accounting systems, the agencies within the Department are included in the total at answer *(a)*. Our systems do no allow us to separate the Departmental agencies from the Departmental total.

The Rent Service[1]

Financial year	*£*
2004–05	14,400
2005–06 to date	1,800

[1] Became part of DWP in April 2004

The Health and Safety Executive

Financial year	*£*
1997–98	1,348,000
1998–99	1,081,000
1999–2000	1,773,000
2000–01	3,775,000
2001–02	3,702,000
2002–03	1,881,000
2003–04	3,180,000
2004–05	4,111,000
2005–06 to date	620,000

(c) Each independent statutory body organisation and body financially sponsored by the Department.

Motability

Financial year	*£*
1997–98	0
1998–99	0
1999–2000	1,712
2000–01	0
2001–02	33,962
2002–03	24,471
2003–04	21,134
2004–05	32,230

The Pensions Advisory Service

Financial year	*£*
1997–98	0
1998–99	0
1999–2000	0
2000–01	0
2001–02	1,000
2002–03	0
2003–04	10,000
2004–05	9,136

Economic Inactivity

Adam Afriyie: To ask the Secretary of State for Work and Pensions if he will make a statement on the recent level of economic inactivity among young people. [38521]

Margaret Hodge: Since 1997 the proportion of the total population aged 16–24 not in full-time education or work has gone down. Without this improvement the number of jobless young people not in full-time education would be 50,000 higher than it is now.

This reflects the success of the New Deal, which has helped in virtually eradicating long-term youth unemployment.

Ethnic Minorities

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions what progress has been made in encouraging ethnic minority recruitment within his Department. [33512]

Mrs. McGuire *[holding answer 5 December 2005]:* The Department for Work and Pensions (DWP) is constantly working to attract applicants from all areas of society when recruiting staff.

Between 2003–04 and 2004–05 the success rate of job applicants from minority ethnic groups increased from 14.2 per cent. to 19.3 per cent.

Following a continuous improvement review by an external HR consultancy, DWP has produced further good practice guidelines for all its recruiting teams to ensure that they recruit from as wide a range of people as possible.

Incapacity Benefit

Kerry McCarthy: To ask the Secretary of State for Work and Pensions what percentage of recipients of incapacity benefit are incapacitated as a result of *(a)* physical disabilities or injuries, *(b)* stress, depression and other mental health problems and *(c)* drug or alcohol dependency. [35313]

Mrs. McGuire: The information is not available in the format requested. There is no specific group of diagnoses that covers physical disabilities or injuries. Stress, depression and other mental health problems all fall within the mental and behavioural disorders group of diagnoses, as do drug abuse and alcoholism.
The available information is in the following table.

Incapacity benefit and severe disablement allowance claimants, by diagnosis group, at 31 May 2005.

	Number of IB/ SDA claimants	*Percentage of all diagnoses*
All cases	2,784,000	100.0
Certain infectious and parasitic diseases	21,000	0.8
Neoplasms	39,900	1.4
Diseases of the blood and blood forming organs and certain diseases involving the immune mechanism	4,500	0.2
Endocrine, nutritional and metabolic diseases	39,700	1.4
Mental and behavioural disorders	1,086,100	39.0
of which:		
Alcoholism	48,000	1.7
Drug abuse	48,300	1.7
Diseases of the nervous system	166,300	6.0
Diseases of the eye and adnexa	19,700	0.7
Diseases of the ear and mastoid process	12,100	0.4
Diseases of the circulatory system	168,900	6.1
Diseases of the respiratory system	65,600	2.4
Diseases of the digestive system	43,300	1.6
Diseases of the skin and subcutaneous system	16,900	0.6
Diseases of the musculoskeletal system and connective tissue	524,300	18.8
Diseases of the genitourinary system	19,800	0.7
Pregnancy, childbirth and the puerperium	4,700	0.2
Certain conditions originating in the perinatal period	—	—
Congenital malformations, deformations and chromosomal abnormalities	25,200	0.9
Symptoms, signs and abnormal clinical and laboratory findings, not elsewhere classified	331,400	11.9
Injury, poisoning and certain other consequences of external causes	157,500	5.7
Factors influencing health status and contact with health services	37,100	1.3

Notes:
1. Figures rounded to the nearest 100.
2. 'Claimant' figures include all incapacity benefit (IB) and severe disability allowance (SDA), including IB credits-only cases.
3. Figures for the years 1997 to 1999 have been produced using the 5 per cent. data and have been rated up proportionally using the Great Britain WPLS 100 per cent. IB/SDA totals.
4. Diagnoses are taken from the International Classification of Diseases (ICD10).
Source:
DWP Information Directorate, Work and Pensions Longitudinal Study (WPLS) 100 per cent. data.

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will make a statement on the role of *(a)* national and *(b)* local voluntary organisations in partnership programmes with government agencies to support incapacity benefit recipients in gaining employment. [43141]

Margaret Hodge: We have always used voluntary and local organisations to work in partnership to deliver employment support to our customers. We intend to continue to do so in the future. The voluntary sector has a vital contribution to make in providing effective support to individuals so that they can move closer to the labour market and find a job.

Mr. Andrew Smith: To ask the Secretary of State for Work and Pensions how many recipients of incapacity benefit have been in receipt of the benefit for *(a)* less than one year, *(b)* between one and two years, *(c)* between two and three years, *(d)* between three and four years, *(e)* between four and five years and *(f)* more than five years. [44951]

Mrs. McGuire: I refer the hon. Member to the written answer my hon. Friend the Minister for Pensions Reform gave on 8 November 2005, *Official Report*, column 374W to the hon. Member for Newcastle upon Tyne, Central (Jim Cousins).

Jobcentre Plus

Mr. Laws: To ask the Secretary of State for Work and Pensions pursuant to the answer of 12 December 2005, *Official Report*, column 1774W, on Jobcentre Plus, if he will carry out a sample survey of calls from warm phones; and whether calls from a warm phone can *(a)* receive an engaged tone and *(b)* be put into a queue to be answered. [41850]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 23 January 2006:

The Secretary of State has asked me to reply to your question pursuant to the answer of 12 December 2005 on Jobcentre Plus, concerning if he will carry out a sample survey of calls from warm phones; and whether calls from a warm phone can receive *(a)* an engaged tone and *(b)* be put into a queue to be answered. This is something which falls within the responsibilities delegated to me as Chief Executive of the Agency.

Calls made from warm phones to Jobcentre Plus contact centres cannot receive an engaged tone, however they can be put into a queue for the call to be answered by an agent.

After consideration, Jobcentre Plus has decided not to undertake a sample of calls from warm phones. Our call handling performance has improved significantly over recent months and to undertake such an exercise would not deliver sufficient benefit from the cost incurred.

Mr. Ruffley: To ask the Secretary of State for Work and Pensions what the cost has been of creating Jobcentre Plus offices in each year since 2001–02; and what the estimated costs are for each year to 2007–08. [42766]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 23 January 2006:

The Secretary of State has asked me to reply to your question concerning the cost of creating Jobcentre Plus offices in each year since 2001–02 and the estimated costs for each year to 2007–08. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The creation of the Jobcentre Plus network of newly designed offices began in 2001 with a number of Pathfinder offices. This phase was followed by the set up of a project in 2002 to rollout the new designs and infrastructure.

In answer to your specific question, the overall cost of creating Jobcentre Plus offices over the period is broken down as follows:

	Expenditure (£ million)
2001–02[1]	36.7
2002–03[1]	259.6
2003–04[1]	450.6
2004–05[1]	384.1
2005–06[2]	626.5
2006–07[2]	283.3
2007–08[2]	5.4
Total	2,046.2

[1] Actual
[2] Forecast

I hope this is helpful.

Kvaerner Pension Fund

Mr. Weir: To ask the Secretary of State for Work and Pensions what discussions he has had with Kvaerner on the Kvaerner pension fund. [38470]

Mr. Timms: None.

Leaked Letter

Mr. Laws: To ask the Secretary of State for Work and Pensions what evidence his Department has given to the Treasury inquiry into the leaking of a letter from the Chancellor of the Exchequer to Lord Turner in November 2005; and if he will make a statement. [41343]

Mr. Timms: The Department has undertaken an investigation and provided a report for the Treasury inquiry.

New Deal

Mr. Laws: To ask the Secretary of State for Work and Pensions how much was spent on the New Deal in each year from 1997–98; how much has been allocated for each year to 2008–09; and if he will make a statement. [41289]

Margaret Hodge: I refer the hon. Member to the answer I gave to him on 12 January 2006, *Official Report*, column 807W.

Occupational Health

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will make a statement on progress on the implementation of the national strategy for occupational health. [37169]

Mrs. McGuire: We published, in conjunction with the Secretary of State for Health and the Chair of the Health and Safety Commission, the strategy "Health, Work and Well-being—Caring for our future" on 19 October. This strategy is a crucial part of delivering on the Government's commitment to improving the health and well-being of the working age population.

Since its publication, ministerial colleagues and officials from all three organisations have been working hard to turn the strategy into actions which will make a real difference.

Central to the strategy's success is a commitment to partnership working and one of the three key themes is "Engaging Stakeholders". Plans for a range of stakeholder activities are well under way, including the organisation of a stakeholder summit involving all those with a part to play in improving and promoting the health and well-being of people of working age.

We are also finalising arrangements for the recruitment of a national Director for Occupational Health which we intend to advertise shortly.

Pathways to Work

Danny Alexander: To ask the Secretary of State for Work and Pensions what work mental health workers in Pathways to Work pilot areas undertake with participants; and if he will make a statement. [38252]

Margaret Hodge: A key aim of the Condition Management Programme (CMP) is to help customers to manage their own condition and help them to focus on their potential to work. It is a cognitive educational programme rather than a treatment regime.

All customers receive an individual assessment and are informed about the options available to them. A personal action plan is also developed with the customer and includes information on the available health interventions.

Customers with mental health conditions typically receive support through cognitive behavioural therapy programmes. These are supported across the pilots by specific programmes such as 'Beating the Blues' in West Lancashire.

Andrew Rosindell: To ask the Secretary of State for Work and Pensions what feedback he has received from those involved in the Pathways to Work Scheme on the scheme's effectiveness in getting those on incapacity benefit back to work. [40762]

Margaret Hodge: The Department has undertaken qualitative research with Personal Advisers (PAs) and incapacity benefit claimants. The results of that research are set out in the reports 'Incapacity Benefit Reforms; the Personal Adviser Role and Practices: Stage Two', 'National Centre for Social Research, DWP report no. 268, September 2005' and 'IB Reforms Pilot: Findings from a longitudinal panel of clients, Social Policy Research Unit, DWP report no. 259, July 2005', copies of which are in the Library.

Pension Protection Fund

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many of the companies operating pension schemes which are now in an assessment period for the Pension Protection Fund had experienced an insolvency event before 6 April 2005; and how many individuals are members of those schemes. [42531]

Mr. Timms: The board of the Pension Protection Fund Board advises that of the 40 schemes currently in assessment, six had insolvency events prior to 6 April 2005, and entry to the assessment period was obtained via a second insolvency event. Every scheme that is in assessment has had an insolvency event later than 5 April 2005.

These six schemes have 2,154 members (about ten per cent. of members in assessment).

Pensioners

Mr. Evans: To ask the Secretary of State for Work and Pensions what the average age of retirement in the Ribble Valley was in each of the last 10 years. [43163]

Mr. Timms: The information requested is not available.

Mr. Drew: To ask the Secretary of State for Work and Pensions how many single women pensioners in Stroud constituency are receiving assistance to bring them up to the minimum pension level. [35113]

Mr. Timms: At the end of September 2005 there were 2,000 single women pensioners in receipt of guarantee credit element of pension credit in the Stroud constituency.

Notes:
1. Caseloads are rounded to the nearest hundred.
2. Data from the Generalised Matching Service (GMS) 100 per cent. scan taken on 16 September 2005. The figure has been rated up to give month-end estimates.
3. These figures are early estimates. Operational processing times mean that a number of claim commencements and terminations are not reflected in the figures. The final figures incorporated within the Work and Pensions Longitudinal Study (WPLS) will take account of such cases.
4. Parliamentary constituencies are assigned by matching postcodes against the relevant ONS postcode directory.

Source:
DWP Information Directorate 100 per cent. data.

Pensions

Chris Huhne: To ask the Secretary of State for Work and Pensions what proportion of mean average earnings the single person's basic state pension represented in each year since the link between uprating and earnings was broken. [34643]

Mr. Timms: The information is in the table.

	Full basic state pension as a percentage of mean average earnings
1980	24.6
1981	23.7
1982	24.1
1983	23.0
1984	22.5
1985	22.4
1986	21.0
1987	19.9
1988	18.8
1989	18.2
1990	17.8
1991	18.3
1992	17.8
1993	17.7
1994	17.7
1995	17.4
1996	17.4
1997	17.0
1998	16.5
1999	16.4
2000	15.9
2001	16.1
2002	16.0
2003	15.9
2004	15.8

Notes:
1. The link with earnings was broken in November 1980.
2. The average earnings figure is for full-time employees in the April of that year and has been taken from the New Earnings Survey prior to 1998 and from Annual Survey of Hours and Earnings since 1998.
3. The year refers to the year of uprating. From 1980 to 1985 this took place in November, in 1986 it occurred in July and since 1987 annual uprating has taken place in April.

Source:
2004 Annual Abstract of Statistics published by the Department for Work and Pensions.

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will estimate the cost of using the same rules to credit people into entitlement to the state second

pension as exist to credit people into entitlement for the basic state pension in *(a)* 2005–06, *(b)* 2010, *(c)* 2020, *(d)* 2030, *(e)* 2040 and *(f)* 2050; and how many (i) men and (ii) women he estimates would benefit in each year. [35376]

Mr. Timms: The information is not available and could be provided only at disproportionate cost.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions pursuant to the answer of 7 December 2005, *Official Report*, column 1374W, on pensions, to the right hon. and learned Member for Kensington and Chelsea (Sir Malcolm Rifkind), if he will provide his latest estimate of the number of *(a)* pension scheme members who have lost pension savings as a result of their pension scheme winding up, *(b)* pension schemes which have completed the wind-up process since 1997 and which are not included in these figures and *(c)* people who have lost pension savings as a result. [38895]

Mr. Timms: With regard to part *(a)* and *(c)* of the question, the information is not available. The Government is currently inviting notifications from affected pension schemes to the Financial Assistance Scheme (FAS), and is therefore obtaining some information on the number of members facing pensions losses due to company insolvency. In due course, information will also be collected on individual members in schemes qualifying for FAS. Based on our most recent data collection for the FAS, we know of around 70,000 non pensioner members in schemes that are potentially eligible for assistance from the FAS as a result of their schemes being wound up in circumstances of insolvency or where the employer no longer exists.

With regard to part *(b)* of the question, information in the following table was provided by the Pensions Regulator and shows the number of schemes that have wound up each year since 2 April 1997. This includes all schemes that have wound up, whether fully funded or under funded. The Pensions Regulator only holds the present status of a scheme and only those schemes that have completed winding up procedures are included in these figures.

Effective date scheme status was changed register to 'wound up'	*Number of schemes*	*Total membership*
2 April 1997 to 31 March 1998	8,248	54,439
1 April 1998 to 31 March 1999	7,708	71,351
1 April 1999 to 31 March 2000	8,462	64,608
1 April 2000 to 31 March 2001	6,720	65,510
1 April 2001 to 31 March 2002	5,822	128,060
1 April 2002 to 31 March 2003	6,250	145,039
1 April 2003 to 31 March 2004	6,316	127,839
1 April 2004 to 31 March 2005	4,328	78,878
Total	53,854	735,724

Notes:

1. A wound up scheme is one which has notified the Pensions Regulator (or its predecessor the Occupational Pensions Regulatory Authority) that it has completed winding up procedures.
2. Schemes are required to notify the Pensions Regulator of changes in scheme status as soon as is reasonably practical. This means that the data for the year ended 31 March 2005 is provisional.
3. The figures are based on information held on the register as at 11 January 2006. The effective date for the completion of wind up is based on the last scheme status change date.
4. Figures for 1997–8 commence on 2 April 1997 because, where the date at which the scheme completed winding up procedures, prior to 1 April 1997 cannot be ascertained, a default value of 1 April 1997 is used as the date on which the scheme wound up. As a result a very large number of schemes are recorded as wound up with a scheme status change date of 1 April 1997, even if they had wound up at some earlier date. Including schemes with this default date in the table would significantly overstate the number of schemes that wound up during 1997, so a start date of 2 April has been used for 1997–98.
5. Total membership includes active, deferred and pensioner members. It is not possible to provide a breakdown of these numbers.
6. During 2005–06 the Pensions Regulator will continue with its plans to issue a scheme return form to all occupational pension schemes that are registered in the UK. This will provide the Pension Regulator with access to enhanced data in future years.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what discussions he has had with the *(a)* Chancellor of the Exchequer and *(b)* Secretary of State for Trade and Industry on transferring responsibility for overseeing public sector pensions to his Department. [44501]

Mr. Timms: My right hon. Friend has had no such discussions.

Mr. Laws: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of paying the basic state pension to all pensioners aged 75 years and above regardless of contributions *(a)* assuming an earnings link from 2010–11 and *(b)* continuing the present uprating policy in (i) each of the next four years, (ii) 2010, (iii) 2020, (iv) 2030, (v) 2040 and (vi) 2050. [37114]

Mr. Timms: The information requested is as follows:

Part *(a)*

Great Britain

£ billion[1]

	Gross cost	*Net of IRBs*	*Net of IRBs and tax*
2006	2.0	1.4	1.4

[1] 2005–06 price terms.

Notes:

1. The policy change is assumed to take place from 2006–07. In part *(a)* the Basic State Pension (BSP) is assumed to be uprated by prices growth (including underpin) in 2006–07, 2007–08, 2008–09, 2009–10 and uprated by earnings growth from 2010–11. In part *(b)* it is assumed that the BSP would be uprated by prices growth (plus underpin).

2. Gross costs are estimated by the Government Actuary's Department and are consistent with the pre-Budget report 2005 assumptions.

3. Savings in income-related benefit (IRBs) such as pension credit and housing benefit, and potential increases in tax revenue, are estimated using the DWP policy simulation model and April 2006 benefit rates. Savings are assumed to be a constant proportion of the estimated gross cost over time.

Poverty

Mr. Drew: To ask the Secretary of State for Work and Pensions what measure of poverty his Department uses; and how many people his Department defined as poor in *(a)* the UK and *(b)* Stroud constituency in each year since 1997. [39184]

Margaret Hodge: Poverty is about more than low income. It is also about health, housing, education and the quality of the environment. The seventh annual "Opportunity for all" report (Cm 6673), published in October 2005, sets out the Government's strategy for tackling poverty and social exclusion and presents information on the indicators used to measure progress against this strategy.

Specific information regarding individuals living in low income households is published in "Households Below Average Income 1994/95–2003/04", available in the Library. The report includes estimates of relative low income, absolute low income, and persistent low income. A household is defined as experiencing relative low income if it has an income below a relative low income threshold, such as the commonly used relative threshold of 60 per cent. of contemporary median. A household is defined as experiencing absolute low income if it has an income below an absolute low income threshold, such as the commonly used absolute threshold of 60 per cent. of median from an historic year that has been adjusted for inflation. The Households Below Average Income report currently uses the 1996–07 median for absolute low income estimates. A household is defined as experiencing persistent low income if it has experienced relative low income for three or four years out of four consecutive years.

The number and percentage of individuals living in households with incomes below 60 per cent. of median income—known as "relative" low income—from 1996–07 to 2003–04 are presented in the following table. Figures are presented for Great Britain as results for the United Kingdom are only available from 2002–03 onwards and are not available below regional level.

Number and percentage of individuals with incomes less than 60 per cent. of contemporary median, Great Britain

	Before housing costs		*After housing costs*	
	Number	*Percentage*	*Number*	*Percentage*
1996–97	10.2	18	13.8	25
1997–98	10.2	18	13.3	24
1998–99	10.2	18	13.2	24
1999–2000	10.0	18	13.2	24
2000–01	9.6	17	12.7	23
2001–02	9.6	17	12.3	22
2002–03	9.7	17	12.2	22
2003–04	9.6	17	12.0	21

Note:
The table shows percentages rounded to the nearest percentage point, and numbers in millions rounded to the nearest 100,000.

Staff Allocations

Chris Ruane: To ask the Secretary of State for Work and Pensions how many staff were employed to work on *(a)* crisis loans, *(b)* jobseeker's allowance and *(c)* incapacity benefit in each of the past 24 months. [41821]

Mr. Plaskitt: The information requested is not available.

Jobcentre Plus, in line with other parts of the Department for Work and Pensions, collect staffing information by grade/location and not job role.

Staff Discipline

David T.C. Davies: To ask the Secretary of State for Work and Pensions how many employees have been dismissed by his Department in each of the last five years for which figures are available. [29138]

Mrs. McGuire: The Department informs staff what is expected of them and the consequences of non-compliance through the Department's Standards of Behaviour policy. The Department has procedures in place in accordance with the Dispute Resolution Regulations 2004 to deal with issues of misconduct, unsatisfactory performance or attendance and where it is deemed appropriate this could lead to dismissal. All of the policies and procedures are available to staff through the Department's internal HR website.

Information on the numbers of dismissals from the Department for each of the financial years from March 2002 to March 2005 is in the following table.

Financial year	*Number of dismissals*
2001–02	524
2002–03	367
2003–04	416
2004–05	497

Note:
Numbers of dismissals are permanent staff expressed as headcount

CONSTITUTIONAL AFFAIRS

Administrative Costs

Angus Robertson: To ask the Minister of State, Department for Constitutional Affairs which functions of her core Department are carried out in *(a)* England and *(b)* London; and what administration costs were associated with these functions for each area in the last year. [39827]

Bridget Prentice: The total administration costs outturn of the core Department, which includes the Court Service and Public Guardianship Office, in 2004–05 was £915 million. It is not possible for the Department to provide full detailed information of the administration costs of the functions carried out by the core Department in *(a)* England and *(b)* London in the last year without incurring disproportionate costs.

The administration budgets regime overseen by the Treasury relates to Whitehall Departments only. The Department does not monitor national, regional or

London administration costs separately and it is a matter for the devolved Administrations how they control their own administration costs.

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs which functions of her core Department are carried out in *(a)* Northern Ireland and *(b)* Wales; and what administration costs were associated with these functions for each area in the last year. [39950]

Bridget Prentice: The total administration costs outturn of the core Department, which includes the Court Service and Public Guardianship Office, in 2004–05 was £915 million. It is not possible for the Department to provide full detailed information of the administration costs of the functions carried out by the core Department in *(a)* Northern Ireland and *(b)* Wales in the last year without incurring disproportionate costs.

The administration budgets regime overseen by the Treasury relates to Whitehall Departments only. The Department does not monitor national or regional administration costs separately and it is a matter for the devolved Administrations how they control their own administration costs.

Departmental Expenditure

Pete Wishart: To ask the Minister of State, Department for Constitutional Affairs what has been the annual expenditure on vehicles for *(a)* her Department and *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which she is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [40003]

Ms Harman: Since its inception in June 2003, my Department's annual expenditure on vehicles was as follows:

	2003–04	*2004–05*	*2005–06*
(a) DCA and Court Service/HMCS[1]	1,722,281	1,629,818	2,350,236
(b) (i) Legal Services Commission	0	0	0
Information Commissioner	0	0	0
ii) Public Guardianship Office	0	0	0
(iii) Information on annual expenditure by other public bodies for which the Department is responsible is not held centrally and could be obtained now only at disproportionate cost.	—	—	—

[1] Expenditure for CS/HMCS cannot be separated without incurring disproportionate cost.

For details of expenditure on ministerial vehicles provided to the Department by the Government Car and Despatch Agency I refer the hon. Member to the letter of 20 December 2005 from the Chief Executive of the Government Car and Despatch Agency to the hon. Member for Lewes (Norman Baker). Copies of this letter are available in the Library.

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs what the annual expenditure on *(a)* fixtures and fittings, *(b)* general office expenses and *(c)* office equipment was of her (i) Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which her Department is responsible in (1) Scotland, (2) Wales, (3) each English region and (4) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40093]

Bridget Prentice: It is not possible for the Department to provide full detailed information as requested in the question without incurring disproportionate costs.

The administration budgets regime overseen by the Treasury relates to Whitehall Departments only. The Department does not monitor national, regional or London administration costs separately and it is a matter for the devolved Administrations how they control their own administration costs.

Mr. Weir: To ask the Minister of State, Department for Constitutional Affairs what expenditure on *(a)* buildings and *(b)* insurance of buildings and staff was of (i) her Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which her Department is responsible in (1) Scotland, (2) Wales, (3) each English region and (4) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40094]

Bridget Prentice: It is not possible for the Department to provide full detailed information as requested in the question without incurring disproportionate costs. However, the Department does not incur any costs to insure any of its buildings as the Crown carries the risk.

The administration budgets regime overseen by the Treasury relates to Whitehall Departments only. The Department does not monitor national or regional London administration costs separately and it is a matter for the devolved Administrations how they control their own administration costs.

Departmental Estate

Pete Wishart: To ask the Minister of State, Department for Constitutional Affairs if she will list the former *(a)* buildings and *(b)* land of (i) her Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which her Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was (x) retained by her Department and *(y)* claimed by the Treasury. [40134]

Bridget Prentice: It is not possible for the Department to provide full detailed information as requested in the question without incurring disproportionate costs.

Departmental Phone Directories

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs when the most recent internal phone directory for the Department was published; how often it is updated; and if she will place a copy in the Library. [41748]

Ms Harman: My Department no longer produces a paper copy departmental telephone directory so I am unable to place a copy in the Library. Since 1999, our

telephone directory has been available electronically on the Department's intranet site and it is updated on a regular basis.

Departmental Vehicles

Mrs. Villiers: To ask the Minister of State, Department for Constitutional Affairs how many cars are *(a)* owned and *(b)* leased by her Department; what models the cars are; what type of petrol each model requires; and what the fuel efficiency is of each model. [41355]

Ms Harman: My Department currently uses a fleet of 685 leased and owned vehicles as detailed in the following tables.

The fuel efficiency of all models listed are in accordance with the relevant manufacturers published guidelines. The Department has not collected a complete listing for each model and could be obtained now only at disproportionate cost.

For vehicles provided to Government Departments by the Government Car and Despatch Agency (GCDA) my hon. Friend, the Parliamentary Under-Secretary of State at the Department for Transport has asked the Chief Executive of the GCDA to write to the hon. Member with the information requested.

(a) Cars Owned by Department

Dukedom of Leinster

Ms Katy Clark: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the disputed claim to the Dukedom of Leinster. [43683]

Ms Harman: The Dukedom of Leinster is the Premier Dukedom of Ireland created by Letters Patent in 1766. Gerald Fitzgerald the late 8th Duke of Leinster formerly sat in the House of Lords by virtue of a Viscountcy of Great Britain. This Viscountcy was created by Letters Patent in 1747.

The late 8th Duke had proved his succession to the Viscountcy of Great Britain and took his seat on 21 October 1976 on the death of his father Edward the 7th Duke who died in March 1976. The late 8th Duke subsequently established formally his succession to the Dukedom in March 1977. Following the 8th Duke's death in December 2004, his only son Maurice Fitzgerald submitted a claim through the Crown Office, to prove his succession to the peerage.

A competing claim to the title has also been submitted on behalf of Paul Maurice Fitzgerald who claims to be the true heir apparent of the 5th Duke.

Both claims are presently under consideration by the Lord Chancellor and Secretary of State for Constitutional Affairs.

Electoral Administration

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 9 January 2006, *Official Report*, column 236W, on electoral administration, whether, when the Electoral Administration Bill is enacted, political parties will continue to have access to the data from marked registers *(a)* during and *(b)* after elections. [43544]

Ms Harman: The marked register of electors is compiled on the day of poll. Access to this, therefore, is limited to after an election. Political parties will continue to have access to the marked registers, following an election, under the provisions within the Electoral Administration Bill.

Judicial Appointments Commission

Mr. Dodds: To ask the Minister of State, Department for Constitutional Affairs what progress has been made with the setting up of the Judicial Appointments Commission in Northern Ireland. [44890]

Bridget Prentice: The Northern Ireland Judicial Appointments Commission was established on 15 June 2005. It is chaired by the Lord Chief Justice for Northern Ireland with 12 other members, including five members of the Judiciary, five lay members, a barrister and a solicitor.

Magistrates Courts (Gravesham)

Mr. Holloway: To ask the Minister of State, Department for Constitutional Affairs whether magistrates courts staff in Gravesham took strike action in December 2005. [43253]

Ms Harman: The Department has been engaged in discussions on pay throughout 2005 with the unions representing staff subject to former magistrates courts service (MCS) terms and conditions of service. The Department made a pay offer which officials believe is fair given the current economic circumstances, public sector pay awards generally and what the Department could afford. The unions rejected this, and industrial action commenced with a one-day strike on 20 December 2005.

Union members at Chatham magistrates court did take action, although no staff took action at Dartford. Contingency plans worked well with both courts remaining open to the public. All essential services continued to be delivered.

Prisoners (Right to Vote)

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what the timetable is for the Government's formal response to the European Court of Human Rights ruling on giving prisoners the right to vote; and if she will make a statement. [43543]

Ms Harman: The judgment raises a number of complex issues which will need careful consideration, including, in particular, what specific measures may need to be taken to implement it. The Government are giving urgent consideration to the judgment, and will indicate what steps it intends to take next shortly.

Small Claims

Mr. Grieve: To ask the Minister of State, Department for Constitutional Affairs what research has been *(a)* conducted and *(b)* commissioned into the impact of the recommendation of the Better Regulation Task Force to raise the small claims limit for personal injury claims. [44940]

Bridget Prentice: The Better Regulation Task Force in its report, 'Better Routes to Redress' recommended that research should be carried out into the potential impact of raising the small claims limit for personal injury cases from the current limit of £1,000. The Government indicated that it would carry out this research and would also consider other options for dealing with these claims in a more proportionate and cost effective way. This work is currently under way.

Suspicious Deaths

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs whether a coroner can make a recommendation that the police re-open their inquiries in the case of a suspicious death where no charges have previously been brought. [44398]

Ms Harman: Where a coroner considers from evidence given at the inquest that a person might be charged with a homicide offence, rule 28 of the Coroners Rules 1984 provides that he must adjourn the inquest for 14 days and send particulars of the evidence to the Director of Public Prosecutions or Crown Prosecution Service. If a coroner or jury returns an unlawful killing verdict at the inquest there will an expectation that the matter will be referred to the CPS for consideration.

HEALTH

Accident and Emergency Departments

Mr. Graham Stuart: To ask the Secretary of State for Health (1) how many children under the age of five attended the accident and emergency department in hospitals in England in each of the last five years; [41364]

(2) what proportion of children under the age of five admitted to accident and emergency departments in hospitals in England in the last 12 months were subsequently taken into care by social services; [41377]

(3) what proportion of children under the age of five who attended accident and emergency departments in hospitals in England in the last 12 months were treated for conditions related to the consumption of inappropriate objects; [41381]

(4) how many children under the age of five years attended the accident and emergency department in hospitals in *(a)* Hull and *(b)* the East Riding in each of the last five years. [41382]

Mr. Byrne: The comprehensive data requested are not currently collected centrally.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what evidence she used when setting the target of 98 per cent. of patients being seen within four hours of attendance at accident and emergency departments. [43016]

Mr. Byrne: Studies show that almost all patients, with no non-clinical delays, should be able to complete their treatment in an accident and emergency (A&E) department within four hours.

The 98 per cent. minimum operating standard was set to allow for the minority of patients who clinically require more than four hours in A&E. It followed a wide consultation with clinicians and their representative organisations.

Ambulance Service

Mr. Jenkins: To ask the Secretary of State for Health (1) how many emergency calls were answered within the Staffordshire Ambulance Service NHS Trust in each of the last five years; [42094]

(2) what proportion of emergency calls resulted in an ambulance arriving at the scene of the reported incident within the Government's target response times in Staffordshire Ambulance Service NHS Trust in each of the last five years. [42095]

Ms Rosie Winterton: The numbers of emergency calls answered by each ambulance service from 2000–05 are published in table 3 of the statistical bulletin, "Ambulance services, England: 2004–05". This is available in the Library and on the Department's website at: www.dh.gov.uk/assetRoot/04/11/36/79/04113679.pdf.

Reported performance for Staffordshire Ambulance Services National Health Service Trust, for the years 2000–01 to 2004–05 is shown in the table.

	Percentage of category A calls responded to within 8 minutes	*Percentage of category A calls responded to within 19 minutes*	*Percentage of category B/C calls responded to within 19 minutes*	*Percentage of arrivals not more than 15 minutes late, for urgent journeys*
2000–01	87.4	99.8	99.6	93.3
2001–02	87.5	99.6	99.6	91.1
2002–03	86.4	99.8	99.7	92.6
2003–04	86.6	99.7	99.7	95.1
2004–05	88.3	99.8	[1]99.8	95.1

[1] Data for category B calls for the period October 2004 to March 2005.

Further information can be found in the statistical bulletin.

Bob Spink: To ask the Secretary of State for Health if she will encourage ambulance services to promote the use of the In Case of Emergency contact numbers stored in mobile handsets. [42579]

Mr. Byrne: The Department is supportive of initiatives that encourage members of the public to carry with them emergency contact details in case of need. As there are a number of such initiatives, it is for ambulance trusts to make local decisions on whether to promote an initiative and whether to endorse one initiative over another.

Mr. Soames: To ask the Secretary of State for Health what guidance she issues to ambulance trusts on the purchase of ambulances. [42322]

Jane Kennedy *[holding answer 16 January 2006]:* For the outright purchase of accident and emergency ambulances, the NHS Purchasing and Supply Agency has the accident and emergency national framework agreement to provide ambulances at nationally negotiated discounted rates.

The framework commenced in June 2003 and expires in May 2006. However, an extension period of one year has already been agreed with key stakeholders. Suppliers awarded to the framework are compliant with the Committee for European Standardisation, which incorporates number BS EN 1789 of the British Standards Institute list as best practice and relates to any stretcher-bearing vehicle. Achievement of compliance requires a supplier to undertake extensive engineering testing and investment via an independent United Kingdom test house.

Mr. Amess: To ask the Secretary of State for Health how many ambulances are available to each hospital in *(a)* Southend, *(b)* Essex and *(c)* Hertfordshire; and how many were available in (i) 1990, (ii) 1995, (iii) 2000 and (iv) 2003. [41726]

Ms Rosie Winterton: The information requested is not held centrally.

Assessment Care Plans

Mr. Burstow: To ask the Secretary of State for Health what account her Department takes of the supporting people assessment in the guidance for the single assessment process; and how the resulting single assessment care plan operates in relation to the support plan. [41900]

Mr. Byrne: Guidance on the single assessment process (SAP) does not formally extend to housing authorities or other statutory agencies. However, it is recognised that, for many older people, housing services can make important contributions to promoting independence and well-being. Where possible, local national health service bodies and councils are encouraged to engage with housing authorities as they implement the SAP. In addition, where local assessment for housing services has been incorporated into the SAP for older people, it is also expected that all services which are provided are reflected in the care plan and any associated support plan.

Furthermore, as the hon. Member will be aware from replies given by the Minister for Local Government, the hon. Member for Oldham, East and Saddleworth (Mr. Woolas) on 14 December 2005, *Official Report*, columns 1970–71W, there is no standardised process for supporting people assessments.

Mr. Burstow: To ask the Secretary of State for Health what role her Department has in assessment of people applying for access to an Extra Care scheme under the Office of the Deputy Prime Minister's Supporting People scheme. [41905]

Mr. Byrne: Extra care housing is available through local authorities (LAs), housing associations and private providers. Access to extra care housing is not governed or determined by the supporting people programme, although supporting people funding may contribute to an individual's ongoing extra care costs, where housing related support is needed.

Housing related support is not assessed through the single assessment process. LAs consider individual needs depending on each set of personal circumstances. If accommodation is required as part of a needs assessment or a change in needs, decisions are made following consultation with the individual about their preferences, housing provision in the area and any statutory obligations that arise.

Mr. Burstow: To ask the Secretary of State for Health what plans she has to revise single assessment process guidance to cover *(a)* housing-related needs and *(b)* housing-related service options. [41906]

Mr. Byrne: There are no plans at this time to revise the single assessment process (SAP) guidance to cover housing-related needs and housing-related service options. However, as set out in the Office of Deputy Prime Minister consultation, "Creating Sustainable Communities: Supporting People", work is planned to consider how housing-related support might be made part of integrated assessment processes. We will consider at the appropriate time whether this work might require changes to SAP or other relevant guidance.

Barts and the London NHS Trust

Mr. Lansley: To ask the Secretary of State for Health if she will decide whether to support the redevelopment of Barts and the London NHS Trust by 31 January. [43448]

Jane Kennedy *[holding answer 19 January 2006]:* North East of London strategic health authority have commissioned a review of the proposed redevelopment of St. Bartholomew's in the context of the existing cancer and cardiac services in London. They should be in a position to make a recommendation once they have had the opportunity to consider its findings.

Brain Tumours (Treatment)

John Bercow: To ask the Secretary of State for Health what steps are being taken by her Department to improve access to rehabilitation services for brain tumour patients. [42487]

Mr. Byrne: The Department scoping study is looking at rehabilitation services, including those for brain tumour patients, currently provided by the national health service and social care, with the aim of:

mapping levels of provision and models of service and, where possible, the cost-effectiveness of rehabilitative services;

identifying any gaps in provision;

identifying good practice exemplars; and

identifying opportunities to improve services

The National Institute for Health and Clinical Excellence is producing guidance on "Improving Outcomes in Brain and Other Central Nervous System Tumours". It will include advice on rehabilitation services for patients with these forms of cancer. A second draft of this guidance has recently been consulted on and the final guidance is due to be issued in June 2006.

Child Health (West Cheshire)

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many children under the age of 10 years in *(a)* West Cheshire Primary Care Trust and *(b)* Eddisbury constituency have (i) osteogenesis imperfecta and (ii) ligamentous laxity. [42670]

Mr. Byrne: The information requested is not held centrally.

Children's Hospices

Mr. Paice: To ask the Secretary of State for Health (1) what guidance has been issued to primary care trusts about commissioning care from children's hospices; [31474]

(2) what assessment she has made of the funding of children's hospices, [31475]

(3) if she will list the sums paid to children's hospices by each primary care trust in the last year for which figures are available. [31478]

Mr. Byrne *[holding answer 24 November 2005]:* In our guide "Commissioning Children's and Young People's Palliative Care Services", launched on 29 November 2005, we give commissioners important advice about the key aspects of children's palliative care which will improve the quality of commissioning and provision of services. This practical guide will stimulate improvements in commissioning and promote quality care for children, young people and their families in a range of settings, for example, palliative care at home, in hospital or in a hospice.

Primary care trusts (PCTs) working with their local authority partners and stakeholders, remain best placed to decide the level and range of palliative care needed by the children and young people in their locality and are able to respond directly to their needs. We have extended our manifesto pledge to increase funding for end of life care to include care for children and young people. We will make further announcements on this funding as soon as we can.

Information is not collected centrally on the amount of funding children's hospices receive from PCTs.

Continuing Care

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 10 January 2006, *Official Report*, column 574W, on continuing care, for what reasons the number of people in receipt of continuing care has increased. [43635]

Mr. Byrne: Work by the national health service to improve consistency and equity of access to NHS funded continuing care, coupled with increases in population needs, are thought to be the reasons for this increase.

Contracting for Services

Sandra Gidley: To ask the Secretary of State for Health what measures her Department has taken to ensure that the Office of the Deputy Prime Minister's 'Guidance on Contracting for Services in the light of the Human Rights Act 1998' published in March has been brought to the attention of *(a)* chief executives, *(b)* directors of social services, *(c)* NHS trusts and *(d)* those who contract with independent care homes and domiciliary providers. [32585]

Ms Rosie Winterton: The Office of the Deputy Prime Minister's 'Guidance on Contracting for Services in the light of the Human Rights Act 1998' is available on the Department's website at www.dh.gov.uk/assetRoot/04/12/38/46/04123846.pdf In addition, the 'Chief Executive Bulletin' (issue 297, 26 November-1 December 2005) alerted all national health service and council chief executives and directors of social services that guidance had been published. This is also available on the Department's website at: www.dh.gov.uk/Publications AndStatistics/Bulletins/ChiefExecutiveBulletin/BulletinCE/fs/en?CONTENT_ID=4123953&chk=56chNG#5531805

Correspondence

Mr. Spellar: To ask the Secretary of State for Health when her Department will reply to the letter of 19 October from the right hon. Member for Warley regarding the campaign on rehabilitation services for blind and partially sighted people. [36700]

Jane Kennedy: A reply was sent on 12 December 2005.

Dentistry

Mr. Hollobone: To ask the Secretary of State for Health what recent assessment she has made of dental health; what the rate of tooth decay is in *(a)* adults and *(b)* children; and if she will make a statement. [38907]

Ms Rosie Winterton *[holding answer 20 December 2005]:* The Department commissions decennial surveys of the dental health of adults and children, which show major improvements in the oral health of the population.

The 1998 National Adult Dental Health showed that the proportion of adults with no natural teeth had fallen from 37 per cent, in 1968 to 12 per cent. in 1998. The 2003 National Child Dental Health Survey showed that the proportion of 12 year old children with decayed, missing and filled teeth had fallen from 93 per cent. in 1973 to 38 per cent. in 2003. 12 year old children in England now have the best oral health of their age group in Europe.

The Government recognises that major inequalities in oral health remain. For example, in 2003, the probability of having obvious decay experience of the primary teeth was about 50 per cent. higher in the lowest social group than in the highest social group. The Department published a new oral health plan for England, 'Choosing Better Oral Health,' in November 2005. This sets out a range of measures that have the potential to reduce these inequalities including the fluoridation of water supplies. The Government have amended the legislative framework governing fluoridation to give people in areas with high levels of dental decay a real option of having their water fluoridated.

Andrew Rosindell: To ask the Secretary of State for Health how many NHS dentists were practising in England in each of the last eight years, broken down by *(a)* county and *(b)* London borough. [40613]

Ms Rosie Winterton: The information requested, provided by local health authority or London borough, has been placed in the Library.

Mr. Graham Stuart: To ask the Secretary of State for Health what proportion of people in Beverley and Holderness were registered with an NHS dentist in each of the last 10 years for which records are available. [41366]

Ms Rosie Winterton: The available information, at primary care trust (PCT) level, is shown in the table.

Proportion of patients registered in PCTs serving the Beverley and Holderness constituency as at 30 September each year

Percentage

	East Yorkshire PCT	*Yorkshire Wolds and Coast PCT*
1997	46.8	45.0
1998	44.2	38.0
1999	42.9	40.8
2000	43.1	41.4
2001	43.1	41.0
2002	43.6	39.5
2003	42.6	38.8
2004	39.6	39.6
2005	40.1	35.7

Notes:

1. 2004 and 2005 data includes General Dental Service (CDS) and Personal Dental Service (PDS) registrations/PDS patients seen (counts patients seen in the past 15 months for some PDS schemes).
2. Data for 2003 and earlier do not include those PDS schemes that do not have any registrations (eg Dental Access Centres), and is therefore not directly comparable with 2004 and 2005 data.
3. Most PDS schemes that have registrations have re-registration periods in excess of fifteen months, so the figures for PDS schemes are generally higher than they would have been for the same attendance pattern under GDS.
4. Proxy registrations are not available at constituency level.
5. 1997-2000 percentages have been calculated using 2001 population data.
6. 2005 percentages have been calculated using 2004 population data.

Source:

Dental Practice Board

Mr. Graham Stuart: To ask the Secretary of State for Health what percentage of children in Beverley and Holderness constituency are registered with an NHS dentist. [41369]

Ms Rosie Winterton: Information on children registered with a dentist at constituency level is not available as a percentage of the total number of children because population data is not available at constituency level.

Table one gives the total number of children registered with a dentist since 1997 in Beverley and Holderness.

Table 1: General Dental Services (GDS) and Personal Dental Services (PDS)

Number of children registered with a national health service dentist in Beverley and Holderness constituency, East Yorkshire primary care trust (PCT) and Yorkshire Wolds and Coast PCT as at 30 September each year. Beverley and Holderness constituency is served by both PCT's.

	Beverley and Holderness constituency	East Yorkshire PCT	Yorkshire Wolds and Coast PCT
1997	10,915	23,669	16,558
1998	10,614	22,747	14,802
1999	10,956	22,306	15,442
2000	12,258	23,488	15,752
2001	12,476	22,644	16,038
2002	12,312	22,730	15,439
2003	12,087	22,005	15,210
2004	11,676	21,650	15,048
2005	11,277	21,819	13,921

Table two shows the percentage of children registered in each of the local PCTs.

Table 2: Proportion of children registered with a dentist in East Yorkshire PCT and Yorkshire Wolds and Coast PCT as at 30 September in each specified year

Percentage

	East Yorkshire PCT	Yorkshire Wolds and Coast PCT
1997	64.6	54.5
1998	62.1	48.8
1999	60.9	50.9
2000	64.1	51.9
2001	61.8	52.9
2002	62.1	50.4
2003	60.2	49.7
2004	59.3	49.2
2005	59.8	45.5

Notes:

1. 2004 and 2005 data include GDS and PDS registrations/PDS patients seen (counts patients seen in the past 15 months for some PDS schemes).
2. Data for 2003 and earlier do not include those PDS schemes that do not have any registrations (e.g. dental access centres), and is therefore not directly comparable with 2004 and 2005 data.
3. Most PDS schemes that have registrations have re-registration periods in excess of fifteen months, so the figures for PDS schemes are generally higher than they would have been for the same attendance pattern under GDS.
4. Proxy registrations are not available at constituency level.
5. 1997 to 2000 percentages have been calculated using 2001 population data.
6. 2005 percentages have been calculated using 2004 population data.

Source:

Dental Practice Board

Mr. Graham Stuart: To ask the Secretary of State for Health what assessment she has made of the report Meeting the Challenges of Oral Health for Older People: A Strategic Review, published in December 2005. [41380]

Ms Rosie Winterton: The review undertaken by the British Society of Gerodontology provides welcome guidance on ways of improving education, training and service provision to meet more effectively the oral health care needs of older people. This is likely to help the national health service build on the major improvements already achieved in the oral health of older people.

The 1998 National Adult Dental Health showed that the proportion of adults with no natural teeth had fallen from 37 per cent. in 1968 to 12 per cent. in 1998. However, as recognised in the report of the Primary Care Dental Workforce Review published in 2004, people who keep their teeth have a greater need for oral hygiene advice and support and for restorative dental treatment.

This additional demand was one of the reasons why, in response to the report, the Government undertook measures to expand the dental workforce by recruiting the equivalent of an extra 1,000 whole-time NHS dentists and providing for an extra 170 dental training places each year from 2005.

Tim Farron: To ask the Secretary of State for Health how many people in Westmorland and Lonsdale were registered with an NHS dentist in each of the last 10 years for which records are available. [42387]

Ms Rosie Winterton *[holding answer 16 January 2006]:* The information requested is shown in the table.

General dental services (GDS) and personal dental services (PDS), number of people registered with a national health service dentist in Westmorland and Lonsdale constituency in September each year

	Number of patients
1997	58,994
1998	54,923
1999	56,870
2000	58,751
2001	59,400
2002	58,926
2003	54,793
2004	53,642
2005	45,857

Notes:

1. 2004 and 2005 data include GDS and PDS registrations/PDS patients seen (counts patients seen in the past 15 months for some PDS schemes).
2. Data for 2003 and earlier do not include those PDS schemes that do not have any registrations, for example, dental access centres, and is therefore not directly comparable with 2004 and 2005 data.
3. Most PDS schemes that have registrations have re-registration periods in excess of 15 months, so the figures for PDS schemes are generally higher than they would have been for the same attendance pattern under GDS.
4. This information was provided by the Dental Practice Board and relates to patients registered with dentists whose practice address postcodes are within the constituency boundary.

Source:

Dental Practice Board.

Mr. Pelling: To ask the Secretary of State for Health what percentage of the population in the area served by Croydon Primary Care Trust was registered with an NHS dentist in each year since 1997. [42793]

Ms Rosie Winterton: The information requested is provided in the table.

General dental services and personal dental services—estimated percentage of the population registered in Croydon primary care trust as at 30 September each year

	Estimated percentage of population
1997	56
1998	45
1999	47
2000	44
2001	44
2002	44
2003	45
2004	41
2005	42

Notes:

1. The percentages of the population registered with a dentist (or registration rate) have been estimated by including patient registrations in the area of the dentist, that is according to the postcode of the dental surgery and not the patient's address. So the registration rates for some areas may be affected by some patients receiving dental treatment in a different area from the one in which they live.

2. Estimates have been calculated using population estimates for the nearest year for which data are available. 1997–2000 percentages have been calculated using 2001 population estimates. 2005 percentages have been calculated using 2004 population estimates.

Source:

NHS Health and Social Care Information Centre

Chris Ruane: To ask the Secretary of State for Health how much has been allocated to training dentists in each of the last 30 years at 2005–06 prices. [36872]

Ms Rosie Winterton: The historical information requested is not held centrally.

The Higher Education Council for England is responsible for the academic costs of training and the Department is responsible for the clinical costs. At current prices the average cost, which includes the cost of academic and clinical training, is £160,000 over the five-year course, or £32,000 per year.

Mr. Evans: To ask the Secretary of State for Health how many NHS dentists per head of the population were practising in Lancashire in each year since 1997. [43161]

Ms Rosie Winterton: The information requested is shown in the table.

General dental services and personal dental services Dentists per 10,000 population in Cumbria and Lancashire strategic health authority as at 30 September each year

	Dentists per 10,000 population
1997	3.43
1998	3.53
1999	3.59
2000	3.52
2001	3.64
2002	3.58
2003	3.60
2004	3.76
2005	4.10

Notes:

1. 2005 data calculated using Office for National Statistics 2004 mid-year population estimates based on the 2001 census.

2. Figures have been rounded to two decimal places.

NHS Health and Social Care Information Centre.

Departmental Data

Dr. Strang: To ask the Secretary of State for Health what methods her Department employs to ensure that its data are up-to-date, with particular reference to information on people who have *(a)* moved house and *(b)* died. [37793]

Jane Kennedy: The Department employs a variety of methods to ensure that it keeps its personal data up-to-date. These include:

checking the same items of information held in different sources and following up discrepancies;

issuing occasional reminders to staff to check that specific information is correct;

putting in place business processes that encourage or force necessary changes to data where circumstances change;

communicating to staff on why accurate information is important for them as well as for the Department;

developing technology that allows staff and line managers to make changes to data directly themselves, rather than relying on Human Resource staff or others to do so on their behalf. This is the case in the specific circumstance of moving house; and

increasingly moving towards having a single source of personal data that is transferred automatically between information systems, rather than collecting the same data in more than one system.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Health how much was spent on advertising by *(a)* her Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which her Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by her Department in each year since May 1997. [39070]

Jane Kennedy: The table shows the expenditure on major information campaigns and advertising commissioned by the Department's Communications Directorate in each year since 1997.

£ million

Financial year	*Advertising expenditure*
1997–98	2.04
1998–99	8.53
1999–2000	15.17
2000–01	20.80
2001–02	20.40
2002–03	23.13
2003–04	38.98
2004–05	32.7
2005–06[1]	23

[1] Estimate.

We have no central record of advertising spend by non-departmental public bodies, executive agencies or independent statutory bodies or organisations financially sponsored by the Department and could not obtain these without incurring disproportionate costs.

Doctors (EU Working Time Directive)

Mr. Jim Cunningham: To ask the Secretary of State for Health what assessment she has made of the effect of the

European working time directive on doctors working in the NHS; and if she will make a statement. [39737]

Mr. Byrne: The working time directive (WTD) was implemented for the vast majority of national health service staff groups in 1998 in accordance with regulations. The Government negotiated an extension to the WTD for doctors in training to enable phased implementation from August 2004.

Implementation of the WTD is the responsibility of local NHS trusts, and all employees are entitled to appropriate working hours and rest breaks.

The Department in England has worked with the health professions and NHS employers to provide joint guidance and invested an extra £46 million to support WTD implementation, including 20 national pilots and the hospital at night project. We are also funding independent research on the impact of WTD on medical training.

General Practitioners

Helen Goodman: To ask the Secretary of State for Health how many general practitioners were paid *(a)* £130,000 to £150,000, *(b)* £110,000 to £129,999, *(c)* £90,000 to £109,999, *(d)* £70,000 to £89,999 and *(e)* £50,000 to £69,999 in 2004–05; and how many in each category worked (i) full-time and (ii) part-time. [40354]

Mr. Byrne: Data on general practitioners paid between £150,000 and £50,000 in 2004–05 and split between full-time and part-time are not available centrally.

Health Expenditure

Danny Alexander: To ask the Secretary of State for Health how much was spent by the NHS on treatment by *(a)* psychiatrists, *(b)* clinical psychologists, *(c)* psychotherapists, *(d)* cognitive and behavioural therapists and *(e)* other therapists in each of the last five years, broken down to the most local level for which figures are available. [40889]

Ms Rosie Winterton: The information requested is not available.

Hospital Treatment (Lincolnshire)

Mr. Austin Mitchell: To ask the Secretary of State for Health how many patients from *(a)* North Lincolnshire and *(b)* North East Lincolnshire received hospital treatment in Hull in each of the last three years for which figures are available. [43064]

Mr. Byrne: The table shows the counts of finished consultant episodes and patients at the Hull and East Yorkshire Hospitals National Health Service Trust where the patients are resident within the North Lincolnshire Primary Care Trust (PCT) and the North East Lincolnshire PCT.

Counts of finished consultant episodes and patients provider of treatment: Hull and East Yorkshire Hospitals NHS Trust NHS Hospitals, England 2002–03 to 2004–05

PCT of residence	*Finished consultant episodes*	*Patient counts*
(a) North Lincolnshire PCT		
2002–03	3,127	2,031
2003–04	3,288	2,074
2004–05	3,550	2,112
(b) North East Lincolnshire PCT		
2002–03	1,559	1,088
2003–04	1,762	1,170
2004–05	2,085	1,308

Notes:

1. Finished consultant episode (FCE)

A FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.

2. Patient counts

Patient counts are based on the unique hospital episode statistics (HES) patient identifier (HESID). This identifier is derived based on patient's date of birth, postcode, sex, local patient identifier and NHS number, using an agreed algorithm. Where data are incomplete, HESID might erroneously link episodes or fail to recognise episodes for the same patient. Care is therefore needed, especially where duplicate records persist in the data. The patient count cannot be summed across a table where patients may have episodes in more than one cell.

3. Primary care trust (PCT) and strategic health authority (SHA) data quality

PCT and SHA data were added to historic data-years in the HES database using 2002–03 boundaries, as a one-off exercise in 2004. The quality of the data on PCT of treatment and SHA of treatment are poor in 1996–97, 1997–98 and 1998–99, with over a third of all finished episodes having missing values in these years. Data quality of PCT of general practitioner (GP) practice and SHA of GP practice in 1997–98 and 1998–99 are also poor, with a high proportion missing values where practices changed or ceased to exist. There is less change in completeness of the residence-based fields over time, where the majority of unknown values are due to missing postcodes on birth episodes. Users of time series analysis including these years need to be aware of these issues in their interpretation of the data.

4. Ungrossed data

Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).

Source:

Hospital Episode Statistics, Health and Social Care Information Centre.

Influenza

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the likelihood of a pandemic strain of influenza developing resistance to oseltamivir; and whether she intends to stockpile *(a)* M2 inhibitors and *(b)* other antivirals as an alternative strategy. [42018]

Ms Rosie Winterton: Antiviral resistance is a general concern and we are supporting and monitoring research on levels of viral resistance to antivirals—including oseltamivir. Recent anecdotal reports suggest a few patients treated for avian influenza have developed resistance to oseltamivir. These particular cases are specific to avian, not pandemic virus, and the data, for now, do not affect our current strategy. At present the experience is that these drugs do work and that they

should work against a pandemic strain. They need to be used carefully and appropriately to minimise the risk of resistance.

The World Health Organization (WHO) has completed tests of viruses recovered from the first two fatal cases in Turkey. These analyses indicate that the Turkish viruses are sensitive to both classes of antiviral drugs including oseltamivir. Oseltamivir remains the drug of first choice recommended by the WHO.

Our scientific advisory group reviews our antiviral strategy at their regular meetings and will keep under review the option of stockpiling alternative antivirals.

Shona McIsaac: To ask the Secretary of State for Health what percentage of eligible people received free influenza vaccinations in Cleethorpes constituency in each of the last three years; and if she will make a statement. [42970]

Ms Rosie Winterton: Information is available only at primary care trust level. The percentage of people aged 65 and over receiving free influenza vaccinations from 2002 to 2005, in North East Lincolnshire Primary Care Trust (PCT) is shown in the table.

Flu vaccine uptake by North East Lincolnshire PCT, 2002–05

	Total percentage uptake
2002–03	71
2003–04	72
2004–05	72

Learning Disabilities Services

Mr. Jenkins: To ask the Secretary of State for Health what assessment she has made of *(a)* the recent report by the Association of Directors of Social Services on learning disabilities services and *(b)* the likely impact of its recommendations on social care in Staffordshire. [42081]

Mr. Byrne: The Department welcomes this report as a useful piece of work, particularly in its emphasis on the importance of maintaining support for people with learning disabilities to lead their lives as independently as possible.

It is for Staffordshire council to consider the contents of the report in relation to its local service provision.

Little Haven Children's Hospice

Bob Spink: To ask the Secretary of State for Health if she will visit Little Haven Children's Hospice in Castle Point to review the work of the hospice and its funding levels. [42220]

Mr. Byrne: We greatly value the work undertaken by children's hospices, such as Little Haven, in providing hospice care as part of the mix of palliative care services needed by families with a child who has a life-threatening condition. I am pleased to have already been able to visit a number of palliative care settings, including children's hospices.

Our guide "Commissioning Children's and Young People's Palliative Care Services", launched on 29 November, has given commissioners important advice about the key aspects of children's palliative care which will improve the quality of commissioning and provision of services. This practical guide will stimulate improvements in commissioning and promote quality care for children, young people and their families in a range of settings, for example, palliative care at home, in hospital or in a hospice.

The funding Little Haven may receive from the national health service is a matter for negotiation between the hospice and the local primary care trusts who contract for their services. I understand an agreement is in place.

Maternity Services

Mr. Sheerman: To ask the Secretary of State for Health what steps her Department is taking to ensure that ambulance services are able to transport mothers further whilst in labour as a result of the closure of local maternity services. [39699]

Mr. Byrne: The Department sets national response time requirements for ambulance trusts. It is for ambulance trusts, together with primary care trusts as commissioners of ambulance services, to ensure that these requirements are met. This includes ensuring that sufficient numbers of vehicles and staff are available to respond to 999 calls.

It is for national health service maternity care providers and primary care trusts to ensure that women have easy access to supportive, high quality maternity services, designed around their individual needs and those of their babies, and that care is provided within a framework that enables easy and early transfer of women and babies who unexpectedly require specialist care.

The maternity standard of the national service framework for children, young people and maternity services, which was published in September 2004, asks all NHS maternity care providers and primary care trusts to ensure that:

formal local multi-disciplinary arrangements are in place for emergency situations, including transfer-in labour for all out of hospital or intra-hospital settings;

in all out-of-hospital labours/births, the midwife is responsible for transfer and continues to care for the woman on transfer where possible; and

for all transfers to hospital, midwives refer directly to the most senior obstetrician on call.

Mr. Ancram: To ask the Secretary of State for Health how many maternity units there are in each primary care trust in England. [42050]

Mr. Byrne: The information requested is not collected centrally by the Department. However, a recent analysis, using data (covering the period April 2003 to March 2004) collected by Dr. Foster in their role as an independent health care information provider, shows the number of maternity units, both shared and midwife-led, by primary care trust. This has been placed in the Library.

Mr. Lansley: To ask the Secretary of State for Health how many obstetrician-led maternity units there have been in England in each year since 1997; and how many maternity units delivered *(a)* fewer than 2,000 births,

(b) between 2,001 and 4,000 births annually and *(c)* over 4,001 births in the last five years for which figures are available. [42937]

Mr. Byrne: This information is not collected centrally.

The maternity records collected through the Hospital Episodes Statistics system are usually identified only to trust level, rather than to any specific unit within the trust. Some trusts provide information regarding the staff group with lead responsibility for care for example, midwife-led or consultant-led, but this does not allow the identification of consultant-led units.

Mental Health Treatment

Danny Alexander: To ask the Secretary of State for Health what proportion of referrals to therapists have been for *(a)* individual treatment and *(b)* group therapy in each of the last five years, broken down to the most local level for which figures are available. [40892]

Ms Rosie Winterton: This information is not collected centrally by the Department.

Danny Alexander: To ask the Secretary of State for Health if she will estimate the number of full-time equivalent *(a)* psychotherapists, *(b)* cognitive and behavioural therapists and *(c)* other therapists working in the NHS, broken down to the most local level for which figures are available. [40894]

Mr. Byrne: Information on the number of consultants and registrar group doctors within psychotherapy and the number of qualified scientific, therapeutic and technical staff within each specified area of therapy work including psychotherapy at strategic health authority and trust level in England, as at September 2004 has been placed in the Library.

Information on the number of cognitive and behavioural therapists is not collected centrally.

Midwifery-led Birthing Centres

Mr. Jim Cunningham: To ask the Secretary of State for Health how many midwife-led birthing centres there are in Coventry South. [42784]

Ms Rosie Winterton *[holding answer 19 January 2006]:* The information requested is not collected centrally.

Midwives

Mr. Drew: To ask the Secretary of State for Health how many full-time equivalent midwives there are in each maternity unit; and how many vacancies there are in each unit. [41499]

Mr. Byrne: The Department does not collect information at maternity unit level. Information is collected at trust level, which has been placed in the Library. At September 2005, the rate of vacancies lasting three months or more for midwives has fallen to 1.8 per cent, compared to 3.3 per cent, year earlier and the number of vacancies at 348 was the lowest since before 1999.

Ministerial Visits

Mike Penning: To ask the Secretary of State for Health how many times she has visited *(a)* Dacorum and *(b)* Hertfordshire in her official capacity in the last 12 months; and what the purpose was of each visit. [29925]

Ms Rosie Winterton: The Secretary of State for Health has not visited Dacorum or Hertfordshire in an official capacity in the last 12 months.

New Drugs

Steve Webb: To ask the Secretary of State for Health what plans she has to make additional funding available to primary care trusts to pay for newly licensed drugs; and if she will make a statement. [43374]

Jane Kennedy *[holding answer 19 January 2006]:* No additional funding will be made available to primary care trusts (PCTs) in relation to newly licensed drugs.

PCTs have been informed of their revenue allocations up to the end of 2007–08. The 2006–08 allocations represented £135 billion investment in the national health service. Over the two years covered by this allocation, PCTs will receive an average increase of 19.5 per cent.

It is for PCTs to determine how to use the funding allocated to them to meet the health care needs of their local populations, including providing for innovations in treatment and health care.

NHS Air Ambulance Services

David Taylor: To ask the Secretary of State for Health what recent assessment she has made of the funding arrangements for NHS air ambulance services in *(a)* the East Midlands and *(b)* England. [40817]

Mr. Byrne: Air ambulances are funded by charities. Since 1 April 2002, the cost of clinical staff on air ambulances has been met by the national health service on a continuing basis. It is for NHS trusts to decide whether they provide any additional funding to air ambulance charities.

NHS Consultants

Ben Chapman: To ask the Secretary of State for Health how many sabbaticals for NHS consultants were arranged during 2005. [40670]

Mr. Byrne: There is no national sabbatical scheme for consultants. Consultants may apply for sabbatical leave in accordance with the employing organisation's arrangements. Information on numbers would be held locally by individual employers.

NHS Direct

Philip Davies: To ask the Secretary of State for Health what proportion of callers to NHS Direct have been advised to go to their GP. [39665]

Mr. Byrne: The information requested is not centrally held. It may be available from NHS Direct special health authority.

NHS Private Finance Initiative Schemes

Mr. Lansley: To ask the Secretary of State for Health what estimate she has made of the total expenditure on NHS private finance initiative schemes in each year until 2013–14. [39356]

Mr. Byrne: I refer the hon. Member for South Cambridgeshire to the answer I gave on 12 July 2005, *Official Report*, columns 988–989W, which stated that detailed unitary payment for schemes which have reached financial close had been placed in the Library. This list has now been updated to reflect the four private finance initiative hospital schemes which have reached financial close since then and which are over £20 million in capital value. The updated list has also been placed in the Library.

NHS Trusts (Finance)

Steve Webb: To ask the Secretary of State for Health what the cumulative deficit is of each NHS trust in England which has a deficit that it is required to clear to reach a break even financial position. [39811]

Mr. Byrne: National health service trusts are expected to plan for and achieve financial balance each and every year.

All NHS trusts with a cumulative deficit have a statutory duty to breakeven over a three, or exceptionally up to a five-year period.

The latest year for which audited financial data is available is 2004–05, which has been placed in the Library.

Steve Webb: To ask the Secretary of State for Health over what time period an NHS trust which runs up a deficit during the 2005–06 financial year is required to repay the amount overspent; and if she will make a statement. [40903]

Mr. Byrne: National health service trusts are expected to plan for and achieve break even every year. NHS trusts have a statutory financial duty to achieve a break even position on income and expenditure taking one year with another. This is interpreted as needing to break even over a period of three, and in exceptional cases, up to five years. Where NHS trusts overspend, this would require other NHS organisations, within the health economy, to under spend over the same period.

NHS Walk-in Centres

Mr. Lansley: To ask the Secretary of State for Health (1) how much NHS walk-in centres have cost in each year since their establishment; [41960]

(2) how many attendances there have been at walk-in centres in each quarter since 1 January 2003. [41997]

Mr. Byrne: National health service walk-in centres are managed locally by their host primary care trust or NHS trust. They are not separate accounting entities and their running costs are not routinely collected or held centrally by the Department.

Data on the number of visits to NHS walk-in centres in each quarter from January 2003 to September 2005, the latest full quarter for which data are available, are shown in the table.

Visits to NHS walk-in centres

Period	*Number*
January to March 2003	335,358
April to June 2003	391,940
July to September 2003	412,829
October to December 2003	387,570
January to March 2004	389,784
April to June 2004	477,667
July to September 2004	503,144
October to December 2004	516,406
January to March 2005	571,305
April to June 2005	652,367
July to September 2005	667,045

Department of Health

Nurses

Dr. Stoate: To ask the Secretary of State for Health how many whole-time equivalent nurses are employed by *(a)* general practitioners, *(b)* other primary care NHS organisations and *(c)* acute sector NHS organisations in (i) England and (ii) each primary care trust area in Kent, broken down by nursing specialty. [42202]

Mr. Byrne: Information on the number of full-time equivalent nurses by primary care trust (PCT) and national health service trust in Kent and England broken down by specified specialty is shown in the table.

It is not possible to provide NHS trust (acute sector) staff by PCT area.

National health service hospital and community health services: Qualified nursing, midwifery and health visiting staff in England and the Kent and Medway strategic health authority area by organisation and by area of work as at 30 September 2004 full-time equivalent

Nursing and Midwifery Council

Susan Kramer: To ask the Secretary of State for Health how many complaints have proceeded to hearing before the Professional Conduct Committee of the Nursing and Midwifery Council in the last five years; and how many of such cases led to a removal from the register. [41107]

Mr. Byrne: This information is not held centrally. Data about complaints referred to the Professional Conduct Committee can be obtained directly from the Nursing and Midwifery Council.

Nye Bevan Awards

Helen Jones: To ask the Secretary of State for Health how many people have received Nye Bevan awards in each year since they were instituted. [38328]

Jane Kennedy *[holding answer 19 January 2006]:* The Nye Bevan awards were allocated to eight national health service healthcare teams from around the country who were key pioneers of NHS modernisation. From the eight regional awards, one national award was given.

Nye Bevan National Modernisation award winner 1999 was NHS South East Region-Trinity Project, Wellington Square Medical Centre, Hastings.

The eight regional Nye Bevan award winners for 1999 were:

NHS Northern and Yorkshire Region-The North Kirklees Mental Health Service

For nationally renowned joint working, offering local people a single gateway to all local health, social care and housing, in particular helping young people and others suffering from mental health problems to find jobs, housing, care and support.

NHS Eastern Region-The Lynda Jackson McMillan Cancer Support and Information Centre at Mount Vernon Hospital, London

For leading the national drive to make Britain's cancer services the best in the world.

NHS North West Region-Preston Acute Trust

State of the art waiting list management system, covering all specialties and providing instant access to information for managers and clinicians.

NHS South and West Region-The Beacon Project, Falmouth, Cornwall

Out-standing community based care in Penwerris, Falmouth-an area of high deprivation-halving the number of children on the local at-risk register, cutting childhood accidents and crime and slashing by two thirds the number of women requiring treatment for post-natal depression.

NHS London Region-The Central Middlesex Hospital, London

Britain's first combined day case and outpatient treatment centre, incorporating new airline style booking systems for patient appointments, enabling the hospital to slash in-patient and out-patient waiting lists and times through improved access and convenience for patients.

NHS Trent Region-The Nottingham City NHS Hospital Trust

Leading the national drive for health workplaces and staff involvement in the NHS, with superb staff involvement in work force planning, training, design and consultation.

NHS West Midlands Region-The Small Heath Locality Mental Health Service, Birmingham

For unique success in delivering local mental health services, within a multi-faceted NHS high street walk-in centre, working alongside district nurses, health visitors, chiropodists and other voluntary organisations.

NHS South East Region-Trinity Project, Wellington Square Medical Centre, Hastings

Leading joint work between the NHS, police, probation and social services and local volunteers and charities, tackling drug misuse and dependency, helping local drug users overcome their addiction.

Nye Bevan National Modernisation award winner 2000 was The National Refractory Angina Centre, Cardiothoracic Centre Royal Liverpool NHS Trust.

The eight regional Nye Bevan award winners for 2000 were:

NHS Eastern Region-nurse led out-patient management of veno thromboembolism, Norfolk and Norwich Healthcare NHS Trust

A pioneering system of treating deep vein thrombosis patients at home, rather than in a hospital setting.

NHS London Region-Soho Centre for Health and Care, Parkside Health Trust

A one stop centre that has brought together local authority, NHS and voluntary sector services under one roof.

NHS Northern and Yorkshire Region-OPUS employment project for people with mental health problems, Northumberland Mental Health NHS Trust

Created in 1994, this innovative service has the very clear aim of 'assisting people with a mental health problem to achieve their maximum potential in worthwhile work'.

NHS North West Region-The National Refractory Angina Centre, Cardiothoracic Centre Royal Liverpool NHS Trust

State of the art multi-disciplinary patient centred management model, with the primary objective of improving and harmonising the standard of care to patients and their carers.

NHS South Eastern Region-Working Out-Aylesbury Vale Community Healthcare NHS Trust

The Working Out programme bridges the gap between rehabilitation and employment through a graded preparation for (and a supported return to) work or alternative occupation.

NHS South West Region-Action on Cataract Together, East Gloucestershire NHS Trust

The action on cataracts programme is spearheading the development of a high quality, patient focused service.

NHS Trent Region-Respiratory Home Care Service University Hospitals of Leicester NHS Trust

Current trend in respiratory care is towards supporting the patient in the community and preventing hospital admission. The role of the respiratory nurse practitioner has evolved to incorporate the acute assessment unit, the home intravenous antibiotic programme, the support of patients on long term oxygen therapy at home and the provision of an early discharge scheme.

NHS West Midlands Region-Interpreting Service Sandwell Healthcare NHS Trust

This service enables patients or users accessing the services of the trust to communicate with staff in a language they choose.

In 2000, the following Nye Bevan Awards were also given:

The lifetime achievement award joint winners:

Jenni Thomas, maternity and neonatal bereavement facilitator, South Buckinghamshire NHS Trust.

Developed bereavement counselling services for parents and has set up national charity, The Child Bereavement Trust.

Professor Jillian Mann, Birmingham Children's Hospital (BCH) NHS Trust, leading childhood cancer expert.

Established Regional Paediatric Oncology Services and Research at BCH.

David James Kerr, Professor of Clinical Oncology, University Hospital Birmingham NHS Trust Gene and Immunotherapy for Cancer

Professor Kerr leads a team of laboratory and clinical scientists who have developed a number of highly innovative new treatments for cancer patients, which have just entered clinical trials in the trust.

Parliamentary Questions

Mr. Hancock: To ask the Secretary of State for Health when she will answer the questions from the hon. Member for Portsmouth, South tabled on *(a)* 11 November 2005 reference 28284 and *(b)* 17 November 2005 reference 29840. [43877]

Caroline Flint: I refer the hon. Member to the replies sent on 16 and 17 January 2006, *Official Report*, columns 1063W and 1302W.

Patient and Public Involvement Resource Centre

Mr. Baron: To ask the Secretary of State for Health which organisations have responsibility for *(a)* setting up and *(b)* running the patient and public involvement resource centre; and on what date she expects the resource centre to begin its work. [42137]

Ms Rosie Winterton *[holding answer 16 January 2006]:* The Department is responsible for the setting up of the patient and public involvement resource centre. We are currently finalising the contract details but until the procurement process is complete, we are unable to provide further details as they are commercially sensitive.

We expect the successful provider to commence work in early February.

Primary Care Trusts

Mr. Drew: To ask the Secretary of State for Health what the allocations to each primary care trust within the Avon, Gloucestershire and Wiltshire Strategic Health Authority were in each of the last three years; and what the capital allocations to each primary care trust were in each year. [41816]

Ms Rosie Winterton: The 2003–04 to 2005–06 revenue allocations to primary care trusts (PCTs) were announced in December 2002. The table shows the revenue allocations made to PCTs within the Avon, Gloucestershire and Wiltshire Strategic Health Authority (SHA) for this period.

PCT	Allocation			Three year total increase	
	2003–04 (£000)	*2004–05 (£000)*	*2005–06 (£000)*	*£000*	*Percentage*
Bath and North East Somerset	140,354	153,237	167,238	38,915	30.33
Bristol North	204,387	223,245	243,728	56,928	30.48
Bristol South and West	171,215	186,424	202,688	45,779	29.18
Cheltenham and Tewkesbury	124,221	136,208	148,726	35,685	31.57
Cotswold and Vale	159,474	173,643	188,390	42,208	28.87
Kennet and North Wilts	150,973	164,383	178,727	40,380	29.19
North Somerset	151,428	166,342	182,185	44,653	32.47
South Gloucestershire	172,121	188,320	205,893	48,895	31.14
South Wiltshire	99,642	108,493	117,958	26,642	29.18
Swindon	152,323	166,721	182,319	43,428	31.27
West Gloucestershire	188,232	206,016	224,782	53,137	30.96
West Wiltshire	90,474	99,238	108,621	26,316	31.97

In addition, revenue allocations, covering 2006–07 and 2007–08 were announced in February 2005. The revenue allocations made to PCTs in the Avon, Gloucestershire and Wiltshire SHA for 2006–07 and 2007–08 are shown in the table.

PCT	*Allocation*		*Two year total increase*	
	2006–07 (£000)	*2007–08 (£000)*	*£000*	*Percentage*
Bath and North East Somerset	206,371	224,569	34,023	17.9
Bristol North	287,627	312,296	46,649	17.6
Bristol South and West	239,350	258,885	37,583	17.0
Cheltenham and Tewkesbury	181,446	198,605	32,341	19.5
Cotswold and Vale	222,132	240,253	34,858	17.0
Kennet and North Wiltshire	211,111	231,784	38,344	19.8
North Somerset	225,201	251,427	45,126	21.9
South Gloucestershire	250,189	275,190	45,949	20.0
South Wiltshire	145,066	156,897	22,757	17.0
Swindon	223,813	243,943	37,330	18.1
West Gloucestershire	266,091	292,350	48,551	19.9
West Wiltshire	134,671	150,935	31,015	25.9

Comparisons between allocations rounds cannot be made, for the following reasons:

revenue allocations were made to health authorities for the period 2000–01 to 2002–03;

changes are made to the weighted capitation formula for each allocations round, therefore, comparisons would not be on a like with like basis;

2003–06 revenue allocations were made direct to PCTs, for the first time, and were on a three yearly basis; and

2006–08 is the first year that primary medical services were incorporated onto revenue allocations.

Capital allocations to PCTs in Avon, Gloucestershire and Wiltshire SHA are shown in the table. Capital allocations for 2006–07 have not yet been announced.

£000

PCT	*Operational capital allocation*		
	2003–04	*2004–05*	*2005–06*
Bath and North East Somerset	1,164	1,245	1,333
Bristol North	153	174	197
Bristol South and West	180	205	232
Cheltenham and Tewkesbury	177	189	202
Cotswold and Vale	692	741	800
Kennet and North Wilts	1,124	1,202	1,286

South Wiltshire	33	35	38
Swindon	224	239	256
West Gloucestershire	255	272	292
West Wiltshire	488	522	559

Podiatrists

John Penrose: To ask the Secretary of State for Health (1) how many vacancies there were within the NHS for podiatrists on average in *(a)* 2003, *(b)* 2004 and *(c)* 2005; [41089]

(2) how many NHS podiatrists successfully completed their training in *(a)* 2003, *(b)* 2004 and *(c)* 2005; [41090]

(3) how many people began training in podiatry in *(a)* 2003, *(b)* 2004 and *(c)* 2005. [41091]

Mr. Byrne: Information on the number of people beginning or completing training in podiatry is not available centrally.

Information on the number of training places commissioned in chiropody and podiatry from 2002–03 to 2004–05 is shown in the table.

Commissioned training places in chiropody and podiatry

	Number of training places
2002–03	427
2003–04	451
2004–05	559

Notes:
QMR = NMET quarterly monitoring reports
Source:
QMR Q4, Department of Health

Information on the number and rate of vacancies for chiropodists/podiatrists lasting three months or more in each of the last three years is shown in the table.

Three-month vacancy rate and number for all chiropodists/podiatrists in England as at 31 March 2003–05

	Number	*Percentage*
2005	97	3.0
2004	60	1.9
2003	37	1.3

Notes:
1. Three month vacancies are vacancies which trusts are actively trying to fill, which had lasted for three months or more (full-time equivalents).
2. Three month vacancy rates are three month vacancies expressed as a percentage of three month vacancies plus staff in post.
Source:
NHS Vacancy Survey

There has been considerable growth in the national health service chiropody/podiatry workforce. In September 2004, there were 3,941 qualified NHS chiropodists/podiatrists; this represents an increase of 655 or 20 per cent. since 1997.

PR Companies

Mr. Weir: To ask the Secretary of State for Health if she will list the public relations companies that have had contracts with *(a)* her Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which her Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by her Department and other such organisations since May 1997. [39069]

Jane Kennedy: It is not possible to list the public relations companies that have had contracts with the Department, each non-departmental public bodies, or executive agencies for which the Department is responsible or independent statutory bodies, organisation and bodies financially sponsored by the Department since May 1997. This information can be supplied only at disproportionate costs.

Publications (Languages)

Paul Holmes: To ask the Secretary of State for Health if she will make all published departmental materials intended for families available in languages other than English; and if she will make a statement. [29561]

Jane Kennedy: The Department does not publish material specifically for families though it does produce a small selection of public health literature aimed at audiences within family groups. Of these, 35 titles are published across a range of 27 languages with many more available on the Department's internet sites.

The Department's Communications Directorate is reviewing how to better meet the needs of Black and Minority Ethnic groups (BME) in departmental publications.

Respiratory Diseases

Anne Main: To ask the Secretary of State for Health how many people suffered from *(a)* asthma and *(b)* other respiratory illnesses in each year since 1997. [43129]

Mr. Byrne: Information on the number of people living with asthma and other respiratory illnesses is not collected.

Sex Offenders

Mr. Lansley: To ask the Secretary of State for Health how many individuals whose names appear on the *(a)* Protection of Children Act list and *(b)* Protection of Vulnerable Adults list are employed by (i) NHS organisations and (ii) social services departments; and how many individuals employed by (A) NHS organisations and (B) social services departments have committed an offence listed under Schedule 1 to the Sex Offenders Act 1997. [43451]

Mr. Byrne *[holding answer 19 January 2006]:* The responsibility for carrying out pre-employment checks, including Criminal Records Bureau, Protection of Children Act and Protection of Vulnerable Adults checks where applicable, rests with the relevant employer, whether a national health service organisation or social services department or other regulated provider of health or social care. The NHS is required to follow the guidance, "Safer Recruitment" issued in May 2005 which covers all the pre and post-appointment checks that NHS employers are required to make before appointing anyone—including employees, volunteers, students and trainees—to a position in the NHS. In regulated social care, providers must comply with regulations on pre-employment checks made under the Care Standards Act 2000 which came into force in April 2002.

Part two of the Sexual Offences Act 2003 replaced part one of the Sex Offenders Act 1997 and schedule three to the 2003 Act came into force on 1 May 2004. The Act requires convicted sex offenders to report each year to their local police and inform the police if they change their name and address within three days instead of the previous 14 days.

The Department does not hold information about NHS and social care employees of the kind requested.

Shipman Inquiry

Mr. Horam: To ask the Secretary of State for Health (1) whether she has accepted the recommendations in the Report of the Shipman Inquiry on amending the Public Interest Disclosure Act 1998, with particular reference to the recommendations that the Government

should *(a)* promote awareness of the role of whistleblowing and *(b)* ensure that people in whistleblowing dilemmas have access to confidential advice; [29083]

(2) when she will give a full answer to the question on the Public Interest Disclosure Act 1998 tabled by the hon. Member for Orpington to which she gave a holding answer on 21 November 2005. [41981]

Jane Kennedy *[holding answer 21 November 2005]:* The Department has been discussing the Shipman Inquiry's recommendations with the Department for Trade and Industry, which is the lead Department for the Public Interest Disclosure Act 1998 (PIDA), and with relevant stakeholders, and we will continue to do so.

We agree that it is important that national health service staff who have genuine concerns are able to get informed advice on their options and next steps and, where appropriate, support when raising those concerns. However, we are not yet persuaded that amendment to PIDA is necessary to achieve this.

There are many related issues contained within the Shipman Report, and we will respond in full to this point as part of the Government's formal response to the Shipman Inquiry.

Specialist Gastric Care

Lynne Featherstone: To ask the Secretary of State for Health what steps the Government are taking to ensure that patients with *(a)* colitis and *(b)* Crohn's disease receive adequate healthcare. [42088]

Mr. Byrne: It is for primary care trusts to commission appropriate local services, according to local need, in order to provide adequate health and social care for people with long-term conditions, as set out in the NHS Improvement Plan.

Standing Frames

Mr. Pelling: To ask the Secretary of State for Health which primary care trusts do not provide a grandstand standing frame to patients who require one on discharge. [41678]

Mr. Byrne: This information is not held centrally.

The provision of support and services for people with an assessed need is the responsibility of the local national health service and social care services. It is for those services to determine what to provide to meet the needs of individuals.

Student Grants Unit

David Taylor: To ask the Secretary of State for Health whether automated responses are recorded by her Department as replies to questions put to the Student Grant Unit by email. [41038]

Mr. Byrne: The Department does not record information about email responses from the NHS Student Grants Unit. The NHS Pensions Agency, who are responsible for the NHS Student Grants Unit, does record automated responses as replies to questions put to them by email.

Treatment Costs

Mr. Dunne: To ask the Secretary of State for Health what the average cost was per patient per bed of treatment in *(a)* the Royal Shrewsbury hospital, *(b)* the Princess Royal hospital in Telford and *(c)* the community hospital in (i) Bridgnorth, (ii) Ludlow and (iii) Bishop's Castle in (A) 2003, (B) 2004 and (C) 2005. [38635]

Ms Rosie Winterton *[holding answer 20 December 2005]:* There are no data collected centrally at individual patient per bed level. Data are collected on a finished consultant episode basis and at national health service trust level, within which one or more hospitals will operate.

Urosotomy Prescriptions

Dr. Cable: To ask the Secretary of State for Health whether the number of suppliers of urosotomy prescriptions is due to be reviewed under the current consultation; and if she will make a statement. [41986]

Jane Kennedy *[holding answer 23 January 2006]:* The Department is currently seeking views on the arrangements for the provision of dressings, incontinence appliances, stoma appliances, chemical reagents and other appliances to primary and secondary care.

These views are being sought through a formal consultation that closes on 23 January 2006. We anticipate that suppliers of urosotomy prescriptions will respond to this consultation.

Once the consultation closes, on 23 January 2006, we will review all the responses and—where necessary—seek clarification from responders. Only then will the Department be in a position to make any decisions about the way forward.

Waiting Times

Mr. Kemp: To ask the Secretary of State for Health how long a patient had to wait on average for a *(a)* heart bypass, *(b)* breast cancer, *(c)* hip replacement, *(d)* cataract and *(e)* kidney transplant operation in each year since 1997 in Sunderland Royal hospital. [28306]

Mr. Byrne: There were no kidney transplant operations undertaken at the Sunderland Royal hospital during this period. The remaining information requested is shown in the table. Latest figures show that all breast cancer patients at the trust meet the national target of receiving treatment within one month of diagnosis.

Media time waited by selected procedures: City Hospital Sunderland National Health Service Foundation Trust, 1997–98 to 2003–04

	Breast cancer	*Cataract*	*Heart bypass*	*Hip replacement*
1997–98	7	276	—	307
1998–99	5	278	—	242
1999–2000	7	170	133	294
2000–01	9	146	—	341
2001–02	9	118	—	330

2003–04	10	143	—	223

Notes:

Ungrossed data

Figures have not been adjusted for shortfalls In data, that is, the data is ungrossed.

Main operation

The main operation is the first recorded operation in the Hospital Episodes Statistics (HES) data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, for example, time waited, but the figures for all operations count of episodes give a more complete count of episodes with an operation.

Time waited (days)

Time waited statistics from HES are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical or social suspension.

Hospital Episodes Statistics, NHS Health and Social Care Information Centre.

Greg Clark: To ask the Secretary of State for Health what progress has been made towards ensuring a maximum wait of three months for an out-patient appointment; and what assessment she has made of the impact on other NHS patients as a result. [40264]

Mr. Byrne: Latest data shows that the number of patients waiting over 13 weeks for a first out-patient appointment has fallen from around 340,000 in June 1997 to under 40,000 at the end of September 2005. We remain confident that out year-end targets for national health service waiting for admission times will have been met.

The Department has issued very clear guidance that clinical priority must be the main determinant of when patients should be seen and we are not aware of any evidence to suggest that delivering shorter out-patient waits has had any adverse impact on other NHS patients.

Mr. Bone: To ask the Secretary of State for Health how many patients had been waiting for hospital operations for more than six months on 1 December 2005 *(a)* in total and *(b)* in each NHS hospital trust. [40542]

Mr. Byrne: The information requested has been placed in the Library.

Mr. Bone: To ask the Secretary of State for Health how many patients will have to wait more than six months for their NHS operation as of 1 January 2006 *(a)* broken down by NHS hospital trust and *(b)* in total. [40873]

Mr. Byrne: The national health service now operates a maximum waiting for admission time of six months for an inpatient operation. The NHS has rigorous monitoring and performance management systems in place to enable it to deliver this. We remain confident that our year-end target of a maximum NHS waiting for admission time of six months will have been met.

NORTHERN IRELAND

Chewing Gum

Lady Hermon: To ask the Secretary of State for Northern Ireland what assistance has been provided by his Department to each district and borough council in Northern Ireland in each of the last five years to fund the removal of chewing gum from public areas. [44563]

Angela E. Smith: The removal of chewing gum from public areas is a matter for district and borough councils themselves and the Department of the Environment does not provide funding for this service. From 1 November 2005 councils are permitted to retain receipts from fixed penalty notices issued for littering and dog fouling and may use the sums received for the purposes of its functions under Articles 5 and 6 of the Litter (NI) Order 1994.

Department of Agriculture and Rural Development

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many Department of Agriculture and Rural Development staff are engaged in a monitoring role for each leader company in Northern Ireland; and at what cost in the last period for which figures are available. [44917]

Angela E. Smith: The Department of Agriculture and Rural Development's Rural Development Division (RDD) has 2 Monitoring Officers, which equates to 1.8 full time equivalent posts. In 2005 the 12 Local Action Groups (LAGs), which deliver LEADER + funding, received one monitoring visit each. This visit was comprised of the following:

two days preparation

one day visit to the LAG

four days resolving outstanding issues and preparing a report.

This is a cost per LAG of £792.51.

Dog-fighting

Andrew Rosindell: To ask the Secretary of State for Northern Ireland what steps he is taking to prevent organised dog-fighting in Northern Ireland; and if he will make a statement. [43756]

Angela E. Smith: Under the Welfare of Animals (Northern Ireland) Act 1972, it is an offence to cause unnecessary suffering to an animal by causing, procuring or assisting at the fighting or baiting of an animal or to take part in such an episode. It is also an offence to keep, use, manage, permit or assist in the keeping use or management of any premises for the purpose of fighting or baiting any animal contrary to the above.

The PSNI enforce the Welfare of Animal Act (NI) 1972, where breaches are reported or detected. The PSNI will deal with any report of such activity and act accordingly. Recent media reports have highlighted the problem, but the level of such activity remains relatively low. This does not excuse or condone such cruel behaviour, and the service treats all such reports with the utmost seriousness.

Other agencies such as local councils and the USPCA also play a role in dog welfare issues. The Department of Agriculture and Rural Development for Northern Ireland in recent weeks has assisted these agencies in raids on premises where it is suspected that dogs were being trained for fighting and baiting. On the basis of evidence gathered consideration is being given to prosecutions for breaches of the legislation.

As part of the current review of Northern Ireland Welfare of Animals legislation the Department of Agriculture and Rural Development is considering what measures may be necessary to strengthen powers to deal with abuses of animal welfare, including, in respect of organised dog-fighting.

Drug-related Offences

Andrew Rosindell: To ask the Secretary of State for Northern Ireland how many people have been prosecuted for drug-related offences in Northern Ireland in each of the last seven years. [43722]

Mr. Hanson: The following table provides prosecutions for drug-related offences, broken down by category, in Northern Ireland for the calendar years 1997 to 2003. Figures for 2004 are not yet available.

Prosecutions for drug-related offences in Northern Ireland 1997–2003

Offence	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Unlawful possession	353	460	493	495	346	327	417
Possession with intent to supply unlawfully	216	183	156	181	153	110	113
Unlawful supply	75	32	31	38	27	9	21
Unlawful production	7	17	14	5	3	1	6
Permitting premises to be used for unlawful purposes	14	6	2	1	1	4	0
Unlawful import or export	8	5	3	3	0	0	0
Other misuse of Drugs Act offences	1	4	13	9	9	4	11
Total	674	707	712	732	539	455	568

Education

Chris Ruane: To ask the Secretary of State for Northern Ireland (1) how many and what percentage of 16 to 25-year-olds in each ward in Northern Ireland are in further education, listed in descending order and indicating in which constituency each ward lies; [44525]

(2) how many and what percentage of 18 to 25-year-olds are in higher education in each ward in Northern Ireland, broken down by constituency. [44528]

Angela E. Smith: The information has been placed in the Library.

Sammy Wilson: To ask the Secretary of State for Northern Ireland what percentage of pupils in Northern Ireland's schools in receipt of free school meals achieved five or more GCSE grades A*-C in *(a)* 2004 and *(b)* 2005. [44299]

Angela E. Smith: Information is not available in the format requested. However, of pupils leaving school in 2003–04, 33 per cent. of those entitled to free school meals achieved five or more GCSE grades A*-C. Figures for 2004–05 will be available by July 2006.

Employment (Republic of Ireland)

Chris Ruane: To ask the Secretary of State for Northern Ireland how many adult workers in each constituency in Northern Ireland are employed in the Republic of Ireland, listed in descending order. [44422]

Angela E. Smith: Estimates of the number of Northern Ireland residents working in the Republic of Ireland are not available. However for information, the Autumn (September-November) 2005 Labour Force Survey estimated that 11,000 Northern Ireland residents were currently employed outside of the UK.

Giant's Causeway

Andrew Rosindell: To ask the Secretary of State for Northern Ireland if he will make a statement on the new visitor centre at the Giant's Causeway in Northern Ireland. [43715]

Angela E. Smith: Good progress toward the provision of new visitor facilities continues to be made. The design of the new facilities has recently been selected following a successful international architectural competition; and a firm of designers have also now been appointed to design the interpretation and fit out of the new facilities. Work is currently under way to appoint the remainder of the project team to work with the winning architects to develop the detailed design and submit a planning application.

High Hedges

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many responses were received from each district council area to the consultation paper on nuisance high hedges released on 10 August 2005; and when the Environment Minister is expected to report on the result of the consultation. [44913]

Angela E. Smith: A report on the outcome of the Department of the Environment's recent public consultation to collect information about the number of nuisance high hedges in Northern Ireland will be published by April 2006.

The number of responses received from each district council area to the nuisance high hedges consultation released on 10 August 2005 is as follows:

Council area	*Consultation responses*
Antrim	17
Ards	54
Armagh City	22
Ballymena	30

Council area	Consultation responses
Ballymoney	11
Banbridge	24
Belfast City	22
Carrickfergus	21
Castlereagh	31
Coleraine	16
Cookstown	9
Craigavon	18
Derry City	25
Down	33
Dungannon and South Tyrone	12
Fermanagh	26
Larne	8
Limavady	3
Lisburn City	51
Magherafelt	13
Moyle	3
Newry and Mourne	33
Newtownabbey	32
North Down	77
Omagh	18
Strabane	7
Total responses by district council area	[1]616

[1] The overall number of consultation responses received was 640; however 24 of these could not be associated with a specific council area.

Job Creation (East Londonderry)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how much grant assistance was paid towards additional job creation in the private sector in East Londonderry constituency in 2005. [44061]

Angela E. Smith: During the financial year 2004–05 Invest NI offered £2.29 million of assistance within the East Londonderry constituency area. This contributed towards projects which have a total planned investment of over £11 million; and is comprised of over 400 offers aimed at the establishment, growth and capability development of businesses within the area, including 235 offers of support provided through the Start a Business Programme.

In addition, during 2004–05 the Department of Agriculture and Rural Development awarded £1.17 million to the private sector within the East Londonderry constituency.

Lower Back Pain

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many working days were estimated to have been lost due to lower back pain in Northern Ireland in *(a)* 2000 and *(b)* 2005. [43626]

Angela E. Smith: Estimates of the number of working days lost due to lower back pain are not available. However for information, the autumn (September to November) 2005 Labour Force Survey estimated that there were 23,000 people in employment in Northern Ireland that have been suffering from back or neck pain for a period of one year or more. The comparable figure for autumn 2000 was 21,000.

Ministerial Meetings

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many meetings with his officials have been requested *(a)* by officials in the Fisheries Division of his Department and *(b)* by Lord Rooker since his appointment as Minister for Agriculture and Rural Development; and how many briefings he (i) has requested from officials in the Fisheries Division and (ii) has received. [44771]

Angela E. Smith: Officials are always available to meet Ministers as and when necessary. Lord Rooker has met with officials at their request, on at least five occasions and once at the request of the Minister. The Minister has received briefing on more than 30 occasions. All of these have been initiated with fisheries officials in line with their duty to keep the Minister informed in issues of significance.

MOTs

Lady Hermon: To ask the Secretary of State for Northern Ireland what the average waiting time for MOT inspections was at each vehicle testing agency site in Northern Ireland in the last year for which figures are available. [44567]

Angela E. Smith: The following table shows the average waiting time for MOT inspections at each test centre in Northern Ireland for the period 1 January 2005 to 31 December 2005.

Centre	Average waiting time (days)
Armagh	37
Ballymena	39
Belfast	36
Coleraine	48
Cookstown	44
Craigavon	35
Downpatrick	32
Enniskillen	51
Larne	27
Lisburn	39
Londonderry	57
Mallusk	28
Newry	43
Newtownards	30
Omagh	57

MRSA (Hospital Deaths)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people died in Northern Ireland hospitals during 2005 where MRSA was a contributory factor. [42275]

Angela E. Smith: The latest year for which figures are available is 2004. There were 44 deaths registered in Northern Ireland where MRSA[1] was mentioned on the death certificate. Of these 34 deaths occurred where the place of death was in a hospital.

[1] In the United Kingdom, the International Classification of Diseases (ICD) is used to classify cause of death. The current version of ICD does not have a specific code for methicillin resistant staphylococcus aureus (MRSA). However statistics on deaths where MRSA was a contributing factor can be obtained. In common with England and Wales, this is done by identifying deaths with specific conditions likely to be linked with MRSA and then manually checking the cause of death on the death certificate to identify whether MRSA was recorded.

New Deal

Chris Ruane: To ask the Secretary of State for Northern Ireland how many young people in each ward in Northern Ireland have been helped into work under the new deal programme *(a)* in total and *(b)* in each year since the introduction of the new deal, listed in descending order and indicating in which constituency each ward lies. [44527]

Angela E. Smith: This information has been placed in the Library.

New School Buildings

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland which *(a)* primary and *(b)* post-primary schools in the (i) controlled and (ii) maintained sectors in East Londonderry constituency are scheduled to have new school buildings within the next 10 years. [44063]

Angela E. Smith: In the East Londonderry constituency, there are currently 11 schemes in planning, four of which have been approved for funding—one controlled primary school scheme (Carnalridge), one maintained primary rationalisation scheme (Dungiven, Largy and Burnfoot), one controlled post-primary scheme (Coleraine college) and one controlled special schools amalgamation scheme (Glasvey and Limegrove).

There are seven schemes that have been identified by the relevant school authorities to the Department of Education as requiring a major capital works scheme and have been assessed by the Department as having a need for a scheme. These are currently in various stages of planning and the progressing of these schemes will be dependent on the availability of resources, and the planning, procurement and construction work required. These schemes are:

Controlled primary

Ballykelly

Maintained primary

St. Canice's, Dungiven

Crossroads, Kilrea

St. Patrick's, Portrush

Integrated primary

Millstrand, Portrush

Controlled post-primary

Coleraine High School

Voluntary grammar school

Dominican College, Portstewart

The relevant school authorities have also identified to the Department within their five-year plans the following schools for future assessment.

Controlled primary

Drumachose, Limavady

Millburn, Coleraine

Killowen, Coleraine

Macosquin, Coleraine

Portstewart

Gorran, Aghadowey

Culcrow, Aghadowey

Cullycapple, Aghadowey

Maintained post-primary

St. Patrick's High School, Dungiven

In examining all proposals for new school buildings it will be important that in a situation of falling pupil numbers that schools are assessed as being viable in the longer term before funding approval is given.

Olympic Games

Andrew Rosindell: To ask the Secretary of State for Northern Ireland what steps he is taking to help Northern Irish athletes prepare for the 2012 Olympic games. [43719]

Mr. Hanson: The Department of Culture, Arts and Leisure is working closely with the Department of Culture Media and Sport and London Organising Committee of the Olympic games to ensure maximum benefit for Northern Ireland, from London hosting the Olympic and Paralympic games in 2012. A Northern Ireland Olympic task force is also in place to develop and implement an Olympic strategy for Northern Ireland, and a principal element of this strategy will address the preparation of Northern Irish athletes for the games.

Partially Sighted People

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps he is taking to assist people in Northern Ireland who are partially sighted *(a)* to overcome barriers to employment and *(b)* into work. [44912]

Angela E. Smith: The Department for Employment and Learning, through the Disablement Advisory Service, provides advice, guidance, training and a placement service for people with disabilities. This service is delivered by specialist Disablement Employment Advisers based in Jobs and Benefits Offices/Jobcentres across Northern Ireland. The Department's advisers have available a range of programmes to assist disabled people overcome barriers to employment and to help them advance in the workplace, all of which can provide assistance for partially sighted people. These programmes, include: the Job Introduction Scheme; Access to Work; Employment Support; and New Deal for Disabled People. Further, the Department has a contract with RNIB to provide assessment services to assist the advisers meet the needs of partially sighted clients.

Pensioners (Telephones)

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many and what percentage of pensioners in each region do not have a telephone, ranked in descending order. [21184]

Angela E. Smith: For the financial year 2004–05 the proportion of pensioners in each region who do not have a telephone is as follows.

	Percentage
East of NI	3
North of NI	3
West and South of NI	2
Outer Belfast	1
Belfast	1

It is not possible to provide the number of pensioners in each region who do not have a telephone. The estimates are based on a sample survey.

Predictive Diallers

John Hemming: To ask the Secretary of State for Northern Ireland how many calls were made from call centres in his Department in 2004–05 using predictive diallers; how many such calls resulted in contact being made with the recipient without a Government agent available to talk to them; and what assessment he has made of the likely impact of Ofcom's policy on silent calls on the use of predictive diallers in departmental call centres. [28174]

Mr. Hanson: No call centres were run by the Northern Ireland Office.

Primary Schools (Computer Adaptive Testing)

Sammy Wilson: To ask the Secretary of State for Northern Ireland whether computer adaptive testing will form part of the proposed pupil profile for primary school children in Northern Ireland. [44297]

Angela E. Smith: The Northern Ireland Council for the Curriculum, Examinations and Assessment is developing and testing the pupil profile, and is examining the use of computer adaptive tests as part of the portfolio of assessment tools which teachers could draw upon to inform and support their professional judgment when completing the pupil profile. The council will provide me with advice in due course.

Prostitution

Lady Hermon: To ask the Secretary of State for Northern Ireland what discussions he has had with his ministerial colleagues in relation to the prostitution strategy for England and Wales; and what plans he has to introduce similar reforms in Northern Ireland. [44584]

Mr. Hanson: The Home Office document presents a coordinated strategy for dealing with a range of issues related to prostitution in England and Wales, where it is estimated that 80,000 people may be directly involved in selling sex. The strategy follows a review of prostitution instigated in 2004 by the Home Secretary.

We will be looking at what needs to be done in Northern Ireland to tackle problems related to prostitution here. We will initially be liaising with the police to ensure they have the necessary powers under the criminal law to deal with problems posed by kerb crawlers. We will look at the possibility of including proposals to reform the law in a wider review of sex offences due for consultation this year.

Public Appointments

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland when he expects to announce further nominations to the Equality Commission in Northern Ireland. [43622]

Mr. Hanson: The Northern Ireland Act 1998 requires that the Equality Commission shall consist of not less than 14 nor more than 20 Commissioners. There are currently 18 Commissioners, including the Chief Commissioner and Deputy Chief Commissioner. The Government believes that the current Commission has the right balance of skills and experience and that therefore there is no need to appoint additional Commissioners at this time.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland whether he plans to announce the creation of Deputy Chief Commissioner posts for the Equality and Human Rights Commissions in Northern Ireland within the next three months. [43623]

Mr. Hanson: The Equality Commission for Northern Ireland currently has a Deputy Chief Commissioner.

In its consultation paper on the powers of the Northern Ireland Human Rights Commission, the Government discussed the possibility of creating a position of Deputy Chief Commissioner.

Following the end of the consultation period on 9 February 2006, the Government will consider all responses from consultees on this and other issues. We will consider our proposals in the light of those responses.

Rates Revaluation

Mrs. Spelman: To ask the Secretary of State for Northern Ireland whether *(a)* aerial and *(b)* satellite photography (i) being and (ii) will be used by the Valuation and Lands Agency as part of the rates revaluation in Northern Ireland. [42912]

Angela E. Smith: The Valuation and Lands Agency is not and will not be using aerial or satellite photography as part of the revaluation of domestic properties in Northern Ireland.

Re-offending

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland who have served a prison sentence have been convicted of a further subsequent offence and re-imprisoned in each of the last five years. [44887]

Mr. Hanson: The table shows the number of offenders who have been discharged from prison and reconvicted with a subsequent custodial sentence. A two year reconviction period is the standard adopted in reconviction studies. Thus, those offenders discharged from prison during 2001 are followed up for a two year period to determine if a valid reconviction has occurred. Data for 2002 (i.e. reconvictions to 31 December 2004) are currently being validated.

Offenders discharged from prison and reconvicted within two years—2001

	Number	*Percentage*
Total prison discharges	703	—
Reconvicted within two years (any disposal, including prison)	317	45.1
Reconvicted within two years (subsequent prison sentence)	133	14.7

Road Safety

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will bring all road safety measures under one Government Department; and if he will make a statement. [42401]

Angela E. Smith: I refer the hon. Gentleman to the answer I gave on 12 January 2006, *Official Report*, column 793W.

Schools

Andrew Rosindell: To ask the Secretary of State for Northern Ireland if he will make a statement on the use of selection based on academic ability in admissions to schools in Northern Ireland. [43720]

Angela E. Smith: The Government are committed to ending academic selection in Northern Ireland, and the last transfer tests will be held in November 2008. Future transfer from primary to post-primary school will be on the basis of informed parental choice. A proposal for a draft education order which will give effect to the new arrangements and prohibit schools from using any form of academic selection to admit pupils is currently the subject of public consultation. The closing date for comments is 7 March and the draft order will be laid before Parliament by summer 2006.

Mr. Lidington: To ask the Secretary of State for Northern Ireland what guidance the Department for Education, issues to schools about the employment of ex-offenders. [43554]

Angela E. Smith: In 1999 the Department of Education issued the document "Pastoral Care in Schools: Child Protection" but has not issued any specific guidance to schools on the employment of ex-offenders. I have asked that this is done as a matter of urgency working with the Children's Commissioner and NSPCC. Currently employers can and do take advice from the police, social services, the Probation Service, the ELBs' Child Protection officers and the Department if they are in any doubt about how to proceed in any given case.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what steps are being taken to ensure safer journeys for children going to, and coming from schools where a decision has been taken during 2005 to remove the school crossing patrol. [43624]

Angela E. Smith: The education and library boards use guidelines, based on those produced by the Local Authorities Road Safety Officers' Association (LARSOA), to identify traffic hazards and provide school crossing patrols in situations where they consider there to be unacceptable risks. Boards have advised me that they only consider removing crossing patrols where a review of the location against these guidelines indicates that the hazard or level of risk has reduced or been removed.

Boards continue to work closely with their counterparts in a range of Government Departments to identify other means of ensuring that the journey children make to school is safe. These include engineering solutions such as traffic calming measures and pelican crossings as well as education in the area of road safety.

Special Educational Needs

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many children were statemented during 2005 in each of the education and library board areas in Northern Ireland. [44060]

Angela E. Smith: The number of children who were statemented during 2005 in each of the education and library board areas in Northern Ireland is:

	Number
BELB	272
NEELB	370
SEELB	410
SELB	368
WELB	307

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps the Department of Education and South-Eastern Education and Library Board are taking to ensure that statemented and special needs children are not disadvantaged as a result of the deficit in the board's budget. [42260]

Angela E. Smith: In recent years, the Department of Education has made available to all education and library boards, including the South Eastern Education and Library Board (SEELB), additional resources totalling £37.5 million over the 2005–06 to 2007–08 period for support to children with special educational needs. This has been further enhanced by the allocation of £5 million in 2006–07 and £15 million in 2007–08 in the recent Northern Ireland Budget and Priorities 2006–08.

Other earmarked allocations are also being made available to address specific areas of Special Educational Need. £2.9 million has been allocated in 2005–06 to help address need in the largest areas of growth—Autism, Emotional and Behavioural Difficulties, Dyslexia, as well as the increase in children identified with SEN in mainstream settings. Similar allocations will be made in 2006–07 and 2007–08.

SEELB is fully aware of its statutory responsibility to identify and assess special educational needs, and in particular those children on whom it maintains a Statement of Special Educational Need.

In order to meet those needs, SEELB has endeavoured to put in place adequate provision. To this end it has provided additional specialist support at Belvoir and Cumran primary schools, Ballynahinch high school and Killard and Tor Bank special schools.

Teachers Superannuation Scheme

Mr. Lidington: To ask the Secretary of State for Northern Ireland whether he plans to alter the employer's contribution to the Northern Ireland Teachers' Superannuation Scheme following the recent Government Actuary's report. [42567]

Angela E. Smith: Following the publication of the Government Actuary's report on 19 December 2005, the employers' contribution rate to the Northern Ireland Teachers' Superannuation Scheme will increase from 14 per cent. to 14.15 per cent., with effect from 1 April 2006.

Tourism

Andrew Rosindell: To ask the Secretary of State for Northern Ireland what steps his Department is taking to encourage tourism in Northern Ireland. [43716]

Angela E. Smith: Responsibility for promoting tourism in Northern Ireland is shared between the Northern Ireland Tourist Board (NITB), which provides strategic direction, and Tourism Ireland Ltd. (TIL) which markets Northern Ireland as part of the island of Ireland in key overseas markets.

NITB's Strategic Framework for Action 2004–2007 provides the basis for its activities. These include the development of five Signature Projects which will provide anchor tourist attractions across Northern Ireland. In addition, NITB is developing a series of "Winning Themes" which include the promotion of business, activity and cultural tourism. These initiatives will be marketed aggressively by NITB within the island of Ireland and by TIL overseas.

Wind Farm Proposals (Tunes Plateau)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the status is of the offshore wind farm proposals for the Tunes Plateau near Portstewart, Northern Ireland. [44062]

Angela E. Smith: The development consortium has not yet made any application for the establishment of the proposed wind farm at Tunes Plateau.

Visitors from Great Britain

Andrew Rosindell: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of people from Great Britain that have visited Northern Ireland in each of the last five years. [43713]

Angela E. Smith: Figures relating to the number of Great Britain visitors to Northern Ireland over the last five years (2000–04) and the forecast number of Great Britain visitors to Northern Ireland in 2005 are presented in the following table:

GB visitors to Northern Ireland—2000–05

	Trips (000)
2000	950
2001	1,053
2002	1,160
2003[1]	1,379
2004	1,408
2005[2]	1,339

[1] 2003 figures have been revised to reflect comparable changes to the Northern Ireland Tourist Board (NITB) and Failte Ireland surveys. Due to changes in methodologies 2003 and 2004 data are not directly comparable with data pre-2003.
[2] Forecast.

Websites

Sarah Teather: To ask the Secretary of State for Northern Ireland (1) if he will list the websites that come under his Department's responsibility; what the cost was of each in the last year for which figures are available; and how many visitors there were to each site in that year; [15900]

(2) when he will reply to question 15900, tabled by the hon. Member for Brent, East on 21 July. [40748]

Mr. Hain: I apologise to the hon. Member for the delay in providing this response. This was due to an administrative error.

The Northern Ireland Office (NIO) is responsible for three websites, the NIO website, Organised Crime Task Force (OCTF) website, and the Criminal Justice Services Northern Ireland (CJSNI) website. Associated costs for each website and number of visitors for the period January 2005 to December 2005 are as follows:

Website	*Design costs (£)*	*Yearly maintenance costs (£)*	*Number of unique visitors (January to December 2005)*
Northern Ireland Office	0	7,200	156,457
Organised Crime Task Force	11,406.90	400	21,811
Criminal Justice Services Northern Ireland	3,507.51	3,305	7,374

EDUCATION AND SKILLS

Audible Fire Alarms

Bob Spink: To ask the Secretary of State for Education and Skills what proportion of the premises occupied by her Department is fitted with audible fire alarms. [42882]

Maria Eagle: All premises occupied by the Department have audible fire alarms or sounders, i.e. fire bells.

Academies

Mr. Meacher: To ask the Secretary of State for Education and Skills if she will list the civil servants in her Department's new projects remit who are responsible for action in respect of academies; what the *(a)* grade and *(b)* role in the Department is of each; and if she will list the actions they undertake in respect of academies. [44549]

Jacqui Smith: The disclosure of the names of civil servants in the Academies Group's New Projects Unit is not compatible with the principles of the Data Protection Act. I have therefore given the grades and responsibilities of those staff in the following table:

Title	*Grade*	*Role/actions*
Head of New Projects	Grade 5	Head of Unit; Oversight of sponsor brokering; allocates academy projects to Project Leads; reports to Ministers on progress towards 2010 target.
Project Lead (x2)	Grade 7	Lead official on early academy project negotiations; supporting development of formal expression of interest progressing to submission for ministerial approval.
Team Leader—Internal Relations	Grade 7	Management of New Projects Office; correspondence and briefing; NPU contact for internal Dept policy meetings.
Team Leader—External Relations	Grade 7	Management of sponsor relations; lead official on due diligence policy; liaison with Specialist Schools and Academies Trust.
Assistant Project Lead (× 2)	Higher Executive Officer	Support to Project lead.
Internal Relations/Sponsor Support	Higher Executive Officer	Support to Heads of Internal and External Relations.
Ministerial Priorities	Fast Streamer	Direct support to Minister, Director of Academies and Head of NPU briefing on potential academy projects and leading on early academy project negotiations.

Aylesbury Vale

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the policy implications for her Department of the growth in population in Aylesbury Vale. [39673]

Jacqui Smith: Population projections and demographic data are used to ensure our capital programmes support local responsiveness that can meet the demands and needs of forecast population changes. Additional pupils from a growing population will therefore generate extra funding for the local authority.

Child Care

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many *(a)* full-time and *(b)* part-time child care places have been available in each year since 1997, broken down by area. [43797]

Beverley Hughes: The Department is unable to provide details of part-time child care places available as such data have not been collected.

A list of child care places available broken down by local authority since 2003 is as follows.

Child care places

Local authority	*2003*	*March 2004*	*2005*

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what target for free early education and child care for *(a)* three and *(b)* four-year-olds has been set for (i) 2007 and (ii) 2010. [43799]

Beverley Hughes: With effect from April 2006, the minimum free entitlement for three and four-year-olds of 12.5 hours a week will increase from 33 to 38 weeks. By 2010, in line with the commitments set out in the 10-Year Childcare Strategy, the free entitlement will be further extended to 15 hours per week for all three and four-year-olds and parents who wish to do so will be able to take up the entitlement more flexibly across a minimum of three days per week. No targets have been set for 2007, although the Government is considering options for a phased roll out of the extended, more flexible entitlement. Our overall target remains to secure access to a free place for every three and four-year-old whose parents want one. Take up is already high with 96 per cent. of three-year-olds and virtually all four-year-olds benefiting from some free provision.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what targets she has for expanding the number of child care places *(a)* in total, *(b)* for children with disabilities, *(c)* for children with special educational needs and *(d)* for minority ethnic children; and what progress has been made towards meeting each target. [43802]

Beverley Hughes: The Department's public service agreement (PSA) target 2*(a)*, owned jointly with DWP, is to increase the stock of Ofsted registered child care places by 10 per cent. by 2008. I am pleased to announce that this target has already been met. The stock of child care places rose from 1,102 million in March 2004 to 1,220 million in September 2005, an increase of 10.7 per cent.

The Department has no specific targets for children with disabilities, special education needs or minority ethnic children. However, our PSA target 2*(b)* is to increase the take by 50 per cent. of formal child care by lower income working families, and we know that families from these groups are disproportionately represented among lower income groups. Additionally, the Childcare Bill, currently before Parliament, requires local authorities to secure, so far as is practicable, sufficient child care places to meet the needs of parents. The Bill specifically requires local authorities to have regard for the needs of parents for child care which is suitable for disabled children, including children with special educational needs.

Child care for black and minority ethnic children will be met in the wider duty within the Bill to secure sufficient child care that meets the needs of all parents. The major barriers that black and minority ethnic families face in accessing child care relate to cost and information. Both of these issues are being addressed in the Bill by the focus on the needs of lower income families and the information duty respectively. Additionally, the Race Relations (Amendment) Act 2000 requires all listed public authorities to promote equality of opportunity and ensure they take account of race equality in their service delivery, which includes child care.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what targets she has in relation to the qualifications of people working in child care; and if she will make a statement. [43805]

Beverley Hughes: Our 10-year strategy for child care, published in December 2004, sets out the Government's vision of child care services in this country becoming among the best in the world. We aim to have a better qualified workforce, with more workers trained to professional level. In our Children's Workforce Strategy, published in April 2005, we propose to have an early years' professional in every children's centre by 2010 and in every full day care setting by 2015. In the workforce strategy, we also propose to have a greater proportion of the early years and child care workforce qualified to at least level 2, we aim to increase the number of childminders qualified to level 3 and we aim to work towards our long term vision of graduate managers in all full day care settings.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many people worked as home child carers in each year since the home child carers scheme was established. [43942]

Beverley Hughes: Between April 2004 and April 2005 the total number of carers approved under the Home Childcarer Scheme was 300 and, since it was replaced in April 2005 by the Childcare Approval Scheme, a further 1,339 carers have been approved. We do not have records of how many people have worked as home child carers because, under both the Home Childcarer and Childcare Approval Schemes, it is the individual that is approved and details of employment are not required.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what responses she has received to the consultation on expanding the home child carers scheme. [43944]

Beverley Hughes: The consultation "Childcare: extending protection and broadening support" closed on 16 August 2004 with 149 responses having been received. Overall the majority of respondents agreed with the proposals. Details of the responses can be found on the DfES consultation website at: http://www.dfes.gov.uk/consultations/conResults.cfm?consultationId=1247

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills if she will list the members of the Advisory Group of Key Stakeholders on Childcare. [43945]

Beverley Hughes: There is no such specific group. However, the Government are always interested in hearing the views of key stakeholders and take every opportunity to do so. We consulted widely on proposals contained in the 10-year strategy for child care and on the contents of the Childcare Bill, currently before Parliament.

In addition, the Children, Young People and Families Board of Stakeholders, which includes Ministers and senior representatives from a wide range of organisations, discusses child care from time to time.

Class Sizes

Mr. Iain Wright: To ask the Secretary of State for Education and Skills what the average class size was in primary schools in *(a)* England and *(b)* the Hartlepool local education authority area in each year since 1997. [43761]

Jacqui Smith: The information requested is shown in the table.

Maintained primary schools[1]: average class size taught by one teacher[2]—England and Hartlepool local authority

Position as at January each year	*Average class size*	
	England	*Hartlepool*
1997	27.5	28.0
1998	27.7	28.0
1999	27.5	27.1
2000	27.1	26.8
2001	26.7	26.3
2002	26.3	25.8
2003	26.3	26.2
2004	26.2	25.4
2005	26.2	25.3

[1] Includes middle schools as deemed.

[2] Classes as taught during a single selected period in each school on the day of the census in January.

Source:

Annual Schools' Census.

Mr. Laws: To ask the Secretary of State for Education and Skills what the average class size is in primary schools in *(a)* affluent and *(b)* deprived areas; and if she will make a statement. [41298]

Jacqui Smith: Information provided in the table shows class size data for primary schools in relation to the proportion of school population known to be eligible for free school meals (FSM). This indicates that the average class size is smaller in schools with the highest proportions of disadvantaged pupils (as assessed by FSM eligibility) than in those schools with the lowest proportions.

In addition, the rate of decrease in the average class size between 1997 and 2005 is greater in schools with the highest proportions of disadvantaged pupils than in those schools with the lowest proportions.

Maintained primary schools[1]: average class size by free school meal eligibility[2]: position in January each year 1997 and 2005

[5] Key stage 1 classes of 31 or more may contain pupils who have been admitted as exceptions.
Note:
Numbers have been rounded to the nearest 10.
Source:
Annual Schools Census

Mr. Laws: To ask the Secretary of State for Education and Skills how many pupils were in primary school classes of 25 or more pupils in each year since 1990–91; what percentage of the relevant age cohort this represents in each case; and if she will make a statement. [41457]

Jacqui Smith: The information requested is shown in the following table. There have been infant class-size limits since 1998, but these do not apply to other primary school year groups.

However, the knock-on effect of infant class-size legislation has been to contribute to an overall reduction in the size of primary classes.

Maintained primary schools[1]: number of pupils in classes of 25 and over[2] 1991–2005, England

	Size of class					
	25 to 30		31 and over		Total 25 and over

[1] School based expenditure includes only expenditure incurred directly by the schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure.

[2] 1999–2000 saw a change in data source when the data collection moved from the RO1 form collected by the 0DPM to the Section 52 form from the DfES. 2002–03 saw a further break in the time series following the introduction of Consistent Financial Reporting (CFR) and the associated restructuring of the outturn tables. The change in sources is shown by an asterisk. In 2002–03 school based expenditure is taken from Section 52 Outturn Table A line 51 net current expenditure (NCE). For 2001–02 and earlier years the expenditure is calculated as lines one to 12 less lines 29, 30, 35 and 37. This differs from the old Net Institutional Expenditure (NIE) calculation only in the treatment of meals and milk which is no longer excluded and no adjustments for balances are now made. This is taken from Section 52 0utturn Table 3 for 1999–2000 to 2001–02 and from the RO1 form previously.

[3] The calculation for 2002–03 onwards is broadly similar to the calculation in previous years. However, 2001–02 and earlier years includes all premature retirement compensation (PRC) and Crombie payments, mandatory PRC payments and other indirect employee expenses. In 2001–02 this accounted for approximately £70 per pupil. From 2002–03 onwards only the schools element of these categories is included and this accounted for approximately £50 per pupil of the 2002–03 total. Also, for some LAs, expenditure that had previously been attributed to the school sectors was reported within the LA part of the form from 2002–03, though this is not quantifiable from existing sources.

[4] Pupil numbers include only those pupils attending maintained establishments within each sector and are drawn from the DfES Annual Schools Census adjusted to be on a financial year basis.

[5] Local government reorganisation (LGR) took place during the mid to late 1990s and those LAs that did not exist either pre or post LGR are represented by '—' for those years.

[6] Spending in 1997–98 reflects the transfer of monies from local government to central Government for the nursery vouchers scheme. These were returned to local government from 1998–99.

[7] The 1999–2000 figures reflect the return of GM schools to local authority maintenance. Consequently LAs where there entire pupil provision were educated in GM schools will show a unit cost of zero prior to 1999–2000.

[8] Expenditure was not distinguished between the pre-primary and primary sectors until the inception of Section 52 for financial year 1999–2000.

Note:

Figures are as reported by the LEA in cash terms and rounded to the nearest 10.

Greg Mulholland: To ask the Secretary of State for Education and Skills what the average class size was in primary schools in each local education authority in each year since 1997. [44332]

Jacqui Smith *[holding answer 20 January 2006]:* The information requested has been placed in the House Library.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Education and Skills when she will reply to the letter dated 30 November 2005 from the right hon. Member for Manchester, Gorton, with regard to Mr. A. Diamond. [41837]

Jacqui Smith: I replied to the right hon. Member's letter on 9 January.

Dedicated Schools Grant

Mr. Laws: To ask the Secretary of State for Education and Skills what the purpose is of the Dedicated Schools Grant; how much will be spent on this in each of the next three years; how much will be received by each local authority; and if she will make a statement. [41297]

Jacqui Smith: The data I placed in the Library to accompany my written statement of 7 December 2005 on the School Funding Settlement for 2006–07 and 2007–08, set out how much Dedicated Schools Grant each authority will receive for those years. Allocations of DSG for 2008–09 will be announced after the comprehensive spending review has been completed, expected to be in summer 2007.

Daniel Kawczynski: To ask the Secretary of State for Education and Skills what plans she has to improve the consistency of the allocation of the Dedicated Schools Grant across all local education authorities. [43022]

Jacqui Smith: My statement to the House on 7 December said that Dedicated Schools Grant for 2006–07 and 2007–08 would be distributed according to the modified method, in which each authority receives a guaranteed increase in funding per pupil of 5 per cent. with further funding to reflect Government priorities on top of that. The decision to use the modified method was taken after a consultation over the summer, and will provide stability of funding for the next two years, as the new school funding arrangements are introduced. This method of distribution for DSG will also provide substantial real terms increases for all authorities for 2006–07 and 2007–08. We also propose to review the operation of the methodology for allocating DSG for 2006–07 and 2007–08, consider what lessons can be learnt and work up proposals for the distribution of the DSG in the longer term, in time for the announcement of the first three year allocations of DSG in late 2007 following the Comprehensive Spending Review.

Daniel Kawczynski: To ask the Secretary of State for Education and Skills what the direct schools grant per pupil is in *(a)* Shropshire and *(b)* England; and what assessment she has made of the adequacy of Shropshire local education authority's direct schools grant. [43023]

Jacqui Smith: The following table sets out the guaranteed level of Dedicated Schools Grant (DSG) per pupil for Shropshire and England for 2006–07 and 2007–08.

Dedicated Schools Grant per pupil

£

	2006–07	2007–08
Shropshire	3,338.62	3,550.86
England	3,642.98	3,888.20

The levels in the table represent increases of 6.6 per cent. and 6.4 per cent. per pupil for 2006–07 and 2007–08 respectively. Those increases will allow Shropshire authority to meet the minimum funding guarantee for all its schools, while also allowing it to put substantial resources into the Government priorities of greater personalisation of learning at Key Stage 2 and 3, more practical learning options for 14 to 16-year-old pupils, work force reform in the primary sector and the increased entitlement to early years provision from 33 to 38 weeks. The increases will also provide the authority with headroom to target on local priorities, and will ensure that it has scope to begin to respond to the conclusions of the review of deprivation funding, ensuring that schools in our most deprived communities and areas benefit from sufficient resource to meet the pressures and challenges they face.

Departmental Forms

Mr. Wills: To ask the Secretary of State for Education and Skills (1) what estimate she has made of the change in the number of forms issued by her Department to teachers since 2002; [41929]

(2) what assessment she has made of the changes in the attitude of the teaching profession to the amount of forms issued to teachers since 2002. [41931]

Jacqui Smith: Reducing bureaucracy is a key element of the New Relationship with Schools which aims to streamline planning and accountability requirements and rationalise communications with schools. The Department does not separately track the number of forms which are sent to schools, but we do monitor the number of paper-based documents sent directly to schools. The figures are set out in the following table.

	Primary schools	Secondary schools
2002–03	43	47
2003–04	31	38
2004–05	0	0

This year no paper-based documents have been sent to schools due to the national roll-out of the Department's online ordering system, and fortnightly email service which draws head teachers attention to key publications. These developments make it easier for schools to access the documents they need at a time and in a format which is right for them.

The Department's Stakeholder Tracking Study which took place from 2002–04 includes an assessment of attitudes of the teaching profession to levels of bureaucracy. This shows that our approach is beginning to pay dividends. In November 2004 10 per cent. of teachers thought that bureaucracy had reduced, compared to just 4 per cent. in November 2002. The percentage who thought bureaucracy had increased dropped from 71 per cent. to 56 per cent. over the same time period. The study has been published on the Departments website and is available at: http://www.dfes.gov.uk/research/programmeofresearch/index.cfm?type=5&x=47&y=14

Drinking Water

Mr. Burstow: To ask the Secretary of State for Education and Skills pursuant to the answer of 14 December 2005, *Official Report*, column 2074W, on drinking water, whether she plans to issue guidance to schools on drinking water provision in relation to the aims of her healthy schools policy. [43896]

Jacqui Smith: In order to keep properly hydrated throughout the day, children need access to water at school. The promotion of good hydration is included within the Government's Food in Schools programme (www.dh.gov.uk/PolicyAndGuidance/HealthAndSocialCareTopics/FoodInSchools), which supports the National Healthy Schools Standard (www.wiredforhealth.gov.uk). It advises that good quality drinking water should be available to pupils throughout the day and not from taps or drinking fountains located in toilet areas (http://foodinschools.datacenta.uk.net).

Drop-out Rates

Mr. Hayes: To ask the Secretary of State for Education and Skills which 10 *(a)* further and *(b)* higher education institutions had the (i) highest and (ii) lowest drop-out rate in the last period for which figures are available. [39920]

Bill Rammell: For higher education institutions, the latest available information on projected non-completion rates for students starting full-time first degree courses in 2002/03 is shown in the following table. The overall non-completion rate for all English HE institutions was 13.9 per cent., compared to 15.7 per cent. in 1996/97.

Percentage of UK domiciled full-time first degree students expected neither to obtain an award nor transfer 2002/03

	Percentage
Highest non-completion rates:	
Bolton Institute of Higher Education	31.9
The University of Derby	27.0
The University of Sunderland	26.8
The University of East London	26.0
London South Bank University	25.6
Middlesex University	25.1
Thames Valley University	25.0
The University of Greenwich	25.0
London Metropolitan University	24.7
Liverpool Hope University College	23.6
Lowest non-completion rates:	
Birmingham College of Food, Tourism and Creative Studies	0.0
University of London (institutes and activities)	0.0
The Royal Veterinary College	0.0
The University of Cambridge	1.0
Courtauld Institute of Art	1.3
The University of Oxford	2.3
Royal College of Music	2.7
University of Durham	3.7
Imperial College of Science, Technology and Medicine	3.7
The University of Bath	3.9

Source:
"Performance Indicators in Higher Education", published by the Higher Education Statistics Agency (HESA). For 2002/03, the projected outcomes summarise the pattern of movements of students at institutions between 2002/03 and 2003/04 and give the outcomes that would have been expected from starters in 2002/03 if progression patterns for the years after 2003/04 were to remain unchanged. The published HESA data show the proportion of entrants who are projected to: obtain a qualification (either a first degree or another undergraduate award); transfer to another HEI; neither obtain a qualification nor transfer (i.e. fail to complete the course).

The Learning and Skills Council does not collect data on drop out rates from FE colleges. Instead they collect data on learner retention rates. The learner retention rate is the proportion of qualification aims for which all learning activities were completed. Retention rates for individual colleges can be downloaded from the LSC website (http://benchmarkingdata.lsc.gov.uk/year8/index.cfm)

The overall learner retention rate for all FE colleges combined was 85 per cent. in 20003/04, the latest year for which final data are available. For the middle 80 per cent. of colleges the retention rate lay in the range 78 per cent. to 91 per cent.

The 10 colleges with the highest retention rates were:

	Percentage
Northern College for Residential Adult Education	99
Plater College	97
Fircroft College of Adult Education	97
Ruskin College	97
King Edward VI College, Stourbridge	96
Hills Road Sixth Form College	96
Wyggeston and Queen Elizabeth I College	96
St Dominic's Sixth Form College	96
The Sixth Form College, Farnborough	95
Pershore Group of Colleges	95

The 10 colleges with the lowest retention rates were:

	Percentage
Salisbury College	61
Otley College of Agriculture and Horticulture	62
North East Surrey College of Technology	67
Widnes and Runcorn Sixth Form College	69
Newark and Sherwood College	70
Milton Keynes College	72
Leeds College of Music	72
Isle College FE Corporation	72
Thames Valley University	72
Joseph Priestley College	73

Retention rates are highly dependent on the mix of qualifications done at a college. A college that does few short courses and many full courses is likely to get a relatively low retention rate, simply because the national retention rate for short courses is relatively high and the national retention rate for full courses is relatively low.

FE College retention rates and HE institution non-completion rates are collected in different ways and are not comparable.

Dyslexia

Bob Spink: To ask the Secretary of State for Education and Skills at what age children can be tested for dyslexia; and what types of test are available. [43917]

Maria Eagle: There is no set age at which children can or should be tested for dyslexia. Being a spectrum disorder, dyslexia can present a range of characteristics that can vary considerably from person to person. It is therefore uncertain that universal screening to test for dyslexia, particularly in the early years, would prove sufficiently discriminating to pick out those children most at risk of persisting difficulties.

Schools and local authorities must have regard to the SEN code of practice, which gives practical advice on carrying out statutory duties to identify, assess and make suitable provision for children with SEN, including with dyslexia. The precise arrangements for any screening or assessment are, however, for local determination.

Through our primary national strategy, we have issued guidance for teachers, which has a specific focus on dyslexia. Professional development materials, "Learning and teaching for children with dyslexia", include a checklist of early indicators for potential dyslexia. "Playing with sounds", deals with the early teaching of phonics and includes guidance on early identification and support for children who demonstrate the phonological difficulties often associated with dyslexia.

Bob Spink: To ask the Secretary of State for Education and Skills how many children who were removed or excluded from their school because of behavioural problems were *(a)* dyslexic and *(b)* subsequently diagnosed as dyslexic in the last 12 months for which figures are available; and if she will make a statement. [43918]

Jacqui Smith: The requested information is not collected centrally. However the number of pupils permanently excluded with all types of special educational needs is shown in the table.

Maintained primary, secondary and all special schools [1,2]—number of permanent exclusions by special educational needs (SEN)—England, 2003/04 (Estimates) [3]

	Permanent exclusions			*Fixed period exclusions*		
	Number of exclusions	*Percentage of exclusions[4]*	*Percentage of school population[5]*	*Number of exclusions*	*Percentage of exclusions[4]*	*Percentage of school population[5]*
Pupils with statements of SEN	1,040	11	0.44	39,790	12	17.1
Pupils with SEN without statements	5,240	53	0.46	133,290	39	11.7
Pupils with no SEN	3,600	36	0.06	171,420	50	2.7
All pupils [6]	9,880	100	0.13	344,510	100	4.5

[1] Includes middle schools as deemed.
[2] For permanent exclusions includes both maintained and non-maintained special schools. For fixed period exclusions excludes non-maintained special schools.
[3] Figures relating to permanent exclusions are estimates based on incomplete pupil level data.

[4] The number of exclusions expressed as a percentage of the total number of exclusions.
[5] The number of exclusions by stage of SEN expressed as a percentage of the total number of pupils with same stage of SEN. Excludes dually registered pupils.
[6] There was one permanent exclusion and 12 fixed period exclusions for which stage of SEN was not known—these were included in total for 'all pupils' only.

Annual Schools Census and Termly Exclusions Survey

Education Expenditure

Mr. Laws: To ask the Secretary of State for Education and Skills what her latest estimate is of the average total cost of Government education spending between the ages of 0 and 21 for a child from *(a)* the highest and *(b)* the lowest (i) income decile and (ii) socio-economic class; and if she will make a statement. [41446]

Jacqui Smith: Estimates are not available on the average total cost of Government education spending between the ages of 0 and 21 by each parental income decile and each socio-economic class.

Mr. Laws: To ask the Secretary of State for Education and Skills what her latest estimate is of the distribution of total education spending between pupils from *(a)* each income decile of parents, *(b)* each income quintile of parents and *(c)* each socio-economic group of parents; and if she will make a statement. [41447]

Jacqui Smith: Estimates of the distribution of total education spending on pupils by parental income decile, income quintile and socio-economic group are not available. Public education spending is not collated by parental background. Figures on private spending on education are not collated by the Department.

There are likely to be some differences in both public and private spending on education for pupils from different family backgrounds. Such differences will be influenced by, for example, Government education policies targeted at those from poorer backgrounds (such as the education maintenance allowance and targeted student support for higher education), how parental income affects private spending; and differences in post-16 education choices.

Mr. Laws: To ask the Secretary of State for Education and Skills what her latest estimate is of per capita public spending on education for each age cohort in England from age three to age 21 years; and if she will make a statement. [41456]

Jacqui Smith: Data on education spending are not collated by age or cohort. The latest and nearest available estimates relate to annual unit funding in each education sector—schools, FE and HE—published in the DfES' Departmental Report for 2005 (Cm 6522). The following table provides estimates of planned unit funding in 2005–06 per school pupil and full-time equivalent (FTE) students in further and higher education: figures in cash terms rounded to nearest £10.

Planned funding per school pupil and FTE student in FE and HE, 2005–06

	£ 2005–06
Funding per school pupil (ages three to 19)	4,250[1]
Assumed[2] funding per FTE student in FE for participation (excluding capital costs)	4,840[3]
Funding per planned FTE student in HE	4,610[4]

[1] Figure does not include capital and PFI funding. Estimate consistent with Education Standard Spending/Education Funding Formula Spending plus all schools-related revenue grants. Pension transfers are included. Based on FTEs aged three to 19 in maintained schools in England, including three-year-olds funded through state support in maintained and other educational establishments.
[2] This is an assumed estimate as it is based on assumptions about how much of the total amount of money going to the Learning and Skills Council is spent on further education.
[3] Figure relates to all FE spending, including for adult participants. Full-time equivalent (FTE) students funded by the Learning and Skills Council (LSC) in either further education sector colleges or in external institutions, specialist designated institutions, dance and drama institutions and higher education institutions.
[4] Funding relates to all DfES revenue grants to support HE in HE institutions and FE colleges in England and excludes expenditure on tuition fees and student maintenance costs. Figure based on planned.

Education Funding (Shropshire)

Daniel Kawczynski: To ask the Secretary of State for Education and Skills what assessment she has made of the effect of the level of direct support grant allocated to Shropshire's schools on their ability to remain within their budget for 2004–05. [44177]

Jacqui Smith: The new Dedicated Schools Grant will not be introduced until April 2006 but under the current revenue funding system for schools, Shropshire received £3,780 per pupil in 2004–05. This figure includes funding via Education Formula Spending Share and revenue grants allocated at an LEA level.

At the end of the financial year 2004–05, the data indicate that the deficit balances held by maintained schools in Shropshire amounted in total to approximately £677,675 and that total surplus balances totalled approximately £5,554,614; these figures are derived from the outturn statements prepared by local education authorities under section 52 of the School Standards and Framework Act 1998.

Education White Paper

Mr. Paul Murphy: To ask the Secretary of State for Education and Skills how many representations her Department has received *(a)* in favour of and *(b)* opposed to the proposals in the recent White Paper on Schools. [44483]

Jacqui Smith: The Department has received at least 211 representations from a wide range of organisations, Members of Parliament and members of the public which directly refer to the White Paper. These representations contain a variety of opinions both supporting certain proposals within the context of the White Paper and opposing elements of it.

Enterprise and Entrepreneurism Training

Mr. Iain Wright: To ask the Secretary of State for Education and Skills what steps she is taking to expand the teaching of enterprise and entrepreneurism in schools in Hartlepool; and if she will make a statement. [42983]

Jacqui Smith: The Department has allocated £60 million a year for the three academic years from September 2005 to support a new focus on enterprise education in all secondary schools in England. St. Hild's Church of England School in Hartlepool was among the 700 schools which participated in our Enterprise Education Pathfinder programme that looked at various ways of delivering enterprise education and helped to produce our national guidance on enterprise education. The Guidance is available at www.teachernet.gov.uk/enterpriseeducation to support other schools in developing and improving their own practice.

In addition, statutory Citizenship education in secondary schools and the non-statutory framework for Personal, Social and Health Education also provide opportunities to develop pupils' enterprise capability—including personal financial capability as well as business understanding, innovation, creativity, risk-management and risk-taking.

First Aid

Bob Spink: To ask the Secretary of State for Education and Skills what level of basic instruction in first aid is required to be given to pupils in *(a)* primary schools and *(b)* secondary schools; and if she will make a statement. [43922]

Jacqui Smith: There is scope in the Personal Social and Health Education framework for schools to explore safety and emergency procedures as part of the curriculum. At Key Stages 2 and 3, the framework suggests pupils should be taught basic emergency aid procedures and where to get help and support. At Key Stage 4 pupils should be taught to develop skills to cope with emergency situations that require basic aid procedures, including resuscitation techniques.

Examinations (Cheating)

Harry Cohen: To ask the Secretary of State for Education and Skills (1) if she will list cases in the last three years in which the *(a)* regulatory authorities and *(b)* qualification awarding bodies have determined there was malpractice, cheating or assisting in cheating in examinations or coursework leading to a qualification; which educational establishment was involved in each case; and what sanction was applied in each case; [42682]

(2) if she will list the educational establishments adjudged to have been complicit in cheating or assisting in cheating in examinations or coursework leading to a qualification in the last five years. [43525]

Jacqui Smith: The Qualifications and Curriculum Authority, regulator for qualifications in England, published for the first time in March 2005 total figures for the number of GCSE and A level confirmed malpractice cases dealt with by AQA, Edexcel, and OCR during the summer 2004 exams series. These figures are as follows:

	Candidate malpractice cases
AQA	1,608
Edexcel	847
OCR	1,118

Note:
These figures are for the number of cases of candidate malpractice rather than the number of candidates.

The QCA are intending to publish in late March 2006, similar data at a greater level of detail, broken down by category of offence, for the summer 2005 exams series. Those figures are still being verified.

Further details of the cases set out aforementioned are not readily available and could be obtained from the awarding bodies only at disproportionate cost.

Foundation Schools

Mr. Davey: To ask the Secretary of State for Education and Skills pursuant to the answer of 20 December 2005, *Official Report*, column 2736W, on foundation schools, when she expects this analysis to be completed. [42191]

Jacqui Smith: My Department is continuing its analysis of this issue. We will publish our findings as soon as the work is complete.

Mr. Todd: To ask the Secretary of State for Education and Skills how many applications were made for foundation school status in each year since September 1999; and how many of these applications were granted. [42287]

Jacqui Smith: The governing body of a school wishing to change category to foundation must consult and publish statutory proposals. Since August 2005, the governing bodies of community and voluntary controlled secondary schools have been able to decide their own proposals to change category to foundation. Otherwise, proposals are decided by the School Organisation Committee or Schools Adjudicator.

The following table sets out the numbers of statutory proposals published to change the category of existing schools to foundation, together with the decisions, since 2001.

	Primary			*Secondary*			
Publication year	*Approved*	*Rejected*	*Awaiting Decision*	*Approved*	*Rejected*	*Awaiting Decision*	*Total*
2001	6	1	—	9	—	—	16
2002	4	—	—	7	1	—	12
2003	3	—	—	3	—	—	6
2004	1	—	—	2	1	—	4
2005	1	—	—	6	—	4	11
2006	—	—	—	—	—	2	2
Totals	15	1	—	27	2	6	51

Following the introduction of the new schools framework in September 1999, schools were prohibited from publishing proposals to change category for one year (except where the governing body of a voluntary aided school were unable to meet their financial obligations). No proposals were published in 2000 after the end of this embargo.

Mr. Todd: To ask the Secretary of State for Education and Skills how many *(a)* primary schools and *(b)* secondary schools had foundation school status in each year since 1999. [42288]

Jacqui Smith: The following table details the numbers of primary and secondary foundation schools each year since 1999:

	Primary	*Secondary*	*Total*
1999	359	500	859
2000	359	500	859
2001	357	497	854
2002	362	501	863
2003	365	510	875
2004	364	514	878
2005	366	513	879

The 1999 figures reflect the position at 1 September 1999 following the introduction of the new schools framework, and subsequent figures have been derived from annual schools census returns made by schools to the Department in January each year.

Free School Meals

Kerry McCarthy: To ask the Secretary of State for Education and Skills how many pupils in each school in Bristol, East constituency receive free school meals. [42976]

Jacqui Smith: Two sets of figures relating to the number and proportion of pupils known to be eligible for free school meals are given here. The first includes all pupils in the school, regardless of their age. The second includes full-time pupils aged up to (and including) 15 and part-time pupils aged 5 to 15 (inclusive). This second coverage is as used in the Pupil Achievement Tracker and Ofsted's PANDA reports and provides consistent school level comparisons.

Maintained nursery, primary and secondary schools, pupil referral units and academies:school meal arrangements—as at January 2005, Bristol, East parliamentary constituency

n/a = not applicable

[1] Includes pupils with sole and dual registration of all ages.

[2] Includes pupils with sole and dual registration who are full-time and aged 0 to 15 (inclusive) and those who are part-time and aged 5 to 15 (inclusive).

[3] Number of pupils who took a free school meal on the day of the census in January.

Source:

Annual Schools Census

Free School Milk

Mr. Hancock: To ask the Secretary of State for Education and Skills how many schoolchildren who would qualify for free school milk if they lived in a local authority area which participates in the School Milk Subsidy Scheme do not receive free school milk. [43871]

Jacqui Smith: The information requested is not collected centrally.

Fruit

Tim Loughton: To ask the Secretary of State for Education and Skills how many *(a)* deaths and *(b)* injuries have been caused in schools by fruit in each of the last 10 years. [43363]

Jacqui Smith: The Government do not collect such data.

Good Practice

Lynne Jones: To ask the Secretary of State for Education and Skills pursuant to the answer of 27 October 2005, *Official Report*, column 1778W, on good practice, what information she has received from Ofsted on the extent to which faith schools have adopted the good practice published on www.teachernet.gov.uk/faithschools; and what assessment she has made of the impact of the adoption of the good practice on outcomes in terms of educational achievement. [41851]

Jacqui Smith: Ofsted do not assess the extent to which faith schools have adopted the good practice published on www.teachernet.gov.uk/faith schools. It is not part of the inspection framework. Our primary aim in publishing the examples of good practice is to show faith schools ways in which they can be inclusive and contribute to community cohesion. We have not made any assessment of the impact on pupils' achievement in those faith schools that have adopted the good practice.

Graduate Tax

Mr. Hayes: To ask the Secretary of State for Education and Skills what assessment she has made of the merits of a graduate tax. [43074]

Bill Rammell: The issue of a graduate tax was discussed in a departmental paper of 8 December 2003, prior to the debates on the Higher Education Bill in 2004 when the Government legislated to introduce variable fees rather than a graduate tax. The main reasons were because variable fees provide a guaranteed source of additional income for HE institutions independent of Government; and generate a higher level of revenue for universities with lower short and medium term public expenditure implications. Graduates will also know exactly what their higher education will cost them at the outset. We have made no further assessment since then. The paper is available on our website at:

http://www.dfes.gov.uk/hegateway/hereform/whitepaperconsultation/index.cfm

Greenhouse Gases

Mr. Hayes: To ask the Secretary of State for Education and Skills what steps her Department is taking to reduce its emission of greenhouse gases. [43082]

Maria Eagle: The Department is taking the following steps to reduce greenhouse gas emissions.

An internal review of energy usage and procedures to manage the estate is under way.

We have registered with the Carbon Trust who have confirmed we have qualified for an energy audit on three of our five headquarters buildings and to receive advice on a full carbon management programme.

Home Education

Mr. Davey: To ask the Secretary of State for Education and Skills how many parents *(a)* in England, *(b)* in each region and *(c)* in each local education authority are educating their children at home. [42067]

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many parents in Tamworth constituency are educating their children at home. [43469]

Jacqui Smith: Parents may exercise their right to educate their children at home on a temporary or permanent basis. We do not collect information about the numbers of children whose parents provide education at home, and it would be impractical to do so given the transient nature of some of this type of provision.

Indoor Airborne Chemicals

Mr. Davey: To ask the Secretary of State for Education and Skills what plans she has to issue guidelines to schools on acceptable *(a)* levels and *(b)* maximum concentrations of indoor airborne chemicals for children aged 4 to 11 years. [43192]

Jacqui Smith: DfES will shortly be issuing a new Building Bulletin 101, "Ventilation of School Buildings", see www.teachernet.gov.uk/iaq. This document will give the standards on ventilation for new school buildings for compliance with Approved Document F on Ventilation of the Building Regulations. Its performance standards are based on maximum concentrations of a number of pollutants including relative humidity, carbon monoxide, total volatile organic compounds, nitrogen dioxide and ozone and relate these back to a maximum carbon dioxide concentration and minimum ventilation rate. The new standards will come into force on 1 April 2006 at the same time as the new Approved Document F of the Building Regulations. The new standards are broadly in line with the requirements for minimum ventilation rates for all schools which are laid down in the Education (School Premises) Regulations SI No.2 1999, (http://www.legislation.hmso.gov.uk/si/si1999/19990002.htm)

Mr. Davey: To ask the Secretary of State for Education and Skills what steps she is taking to educate primary school teachers about the possible risks of indoor airborne chemicals. [43193]

Jacqui Smith: "Qualifying to teach" sets out the professional standards for qualified teachers. All primary teachers are trained to teach science. The standards include planning and delivering lessons that are safe (Standard 3.1.3 and 3.3.8) and working within the legal and other frameworks that apply to teachers (Standard 1.8). These frameworks include health and safety legislation and advice.

List 99

Mr. Willetts: To ask the Secretary of State for Education and Skills (1) which categories of *(a)* ban and *(b)* partial ban from working in schools can be applied to people included on List 99; [43656]

(2) what categories of *(a)* ban and *(b)* partial ban from working in schools can be applied to people included on List 99. [43771]

Ruth Kelly: My statement, and the accompanying report, of 19 January set out clearly the Government's analysis of, and response to, issues concerning child protection and List 99, together with the action we are currently taking.

Ministerial Meetings

Mr. Paul Murphy: To ask the Secretary of State for Education and Skills what arrangements she has for regular meetings with the Education Minister in the National Assembly for Wales to discuss education issues and share best practice. [44486]

Bill Rammell: The Department for Education and Skills continues to work closely with colleagues in each of the devolved Administrations. We are committed to the principle of good communication with each other, in accordance with the Devolution Memorandum of Understanding.

National Academy for Gifted and Talented Youth

Shona McIsaac: To ask the Secretary of State for Education and Skills how many members of the National Academy for Gifted and Talented Youth there are in each maintained secondary school in *(a)* North East Lincolnshire and *(b)* North Lincolnshire. [42674]

Jacqui Smith: This information is shown in the following table. Membership of the National Academy for Gifted and Talented Youth (NAGTY) is available to pupils aged 11–19 in the top 5 per cent. nationally.

School name	*NAGTY Members*
North East Lincolnshire	
Havelock School	0
Healing School	0
Hereford Technology School	46
Humberston Comprehensive School	0
Matthew Humberstone Church of England School	34
St. Mary's Catholic School	0
The Immingham School	0
The Lindsey School and Community Arts College	0
The Western Technology School	0
Tollbar Business and Enterprise College	0
Whitgift School	26
Total NAGTY Membership	106
North Lincolnshire	
Baysgarth School	22
Brumby Engineering College	32
Foxhills Technology College	1
Frederick Gough School	34
High Ridge School	5
Huntcliff School	32
North Axholme School	1
Sir John Nelthorpe School	1
South Axholme Community School	12
South Leys Business and Enterprise College	0
St. Bede's Catholic School	56
Thomas Sumpter School	0
Vale of Ancholme Technology College	51
Winterton Comprehensive School	0
Total NAGTY Membership	247
Total NAGTY Membership for North East Lincolnshire and North Lincolnshire	353

Neighbourhood Nurseries

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills (1) how many *(a)* full-time and *(b)* part-time places were available at neighbourhood nurseries in each year for which figures are available;[43933]

(2) how many neighbourhood nurseries have been established in disadvantaged areas in each year for which figures are available. [43936]

Beverley Hughes: The Neighbourhood Nurseries Initiative was launched in 2001 to create 45,000 new full-time child care and early education places for children aged 0 to five in the 20 per cent. most disadvantaged areas in England by March 2004. The full target of 45,000 places in 1,279 neighbourhood nurseries was achieved by August 2004. By the end of 2005, over 49,000 places across over 1,380 neighbourhood nursery projects had been delivered. These places have been developed through a diverse range of local and national providers. Some are 'new-build' neighbourhood nurseries, some have been created in refurbished premises and some by expanding on existing provision in the statutory, private and voluntary sectors. A breakdown of the number of full-time places opened and neighbourhood nurseries established in each year since 2001 is in the following table. Information on the number of part-time places at neighbourhood nurseries is not available.

	Full-time places created	*Number of: Nurseries established*[1]
2001	190	7
2002	2,495	92
2003	10,886	348
2004	34,231	900
2005	1,296	33

[1] Figures include new build and refurbished premises.

Overseas Trained Teacher Programme

Mr. Hands: To ask the Secretary of State for Education and Skills (1) how many teachers were working in schools under the Overseas Trained Teacher Programme in each year since 1997–98; and if she will make a statement; [43607]

(2) what the country of origin is of staff placed under the Overseas Trained Teacher Programme. [43608]

Jacqui Smith *[holding answer 19 January 2006]:* The earliest available data for the Overseas Trained Teacher Programme (OTTP) are 2000:

	Number of teachers working under the OTTP in England
2000/01	313
2001/02	791
2002/03	831
2003/04	1,213
2004/05	1,544
2005/06	[1]468

[1] To date.

Overseas trained teachers are well qualified and greatly valued, making an important contribution to schools in England. The OTTP enables them to acquire Qualified Teacher Status so they can work permanently in English schools.

A sample of 500 overseas trained teachers on programmes between April and December 2003 showed that 165 (33 per cent.) were from South Africa, 78 (16 per cent.) from Australia, 40 (8 per cent.) from New Zealand and Canada, 26 (5 per cent.) from USA, 25 (5 per cent.) from Jamaica, 23 (5 per cent.) from India. Small numbers (less than 1 per cent.) were from other

countries including Ghana (14), Nigeria (9), Kenya (5), Zimbabwe (4), Brazil (3), Sierra Leone (3), Romania (3) and Poland (3). Overall, 435 (87 per cent.) of the sample were from the Commonwealth.

Parenting Fund

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what *(a)* public, *(b)* private and *(c)* voluntary sector organisations have received payments from the Parenting Fund in each year for which figures are available; and how much each sector received. [43950]

Beverley Hughes: The Parenting Fund was established to support voluntary and community organisations in supporting parents and families. The fund is administered by the National Family and Parenting Institute which has contracted with PricewaterhouseCoopers to ensure the efficient and effective administration of the fund. The contract with PwC was worth £520,000 for the period 2004 to 2006. The remainder of the Parenting Fund has been allocated wholly to voluntary sector organisations. A list of the organisations benefiting from the fund in the period 2004 to 2006 is as follows:

ADAPT
Advisory Centre for Education
African Community Partnership
African Families Support Services
After Adoption
Alcohol Concern
Allens Croft Project
aMAZE
Asi
Asperger Norfolk
Barnardos
Beyond the Horizon (Spurgeon's Child Care)
Blackburn with Darwen Education Development Trust
British Red Cross Family Support Centre
Broadreach House
Camden Women's Aid
Centre for African Development
Child Action Northwest
Children North East
Children's Legal Centre
Chinese Health Information Centre
Chrysalis Manchester
Contact a Family
ContinYou
Coram Family
Croydon Welcare
Deaf Education through Listening and
Disabled Parents Network
Donor Conception Network
East Lancashire Deaf Society
Families at Bowthorpe
Family Group Conference Service
Family Matters Institute (FMI)
Family Rights Group
Family Welfare Association (FWA)
Fathers Direct
FPA (Family Planning Association)
FSU
FSU Liverpool
FSU Manchester
Great Yarmouth Community Trust
Greenwich Women's Centre
Groundwork Thames Valley
Hartcliffe and Withywood Ventures
Henshaw's Society for Blind People
Home-Start
Home-Start Croydon
Home-Start Leeds
Home-Start Leicester
Home-Start Teeside
Home-Start West Cornwall
I CAN
James Wolfe Parents' Association (JWPA)
KIDS Yorkshire and the Humber
Lancashire Council of Mosques
Leeds Animation Workshop
Leeway Woman's Aid
Leicestershire Centre for Integrated Living
Life Education Centres West Midlands
Liverpool ADHD Project
Mencap
Mind in Croydon
NACRO
National Association of Child Contact Centres
National Children's Bureau
National Council of One Parent Families
National Family and Parenting Institute
National Library for the Blind
National Youth Advocacy Service
NCH
NCVCCO
Newcastle upon Tyne YMCA
Norfolk and Norwich Families' House
Nottingham Regional Society for Autism
One Parent Families
One Plus One
PACE
Parentalk
Parenting Education and Support Forum (Parenting UK)
Parentline Plus
Peers Early Education Partnership (PEEP)
Positive Parenting Publications and Programmes
Positive Steps
Post-Adoption Centre

Yorkshire Band of Hope Union (YBHU)
Young Minds
Youth Access
YWCA Bristol Young Women's Centre
YWCA England and Wales

For 2005 to 2007, the Policy Research Bureau in association with the Tavistock Institute will receive £600,000 to conduct an evaluation of the Parenting Fund and the Fundholder model.

PGCE

Mr. Fallon: To ask the Secretary of State for Education and Skills how many Post Graduate Certificate in Education places were provided for classics in this academic year; and how many she expects to be provided in the *(a)* 2006/07 and *(b)* 2007/08 academic years. [44025]

Jacqui Smith: 29 trainees were recruited onto secondary postgraduate classics initial teacher training courses in 2005/06. The number of classics places allocated to providers for 2006/07 is 29 and for 2007/08 27.

Pupil Funding

Bob Spink: To ask the Secretary of State for Education and Skills what the *(a)* mean, *(b)* median and *(c)* mode annual funding per pupil is for each local education authority in 2005–06; and if she will make a statement. [43915]

Jacqui Smith: The data for mean and median values for Dedicated Schools Grant per pupil across all local authorities are set out in the following table for 2006–07 and 2007–08. There is no modal value for DSG per pupil in either of those years, since each authority has a unique value of DSG per pupil.

£

	2006–07	2007–08
Mean DSG per pupil	3,642.98	3,888.20
Median DSG per pupil	3,578.40	3,822.00

Peter Luff: To ask the Secretary of State for Education and Skills what the total funding per pupil in *(a)* cash and *(b)* real terms is for each local education authority in England for 2005–06, calculated on the basis used for the figures provided to the hon. Member for Mid-Worcestershire on 9 November 2004; what the figures are planned to be in (i) 2006–07 and (ii) 2007–08; and what the national average is for each year. [42022]

Jacqui Smith: Total funding per pupil for each local education authority in 2005–06 in cash terms is set out in Table 1. Real terms figures are only used when making comparisons between one year and another.

The funding methodology for schools and other local authority services is changing from 2006–07, so the Department is working on developing a new series to show funding on the new basis.

Table 1: Total funding per pupil aged 3–19, in cash terms, 2005–06

		2005–06 (£)

	England	4,310

Notes:

1. Price Base: Cash.
2. Figures reflect relevant sub-blocks from the education formula spending (EFS) settlement and include the pensions transfer to EFS and the Learning and Skills Council.
3. Total funding also includes all revenue grants in DfES departmental expenditure limits relevant to pupils aged 3–19 and exclude education maintenance allowances (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the EFS settlement calculations.
5. Rounding: Figures are rounded to the nearest £10.
6. Status: 2005–06 figures are provisional as some grants have not yet been finalised/audited.

Respect Action Plan

Mr. Holloway: To ask the Secretary of State for Education and Skills what additional funds will be made available to Kent local education authority to implement the Government's new Respect Action Plan to provide provision for those who are out of school. [43282]

Jacqui Smith: We are making additional funds totalling £16 million per year available to schools and local authorities from September 2007 for them to provide suitable full-time education to excluded pupils from the sixth day of their exclusion. We are developing a formula for allocating this to local authorities and will be consulting on this with key stakeholders during the course of this year. It will be for local authorities to decide how much to allocate to schools.

School Buildings

Mr. Paul Murphy: To ask the Secretary of State for Education and Skills what the levels of capital expenditure on *(a)* new, *(b)* improvements to and *(c)* repairs to school buildings in England were in each year since 1997. [44484]

Jacqui Smith: The information is as follows.

1. Capital allocations to local authorities and schools are higher than ever before. In 2005–06 they are £5.5 billion and they are planned to rise to £6.3 billion in 2007–08.

2. Capital allocations made to local authorities and schools since 1997 are set out in the following table:

	£ billion
1997–98	0.5
1996–97	0.6
1997–98	1.3
1999–2000	1.6
2000–01	2.5
2001–02	2.5
2002–03	3.3
2003–04	4.2
2004–05	4.9
2005–06	5.5

3. We expect local authorities and schools to take decisions on allocating funds between new buildings, improvements and repairs in accordance with local asset management plans. Accordingly, records of these categories of capital expenditures are not held centrally.

Mr. Paul Murphy: To ask the Secretary of State for Education and Skills what support is provided to church schools within the state sector in England for *(a)* repairs and improvements to school buildings and *(b)* new school buildings and facilities. [44485]

Jacqui Smith: Church schools—those with a religious character—are funded in the same way as other maintained schools. Those that are Foundation or Voluntary Controlled receive funding for normal repairs and maintenance through their local authorities. They also receive capital funding through a combination of formulaic and targeted programmes. The latter includes Building Schools for the Future, our programme to renew or refurbish all secondary schools over a 15-year period. We will shortly be consulting on a programme of investment in primary schools. Those church schools that are Voluntary Aided are funded in a similar way except that they must usually contribute 10 per cent. towards the cost of capital work, and they receive their capital funding direct from the Department for Education and Skills. Local authorities are responsible for capital work to playing fields at Aided schools. Details of our programmes are published on our website at www.teachernet.gov.uk/schoolscapital.

Capital investment in buildings for all schools in the current spending review period is £5.5 billion in 2005–06, rising to £6.3 billion by 2007–08. It is not possible to say how much of this is allocated to schools with a religious character.

School Clubs

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many schools had *(a)* after school clubs and *(b)* breakfast clubs in each year for which figures are available. [43948]

Jacqui Smith: Precise information is not available. However, my Department recently commissioned MORI to undertake a survey of study support (out of school hours learning) activities in England. This showed that 90 per cent. of primary schools and 98 per cent. of secondary schools offer some study support. Of those, 96 per cent. of primary schools and 97 per cent. of secondary schools provided after school activities, with breakfast clubs provided by 30 per cent. of primary and 49 per cent. of secondary. All local authorities receive funding from my Department to provide study support, as part of the School Development Grant.

School Finance

Dr. Kumar: To ask the Secretary of State for Education and Skills what measures are being taken to help schools who face financial problems due to unexpected falling rolls. [43297]

Jacqui Smith: With the introduction of a new funding methodology for schools from 2006–07, all local authorities will be required to use a single pupil count, based on numbers in January before the financial year, in the calculation of school budget shares. Using the single pupil count will be a significant contribution to improved certainty of funding and will offer protection to schools which suffer unexpected falling rolls during the year.

Local authorities are currently able to include factors in their local funding formulae to provide additional funding where schools have a high turnover of pupils during the year; where they have higher than average salary costs; or where they have reductions in budget year on year beyond a threshold set by the authority. With the introduction of the new funding methodology from 2006–07, local authorities will still be able to retain such factors in their local funding formulae if they consider they are necessary.

School Performance

Mr. Gibb: To ask the Secretary of State for Education and Skills which schools her Department classed as *(a)* low-attaining and *(b)* under-performing in its analyses of school performance in (i) 2003 and (ii) 2004. [42037]

Jacqui Smith: The information requested has been placed in the Libraries.

School Toilets

Mr. Burstow: To ask the Secretary of State for Education and Skills what funding is available to schools to *(a)* refurbish and *(b)* upgrade pupils' toilet facilities. [43521]

Jacqui Smith: Capital allocations are made by the Department to local authorities and direct to schools, and prioritisation on individual expenditure is determined locally in accordance with local Asset

Management Plan. Accordingly, the Department maintains no central records of *(a)* refurbishment and *(b)* upgrading of pupils' toilet facilities.

Capital allocations to local authorities and schools are higher than ever before. In 2005–06 they are £5.5 billion and they are planned to rise to £6.3 billion in 2007–08.

Mr. Burstow: To ask the Secretary of State for Education and Skills what steps she will take to ensure that adequate toilet facilities are provided for pupils in schools over the extended school day. [43522]

Beverley Hughes: The Education (School Premises) Regulations 1999 set out the requirements regarding washrooms in schools. The regulations do not specify what the distribution of washrooms should be, but facilities must be adequate for the ages, sex and numbers of pupils and any special requirements they may have. It is for schools and local authorities to plan services and facilities in schools over the extended school day. They will need to take into account in their planning that adequate toilet facilities must be provided for children attending extended services. We have committed £840million for extended schools from 2003–08, which schools and local authorities can use flexibly, including to support small capital projects.

Schools (Aylesbury Vale)

John Bercow: To ask the Secretary of State for Education and Skills what estimate she has made of the cost of additional *(a)* post-16 years and *(b)* special school provision in Aylesbury Vale arising from planned expansion of housing. [43306]

Jacqui Smith: No such estimates have been made by the Department. New provision for young people is planned locally. Our capital programmes are designed to support local responsiveness to meet the demands and needs of forecast population changes.

Revenue funding for pre and post 16 provision depends on numbers of pupils in a local authority's schools: extra pupils from planned expansion of housing will therefore generate extra funding for the local authority.

School Admissions

Lynne Jones: To ask the Secretary of State for Education and Skills on how many occasions the Admissions Adjudicator has ruled on complaints that schools should not be allowed to interview pupils and parents under the Admissions Code; and how many of these rulings have been successfully challenged by the schools concerned. [42771]

Jacqui Smith: Since 1999, there have been three objections to school's proposals to interview parents and/or pupils as part of their admissions process. One fell to the Schools Adjudicator to consider, while two fell within the Secretary of State's remit.

Of these:

One objection was upheld;

One objection was upheld, but subsequently overturned at judicial review;

One was not upheld.

Schools Provision

Mr. Bone: To ask the Secretary of State for Education and Skills pursuant to the answer of 9 January 2006, *Official Report*, column 429W, whether the projections for children of secondary school age take into account the additional new houses that are being built under the Milton Keynes South Midlands Regional Strategy. [42524]

Jacqui Smith: Population projections are the responsibility of the Office for National Statistics.

The mid-2003 based subnational population projections are based on assumptions about local fertility, mortality and migration levels derived from the five-year reference period 1999 to 2003. They are demographic trend-based projections and take no account of any future growth or development policies of an area.

The effects of the Milton Keynes and South Midlands Sub-Regional Spatial strategy will be covered in future sets of projections when they are observed in the mid year estimates and historic migration estimates that are used to set the projection assumptions.

Schools White Paper

Mr. Marsden: To ask the Secretary of State for Education and Skills what assessment she has made of the *(a)* workload and *(b)* time commitments for (i) governors and (ii) chairs of governing bodies of trust schools under the proposals in the Schools White Paper. [37667]

Jacqui Smith: On average, governors will spend 6 to 8 hours per month on governing body business and chairs of governors will spend at least twice as much time. We would expect a similar commitment in future Trust schools.

Science Graduates

Stephen Hammond: To ask the Secretary of State for Education and Skills how many students graduated in the academic year 2004/05 in *(a)* pure chemistry, *(b)* pure physics, *(c)* electrical engineering, *(d)* mechanical engineering and *(e)* avionics; and how many graduated in each subject (i) five, (ii) 10 and (iii) 20 years ago. [27212]

Bill Rammell: The latest available information is given in the table. Data for 20 years ago is not available at this level of detail.

First degree qualifiers from English HE institutions

Subject	*1994/95*	*1999/2000*	*2004/05*[1,2]
Medicine and dentistry	4,190	4,570	5,855
Subjects allied to medicine	8,515	13,300	20,295
Biological sciences	9,590	14,680	21,900
Veterinary sciences	300	390	505
Agricultural and related sciences	1,380	1,790	1,795
Physical sciences	11,215	10,840	10,185
Of which:			
Chemistry	3,395	2,835	2,260
Physics	2,090	1,935	1,925
Mathematical sciences	3,380	3,500	4,375
Computing sciences	7,055	9,655	17,170
Engineering and Technology	18,245	16,990	15,730
of which:			
Electrical Engineering (up to 2001/02)	815	795	n/a
Electronic and Electrical Engineering (2002/03 onwards)	n/a	n/a	4,545
Mechanical Engineering	2,815	2,945	2,650

First degree qualifiers from English HE institutions

Subject	1994/95	1999/2000	2004/05[1,2]
Aeronautical Engineering (up to 2001/02)	615	710	n/a
Aerospace Engineering (2002/03 onwards)	n/a	n/a	1,050
Architecture, building and planning	6,715	4,965	4,945
Total non-science subjects	125,605	137,325	148,265
Total all subjects	196,195	217,995	251,045

n/a = not applicable

[1] In 2002/03 a new coding frame for subject of study was introduced, as was a new method of allocating students between subjects studied. As such, figures for 2002/03 onwards are not directly comparable to earlier years.

[2] Figures for 2004/05 include students qualifying from dormant modes of study. In 2004/05 there were just under 10,000 first degree students who qualified from dormant modes of study.

Figures have been rounded to the nearest 5.

Higher Education Statistics Agency (HESA) student record

Secondary School Places

Mr. Bone: To ask the Secretary of State for Education and Skills how many pupils of secondary school age on 1 January 2006 were without a school place; and what estimate she has made of the average length of time for these pupils to be allocated a place. [41566]

Jacqui Smith: The information requested is not collected centrally. Local authorities have responsibility for ensuring that there is a school place for every child in their area that needs one. They should ensure that the admission arrangements operating in their areas enable children to be admitted to school as quickly as possible.

Special Educational Needs

Helen Jones: To ask the Secretary of State for Education and Skills what representations she has received on ring-fencing funding for special educational needs. [42476]

Jacqui Smith *[holding answer 17 January 2006]:* We have received occasional representations, normally about the possibility of ring-fencing for particular purposes, e.g. specialist support and training.

Under the New Relationship with Schools we are committed to giving greater freedom and flexibility in relation to how schools manage their own resources. Similarly, we are committed to minimising ring-fencing for local government to allow authorities greater freedom to manage their resources according to their assessment of needs and priorities.

Helen Jones: To ask the Secretary of State for Education and Skills what proportion of pupils permanently excluded from school had special educational needs in the last year for which figures are available. [42478]

Jacqui Smith *[holding answer 17 January 2006]:* The information requested is shown in the table.

Maintained primary, secondary and all special schools[1,2]: Number of permanent exclusions by special educational needs (SEN)—2003/04 (estimates)[3]—England

	Permanent exclusions		
	Number of exclusions	Percentage of permanent exclusions[4]	Percentage of school population[5]
Pupils with statements of SEN	1,040	11	0.44
Pupils without statements of SEN	8,840	89	0.12
Of which:			
SEN pupils without statements	5,240	53	0.46
Pupils with no SEN	3,600	36	0.06
All pupils[6]	9,880	100	0.13

[1] Includes middle schools as deemed.

[2] Includes both maintained and non-maintained special schools.

[3] Figures relating to permanent exclusions are estimates based on incomplete pupil-level data.

[4] The number of permanent exclusions expressed as a percentage of the total number of permanent exclusions.

[5] The number of excluded pupils by SEN stage expressed as a percentage of all pupils with the same SEN stage in primary, secondary and all special schools (excludes dually registered pupils) in January.

[6] There was one permanent exclusion for which stage of SEN was not known—this is included in total for 'all pupils' only.

Note:

Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.

Annual Schools' Census

Mr. Hurd: To ask the Secretary of State for Education and Skills how much was spent as a proportion of total budget by each local education authority in Greater London on special needs education in each of the last seven years. [43453]

Jacqui Smith: The available information is contained within the following table. Similar data are not available before 2000–01.

Local authority name	2000–01	2001–02	2002–03	2003–04	2004–05	2005–06

Westminster	12	12	14	12	13	14

Notes:
1. 2000–01 saw a change in data source when the data collection moved from the RA form collected by the Office of the Deputy Prime Minister to the section 52 form from the DfES. Therefore data are only available in a comparable format from 2000–01 onwards.
2. The ISB for special schools will include some general education costs for pupils with SEN in addition to those costs specifically for SEN while the figures recorded against "notional SEN" are only indicative of the amount that might by spent by schools on SEN and, from 2004–05 onwards, "notional SEN" delegated to nursery schools was reported on section 52 for the first time and this accounts for £2.7 million and £3.3 million of the 2004–05 and 2005–06 London totals respectively. In 2005–06, local authorities in London also budgeted £90 million for SEN transport expenditure but this is not included in the above table as figures are not available prior to 2005–06.
3. Includes planned expenditure on the provision for pupils with statements and the provision for non-statemented pupils with SEN, support for inclusion, inter authority recoupment, fees for pupils at independent special schools and abroad, educational psychology service, local authority functions in relation to child protection, therapies and other health related services, parent partnership, guidance and information, the monitoring of SEN provision and inclusion administration, assessment and co-ordination. Also included is the funding delegated to primary and secondary schools identified as "notional SEN" and the individual schools budget (ISB) for special schools.

Helen Jones: To ask the Secretary of State for Education and Skills what the cost was of funding places in non-maintained special schools in each local authority in the last year for which figures are available. [42477]

Jacqui Smith *[holding answer 17 January 2006]*: The Department does not collect the information in the way it has been asked for. However, the following table gives a breakdown of the available data on local authorities planned expenditure for fees for pupils at independent special schools and abroad in 2005–06:

Local authority	Fees for pupils at independent special schools and abroad (£)
Barking and Dagenham	2,200,000
Barnet	6,488,050
Barnsley	2,068,400
Bath and North East Somerset	1,522,068
Bedfordshire	2,439,142

Wolverhampton	794,000
Worcestershire	2,070,784
York	1,883,274

Notes:

1. Fees for pupils at independent special schools and abroad covers planned expenditure by the local authority on the payment of fees in respect of pupils with special educational needs at independent schools or non-maintained special schools. Consequently this covers budgeted cost to each local authority of sending children with special educational needs to independent or non-maintained special schools rather than the full cost to schools of educating these pupils.
2. The data are drawn from the 2005–06 Section 52 Budget Statement (Table 1 line 1.2.7) which local authorities submitted to the DfES.
3. Cash terms figures as reported by local authorities as at 13 January 2006.

Speech Therapy

Ed Balls: To ask the Secretary of State for Education and Skills how much has been spent on speech therapy services for children in *(a)* West Yorkshire, *(b)* Wakefield District and *(c)* Normanton constituency; and whether she has plans to increase the allocated resources. [41097]

Mr. Byrne: I have been asked to reply.

Primary care trusts (PCTs) are responsible for commissioning services, including speech therapy services for children, to meet the health needs of their local population. In the current financial year, PCTs in West Yorkshire received resource revenue allocations totalling £2.3 billion, with the two PCTs covering Wakefield receiving a total of £364.8 million. By 2007–08 the total resource allocation to PCTs in West Yorkshire will have increased to £3.0 billion, with the two Wakefield PCTs receiving £489.2 million.

State Schools

Kerry McCarthy: To ask the Secretary of State for Education and Skills what percentage of pupils of *(a)* primary school and *(b)* secondary school age in the Bristol local education authority area are educated within the state school system. [42977]

Jacqui Smith: The requested information is given in the following table.

All schools: full-time equivalent number of pupils by age group[1,2], as at January 2005, Bristol local education authority area

	Pupils aged[1]			
	Five to 10		11 to 15	
	Number	Percentage	Number	Percentage
Maintained nursery	17	0.1	0	0.0
Maintained primary	24,076	92.2	18	0.1
Maintained secondary	0	0.0	15,107	72.6
Maintained special	208	0.8	382	1.8
Pupil referral units[3]	5	0.0	91	0.4
Total maintained schools	24,306	93.1	15,597	74.9

All schools: full-time equivalent number of pupils by age group[1,2], as at January 2005, Bristol local education authority area

	Pupils aged[3]			
	Five to 10		11 to 15	
	Number	Percentage	Number	Percentage
Independent	1,806	6.9	4,313	20.7
City technology colleges and academies	0	0.0	906	4.4
Non-maintained special	n/a	n/a	n/a	n/a
Total other school types	1,806	6.9	5,219	25.1
Total all schools	26,112	100.0	20,816	100.0

n/a = not applicable, no schools of this type.
[1] Age as at 31 August 2004.
[2] Excludes dually registered pupils.
[3] Includes pupils with other providers.

Annual Schools Census

Sure Start

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills (1) which *(a)* private, *(b)* voluntary and *(c)* public sector organisations delivered services in Mini Sure Start programmes in each year for which information is available; [43835]

(2) in which constituencies Mini Sure Start programmes are located; [43837]

(3) how many *(a)* children and *(b)* adults participated in Mini Sure Start programmes in each year for which figures are available; [43838]

(4) how many Mini Sure Start programmes were established in each year for which figures are available; [43839]

(5) what target she has set for expanding the number of Mini Sure Start programmes; and what progress has been made in meeting this target. [43840]

Beverley Hughes: 50 Mini Sure Start programmes were approved in 2002, four of these subsequently became Sure Start Local Programmes. There are no plans to develop further Mini Sure Start programmes. We expect all of the 46 remaining mini programmes to develop into children's centres and to contribute to our target of 3,500 children's centres across the country by 2010. The Department does not keep data on which private, voluntary and public sector organisations have delivered Mini Sure Start programmes or how many children and adults have participated in the programmes. However, each programme typically covers between 150 and 170 children under 4 in their catchment areas. We are unable to provide the information requested by constituency, but the following table provides a breakdown by local authority.

Local authority	*Number of mini programmes*
Bedfordshire	1
Cambridgeshire[1]	1
Cheshire	1
Cornwall	2
Cumbria	3
Derbyshire	2
Devon	3
Dorset	1
Durham	2
East Riding of Yorkshire	1
Essex	1
Gloucestershire	1
Hampshire	1
Herefordshire	1
Hertfordshire	1
Leicestershire	1
Lincolnshire	2
Norfolk[1]	3
North Yorkshire	1
Northamptonshire	1
Northumberland	2
Nottinghamshire	1
Oxfordshire	1
Shropshire	1
Somerset	2
Staffordshire	1
Suffolk	2
Surrey	1
Warwickshire	1
West Sussex	1
Wiltshire	2
Worcestershire	1

[1] The mini programmes in Cambridgeshire and Norfolk have combined to form one mini programme—The Fen Border collaboration.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many people work in the *(a)* Sure Start regional teams and *(b)* Sure Start Task Force. [43946]

Beverley Hughes: There are 104 full-time equivalent staff in the Sure Start and Children's Fund regional teams. Their role is to oversee and support the delivery of Sure Start and the Children's Fund by local authorities.

There are currently 11 consultants in the Sure Start taskforce. They support particular local authorities with particular issues related to the delivery of Sure Start. They are engaged for a specific number of days a year and their contracts come to an end in March.

Teaching Literacy

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will ensure the National Framework for Teaching Literacy takes into account the report and recommendations of the National Inquiry into the Teaching of Reading commissioned by the Australian Department of Education, Science and Training. [42327]

Jacqui Smith: As part of the evidence for his independent review of early reading, Jim Rose is considering the findings of the National Inquiry into the Teaching of Literacy commissioned by the Australian Government Department of Education, Science and Training. Along with other relevant source material, he will take the Inquiry's recommendations into account when he prepares his final report, and this will, in turn, feed into the Primary National Strategy's revision of the Framework for teaching literacy.

Truancy

Mr. Hurd: To ask the Secretary of State for Education and Skills what the truancy levels were in schools in *(a)* the Ruislip-Northwood constituency, *(b)* the London borough of Hillingdon, *(c)* Greater London and *(d)* England in each year since 1995. [40717]

Jacqui Smith: The information requested on unauthorised[1] absence is shown as follows:

Percentage of half days missed due to unauthorised[1] absence

	1997/98	*1998/99*	*1999/2000*	*2000/01*	*2001/02[2]*	*2002/03*	*2003/04*	*2004/05[3]*
Maintained Primary								
Ruislip-Northwood	0.3	0.5	0.4	0.4	0.3	0.4	0.3	0.3
London Borough of Hillingdon	0.8	1.0	0.9	0.8	0.71	0.67	0.58	0.55
Greater London	—	—	0.9	0.9	0.85	0.79	0.74	0.73
England	0.5	0.5	0.5	0.5	0.45	0.43	0.41	0.43
Maintained Secondary								
Ruislip-Northwood	1.0	1.0	1.2	0.7	0.7	0.9	0.9	1.1
London Borough of Hillingdon	1.4	1.4	1.4	1.1	1.49	1.63	1.43	1.61
Greater London	—	—	1.4	1.5	1.45	1.34	1.30	1.38
England	1.1	1.1	1.0	1.1	1.09	1.07	1.13	1.25

[1] Unauthorised absence includes other forms of absence such as lateness, holidays during term time not authorised by the school, absence where reason is not yet established and truancy. Truancy forms only one part of the unauthorised figures.
[2] Regional and National figures from 2001/02 onwards are published to 2 decimal places.
[3] 2004/05 figures are provisional.

Written Answers to Questions

Tuesday 24 January 2006

PRIME MINISTER

Departmental Staff

Bob Spink: To ask the Prime Minister how many disciplinary actions against civil servants employed in his Office *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43489]

The Prime Minister: For these purposes my office forms part of the Cabinet Office. I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office today.

SCOTLAND

Transport Links (England)

8. **Mr. Hollobone:** To ask the Secretary of State for Scotland what discussions he has had with the Scottish Executive on improving road and rail links between Scotland and England. [43217]

Mr. Darling: Regular discussions are held with the Scottish Executive on a range of transport matters.

Undersea Pipeline (Norway)

9. **Daniel Kawczynski:** To ask the Secretary of State for Scotland what discussions he has had with the Secretary of State for Trade and Industry on the merits of an undersea oil and gas pipeline between Scotland and Norway. [43218]

David Cairns: My right hon. Friends have regular discussions on a wide range of issues.

Law Reform (Miscellaneous Provisions) (Scotland) Act

10. **Jo Swinson:** To ask the Secretary of State for Scotland what discussions he has had with the Scottish Ministers on the commencement of sections 25 to 29 of the Law Reform (Miscellaneous Provisions) (Scotland) Act 1990. [43219]

David Cairns: My right hon. Friend has not discussed the commencement of sections 25 to 29 of the Law Reform (Miscellaneous Provisions) (Scotland) Act 1990, which is a devolved matter, with Scottish Ministers.

Population Decline

11. **Jim Sheridan:** To ask the Secretary of State for Scotland what steps the Government is taking to address the declining population of Scotland. [43220]

David Cairns: The Government are committed to implementing policies that will improve the social well being and economic prosperity of the people of Scotland. This includes our initiatives on managed migration that help to create economic migration routes into Britain that respond positively and flexibly to the needs of the labour market. The population figures published routinely by the Registrar General for Scotland are projections from past trends and cannot of course take account of future social or economic policy effects on population patterns at national or local level.

Centre for Ecology and Hydrology

12. **Sir Robert Smith:** To ask the Secretary of State for Scotland what assessment he has made of the impact of the proposed closure of the Banchory station of the Centre for Ecology and Hydrology on climate change research in Scotland. [43221]

David Cairns: I refer the hon. Member to the reply given by my hon. Friend the Under-Secretary of State for Competitiveness, Department for Trade and Industry, to the hon. Member for East Surrey (Mr. Ainsworth) on 10 January 2006, *Official Report*, column 471W.

I am sure that the Natural Environment Research Council will consider all evidence and views on the potential impact of the proposed re-structuring of the Centre for Ecology and Hydrology, including the proposed closure of the site at Banchory.

Arbuthnott Commission

13. **Anne Moffat:** To ask the Secretary of State for Scotland whether he has received the report of the Arbuthnot commission; and if he will make a statement. [43222]

David Cairns: The Arbuthnott Commission published its report on 19 January. My right hon. Friend welcomed the report and said he would consider carefully the recommendations and respond in due course.

Nuclear Waste

14. **John Robertson:** To ask the Secretary of State for Scotland what recent discussions he has had with the First Minister of Scotland regarding the disposal of nuclear waste. [43223]

Mr. Darling: I have regular discussions with the First Minister on a wide range of issues.

Energy

15. **James Duddridge:** To ask the Secretary of State for Scotland what recent discussions he has had with the First Minister on Scotland's future energy needs. [43224]

Mr. Darling: I have regular discussions with the First Minister on a wide range of issues.

CONSTITUTIONAL AFFAIRS

Election Turnout

20. **Anne Snelgrove:** To ask the Minister of State, Department for Constitutional Affairs what the estimated turnout at the last election was among voters from socio-economic groups D and E. [44684]

Ms Harman: May 2005 general election turnout in social class DE was 54 per cent. This compares with AB turnout of 71 per cent. The turnout of socio-economic groups D and E was up by 1 per cent. from the 2001 general election (53 per cent.). However this was still the lowest turnout based on social status. Socio-economic groups A and B had the highest turnout (70 per cent.). This was up 2 per cent. on the 2001 general election.

Legal Advice

21. **Huw Irranca-Davies:** To ask the Minister of State, Department for Constitutional Affairs if she will take steps to make it easier for the public to seek redress against lawyers for poor legal advice. [44685]

Bridget Prentice: I share my hon. Friend's concern hat people must be able to seek redress against lawyers where appropriate. In our White Paper "The Future of Legal Services: Putting Consumers First" we set out proposals for an independent Office for Legal Complaints. This will be a direct point for all complaints about providers of legal services. Where things go wrong, it will provide full, fair and swift redress to the consumer.

House of Lords

22. **James Brokenshire:** To ask the Minister of State, Department for Constitutional Affairs what progress has been made with plans to change the powers of the House of Lords. [44686]

Ms Harman: Our plans include clarifying the powers of the House of Lords to entrench the primacy of this House. We are seeking to set up a joint committee of both Houses to codify the powers of the second Chamber. We hope to be able to do so as soon as possible.

Electoral Registration

23. **Ms Abbott:** To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of levels of electoral registration in London. [44687]

Ms Harman: London has the worst voter registration levels in the country. Young people, people in rented accommodation, black and minority ethnic group hardest to register. Estimate over half a million Londoners not registered to vote.

24. **Chris Ruane:** To ask the Minister of State, Department for Constitutional Affairs what progress is being made in increasing electoral registration rates in the UK. [44688]

Ms Harman: Electoral Administrators have carried out annual canvass and the results will be published in March when we will see the levels of registration in UK. The Electoral Administration Bill includes a new duty on electoral registration officers to take all necessary steps to ensure comprehensive registers and a number of other measures to improve registration

29. **Jessica Morden:** To ask the Minister of State, Department for Constitutional Affairs what her estimate is of the number of 18 to 24-year-olds who are not on the latest electoral register. [44693]

Ms Harman: The Electoral Commission's "Understanding Electoral Registration" report provides a comprehensive analysis of registration rates and a detailed analysis of non-registration by age group. The report estimates that on 15 October 2000—the date on which the report's analysis is based—the levels of non-registration among all eligible 18 to 24-year-olds in England and Wales was 16 per cent.

National Mediation Helpline

26. **Mr. Jim Cunningham:** To ask the Minister of State, Department for Constitutional Affairs how many people are employed at the National Mediation

Bridget Prentice: The Department has funded one full-time operator to work on the National Mediation Helpline for a year. Up to three other trained operators are available, on a part-time basis, to handle calls at peak times.

Judicial Appointments

27. **Keith Vaz:** To ask the Minister of State, Department for Constitutional Affairs when the Secretary of State last met the Chairperson of the Judicial Appointments Commission to discuss judicial appointments; and if she will make a statement. [44691]

Bridget Prentice: The Secretary of State for Constitutional Affairs and the Chairman of the Judicial Appointments Commission last met to discuss judicial appointments on 17 January 2006.

Regarding a statement, I refer the hon. Member to the written ministerial statement made yesterday by my right hon. and learned Friend the Minister of State. The Chairperson of the Judicial Appointments Commission and the Lord Chief Justice have both agreed this statement.

Legal Aid

28. **Jim Cousins:** To ask the Minister of State, Department for Constitutional Affairs if she will estimate the effect on legal aid costs of the Government's respect agenda. [44592]

Bridget Prentice: The legal aid implications of all new Government policy initiatives are assessed as part of the regulatory impact assessment process. This will apply to the range of policy initiatives departments will be ringing forward as part of the respect agenda.

Devolved Administrations (Ministerial Visits)

30. **Mr. Wallace:** To ask the Minister of State, Department for Constitutional Affairs whether agreement to overseas visits by Ministers from devolved Administrations is sought from her Department. [44694]

Bridget Prentice: Such visits are a matter for the devolved Administrations, therefore agreement is not sought from my Department.

Cohabiting Couples' Rights

Barbara Follett: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the merits of strengthening the rights of unmarried, cohabiting couples. [44689]

Bridget Prentice: The Department is funding several research projects on the legal rights of cohabitants and a review by the Law Commission. The Law Commission is considering how the law affects cohabiting couples on the termination of their relationship by separation, or death, and the merits of providing greater legal protection.

Council Tax Valuations

Mrs. Spelman: To ask the Minister of State, Department for Constitutional Affairs what *(a)* information and *(b)* data the Land Registry has provided to the Valuation Office Agency for council tax valuations. [39495]

Bridget Prentice: HM Land Registry has provided property data to the Valuation Office Agency to enable it to verify the information underpinning the revaluation of properties. The data has been supplied solely for the purpose of validation of council tax and non-domestic rating valuations. Most of the property information provided is already in the public domain (for example the title number of the property, and the name of the registered proprietor).

Criminal Justice (Statistics)

Judy Mallaber: To ask the Minister of State, Department for Constitutional Affairs why the Department has not published in 2005 under the provisions in section 95 of the Criminal Justice Act 1991 statistics on women and the criminal justice system. [38369]

Fiona Mactaggart: I have been asked to reply.

Since much of the information in the section 95 publication for women is available from other sources, we have not published a separate volume in 2005. Relevant information is included in a number of statistical bulletins and regular briefs published by the Home Office which are all available on the Home Office website.

We are presently looking at ways of making it easier for users to access this information by creating an area of the website focusing on women that provides links to the most recent data and research. This will allow users to select the most relevant data for their purpose.

LEADER OF THE HOUSE

Parliamentary Questions

36. **Ben Chapman:** To ask the Leader of the House whether he has made an assessment of the systems of tabling parliamentary questions during recesses operated by other parliaments. [44677]

Nigel Griffiths: No. However, he continues to remain open to representation from Members on this issue.

Regional Affairs Committee

37. **Andrew George:** To ask the Leader of the House what arrangements he is making for the Standing Committee on Regional Affairs to meet. [44678]

Nigel Griffiths: Appointment of the members of the Standing Committee on Regional Affairs under Standing Order No. 117 is under consideration.

Ministers' Speeches (Time Limits)

John Bercow: To ask the Leader of the House if he will ask the Select Committee on the Modernisation of the House of Commons to consider the merits of imposing a time limit on ministerial speeches. [44672]

Nigel Griffiths: This matter was considered by the Procedure Committee in the last Parliament. My right hon. Friend has no plans to raise it again with the Modernisation Committee.

HOUSE OF COMMONS COMMISSION

Parliamentary Education Unit

Barbara Follett: To ask the hon. Member for North Devon, representing the House of Commons Commission, what progress has been made towards implementing the recommendations of the Select Committee on the Modernisation of the House of Commons to improve the facilities available to the parliamentary education unit and send a new voters' guide to all young people on their 18th birthday; and if he will make a statement. [44679]

Nick Harvey: In response to the Modernisation Committee's recommendations, the Commission authorised the recruitment of dedicated outreach officers, two of whom were recruited to start work in the education unit in September 2005. Since their appointment they have been meeting other organisations involved in promoting and teaching citizenship to identify how Parliament can most effectively contribute to the teaching of political literacy. Over the coming months they will be travelling to local education authorities and schools around the country to gather ideas on how the services of the education unit can be delivered to young people who are currently unable to visit Parliament. This fieldwork, along with a draft outreach strategy, will be completed before the summer recess.

In October 2004 the Commission authorised the extension of the education unit's autumn visits programme. Room A in 1 Parliament street has been equipped for presentations to school groups, in addition to the use of the Macmillan Room in Portcullis House, while an allocation of tickets in the public gallery has increased the opportunity for visiting groups to see the work of the House. To enable the unit to increase the number of school parties it can support on a daily basis, a new visits officer was appointed earlier this month with a second due to start in April. These changes will allow a further 20,000 young people each year to visit and learn more about the work of Parliament.

The House authorised the Commission to take forward work on a guide for new voters in January 2005. Since then qualitative research with groups of young people has been undertaken by an external agency in order to find out what kind of guide would be most effective. Following a competitive exercise an external creative agency was then appointed to produce the guide. Draft versions of the guide are going to be presented to groups of young people—again, by an external agency with expertise in the field—to test their effectiveness and see how they can be improved. A revised draft guide will be produced in the light of that research and will be made available to the Modernisation and Administration Committees for comments. The Commission hopes to agree a final version of the guide soon, so that from the second half of 2006 the guide can thereafter be sent to young people on or around their eighteenth birthday. The guide is intended to encourage more new voters to make sure they are registered to vote and to use their votes in the next general election.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Acid Rain

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to tackle acid rain. [43703]

Mr. Morley: Acid rain is the term given to precipitation which has been made acidic by airborne pollutants. It causes acidification of sensitive ecosystems, such as certain soils and freshwaters.

Acid rain is a transboundary phenomenon, so the best way to tackle it is through international action. The UK has played a major role in the development of a succession of Protocols under the United Nations Economic Commission for Europe's Convention on Long Range Transboundary Air Pollution to reduce the emissions that lead to acid rain. These emissions are also controlled through the EU National Emission Ceilings Directive.

Much progress has been made over the last few decades in reducing the emissions that lead to acid rain, and progress continues: between 1990 and 2002, emissions of sulphur dioxide decreased by 73 per cent. and emissions of nitrogen oxides by 43 per cent. Emissions of ammonia reduced by 17 per cent.

The Government support an extensive research programme to examine and understand the effects of acid rain on the environment, and there is now evidence of the beginnings of recovery in some of the most acid sensitive sites in the UK. But more remains to be done, and the Government continue to work in both the UNECE and the EU to ensure the next generation of international agreements will deliver further improvements in line with the principles of sustainable development.

Agricultural Produce (Description)

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many types of agricultural produce have been required to change their name or description as a result of European regulations in each of the last five years. [43707]

Jim Knight: This information is not held by Defra.

Animal Welfare Bill

Mr. Holloway: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received on the Animal Welfare Bill from local charities, in relation to codes of conduct being implemented through secondary regulation. [43260]

Mr. Bradshaw: We have received a number of representations on the Animal Welfare Bill and its accompanying codes of practice from a range of charities and organisations with an interest in animal welfare.

Audible Fire Alarms

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the premises occupied by her Department is fitted with audible fire alarms. [42881]

Jim Knight: Information is not collected in this form and an audit of the departmental estate could be conducted only at disproportionate public cost. The Department is committed to ensuring compliance with fire safety law in premises it occupies. That includes provision of fire detection and warning systems that are appropriate to the circumstances of the case.

Avian Influenza

Mr. Bone: To ask the Secretary of State for Environment, Food and Rural Affairs whether she plans to require domestic birds kept in outdoor aviaries to be brought indoors in an outbreak of avian influenza in the United Kingdom. [45120]

Mr. Bradshaw: If a case of H5N1 is found in Great Britain, British bird owners will be required to move their birds indoors as soon as possible while the disease is traced and controlled. In cases where housing is not practicable, keepers will be required to take all reasonable measures to minimise contact with wild birds.

We will also carry out a risk assessment on the need to house birds if a case of H5N1 occurs in other EU member states or the East Atlantic flyway.

Battery Recycling

Ms Abbott: To ask the Secretary of State for Environment, Food and Rural Affairs what provisions are in place for the recycling of batteries in England. [36149]

Mr. Bradshaw: In 2005, G&P Batteries opened a plant that processes portable/consumer batteries for recycling in the West Midlands. This is the first of its kind in England.

The majority of waste industrial lead acid batteries in England are recycled at H.J. Enthoven & Sons in Derbyshire.

There are no facilities for recycling nickel cadmium (NiCd) batteries, so NiCd batteries are separated for recycling in England and are exported to the SNAM facility in France for reprocessing.

The principal UK mercury reprocessing facility that accepts button cells for treatment is Odin Technology based in Berkshire. Mercury Recycling in Manchester also processes spent button cells. The majority of spent silver oxide batteries are reprocessed by Engelhard Ltd.

Beef

Mr. David Jones: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of when the export ban on British beef will be lifted following the cessation of the over-30-month scheme. [44041]

Mr. Bradshaw: We cannot be sure when EU member states and the Commission will agree to lift the export ban. But we are working to achieve this as quickly as possible, and it could be as early as April.

Biodiversity Action Plan

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effectiveness of the UK Biodiversity Action Plan; and if she will make a statement. [43653]

Jim Knight: The UK Biodiversity Action Plan (UK BAP) was published in 1994 as part of the UK response to the Convention on Biological Diversity signed in Rio in 1992. Under the plan there are costed and targeted national action plans for 436 of our most threatened habitats and species in the UK. These are supported by approximately 150 local biodiversity action plans, often at county level.

Progress on the UK BAP is reviewed every three years. Results from the most recently completed reporting round were published in "UK Biodiversity Action Plan—tracking progress" in 2003.

By the end of 2002, 26 per cent. of BAP species were either stable or increasing, and the rate of decline had slowed for a further 8 per cent. of species. 26 per cent. of habitats were either stable or increasing and the rate of those in decline had slowed by 31 per cent.

Information for 2005 is currently being collated. This will address not only on how individual species and habitats are faring, but also emerging influences by sector and constraints to delivery. A report will be published in 2006. Notable successes of the UK BAP so far include genuine results for species like the corncrake, bittern, cirl bunting, field cricket, lady's slipper orchid and otters, and for habitats including cereal field margins and native pinewoods.

In addition, the UK Biodiversity Partnership is currently undertaking a review of the targets set for UK priority species and habitats and a review of the UK priority lists themselves. We will publish new priorities, targets and plans for meeting our target of halting biodiversity loss by 2010, once these reviews have been completed.

Chicken Farming

Mrs. Gillan: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations she has made to the Office of the Deputy Prime Minister concerning planning permission for new chicken farms near *(a)* residential areas and *(b)* schools. [43388]

Mr. Bradshaw *[holding answer 20 January 2006]:* There have been no representations to the ODPM on such planning issues.

Climate Change

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effectiveness of non-binding, as opposed to binding, climate change targets; and what assessment she has made of the impact of the Montreal climate change talks on this. [38904]

Mr. Morley: The agreement at Montreal illustrates the significant impact that the UK's leadership on climate change has on the rest of the world and is a hugely significant step in the global effort to tackle climate change. Despite the deep divisions of recent years, the whole global community including the United States, India and China have agreed to work together through the United Nations process to examine the way forward.

The discussions on action beyond 2012 will be taken forward on two tracks:

Developed country Kyoto parties (Annex I Parties) will consider further targets beyond 2012; and

all countries under the UN Framework Convention on Climate Change (including all Kyoto parties, both Annex I and non-Annex I Parties such as China and India, plus non-parties including the US and Australia) have agreed to begin talks on the longer term future.

These discussions will enable us to further consider the most effective way in which the UNFCCC objectives can be met through global participation.

Common Agricultural Policy

Mr. Holloway: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on plans for further reform of the common agricultural policy; and when the single payment scheme will be implemented. [43257]

Jim Knight: EU Heads of State and Government agreed in December a proposal from the UK presidency for the Union's budget over 2007–13, including the common agricultural policy (CAP). That proposal included a provision allowing member states to voluntarily transfer up to 20 per cent. of their funding for CAP market support and direct payments to rural development. The Government have always supported moving funds in this direction, and will continue to do so. The agreement in December also contained a commitment to review all EU expenditure, including the CAP, in 2008–09. A debate has already begun ahead of

that review. On 2 December, the Government made its first contribution to the debate, with the publication of a paper setting out the UK's vision for reform of the CAP. The Government are in ongoing discussions with other member states and other stakeholders about their views on that vision, and their own ideas for the future of the CAP.

The single payment scheme has been implemented in the UK from 1 January 2005, with the Rural Payments Agency working towards a target date of commencing payments in February 2006.

Correspondence

Colin Challen: To ask the Secretary of State for Environment, Food and Rural Affairs when she will reply to the letters of 31 October, 16 November and 28 November 2005 from the hon. Member for Morley and Rothwell on the Draft Magnox Decision Document. [42797]

Mr. Morley *[holding answer 17 January 2006]:* I apologise for the delay in replying to the hon. Member's letters of 31 October 2005 and 16 November 2005. A response will be sent shortly. This Department has no record of receiving your letter of 28 November 2005. If you would like to forward a copy, I shall arrange for a swift response.

Departmental Property

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* land and *(b)* property is owned by her Department in Castle Point. [42895]

Jim Knight: The Department does not own any land or property in Castle Point.

Departmental Staff

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how many disciplinary actions against civil servants employed in her Department *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43495]

Jim Knight: The numbers of disciplinary cases commenced and the numbers of sanctions applied in core-Defra for each calendar year since it was created on 9 June 2001 are as follows:

	Number of cases	*Sanctions applied*
2001	9	Five
2002	26	21 (plus three who resigned during the process)
2003	12	Four (plus one who resigned during the process)
2004	8	Seven
2005	13	Eight (plus two who resigned during the process and two cases are ongoing)

The Civil Service Management Code sets out the requirements for Departments to have procedures in place to deal with conduct and disciplinary issues. The Defra procedures are laid down in the staff handbook which is accessed on the departmental intranet.

Emissions Trading

Colin Challen: To ask the Secretary of State for Environment, Food and Rural Affairs whether the draft UK National Allocation Plan for Phase 2 of the EU Emissions Trading Scheme will set a target higher than that for phase 1. [43517]

Mr. Morley *[holding answer 19 January 2006]:* Phase 2 of the EU ETS coincides with the first Kyoto protocol commitment period (2008 to 2012), and national allocation plans for the second trading period will have a significant part to play in ensuring that the EU meets its targets under the protocol.

Further guidance from the European Commission was issued on 9 January 2006, and is currently being assessed.

A draft NAP will be published this spring, outlining Government proposal on a number of issues including the phase 2 cap.

Colin Challen: To ask the Secretary of State for Environment, Food and Rural Affairs on what date she expects to publish the draft National Allocation Plan for Phase 2 of the EU Emissions Trading Scheme. [43519]

Mr. Morley *[holding answer 19 January 2006]:* The Commission has recently published further guidance on the preparation of national allocation pla[illegible]NAPs) and member states' approaches to the second p[illegible] assessing the impact of the guidance on the dev[illegible] of policy options and on the overall phase 2 timetable, but intend to publish a draft policy NAP this spring.

Endangered Species

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many endangered species of plant and animal there are in the UK; and how much was directed at preventing them from extinction in each year since 2000. [43651]

Jim Knight: Based on World Conservation Union criteria, published UK Red Data Books and domestic species reviews there are currently 2,661 endangered species of plants and animals in the UK. Although annual data is not available, I can confirm that approximately £692 million has been spent, since 2000, to help prevent the extinction of these species in the UK.

Environmental Research Projects

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what funding the Government has provided in 2005–06 for environmental research projects. [42551]

Mr. Morley: Government spending on research into environmental matters comes from a range of sources. The Department's research budget is allocated to specific Directorate Generals, and within each budget there will be specific projects addressing questions about the environment. The allocated research spend for 2005–06 for the Department, by Directorate General, is as follows:

Directorate general	*£000*
Environment Protection	55,787
Science Economics and Statistics	9,659
Natural Resources and Rural Affairs	8,306
Sustainable Food, Farming and Fisheries	44,258
Animal Health and Welfare	38,831

In addition, the Natural Environment Research Council (NERC) is responsible for supporting basic, strategic and applied environmental research and related postgraduate training in the UK. The Department for Trade and Industry has allocated some £371 million to NERC for expenditure in 2005–06.

Finally, the Department for Trade and Industry also contributes funding directly to research with environmental objectives. Over the three years 2004–05 to 2006–07 £370 million is available for Collaborative Research and Development through the Department for Trade and Industry Technology Programme. Of this, £50 million—derived from the Department's BREW (Business Resource Efficiency and Waste) programme—is explicitly focused on resource efficiency and waste technologies.

In the 2005–06 period, DTI has committed £30 million to projects which will cover clean production, waste minimisation, design and manufacture of sustainable products and contaminated land assessment and remediation, and has also allocated £20 million to low carbon energy technologies.

DTI also provided funding for Grants for Research and Development, delivered through the Regional Development Agencies in the period 2005–06, which includes enabling environmental industries to successfully investigate environmental technologies, although it is not currently possible to separate out this expenditure.

EU Emissions Trading Scheme

Colin Challen: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the Government's domestic carbon dioxide target she expects to be met as a result of the EU Emissions Trading Scheme; and what methodology will be used to calculate the scheme's effects. [43518]

Mr. Morley: The Government are currently considering the total level of allowances (the cap) for the second phase of the EU Emissions Trading Scheme and the proportion that the scheme should contribute to the UK's 2010 carbon dioxide goal. An announcement will be made in due course.

The overall effect of the scheme may be determined by the level of effort (emissions reductions) asked of the trading sector, which is the difference between the cap and business as usual emissions projections.

Farmers (Qualifications/Migration)

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many farmers are *(a)* aged under 30 years, *(b)* hold degree level qualifications, *(c)* have moved to the UK after being farmers in another European country and *(d)* have moved to the UK after being farmers in another non-European country. [43708]

Jim Knight: The closest available information from the EC Farm Structure Survey indicates that:

(a) 3 per cent. of UK farm holders (approximately 9,000) in 2003 were aged under 35 years.

(b) 11 per cent. of UK farm holder managers (approximately 22,000) in 2000 (the latest year in which training questions were asked) had undertaken formal courses lasting two years or more.

Unfortunately we hold no data on holders moving to Britain from other European or non-European countries.

Notes:

1. The EC Farm Structure Survey is held across all member states of the European Union four times each decade, to assess the agricultural situation across the Community and to monitor trends in the structure of holdings.

2. The holder is defined as the (natural or legal) person in whose name the holding is operated. The holder can either own or rent the holding, be a hereditary long-term leaseholder, or a usufructuary or a trustee.

3. Holder managers are only those holders who manage the holding. Holders refers to all holders whether or not they are the manager of the holding.

Habitat Destruction

Joan Walley: To ask the Secretary of State for Environment, Food and Rural Affairs whether she plans to seek to insert a provision into the Natural Environment and Rural Communities Bill to increase the fines given for the illegal destruction of habitat; and if she will make a statement. [44247]

Jim Knight: There are no plans to introduce measures into the Natural Environment and Rural Communities Bill to increase the fines for offences involving the destruction of habitats.

However, the Bill does include measures that will help with effective enforcement action. Clause 52, for example, extends the time limits for bringing summary proceedings, including for offences that involve damage to sites of special scientific interest (SSSIs) . This will allow more time to secure sufficient evidence.

In addition, clause 54 introduces a new offence of intentionally or recklessly destroying or damaging the special interest features of a SSSI, or disturbing its fauna. This will not require proof that the offender knew the land involved had SSSI status and will therefore support more effective enforcement against damage to habitats in these sites where proving the state of knowledge of the offender can be difficult to achieve.

Habitats Directive

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs whether populations of *(a)* white-clawed crayfish, *(b)* medicinal leech, *(c)* pearl mussel, *(d)* large blue butterfly and *(e)* noble crayfish in the UK have Favourable Condition Status as defined by the EU Habitats Directive 1992. [44865]

Jim Knight: The concept and delivery of favourable conservation status is central to the implementation of the EU habitats directive. A broad definition of the term favourable conservation status is given in the habitats directive, but there remains a lack of clarity in the

interpretation of this term or the means by which to implement it. The European Commission plans to produce supplementary guidance later this year and the UK is supporting work to draft this guidance.

Member states are required to report on their implementation of the habitats directive every six years. The next report is required in 2007, and this will cover the period from 2000 to 2006. For the first time, this will also include reports on the conservation status of listed habitats and species.

The UK has already started work to gather and assess current status and then to assess whether it is favourable. No formal decisions have yet been made.

The Noble crayfish *Astracus astracus*, while listed in Annex V of the habitats directive, is not ordinarily resident in the UK. As it is an introduced species, the UK will not be reporting on the status of this species. Under section 14 of the Wildlife and Countryside Act 1981 as amended it is, in fact, an offence to release this species into the wild.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to minimise the length of time necessary for the identification of species potentially at risk and their addition to the EU Habitats Directive 1992; and if she will make a statement. [44869]

Jim Knight: The procedure for amending the annexes of the habitats directive is set out in Article 19 of the directive. The UK has not considered taking steps to alter the annexes through this procedure.

Horse Tethering

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs under what legislation action can be taken against those responsible for cruel tethering of horses; and if she will make a statement. [44396]

Mr. Bradshaw: The Protection Against Cruel Tethering Act 1988 created a specific offence under the Protection of Animals Act 1911 of causing unnecessary suffering to a horse, ass or mule by the manner or condition of its tethering. The maximum penalty for an offence under the 1911 Act is a fine of £5,000 or six months' imprisonment, or both.

The Animal Welfare Bill will introduce a positive duty to ensure the welfare of animals, and powers to act before an animal suffers.

Lynx

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs whether she has had discussions on the reintroduction of the lynx to the UK; and if she will make a statement. [43553]

Jim Knight: I have had no discussions on the reintroduction of the lynx in the UK. The release of animal species into the wild that are no longer native to Great Britain, such as the Eurasian lynx, is controlled by section 14 of the Wildlife and Countryside Act 1981.

Section 16 of the Act gives the Secretary of State powers to grant licences for releasing animals. However, these are only issued for soundly reasoned and specific purposes, supported by a detailed scientific risk assessment. Applicants who wish to submit proposals must also comply with international legislation and guidance.

Permission to re-introduce a species in England needs to be based on proper scientific evidence. And it would only be granted after proper consultation with the public.

Oil Spills

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many significant oil spills there were in UK waters in the last seven years; where each took place; and how much oil was estimated to have been discharged in each case. [43654]

Mr. Morley: On behalf of the Maritime and Coastguard Agency (MCA), the Advisory Committee on the Protection of the Sea (ACOPS) conduct annual surveys of reported discharges attributed to vessels and offshore oil and gas installations operating in the United Kingdom pollution control zone. Annual reports for the years 1999 to 2004 are available on the MCA and ACOPS internet sites as follows. The report for 2005 is not yet available.

http://www.mcga.gov.uk/c4mca/mcga-environmental/mcga-dops_cp_environmental-counter-pollution.htm

http://www.acops.org/UK_Survey.htm.

Information on oil pollution from other sources from 2002 to 2005 is available from the Environment Agency's incident recording system. 73 category 1 (the most serious) oil pollution incidents were recorded over this period. I am arranging for details to be placed in the Library, where the Environment Agency's pollution incident reports for the years 2000 and before can also be found.

Paper Usage

Stephen Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what policy her Department has on minimising *(a)* waste paper and *(b)* paper usage within her Department. [42733]

Jim Knight: All DEFRA sites monitor the amount of waste generated. An annual target of at least 1 per cent. reduction in waste generated is incorporated in site-based Environmental Management Systems. Particular attention is given to paper use and paper waste, which forms a significant proportion of departmental waste. A number of strategies are in place to achieve reductions in paper use and waste, including increasing internet-based and electronic publication of documents, and improved printer efficiency.

Pesticides

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many farmers were found to be using banned pesticides in the last five years. [43704]

Mr. Morley: Between 2001 and 2005 two farmers were successfully prosecuted for using a pesticide which was not approved for that use.

PR Companies

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the public relations companies that have had contracts with *(a)* her Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which her Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by her Department and other such organisations since May 1997. [39075]

Jim Knight: The Department came into being in July 2001.

The Communications Directorate of Defra has no formal contract with public relation companies and uses the Central Office of Communications when such services are required.

For the level of expenditure on these services commissioned through the Communications Directorate of Defra I refer the hon. Member to the answer I gave him on 19 December 2005, *Official Report*, column 2385W.

Information on contracts for each of the Department's non-departmental public bodies, executive agencies, independent statutory bodies, organisations and bodies financially sponsored by the Department is not held centrally and could be provided only at disproportionate cost.

Radioactively Contaminated Land

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs what opportunities interested institutions and individuals will have to comment on the draft radioactively contaminated land exposure assessment. [43912]

Mr. Morley: Interested stakeholders have had two opportunities to comment on the proposals. The first, which covered the overall scope and approach of RCLEA, was held between May and June 2005. The second covering the ease with which the RCLEA methodology can be understood and applied is currently underway and is available on the Defra website.

Red Kite/Great Bustard

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made on the reintroduction of *(a)* the Red Kite and *(b)* the Great Bustard; and what the Government's contribution to these projects has been to date. [43727]

Jim Knight: The Red Kite Reintroduction Programme has involved the release of 292 young red kites in four separate areas of England between 1989 and 2005. It has been a great success with breeding populations now well established in three different areas; in 2005 an estimated 385 pairs were breeding in these areas. Similar work has been carried out in Scotland as part of the same programme and breeding populations have now been established at three Scottish sites; in 2005 there were an estimated 75 breeding pairs.

English Nature and RSPB coordinate work on the Reintroduction Programme in England, working with a range of different partners in each of the release areas. Much of the funding is provided by external partners and sources such as the Heritage Lottery Fund and the Landfill Tax Credits Scheme. English Nature has contributed approximately £20,000 per year to the programme, as well as providing considerable staff time for those involved in the work. Gateshead council has committed £250,000 over five years for the Northern Kites project. And the Forestry Commission is a key partner in two of the projects in England, providing staff time for educational work and for monitoring birds.

The Great Bustard Reintroduction Project has involved the release of 54 birds on Salisbury Plain since 2004. Of these, 27 were known to be surviving in the wild as of October last year. The fate of a further three birds was unknown (although they were assumed to be alive and living wild).

The Great Bustard Project is run by a private consortium made up of a group of dedicated enthusiasts and the University of Stirling. The Department contributed an initial £10,000, but the rest of the funding is provided by private sponsorship and from the "Sustain The Plain" LEADER + project.

Regulation, Evaluation and Authorisation of Chemicals Directive

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what measures will be in place under the Regulation, Evaluation and Authorisation of Chemicals Directive to monitor chemicals contained in products imported from outside the EU; and whether imported products which contain one of the substances defined by the Commission as being 'of very high concern' will be banned from sale; [42691]

(2) what methods the European Chemicals Agency will use to determine which of the chemicals covered by the Regulation, Evaluation and Authorisation of Chemicals Directive will need to be tested; and what input national Governments will have in this procedure; [42694]

(3) what safety data chemical manufacturers will need to supply under the Regulation, Evaluation and Authorisation of Chemicals Directive: [42693]

(4) how consumers will be informed about the relative safety of chemical products once the Regulation, Evaluation and Authorisation of Chemicals Directive comes into force. [42695]

Mr. Morley: On 13 December 2005 the UK presidency achieved political agreement on the proposed Regulation on the Registration, Evaluation and Authorisation of Chemicals (REACH). Based on the agreed text, substances imported in articles (i.e. finished products) only require registration if the substances are intended to be released from articles and where they are present above one tonne. Otherwise importers need to notify the authorities only if the article contains a substance of very high concern. The agency may request the registration of any substance in an article if it poses a risk to human health or the environment. The UK Government will appoint a competent authority

who will be responsible for the monitoring and enforcement of these provisions in conjunction with other UK bodies as appropriate.

All substances manufactured or imported into the EU above one tonne will have to register with the European Chemicals Agency. The registration of a substance involves the submission of a technical dossier of information about the chemical including a testing package. The testing requirements are outlined in Annexes IV to IX of the regulation. To avoid duplicate testing and minimise the cost to industry, sharing of animal test data is mandatory. To simplify the system, the sharing of non animal data has been made mandatory if requested by a potential registrant. Reduced registration requirements apply to substances manufactured below 10 tonnes. Only substances meeting one of the criteria in Annex Ic need to provide the full testing package outlined in Annex V of the regulation. It will be up to companies to identify whether a substance meets these criteria. A key part of the REACH proposal is that the onus is placed on industry (not the European Chemicals Agency or national Government) to identify the appropriate registration requirements and any additional testing that is required. Guidance will be available and a national help desk will be set up to assist industry in meeting these requirements. In addition, the UK competent authority could, under contract to the agency, conduct dossier evaluations to assess the testing proposals submitted.

For substances supplied in quantities over 10 tonnes, the registration package also requires the submission of a chemical safety report. This is a risk assessment in which the registrant takes into account the risk management measures required for the safe handling of the chemical. Details of these requirements are found in Annex I of the regulation.

To inform consumers and the public, basic data held by the European Chemicals Agency about a registered substance, such as its classification and labelling, the results of environmental and health impact studies and guidance on the safe use of a substance, will be made publicly available over the internet. The UK will also explore other approaches through other consumer information services such as Environment Direct.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what regulatory impact assessments the Government has commissioned for the Regulation, Evaluation and Authorisation of Chemicals Directive; [42692]

(2) what estimates she has made of the overall cost in the UK of implementing the Regulation, Evaluation and Authorisation of Chemicals Directive; who will bear the costs; how she expects they will be met; and what assessment she has made of whether there will be a cost to UK industry in terms of competitiveness. [42696]

Mr. Morley: Within the UK, the draft regulation on the Registration, Evaluation and Authorisation of Chemicals (REACH) was subject to a partial regulatory impact assessment in 2004 which estimated the direct cost to UK industry to be in the region of £515 million over the 11 year implementation period. A further impact assessment was carried out in 2005, which examined the indirect impacts for some downstream sectors. This concluded that the potential annual costs of REACH to the sectors studied were relatively low under most of the scenarios examined, with only worst case assumptions giving rise to significant costs.

One of the factors limiting the costs of REACH in the case studies is the large volume of information already available for a significant number of the bulk chemicals acting as inputs to the manufacturing process.

Across the EU, REACH has been subject to over 50 regulatory impact assessments. This includes the European Commission's extended impact assessment of October 2003, which estimated that changes made to its draft proposals could save up to €10.6 billion (around £7.5 billion). The Commission also carried out a further impact assessment in 2005 in partnership with industry, trade unions, consumer and environmental organisations.

The considerable amount of work carried out in assessing the impact of the REACH proposals has been invaluable in determining costs and benefits, and in informing the negotiations.

On 13 December 2005 the UK presidency achieved political agreement on a REACH text. This includes a number of measures aimed to reduce the cost of REACH-such as 'one substance, one registration', reduced registration requirements for substances manufactured or imported in quantities less than 10 tonnes and the removal of an expensive test in the 10–100 tonnage band. The UK Government will update its impact assessment to reflect the changes made in the agreed text. An updated impact assessment is expected in 2006.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the change in the number of animals across the EU each year which will be required for animal testing when the Regulation, Evaluation and Authorisation of Chemicals Directive comes into force; and what steps have been taken to reduce the numbers of animals required for testing via *(a)* alternative methods of testing and *(b)* data sharing. [42697]

Mr. Morley: There have been no estimates made of the number of animals required for testing per year across the EU when the Registration, Evaluation and Authorisation of Chemicals (REACH) Regulation comes into force, not least since it is not possible to predict in advance the precise timing of any testing carried out by or for registrants. The total number of additional test animals needed as a consequence of the introduction of the regulation has been estimated by the Commission at £3.9 million based on the Commission's original proposal. The text of the Political Agreement of December 2005 goes further still in minimising the amount of animal testing required, for example through the incorporation of "One Substance, One Regulation" (OSOR), a UK proposal with strong rules on the mandatory sharing of animal test data by companies.

The Commission's interim strategy during the implementation stages of REACH will focus on developing guidance, through REACH Implementation Projects (RIPs), on information requirements on intrinsic properties of substances, aiming in particular at developing integrated testing strategies based on

alternative methods of testing which will allow the minimum use of test animals. The RIPs are supported by the UK in providing expertise to the RIP project teams and by funding specific research into developing alternative methods.

Roman Snail

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate her Department has made of the number of roman snail (helix pomatia) in the UK; and what measures have been taken to prevent further depletion of their numbers by collectors for the restaurant trade. [44867]

Jim Knight: The roman snail is a non-native species to the UK. However, we recognise that as European populations have been reduced, the British population may be important in terms of conservation of the species as a whole.

In southern England, for example, the species remains quite common in many parts of the chalk downs. But there are some areas where commercial collecting for the restaurant trade is a problem.

The Conchological Society of Great Britain and Ireland has put the roman snail forward for inclusion in the UK Biodiversity Action Plan (BAP) as part of the on-going review of listed species. A decision is expected later this year. The BAP provides a framework to monitor, health check and safeguard important species and habitats.

Snares

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what testing of snares for catching wildlife her Department is carrying out; and what trials are planned. [41514]

Jim Knight: A new snares code of practice was launched on 19 October, with a strong emphasis on animal welfare when people are considering their use.

The new code is an important step forward in improving the use of snares. It provides important guidance to ensure that snares are only used where necessary, and that welfare considerations are properly weighed against the benefits of snaring.

In addition, Defra is continuing its work to develop increasingly humane and non-lethal methods of pest control, and considering research to assess snares against the standards set out in the proposed Humane Trapping Standards Directive.

Defra's only current testing or research into snares for catching wildlife is research into restraining badgers using body snares. The aim of this is to inform a decision on culling methods that would be both effective and humane if we were to decide that culling of badgers was needed. No decisions on whether or not to cull badgers will be made until after the consultation on "Controlling the spread of bovine tuberculosis in cattle in high incidence areas in England: badger culling" closes on 10 March 2006. Further details can be found at: http://www.defra.gov.ukcorporate/consult/badgers-tbcontrols/index.htm

UN Environment Programme (Nairobi)

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs which *(a)* Ministers and *(b)* Departmental officials will attend the special trades union assembly of the United Nations environment programme in Nairobi from 14 to 17 January; and if she will place in the Library copies of the United Kingdom submissions to this assembly. [41538]

Mr. Morley: The UK was represented by the UK's Deputy Permanent Representative to the United Nations Environment Programme (based at the British High Commission, Nairobi). No UK Ministers attended this event. The UK did not make any submissions to the Assembly. The Assembly agreed a 'Framework for Action', which will be available on the Assembly's website: http://www.will2006.org/assembly.php

Warm Front

Mr. Malik: To ask the Secretary of State for Environment, Food and Rural Affairs how many pensioner households in Dewsbury constituency are eligible for *(a)* Warm Front grants to install energy efficient measures and *(b)* (i) free and (ii) reduced cost installation of central heating systems. [43178]

Mr. Morley: Detailed information on the number of pensioner households in the Dewsbury constituency eligible for either *(a)* a Warm Front Grant or *(b)* (i) free and (ii) reduced cost installation of central heating systems is not available.

Warm Front provides a range of heating and insulation measures to householders in receipt of certain qualifying benefits, up to a grant maximum of £2,700 (£4,000 where oil central heating is recommended). For full qualification criteria and more information about the Scheme, please visit www.eaga.co.uk.

Delivery arrangements for the support announced in the pre-Budget report of a £300 contribution towards the cost of a central heating system, for pensioner households not eligible for the Warm Front Scheme, are being developed and finalised. Further details will be announced in the coming months.

Mr. Jenkins: To ask the Secretary of State for Environment, Food and Rural Affairs how many pensioner households in the Tamworth constituency are eligible for *(a)* warm front grants to install energy efficiency measures and *(b)* (i) free and (ii) reduced cost installation of central heating systems. [43465]

Mr. Morley: Detailed information on the number of pensioner households in the Tamworth constituency eligible for either *(a)* a warm front grant or *(b)* (i) free and (ii) reduced cost installation of central heating systems is not available.

Warm front provides a range of heating and insulation measures to householders in receipt of certain qualifying benefits, up to a grant maximum of £2,700 (£4,000 where oil central heating is recommended). For full qualification criteria and more information about the scheme, please visit www.eaga.co.uk.

Delivery arrangements for the support announced in the pre-Budget report of a £300 contribution towards the cost of a central heating system, for pensioner households not eligible for the warm front scheme, are being developed and finalised. Further details will be announced in the coming months.

Waste Heat (Capture)

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to encourage the capture of waste heat to be fed into district heating systems; what percentage of such heat was captured in this way in the last period for which figures are available; and if she will make a statement. [44787]

Mr. Morley *[holding answer 23 January 2006]:* Defra's key support for district heating is through the Community Energy programme, which has encouraged and supported innovative schemes. This includes four schemes that will capture an estimated 20,000 megawatt hours of waste heat per annum. This cannot be expressed in percentage terms as we do not collect figures on the total amount of heat wasted. The Carbon Trust has launched Project Bolt to examine the potential for the commercialisation of projects linking providers and purchasers of waste heat.

Wildlife Crime

Joan Walley: To ask the Secretary of State for Environment, Food and Rural Affairs (1) which UK-based internet service providers (ISPs) the National Wildlife Crime Intelligence Unit has been working with; when discussions have taken place between the Unit and ISPs; and which of the ISPs have made commitments to combat the illegal trade in endangered species as a consequence of such discussions; [44245]

(2) what commitment eBay has made to the National Wildlife Crime Intelligence Unit to combat the illegal trade in endangered species on its website. [44246]

Jim Knight: I refer the hon. Member to the answer given on 16 January 2006 *Official Report*, column 907W.

INTERNATIONAL DEVELOPMENT

Departmental Expenditure

Mr. Francois: To ask the Secretary of State for International Development how much has been spent in each year since 1997 by his Department on salaries paid to civil servants. [41591]

Mr. Thomas: Prior to 2005, DFID outsourced its payroll function to the Pay and Personnel Agency, part of the Ministry of Defence (MOD). We do not therefore readily hold information down to the level requested and to give the figures for spend on salaries as requested would therefore incur disproportionate costs.

We do hold information from 1999 onwards on "Staff Costs" which we report against in our resource accounts. These costs include salary and allowances paid to civil servants, contract staff and staff employed overseas:

	Staff costs (excluding social security costs) (£000)	*Percentage of total budget*
1999–2000	35,440	1.60
2000–01	37,452	1.48
2001–02	38,649	1.57
2002–03	51,896	1.86
2003–04[1]	70,440	2.45
2004–05[1]	79,643	2.44

[1] Excludes other pension costs

Pension Costs

Pete Wishart: To ask the Secretary of State for International Development what the cost was of pension contributions incurred by *(a)* his Department and *(b)* each (i) non-departmental public body, (ii) Executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [40002]

Mr. Thomas: The cost of pension contributions incurred by the Department for International Development is as follows:

£

Financial year	*Total employers contributions (ASLCs) paid to the PCSPS (Classic, Classic plus, Premium)*	*Total employers partnership contributions paid to the partnership providers (Scottish Widows, Standard Life, TUC)*	*Employers contributions to the PCSPS to cover death in service and ill health benefits of partnership optants (0.8 per cent.)*
2002–03	6,803,325.89	[1]0	[1]0
2003–04	7,673,693.84	33,332.12	2,099.49
2004–05	8,506,262.87	117,729.30	6,482.41
2005–06[2]	12,045,756.00	129,397.32	8,807.88

[1] DFID's first partnership option was made in May 2003, therefore no partnership contributions were made during 2002–03. There are only 30 members of the Partnership Pension Scheme. The figures in column four are payments to the Civil Superannuation Vote in respect of risk relating to death in service ill health benefits for the Partnership Pension Scheme.
[2] Projected figures.

For 2005–06, employers' contributions are payable to the Principal Civil Service Pension Scheme (PCSPS) at one of four rates in the ranges 16.2 to 24.6 per cent. of pensionable pay, based on salary bands. The scheme actuary reviews employer contributions every four years following a full scheme valuation; last carried out as at 31 March 2003. The contribution rates reflect the cost of benefits as they accrue (net of employee contributions), not the costs as they are actually incurred, and reflect past experience of the scheme.

My right hon. Friend the Secretary of State for International Development is not responsible for any non-departmental public bodies, Executive agencies or any other public body.

SOLICITOR-GENERAL

Jo Martinson

Mr. Amess: To ask the Solicitor-General if he will take steps to ensure disciplinary action is taken against those in the Crown Prosecution Service responsible for the failure to bring to court the case of the death of Jo Martinson. [44394]

The Solicitor-General: This case has been the subject of previous correspondence between the Director of Public Prosecutions and the hon. Member. The Crown Prosecution Service considers that the case referred to was handled appropriately, and therefore, the question of disciplinary action does not arise.

CULTURE, MEDIA AND SPORT

Arts Schemes

John Battle: To ask the Secretary of State for Culture, Media and Sport what publicly-funded support is being provided to schemes to promote Islamic talent in the arts; and if she will make a statement. [44436]

Mr. Lammy: Arts Council England does not make funding decisions based on an applicant's religion. It funds artistic practice according to strategic priorities and on the basis of artistic merit. However, it may fund artists for whom Islam happens to be a part of their artistic inspiration. The Arts Council has supported an extremely diverse range of young artists, some of which are Islamic, through an inclusive approach.

One of the Arts Council's priorities is to encourage funding applications from people from a diverse range of backgrounds, and in many regions it is, where possible, facilitating community programmes and encouraging artists to apply for funds through the Grants for the Arts (GfA) programme.

There are some excellent case studies such as the West Midlands artist called Mohammed Ali. Mohammed received a GfA grant of just under £10,000 to undertake an exhibition of art work in Dubai titled Salam in the City. This exhibition is to be held late February/early March 2006.

Ulfah Arts has also received a GfA award of around £13,000 to support the development of their organisation, which encourages increased engagement in the arts for women across all faith groups but with a particular focus on Islam.

Pillars of Light, a year long programme across the Yorkshire and Humber region, aims to explore interactions between Muslim cultures and other cultures, within the context of their heritage and contemporary reality. Events throughout 2006 will focus on the visual arts, literature, film, music and theatre. Pillars of Light is being funded through Yorkshire's 'Illuminate' Urban Cultural programme, which is in turn being funded through the Arts Council and the Millennium Commission. Alchemy Anew, an Islamic Arts charity funded directly by the Arts Council, is coordinating it. Sheffield Galleries and Museums Trust are one of the key participating organisations in Pillars of Light and are currently hosting the "Palace and Mosque" exhibition on loan from the V&A museum.

Another exciting project is the innovative and ambitious new cultural building being created by Rich Mix to serve London's many communities. The building work is currently underway in Tower Hamlets, which is one of the most deprived areas in the country and has 48 per cent. ethnic minority population, the majority of which is Bangladeshi and Muslim. Rich Mix, due to open in spring 2006, combines workshop and performance spaces, managed workspaces for creative industries, training and education spaces and houses a three screen cinema. Rich Mix has raised £23 million from funders, including the Arts Council and the London Development Agency.

John Battle: To ask the Secretary of State for Culture, Media and Sport what publicly-funded support is being provided to schemes to promote young Asian talent in the arts; and if she will make a statement. [44437]

Mr. Lammy: There is an enormous amount of work going on in the arts sector that helps to promote young Asian talent. The Arts Council has not delivered programmes specifically for the benefit of talented young artists from any particular religion or ethnicity, but has supported an extremely diverse range of young artists through an inclusive approach. One of its priorities is to encourage funding applications from people from a range of backgrounds. In many regions it is, where possible, facilitating community programmes and encouraging artists to apply for funds through the Grants for the Arts (GfA) programme. Furthermore, schemes such as Creative Partnerships and the Arts Award reach many young Asian people.

The innovative and ambitious new cultural building being created by Rich Mix will serve London's many communities. The building work is currently underway in Tower Hamlets, which is one of the most deprived areas in the country and has 48 per cent. ethnic minority population, the majority of which is Bangladeshi. Rich Mix, due to open in spring 2006, combines workshop and performance spaces, managed workspaces for creative industries, training and education spaces and houses a three screen cinema. Rich Mix has raised £23 million from funders, including the Arts Council and the London Development Agency.

Another exciting project is the Bernie Grant Centre, which is currently being built in Tottenham, North London. A £14 million funding package including £6 million from the Millennium Commission and £3.5 million from London Development Agency has been awarded to transform the former Tottenham swimming baths into a major performance and education centre fostering and showcasing local and

national artistic talent. Black and minority ethnic communities in particular will benefit from the training and business prospects that the Bernie Grant Centre will bring.

The Inspire Fellowship programme is an initiative devised by the Arts Council in order to address the under-representation of Black African, Caribbean, Chinese, South Asian and south-east Asian curators in the museums and galleries sector. Successful candidates receive high quality training and a bursary of £30,000 to £42,000 (depending on experience) over a two year period.

There are numerous examples of projects funded by the Arts Council that promote young Asian talent in all of the art forms. For example, Decibel Performing Arts Showcases is a programme aimed at significantly developing diversity in the arts in England and seeks to increase the profile of culturally diverse arts practice. The 2007 showcase will be held in Birmingham.

Examples of music organisations which are funded by the Arts Council, and are dedicated to working with Asian young people include, Asian Dub Foundation, SAMPAD (a South Asian Arts development agency), South Asian Arts UK, Milap Festival Trust and The National South Asian Youth Orchestra.

Arts Council England regularly funds South Asian dance companies Shobana Jeyasingh and Akram Khan, and a number of others such as Angika, Sankalpam and Mavin Khoo on a project basis. These companies provide essential role models and beacons of aspiration for young Asian talent All these companies provide education and outreach work. The Arts Council also funds the South Asian dance website, SADA, and the magazine, PULSE.

There are Asian visual artists in the Arts Council Collection (i.e. Sutapa Biswas, Chila Burman, Zarina Bhimji) and the work of Asian artists is promoted through funding for publications such as Third Text. The Arts Council also established the Institute of International Visual Artists, (inIVA) London in 1994 to take forward the advocacy and support of culturally diverse artists, especially artists of the diaspora.

In addition to receiving funding through GfA, Asian writers receive funding through the International Fellowships programme. An example is Nadeem Aslam who was a recent International Fellow at the Santa Maddalena Centre in Italy. The Arts Council also run the Positive Action Traineeships—placing young people from black, Asian and Chinese backgrounds in publishing houses to gain experience of the industry over a year/six months. Two out of five current trainees are of Asian background.

BBC (Transmitter Sale)

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport how much revenue the BBC received from the sale of its transmitters. [45000]

Mr. Caborn: The BBC sold its Home Service Transmission business in 1997 to Castle Transmission Services. The price agreed for the business was £244 million.

EDUCATION AND SKILLS

Apprenticeships

Mr. Hoban: To ask the Secretary of State for Education and Skills (1) what criteria must be satisfied before the Learning and Skills Council fund a national industry-specific apprenticeship scheme; [44268]

(2) what duty there is on local learning and skills councils to work together to support an apprenticeship scheme which operates in different parts of the country but is not supported by the Learning and Skills Council nationally. [44661]

Phil Hope *[holding answer 23 January 2006]:* The Learning and Skills Council (LSC) only funds apprenticeship programmes that use a framework approved through a process managed by the Sector Skills Development Agency. The learning provider must also meet the LSC quality criteria. Funding is routed either through the LSC's local offices or its National Employer Service (NES) which awards national contracts for large multi-site employers. The basic criteria for awarding of a NES contract are that the business has 5,000 or more employees and that it is has the capacity to deliver at least 200 learner places. Programmes delivered through national contracts can cover a single apprenticeship or industry framework, or a number of them. Around a quarter of apprenticeships are covered by NES contracts.

Where an employer or learning provider does not meet the criteria for a contract with the NES but does operate across local LSC boundaries alternative simplified contracting arrangements should apply. These can include a contract with a lead local LSC to cover one of the nine LSC regions or where a provider is multi-regional a national lead can be designated.

Business Involvement (Schools)

Mr. Jenkins: To ask the Secretary of State for Education and Skills what steps she is taking to encourage the involvement of local business in schools in Staffordshire; and if she will make a statement. [43471]

Phil Hope: We have allocated £25 million a year to the Learning and Skills Council (LSC) since 2002–03 to support a range of school business links activities, including in Staffordshire. These include professional development placements for teachers, work experience and mentoring for young people, and enterprise activities. Nationally there are 300,000 employers working with schools. The local Staffordshire Education Business Partnership is called 'Business and Education Together Ltd'.

Child Care

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what percentage of those working in child care were qualified at NVQ levels *(a)* 2, *(b)* 3, *(c)* 4 and *(d)* 5 in each year for which figures are available. [43807]

Beverley Hughes: Figures are available for 2001 and 2002/03 and are taken from the Childcare and Early Years Workforce surveys for those years. The information collected for the surveys did not distinguish between NVQ levels 4 and 5.

Percentage

	NVQ level 2	3	4/5
2001	11.8	42.0	9.3
2002/03	8.3	50	10.8

Note:
These average percentages are based on percentage estimates of the distribution of qualifications across workers in the four main types of child care setting: full day care, playgroups, child minders and sessional care.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills how many *(a)* men and *(b)* women were working in child care in each year since 1997. [43808]

Beverley Hughes: Since 1997 we have published three surveys of the child care work force. The gender split of the work force in the three surveys is as follows:

	Men	Women
1998	4,400	234,100
2001	6,200	268,300
2002/03	5,900	273,200

As the figures show, the child care work force continues to be predominantly female, with women making up some 98 per cent. of the work force in 2002/03.

Children's Centres

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills what assessment she *(a)* has made and *(b)* plans to make of the effectiveness of children's centres; and if she will make a statement. [43789]

Beverley Hughes: In spring 2006 we will publish guidance which will advise local authorities how we plan to measure the quality and effectiveness of children's centres.

In addition, a comprehensive evaluation of children's centres is planned to begin in 2006. It is likely the evaluation will look at the implementation and cost effectiveness of children's centres as well as assess their impact on child and family outcomes over the short, medium and long term.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills (1) which *(a)* private *(b)* voluntary and *(c)* public sector organisations have delivered services in children's centres in each year for which information is available; [43791]

(2) in which constituencies children's centres are located; [43794]

(3) what targets she has set for expanding the number of children's centres; and what progress has been made towards meeting those targets. [43796]

Beverley Hughes: My Department does not collect information on the location of children's centres by constituency. The Department does, however, have a list of designated Sure Start Children's Centres in each local authority and a copy has been placed in the Library of the House.

Our target is to establish 2,500 Sure Start Children's Centres by March 2008 and 3,500 by March 2010, representing one for every community. At present there are 466 designated Sure Start Children's Centres.

A range of private, voluntary and public sector organisations deliver services for children's centres, but information on each is not collected centrally.

Construction Apprentices

Mr. Spellar: To ask the Secretary of State for Education and Skills how many construction apprentices there are in England, broken down by trade. [40779]

Phil Hope: We do not hold information in the form requested. However, the Learning and Skills Council (LSC) have calculated statistics on the total numbers of learners on apprenticeships overall and in construction in particular. In 2004/05[1] a total of 411.2 thousand learners were funded by the LSC on apprenticeships, of which 95.9 thousand were classified as construction area-of-learning (AOL) from a total of 14 categories.

Alternatively apprenticeships can be recorded in terms of the average number of learners over the year or at particular points in the year. For apprenticeships overall in 2004/05 the average number of learners on apprenticeships was 255.8 thousand, with a total number in learning in July 2005 of 252.3 thousand. More detail on the apprenticeship frameworks (of which there are currently over 100 and growing) pursued by the 252.3 thousand learners in July 2005 is published by the LSC on the internet via:

http://www.apprenticeships.org.uk/partners/frameworks/apprenticeshipsdata/

[1] From 1 August 2004 to 21 July 2005.

Degrees

Mr. Hayes: To ask the Secretary of State for Education and Skills what representations she has received from business on the irrelevance to employment of certain degree subjects; and if she will make a statement. [43076]

Bill Rammell: A search of my Department's correspondence database has identified no such representations from business. However, I can confirm that my Department does have frequent and open dialogue with employers, business representatives and higher education institutions to ensure better alignment of the supply of higher level knowledge and skills with business needs. This is being achieved through the promotion of greater collaboration between business and higher education institutions. Sector skills councils, working with lifelong learning networks and organisations like Foundation Degree Forward, the HE Academy and regional development agencies—have been set up to ensure their business needs are being met.

Enterprise and Entrepreneurism

Mr. Jenkins: To ask the Secretary of State for Education and Skills what steps she is taking to expand the teaching of enterprise and entrepreneurism in schools in Staffordshire; and if she will make a statement. [43470]

Phil Hope: The Department has allocated £60 million a year for the three academic years from September 2005 to support a new focus on enterprise education in all secondary schools in England. Fair Oak High School and Walton High School in Staffordshire were among the 700 schools which participated in our Enterprise Education Pathfinder programme that looked at various ways of delivering enterprise education and helped to produce our national guidance on enterprise education. The guidance is available at www.teachernet.gov.uk/enterpriseeducation to support other schools in developing and improving their own practice. The Department is deciding with key partners how to offer further support to schools in the coming year.

Free School Milk

Daniel Kawczynski: To ask the Secretary of State for Education and Skills if she will assess the merits of supplying free milk to secondary schools. [44908]

Jacqui Smith: We have no plans to assess the current availability of free milk in secondary schools.

There is no statutory requirement for milk to be provided in local authority maintained schools. It is a matter for local authorities and schools to decide. However, where a local authority provides milk, it must be free to pupils whose parents are in receipt of the following support payments: income support; income based jobseekers' allowance; support under part VI of the Immigration and Asylum Act 1999; child tax credit, provided that they are not entitled to working tax credit, and have an annual income (as assessed by Her Majesty's Revenue and Customs) that from 6 April 2005 does not exceed £13,910; or the guarantee element of state pension credit. In addition, children who receive income support or income based jobseekers' allowance in their own right are entitled to free school milk where it is provided.

We acknowledge that milk can provide a valuable contribution to a balanced diet as well as being a healthier alternative to soft drinks. We plan to launch a suite of new nutritional standards for school food later in the spring, which will stipulate water, fruit juices and milk as the only available drinks in schools. The new standards will take into account appropriate levels of daily nutrient intake, including calcium.

Medical Students

Dr. Gibson: To ask the Secretary of State for Education and Skills what estimate she has made of the number of applicants to study medicine in each of the last five years. [37917]

Bill Rammell *[holding answer 14 December 2005]:* The latest available information is given in the table.

UK domiciled applicants to pre-clinical medicine at UK HE institutions

Year of entry	*Applicants*
2001	8,130
2002	9,498
2003	11,920
2004	14,275
2005	15,637

Source:
Universities and Colleges Admissions Service (UCAS).

Home Tutors

James Duddridge: To ask the Secretary of State for Education and Skills what security checks an individual must pass through before working as a home tutor. [44285]

Ruth Kelly *[holding answer 20 January 2006]:* Individuals working as self employed home tutors are not able independently to obtain a Criminal Records Bureau disclosure as the application must be signed by a person who is entitled to ask an exempted question in relation to the Rehabilitation of Offenders Act.

The Department strongly advises parents to check the background of home tutors by requesting references and checking a tutor's registration with the relevant General Teaching Council. Parents are also advised to make appropriate arrangements for a child who is receiving home tuition, for example having an adult present.

The Department is fully aware that parents have limited access to information. The new scheme to be implemented as part of the Bichard inquiry recommendations will allow parents to check whether an individual they wish to employ to work with their children, e.g. as a home tutor, is barred.

Indoor Airborne Chemicals

Mr. Davey: To ask the Secretary of State for Education and Skills what research her Department has commissioned on the *(a)* quality and *(b)* type of indoor airborne chemicals in state primary schools. [43191]

Jacqui Smith: The Department has not commissioned any research examining the quality or type of indoor air chemicals in state primary schools.

Lifelong Learning

Dr. Francis: To ask the Secretary of State for Education and Skills what research the Government will *(a)* undertake and *(b)* commission to assess the selective effectiveness of measures to promote wider participation in lifelong learning in England. [43740]

Bill Rammell: The Department's research plans fully incorporate how effectively our policies widen participation in learning, especially in areas of 14 to 19 education, adult skills, and HE. Key policies aimed at increasing and widening participation in lifelong learning are subject to detailed evaluation to establish their effectiveness and to improve their delivery.

For example, in the context of widening participation in HE, Aimhigher is subject to a comprehensive evaluation strategy, organised in partnership with HEFCE and the LSC. It includes surveys of young people, educational providers and Aimhigher partnerships, all conducted by independent research organisations. The evaluation seeks to identify what works, and to use this to inform further policy development and delivery.

In the context of increasing participation in lifelong learning, the evaluation of the Employer Training Pilots uses a wide range of qualitative and quantitative techniques to assess their effectiveness including; surveys of participating employers and employees (early

and follow-up), ETP providers, case studies of LLSCs and all key stakeholders, quantitative random surveys of employers, and surveys of eligible employees.

Other examples include the evaluations of the Union Learning Fund, IAG, and the Adult Learning Grant. Full details of the Department's research programme is available at the "Research and Statistics Gateway" on the DfES website, including copies of completed and published research.

The Department will continue to assess the effectiveness of its policies aimed at widening participation and to share best practice among our partners in delivery.

National Foundation for Educational Research

Tim Farron: To ask the Secretary of State for Education and Skills by what process the decision to commission and fund the National Foundation for Educational Research to conduct a trial of the US SAT test was taken; and what other assessments were considered for funded research. [43377]

Bill Rammell *[holding answer 19 January 2006]:* The research project into the validity of the use of the US-style SAT in university admissions was presented to the Department jointly by the Sutton Trust and the National Foundation for Educational Research (NFER). The independent review of admissions to higher education (HE) chaired by Professor Steven Schwartz recommended in 2004 a research study to assess the idea of a national test of potential for HE. It noted that US-style SATs were worth exploring, alongside other possibilities, and welcomed the Sutton Trust's proposals for an operational pilot. Following the Department's standard procedures for the approval of research proposed and initiated by external organisations, a decision was taken to contribute up to £800,000 over the length of the five year study. The Sutton Trust, NFER and the College Board in America which owns the SAT, are also making significant contributions. The research will go further than assessing the effectiveness of SATs—it will also provide valuable data to assess how pastoral support and teaching methods affect student retention and progression. The Department has received no other formal costed proposals to fund research into other forms of assessment of potential for HE.

School Finance

Mr. Keetch: To ask the Secretary of State for Education and Skills what the annual funding per pupil has been in *(a)* Hereford and *(b)* Leominster constituencies in each year since 1997. [44616]

Jacqui Smith: The Department does not collect information on school funding at constituency level. It only collects funding information at the local authority level. The figures for total funding increases in Herefordshire for pupils aged 3–19 in real terms since 1997 are shown in the table.

Herefordshire: Total revenue funding per pupil aged 3–19[1]

	£ *Funding per pupil*
1997–98	2,880
1998–99	2,910
1999–2000	3,040
2000–01	3,270
2001–02	3,380
2002–03	3,470
2003–04	3,640
2004–05	3,790
2005–06	3,970

[1] Real terms, excluding the pensions transfer to Education Formula Spending and the Learning and Skills Council.

Notes:

1. Price Base: Real terms at 2004–05 prices, based on GDP deflators as at 23 December 2005.

2. Figures reflect relevant sub-blocks of Standard Spending Assessment / Education Formula Spending (EFS) settlements and exclude the pensions transfer to EFS and LSC.

3. Total funding also includes all revenue grants in DfES Departmental Expenditure Limits relevant to pupils aged 3–19 and exclude education maintenance allowances (EMAs) and grants not allocated at LEA level.

4. The pupil numbers used to convert £ million figures to per pupil are those underlying the SSA/EFS settlement calculations plus PLASC 3-year-old maintained pupils and estimated 3 to 4-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.

5. Rounding: Figures are rounded to the nearest 10.

6. Status: 2005–06 figures are provisional as some grants have not yet been finalised/audited.

7. 1997–98 figures for authorities subject to Local Government Reorganisation in that year have been estimated, pro-rata to their post LGR figures.

School Teachers Review Body

Mr. Fallon: To ask the Secretary of State for Education and Skills what progress has been made in requiring the School Teachers Review Body to consider local pay; and if she will make a statement. [44947]

Jacqui Smith *[holding answer 23 January 2006]:* The School Teachers' Review Body considered the matter of local approaches to pay in detail in their 13th report (part 2) in March 2004. Following further evidence from statutory consultees, their 14th report in February 2005 noted that additional evaluation of the operation of existing pay bands should take place prior to further consideration of local pay. Their 15 report, published in December 2005, recommended no change at present, but that the principal response to a range of pay matters should be to encourage the using of existing local discretions.

School Travel Plans

Mr. Wills: To ask the Secretary of State for Education and Skills what national target she has set for the percentage of schools with travel plans by 2009. [44859]

Jacqui Smith: The joint Department for Education and Skills and Department for Transport travelling to school project includes targets for 10,000 schools to have a travel plan in place by March 2006, and every school in England to have one by the end of the decade. We are currently on target to achieve that.

Specialist Industry Sectors

Mr. Hoban: To ask the Secretary of State for Education and Skills what financial support her Department provides to enable specialist industry sectors to meet their training needs. [44258]

Phil Hope *[holding answer 20 January 2006]:* The Government funds the Sector Skills Development Agency which is responsible for funding, supporting and monitoring the network of 25 Sector Skills Councils (SSCs) which cover 85 per cent. of the employed population. SSCs are led by employers and work to reduce skills gaps and shortages; improve productivity, business and public service performance, increase opportunities to boost the skills and productivity of everyone in the sector's workforce and improve learning supply including apprenticeships, higher education and National Occupational Standards (NOS).

In 2005–06 the Department for Education and Skills allocated £67.7 million to the Sector Skills Development Agency.

State-funded Education

Mr. Michael Foster: To ask the Secretary of State for Education and Skills pursuant to the answer to the hon. Member for Croydon, Central (Mr. Pelling) of 16 January 2006, *Official Report*, column 1030W, on state-funded education, if she will express the figures in cash terms at 2005 prices. [45375]

Jacqui Smith: The following table shows the UK education expenditure and gross domestic product (GDP) cash figures used as the basis for my answer to the hon. Member for Croydon, Central.

£ million

	1979–80	*1987–88*	*1997–98*	*2004–05*
Education spend	10,500	20,400	37,400	63,900
GDP	207,608	431,246	824,044	1,177,760
Percentage	5.1	4.7	4.5	5.4

Note:

1. Figures on UK education spend for the years shown were obtained from the Public Expenditure Statistical Analyses.
2. The GDP figures used are the latest available and were updated at the end of December 2005.
3. The international definition of education expenditure used to produce the figures for the Public Expenditure Statistical Analyses has changed overtime; therefore, the figure for 1979–80 is not directly comparable with the other years. The figures for 1987–88, 1997–98 and 2004–05 have been produced to the same definition and so are comparable.

The figures for percentage of GDP spent on education remain the same whether cash or 2004–05 prices are used. This is because the same price deflator is used for education spend and GDP when calculating real terms figures.

Student Finance

Helen Jones: To ask the Secretary of State for Education and Skills what steps she is taking to ensure that students who wish to enter higher education are aware of the types of financial support available to them. [45214]

Bill Rammell: In October 2005 we began a publicity campaign aimed at potential students and their parents to raise awareness of student finance messages. This campaign is planned to continue until March 2006.

We also continue to produce a range of targeted literature for potential students, and offer information and advice through a telephone helpline, internet websites, and events for prospective students.

In addition, we are working with local authorities, universities, the schools and FE sectors, and a range of national organisations to ensure that they are able to offer accurate information and advice.

Sure Start

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills (1) how many *(a)* children and *(b)* adults have participated in Sure Start programmes in each year for which figures are available; [43786]

(2) how many Sure Start programmes have been established in each year for which figures are available; [43787]

(3) what target she has set for expanding the number of Sure Start programmes; and what progress has been made in meeting this target. [43788]

Beverley Hughes: There are 524 Sure Start local programmes. These were approved in the following years:

1999: 22
2000: 102
2001:116
2002: 161
2003: 123

We do not collect information on the total number of children and adults who have accessed all Sure Start local programme services. As of March 2005, there were 420,149 children aged 0–3 living in areas covered by Sure Start local programmes. These children and their parents are able to access a wide range of Sure Start services.

There are no plans to develop further Sure Start local programmes. We expect all 524 local programmes to develop into Sure Start children's centres. By March 2006 we expect around 90 per cent. of these local programmes to have developed into children's centres; the remainder will become children's centres by March 2008. We expect to have developed 3,500 children's centres by 2010.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills in which constituencies Sure Start programmes are located. [43844]

Beverley Hughes: We do not hold information on all the constituencies covered by Sure Start local programmes. However we are able to provide a breakdown by local authority area and this is as follows.

Local authority	*Number of local programmes*
Barking and Dagenham	4
Barnet	1
Barnsley	5
Bath and NE Somerset	1
Bedfordshire	1

Local authority	Number of local programmes
Bexley	1
Birmingham	12

Work-based Learning

Mr. Davey: To ask the Secretary of State for Education and Skills (1) what estimate she has made of the annual level of spending on work-based learning for *(a)* 16 to 18-year-olds and *(b)* over 19-year-olds between 2004–05 and 2008–09; [42647]

(2) what estimate she has made of the level of annual spending between 2004–05 and 2008–09 on *(a)* 16 to 18-year-olds and *(b)* over 19-year-olds on (i) advanced apprenticeships, (ii) apprenticeships, (iii) entry into employment and (iv) NVQ 1 to 4. [42648]

Phil Hope: The Learning and Skills Council (LSC) is funded by the Department for Education and Skills (DfES) through an annual Grant Letter that sets out the LSC's key priorities. The operational delivery of individual programmes, taking account of these

priorities and the funding made available by the Department, is a matter for the LSC. The following table details the allocations for work-based learning programmes for the relevant financial years. In addition funding allocations are given for the adult skills programme Train to Gain.

£000

Programme	2004–05[1]	2005–06	2006–07[2]	2007–08[3]
Work-based Learning (16–18)	615,001	605,611	669,189	675,181
Entry to Employment (16–18)	246,593	220,084	208,369	204,044
Work-based Learning (19+)	243,162	269,125	202,767	229,000
WBL Total	1,104,756	1,094,820	1,080,325	1,108,225
Train to Gain programme	[4]88,995	161,027	230,000	399,000
Overall Total	1,193,751	1,255,847	1,310,325	1,507,225

[1] Figures for 2004–05 are taken from LSC Accounts.
[2] Figures for 2006–07 are disaggregated from planning assumptions within the 2006–07 LSC Grant Letter.
[3] Figures for 2007–08 are disaggregated from planning assumptions within the 2006–07 LSC Grant Letter.
[4] Employer Training Programme (ETP) Pilots. These are the pilots for the roll out of NETP/Train to Gain in 2006–07.

The WBL totals shown in the aforementioned table for 2005–06 to 2007–08 are consistent with the plans outlined in 'Priorities for Success' published by the LSC in October. Bill Rammell wrote to all MPs at the time to inform them about the 'Priorities for Success' document.

For 2008–09 allocations are dependent on the outcome of the Comprehensive Spending Review.

Data for allocations to programmes by qualification level are the responsibility of the LSC. In support of this PQ, LSC have been able to provide the following WBL programme/age breakdown for academic year 2004/05 only:

WBL programme	Age group	Level	Spent (£ million)
Advanced Apprenticeships	16–18	Level 3	226
Advanced Apprenticeships	19+	Level 3	118
Apprenticeships	16–18	Level 2	332
Apprenticeships	19+	Level 2	111
NVQ-only	16–18	Level 1–4	23
NVQ-only	19+	Level 1–4	22
Entry To Employment (E2E)	All Ages	Level 1	228
Total WBL	—	—	1,060

DEFENCE

Afghanistan

Dr. Fox: To ask the Secretary of State for Defence whether a decision has been made on which country will lead the Allied Rapid Reaction Corps in Afghanistan after the UK. [42985]

John Reid: The Allied Rapid Reaction Corps is, and will remain, a British-led NATO formation. Upon the completion in February 2007 of its tour in Kabul as the headquarters of the International Security Assistance Force (ISAF), the headquarters group of the Allied Rapid Reaction Corps will return to its permanent base in Germany. No decision has yet been taken on which headquarters will assume command of the ISAF at that point.

Dr. Fox: To ask the Secretary of State for Defence what assessment he has made of the extent to which planners at the Army's land command headquarters and UK permanent joint headquarters have the required resources to select the brigade for the Afghan mission in spring; and if he will make a statement. [42988]

John Reid: No final decisions have been made on the possible deployment of British forces to Southern Afghanistan as part of the expansion of the International Security Assistance Force. Any decision on such a deployment would take full account of our wider operational commitments.

Dr. Fox: To ask the Secretary of State for Defence what progress has been made in finalising plans for the expansion of the International Security Assistance Force into the south and east of Afghanistan; which countries have made a final decision on *(a)* troop deployment and *(b)* the nature of the capabilities which may be required; and if he will make a statement. [42989]

John Reid: On 8 December 2005 NATO Foreign Ministers agreed a revised operational plan to inform the expansion of the International Security Assistance Force (ISAF) into the south and then subsequently east of Afghanistan. NATO is currently in the process of generating the necessary forces which will embrace the wide range of capabilities necessary to implement ISAF expansion. Offers by nations to fill particular requirements are a matter for the countries concerned.

Dr. Fox: To ask the Secretary of State for Defence what discussions he has had with his Dutch counterpart on future deployments to Afghanistan; and if he will make a statement. [42995]

John Reid: I have regular discussions with allies, including the Dutch, about NATO operations in Afghanistan.

Dr. Fox: To ask the Secretary of State for Defence what type of individual protection will be provided to troops deployed to Afghanistan in the future. [43001]

John Reid: All troops deploying to Afghanistan will be personally issued with body armour and helmets. In addition, task specific protection equipment will be issued to personnel depending on the operational role that the individual will perform.

Dr. Fox: To ask the Secretary of State for Defence what urgent operational requirements the Department has ordered to support future troop deployment to Afghanistan; and if he will make a statement. [43002]

John Reid: The urgent operational requirement (UOR) process is used to fine-tune our military capability to meet the threats and circumstances relating to particular deployments. Information regarding specific UORs remains operationally sensitive.

Mr. Ancram: To ask the Secretary of State for Defence what agreement will govern the handover of prisoners detained in Afghanistan by UK forces to *(a)* US forces and *(b)* Afghan security forces; and if he will make a statement. [44262]

Mr. Ingram *[holding answer 20 January 2006]:* We are currently concluding a Memorandum of Understanding with the Government of Afghanistan to cover the possible future transfer of any individual to the Afghan authorities following detention by UK forces. To date, the UK has not transferred any detainee to the Afghan authorities and there are no detainees under UK authority.

The UK has not and does not intend to transfer individuals detained in Afghanistan into the custody of US forces.

Mr. Ancram: To ask the Secretary of State for Defence what agreement has been reached between NATO and the Afghan Government regarding the arrest and detention of prisoners apprehended on Afghan territory; and if he will make a statement. [44264]

Mr. Ingram *[holding answer 20 January 2006]:* The role of the NATO-led international security assistance force (ISAF) is to provide support to the Afghan authorities in creating and maintaining a secure environment. Troops deployed under the ISAF are able to arrest and detain by virtue of the authorisations permitting use of all necessary measures to fulfil its mandate contained in, most recently, UNSCR 1623 (2005), and by agreement with the Government of Afghanistan. ISAF policy is that individuals should be transferred to the Afghan authorities at the first opportunity and within 96 hours or released.

C-130 Hercules

Dr. Fox: To ask the Secretary of State for Defence what discussions he has had with representatives of *(a)* the RAF and *(b)* industry on fitting a fuel tank inerting system to RAF Hercules C-130 aircraft before 30 January 2006. [44138]

Mr. Ingram: The MOD's Equipment Capability Customer organisation has discussed with RAF Strike Command the possible fitting of Explosive Suppressant Foam to C-130 aircraft, and the Hercules Integrated Project Team is currently following this up with Marshall Aerospace. There are no plans to fit this before 30 January 2006.

EU Satellite System

Mike Penning: To ask the Secretary of State for Defence what representations the Government have received from the US Administration about the EU Global Monitoring for Environment and Security (GMES) satellite system; what assessment he has made of the implications of the system for the development of the European Security and Defence Policy; what use he expects British armed forces to make of GMES; and if he will make a statement. [30239]

Mr. Douglas Alexander: I have been asked to reply.

The EU Global Monitoring for Environment and Security (GMES) satellite system was designed as a civilian system and the EU has agreed it should be used for civilian purposes. It will be under civilian control but, like other civilian technology, the EU may draw on the information it provides for European Security and Defence Policy crisis management operations. The Ministry of Defence may similarly wish to make use of GMES information. The UK would oppose the system being under military control or being tasked to serve the military directly. The Government have not received any representations from the US regarding GMES.

First Sea Lord

Dr. Julian Lewis: To ask the Secretary of State for Defence what assessment he has made of the contribution to the Royal Navy of Sir Alan West as First Sea Lord. [44034]

John Reid: Admiral Sir Alan West, who retires in February, has overseen an important stage in the transformation of the Royal Navy. This includes the introduction of new ships and aircraft and important changes to the personnel and organisational structures of the Royal Navy, delivering a flexible and versatile force for good with an increased level of capability.

Admiral West has worked to raise the profile of the Royal Navy, and in particular has drawn attention to the relevance and importance of the service to national life through the medium of the successful Nelson commemorations. By doing so he will leave an important legacy from his time as First Sea Lord.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence how many Royal Navy ships visited *(a)* Gibraltar and *(b)* Spain in the last 12 months. [44148]

Mr. Ingram: During the 2005 calendar year, there were a total of 45 Royal Navy and Royal Fleet Auxiliary ship visits to Gibraltar and 28 visits to Spanish ports. Of the 28 visits to Spanish ports, 10 were undertaken by vessels allocated to NATO Standing Naval Forces and therefore programmed directly by NATO.

Mr. Hoyle: To ask the Secretary of State for Defence how many RAF aircraft landed at RAF Gibraltar in the last 12 months, broken down by type. [44533]

Mr. Ingram: The information requested is shown as follows:

	Number
Hercules C130	67
Hawk	6
Falcon	7
Chinook	9
Nimrod	2
HS125	5
Canberra	2
C441	1
Hawk	6
Jaguar	7
Puma	2
C17	2
Tornado	9
Tucano	1

Hawker Hunter Aircraft Sites

Mr. Heathcoat-Amory: To ask the Secretary of State for Defence what restrictions were placed on the use of the Hawker Hunter aircraft sites by Phillips in November 2000 on behalf of his Department; and who acquired them. [40226]

Mr. Ingram: The Ministry of Defence's conditions of sale made clear that it is the responsibility of the purchaser to obtain a certificate of airworthiness if the intention was to fly the aircraft and to apply for an export licence if it was to be transferred outside the United Kingdom.

At the auction held on 29 November 2000 by Phillips Auctioneers, the Disposal Services Agency's records show that three ex-Royal Navy Hawker Hunter aircraft and one ex-Royal Air Force Hawker Hunter aircraft were sold to a private individual and two ex-Royal Air Force Hawker Hunter aircraft were sold to the company, 'Towerdrive'. The individual cannot be named for Data Protection Act reasons.

Iraq

Harry Cohen: To ask the Secretary of State for Defence what investigations he has conducted into involvement of UK force personnel in the death of *(a)* Hanan Schmailawi, *(b)* Muhammad Salim, *(c)* policeman Raid al Musawi, *(d)* Hazim al-Skeini and *(e)* Waleed Muzban in Iraq in 2003; and if he will make a statement. [42943]

Mr. Ingram: All cases were investigated by the chain of command in theatre and in each case it was concluded that all actions taken had been within the rules of engagement. Subsequently the cases were subjected to review by the Special Investigation Branch (SIB). As a result, a full SIB investigation was carried out in 2004 into the case of Waleed Muzban and a report was passed to the Army Prosecuting Authority (APA). The APA considered the evidence, and, in September 2005, directed that the case be discontinued.

Jeremy Corbyn: To ask the Secretary of State for Defence what his latest estimate is of the total number of weapons of mass destruction found in Iraq since March 2003; and how many of these were classified as *(a)* nuclear, *(b)* chemical and *(c)* biological. [44460]

Mr. Ingram: The United Kingdom Government have accepted the conclusions of the Iraq Survey Group's search for Weapons of Mass Destruction in Iraq, published in Charles Duelfer's Comprehensive Report of the Special Advisor to the DCI of September 2004 and finalised in March 2005. The report is available to the public on the CIA website. This report provided the most authoritative assessment on Iraq WMD and concluded that no WMD of military significance were found.

However, as this report predicted, numbers of degraded pre-1991 chemical weapons continue to be found in Iraq and these are being safely disposed of.

Operation Enduring Freedom

Dr. Fox: To ask the Secretary of State for Defence what discussion he has had with his US counterpart on future UK support to Operation Enduring Freedom. [42994]

John Reid: I have regular discussions with Secretary Rumsfeld regarding operational issues, including Operation Enduring Freedom (OEF).

QinetiQ

Mr. MacNeil: To ask the Secretary of State for Defence if he will take steps to ensure that QinetiQ will maintain its current number of employees and presence in Scotland after privatisation. [44955]

John Reid *[holding answer 23 January 2006]:* This is an operational matter for the company; questions should be referred to the chief executive at the following address:

Graham Love
Chief Executive
Qinetiq Ltd.
Cody Technology Park
Building A1
Ively Road
Farnborough
Hampshire GU14 OLX

Mr. Duncan: To ask the Secretary of State for Defence whether QinetiQ will be able to accept contracts from foreign Governments after flotation. [43826]

John Reid: Yes. The flotation itself will not make a difference to QinetiQ's ability to compete for foreign contracts, whether with Governments or industry. The Ministry of Defence will retain the right to veto QinetiQ from entering into a contract that would cause an unacceptable conflict of interest. QinetiQ is also subject to the same security and export controls as any other company.

Mr. Duncan: To ask the Secretary of State for Defence what discussions the Government have had with Credit Suisse regarding the availability and allocation of shares in the flotation of QinetiQ. [43827]

John Reid: Advice on availability and allocation of shares was provided to the Government, Carlyle and QinetiQ, by our joint financial advisers, under contractually committed

confidentiality agreements. Credit Suisse is one of those financial advisers, and as such representatives from the bank will have taken part in discussions on the subject.

Territorial Army

Ann Winterton: To ask the Secretary of State for Defence what the capacity for Territorial Army commissions at the Royal Military Academy Sandhurst was in each year since 2001; and how many places were unfilled. [43679]

Mr. Touhig: The capacity and unfilled places for Territorial Army commissions at the Royal Military Academy Sandhurst in each calendar year since 2001 were as follows:

Year[1]	Capacity	Unfilled[2]
2001	360	143
2002	330	107
2003	180	0
2004	270	89
2005	270	165

[1] Calendar year
[2] Unallocated places

Type 23 Frigate

Mr. Flook: To ask the Secretary of State for Defence, pursuant to his answer of 10 January 2006, *Official Report*, column 506W, on Type 23 frigates, what plans he has to refit those Type 23 frigates carrying Lynx helicopters with Merlins. [44529]

Mr. Ingram: A programme of work is in place to provide the required modifications that will enable 12 Type 23 Class frigates to operate both Merlin and Lynx helicopters. To date, five have been modified and work to modify the remaining seven will be carried out during their forthcoming Docking and Refit periods.

TRANSPORT

Biofuels

Mr. Wills: To ask the Secretary of State for Transport whether he plans to set targets for the percentage of fuel filling stations to be selling a minimum proportion of biofuels by *(a)* 2007 and *(b)* 2010. [45405]

Dr. Ladyman: We have no plans to do so. The Government announced in November 2005 that a Renewable Transport Fuels Obligation (RTFO) will be introduced from 1 April 2008. The RTFO will require all suppliers of transport fuels in the UK to ensure that 5 per cent. of their total fuel sales come from renewable sources by 2010 in order to help meet our climate change objectives. In practice this is likely to mean that the vast majority of UK filling stations will be selling biofuel blends by 2010.

Driving Licences

David T.C. Davies: To ask the Secretary of State for Transport what rules apply to the photographs required for the new driving licence; and whether exemptions apply for particular religious groups. [44739]

Dr. Ladyman: The law requires applicants for new driving licences to provide a photograph of their current likeness.

The photograph must be in colour and passport style and size. It must show the full face, with no hat, helmet or sunglasses, although normal glasses and headwear worn for religious reasons is acceptable. The photograph must be taken against a plain, evenly lit background.

Crossrail

Tom Brake: To ask the Secretary of State for Transport how much the Department has spent on the Crossrail project in each year since 1997; and what percentage has been spent on *(a)* staff recruitment, *(b)* technical consultants and *(c)* other external services. [42711]

Derek Twigg: Between its establishment in May 2001 and the end of 2005, Cross London Rail Links Ltd (CLRLL) was provided with funding of £130,750,118. I understand from CLRLL that the amount spent on staff recruitment, technical consultants and other external services was as follows:

£

Financial year	Total	Staff recruitment	Technical consultants	Other external services
2001–02	5,380,000	74,918	2,152,000	2,103,082
2002–03	25,238,000	182,603	15,282,000	4,487,397
2003–04	31,547,000	141,299	19,646,000	6,372,701
2004–05	44,461,000	198,540	25,821,000	11,266,460
Financial year to end December 2005	28,124,118	400,855	13,734,927	6,356,932

The remaining costs included staff salaries and day-to-day running costs.

In addition, between September 2003 and the end of 2005, the internal Department for Transport unit that deals with Crossrail sponsorship, which includes the Crossrail hybrid Bill team, had costs of £6,102,814. The amount spent on technical consultants and other external services is detailed in the following below. Spending on staff recruitment is not recorded separately. All relevant staff were already employees of the Department for Transport.

£

Financial year	Total spend	Technical consultants	Other external services
2003–04	1,445,019	1,144,920	Nil
2004–05	2,657,209	1,937,093	20,937
Financial year to end December 2005	2,000,586	1,231,149	25,657

The remaining costs included staff salaries and day-to-day running costs.

Prior to September 2003 any work undertaken in respect of Crossrail was carried out by staff within the Department on an ad hoc basis as part of their other duties. Other officials have been involved in Crossrail related matters from time to time, as have officials in the Strategic Rail Authority and Transport for London.

Cycling Accidents

Mr. Holloway: To ask the Secretary of State for Transport how many accidents involving cyclists resulting in *(a)* death and *(b)* serious injury there were in each year since 1997 in Gravesham constituency. [43274]

Dr. Ladyman: The number of fatal and serious personal injury road traffic accidents that involve one or more cyclist in the Gravesham constituency since 1997 is shown in the table.

	Fatal accidents	*Serious accidents*
1997	0	8
1998	0	2
1999	0	3
2000	0	3
2001	0	2
2002	0	1
2003	0	5
2004	0	0

The accidents given in the table are those which occurred within the 2004 boundary of Gravesham constituency. The cyclists in these accidents did not necessarily sustain injuries themselves.

We are committed to improving safety for cyclists. Across Great Britain the number of cyclists killed or seriously injured in 2004 was 38 per cent. below the 1994–98 baseline, while the number of child cyclists killed or seriously injured was 49 per cent. below the baseline. All local authorities should have a cycling strategy, which includes improving safety through measures such as education, publicity and engineering. We introduced a new national standard for cycle training in 2005. We also have a range of cycling publicity materials aimed at the most vulnerable cyclists, children and teenagers, with a new teen campaign planned for 2006. We are also educating drivers in the need to be aware of cyclists, with this message included in the theory, hazard perception and practical elements of the driving test, with advice to drivers in the Highway Code and elsewhere.

Greater Western Franchise

Mr. Harper: To ask the Secretary of State for Transport what the average increase in ticket prices in the Greater Western franchise was in each of the last five years. [42156]

Derek Twigg: Regulated fares—meaning most fares used by commuters plus long distance Saver Return fares—on the First Great Western, First Great Western Link, and Wessex franchises have been limited to an average increase of 1 per cent. less than inflation from 1999 to 2003, then 1 per cent. more than inflation from 2004 onwards. Other fares are unregulated and may be set at the operator's own commercial discretion.

Mr. Harper: To ask the Secretary of State for Transport what assessment he has made of future passenger numbers in the Greater Western franchise. [42157]

Derek Twigg: The Department's forecast is that 779 million passenger journeys will be made on Greater Western services over the 10 years of the Greater Western franchise.

Mr. Harper: To ask the Secretary of State for Transport what the passenger figures were for the Greater Western franchise in each quarter of the last five years. [42158]

Derek Twigg: Passenger figures for all train operating companies are set out in National Rail Trends, published by the Office of Rail Regulation (ORR). A copy is available in the House Library.

Mr. Harper: To ask the Secretary of State for Transport what *(a)* the absolute and *(b)* the moving annual average rates for (i) punctuality and (ii) reliability for companies operating the Greater Western Franchise were for each quarter of the last five years. [42160]

Derek Twigg: Quarterly performance figures for all train operating companies are set out in National Rail Trends, published by the Office of Rail Regulation. A copy is available in the House Library.

Mr. Harper: To ask the Secretary of State for Transport what public expenditure was allocated to *(a)* tracks, *(b)* estates and *(c)* rolling stock on the Greater Western Franchise in each of the last five years. [42161]

Derek Twigg: The Department does not record expenditure under these specific headings. The subsidy/premium payments for the constituent parts of the Greater Western franchise paid/received over the last five years are as follows:

£000

	First GW	*First GW Link*	*Wessex*
2000–01	42,770.	10,984	—
2001–02	27,511	[1]3,931	22,582
2002–03	8,735	[1]13,232	50,885
2003–04	16,089	[1]15,027	75,015
2004–05	[1]17,635	[1]5,804	55,628

[1] Premium paid to Government.

Light Rail Schemes

Stephen Hammond: To ask the Secretary of State for Transport what the cost has been of light rail schemes delivered since 2000; and what he estimates will be the cost of schemes to be delivered up to July 2010. [40845]

Derek Twigg: Five light rail schemes have been delivered since 2000. The total cost of each was as follows:

Croydon Tramlink (opened 2000), £200 million

Manchester Metrolink Phase II extension to Eccles (2000), £160 million

Metro Sunderland extension (2002), £98 million

Nottingham Express Transit Line 1 (2004), £200 million

Docklands Light Railway extension to London City Airport (2005), £147 million

A number of new schemes are currently being developed. These include:

An extension to Midland Metro, which has provisional approval at £165 million in 1999 prices.

An extension to the Docklands Light Railway to Woolwich which is estimated to cost £200 million.

Refurbishment and capacity enhancement to part of the Manchester Metrolink. This is part of a commitment of £520 million public sector funding for public transport, which could include light rail, in the areas covered by Metrolink Phase III.

Proposals for other light rail schemes in England are being developed and will be considered in due course.

M18

Mr. Greg Knight: To ask the Secretary of State for Transport why the temporary 50 mph speed limit is in force on the M18 in the vicinity of junction 1 during periods when works are not taking place. [44792]

Dr. Ladyman: The temporary 50 mph speed limit is in force on the M18 in the vicinity of junction 1 during periods when works are not taking place following a risk assessment which identified that it is safer for the road users and workers on site to enforce the speed limit for the full duration. Removing traffic management and the speed restriction while works were not ongoing would mean adding unnecessary safety risks to the road workers and road users, as well as extending the time required to complete the works.

Mr. Greg Knight: To ask the Secretary of State for Transport when he expects the roadworks in the vicinity of junction 1 of the M18 motorway to be completed; and when he expects the M18 motorway to be free of *(a)* roadworks and *(b)* lane closures. [44793]

Dr. Ladyman: The roadworks in the vicinity of junction 1 of the M18 motorway are expected to finish in March 2006. The M18 is a strategic route and has regular maintenance and safety works. Therefore there will be roadworks and lane closures on an ongoing basis as needed.

Mobile Phone Coverage

Mrs. Ellman: To ask the Secretary of State for Transport what plans he has to improve mobile phone coverage on national mainline inter-city rail links. [43558]

Derek Twigg: Improving mobile phone coverage on inter-city rail links is a commercial matter for the train operating companies concerned and mobile phone companies.

The Department understand that Virgin trains, among others, are aware of the issue and are working on solutions with the mobile phone providers.

Railways

Chris Grayling: To ask the Secretary of State for Transport what the arrangements are for the Government to oversee the work of Network Rail. [40910]

Derek Twigg: The Office of Rail Regulation (ORR) is responsible for monitoring Network Rail to ensure that it acts in the public interest and delivers the outputs for which it is funded. ORR publishes regular information on Network Rail's performance including the Network Rail Monitor each quarter and an annual assessment. As a major funder of Network Rail, and to facilitate its role in setting strategy for the railway and its other railway functions, the Department for Transport also receives regular monitoring information from Network Rail.

Chris Grayling: To ask the Secretary of State for Transport what changes were made to the guarantee arrangements for Network Rail's debt when the Strategic Rail Authority was abolished. [40911]

Derek Twigg: The credit support arrangements for Network Rail previously provided by the Strategic Rail Authority were transferred to the Secretary of State for Transport on 26 June 2005. There were no changes to these arrangements arising from the transfer.

Chris Grayling: To ask the Secretary of State for Transport what his most recent estimate is of the capital value of Network Rail's assets; and what charge he holds over those assets in the event that the company becomes insolvent. [40918]

Derek Twigg: The capital value of Network Rail's assets is a matter for the company and is set out in their annual report and accounts. The Secretary of State has no charge over any of Network Rail's assets.

Chris Grayling: To ask the Secretary of State for Transport what assessment he has made of the risk to *(a)* Network Rail's financial position and *(b)* its ability to service its debts if the Government should decide to reduce the level of activity it purchases from the Network; and whether he has made an assessment of the corresponding risk of the Government's guarantees being required. [40919]

Derek Twigg: The total income required by Network Rail and the outputs it has to deliver for that income for a five year period is determined by the Office of Rail Regulation (ORR) in Access Charge Reviews. Under the arrangements in the Railways Act 2005, at the start of future Access Charge Reviews the Secretary of State must provide ORR with details of the high level outputs he wants the railway to deliver and the public funding available for this. In carrying out the Access Charge Review, ORR must have regard to this information in establishing Network Rail's income and required outputs. ORR also take full account of the costs of servicing Network Rail's existing debts and its overall financial position.

Network Rail's income and required outputs can only be altered within the five year period under circumstances determined by ORR. This would take the form of an Access Charge Review as described above.

These arrangements should ensure that Network Rail has sufficient income to meet all its obligations.

Chris Grayling: To ask the Secretary of State for Transport what contingency arrangements he has put in place in the event of Network Rail becoming insolvent. [40920]

Derek Twigg: Network Rail is making good progress towards delivering the obligations established by the Access Charge Review 2003, including its efficiency savings target. Financial monitoring by ORR indicates that Network Rail is well within its financial licence condition and the likelihood of the company becoming

insolvent in the foreseeable future is therefore remote. Accordingly, no specific contingency arrangements have been considered. However, should a protected railway company be unable to or likely to become unable to pay its debts, the Railways Act 1993, as amended, includes powers for the Secretary of State to petition for a Railway Administration Order in relation to that company.

Chris Grayling: To ask the Secretary of State for Transport if he will place in the Library a copy of his Department's submission to the Office for National Statistics concerning the classification of Network Rail's debt. [40921]

Derek Twigg: Correspondence between the Department for Transport and Office for National Statistics about the classification of Network Rail is available on the Office of National Statistics website at: http://www.statistics.gov.uk/about/Methodology_by_theme/rail_network/default.asp

Chris Grayling: To ask the Secretary of State for Transport what rights the Government has to define Network Rail's future activity. [40923]

Derek Twigg: The Government does not define Network Rail's future activity. Under the arrangements in the Railways Act 2005, at the start of an Access Charge Review the Secretary of State provides the Office of Rail Regulation (ORR) with information about the high level outputs he wants the railway as a whole to deliver and the public funding likely to be available for a five year period. Scottish Ministers provide similar information as regards the railway in Scotland. ORR will use this in the course of the Access Charge Review to establish the specific outputs that Network Rail has to deliver as well as the income it requires for this.

Chris Grayling: To ask the Secretary of State for Transport how many working days have been lost to strike action on the national rail network in each year since 1997. [43206]

Derek Twigg: The number of working days lost by passenger train operating companies (TOCs) are outlined in the following table:

1997	2,400
1998	3,634
1999	0
2000	1,713
2001	2,153
2002	29,709
2003	6,622
2004[1]	200
2005[1]	1,750

[1] The figures for 2004 and 2005 are estimates as the information is no longer collected in detail by the association of train operating companies (ATOC).

The table does not include reference to lost working days affecting Network Rail. As this is an operational matter for Network Rail, I have asked Network Rail to respond directly to the hon. Member.

Chris Grayling: To ask the Secretary of State for Transport (1) what estimate his Department has made of the cost to the economy of strike action on the national rail network in each year since 1997. [43207]

(2) what estimate his Department has made of the number of passenger journeys on the national rail network affected by strike action in each year since 1997. [43208]

Derek Twigg: The data requested are not held by the Department and the information could only be provided at disproportionate cost.

Paul Rowen: To ask the Secretary of State for Transport what the average age is of the rolling stock of each of the heavy rail franchises; and whether the new contracts include plans to replace old rolling stock. [34637]

Derek Twigg: The average age of rolling stock by franchise (as at 1 October 2005) is:

Franchise	*Average age of rolling stock (in years)*	*Note*
c2c	4.5	296 new vehicles introduced, replacing the entire fleet operated by c2c
Central	13.6	
Chiltern	11.0	
First Great Western	24.6	The Department for Transport is leading the procurement of new vehicles to replace the existing High Speed Train (HST), it is planned they will start entering service from the end of 2012.
First Great Western Link	14.8	
Gatwick Express	8.2	
GNER	21.2	The Mk4 'Mallard' fleet is currently 16-years-old. The High Speed Train (HST) fleet is now approaching 30-years-old. The Department for Transport is leading the procurement of new vehicles to replace the existing HSTs, it is planned they will start entering service from the end of 2012.
Great Northern	19.9	
Island Line	67.8	Island Line is a small operator providing local and leisure services between Shanklin and Rye Pier Head on the Isle of Wight.
Midland Mainline	16.7	The Department for Transport is leading the procurement of new vehicles to replace the existing High Speed Train (HST), it is planned they will start entering service from the end of 2012.
Northern	17.1	
One	20.8	
Scotrail	14.0	
Silverlink	15.9	
Southern	8.1	742 new vehicles introduced as part of Southern Region upgrade, comprising two thirds of the Southern fleet.

Franchise	Average age of rolling stock (in years)	Note
South Eastern Trains	8.5	618 new vehicles introduced as part of Southern Region upgrade, comprising half of the SET fleet.
South West Trains	10.0	785 new vehicles introduced, (665 of these as part of Southern Region upgrade) comprising half of the SWT fleet.
Thameslink	18.8	
Transpennine	14.8	
Virgin Cross Country	3.6	352 new vehicles introduced, replacing the entire Cross Country fleet.
Virgin West Coast	4.1	477 new vehicles introduced, replacing the main West Coast fleet.
Wales and Borders	14.7	
Wessex	18.7	

As at 1 October 2005, the Average Age of the UK passenger fleet is 12.98 years. This compares to the average age in 2000 of 20.67 years and in 1995 of 22.74 years.

North East Regional Planning Assessment

John Cummings: To ask the Secretary of State for Transport which *(a)* regional and *(b)* local stakeholders have participated in the development of the North East Regional Planning Assessment. [42007]

Derek Twigg: Development of the Regional Planning Assessment has benefited from extensive and constructive engagement with a wide range of stakeholders including the North East Regional Assembly, One North East, Tyne and Wear PTE, the Regional Transport Forum, Local Authorities, Transport Operators and the Rail Passengers' Council.

Parliamentary Questions

Paul Rowen: To ask the Secretary of State for Transport when he will answer question 34637 tabled by the hon. Member for Rochdale on 30 November 2005. [45379]

Derek Twigg: I have answered the hon. Member's question today.

Passenger Travel Alert Services

Mrs. Ellman: To ask the Secretary of State for Transport if he will take steps to encourage public transport operators to use passenger travel alert services through mobile communications technology. [44304]

Dr. Ladyman: There are a number of public transport passenger travel alert services already available through mobile technology.

The Department for Transport supports Transport Direct, Britain's free online journey planning service, which offers a real time journey planning service to mobile and Personal Digital Assistant (PDA) users. Users of Transport Direct's mobile and PDA service, which is subject to an ongoing development, can already:

Find out the departure and arrival times for national rail services throughout Britain and for some bus or coach stops in areas where Short Messaging Service (SMS) codes are available for bus or coach stops (e.g. in Wales, the South West, Leicestershire and the South East, except London). The service can give the scheduled arrival and departure time and in some cases provide the expected arrival or departure times.

View live travel news for car or public transport (e.g. check for delays and accidents) either for a region or for the whole of Britain.

Find out whether there is a taxi rank or private hire car firm at the rail station they are travelling to, and/or get phone numbers for taxi or cab firms serving the station.

Bookmark any useful pages they are viewing on their phone or PDA.

The Department also supports the Traveline telephone service that is operated by transport operators and local authorities. Traveline has an SMS text service covering Scotland, Wales and parts of England. The service provides info on the next departure times of bus services from bus stops and bus stations within that region, by responding through a text message to a customer request for next bus information.

In addition to scheduled bus times available through the Traveline SMS and phone service, some local authorities provide real time information for bus services through mobile devices. For example the "Star Text" scheme in Leicester and the "your next bus" service in West Yorkshire provide passengers with real time information about the actual running time of their buses through a text messaging service.

National Rail Enquiries offers a text-back facility which enables mobile phone users to check whether trains are running to schedule. Users text the name of the station (or the designated three-letter station code if they know it) to 484950. By return they receive information on the status of trains that are due over the next hour, with a status report (i.e. "On Time", "+5m", etc.).

Rapid Transport Lines

Chris Grayling: To ask the Secretary of State for Transport how many new rapid transport lines are planned in the next five years; and if he will list them. [40581]

Derek Twigg: Construction has started on an extension to the Docklands Light Railway (DLR) to Woolwich. It is due for completion in 2009.

Phase 1a of the East London bus-based transit scheme linking Ilford with Dagenham Dock via Barking town centre is due for completion in 2007.

The following new rapid transport lines have provisional funding approval:

Midland Metro tram extensions to Brierly Hill and Birmingham City

Manchester, Leigh guided bus

Cambridge guided bus

Luton to Dunstable guided bus

£520 million public funding has been committed to Greater Manchester, subject to GMPTE developing a satisfactory plan for the areas covered by Metrolink Phase III.

A number of other schemes are in various stages of development, some of which may commence construction in the next five years.

Road Accidents (Ice)

Chris Ruane: To ask the Secretary of State for Transport how many *(a)* deaths and *(b)* serious injuries in road accidents, where the primary cause was ice on the road, there were in each of the past 20 years. [44524]

Dr. Ladyman: Information on the primary cause of personal road injury accidents is not available. The number of fatalities and serious injuries in personal injury road accidents where there was "Frost or Ice" on the road surface, is given in the following table for 1985–2004.

Number of fatal and serious casualties by road surface condition "Frost or Ice": 1985–2004.

	Severity of casualty	
	Fatal[1]	*Serious*
1985	100	1,894
1986	118	2,039
1987	65	1,159
1988	63	1,071
1989	66	871
1990	58	747
1991	84	1,447
1992	77	1,040
1993	58	827
1994	53	872
1995	60	859
1996	59	919
1997	36	515
1998	33	558
1999	60	753
2000	33	487
2001	66	905
2002	29	301
2003	32	619
2004	40	505

[1] Deaths within 30 days of the accident. Excludes confirmed suicides, death from natural causes and injuries to pedestrians with no vehicle involvement (e.g. a fall on the pavement).

Road Improvements

Shona McIsaac: To ask the Secretary of State for Transport pursuant to the answer of 16 January 2006, *Official Report*, column 929W, if he will clarify the information given in relation to road improvement in North East Lincolnshire, with particular reference to low noise resurfacing on the A180 east of Ulceby towards Grimsby. [43728]

Dr. Ladyman: My answer of 16 January confirmed the programmed dates for the low noise carriageway resurfacing of the remaining sections of the A180 in North East Lincolnshire.

The Highways Agency's policy for carriageway resurfacing is developed on a whole life cost basis, identifying the appropriate maintenance treatment at the optimum time and using quieter surfacing materials.

The current Government Spending Review 2004 confirms the Highways Agency's budgets for the period 2005–06 to 2007–08; no indication is available of funding levels beyond this period. Consequently, as the programmed dates for the works concerned fall outside the current Spending Review period, the allocation of funding to these resurfacing schemes cannot be confirmed at this time.

Tom Brake: To ask the Secretary of State for Transport pursuant to the answer of 19 December 2005, *Official Report*, columns 2318–19W, on road improvement costs, what proportion of the overrun for the targeted programme of improvements can be ascribed to *(a)* underestimates, *(b)* fraud, *(c)* inflation in the construction industry and *(d)* other factors. [44104]

Dr. Ladyman: The targeted programme of improvements (TPI) table placed in the House Library in December 2005 compares the approved full out-turn cost against the scheme cost submitted for TPI entry approval. Since April 2003 the TPI entry cost has been reported on the basis of full projected out-turn, making allowance for identified risks, inflation up to scheme completion, non-recoverable VAT and for 'optimism bias' in line with revised Treasury guidance issued in April 2003. Before then, only net scheme costs, exclusive of VAT, projected inflation and 'optimism bias' were reported at TPI entry.

This is why as stated in the footnote to the answer of 19 December 2005, the two sets of figures in the table are not directly comparable for the 43 schemes that entered the TPI prior to April 2003. For these schemes, about £0.6 billion (39 per cent.) of the £1.54 billion variance against the cost reported at TPI entry is attributable to the absence of VAT, projected inflation at 2.5 per cent. and 'optimism bias'. The remainder of the variance can be attributed to underestimates in the scope of schemes and the impact of inflation. Scheme budgets have assumed that construction inflation would run at 2.5 per cent. per year. The latest indications suggest that a higher allowance may be more appropriate and more research is under way in that area. As far as the Highways Agency is aware fraud has played no factor in any requirement for budget increases.

For the 39 schemes that entered the TPI since April 2003, the two sets of figures are directly comparable and only two schemes have approved budgets that have increased since TPI entry. These increases (£61 million) can be attributed to a combination of underestimates (£26 million) and higher construction inflation (£35 million). Again, none of these increases can be attributed to fraud.

Road Traffic Accidents

Mr. Roger Williams: To ask the Secretary of State for Transport whether his Department collects information on the number of fatalities in road traffic accidents partially or wholly caused by *(a)* domestic animals, *(b)* farm animals and *(c)* pheasants reared for shooting. [44202]

Dr. Ladyman: The Department does not collect information on personal injury road accidents caused by animals. However we do collect information on animals identified as carriageway hazards in accidents, specifically categories of "dog on road" and "other animal on road".

The following table shows the number of fatalities in personal injury road accidents where a dog or other animal has been identified as a carriageway hazard for 2004.

	Fatalities
	Number
Dog on road	1
Other animal on road	52

Transport Projects (Coventry)

Mr. Jim Cunningham: To ask the Secretary of State for Transport what funding his Department has provided for transport projects in Coventry South since 1997. [44553]

Ms Buck: Since the introduction of Local Transport Plans in 2000, the local authorities in the West Midlands Local Transport Plan Area have received around £402.5 million in funding for local transport projects and maintenance schemes. In addition, the authorities received approximately £92.5 million in funding for major local transport schemes including £28 million of funding allocated in December 2004 for the Coventry Quality Bus Network.

Between 1997 and 2000 the local authorities in the former West Midlands county received approximately £175.5 million in funding for local transport capital investment. The Department for Transport does not have the data to identify a figure separately for local transport investment in Coventry south.

The Coventry South constituency has also benefited from the £7 billion investment in the west coast railway line. An additional £4.2 million has also been spent on railway related park and ride schemes.

MINISTER FOR WOMEN

Women's Pensions

Mr. Hollobone: To ask the Minister for Women and Equality what plans the Government are considering to tackle women's pension inequality. [44724]

Meg Munn *[holding answer 23 January 2006]:* Women's pension provision is steadily improving over time. Through various measures introduced since 1997, we have already lifted 1.9 million pensioners out of absolute low income—1.3 million of whom are women. The introduction of Home Responsibilities Protection in 1978 together with women's increased labour market participation mean that women are building up better basic state pension records. Future women pensioners will also benefit from the introduction of State Second Pension with six million more building up additional state pension than did under SERPS.

Government recognises that there is still more to be done to address this problem, and that's why the Department for Work and Pensions published a report entitled 'Women and pensions: The evidence' in November 2005, which will inform the next phase of the National Pensions Debate.

We are currently analysing the findings of the Pensions Commission's final report published on 30 November 2005, and we will consider the recommendations and options made by the Commission with a view to publishing a White Paper in the spring. Our proposals for reform will be guided by the principle that the pension system should deliver fair outcomes for women

TRADE AND INDUSTRY

Administrative Costs

Angus Robertson: To ask the Secretary of State for Trade and Industry which functions of his core Department are carried out in *(a)* England and *(b)* London; and what administrative costs were associated with these functions for each area in the last year. [39815]

Alan Johnson: Functions carried out on official premises on behalf of the DTI in *(a)* England by the core Department include the following work undertaken by: Finance and Resource Management; "Finance processing services", Corporate Law and Governance Directorate; "Companies Investigation Branch", Legal D Enforcement Unit, Industry Economics and Statistics Directorate and the work of the Regional Policy, Partnership, Transport and Planning Directorate.

Functions carried out on official premises on behalf of the DTI in *(b)* London by the core Department include the work undertaken by: Business and Innovation Groups, British National Space Centre, Business Relations and Support, Consumer and Competition Policy Directorate, Corporate Law and Governance, Energy; "Industries and Technologies, Markets, Strategy, Resources and Development Units", Employee Relations Directorate, Europe and World Trade Directorate, Finance and Resource Management, Human Resources and Change Management, Internal Audit, Industry Economics and Statistics Directorate, Innovation; "Economics Statistics and Evaluation, Technological Innovation", Information and Workplace Services Directorate, The Legal Group; "Business and Consumers, Employment Discrimination Equality Intellectual Property, Energy, Companies and Insolvency and Enforcement", The Ministerial and Parliamentary Support Team, Office for Civil Nuclear Security, Operations Directorate, Office of Science and Technology; "Science and Engineering Base and Transdepartmental Science", The Regions Directorate, Strategy Communications Unit, Strategic Policy Analysis, Women and Equality Group, Womens National Commission and Export Control and Non-Proliferation Directorate.

Additionally functions are carried out by UK Trade and Investment, an organisation which brings together the work of the DTI and the FCO in support of British trade and investment overseas, and in encouraging Inward Investment.

Further detail pertaining to more in depth specification of the actual type of work carried out by the Units indicated above and associated Information on the administration costs of work undertaken is not readily available and could be provided only at disproportionate cost.

Mr. Weir: To ask the Secretary of State for Trade and Industry which functions of his core Department are carried out in *(a)* Northern Ireland and *(b)* Wales; and what administration costs were associated with these functions for each area in the last year. [39943]

Alan Johnson: There are no functions carried out on official premises on behalf of the DTI in *(a)* Northern Ireland by the core Department.

Functions carried out on official premises on behalf of the DTI in *(b)* Wales by the core Department include some but not all of the functions undertaken by: Human Resources and Change Management Directorate and Legal D Enforcement Unit.

Further detail pertaining to more in depth specification of the actual type of work carried out by the units indicated above and associated information on the administration costs of work undertaken is not readily available and could be provided only at disproportionate cost.

Pete Wishart: To ask the Secretary of State for Trade and Industry what functions in his Department are carried out in Scotland; and what the administrative costs of these functions were in the last year for which figures are available. [40011]

Alan Johnson: Functions carried out on official premises on behalf of the DTI in Scotland include some but not all of those functions undertaken by the Energy Resources and Development Unit.

Functions carried out by Executive Agencies and Arms Length Bodies in Scotland include some but not all of those functions undertaken by: Employment Tribunals Service, Insolvency Service and Companies House.

Further detail pertaining to more in depth specification of the actual type of work carried out by the units, Executive Agencies and Arms Length Bodies indicated above and associated information on the administration costs of work undertaken is not readily available and could be provided only at disproportionate cost.

Career Development (Women)

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what steps his Department is taking to encourage companies to develop the careers of their female staff. [43389]

Meg Munn *[holding answer 23 January 2006]:* DTI has been actively promoting best practice for many years, through case studies, reports and industry events. For example, I will be speaking at "Women in IT Forum" meeting on 8 February, which will examine both the benefits to managers and to their businesses in having a better gender-balanced workforce.

Additionally DTI has various publications such as "Advancing Women in the Workplace—Good Practice Guide" and "Building Better Boards"—designed to support managers in implementing effective strategies for reducing barriers to women's advancement and to combat stereotyping in the workplace.

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what discussions he has had with business organisations on encouraging schoolgirls to consider careers in sectors which have been seen as traditionally male. [43390]

Meg Munn *[holding answer 23 January 2006]:* The concentration of women in particular job sectors is one of the main causes of the gender pay gap, and we recognise the importance of working with business organisations to address this issue.

Government are working with key partners on various initiatives to encourage schoolgirls to consider careers in sectors that are traditionally seen as male. The Manufacturing Forum is just one of the initiatives the Government are involved in. This is a partnership between Government, industry and stakeholders. The Forum highlighted the Image of Manufacturing as a priority area for action and set up a Image Subgroup which brought together key organisations already active in promoting science, engineering and technology to girls and women, in order to focus on how they can work together to improve the perception of manufacturing among girls and women to improve gender equality in occupations where women are currently under-represented.

Computer Club for Girls (CC4G) is another successful initiative aimed at getting more young girls involved in IT. DTI, DfES and South East England Development Agency supported e-Skills UK with the original pilot projects. The DfES funded national roll-out of this programme was launched in June 2005. Initial research on the benefits of CC4G has indicated that 66 per cent. of the participants are now considering future IT careers.

We acknowledge that there is still more work to do, and I look forward to the Women and Work Commission's findings and recommendations in their final report in the coming weeks, as they have looked at the occupational segregation as part of the gender pay gap.

Commission for Equality and Human Rights

Anne Snelgrove: To ask the Secretary of State for Trade and Industry what funding local race equality work will be allocated in the Commission for Equality and Human Rights. [44176]

Meg Munn: The Government has given a commitment, through the Commission for Equality and Human Rights, to continue to support the network of Racial Equality Councils and its anti -discrimination and local race equality work. The work of the RECs is an important foundation on which the new Commission will build.

Government has made clear that funding for race equality work through the RECs will continue at the current level for the foreseeable future.

Consumer Credit Bill

Mr. David: To ask the Secretary of State for Trade and Industry what the planned timetable is for the implementation of the Consumer Credit Bill. [44101]

Mr. Sutcliffe: The Consumer Credit Bill is still under consideration by Parliament and it is therefore too early to say exactly what the implementation timetable will be at this stage. However, we would aim to implement the bulk of the legislative provisions as soon as practicable after Royal Assent, taking into account the time needed

for consultation and for the system changes that the regulator and industry will need to make. It is unlikely, therefore that any changes would come into effect before April 2006 and some will take longer.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Trade and Industry how much was spent on advertising by *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by his Department in each year since May 1997. [39094]

Alan Johnson: For expenditure on advertising by my Department through COI from 1995–96 to 2000–01, I refer the hon. Member to the answer I gave to the hon. Member for Twickenham on 20 November 2001, *Official Report*, column 162W. Expenditure for 2001–02, 2002–03 and 2003–04 (to date) was £6,610,240, £13,741,906 and £2,044,497 respectively. These figures include advertising by the Small Business Service and exclude VAT.

Information on publicity expenditure from centrally held budgets is contained in the Government's expenditure plans and, more recently, the DTI's annual departmental report, which are available in the Libraries of the House. Figures relating to other information campaigns, and information on publicity and advertising by NDPBs, are not held centrally and could be produced only at disproportionate cost.

Letter from Claire Clancy, dated 24 January 2006:

I am responding to your recently tabled Parliamentary Question to the Secretary of State for Trade and Industry on behalf of Companies House, which is an Executive Agency of the DTI.

	£
2000–01	401,245
2001–02	586,203
2002–03	376,641
2003–04	362,526
2004–05	533,310
2005–06	409,055

Advertising is mainly for compliance issues, particularly to remind company directors on their statutory duties to file accounts within the designated timescales.

I am sorry that figures for earlier years are unavailable due to the disproportionate cost of retrieval.

Letter from Jeanne Spinks, dated 24 January 2006:

You asked the Secretary of State for Trade and Industry, how much was spent on advertising by *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by his Department in each year since May 1997.

The Employment Tribunals Service has had no expenditure on advertising for the years in question.

Letter from Dr. Jeff Llewellyn, dated 24 January 2006:

The Secretary of State for Trade and Industry has asked me to reply on behalf of the National Weights and Measures Laboratory (NWML) to your question regarding how much was spent on advertising by *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by his Department in each year since May 1997.

NWML spent the following amounts on advertising during this period (the amounts of 03/04 onwards are actual, amounts before this are estimates):

	£
1997–98	800
1998–99	800
1999–2000	1,000
2000–01	1,000
2001–02	1,500
2002–03	1,500
2003–04	3,715
2004–05	1,430
2005–06	[1]437

[1] Year to date.

Letter from Desmond Flynn, dated 24 January 2006:

The Secretary of State for Trade and Industry has asked me to reply to you directly on behalf of The Insolvency Service in respect of your question (2005/2524) asking how much was spent on advertising by *(a)* his department, *(b)* each (i) non-departmental public body and (ii) executive agency for which his department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by his Department in each year since May 1997.

The Insolvency Service has not spent any money on advertising from May 1997 to date.

Letter from Ron Marchant, dated 24 January 2006:

I am responding to this parliamentary question, tabled on 16 December 2005, regarding advertising spend by the Patent Office since 1997.

	£
1997–98	8,908
1998–99	12,364
1999–2000	2,951
2000–01	7,391
2001–02	4,822
2002–03	3,569
200304	1,500
200405	21,500
2005–06[1]	825

[1] To date

Mrs. Villiers: To ask the Secretary of State for Trade and Industry how much was spent by his Department on refreshments in each year since 1997. [41247]

Alan Johnson: Information on refreshments specifically is not available. However, the table shows the total expenditure on entertainment by the Department of Trade and Industry in each year between 1998–99 and 2004–05. Information on spend for 1997–98 would be available only at disproportionate cost.

The majority of the Department's entertainment expenditure represents the hosting of stakeholder events both in the UK and overseas. This includes refreshments at meetings, working breakfasts and lunches and official events.

All expenditure of official entertainment is made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in Government accounting.

	£000
1999–2000	887
2000–01	1,089
2001–02	1,165
2002–03	1,311
2003–04	1,110
2004–05	1,777

Departmental Publications

Mr. Amess: To ask the Secretary of State for Trade and Industry if he will make it his policy to publish as an annex to his annual report a list of all publications published by his Department in the preceding year; and if he will make a statement. [41000]

Alan Johnson: Details of major consultations and publications issued this year will be included within the 2006 Departmental Report. There are no plans to publish details of all publications separately as an annex. All DTI Publications currently available are listed on the DTI website at www.dti.gov.uk/publications/, the website covers all document formats including hard-copy and electronic versions.

Lending Companies

John Battle: To ask the Secretary of State for Trade and Industry how many registered lending companies there were in the *(a)* Leeds, metropolitan district and *(b)* Leeds, West constituency in each year since 1997. [44438]

Mr. Sutcliffe: The Office of Fair Trading (OFT) is responsible for issuing consumer credit licenses and maintaining a public register of licensed traders. However this information is not held in constituency or Post Code order.

Renewable Energy

Chris Ruane: To ask the Secretary of State for Trade and Industry what grants are available for *(a)* domestic and *(b)* non-domestic micro-renewable energy installations in (i) England and (ii) Wales. [36916]

Malcolm Wicks: Grants are available for domestic and non-domestic micro renewable installations through two programmes. Clear Skies offers grants for the installation of solar water heating, small wind, micro hydro, ground source heat pumps and biomass heating, further details can be found on the website www.clear-skies.org. The Photovoltaics Demonstration Programme also offers grant for the installation of photovoltaic panels for the production of electricity, for further details please see the website www.solarpvgrants.co.uk

Both these programmes will be superseded by a new Low Carbon Buildings Programme, which is due to start in April 2006, subject to EU State Aids approval.

Sunday Trading

Mr. Andy Reed: To ask the Secretary of State for Trade and Industry what consultants the Government have invited to conduct the analysis of the case for deregulation of Sunday trading hours. [41034]

Mr. Sutcliffe: My right hon. Friend the Secretary of State has appointed Indepen Consulting Ltd. to conduct an independent economic cost-benefit analysis of the impact of further liberalisation of Sunday Trading.

Mr. Jenkins: To ask the Secretary of State for Trade and Industry pursuant to the answer of 12 December 2005, *Official Report*, column 1675W, on Sunday trading, when he expects the cost-benefit analysis report to be *(a)* completed and *(b)* published. [43476]

Mr. Sutcliffe: I expect the consultants' report to be submitted in the spring. We will place it on DTI's website shortly thereafter.

UK-registered Companies

Greg Mulholland: To ask the Secretary of State for Trade and Industry how many UK registered companies operate in South and Central America, broken down by country. [44191]

Ian Pearson *[holding answer 20 January 2006]:* The Department does not record this information.

Greg Mulholland: To ask the Secretary of State for Trade and Industry on what dates in 2005 officials from his Department had meetings with British companies working in South America; and what was discussed at each meeting. [44192]

Ian Pearson *[holding answer 20 January 2006]:* The Department does not maintain a composite record of such meetings.

CABINET OFFICE

Departmental Staff

Bob Spink: To ask the Chancellor of the Duchy of Lancaster how many disciplinary actions against civil servants employed in his Department *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43501]

Mr. Jim Murphy: The following table shows the number of disciplinary actions involving serious or gross misconduct taken against civil servants employed in the Cabinet Office in the years 2001 to 2005. With one exception in 2004, a sanction was applied in each case.

	Disciplinary actions
2001	9
2002	7
2003	5
2004	9
2005	4

The department's disciplinary process reflects statutory requirements and is available on the department's intranet to all employees.

Data Sharing

Mr. Heald: To ask the Chancellor of the Duchy of Lancaster if he will list the documents and publications

on data sharing in the public sector the Cabinet Office and e-government agencies have placed in the public domain since 2001. [43566]

Mr. Jim Murphy: The Cabinet Office does not hold this information centrally. However, a list has been compiled from available records and has been placed in the Library.

Mr. Jim Cunningham: To ask the Chancellor of the Duchy of Lancaster what consultation his Department has undertaken on the privacy of data sharing within the delivery of more secure public services. [44606]

Mr. Jim Murphy: In April 2002, the Performance and Innovation Unit (now the Strategy Unit) published a report "Privacy and Data sharing: the way forward for public services" and sought public consultation on some of its key recommendations. Further work on data sharing and the privacy aspect is included in the Government report "Transformational Government—Enabled by Technology", (CM6683) published in November 2005. This Strategy as a whole is currently out for consultation which is due to close 3 February 2006. There is also regular consultation with the information technology industry and others on standards within the e-Government Interoperability Framework (e-GIF).

Delivery Unit

Mr. Hollobone: To ask the Chancellor of the Duchy of Lancaster what have been the main outputs from the Prime Minister's Delivery Unit since its inception. [42527]

Mr. Jim Murphy: The Prime Minister's Delivery Unit (PMDU) was formed in the summer of 2001. Its mission is to help Government to deliver better and more efficient public services. It does this by monitoring and reporting to my right hon. Friend the Prime Minister on delivery of his top delivery and reform priorities, and identifying and working with Departments to overcome the key barriers to improvement.

It remains the responsibility of Secretaries of State to deliver public service outcomes. Since 2001 PMDU has worked most closely with the Department of Health, Home Office, the Department for Education and Skills and the Department for Transport. These Departments have achieved improvements in a number of their public service agreement (PSA) target areas.

External Consultants

Mrs. Villiers: To ask the Chancellor of the Duchy of Lancaster how much his Department has paid since 2004 to external consultants who had previously been employed by the Department in any capacity within the previous five years. [41210]

Mr. Jim Murphy: The information requested for the Cabinet Office is not readily available and could be obtained only at disproportionate cost.

Pension Entitlements

Mr. Gordon Prentice: To ask the Chancellor of the Duchy of Lancaster what the Government's policy is on pension entitlement for those taking up a public appointment; and if he will make a statement. [44609]

Mr. Jim Murphy: Most public appointments are not pensionable. Where an appointee receives remuneration and has executive responsibilities he or she may be provided with a pension. It is the responsibility of individual Departments to set the terms and conditions for their own appointments, including pension entitlement. The publication from Her Majesty's Treasury's 'Board Members anvd Public Appointees: Pension and Compensation Guidance Notes' sets out the points that departments need to consider when making any pension arrangements for such appointments. The guidance is available on Her Majesty's Treasury's website at www.hm-treasury.gov.uk./media/36F/03/pensions_board_mem_230604.pdf

FOREIGN AND COMMONWEALTH AFFAIRS

Bangladesh

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on current levels of inter-community violence in Bangladesh, with particular reference to the Muslim and Hindu communities [43746]

Dr. Howells: The Government of Bangladesh has assured us of its commitment to safeguard the rights and freedoms of all its citizens, and we welcome this. There are, however, continuing concerns about the situation of religious minorities in Bangladesh and acts of repression against them and indigenous groups. In 2005, there were reports of attacks on Hindus and Ahmadiyyas, ranging from serious crimes such as murder and grievous bodily harm, to public order offences and criminal damage. I raised these concerns with the authorities when I visited Bangladesh in November 2005.

The High Commission in Dhaka closely monitors incidents of religious persecution and intolerance and regularly lobbies ministers and officials on these issues. Both bilaterally and with our EU partners we shall continue to encourage the Government of Bangladesh to meet its constitutional and international obligations on human rights.

Most recently, in December, the High Commissioner directly lobbied the Bangladeshi Foreign Minister, Morshed Khan, about a potentially violent demonstration against the Ahmadiyyas from the International Khatme Nabuwat Movement. The Bangladeshi authorities did respond effectively, preventing violence on this occasion.

China

Derek Wyatt: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of Chinese investments in Commonwealth countries in Africa; and if he will make a statement. [45309]

Ian Pearson: The Department has not calculated Chinese investments in Commonwealth African countries. However, China is Africa's third most important trade partner, and investments are accelerating in minerals, raw materials and energy. Through the Department for International Development Office in Beijing, we discuss with China the impact its activities and investments are having on poorer nations, including in Africa.

Derek Wyatt: To ask the Secretary of State for Foreign and Commonwealth Affairs when the EU Council of Ministers last met the Chinese Foreign Minister to discuss Chinese investments in Africa; and if he will make a statement. [45310]

Ian Pearson: The EU Council of Ministers has not met the Chinese Foreign Minister to discuss this issue. However, there have been informal discussions on China's role in Africa in the EU context. On 9 December the EU Secretariat organised the first Africa Task Force meeting to discuss this issue with Chinese representatives. The UK supported this useful initiative led by Koen Vervaeke, the Council Secretariat Head of the Africa Task Force.

Derek Wyatt: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last raised the issue of China's raw materials investment programme in African countries with his Chinese counterpart; and if he will make a statement. [45311]

Ian Pearson: My right hon. Friend the Foreign Secretary, has not raised the issue of Chinese investments in African countries. In ministerial contacts with the Chinese ambassador, we have argued for a responsible investment policy, and we have expressed concern about Chinese commercial support for countries with internal problems such as Zimbabwe and Sudan.

Correspondence

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs when the Immigration and Nationality Directorate will reply to the letter of 28 October 2005 from the right hon. Member for Birmingham, Ladywood, on behalf of Nazia Mahmood (post reference 728276, reference M1265571, acknowledgement reference B2588015). [44107]

Dr. Howells: The Immigration and Nationality Directorate passed the right hon. Member for Birmingham, Ladywood's letter to UKvisas on 18 January. UKvisas will reply as soon as possible.

Cuba

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Government of Cuba about the detention of Dr. Oscar Elias Biscet; and if he will make a statement. [44531]

Mr. Douglas Alexander: We are very concerned about the plight of Dr. Oscar Elias Biscet, particularly the effect of the severe conditions of his confinement on his health. Our embassy in Havana continues to monitor Dr. Biscet's case and maintains close contact with his supporters and family. Most recently, a member of our embassy staff met his wife in December 2005. The Government considers his imprisonment to be a grave violation of his civil and political freedoms, and in particular his freedom of expression as recognised in Article 19 of the Universal Declaration of Human Rights, which includes the right 'to seek, receive and impart information and ideas through any media and regardless of frontiers'.

We regularly raise the situation of all political prisoners in Cuba with Cuban authorities both in London and Havana, and call for their immediate release. My noble Friend the Foreign and Commonwealth Office Minister responsible for relations with Cuba, Lord Triesman of Tottenham, most recently raised this with the Cuban Ambassador on 8 November 2005 at the all party parliamentary group Cuba meeting. During our presidency of the EU we issued a number of statements reiterating this message and condemning Cuba's human rights record.

Cyprus

Mr. Gale: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Turkish Government in respect of proposals to build leisure, tourist and educational facilities on illegally-occupied land in the Morphou district of northern Cyprus; and if he will make a statement. [44310]

Mr. Douglas Alexander: We are aware of plans to build leisure, tourist and educational facilities in the Morphou district of northern Cyprus. While we maintain a dialogue with the Turkish Cypriot community on all aspects of the Cyprus settlement, the Government are not in a position to control property development in the north. We recognise that the Turkish Cypriots face powerful economic forces in a perverse political environment and believe that the difficult and complex issues relating to property in Cyprus can only be resolved as part of a comprehensive settlement.

Mr. Gale: To ask the Secretary of State for Foreign and Commonwealth Affairs where he plans to meet Mr. Talat during his forthcoming visit to Cyprus; and in what capacity he is meeting him. [44311]

Mr. Douglas Alexander: My right hon. Friend the Foreign Secretary, plans to meet Mehmet Ali Talat in his offices as leader of the Turkish Cypriot community during his forthcoming visit to Cyprus. This is in keeping with past practice.

Democratic Republic of the Congo

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the current flows of small arms to warring factions in the Democratic Republic of the Congo; and what measures he is taking to ensure a better enforcement of the arms embargo. [43745]

Ian Pearson: The borders of the Democratic Republic of the Congo (DRC) remain porous. Smuggling of small arms to dissident forces is generally small-scale. Throughout eastern DRC, the illicit exploitation of natural resources is connected with the continued proliferation of small arms to the armed factions that guard these mines.

In the UN Security Council in November 2005, the UK and other partners successfully sought agreement to name individuals and organisations responsible for arms embargo violations as provided for in UN Security Council Resolution 1649. These violators will now be

targeted by sanctions including asset freezes and travel bans. We are currently considering the most recent report of the United Nations group of experts, and will be discussing within the Security Council later this month what action can be taken to improve implementation of the arms embargo.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received concerning the state of human rights in the Democratic Republic of the Congo; and what recent representations have been made to the government of that country by his Department. [44581]

Ian Pearson: We have received regular representations from local and international non-governmental organisations regarding the human rights situation in the Democratic Republic of the Congo (DRC). Years of conflict, exacerbated by corruption, illegal exploitation of resources, the collapse of the state and chronic poverty, have led to a high level of human rights violations and abuses of humanitarian standards.

The UK frequently reminds the DRC authorities of the need to protect the rights of all vulnerable groups and to bring to justice all perpetrators of abuse. An EU-led Resolution on the DRC adopted at this year's UN General Assembly makes clear that the DRC Government must take action to improve human rights conditions, through better command and control of the armed forces, improved freedom of expression and better protection for human rights defenders.

Iraq

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs on how many occasions consular officials have visited Mr. Hilal Al Jedda in Iraq; and what other consular assistance has been offered to him. [45386]

Ian Pearson: Consular officials have not visited or provided any consular assistance to Mr. Al Jedda, who is a dual Iraqi-British National.

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs whether Mr. Hilal Al Jedda will be tried according to international norms or returned home to the United Kingdom. [45387]

Ian Pearson: Mr. Al Jedda is detained in Iraq pursuant to UN Security Council resolutions 1546 (2004) and 1637 (2005) and Iraqi legislation, which authorise the Multi-National Force in Iraq to detain persons where this is necessary for imperative reasons of security. He is not currently facing any criminal charges. Mr. Al Jedda travelled voluntarily to Iraq and the UK Government are under no obligation to return him to the UK.

Natural Disasters

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs what UK financial aid has been offered to UK expatriates resident in areas that suffered from natural disasters in 2005; and if he will make a statement. [43423]

Dr. Howells: In the aftermath of Hurricane Katrina in August 2005, we provided the following assistance:

Details	Cost (£)
Return airfares for a British husband and wife Atlanta/London/Atlanta.	3,544.48
Return airfares for a British mother and daughter Atlanta/London/Atlanta.	10,571.60
The cost of the funeral of a British national, who died during the hurricane in New Orleans.	944.69

In the Bali bombing in October 2005, one dual British/Australian national, resident in Australia was killed and a British resident in Australia was injured, along with her Australian husband. Under the Foreign and Commonwealth Office (FCO) Aftercare plan for victims of acts of terrorism overseas, we provided the following assistance:

Details	Cost (£)
Return flights to Australia for two bereaved family members, one from UK and one from Canada.	7,003.65
Medical evacuation from Bali to Singapore and hospital treatment for the injured British national. Return flight London to Singapore and five nights accommodation in Singapore for her sister.	5,234.47

All of the costs indicated were incurred by the FCO. The Department for International Development made no expenditure on UK expatriates resident in areas that suffered from natural disasters in 2005.

Taiwan

Derek Wyatt: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Ministers in his Department have visited Taiwan in the course of their ministerial duties since 1997. [45307]

Ian Pearson: There have been no Foreign and Commonwealth Office ministerial visits since 1997.

Derek Wyatt: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last raised the sovereignty of Taiwan with his Chinese counterpart. [45308]

Ian Pearson: In their bilateral meeting, during the Chinese State Visit in November 2005, my right hon. Friend the Foreign Secretary discussed Taiwan with his Chinese counterpart, Foreign Minister Li Zhaoxing. My right hon. Friend the Prime Minister also discussed Taiwan with President Hu during his meeting.

Our long-standing position on Taiwan remains unchanged: that is, we acknowledge the position of the Chinese Government that Taiwan is a province of China and recognise the Chinese Government as the sole legal government of China. The United Kingdom considers the Taiwan issue is one to be settled peacefully by the people on both sides of the Taiwan Strait. We are strongly opposed to any use of force and urge both sides to engage in constructive dialogue.

Turkey

Mr. David: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps are being taken to ensure that progress is made under the Austrian presidency on negotiations regarding Turkish membership of the European Union. [44097]

Mr. Douglas Alexander: Under the Austrian presidency, the Commission is taking forward the negotiations following the framework agreed on 3 October. It is currently continuing its process of screening Turkey's legislation against the EU acquis. Following the presentation of the Commission's screening reports, member states will consider whether to set benchmarks for Turkey to fulfil before the opening of individual chapters and will then consider whether any chapters are ready to be opened. Throughout the process, the Government will seek to ensure that Turkey be treated on its own merits, just as would any other state negotiating for accession.

War Compensation Scheme

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) whether former British prisoners of war formerly held in Germany are able to apply under the German prisoner of war compensation scheme; [43173]

(2) what progress his Department has made in its examination of the German compensation scheme for prisoners of war. [43174]

Dr. Howells: I refer the hon. Member to the answer given by the then Parliamentary Under-Secretary of State for Defence, Dr. Lewis Moonie, in a debate on this issue on 5 April 2001, *Official Report*, columns 602–04.

The only relevant German compensation scheme of which the Government are aware is the German Forced Labour Compensation Programme, administered for the purposes of the UK by the International Organisation for Migration (IOM), which provides financial compensation to former slave and forced labourers. The German authorities have made clear that this programme specifically excludes Prisoners of War (PoW) as the funds were intended to compensate foreign national civilians who were forcibly conscripted by the Nazis to work as 'slave labourers'. The IOM has administered the scheme accordingly. This meant that being a PoW was not in itself a cause for entitlement to compensation. The deadline for applications to the IOM expired in August 2001.

HOME DEPARTMENT

0870 Numbers

Dr. Cable: To ask the Secretary of State for the Home Department if he will list the occasions in the last five years on which 0870 telephone numbers have been used by his Department as contact numbers for members of the public; and how much revenue was received from the use of 0870 contact numbers in each of the last five years for which records are available. [24456]

Mr. Charles Clarke: Available records indicate that the 0870 numbers given in the following table have been used by the Home Office and its agencies. On 15 September 2005 the 0870 Home Office general public inquiry number was replaced with a geographical number. The department received no income from calls to the switchboard.

The 0870 numbers used by the Immigration and Nationality Enquiry Bureau (INEB) have been in existence since December 1998 and are published widely. The then Home Secretary, Jack Straw, in March 1998 agreed to the use of 0870 numbers on the understanding that IND re-invest monies earned into improving the telephone bureau operation and thereby customer service. In spring 2002, £750,000 was used to purchase a switchboard with increased functionality for INEB.

Figures are not available for the last five years. For the period one January 2004 to 31 August 2004, IND received £72,067 from BT for the use of 0870 telephone numbers. IND now take no revenue. The use of 0870 numbers in IND is being reviewed. The UK Passport Service have no record of the revenue generated before the financial year 2002–03.

The following revenue was generated:

	£
2002–03	230,593.85
2003–04	252,127.53
2004–05	383,264.74
1 April to 31 October 2005	238,605.96

The Criminal Records Bureau operates as a public/private partnership with Capita Plc and operates six 0870 telephone numbers as contact numbers for the public. The Home Office receives no revenue for calls made to these numbers.

Alcohol Sales (Under-age People)

Bob Spink: To ask the Secretary of State for the Home Department how many fixed penalty notices were issued for *(a)* consumption of alcohol by and *(b)* selling alcohol to under age people in (i) Essex and (ii) Castle Point in each of the last five years. [42906]

Paul Goggins: The Penalty Notice for Disorder (PND) scheme was brought into effect in England and Wales during 2003–04 to provide the police with a quick and effective means of dealing with minor offences. Under the scheme an offender is issued with a fixed penalty notice and has 21 days in which to pay the penalty or request a court hearing.

The offences of sale of alcohol to a person under 18 and consumption of alcohol by a person aged under 18 in licensed premises were added to the scheme with effect from 1 November 2004. The numbers of penalty notices issued for offences related to buying and consuming alcohol in Essex police force area, are provided in the table.

It is not possible to identify all Penalty Notices issued in Castle Point because the data is not broken down to that level of detail.

Number of penalty notices for disorder for certain offences relating to alcohol, Essex police force area, 2004 and 2005 (provisional)[1]

Offence description	*2004*	*2005*
Selling alcohol to person under 18	7	85
Consumption of alcohol by under 18 in licensed premises	—	—

[1] Provisional data January to September 2005

Antisocial Behaviour

David Davis: To ask the Secretary of State for the Home Department (1) what proportion of antisocial behaviour orders issued to *(a)* under 18s and *(b)* under 16s have been breached in each year since 1999; [42146]

(2) what proportion of antisocial behaviour orders have been breached in each year since 1999. [42227]

Hazel Blears: Antisocial behaviour order (ASBO) breach data are currently available from 1 June 2000 to 31 December 2003 for ASBOs issued since 1 June 2000. Age data are for those aged 10–17 and 18 and over. During this period 47 per cent. of ASBOs issued to persons aged 10–17 within the period were breached on one or more occasions. The corresponding percentage for those aged 18 and over is 38 per cent. The overall breach rate is 42 per cent.

Judy Mallaber: To ask the Secretary of State for the Home Department how many people in *(a)* Derbyshire and *(b)* Amber Valley have been issued with anti-social behaviour orders *(a)* in total and *(b)* in each year since their introduction. [42938]

Hazel Blears: A table giving a breakdown by the criminal justice system area and local government authority area in which prohibitions are imposed within antisocial behaviour orders (ASBOs) is available on the crime reduction website at www.crimereduction.gov.uk. This table gives data by year since ASBOs were introduced up to 30 June 2005 (latest available).

Mr. Andrew Turner: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in each area since their inception; how many breaches have been recorded; how many prosecutions for breach there have been; how many recordings for breach have been obtained; and if he will make a statement on his policy on the recording of breaches. [44276]

Hazel Blears: A table giving a breakdown by the criminal justice system area and local government authority area in which prohibitions are imposed within antisocial behaviour orders (ASBOs) is available on the Crime Reduction website at www.crimereduction.gov.uk.

This table gives data by year since ASBOs were introduced up to 30 June 2005 (latest available). The number of times persons have breached their ASBOs are not collected centrally.

The Home Office Court Proceedings Database (HOCPD) only holds breach proceedings where there has been a conviction for breach of an ASBO. ASBO breach data are currently available from 1 June 2000 to 31 December 2003 for ASBOs issued since 1 June 2000. Of the number of ASBOs issued during this period, as notified to the Home Office, the HOCPD records 2,053 occasions where a conviction was recorded for breaching an ASBO.

Asylum/Immigration

Keith Vaz: To ask the Secretary of State for the Home Department how many asylum seekers *(a)* whose claims are being processed and *(b)* who are appealing against a refusal for asylum are resident in the UK. [32818]

Mr. McNulty: As at the end of September 2005 there were 6,100 asylum applicants awaiting an initial decision (4,000 cases were work in progress ie the application had been outstanding for six months or less), all residing in the UK. As at the end of September 2005 the total asylum work in progress at the Asylum and Immigration Tribunal was 9,000 (to the nearest thousand).

A proportion of the 9,000 will be non-suspensive appeals, for which the appellant is residing outside the UK. Information on asylum applications is published quarterly. The next publication covering the last quarter of 2004 will be available on 22 February 2005 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Greg Mulholland: To ask the Secretary of State for the Home Department how many people in Leeds, North West are *(a)* registered as asylum seekers and *(b)* registered migrants awaiting decision to be awarded status to remain in the UK. [38213]

Mr. McNulty *[holding answer 15 December 2005]:* Statistics on the location of asylum seekers in the UK are linked to the available information on the support that the asylum seeker receives. The number of asylum seekers supported by the National Asylum Support Service (NASS) are published on a quarterly and annual basis, broken down by local authority.

Jeremy Corbyn: To ask the Secretary of State for the Home Department what monitoring of the safety and welfare of deported asylum seekers to *(a)* Somaliland and *(b)* Somalia is undertaken; and from what sources his Department gains information to assess the personal safety and security of such people. [44459]

Mr. McNulty: As with returns to all countries, the Home Office does not routinely monitor the treatment of individual Somali nationals (both from Somalia and Somaliland) once removed from the UK. Where we refuse a claim and the Asylum and Immigration Tribunal (AIT) dismisses any appeal we consider that it is safe for that individual to return. This is one of the reasons why the Government do not routinely monitor the treatment of individuals once removed from the UK.

However, if specific allegations are made that any returnee has experienced ill-treatment on return from the UK, these are followed up through the Foreign and Commonwealth Office and the British high commission in Nairobi as a matter of urgency. The Government consider the safety of any prospective returnee at the initial decision stage and it is also covered by the AIT at the appeal stage. These assessments are made against the background of current information from a wide range of well-recognised sources about the situation in Somalia, including inter-governmental bodies, governmental sources and non-governmental human rights organisations.

Mr. McGovern: To ask the Secretary of State for the Home Department what discussions he has had with the Scottish First Minister about the use of dawn raids in asylum cases. [25315]

Mr. McNulty: [*holding answer 7 November 2005*]: My right hon. Friend the Home Secretary and I have had discussions in person and on the phone with the First Minister on this and other subjects. In addition Immigration Service officials have met with officials from the Scottish Executive and Scotland Office in order to discuss the removal of failed asylum seeking families from Scotland.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many failed asylum seekers sought by his Department have been found through the use of Quick Check since its inception; and if he will make a statement. [43198]

Mr. McNulty: Quick Check records are available from one August 2004. Between this date, and 29 October 2005, a total of 60,660 Quick Check searches were submitted to the Immigration Asylum Fingerprint System (IAFS) database, and 25,283 possible matches identified.

Fingerprints captured by Quick Checks can be matched against those on an Application Registration Card (ARC), or transmitted for searching on the IAFS database. The result, which is automatically forwarded to the sender, is either "Possible Identification", this may require fingerprint expert verification, or "No match". Asylum status is not available on results forwarded from the IAFS to Quick Checks.

Audible Fire Alarms

Bob Spink: To ask the Secretary of State for the Home Department what proportion of the premises occupied by his Department is fitted with audible fire alarms. [42878]

Mr. Charles Clarke: The Department is committed to ensuring compliance with fire safety law in premises it occupies. It is estimated that the proportion of premises occupied by the Department with audible fire alarm systems is roughly 90 per cent. The Department does not hold a central record of precisely how many premises have audible fire alarm systems. Instances where audible fire alarm systems are not installed include small buildings where there is no requirement under the Building Regulations. Otherwise some areas where persons are held in custody do not have audible fire alarm systems but in these instances controlled and managed contingency procedures will be in place.

Automatic Number Plate Recognition

Anne Snelgrove: To ask the Secretary of State for the Home Department (1) what mechanisms are in place to ensure access by individuals to information about themselves gathered by means of the automatic number plate recognition system; [42367]

(2) what assessment he has made of the impact on personal privacy of rolling out the automatic number plate recognition system. [42368]

Hazel Blears: My officials have been working closely with the Association of Chief Police Officers (ACPO) to ensure that information collected by automatic number plate recognition (ANPR) technologies and retained by the police is cognisant of the relevant data protection legislation. The specific ACPO guidance ensures that the principles detailed in part one of schedule one of the Data Protection Act 1998 and the Freedom of Information Act 2000 are followed by all police forces in relation to access to this information by individuals.

This document covers the European Convention for Human Rights, Data Protection, the Regulatory Investigative Powers Act 2000 and the Freedom of Information Act 2000 relating to the police use of ANPR (excluding speed enforcement devices) and is applicable to all police forces in England and Wales.

Bicester Accommodation Centre

Tony Baldry: To ask the Secretary of State for the Home Department how much compensation was awarded to GSL UK Ltd. for *(a)* construction works, *(b)* design works, *(c)* legal costs, *(d)* financial costs and *(e)* professional advisory costs on termination of the contract to build an accommodation centre for asylum seekers at Bicester. [43508]

Mr. McNulty: No compensation has been paid to GSL (UK) Ltd. following termination of the contract to design, build and operate the accommodation centre near Bicester. All amounts certified for payment to GSL (UK) Ltd. are covered by the contract, which also allows for a number of merited payments in the event of voluntary termination of the contract by the Home Office. The information relating to those payments is not available in the form requested. It could be provided only at disproportionate cost.

Tony Baldry: To ask the Secretary of State for the Home Department what the cost to his Department was of purchasing site A at Ministry of Defence Bicester to build an accommodation centre for asylum seekers. [43510]

Mr. McNulty: The cost of the land was £3.25 millions; there were additional transaction costs of some £16,000.

Tony Baldry: To ask the Secretary of State for the Home Department on what date GSL UK Ltd. signed the contract to build an accommodation centre for asylum seekers at Bicester. [43511]

Mr. McNulty: The contract is dated 17 June 2004.

Tony Baldry: To ask the Secretary of State for the Home Department on what date his Department agreed a compensation package with GSL UK Ltd. after the contract to build an accommodation centre for asylum seekers at Bicester was terminated. [43512]

Mr. McNulty: Discussions of GSL's claim under the contract termination procedure continue.

Tony Baldry: To ask the Secretary of State for the Home Department what the cost to his Department was of pursuing plans for an accommodation centre for asylum seekers at Bicester *(a)* at planning inquiry and *(b)* at judicial review. [43513]

Mr. McNulty: The information is not available in the form requested. It could be provided only at disproportionate cost.

Cash-in-transit Crime

Mr. McGovern: To ask the Secretary of State for the Home Department pursuant to the answer of 11 October 2005, *Official Report*, column 2526W, on cash-in-transit attacks, what discussions his Department has had with *(a)* the British Security Industry Association and *(b)* the police since September regarding the reduction of cash-in-transit robberies in England and Wales; and what progress has been made in developing national strategies to reduce such attacks. [42931]

Hazel Blears *[holding answer 16 January 2006]:* I had a very constructive meeting with representatives of the British Security Industry Association, the GMB union and Group four Securicor on 18 January 2006, where we agreed to work together, with other partners, on devising ways to reduce the number of cash-in-transit robberies.

Charity Commission

Dr. Starkey: To ask the Secretary of State for the Home Department (1) whether the Charity Commission is required to investigate a charity more than once in relation to the same allegations without the provision of additional documentary evidence; [43666]

(2) whether the activities of charities are inspected on a regular basis by the Charity Commission; and how often such inspections took place in each of the last five years. [43667]

Paul Goggins: This is a matter for the Charity Commission as the Government Department responsible for the regulation of charities in England and Wales. The chief executive of the Charity Commission will write to the hon. Member and a copy of his reply will be placed in the Library.

Codes of Practice (Compliance Auditing)

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how the Codes of Practice of *(a)* the Police and Criminal Evidence Act 1984 and *(b)* the Criminal Procedure and Investigations Act 1996 are audited for compliance; who is responsible for auditing compliance; and whether the reports on compliance are published. [42525]

Hazel Blears: Compliance with the PACE and CPIA Codes is an operational issue for the chief officer of the force concerned. Police officers are required to keep decision logs stating decisions made and the reasons for those decisions. Senior supervising officers are required to monitor and supervise the use and application of the provisions of the codes.

Any breach of the codes may result in an officer facing action under disciplinary and complaints procedures. The Crown Prosecution Service will consider the investigation into a case before deciding to charge. The Attorney-General's guidelines on disclosure place specific duties on the CPS to review police documentation under the CPIA Code; PACE Code C provisions require compliance with the guidelines when considering a decision to charge a suspect.

The courts who provide routine oversight of the police's compliance with both the PACE and the CPIA Codes, in that, for example, the defendant may raise a successful abuse of process argument at the trial based on an alleged breach; the court may decide to exclude evidence and the defendant may be acquitted as a result.

Independent Custody Visitors and Appropriate Adults are empowered to examine and report on the conditions and treatment of detainees in police custody in accordance the safeguards set out in PACE Code C.

Community Support Officers

Miss McIntosh: To ask the Secretary of State for the Home Department for what period funding allocations for community support officers (CSOs) will apply; and what plans he has for funding CSOs when the current funding period expires. [43416]

Hazel Blears: We are making available £88 million in 2006–07 and £340 million in 2007–08 through the Neighbourhood Policing Fund (NPF) to help forces increase community support officer (CSO) numbers to 24,000 by March 2008. In addition, we continue to provide funding support of £44 million in 2006–07 and £47 million in 2007–08, for a number of CSOs recruited by forces before the NPF was introduced. We have made it clear that, we will sustain the investment in CSOs and in the longer term we will put this money into general police funding.

Consultants

Gregory Barker: To ask the Secretary of State for the Home Department how much has been spent on consultants in each year since 1997. [17566]

Mr. Charles Clarke: The information held by the Home Office on its spend on consultants is as follows:

	£
1997–98	7,627,016
1998–99	4,588,445
1999–2000	10,302,672
2000–01	27,877,286
2001–02	21,147,058
2002–03	Not held
2003–04	106,800,000
2004–05	46,900,000

We do not hold information on the Department's total expenditure on consultants for 2002–03 and to obtain this information would incur disproportionate cost.

The best information available for the financial year 2003–04 from interrogation of the business and accounting strategic system (BASS), indicates that the cost of external consultants to the department in 2003–04 was £106.8 million.

The best information available for the financial year 2004–05 from the interrogation of the Adelphi Enterprise resource planning (ERP) system accounts payable module indicates that the cost of external consultants to the department was £46.9 million.

The department awards contracts in open competition according to the EU procurement regulations based on best value for money. The use of external consultants in the Home Office provides the department with specialist knowledge, skill, capacity and technical expertise that is not otherwise available in-house.

Crime

Mark Williams: To ask the Secretary of State for the Home Department pursuant to the answer of 1 November 2005, *Official Report*, column 925W, on crime, what plans he has to extend the Partners Against Crime Partnership; and if he will make a statement. [44050]

Hazel Blears: A local evaluation of this trial initiative, which was set up in partnership by Dyfed-Powys police and the Post Office Ltd., began at the end of the initiative in October 2005. I understand that the evaluation will be completed in spring 2006.

Any decision to extend the Partners Against Crime Partnership will be made by local police and partners when the evaluation has been completed.

Miss McIntosh: To ask the Secretary of State for the Home Department what the reported level of *(a)* burglaries and *(b)* robberies was in the last period for which figures are available. [41913]

Hazel Blears: The latest figures relate to England and Wales as a whole for the period April to June 2005. The figures were published in Table A (page 10) of 'Crime in England and Wales: Quarterly Update to June 2005'.

The publication is Home Office Statistical Bulletin 18/05 and can be accessed online via the following link:

http://www.homeoffice.gov.uk/rds/hosbpubs1.html

Mr. Jenkins: To ask the Secretary of State for the Home Department what recent estimate he has made of levels of *(a)* violent crime, *(b)* car crime, *(c)* robbery and *(d)* burglary in Tamworth constituency; and if he will make a statement. [42099]

Hazel Blears: The available information relates to recorded offences in the Tamworth Crime and Disorder Reduction Partnership area and is given in the table.

Offences recorded in the Tamworth crime and disorder reduction partnership area, 2004–05

Offence	*Number of offences*
Violent crime[1]	2,436
Car crime	800
Robbery	80
Domestic burglary	444

[1] Includes offences of violence against the person, sexual offences and robbery.

Mr. Jenkins: To ask the Secretary of State for the Home Department how many offences involving air weapons there have been in each division of the Staffordshire police force in each year since 2001. [43475]

Hazel Blears: Centrally-collected data for recorded crime involving firearms in England and Wales are only available at police force level. Staffordshire Police recorded 270 offences involving air weapons in 2001–02, 309 in 2002–03 and 274 in 2003–04. The National Crime Recording Standard was introduced on 1 April 2002. Figures before and after this date are not directly comparable.

Criminal Record Checks

Mr. Gibb: To ask the Secretary of State for the Home Department how many criminal record checks were carried out in each year since 2002; and how many of these were *(a)* standard disclosure and *(b)* enhanced disclosure. [42570]

Andy Burnham: The total number of standard and enhanced CRB checks issued in each year since 2002 is broken down as follows:

Number

	Standard	*Enhanced*	*Total*
11 March 2002 to 31 December 2002	118,599	808,564	927,163
1 January 2003 to 31 December 2003	271,952	1,886,197	2,158,149
1 January 2004 to 31 December 2004	286,984	2,198,362	2,485,346
1 January 2005 to 31 December 2005	298,315	2,391,694	2,690,009

The information requested by the hon. Member for Bognor Regis and Littlehampton regarding CRB checks issued specifically for positions within schools is not available. However, details of the total number of disclosures issued for the education sector are as follows:

Financial year	Number disclosures
2002–03	439,000
2003–04	553,000
2004–05	596,000
2005–31 December	516,000

On average, 93 percent. of disclosures issued to the education sector are at the enhanced level.

Mr. Gibb: To ask the Secretary of State for the Home Department how many requests for criminal record checks were made by schools in each year since 2002; and how many of these requests were for *(a)* standard disclosure and *(b)* enhanced disclosure. [42571]

Andy Burnham: The total number of standard and enhanced CRB checks issued in each year since 2002 is broken down as follows:

	Standard	Enhanced	Total
11 March 2002 to 31 December 2002	118,599	808,564	927,163
1 January 2003 to 31 December 2003	271,952	1,886,197	2,158,149
1 January 2004 to 31 December 2004	286,984	2,198,362	2,485,34
1 January 2005 to 31 December 2005	298,315	2,391,694	2,690,009

The information requested by the hon. Member for Bognor Regis and Littlehampton regarding CRB checks issued specifically for positions within schools is not available. However, details of the total number of disclosures issued for the education sector are as follows:

Financial year	Number disclosures
2002–03	439,000
2003–04	553,000
2004–05	596,000
31 December 2005	516,000

On average, 93 per cent. of disclosures issued to the education sector are at the enhanced level.

Criminal Records Bureau

Steve McCabe: To ask the Secretary of State for the Home Department how many *(a)* basic, *(b)* standard and *(c)* enhanced disclosures have been issued by the Criminal Records Bureau in the last year for which figures are available. [42787]

Andy Burnham: The Criminal Records Bureau issued 298,315 Standard Disclosures and 2,391,694 Enhanced Disclosures between 1 January 2005 and 31 December 2005. In that time no Basic Disclosures were issued because this product has not yet been launched.

Annette Brooke: To ask the Secretary of State for the Home Department what the current average time is that a school may expect to wait for an enhanced disclosure from the Criminal Records Bureau for a prospective member of its teaching staff. [44411]

Andy Burnham *[holding answer 20 January 2006]:* Information is not available to provide an answer to the hon. Member for Mid-Dorset and North Poole in the specific format requested. However, during the 12 month period up to 31 December 2005, the average time for completion of all Enhanced Disclosures is 31.5 days, excluding any time an application has to be returned to a customer.

Animal Welfare

Anne Snelgrove: To ask the Secretary of State for the Home Department how many people were convicted of cruelty towards animals in Swindon in each year since 1997. [42169]

Paul Goggins: Persons found guilty for various offences connected with animal cruelty are shown in the table for Swindon petty sessional area, 1998 to 2004.

Number of offenders1 found guilty for offences relating to animal cruelty in Swindon petty sessional area, 1997–2004

[1] Principal offence basis.

Departmental Estate (Castle Point)

Bob Spink: To ask the Secretary of State for the Home Department what *(a)* land and *(b)* property is owned by his Department in Castle Point. [42892]

Mr. Charles Clarke: The Home Department does not own land or property in the borough of Castle Point, Essex.

Departmental Expenditure

Kerry McCarthy: To ask the Secretary of State for the Home Department what assessment he has made of the effects on re-offending rates on release of prisoners having maintained family ties during periods in custody. [41593]

Fiona Mactaggart: No analysis is currently possible on the direct association between the maintenance of family ties during custody and reconviction rates as statistical information is not routinely collected on the family ties of prisoners.

However, the Government recognise the importance of family ties to prisoners and the Resettlement Survey 2003 indicated that over a third (37 per cent.) of prisoners who had at least one visit from family members or a partner reported having employment, training or education (ETE) arranged on release compared with 16 percent of those not receiving any visits. ETE is an important factor in successful resettlement and reducing reoffending.

The findings from this survey (and equivalent surveys for 2001 and 2004) form the basis of a reconviction study which is currently being undertaken. This will include an analysis of any association between family or partner visits (and other factors) and subsequent proven reoffending. Our aim is to publish later in the year.

Departmental Finance

Pete Wishart: To ask the Secretary of State for the Home Department what the cost was of pension contributions incurred by *(a)* his Department, *(b)* each (i) non-departmental public body, (ii) executive agency and (iii) other public body for which he is responsible in (A) Scotland, (B) Wales, (C) each of the English regions and (D) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06. [39978]

Mr. Charles Clarke: The table details the Home Office employer Accruing Superannuation Liability Charges (ASLC) for the financial years requested. These costs are for the Principal Civil Service Pension Scheme. It is not possible to split these costs by country or region. The data has been broken down by Home Office Department, agency, non-departmental public body or other Home Office public body.

Entries on the table marked by an asterisk show that no ASLC was appropriate for the relevant body in that year. This may be because the body did not yet exist or has ceased to exist. In some cases, machinery of Government changes have moved the body to another Government Department.

The projected figures in the final column (for 2005–06) are extrapolated from the actual costs incurred in that financial year, up to the end of November 2005.

Employer pension costs for Home Office Departments, agencies, non-departmental public bodies and other public bodies.

[1] Up to November 2005.

Departmental Posts

Lynne Featherstone: To ask the Secretary of State for the Home Department what the average time is for identifying candidates for vacant posts in his Department; and if he will make a statement. [42638]

Mr. Charles Clarke: Information is not held centrally on average time taken to identify successful candidates for vacant posts in the Department and information varies across the Department. Within the public sector some recruitment responsibilities are devolved to the various business areas. The Home Department operates a number of different arrangements for filling vacancies each with unique features. Time scales for filling a vacancy can vary considerably depending on the approach taken, the post to be filled and local circumstances. It is not possible therefore to provide this information without incurring disproportionate costs.

Departmental Staff (Secondments)

Lynne Featherstone: To ask the Secretary of State for the Home Department how many *(a)* full-time and *(b)* part-time staff have been seconded to his Department for each year since 2000 from (i) British Telecom, (ii) the Dixons group, (iii) Camelot, (iv) the National Lottery, (v) the Football Association, (vi) Tracker and (vii) the RAC; and if he will make a statement. [42780]

Mr. Charles Clarke: Since 2000 no members of staff, either part-time or full-time have been seconded from the organisations in question.

Drugs Offences

Paul Flynn: To ask the Secretary of State for the Home Department how many people were *(a)* fined the maximum amount and *(b)* imprisoned for the maximum period for possessing (i) cannabis, (ii) cocaine and (iii) heroin in each of the past four years; and what percentage of all people convicted of these offences these figures represent. [43572]

Paul Goggins: Information on the number of people fined and imprisoned for the maximum period of possessing cannabis, cocaine and heroin is shown in the tables as follows.

Number of people given a maximum custodial sentence for possession offences

	2001	percentage of all sentences	2002	percentage of all sentences	2003	percentage of all sentences	2004	percentage of all sentences
Cannabis	25	4	38	6	49	6	51	6
Cocaine	58	3	44	2	19	1	79	5
Heroin	72	5	71	5	48	3	49	5

Notes:
1. Cannabis possession maximum period is five years.
2. Cocaine and heroin possession maximum period is seven years.

Number of people given a maximum fine for possession offences

	2001	Percentage of all fines	2002	Percentage of all fines	2003	Percentage of all fines	2004	Percentage of all fines
Cannabis	18	1	19	1	15	1	28	2
Cocaine	4	0	3	0	8	0	4	0
Heroin	17	0	14	0	29	0	17	0

Notes:
1. The maximum fine given in the magistrate court is £1,000.
2. "0" indicates less than one per cent.

Dum-dum Bullets

Ms Abbott: To ask the Secretary of State for the Home Department if he will make a statement on the use of dum-dum-style bullets by the police. [43065]

Hazel Blears: It is for Chief Officers to decide what ammunition and weapons are appropriate to use in order to meet their own operational requirements, subject to the general law that use offeree by the police must be reasonable in the circumstances. Hollow point ammunition (sometimes, misleadingly, called dum-dum bullets) is used by police in a number of countries.

Fireworks Misuse

Shona McIsaac: To ask the Secretary of State for the Home Department how many fixed penalty notices have been issued for the misuse of fireworks, broken down by police force area. [42560]

Hazel Blears: Offences under the Fireworks Regulations 2004 (made under section 11 of the Fireworks Act 2003) for breach of the national fireworks curfew, the illegal possession of category 4 fireworks and the possession by a person under 18 of an adult firework attract penalty notices for disorder, as well as the offence of throwing fireworks. The offence of

throwing fireworks has been included in the penalty notice for disorder scheme since it was introduced nationally during 2004. The offences under the Fireworks Regulations 2004 were brought into the scheme with effect from 11 October 2004. The number of penalty notices issued by police force area for 2004 and provisional data from January to September 2005 are provided in the following table.

Number of penalty notices for disorder issued for fireworks offences, by police force area, England and Wales 2004 and January-September 2005

	2004				January-September 2005 (provisional)			
Police force	*Throwing fireworks*	*Breach of fireworks curfew*	*Possession of a category 4 firework*	*Possession by under 18 of adult firework*	*Throwing fireworks*	*Breach of fireworks curfew*	*Possession of a category 4 firework*	*Possession by under 18 of adult firework*

RDS—Office for Criminal Justice Reform.

Gun/Drug Crime

Mr. Garnier: To ask the Secretary of State for the Home Department what research he has commissioned into the link between gun crime and drug crime. [43588]

Hazel Blears: The Home Office has commissioned a qualitative study among young men convicted of firearm offences with the aim of exploring criminal pathways into this type of crime as well as the associated motivations and barriers to carrying and using illegal firearms.

The research explores the associations between gun related crimes and the procurement and use of drugs. The Home Office also sponsored the New English and Welsh Arrestee Drug Abuse Monitoring (NEW-ADAM) survey, which involved interviewing and drug testing those arrested by the police, included questions on carrying guns.

A paper based on the data has been published by T. H. Bennett and K. Holloway, "Possession and use of illegal guns among criminals in England and Wales" (Howard Journal of Criminal Justice, Vol 43, No 3, pp 237–252).

Sir Iqbal Sacranie

Philip Davies: To ask the Secretary of State for the Home Department if he will make a statement on the investigation by the police of recent statements by Sir Iqbal Sacranie relating to homosexuality. [44451]

Hazel Blears: The chief constable is responsible for the day to day operational management of the force. You may therefore wish to redirect your query to him.

IT Systems

Lynne Featherstone: To ask the Secretary of State for the Home Department how many probation areas are connected to the prison OASys IT system; and if he will make a statement. [42632]

Fiona Mactaggart: Five probation areas are currently connected to the Prison Service OASys system. They are Cheshire, Cumbria, Lancashire, Merseyside and Greater Manchester.

Licensing Reforms (Offences)

Mr. Garnier: To ask the Secretary of State for the Home Department how many people *(a)* over 18 years and *(b)* under 18 years have been (i) arrested for, (ii) charged with and (iii) convicted of (A) public order offences and (B) public drunkenness since the introduction of 24 hour licensing in England and Wales. [43585]

Paul Goggins: The information requested on arrests and charges is not collected centrally. The information requested on convictions is not currently available. The Licensing Act 2003 came into force on 24 November 2005 and data for convictions in 2005 will not be available until autumn of 2006.

Methadone

Mr. Oaten: To ask the Secretary of State for the Home Department how many registered methadone users there are in *(a)* Altcourse, *(b)* Bullingdon, *(c)* Elmley, *(d)* Holme House and *(e)* Hull prisons; and if he will make a statement. [37508]

Fiona Mactaggart: Individual prisons do not hold any central register of individuals who are receiving treatment by particular categories such as methadone.

Ministerial Travel

Norman Baker: To ask the Secretary of State for the Home Department how much has been spent in each year from 1 May 1997 on ministerial travel arrangements, broken down by *(a)* provision and running costs of vehicular transport, *(b)* first class travel by rail, *(c)* standard class travel by rail, *(d)* first class travel by air, *(e)* club or equivalent class travel by air and *(f)* economy class travel by air. [27782]

Mr. Charles Clarke: The information requested is not held centrally and to provide would incur disproportionate costs. All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Library.

My hon. Friend the Parliamentary Secretary at the Cabinet Office (Mr. Murphy) has asked Roy Burke, chief executive of the Government Car and Despatch Agency (GCDA) to write to the hon. Member with details of the costs of ministerial vehicles provided to Departments in 2004–05. Copies of his letter will be placed in the Library. For information for the financial years 2000–01 to 2003–04 I refer the hon. Member to the letters from the chief executive of the GCDA to the hon. Member for Buckingham (John Bercow) dated 10 January 2005 and to the then hon. Member for Arundel & South Downs (Howard Flight) dated 13 September 2003. Copies of these letters are available in the Library. In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing 500 or more during each financial year.

The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information for the financial years 1995–96 to 2004–05. Information for 2005–06 will be published as soon as it is ready after the end of the current financial year.

Mobile Phones

Bob Spink: To ask the Secretary of State for the Home Department (1) how many instances have been recorded of the police using mobile phone location data *(a)* to track a criminal and *(b)* to effect a rescue operation; [42704]

(2) how many instances have been recorded of the police using mobile phone location data *(a)* to track a criminal and *(b)* to effect a rescue operation. [43782]

Hazel Blears: The information requested is not available centrally from the recorded crime statistics.

Bob Spink: To ask the Secretary of State for the Home Department what assessment his Department has made of the effect of the Immobilise Phone Crime Initiative in reducing levels of mobile phone theft. [42577]

Hazel Blears: The Immobilise Phone Crime campaign was launched in March 2003, to publicise that stolen phones could now be blocked across all UK networks. This was a key step in tackling mobile phone theft, as it removed the incentive to steal a mobile phone because it could now be rendered useless.

We do not hold figures for mobile phone theft centrally, but Home Office research (HORS 235) shows that a mobile phone is involved in about half of all robberies. A number of interventions occurred at a similar time to the Immobilise campaign, most notably, the Street Crime Initiative. Figures show that robbery fell by 32 per cent. between 2001–02 and 2004–05 in the areas in which the Initiative was implemented, despite increases in mobile phone ownership. The targeted nature of the Immobilise campaign, and the link between mobile phones and robbery would indicate that the campaign may have contributed to this reduction.

Bob Spink: To ask the Secretary of State for the Home Department when he expects to publish statistics from the National Mobile Phone Crime Unit on tackling mobile handset theft and related street crime. [42578]

Hazel Blears: Figures for mobile phone theft are not held centrally as it is not a distinct offence category. However, based on Home Office research (HORS 235) we know that a mobile phone is involved in about half of all robberies. The National Mobile Phone Crime Unit (NMPCU) is a dedicated law enforcement unit set up to focus specifically on this serious crime and operates primarily in an intelligence gathering capacity. A key

driver for mobile phone theft has been the ability to re-programme the IMEI number (unique serial number) of a phone, thus turning a useless object into a valuable and re-sellable commodity.

The NMPCU has been proactively targeting individuals engaged in this activity. Since January 2004 there have been 400 individual operations and 34 successful cautions and convictions. This has resulted in a number of custodial sentences and fines under the Mobile Telephones (Re-programming) Act 2002 and related legislation.

Mr. Crausby: To ask the Secretary of State for the Home Department how many people have been prosecuted for using a mobile phone while driving a vehicle in *(a)* the UK and *(b)* Greater Manchester. [43097]

Paul Goggins: Data from the court proceedings database held by the Office for Criminal Justice Reform show that the number of people proceeded against at the magistrates courts for the use of a hand held mobile phone while driving, under the Road Vehicles (Construction and Use) Regulations 1986 Reg.110(1) was 54 in Greater Manchester and 475 in England and Wales, 2004. Information for Scotland is a matter for the Scottish Office and that for Northern Ireland for the Northern Ireland Office.

Naturalisation Helpline

Mr. Oaten: To ask the Secretary of State for the Home Department what the average waiting time was for calls to the 0845 0105200 helpline for inquiries on naturalisation to be answered in the last period for which figures are available; and how many unanswered calls there were in that period. [38143]

Mr. McNulty: The average waiting time for November 2005 was four minutes 25 seconds. The volume of unanswered calls in November 2005 was 109,560 from a total of 141,552 calls offered. A review of staffing levels at the Nationality helpdesk has been conducted to assess what the required level of staffing needed is to meet the demand for the service. It is intended to increase the number of call handlers progressively in the period up to summer 2006 to twice the current level.

Neighbours from Hell Website

Mr. Holloway: To ask the Secretary of State for the Home Department how many e-mail messages *(a)* from people living in Gravesend and *(b)* in total have been received by his Department since the Prime Minister urged readers of *The Sun* to shop yobs to the Home Office via the neighboursfromhell@thesun.co.uk e-mail address. [43271]

Hazel Blears: Encouraging members of the public to report antisocial behaviour is an important part of the Government's overall strategy to tackle and not tolerate the problem.

At the time of answering, *The Sun* had forwarded to the Home Office 91 responses to their campaign: none of these have come from people identifying themselves as having come from Gravesend.

Parenting Orders

Judy Mallaber: To ask the Secretary of State for the Home Department how many parenting orders have been made in *(a)* Derbyshire and *(b)* Amber Valley. [42940]

Fiona Mactaggart: Since April 2000, the Youth Justice Board has collected the number of parenting orders relating to offending or antisocial behaviour and this is collected by youth offending team areas. 47 of these parenting orders were made in the Derbyshire youth offending team area between 1 April 2000 and September 2005 (the latest data which is currently available).

Since September 2004, the Department for Education and Skills has collected data regarding parenting orders in cases of non-attendance and exclusions from school and this collected by local authority area. Six of these parenting orders were made in the Derbyshire local authority area between September 2004 and 31 July 2005 (the latest data which is currently available). Neither of these sets of data is collected at the sub-Derbyshire level and information cannot therefore be provided for Amber Valley.

Passports

John Hemming: To ask the Secretary of State for the Home Department pursuant to the answer of 9 January 2006, *Official Report*, column 378W, on passports, if the Department will also allow the hand of a parent who is holding a baby to appear in a photograph without invalidating it. [43880]

Andy Burnham: If a baby is being supported by a parent when photographed, the hands of the parent must not be visible above the shoulders of the baby. This is to ensure that the passport issuing system does not capture the supporting hand as part of the subject's face. It is recommended that the services of a photographic studio are used when obtaining passport photographs for very young infants.

John Hemming: To ask the Secretary of State for the Home Department pursuant to the answer of 9 January 2006, *Official Report*, column 378W, on passports, whether the notice added to the UK Passport Service website on photograph standards was published on 22 November 2005 as referred to in the answer or on 21 December as referred to on the UKPS website. [43882]

Andy Burnham: The UKPS website was updated on 22 November to reflect the revised policy adopted after consideration of feedback following the introduction of new photo standards in September 2005. Changes are made to the website as the need arises, and on 21 December a further change was made to advise customers that the digital enhancement of photographs was not recommended. The date on the web page reflects this latter change. The website has been amended to make the timing of these changes clearer.

Mr. Redwood: To ask the Secretary of State for the Home Department what estimate he has made of the number of forged passports in use in the UK in the latest period for which figures are available. [44114]

Andy Burnham: Although by the very nature of the problem it is impossible to quantify the number of forged passports circulating within the UK, it is a

concern I take very seriously. Our response is led by the Immigration and Nationality Directorate's National Document Fraud Unit (NDFU), which is recognised at home and abroad as the leader in its field.

NDFU conducts full forgery detection training for Immigration Nationality Directorate (IND) staff. As a result, in 2004 a total of 8,285 fraudulent documents were detected at UK ports of entry, an increase of 4 per cent. over 2003. Croydon NDFU detected 1,044 fraudulent documents, an increase of 25 per cent.

Our experience in IND, confirmed by agencies such as the Department for Work and Pensions (DWP) and the Driver Vehicle Licensing Agency (DVLA), shows that abuse of identity documents is increasing, assisted by the spread of computer technology. To combat such abuse NDFU provides forgery detection training to other organisations including the police, Customs and Excise, DWP etc, as well as to the private sector, aiding detection of falsified documents within the UK, and hindering the adoption of false identities.

Police

Mr. Llwyd: To ask the Secretary of State for the Home Department what evidential base there is for the figures of 4,000 officers and 6,000 staff as the minimum size of a police force. [30505]

Hazel Blears *[holding answer 21 November 2005]:* The analysis in HMIC's report suggested that there was an optimum size of force, below which it would be hard in the longer term to sustain the required investment in protective service .

There is a clear and statistically significant pattern suggesting that size is a major factor in determining whether a force can attain the requisite performance on the protective services but also insulate against underperformance in other areas HMIC's conclusion was that forces with more than 4,000 officers and 6,000 staff gave the citizen the greatest chance of receiving comprehensive policing services at all levels.

A copy of the paper has been placed on to the police reform website http://police.homeoffice.gov.uk/police-reform/Force-restructuring?view = Standard and in the Library. I wrote to all Members of Parliament on 16 December 2005 updating them on the police force structures review, and including a copy of the 4,000 officer strength threshold for police forces.

Mr. Jenkins: To ask the Secretary of State for the Home Department what the average response time to an emergency call to the police in Staffordshire was in each year since 1997. [42102]

Hazel Blears: Data on time taken to respond to emergency calls is not collected centrally. This is essentially an operational matter for the chief constable and this query could therefore be directed to Staffordshire police.

Mr. Amess: To ask the Secretary of State for the Home Department what guidelines apply to a police officer with a family interest in a legal case continuing to serve in the local geographical area in which the alleged offence took place. [44397]

Hazel Blears: There are no national or statutory guidelines governing the placement of police officers. The deployment of resources within the Essex Police area is an operational matter for which the chief constable has sole responsibility.

Kitty Ussher: To ask the Secretary of State for the Home Department what the determining factors are in deciding whether to call a public inquiry following a death in police custody. [42680]

Hazel Blears: In some cases, an inquiry can be required by law. In other cases the Secretary of State has a discretion and where there are issues likely to affect the whole of a police force then an inquiry may be an appropriate way of dealing with it. Where, in a specific case, it appears that there has been sufficient investigation of the incident then it is likely that the view will be taken that a further inquiry is unlikely to provide further evidence or to be proportionate.

Mr. Harper: To ask the Secretary of State for the Home Department what assessment he has made of the likely effect of the police force restructuring proposals on the crime detection rate *(a)* during the restructuring and *(b)* immediately afterwards for each constabulary in England and Wales. [35296]

Hazel Blears *[holding answer 5 December 2005]:* The Government's Spending Review 2004 public service agreements set a target to improve the delivery of justice by increasing the number of crimes for which an offender is brought to justice to 1.25 million by 2007–08. Within this target, we are committed to bringing about an increase in the sanction detections rate to 25 per cent. over the same period. We remain committed to delivering that improvement and any objectives beyond this period will arise out of the Comprehensive Spending Review 2007.

Mr. Holloway: To ask the Secretary of State for the Home Department what discussions he has had with the chief constable of Kent about police restructuring since the publication of Closing the Gap by Her Majesty's Inspectorate of Constabulary. [37593]

Hazel Blears: The Home Secretary received a business case on police restructuring from the chief constable of Kent, Mr. Fuller, and the chair of the Kent Police Authority, Mrs. Barnes on 23 December 2005.

The Home Secretary has not had any discussions about the restructuring process with the chief constable of Kent. However Mr. Giffard, chief constable of Staffordshire and programme director of the restructuring process, met with the chief constable of Kent and the chair of the Kent Police Authority in London on 15 November. They have also spoken by telephone and in person on a number of occasions. In addition to this there has been regular contact between the Kent project team working on restructuring and the Home Office Review Unit supporting the process.

Lynne Featherstone: To ask the Secretary of State for the Home Department what the salary is of the Police National Bureaucracy Adviser; and if he will make a statement. [42633]

Hazel Blears: The salary of the National Bureaucracy Adviser is £81,555 which is the first increment for an Assistant Chief Constable from Essex police.

Lynne Featherstone: To ask the Secretary of State for the Home Department where the office of the Police National Bureacracy Adviser is; and if he will make a statement. [42636]

Hazel Blears: The National Bureaucracy Adviser is based notionally at the Home Office at 2 Marsham Street. However, she spends most of her time visiting forces to spread good practice; challenge, where necessary, existing practices; and drive force-led reductions in bureaucracy.

Mr. Hollobone: To ask the Secretary of State for the Home Department what proportion of serving police officers in Northamptonshire are grade one qualified emergency response drivers. [42526]

Hazel Blears: Information on the number of officers who are grade one qualified emergency response drivers is not collected centrally

Mr. Amess: To ask the Secretary of State for the Home Department how much money has been spent on policing per head of population in *(a)* Essex and *(b)* the Metropolitan police area of London, broken down by police division, in each year since 1995. [14125]

Hazel Blears: Information on force expenditure at Basic Command Unit (BCU) level is not held centrally. Total force gross revenue expenditure per head of population is set out in the table. Essex receives its fair share of available resources. This year it is receiving £167.0 million in general grants, an increase of 3.75 per cent. (£6.1 million) over last year. If the funding formula had been strictly applied, Essex would have received £13.6 million less. The local distribution of resources is a matter for the Chief Constable and the Police Authority to determine in the light of operational priorities.

Force gross revenue expenditure per head of population

	Essex police	*Metropolitan police*
1995–96[1]	102.64	240.56
1996–97	105.46	243.31
1997–98	109.49	239.88
1998–99	116.27	243.41
1999–2000	118.97	257.83
2000–01[2]	122.52	290.35
2001–02	128.04	305.65
2002–03	133.25	315.78
2003–04	141.41	364.14
2004–05	155.84	381.21

[1] Actual expenditure figures for 1995–96 were not available for Essex from CIPFA. CIPFA 1995–96 estimates have therefore been used.

[2] As of April 2000, the Metropolitan police force was reduced in size by a transfer of responsibility for policing some areas to the surrounding forces, including Essex. These changes need to be borne in mind when comparing figures before and after April 2000.

Source of expenditure information:
CIPFA—Police Statistics (Actuals 1995–96 to 2003–04, Estimates 2004–05).

Source for resident population figures:
Office of the Deputy Prime Minister as used in the calculation of the police funding settlements.

Press Officers

Mr. Harper: To ask the Secretary of State for the Home Department how many press officers are employed by each of the executive agencies of his Department. [44425]

Mr. Charles Clarke: The Home Office has two executive agencies—the Criminal Records Bureau and the UK Passport Service. Neither of these agencies directly employ press officers. All media inquiries to and about the work of these two agencies are dealt with by the central Home office press Office in London. The UK Passport Service funds the salary of one press officer (information officer) in the Home Office press office.

Mr. Harper: To ask the Secretary of State for the Home Department how many new press officers his Department is planning to employ over the next 12 months; and at what estimated cost. [44495]

Mr. Charles Clarke: There will be no planned growth in press officers over the next 12 months. We will only fill vacancies which we cannot predict in advance.

Prisons

Philip Davies: To ask the Secretary of State for the Home Department how many prisoners who have been sentenced to life in prison are on an early release programme. [39664]

Fiona Mactaggart: On 30 November 2005, there were 1,504 life licensees prisoners in the community under active supervision by probation officers. All life licensees are liable to recall to prison for the rest of their lives if their potential risk of harm to the public warrants such action.

There are no early release programmes as such for lifers. Lifers progress through sentence under the framework of a life sentence plan (LSP). This provides the prisoner with a structured means to help him or her reduce their risk.

The bulk of this work is conducted in the secure or "closed" prison estate. Most lifers can normally be expected to progress to open conditions in preparation for possible release, but only where the Secretary of State considers such a move appropriate on risk grounds. Consideration of release cannot take place until the prisoner has served the minimum period of imprisonment deemed necessary for the purposes of retribution and deterrence (the "tariff"). The responsibility for the release of lifers now lies with the independent Parole Board. If the lifer is not released at the tariff expiry point, the Parole Board will consider the

case again at no more than two yearly intervals thereafter. The main criterion governing the Parole Board's consideration is the level of risk of serious harm that the lifer may pose to others.

Keith Vaz: To ask the Secretary of State for the Home Department if he will make a statement on rights of prison inmates in relation to a place of worship. [41686]

Fiona Mactaggart: Prisoners have the right to practise their religion, and the opportunity to attend the main religious observance of the week for the faith in which they are registered. The Prison Service is committed to providing the necessary facilities, including suitable places of worship. Chaplaincy HQ together with the Chaplaincy Council and Area Chaplains continue to work with prison establishments to ensure suitable provision for all faith traditions.

Mr. Garnier: To ask the Secretary of State for the Home Department how many adult prisoners were *(a)* disciplined and *(b)* prosecuted for drugs offences while in custody in the last five years for which figures are available. [43584]

Fiona Mactaggart: The number of adult prisoners found guilty of drug offences while in custody is given in the table. Any decision to prosecute a prisoner for drug offences in custody would be taken by the Crown Prosecution Service and the Prison Service does not collate details of prosecutions undertaken.

	Number of prisoners found guilty at adjudication of attempting to smuggle drugs through visits[1]	*Prisoners guilty of supplying drugs*	*Prisoners punished for unauthorised use of a controlled drug*	*Prisoners punished for possession of a controlled drug*
2004–05	1,065	20	8,467	1,145
2003–04	884	21	8,021	1,036
2002–03	988	13	7,056	797
2001–02	1,123	35	9,441	1,336
2000–01	1,169	26	11,060	1,531

[1] These figures are for all prisoners including juveniles and young offenders

Mr. Garnier: To ask the Secretary of State for the Home Department how many cells in prisons housing adult prisoners in England and Wales were designed to accommodate *(a)* one, *(b)* two, *(c)* three and *(d)* four prisoners; and how many in each category have been accommodating more prisoners than they were designed to house in the last five years for which figures are available. [43591]

Fiona Mactaggart: The total number of prison cells and other accommodation, or levels of cell occupancy, is not recorded centrally. The standard unit of prison accommodation is the prison place, which may be located in cells, cubicles, dormitories, rooms or wards. The wide range in age and type of prison accommodation means there is no standard design of prison cell. Cell capacity is determined by senior operational managers on the basis of their operational judgment and experience.

Mr. Garnier: To ask the Secretary of State for the Home Department how many *(a)* adult males and *(b)* females were in prison and (i) males and (ii) females were in young offender institutions in England and Wales in the latest period for which figures are available. [43592]

Fiona Mactaggart: The information requested, as recorded on the Prison Service IT system, is provided in the table.

Prison population in England and Wales by age and sex, 30 November 2005

	Male	*Female*	*Total*
Adults	62,156	4,019	66,175
Young adults[1] and 15 to 17-year-olds	10,586	545	11,131

[1] Young adults are prisoners aged 18 to 20 but include 21-year-old prisoners who were aged 20 or under at conviction who have not been reclassified as part of the adult population.

Daniel Kawczynski: To ask the Secretary of State for the Home Department whether he has plans to introduce a long service medal for prison officers. [43885]

Fiona Mactaggart: The Prison Service currently has a Director General's Long Service Award, which is awarded to staff in recognition of 25-years service. The Service continues to explore with government colleagues a separate recognition opportunity or medal to reward such very high levels of achievement and long service.

Grant Shapps: To ask the Secretary of State for the Home Department if he will list the projects to build new prisons which have been funded by 'private finance initiatives; how many have been completed; and what stage each of the remaining projects has reached. [44241]

Fiona Mactaggart: Nine new prisons have been opened under the Private Finance Initiative as listed in the table. There are no plans at present to build any new prisons.

1997	HMP/YOI Parc
1997	HMP Altcourse
1998	HMP Lowdham Grange
1999	HMYOI Ashfield
2000	HMP Forest Bank
2001	HMP Rye Hill
2001	HMP Dovegate
2004	HMP Bronzefield
2005	HMP Peterborough

Mr. Bellingham: To ask the Secretary of State for the Home Department what proportion of inmates *(a)* had access to and *(b)* enrolled in formal education and training schemes in each prison in the last year for which figures are available; and if he will make a statement. [44339]

Fiona Mactaggart: All offenders in custody are encouraged to access learning and skills provision. Figures on the numbers enrolled in formal education and training schemes are not collected centrally and could be provided only at disproportionate cost. The data will however become increasingly available through Learning and Skills Council management

information arrangements as they take responsibility for planning and funding offender learning and skills during 2006.

Mr. Bellingham: To ask the Secretary of State for the Home Department what opportunities exist for prisoners to develop *(a)* interpersonal, *(b)* social, *(c)* life, *(d)* self-management and *(e)* coping skills within the Prison Estate; what assessment he has made of the diversity of provision of such education; and if he will make a statement. [44347]

Fiona Mactaggart: The Prison Service offers a broad spectrum of opportunities to develop the skills and meet the needs of prisoners including formal education, specialist programmes, work, training and resettlement courses as well as input from other staff, probation, the voluntary sector, other outside organisations and prisoners themselves.

The opportunities available in a particular area or establishment will vary but are subject to regular review. The roll-out of a common offender assessment system across the National Offender Management Service, and improved offender management arrangements that are being introduced will enable the needs of prisoners to be better met.

Mr. Bellingham: To ask the Secretary of State for the Home Department what steps he is taking to reduce the supply of *(a)* mobile phones, *(b)* drugs and *(c)* alcohol into the Prison Estate; and if he will make a statement. [44370]

Fiona Mactaggart: A comprehensive range of measures is in place to reduce the amount of drugs and associated paraphernalia, including mobile phones, getting into prisons.

It includes:

passive and active drug dogs;

closed circuit television systems and fixed and low-level furniture;

closed visits and visit bans on visitors suspected of smuggling drugs;

sharing of intelligence with police about drug routes into prisons;

the use of the Supply Reduction Good Practice Guide;

mandatory drug testing;

searching strategies; and

deployment of mobile phone detectors and analysis of recovered handsets.

The good general prison security measures already in place serve to reduce the supply of alcohol. In April 2005 introduced a provision in the prison rules to test prisoners for alcohol.

Mr. Bellingham: To ask the Secretary of State for the Home Department what steps he is taking to develop an over-arching strategy for prison education; and if he will make a statement. [44391]

Fiona Mactaggart: My right hon. Friend the Secretary of State for Education and Skills set out our strategy to improve the skills and job prospects for offenders in the Green Paper "Reducing Re-Offending Through Skills and Employment" published on 15 December and copied to all Members of Parliament. The document was published jointly on behalf of the Department for Education and Skills, the Home Office and the Department for Work and Pensions. We have now embarked on an extensive period of consultation, running until the end of May, during which we welcome a full range of views.

Lynne Featherstone: To ask the Secretary of State for the Home Department what steps the Government are taking to bring the number of prisoners held at Leeds prison down to its certified level; and if he will make a statement. [44415]

Fiona Mactaggart: Prison capacity is determined by senior operational managers on the basis of operational judgement and experience. The population at HMP Leeds is currently within its useable operational capacity, which is the total number of prisoners that an establishment can hold taking into account control, security and the proper operation of the planned regime. We have looked very closely at the population level at the prison and have reduced the operational capacity by 104. This will enable HMP Leeds to focus on the many challenges facing it as a local prison.

Proceeds of Crime Act

Rosie Cooper: To ask the Secretary of State for the Home Department how much money was recovered in West Lancashire as a consequence of the Proceeds of Crime Act 2002 in each year since 2002. [43158]

Paul Goggins: Information is not available in the form requested. The total value of confiscation orders obtained by Lancashire constabulary under the Proceeds of Crime Act 2002 and earlier legislation is as follows: 2002/03—£384,750 2003/04—£88,973, 2004/05—£3,475,486.

The total value of cash forfeiture orders obtained by Lancashire constabulary under the 2002 Act is as follows: 2002–03—£81,155, 2003–04—£31,980, 2004–05—£184,486. In addition the total value of confiscation orders obtained by the North West Regional Asset Recovery Team, which covers Lancashire, in 2004–05 was £251,493. Information on the value of orders obtained by Her Majesty's Revenue and Customs in Lancashire is not available.

Public Order Act

Philip Davies: To ask the Secretary of State for the Home Department what guidance has been issued by his Department on investigations and prosecutions under section 5 of the Public Order Act 1986. [44469]

Hazel Blears: Guidance on Section 5 of the Public Order Act 1986 was issued to police forces and the courts in February 1987 in Home Office Circular 11/1987.

Recorded Offences (Humberside)

Shona McIsaac: To ask the Secretary of State for the Home Department how many recorded offences of

(a) burglary, *(b)* thefts and *(c)* thefts from cars there have been in each division of Humberside Police in each year since 2002. [42559]

Hazel Blears: The available information relates to offences recorded in basic command units in the Humberside police force area and is given in the table.

Recorded offences in Humberside 2002-03 to 2004-05

Basic Command Unit	*Offence*	*Number of offences* 2002-03	2003-04	2004-05
East Riding of Yorkshire	Domestic burglary	1,569	1,405	1,203
	Thefts	9,423	9,200	7,695
	Of which:			
	Thefts from cars	2,574	2,702	2,061
Kingston upon Hull	Domestic burglary	5,794	5,049	3,267
	Thefts	24,691	21,759	17,658
	Of which:			
	Thefts from cars	7,085	5,413	4,459
North East Lincolnshire	Domestic burglary	2,358	2,151	1,966
	Thefts	11,378	12,627	11,467
	Of which:			
	Thefts from cars	3,097	3,239	2,987
North Lincolnshire	Domestic burglary	2,492	1,805	1,359
	Thefts	7,950	8,482	6,540
	Of which:			
	Thefts from cars	2,119	2,456	1,680

Shona McIsaac: To ask the Secretary of State for the Home Department how many offences involving air weapons there were in each division of Humberside police in each of the last five years. [42585]

Hazel Blears: The requested data are not collected centrally.

Reoffending

Stephen Hammond: To ask the Secretary of State for the Home Department how many people previously in custody have reoffended in *(a)* Wimbledon and *(b)* the London borough of Merton in each year since 1997. [41708]

Fiona Mactaggart: The most recent reoffending data for adults were published in "Re-offending of adults: results from the 2002 cohort" which is available through the Home Office's website (http://www.homeoffice.gov.uk/rds/index.htm).

The report shows the proportion of offenders who reoffended within two years and were subsequently convicted, and separately identifies offenders given custodial and community sentences. The conviction for the offence is counted even if it occurred beyond the two year follow-up period. Results are given for 2000 and 2002.

Reconviction data for 1997 through 2000 were published in "Prison statistics England and Wales 2002" and data for 2001 were published in "Offender Management Caseload Statistics 2003". Both of these publications are available on the Home Office website. These series count only those convictions that were secured within the two year follow-up period.

Reconviction rates should be used with caution as a number of different factors can influence them. Reconviction rates can be adjusted to take account of the changing characteristics of offenders and these adjusted rates are published on the Home Office's website. The most recent data show that there has been a reduction in reoffending for all offenders of 0.2 per cent. against the 2000 baseline. The Home Office public service agreement target is to reduce re-offending by 5 per cent. by 2006.

Taxis

David T.C. Davies: To ask the Secretary of State for the Home Department how much the Department has spent on taxis in each of the last five years. [6502]

Mr. Charles Clarke: The information requested is contained in the table. Travel by taxi is allowed only in the following circumstances: for journeys for which there is no other suitable method of public transport, where heavy luggage has to be transported to or from the place of departure or arrival, or where the saving of official time is important.

The recorded cost of using taxis over the last two years are given in the following table.

	£
2000-01	133,479
2001-02	306,917
2002-03	362,905
2003-04 1	435,416
2004-05	665,764
Total	1,904,481

Terrorism (UK Airports)

Mrs. Dorries: To ask the Secretary of State for the Home Department what funding will be made available to the Bedfordshire police authority for 2006-07 for the provision of counter-terrorism initiatives at London Luton airport; and if he will make a statement. [42465]

Hazel Blears: The provision of police resources at an airport in the United Kingdom is an operational decision for the chief officer for each individual force.

Police forces in England and Wales with responsibility for policing airports which do not hold designated status are entitled to apply for extraordinary funding to provide an appropriate policing presence in line with the current terrorist threat. Bedfordshire, in line with a number of other forces, has applied for such funding.

The level of funding awarded is determined by the Association of Chief Police Officers acting in full consultation with individual forces and the Home Office. For reasons of security we do not comment on the level of funding or which airports are in receipt of such funding.

Mrs. Dorries: To ask the Secretary of State for the Home Department what representations his Department plans to make to the independent review of policing at airports; and if he will make a statement. [42467]

Hazel Blears: The independent review of policing at airports is being led by Stephen Boys Smith, as announced by the Secretary of State for Transport on nine January. He has requested representations from a number of interested parties including the Home Office. These representations will be made in confidence to the review. The review's findings and recommendations are expected to be completed in late spring.

Mrs. Dorries: To ask the Secretary of State for the Home Department what level of funding was made available to each civil airport within the UK for the provision of counter terrorism initiatives in each year since 1997; and if he will make a statement. [42468]

Hazel Blears: Provision of general security at airports within the United Kingdom is the responsibility of the operating authority for the individual airport concerned. Operational decisions about the nature and deployment of police officers on counter-terrorism duties at airports are made by chief officers of individual forces.

Since 2002–03 those police forces in England and Wales with responsibility for policing an airport which does not hold designated status under the Aviation Security Act 1982 are entitled to apply for extraordinary general funding to provide an appropriate police presence in response to the current terrorist threat. The level of funding awarded to each force is determined by the Association of Chief Police Officers in full consultation with the Home Office and the individual force. For security reasons we do not make public the level of funding provided to an individual force for this purpose.

Travellers

Martin Salter: To ask the Secretary of State for the Home Department if he will encourage *(a)* local authorities and *(b)* local crime and disorder reduction partnerships to use antisocial behaviour orders against those Travellers who persistently cause harassment and distress to local residents in their areas. [42363]

Hazel Blears: Both local authorities and the police have broad powers to deal with antisocial behaviour which apply to Travellers and the settled community alike; they should use these effectively while also working to tackle the causes of antisocial behaviour. Antisocial behaviour orders are one of a number of measures available, which can be used to tackle antisocial behaviour in any community.

Young Offenders

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many young offenders have been placed under intensive supervision in *(a)* Crosby and *(b)* Merseyside in each of the last five years. [43118]

Fiona Mactaggart: There are three Intensive Supervision and Surveillance schemes in Merseyside. Crosby comes under the scheme for Knowsley, St. Helens and Sefton. Data is only available from April 2003 onwards as shown in the following table.

ISSP scheme	*2003–04*	*2004–05*	*2005–06 (to September 2005)*	*Total*
Knowsley, St. Helens and Sefton	72	56	31	159
Liverpool	117	108	57	282
Wirral	56	63	29	148
Total (Merseyside)	245	227	117	589

WALES

Consultants/Special Advisers

Mrs. Gillan: To ask the Secretary of State for Wales (1) pursuant to the answer of 23 November 2005 to the hon. Member for Hemel Hempstead (Mike Penning), *Official Report*, columns 2067–2068W, on consultants/special advisers, what the *(a)* names are and *(b)* periods of service were of the Department's special advisers; [40673]

(2) what the *(a)* names are and *(b)* periods of service were of the Department's special advisers. [43700]

Mr. Hain: The Wales Office was established in July 1999. The names and period of service of special advisers were:

Hywel Francis was appointed in October 1999 until May 2000.

Adrian McMenamin appointed December 1999, and resigned during June 2001 general election, he was then re-appointed in June 2001 until July 2002.

Andrew Bold was appointed in June 2000 and resigned during June 2001 general election. He was re-appointed in June 2001 and resigned again in March 2005, in accordance with Government guidance. He was re-appointed after the general election in May 2005.

Owen Smith was appointed in August 2002 until October 2002. He accompanied Paul Murphy to the Northern Ireland Office.

Phil Taylor was appointed in October 2002 until June 2003.

Matthew Burchell was appointed in May 2005.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Wales what the expenditure on *(a)* buildings and *(b)* insurance of buildings and staff was of his Department in (i) Wales and (ii) each English region in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40100]

Mr. Hain: The information requested is as follows:

(a) The Wales Office expenditure on the buildings for the last three years was:

£

	2002–03	2003–04	2004–05
London:			
Rent	0	10,383	15,761
Rates	46,759	48,222	39,643
Maintenance	199,036	67,785	97,388
Wales:			
Rent	0	120,334	146,544
Rates	0	28,452	30,270

All maintenance cost for Wales are included with the rent charges.

Planned expenditure for financial year 2005–06 are:

	Amount (£)
London:	
Rent	33,879
Rates	48,108
Maintenance	68,419
Wales:	
Rent	146,273
Rates	6,133

(b) In line with the Central Government, the Wales office does not insure its buildings. Central Government has chosen not to take out commercial insurance under conventional procurement techniques, as the premiums payable have not been seen to represent good value for money compared to self-insurance. Full details can be obtained from the Treasury website: www.hm-treasury.gov.uk

Departmental Functions

Mr. Weir: To ask the Secretary of State for Wales which functions of his core Department are carried out in *(a)* Northern Ireland and *(b)* Wales; and what administration costs were associated with these functions for each area in the last year. [39951]

Mr. Hain: The Wales Office carries out no core functions in Northern Ireland.

The Wales Office has a policy and legislative team in Cardiff. Administration costs for these functions can be provided only at a disproportionate cost.

Departmental Jobs

Mr. Weir: To ask the Secretary of State for Wales how many and what percentage of jobs in his Department are located in *(a)* England, excluding Greater London, *(b)* Greater London, *(c)* Wales and *(d)* overseas. [39779]

Mr. Hain: Wales Office posts are split between London and Cardiff offices as follows:

Wales Office posts

	Number	Percentage
London-based posts	46.6	74.0
Cardiff-based posts	16.4	26.0

There are no Wales Office posts elsewhere in England or overseas.

Departmental Staff

Mr. Spellar: To ask the Secretary of State for Wales how many civil servants in his Department worked from home for at least one day a week in the last year for which figures are available. [40281]

Mr. Hain: There is one civil servant within the Wales Office staff that has regularly worked from home on two days of the week over the last year.

Mrs. Gillan: To ask the Secretary of State for Wales how many civil servants were employed in the Wales Office and its predecessors in each year since 1997, broken down by grade and office location; and what the equivalent information is to date in 2005–06. [40811]

Mr. Hain: The Wales Office was established in 1999, following devolution and the establishment of the National Assembly for Wales.

The number and grade of Wales Office staff is published annually in our departmental report.

Approximately 75 per cent. of Wales Office staff are based in London, with the remainder being located in Cardiff.

Bob Spink: To ask the Secretary of State for Wales how many disciplinary actions against civil servants employed in his Department *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43484]

Mr. Hain: None.

Parliamentary Question

Peter Law: To ask the Secretary of State for Wales if he will update his reply to the former hon. Member for Blaenau Gwent on 20 May 2003, *Official Report*, columns 718–19W, on the availability of digital broadcasting for viewers in Blaenau Gwent. [43884]

Mr. Hain: The Government are committed to ensuring that at digital switchover everyone in the UK who can currently receive the main public service broadcasting channels in analogue form will be able to receive them in digital form without needing to pay a subscription.

Switchover for the HTV Wales region will happen in the second half of 2009.

Wales Office

Mrs. Gillan: To ask the Secretary of State for Wales when the report on the performance of the Wales Office in meeting its targets for 2005 will be prepared; and when the report will be published. [40730]

Mr. Hain: In accordance with Treasury guidance and target dates, the Departmental Annual Report will be prepared during February and March, due for publication the end April.

TREASURY

Cancer

Mrs. Curtis-Thomas: To ask the Chancellor of the Exchequer what the survival rates for *(a)* lung, *(b)* breast, *(c)* testicular, *(d)* prostate, *(e)* ovarian, *(f)* bowel and *(g)* other cancers in the most recent period for which figures are available. [45201]

John Healey: The information requested falls within the responsibility of the National Statistician. I have asked her to reply.

Letter from Karen Dunnell, dated 24 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the survival rates for *(a)* lung, *(b)* breast, *(c)* testicular, *(d)* prostate, *(e)* ovarian, *(f)* bowel and *(g)* other cancers have been in the most recent period for which figures are available. (45201)

Cancer survival rates are only produced for specific cancers and are calculated by combining several years of diagnosis. For this reason no single figure is available for the category 'other cancers'.

Survival rates for 21 common cancers among adult patients in England diagnosed during 1998–2001 and followed up to the end of 2003 (covering about 90 per cent. of all cancer cases in these patients) were published on the National Statistics website on 9 May 2005, and are available at: http://www.statistics.gov.uk/statbase/Expodata/Spreadsheets/D8982.xls

One- and five-year survival rates relating to the cancers listed in *(a)*—*(f)* are given in the attached table.

One and five year age-standardised[1] relative survival (percentage) for adult patients[2] diagnosed during 1998–2001 (England), major cancers by sex

	Percentage	
	Patients diagnosed during 1998–2001, England	
Cancer[3]	*One year relative survival*	*Five year relative survival*
Lung		
Men	24.5	6.3
Women	26.3	7.5
Breast		
Women	93.7	79.9
Testis		
Men	98.0	96.6
Prostate		
Men	89.8	70.8
Ovary		
Women	66.9	38.3
Colon		
Men	68.3	49.4
Women	68.2	50.2
Rectum		
Men	74.7	50.0
Women	76.6	53.6

[1] As cancer survival varies with age at diagnosis, the relative rates for all ages (15 to 99) have been age-standardised to control for changes in the age profile of cancer patients over time, thus making them comparable with previously published figures.
[2] Aged 15 to 99 years.
[3] Cancers registered in 1998–2001 are defined by codes in the International Classification of Diseases, Tenth Revision (ICD10). Therefore, lung cancer is defined by codes C33-C34, breast cancer by code C50, testicular cancer by code C62, prostate cancer by code C61, ovarian cancer by codes C56-C57.7, colon cancer by code CIS and rectal cancer by codes C19-C21.

Office for National Statistics

Employment Statistics

John Cummings: To ask the Chancellor of the Exchequer how many *(a)* private sector (i) manufacturing and (ii) service sector and *(b)* public sector jobs there were in Easington constituency in each year since 2000. [45018]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 24 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about private and public sector employment in Easington constituency. (45018)

The Office for National Statistics (ONS) compiles statistics for the United Kingdom of public sector employment from a quarterly survey of public sector organisations. However, estimates at local area level are not available.

Information at local area level is available from the annual local area Labour Force Survey (LFS) of individual people in households. However, in this source, the categorisation of employment in the public or private sector depends upon the responses from the individuals interviewed. As reported by QMS in October 2005 in the publication "Public Sector Employment Trends", some individuals tend to misreport private sector employment as being in the public sector hence leading to overestimates of the share of public sector employment.

With this reservation about the data quality, the attached table shows the number of persons in private sector employment, by the specified splits, and for the public sector, for people resident in the Easington constituency as shown by the annual local area LFS for the 12 month periods ending February 2001 to February 2004.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. Changes in the estimates from year to year should be treated with particular caution.

Persons in employment resident in the Easington constituency by private-public sector split[1]

Thousands

	Private Sector				
12 months ending	*Manufacturing*	*Services*	*Other industries*[2]	*Public Sector*	*Total*
February 2001	10	15	2	6	33
February 2002	7	14	2	9	32

Persons in employment resident in the Easington constituency by private-public sector split[1]

Thousands

12 months ending	*Private Sector* *Manufacturing*	*Services*	*Other industries*[2]	*Public Sector*	*Total*
February 2003	8	14	2	8	33
February 2004	8	13	2	6	29

[1] Public/private sector split based on responses from individuals responding to the annual local area labour force survey—generally overestimate public sector employment.
[2] Other industries are agriculture, fishing, energy and water and construction.
Note:
Estimates are subject to sampling variability. Changes from year to year should be treated with particular caution.
Source:
Annual local area labour force survey.

London Congestion Charge

Mr. Prisk: To ask the Chancellor of the Exchequer what estimate his Department has made of the change in receipts from *(a)* VAT, *(b)* corporation tax and *(c)* national insurance contributions from businesses within the existing London Congestion Charge area since its introduction. [39907]

Dawn Primarolo: Information on VAT, corporation tax and national insurance contributions from businesses within the London Congestion Charge area is not available.

Pensions

Mr. Newmark: To ask the Chancellor of the Exchequer pursuant to the answer of 11 November 2005, *Official Report*, column 775W, on pensions, how allowance was made for future improvement in life expectancy in calculating the estimates of the accrued liability for unfunded public sector pensions. [44831]

Mr. Des Browne: Significant allowance was made for future improvement in mortality, drawing on national population projections and mortality studies undertaken by the actuarial profession. The key actuarial assumptions used to value the liabilities of individual schemes are set out in relevant reports by the scheme actuary and they have, for example, been reported in their respective financial statements such as resource accounts.

Post Office Card Accounts

Danny Alexander: To ask the Chancellor of the Exchequer how many people use the Post Office card account for receipt of child benefit *(a)* in total and *(b)* broken down by region. [45371]

Dawn Primarolo: 622 thousand child benefit recipients were being paid via post office card accounts at December 2005. The breakdown by region is shown as follows.

Number of child benefit customers paid by post office card account: December 2005

Thousand

Government office region	*Number of customers*
United Kingdom[1]	622
England	480
North East	37
Northwest	86
Yorkshire and the Humber	61
East Midlands	41
West Midlands	58
East of England	38
London	66
South East	49
South West	44
Wales	44
Scotland	54
Northern Ireland	40
Abroad and not known	4

[1] Including Abroad and not known

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer (1) when staff at the tax credit office first raised the issue of internet fraud with *(a)* managers, *(b)* the head of the Inland Revenue and *(c)* Ministers; and if he will make a statement; [36796]

(2) on what date he was first made aware of the use of the tax credit internet portal for organised fraud. [44995]

Mr. Francois: To ask the Chancellor of the Exchequer when his Department first became aware that an organised fraud of the tax credit system was being perpetuated via one HM Revenue and Customs website; and if he will make a statement. [44800]

Dawn Primarolo *[holding answer 23 January 2006]:* I refer to the reply I gave to the hon. Member for Yeovil on 10 January 2006, *Official Report*, columns 550–51W.

Mr. Laws: To ask the Chancellor of the Exchequer pursuant to the answer of 10 January 2006, *Official Report*, columns 550–51W, on tax credit, whether the Paymaster General was presented with the option of closing down the online tax credit portal in June 2005; and what the average award of tax credits was to families with *(a)* one child, *(b)* two children and *(c)* three children in the last year for which figures are available. [44244]

Dawn Primarolo: In June 2005 HMRC were satisfied they could continue to manage the balance between providing the internet service for genuine claimants against the risk posed from fraud. HMRC continued to closely monitor this and the decision to close the e-portal was taken in December 2005 after the threat had deemed to have changed.

The average award of tax credits to families for the year 2003–04 is shown in the following table.

	Number
One child	2,122
Two children	2,460
Three children	3,833

Mr. Laws: To ask the Chancellor of the Exchequer on what dates *(a)* he and *(b)* senior HM Revenue and Customs officials have met the (i) police, (ii) National Criminal Intelligence Service and (iii) National Infrastructure Security Co-ordination Centre to discuss tax credit fraud. [44996]

Dawn Primarolo: I refer the hon. Gentleman to the written statements I and the Parliamentary Under-Secretary of State for the Home Department issued on 23 January 2006.

Mr. Laws: To ask the Chancellor of the Exchequer what his latest estimate is of the value of tax credit fraud in the financial year to date. [44997]

Dawn Primarolo: HMRC are currently undertaking a programme of work on finalised 2003–04 awards—the first year of working tax credit and child tax credit—to provide more information on the level of claimant error and fraud. This is due to be completed in spring 2006.

Trade Deficit

Mark Simmonds: To ask the Chancellor of the Exchequer if he will make a statement on the UK's trade deficit. [44185]

John Healey: The most relevant measure of the UK trade in goods and services balance for comparative purposes is not the absolute figure, but the trade balance as a percentage of GDP. As quarterly figures can be volatile, it is more informative to look at annual figures. In 2004, the UK trade balance was in deficit at 3.3 per cent. of GDP, compared to 4.1 per cent. of GDP in 1989. The current account deficit was 2.0 per cent. of GDP over the same period, less than half the peak of 5.1 per cent. of GDP in 1989, and is readily financeable.

Winter Deaths

Rosie Cooper: To ask the Chancellor of the Exchequer how many excess winter deaths of people aged over 65 years there have been in *(a)* West Lancashire, *(b)* Lancashire and *(c)* England in each year since 1997; and if he will make a statement. [45151]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 24 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many excess winter deaths of people aged over 65 years there have been in *(a)* West Lancashire, *(b)* Lancashire and *(c)* England in each year since 1997. (45151)

Figures available since 1997 on excess winter deaths (the excess number of deaths each winter compared to the average during other months of the year) for West Lancashire local authority, Lancashire and England are included in the table below.

The latest available figures for England are for 2004/2005; These are provisional and are not available for areas smaller than Government Office Regions. The latest available figures for smaller areas are for 2003/2004.

Excess winter deaths1 for persons aged 65 years and over for West Lancashire local authority, Lancashire2, and England, 1997–98 to 2004–05

	England		Lancashire		West Lancashire	
	EWD[1]	Index[3]	EWD[1]	Index[3]	EWD[1]	Index[3]
1997–98	20,070	14.9	440	12.6	20	6.7
1998–9	41,110	31.3	940	27.9	70	21.9
1999–2000	42,080	32.6	1,030	31.4	60	19.5
2000–01	21,650	16.7	600	18.5	90	31.7
2001–02	24,100	18.6	670	20.3	60	19.7
2002–03	20,890	16.0	260	7.5	20	6.6
2003–04	20,420	15.6	540	16.4	20	7.3
2004–05[4]	27,000	21.4	—	—	—	—

[1] Excess winter deaths are defined by the Office for National Statistics as the difference between the number of deaths during the four winter months (December to March) and the average number of deaths during the preceding four months (August to November) and the following four months (April to July). Figures for 1997–98 to 2003–04 are rounded to the nearest 10.

[2] The figures provided relate to the current county of Lancashire. This excludes the unitary authorities of Blackburn and Darwen, and Blackpool, created in 1998, which were part of the former county.

[3] The excess winter deaths index is calculated as the excess number of winter deaths divided by the average number of non-winter deaths, expressed as a percentage.

[4] Figures for 2004–05 are provisional and are rounded to the nearest 100.

WORK AND PENSIONS

Benefit Agency

Chris Ruane: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the additional transport costs which may be incurred by jobseekers as a result of the benefit agency office closure programme; [41819]

(2) what steps he is taking to help jobseekers in rural areas with additional transport costs incurred as a result of the benefit agency office closure programme. [41820]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 24 January 2006:

The Secretary of State has asked me to reply to your questions concerning what estimate he has made of the additional transport costs which may be incurred by jobseekers as a result of the Jobcentre Plus office closure programme; and the steps he has taken to help jobseekers in rural areas with additional transport costs so incurred. This is something which falls within the responsibilities delegated to me as Chief Executive of the Agency.

We do not maintain a central record of actual additional costs incurred by jobseekers as a result of changes in the configuration of our office network. This is because any changes in transport costs will vary between individual jobseekers and individual locations. Furthermore the levels of Jobseeker's Allowance already take account of the costs of transport for jobsearch-related activities (which includes the requirement to attend our offices on a regular, usually fortnightly, basis).

However, in developing the plans for their Districts, each District Manager took account of the availability, frequency and costs of transport links to our offices. In the case of jobseekers in rural areas, it is open for Managers to make arrangements for jobseekers to sign on by post, rather than attend the office in person. The general rule for allowing postal signing is where:

a. a customer lives more than one hour, door to door, by public transport (in either direction) from the nearest Jobcentre Plus office or Jobcentre; or

b. attendance would result in an absence from home in excess of 4 hours; or

c. the customer has a mental or physical disability which restricts their mobility.

Jobcentre Plus Business Managers may also use some discretion in offering the postal facility to other customers, even if their journey is possible within the time limits stated above. For example, if the customer would have to use a form of transport which they could not be expected to use on a fortnightly basis, such as an Intercity train, a ferry or a plane.

Occasionally customers are asked to attend a Jobcentre Plus Office or Jobcentre on a day when they are not usually due to attend to sign on (to see an Adviser for example). In these cases travel expenses are classed as additional and are reimbursed.

I hope this is helpful.

Child Poverty

Mr. Laws: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of children living in relative poverty in the UK who are in households with *(a)* one or more adults in full-time work, *(b)* one adult only, not in work, *(c)* one adult only, in part-time work, *(d)* one adult only, *(e)* one adult on incapacity benefit, *(f)* one adult on income support and *(g)* one adult on jobseeker's allowance. [41393]

Margaret Hodge: The information requested is not available. The seventh annual 'Opportunity for all' report (Cm 6673) sets out the Government's strategy for tackling poverty and social exclusion and reports progress against a range of indicators.

Detailed information about the number and proportion of children living in low income households is published in "Households Below Average Income 1994–95 to 2003–04", available in the Library. The report includes comparisons of incomes against low income thresholds, such as the commonly used relative low income threshold threshold of 60 per cent. of contemporary median income.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many children were living in households with incomes of less than 27 per cent. of median income in each year since 1990–91; and if he will make a statement. [41395]

Margaret Hodge: The information requested is not available.

Detailed information about the number and proportion of children living in low income households is published in "Households Below Average Income 1994–95 to 2003–04", available in the Library. HBAI defines low income households' using thresholds of 50, 60 and 70 per cent. of median income.

The seventh annual 'Opportunity for all' report (Cm 6673) sets out the Government's strategy for tackling poverty and social exclusion and reports progress against a range of income thresholds.

Mr. Laws: To ask the Secretary of State for Work and Pensions what assessment he has made of the factors affecting child poverty; and if he will make a statement. [41396]

Margaret Hodge: We recognise that poverty and social exclusion are not just about low income, or the goods and services that people can afford. We understand that people's opportunities and quality of life are also shaped by their education, their skills, by access to quality health services, by decent housing and by the security and quality of the areas in which they live.

The seventh annual 'Opportunity for all' report (Cm 6673), published in October 2005, sets out the Government's strategy for tackling poverty and social exclusion. It contains an annex of indicators tracking the Government's performance on tackling poverty and social exclusion across a range of domains—amounting to around 60 indicators in total, 25 of which are child specific. We will continue to take this approach in the future.

Mr. Laws: To ask the Secretary of State for Work and Pensions what assessment he has made of the possible relationship between child poverty and families with higher numbers of children; and if he will make a statement. [41401]

Margaret Hodge: The Government announced in the Child Poverty Review in 2004 that it had a long-term aspiration to improve the financial support available to large families and will consider the best mechanism for achieving this.

Specific information regarding low income for Great Britain is available in "Households Below Average Income (HBAI) 1994/95—2003/04", available in the Library. The threshold of below 60 per cent. contemporary median income is the most commonly used in reporting trends in low income. The data shows that children in large families—those with three or more children—were more likely to live in low income households, although the risk of relative low income for this group has decreased markedly since 1998–99.

Mr. Laws: To ask the Secretary of State for Work and Pensions what plans he has to develop *(a)* a measure of and *(b)* a target for severe relative poverty of children; and if he will make a statement. [41402]

Margaret Hodge: The seventh annual 'Opportunity for all' report (Cm 6673) sets out the Government's strategy for tackling poverty and social exclusion and reports progress against a range of indicators. Our current approach is to present a range of low income thresholds (50, 60 and 70 per cent.). This gives an idea of the depth of poverty and it is simple to interpret. Indeed, the incorporation of two different relative low income thresholds into our new child poverty measure (60 and 70 per cent. of median), together with the absolute tier, further ensures that different depths of poverty will be looked at separately.

Households reporting the lowest incomes may not have the lowest living standards. The bottom 10 per cent. of the income distribution should not, therefore, be interpreted as having the bottom 10 per cent. of living standards. This is a particular issue for lower thresholds, such as 50 per cent. of median. Other higher thresholds are less affected by this.

We have no plans to modify our current approach.

Mr. Laws: To ask the Secretary of State for Work and Pensions what the incidence of child poverty was in families with *(a)* children under the age of 10 years and *(b)* children over the age of 10 years in the last period for which figures are available; and if he will make a statement. [41404]

Margaret Hodge: The information requested is not available.

The seventh annual 'Opportunity for all' report (Cm 6673) sets out the Government's strategy for tackling poverty and social exclusion and reports progress against a range of indicators.

Detailed information about the number and proportion of children living in low income households is published in "Households Below Average Income 1994/95–2003/04", available in the Library. The report includes comparisons of incomes against low income thresholds, such as the commonly used threshold of 60 per cent. of contemporary median income.

Mr. Laws: To ask the Secretary of State for Work and Pensions what recent assessment he has made of the age distribution of children living in relative low income households in the UK; and if he will make a statement. [41434]

Margaret Hodge: The information requested is in the tables.

Detailed information about the number and proportion of children living in low income households is published in "Households Below Average Income 1994–95 to 2003–04", available in the Library. The report includes comparisons of incomes against low income thresholds, such as the commonly used threshold of 60 per cent. of contemporary median income.

There is a stronger relationship between age of youngest child and low income than age of children alone. Results show that for families where the youngest child is older, the children are less likely to experience low income—particularly 'after housing costs'. This is linked with higher risks by size of family, since an older youngest child will correlate with a smaller family size.

Proportion of children living in households with incomes below 60 per cent. of median, 2003–04

Age of child	*Before housing costs*	*Percentage After housing costs*
Under 5	18	28
5 to 10	21	29
11 to 15	23	28
16 to 18	19	23
All children	21	28

Composition of children in only those households below 60 per cent. of median by age of child, 2003–04

Age of child	*Before housing costs*	*Percentage After housing costs*
Under 5	23	26
5 to 10	34	35
11 to 15	34	31
16 to 18	9	8
All children	100	100

Proportion of children living in households with incomes below 60 per cent. of median by age of youngest child, 2003–04

Age of youngest child	*Before housing costs*	*Percentage After housing costs*
Under 5	20	30
5 to 10	22	29
11 to 15	21	24
16 to 18	12	16
All children	21	28

Composition of children in only those households below 60 per cent. of median by age of youngest child, 2003–04

Age of youngest child	*Before housing costs*	*Percentage After housing costs*
Under 5	40	44
5 to 10	37	36
11 to 15	20	18
16 to 18	3	3
All children	100	100

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions what his estimate is of the change in the annual maintenance payments of the Child Support Agency which would result from full compliance of all assessed cases; and if he will make a statement. [28385]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Hilary Reynolds, dated 24 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive, as Stephen Geraghty is on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions what his estimate is of the increase in the annual maintenance payments of the Child Support Agency which would result from full compliance of all assessed cases and if he will make a statement.

In the 12 months to September 2005, the Agency collected 69 per cent.[1] of maintenance charged to non-resident parents on the Agency's collection service, which equates to £678m. Had full compliance been achieved over this same period, this would have resulted in an increase in collections of around £260m.

I hope you find this helpful.

[1] Measured according to the Agency's standard definition of cash compliance. Cash compliance is calculated by expressing the total amount of maintenance received via the collection service as a percentage of the total amount due over the reporting period. The above includes those old scheme cases with a full maintenance assessment, and those new scheme cases with either a full maintenance calculation, or a default maintenance decision. Old scheme cases with an punitive interim maintenance assessment are excluded from this analysis in line with the Agency's target definitions, as are new scheme cases being processed clerically.

Mr. Holloway: To ask the Secretary of State for Work and Pensions what steps are being taken to ensure that individuals whose partners are self-employed can still receive Child Support Agency payments. [19809]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive, Mr. Stephen Geraghty. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 25 January 2006:

You asked the Secretary of State for Work and Pensions what steps are being taken to ensure that individuals whose partners are self-employed can still receive Child Support Agency payments.

For employed non-resident parents who are initially non-compliant the Agency seeks to use deduction-from-earnings orders to secure maintenance. For self- employed non-resident parents these powers are inappropriate. In these cases the Agency instead uses one or more of a range of its other legal debt enforcement powers.

Enforcement measures available to the Agency include:

Liability Orders

Collection via Bailiffs

County Court Judgements

Third Party Debt Orders (eg bank arrestment)

Charging Order (to realise the debt from the sale of an asset)

Order for Sale

Commitment to Prison or withdrawal of Driving Licence

The Agency's enforcement teams are becoming much more successful in utilising these powers. This is demonstrated by the significant improvement in the in-month cash collections achieved, rising from £0.52 million in January 2005 to £1.42 million in November 2005. An analysis of a sample of debt enforcement cases indicates that approximately 73 % are self-employed non-resident parents.

Departmental Websites

Lynne Featherstone: To ask the Secretary of State for Work and Pensions when his Department's website design was first implemented; for how long the search function of the website has been inoperative; and if he will make a statement. [45380]

Mr. Timms: The Department for Work and Pensions has had an internet site since the Department was formed on the 8 June 2001. The site was updated with a new design on the 15 May 2005. The redesign does not affect the search function, which is fully operational but has been operating on a non-standard port.

From February 2006 the Department's internet site will be running on a new server and the search engine will operate on a standard port. This is in response to an increasing number of internet users-including users within the Department-who have set their computers with high security levels to block information from non-standard ports.

Implementation of the new server will remove the problem.

Incapacity Benefit

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how many people claiming incapacity benefit have indicated to his Department that they want to work. [44504]

Margaret Hodge: The opportunity to work is vitally important in tackling poverty, supporting inclusion and ensuring economic prosperity for both the individual and society. The right to work is as important as the right to equal treatment or access to services. For too many people on incapacity benefit have been denied this right, written off as incapable of work and locked into lifelong dependency on benefits.

We know that the vast majority of people on incapacity benefit have genuine health problems or disabilities. But we also know that a large proportion of these people want to work. In the early stages of an incapacity benefit claim 80–90 per cent. of people expect to get back to work and around 1 million disabled benefit claimants want to work. So we want to ensure that they are given the opportunity to do so. Our task is to break down the barriers that incapacity benefit recipients face and give them the support they need, so that they can get a job and enjoy all the benefits that work can bring.

Local Housing Allowance

Mr. Andrew Smith: To ask the Secretary of State for Work and Pensions (1) what funding has been allocated to support piloting of the local housing allowance in the social rented sector; [44551]

(2) whether he plans to publish a consultation paper on his proposals for piloting the local housing allowance in the social rented sector; [44552]

(3) what research he has commissioned into the impact of the local housing allowance on the rental income streams of *(a)* local authorities and *(b)* housing associations; [44598]

(4) which *(a)* local authorities and *(b)* housing associations have expressed an interest in piloting the local housing allowance in the social rented sector. [44599]

Mr. Plaskitt: 'A new deal for welfare: Empowering people to work', which was published on 24 January, sets out our proposals for reforming housing benefit. Publication of this paper signals the start of a 12-week period of consultation on a number of issues and seeks stakeholder views on options for reforming housing benefit for tenants in the social rented sector.

It is clearly desirable that we consult with those having an interest in social housing issues before making decisions about the direction of reform and it would be premature to commission research or put forward specific proposals for reform until after the end of the consultation period.

Mr. Andrew Smith: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of replacing the single room rent restriction with the shared room rate restriction available to under-25s under the local housing allowance. [44600]

Mr. Plaskitt: No estimate has been made of the costs of replacing the single room rent nationally with the shared room rate under the local housing allowance.

New Deal

Mr. Drew: To ask the Secretary of State for Work and Pensions when he will make a decision on the Jobcentre Plus contracts for the new deal, with particular reference to providers of basic skills training. [41510]

Margaret Hodge: Contracts for the new deal for young people and new deal 25 plus programmes, which include the provision of basic skills training, are currently being re-tendered. We announced the providers who have been successful at the first stage on the 16 January.

Pension Credit

Lynne Featherstone: To ask the Secretary of State for Work and Pensions how many single women pension credit recipients are in receipt of the guaranteed credit, broken down by constituency. [43375]

Mr. Timms: I have placed the requested information in the Library.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what his latest estimate is of the average time taken to process applications for pension credit. [44506]

Mr. Timms: The Pension Service's internal target for processing applications for pension credit is 10 working days. The average time taken as at December 2005 was 8.66 working days. The year to date figure is 8.63 working days.

Pension Service Partnership Fund

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will make a statement on the work of the Pension Service Partnership Fund. [45197]

Mr. Timms: The objective of The Pension Service Partnership Fund is to pilot ways of increasing benefit take-up, particularly among harder to reach older people. The focus is on innovative partnership approaches involving local authorities and the voluntary and community sector. The Department for Work and Pensions awarded 172 contracts with a total value of £13 million. The majority of contracts run for two years from March 2005, although there are a number of shorter contracts which will terminate later this year.

All Fund contractors provide regular statistical returns and narrative reports to the DWP on the progress of their activity which will inform both the evaluation of the individual schemes and the fund as a whole.

Learning and best practice will be shared with partner organisations, and other interested groups, towards the end of the two year contract period; in the interim, a regular update is provided to partner organisations through the Partnerships Against Poverty Forum.

Pensions

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how many companies have been fined for failing to offer stakeholder pensions in each year since 2002. [44507]

Mr. Timms: Since 2002 one employer has been fined for failing to designate a stakeholder Pension. This fine was imposed by the Occupational Pensions Regulatory Authority (OPRA) in 2003.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of companies which are required to offer stakeholder pensions but do not. [44508]

Mr. Timms: Employers with five or more employees and who do not offer an occupational pension scheme to the whole of the work force, or do not offer at least a 3 per cent. employer contribution to a personal pension, are required to designate a stakeholder pension scheme. There are an estimated 350,000 such firms at any one time, and it is estimated that around 70,000 of those are not complying with the requirement to designate a stakeholder pension scheme. Of those non-compliant firms, it is estimated that nearly 80 per cent. have fewer than 10 employees.

Mark Williams: To ask the Secretary of State for Work and Pensions in what circumstances an individual may receive pension payments by cheque. [44412]

Mr. Plaskitt: Cheque payments, which are cashable at a post office, are available for those customers who are unable to open or manage a bank account to support the direct payment method. This might be through illness or disability, or because they rely on different carers to collect their money for them.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many representations on pensions policy have been received by his Department since the publication of Lord Turner's final report on 30 November 2005; and if he will publish them. [41342]

Mr. Timms: Since the publication of The Pensions Commission's final report, the Department has received in excess of 800 letters from members of the public on pensions policy, 240 of these directly responding to the Pensions Commission's recommendations.

In addition, as part of the wider National Pensions Debate, DWP Ministers' have engaged with a wide range of members of political parties, stakeholders and members of the public about pensions policy.

As these individual representations were not invited as part of a formal consultation process on Government proposals for reform, we do not intend to publish them.

However, all of these discussions and the correspondence we have received will Inform the next stages of the National Pensions Debate which will in turn inform ministerial decisions on pensions reform.

The Government will work towards the publication of a White Paper in the spring which will set out its response to the Pensions Commission's recommendations. This will include a summary of the main themes of the representations received as part of the National Pensions Debate. A formal consultation exercise on the Government's proposals will be launched with publication of the White Paper.

Post Office

Danny Alexander: To ask the Secretary of State for Work and Pensions how many people use the Post Office card account for receipt of *(a)* state pension, *(b)* pension credit and *(c)* other benefits (i) in total and (ii) broken down by region. [45370]

Mr. Plaskitt: The information is not available in the format requested. The following table shows the latest available information on the number of benefit and pension accounts which are paid by direct payment into a Post Office card account.

Number

Region	*State retirement pension*	*Pension credit*	*Other benefits*
North East	109,200	66,500	127,100
North West	252,000	133,000	274,200
Yorkshire and Humber	194,200	97,600	166,800
East Midlands	149,500	65,500	106,700
West Midlands	194,600	104,600	165,000
East of England	153,900	66,300	89,400
London	123,500	85,700	194,600
South East	182,400	73,300	112,400
South West	181,000	68,400	97,100
Wales	152,300	67,800	146,500
Scotland	193,900	108,000	205,800
Total	1,886,500	936,700	1,685,600

Notes:
1. Figures are rounded to the nearest 100.
2. Figures refer to payment accounts.
3. People in receipt of more than one benefit/pension will be counted for each separate benefit/pension in payment.
4. People who have their benefit/pension combined and paid at the same time will only be counted through the paying benefit.

Winter Fuel Payments Allowance

Mike Penning: To ask the Secretary of State for Work and Pensions how many UK nationals who are residents of *(a)* Florida, *(b)* Spain, *(c)* Italy, *(d)* South Africa and *(e)* Australia are in receipt of the winter fuel payments allowance; and at what cost to public funds in 2005–06. [43422]

Mr. Timms: Citizenship does not affect entitlement to a winter fuel payment as entitlement is based on residency in the UK. So far this winter we have made 20,373 winter fuel payments to qualifying former UK residents now living in Spain at a cost of £3,215,200 and 545 winter fuel payments to qualifying former UK residents now living in Italy at a cost of £90,400.

People who are resident in Florida, South Africa and Australia are not entitled to winter fuel payments. We are aware of a very small number of cases where people have received payment in countries outside the EEA. This has been where notification of their change of circumstances has been received after payments have been issued, in these cases payments are stopped and repayment sought.

Workplace Accidents and Health Report

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions pursuant to the letter sent to hon. and right hon. Members on 14 November on the Health and Safety Executive's annual report on workplace accidents and health, if he will make available the equivalent figures for last year. [40365]

Mrs. McGuire: The information has been placed in the Library.

DEPUTY PRIME MINISTER

Council Tax

Mrs. Spelman: To ask the Deputy Prime Minister whether *(a)* local authorities and *(b)* central government receives the additional revenue from increasing a council tax collection rate; and whether (i) local authorities and (ii) central government lose revenue from a low council tax collection rate. [43033]

Mr. Woolas: The grant distribution formula for local authorities does not take account of council tax collection rates. A collection rate for council tax in excess of, or below, the billing authority's budgeted level will, other things being equal, mean increased or reduced revenue for a billing authority and its precepting authorities.

Mrs. Spelman: To ask the Deputy Prime Minister whether local authorities retain additional income received from reducing or removing the council tax discount on empty property; and how much additional revenue has been raised for central government from reductions in the discounts in each year since the powers to reduce the discounts were introduced. [43030]

Mr. Woolas: Local authorities do not retain the additional income generated from reducing or removing the council tax discount on long term empty properties. It is estimated that the additional amounts of council tax generated in 2004–05, the first year that billing authorities had powers to reduce or remove the discount, was £49 million. Figures for 2005–06 are not yet available.

Mrs. Spelman: To ask the Deputy Prime Minister what recommendations for changes to council tax regulations noted in the Valuation Office Agency Local Authorities Liaison Group meeting minutes for 27 September 2004 were submitted to his Department by the Valuation Office Agency. [42597]

Mr. Woolas: The proposals for changes to council tax regulations referred to in the minutes of the Valuation Office Agency Local Authorities Liaison Group meeting minutes for 27 September 2004 relate to regulation 3 of the Council Tax (Chargeable Dwellings) Order, SI 1992/549. The Government have no current plans to amend this regulation.

Councillors (Pensions/Income)

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 14 December 2005, *Official Report*, column 1964–5W, on councillors (pensions/income), if he will list the regulations or circulars that

have changed the rules relating to allowances and pensions since May 1997 and the dates of their commencement. [42599]

Mr. Woolas: The information requested is as follows.

The Local Authorities (Members' Allowances) (Amendment) Regulations 1998/556 Came into force: 1 April 1998

The Local Authorities (Members' Allowances) (Amendment) (No. 2) Regulations 1998/557 Came into force: 1 April 1998

The Local Authorities (Members' Allowances) (Amendment) Regulations 1999/1086 Came into force: 30 April 1999.

The Local Authorities (Members' Allowances) (Amendment) (No. 2) Regulations 1999/1087 Came into force: 30 April 1999

The Local Government Act 2000 Came into force: 28 July 2001 The Local Authorities (Members' Allowances) (England) Regulations 2001/1280 Came into force: 4 May 2001

The Local Authorities (Members' Allowances) (England) Regulations 2003/1021 Came into force: 1 May 2003

The Local Government Pension Scheme and Discretionary Compensation (Local Authority Members in England) Regulations 2003/1022 Came into force: 1 May 2003

The Local Authorities (Members' Allowances) (England) (Amendment) Regulations 2003/1692 Came into force: 31 July 2003

The Local Government Pension Scheme (Amendment) Regulations 2004/573 Came into force: 1 April 2004, Changes to decision, notification and dispute resolution procedures 1 June 2004.

The Local Government Pension Scheme (Civil Partnership) (Amendment) (England and Wales) Regulations 2005/3069 Came into force: 5 December 2005.

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 14 December 2005, *Official Report*, columns 1964–65W, on councillors (pensions/income), what estimate he has made of the equivalent average monetary value of a councillor's pension after *(a)* four years, *(b)* eight years, *(c)* 12 years and *(d)* 16 years participation in the Local Government Pension Scheme. [42601]

Mr. Woolas: The information requested is not held centrally, and could be provided only at disproportionate cost. It is a matter for individual local authorities to consider.

Departmental Expenditure

Mr. Weir: To ask the Deputy Prime Minister how much was spent on advertising by *(a)* his Department and previous Departments with his Department's responsibilities, *(b)* each (i) non-departmental public body and (ii) Executive agency for which his Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by his Department in each year since May 1997. [39110]

Jim Fitzpatrick: The Office of the Deputy Prime Minister was formed in May 2002 and information prior to this date is not available. Expenditure shown as follows relates to advertising, marketing and publications and relates only to ODPM Central. A breakdown of expenditure for each agency, non departmental body and statutory body sponsored by the ODPM could be provided only at disproportionate cost.

	£
2002–03	[1]16,496,127
2003–04	7,836,792
2004–05	8,551,328
2005–06 to date	8,312,919

[1] This figure includes expenditure from both ODPM and the Department for Transport (DfT) and which could not separately be identified.

Mr. Spellar: To ask the Deputy Prime Minister how much his Department spent on bottled water in 2004–05. [40338]

Jim Fitzpatrick: The Office of the Deputy Prime Minister and its Agencies spent a total of £62,476.11 on bottled water in 2004–05.

This sum does not include bottled water supplied to delegates attending the Queen Elizabeth II Conference Centre, or provided for students at the Fire Service College. The sum also does not include for any bottled water provided at 1 High street, Glossop, Ashdown House, Hastings and Temple Quay House, Bristol where this information is not recorded. Bottled water used in 26 Whitehall has been included within the answer provided by the Cabinet Office [ref], who manage the building.

Bottled water at three sites is dispensed from water coolers. Only the dispenser at Temple Quay House, Bristol is held on a rental agreement, the cost of which in 2004–05 was £860.53. This cost is included in the above total.

The figure provided is exclusive of Value Added Tax.

This answer does not include buildings occupied by Government Offices, who carry out functions on behalf of 10 Government Departments.

Departmental Vehicles

Mrs. Villiers: To ask the Deputy Prime Minister how many cars are *(a)* owned and *(b)* leased by his Department; what models the cars are; what type of petrol each model requires; and what the fuel efficiency is of each model. [41346]

Jim Fitzpatrick: The Office of the Deputy Prime Minister and its Agencies own and lease the following cars:

Cars	*(a) Owned*	*(b) Leased*	*Model*	*Fuel*	*Metric urban (cold) (l/100km)*	*Metric extra urban (l/100km)*	*Metric combined cycle (l/100km)*
ODPM	2		1 x Citroen Synergie LX 2.0 HDI	Diesel	33.6	50.4	42.2
			1 x Ford Mondeo 5 door hatchback 1.8 TDCi LX	Diesel	n/a	n/a	n/a
		2	2 x Peugeot 307 2003A estate 2. 0 Tds Hdi 90	Diesel	7.1	4.5	5.4
ODPM total	2	2					
Agency	10	0	1 x Ford Galaxy 1.9 PD Tdi	Diesel	8.6	5.5	6.6

Cars	(a) Owned	(b) Leased	Model	Fuel	Metric urban (cold) (l/100km)	Metric extra urban (l/100km)	Metric combined cycle (l/100km)
			(115ps)				
			3 x Ford Focus 3/5 door Saloon 1.8 TDCi (100ps)	Diesel	6.7	4.3	5.2
			3 x Ford Focus 4 door Saloon and estate 1.8 Duratorq TDCi	Diesel	6.8	4.4	5.3
			3 x Ford Toureno Connect 1.8 Duratorq TDCi	Diesel	7.9	5.8	6.6
Agency total	10	0					
Total	12	2					

The fuel efficiency of these cars has been provided in the metric urban (cold), metric extra urban and metric combined cycles; this data is for the vehicles when new.

Where possible the data has been sourced via the Vehicle Certification Agency (VCA) on-line database. The data for the Citroen Synergie is not available on the VCA site and this has had to be obtained from another commercial source. Reliable data for the Ford Mondeo cannot be located.

For vehicles provided to Government Departments by the Government Car and Despatch Agency (GCDA) my hon. Friend, the Parliamentary Under-Secretary of State at the Department for Transport has asked the Chief Executive of the GCDA to write to the hon. Member with the information requested.

This answer does not include cars used by Government Offices, who carry out functions on behalf of 10 Government Departments,

Design for Manufacture

Mrs. Spelman: To ask the Deputy Prime Minister how many of the homes being constructed as part of the Design for Manufacture competition *(a)* are being constructed for £60,000 and *(b)* are intended to be classed as affordable housing, broken down by location. [33490]

Yvette Cooper: The Design for Manufacture competition is being run by English Partnerships on behalf of the Office of the Deputy Prime Minister. English Partnerships is currently evaluating bids from developers for Stage 3 of the Design for Manufacture competition.

A minimum of 30 per cent. of the housing units within the competition will be built to a target cost of £60,000 and the remainder will be larger and smaller dwellings that should be built at an equivalent cost-efficiency.

At this stage, and subject to final planning applications, the number of homes on each site is as follows:

Oxley Park, Milton Keynes, Phase 2 site. Total of 145 homes, of which 43 are anticipated to be affordable housing.

Oxford Road, Former Territorial Army Centre, Aylesbury Vale. Total of 100 homes, of which 30 are anticipated to be affordable housing.

Upton, Northampton, Site D2. Total of 165 homes, or which 36 are anticipated to be affordable housing.

Allerton Bywater Millennium Community, Leeds, Yorkshire. Total of 150 homes, of which 30 are anticipated to be affordable.

School Road, Hastings. Total of 12 homes, with affordable housing level to be determined.

Horns Cross, Stone, Dartford. Total of 37 homes, of which 11 are anticipated to be affordable housing.

Former Rowan High School site, Merton, London. Total of 180 homes, of which 54 are anticipated to be affordable housing.

Former Renny Lodge Hospital, London Road, Newport Pagnell, Bucks. Total of 60 homes, of which 20 are anticipated to be affordable housing.

Former Park Prewett Hospital, Kingsclere Rd, Basingstoke. Total of 137 homes, of which 47 are anticipated to be affordable housing.

Former Linton Hospital site, Maidstone. Total of 123 homes, of which 43 are anticipated to be affordable housing.

The Office of the Deputy Prime Minister and English Partnerships are working to prepare a publication drawing out the lessons that have been learned from the Design for Manufacture competition. It will include information about costs, technologies and construction strategies. We aim to be able to publish this document by spring 2006.

Fire and Rescue Services

Mr. Lancaster: To ask the Deputy Prime Minister (1) how much funding his Department is making available to regional fire and rescue authorities to take into account housing expansion in the South East in their annual budgets in real cash terms per year in the years from 2001 to 2009; [43909]

(2) what account he has taken of the expansion of Milton Keynes in the new Buckinghamshire and Milton Keynes fire authority budget. [43910]

Jim Fitzpatrick: The local government finance settlement provides formula grant to local authorities, including single service fire and rescue authorities, in England. The provisional local government finance settlement for 2006–07 and 2007–08 that was announced on the 5 December 2005 took account of projected population growth in each authority's area. This grant combined with council tax, specific grants and reserves determine the annual budget of an authority. There is no specific grant available to fire and rescue authorities relating to housing expansion.

Rosie Cooper: To ask the Deputy Prime Minister how many firefighters served the West Lancashire area *(a)* in 1997 and *(b)* at the latest date for which figures are available. [45138]

Jim Fitzpatrick: Information on the number of firefighters employed at constituency level is not held centrally, and could be provided only at disproportionate cost.

Homelessness

Mr. Jenkins: To ask the Deputy Prime Minister (1) how many homeless families in *(a)* Tamworth and *(b)* Staffordshire (i) were living in temporary accommodation and (ii) sleeping rough in each of the past five years; [42077]

(2) how many beds were available for homeless families in *(a)* Tamworth and *(b)* Staffordshire in each of the last five years. [42078]

Yvette Cooper: Information about the number of households with children in temporary accommodation, as arranged by local authorities under homelessness legislation, has only been collected since March 2002 and this information together with that for the latest three years is presented in the following table for Tamworth and Staffordshire. Also presented in the table is number of people sleeping rough on any single night of the year, in each of the past five years.

Each local authority in England has a duty to provide accommodation to households who have been accepted as homeless and are owed a main housing duty under homelessness legislation. If the authority cannot provide a settled solution straight away the household will be placed in temporary accommodation. For this reason, authorities will not have a set number of beds for homeless households.

All households, and households containing children or an expectant mother, in temporary accommodation[1] arranged by local authorities under homelessness provisions of Housing Acts, and numbers of persons sleeping rough[2]

	Households in TA as on 31 March Of which:		
	Total	*with children*	*Rough sleepers*
2001			
Tamworth	105	[3]—	0
All LAs in Staffordshire	270	[3]—	7
2002			
Tamworth	94	90	0
All LAs in Staffordshire	230	150	7
2003			
Tamworth	83	75	0
All LAs in Staffordshire	290	200	0
2004			
Tamworth	[4]—	[4]—	0
All LAs in Staffordshire	210	120	3
2005			
Tamworth	[4]—	[4]—	0
All LAs in Staffordshire	300	210	3

[1] Households in accommodation either pending a decision on their homelessness application or awaiting allocation of a settled home following acceptance. Excludes those households designated as "homeless at home" that have remained in their existing accommodation and have the same rights to suitable alternative housing as those in accommodation arranged by the authority.

[2] Number of persons sleeping rough, based on local authority mid-year counts or estimates.

[3] Not collected.

[4] Data not reported.

Note:

Figures for Staffordshire, which include estimates for partial and non-response, have been rounded to the nearest 10.

ODPM P1E homelessness returns (quarterly) and HSSA returns (annual)

House Building (Aylesbury)

John Bercow: To ask the Deputy Prime Minister what assessment he has made of the cost implications for the retained fire service of the planned expansion of housing in Aylesbury Vale. [44161]

Jim Fitzpatrick: No assessment has been made to the cost implications to Aylesbury Vale in relation to planned housing expansion in regards to the 2006–07 local government finance settlement. However, the provisional local government finance settlement for 2006–07 and 2007–08 that was announced on the 5 December 2005 by my hon. Friend the Minister for Local Government, (Mr. Woolas) included the use of population projections as the dominant data drivers of population in the settlements.

House Repossessions

Mr. Davey: To ask the Deputy Prime Minister what research his Department has commissioned into strategies to reduce the number of house repossessions in the UK. [43189]

Yvette Cooper: The Office of the Deputy Prime Minister (ODPM) jointly commissioned report "Homeowner Risks and Safety-nets: Mortgage Payment Protection and Beyond, University of York 2004" was a major piece of research that has informed the development of the Government's strategy on sustainable home ownership. The ODPM has also been involved in research commissioned by others through its membership of the "SUSHO Partnership Steering Group". The Council of Mortgage Lenders, the Association of British Insurers and Department of Work and Pensions are also members of this group, whose aim is to produce an enhanced safety-net for home buyers that results in fewer households getting into arrears and losing their homes.

The numbers of repossessions has fallen dramatically since the early 1990s when mortgage possessions peaked at 38,930 in the first half of 1991 and the numbers are expected to remain small: the total number of repossessions in 2004 was 6,230. The Government is working closely with the industry to ensure that home ownership is sustainable, and to improve the links between private provision and state intervention. A key part of this initiative is the wider availability and take up of mortgage payment protection insurance and similar products providing cover for borrowers during periods of difficulty.

Identity Fraud

Mike Penning: To ask the Deputy Prime Minister what training his Department has provided for *(a)* front desk and *(b)* administrative staff in relation to identity fraud. [41278]

Jim Fitzpatrick: No specific identity fraud training is provided to staff in the Office of the Deputy Prime Minister (ODPM). No 'front desk' facilities are provided by the ODPM to meet members of the public. Administrative staff are advised to request that members of the public put any requests for information, financial or otherwise, in writing.

Influenza Pandemic

Mr. Hancock: To ask the Deputy Prime Minister what advice he has given to local authorities about steps to be taken in the event of an influenza pandemic. [43870]

Mr. Jim Murphy: I have been asked to reply

The Government have provided advice on pandemic influenza planning to local authorities and other category one responders under the Civil Contingencies Act in a variety of forms and through a range of mechanisms. This includes the general advice contained in the UK pandemic contingency plan as well as tailored advice for local authorities via the Local Government Association and the Regional Resilience Teams based in the Government offices in the English regions.

Local Government Finance

Mr. Andrew Smith: To ask the Deputy Prime Minister how much Government grant was given to Oxfordshire county council by his Department in the financial year *(a)* 2004–05 and *(b)* 2005–06. [44542]

Mr. Woolas: The following table sets out the amount of grant payments made to Oxfordshire county council by the Office of the Deputy Prime Minister since 2004–05.

Funding

	Grant payment (£ million)
2004–05	356.318
2005–06	376.470
Total	732.788

Jim Cousins: To ask the Deputy Prime Minister what the *(a)* proposed total and *(b)* percentage net change in formula grant is between 2005–06 and 2006–07, taking into account the 2004–05 and 2005–06 amending reports for the city of Newcastle-upon-Tyne; and how many local authorities in (i) Greater London, (ii) metropolitan authorities, (iii) all purpose authorities and (iv) shire counties had a (A) larger and (B) smaller percentage increase on a similar basis than the city of Newcastle-upon-Tyne. [44595]

Mr. Woolas: The proposed net change in formula grant on a like-for-like basis, taking into account the 2004–05 and 2005–06 amending reports for the city of Newcastle-upon-Tyne between 2005–06 and 2006–07 is £5.424 million or 3.7 per cent.

The following table shows the number of authorities that had a *(a)* larger and *(b)* smaller percentage increase than Newcastle-upon-Tyne.

Number

Class of authority	*(a) Authorities with an increase larger than Newcastle-upon-Tyne*	*(b) Authorities with an increase smaller than Newcastle-upon-Tyne*
London boroughs including the city of London	1	32
Metropolitan districts	1	34
Unitary authorities including the Isle of Scilly	8	39
Shire counties	2	32

Regional Reorganisation

Anne Main: To ask the Deputy Prime Minister what guidance his Department has given to *(a)* other Government departments and *(b)* executive agencies within other Government Departments on reorganising their administrative functions on a regional basis. [41118]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) does not provide specific guidance to other Government Departments, or their executive agencies, on reorganising their administrative functions regionally. The ODPM works closely with other Departments on a range of issues to develop the most effective policies, structures and institutions.

For example, the Government Offices in the Regions now incorporate the work often Departments into a single, regional organisation to ensure that policies and programmes are co-ordinated efficiently and effectively to achieve maximum effect.

Social Housing

Jeremy Corbyn: To ask the Deputy Prime Minister what recent meetings he has held with *(a)* local authorities and *(b)* other interested groups concerning the development and maintenance of council housing; and if he will make a statement. [44466]

Jim Fitzpatrick: My right hon. Friend the Deputy Prime Minister has regular meetings with local authorities and outside interest groups concerning housing policy at which a number of issues are discussed.

Standards Board/Adjudication Panel

Mrs. Spelman: To ask the Deputy Prime Minister what the total expenditure of the *(a)* Standards Board for England and *(b)* Adjudication Panel was in each year since it was established; and what the budget is for (i) 2005–06 and (ii) 2006–07. [42612]

Mr. Woolas: Information on the amount of grant provided each year to the Standards Board for England and expenditure on the Adjudication Panel, the costs of which are included in the board's budget, is tabled as follows:

£000

	Grant to standards board including costs of adjudication panel	*Expenditure on adjudication panel*
2001–02	2,423	—
2002–03	6,159	—
2003–04	7,932	436
2004–05	8,940	386
2005–06	9,181	476
2006–07[1]	9,429	478

[1] Preliminary estimate.

Valuation Office Agency

Mrs. Spelman: To ask the Deputy Prime Minister if he will list each property data variable and type allowed within the Valuation Office Agency's automated valuation model computer system. [42924]

Mr. Woolas: I refer the hon. Member to the answer given to the hon. Member on 26 October 2005, *Official Report*, column 447W.

Mrs. Spelman: To ask the Deputy Prime Minister what plans the Valuation Office Agency has *(a)* to publish online and *(b)* to make publicly available (i) business property and (ii) domestic property attribute information; and if he will make a statement. [42925]

Mr. Woolas: Attribute data for the majority of business properties is currently available on the Valuation Office Agency's website at: www.voa.gov.uk, through the summary valuation scheme. The Valuation Office Agency has no plans to make attribute information publicly available for domestic property following the postponement of the council tax revaluation in England.

HEALTH

Acute Hospital Portfolio

Steve Webb: To ask the Secretary of State for Health if she will publish the results of the acute hospital portfolio 2005–06 service user satisfaction surveys; and if she will make a statement. [43299]

Jane Kennedy: The acute hospital portfolio service users satisfaction survey is part of reviews of diagnostic services and medicines management being carried out by the Healthcare Commission at acute trusts. The chairman of the Commission has confirmed that the national results of the reviews, including those from the service users satisfaction survey, will be published in the summer.

Avian Influenza

Mr. Drew: To ask the Secretary of State for Health what the estimated cost is of inoculating everyone in the UK against the H5N1 strand of avian influenza. [43774]

Caroline Flint *[holding answer 19 January 2006]*: The cost of such a policy is dependent on a number of factors including some which would be commercially confidential. As such, an estimated cost cannot be provided for such a strategy.

Barts and the London NHS Trust

Mr. Lansley: To ask the Secretary of State for Health when *(a)* she and *(b)* other Ministers at her Department first saw the full business case for redevelopment at the Barts and the London NHS Trust. [43427]

Jane Kennedy: Department officials have not yet concluded their review of the full business case for the Barts and the London private finance initiative scheme. When this is complete, it will be submitted to my office for approval. Therefore, I understand that neither the Secretary of State nor any other Minister has seen the full business case.

Alcohol-related Illnesses

Mr. Amess: To ask the Secretary of State for Health how many finished consultant episodes for alcohol-related illnesses there have been in England for *(a)* patients aged under 18 years and *(b)* patients 18 years and over, broken down by health authority in each year between 1987 and 1997. [42331]

Caroline Flint: The data are not available for years earlier than 1996–97, data for 1996–97 are shown in the table.

Counts of finished consultant episodes where there was a primary diagnosis code for selected alcohol[1] related diseases

Audible Fire Alarms

Bob Spink: To ask the Secretary of State for Health what proportion of the premises occupied by her Department is fitted with audible fire alarms. [42879]

Jane Kennedy: The Department's five main office premises are all fitted with audible fire alarms.

Brain Tumours (Treatment)

John Bercow: To ask the Secretary of State for Health (1) what assessment she has made of the National Institute for Health and Clinical Excellence appraisal consultation document on the use of carmustine implants and temozolomide for treatment of newly diagnosed and high grade glioma; [42479]

(2) what assessment she has made of the National Institute for Health and Clinical Excellence preliminary recommendation that *(a)* temozolomide and *(b)* carmustine implants should not be used for the treatment of newly diagnosed high grade glioma; [42480]

(3) if she will make a statement on the clinical effectiveness of the use of *(a)* carmustine implants and *(b)* temozolomide for the treatment of newly diagnosed high grade glioma. [42484]

Jane Kennedy: The Department will respond by 1 February 2006 to the National Institute for Health and Clinical Excellence (NICE) appraisal consultation document on carmustine implants and temozolomide for the treatment of newly diagnosed high grade glioma. Consultation responses will be published on NICE'S website at www.nice.org.uk in due course. NICE expects to publish its final guidance in August 2006.

John Bercow: To ask the Secretary of State for Health what steps are being taken by her Department to speed up the licensing by the National Institute for Health and Clinical Excellence of new treatments for brain tumour patients. [42491]

Jane Kennedy: The National Institute for Health and Clinical Excellence does not license drugs.

Medicinal products for human use containing a new active substance and for which the therapeutic indication is the treatment of cancer, are assessed through the centralised procedure which is administered by the European Medicines Agency.

Children's Hospices

Mr. Jenkins: To ask the Secretary of State for Health how much public funding has been allocated to children's hospices serving Staffordshire in each year since 1997. [37828]

Ms Rosie Winterton: The information requested is not collected centrally.

Children's hospices are funded from a number of sources, including primary care trusts (PCTs), based on their assessment of children's needs and their priorities locally. This is a matter for local decision. There are no limits to the amount of funding which PCTs may provide.

Dentistry

Mr. Lansley: To ask the Secretary of State for Health after how many months a patient's registration lapses in the case of a patient who is registered with *(a)* a dentist operating under the general dental service contract and *(b)* a dentist operating under a personal dental service contract, for the purposes of collecting dental registration statistics. [33267]

Ms Rosie Winterton: For dentists operating under general dental services, a patient's registration lapses if he does not return to see that dentist within a 15-month period.

For dentists operating under pilot personal dental service arrangements, the dental practice board records patients seen in a 30-month period. This reflects the practice's total patient base.

From April 2006 all practices operating under the new contract will retain patients on their list for 30 months.

Mr. Amess: To ask the Secretary of State for Health how many dental *(a)* nurses, *(b)* hygienists and *(c)* therapists there were in (i) Southend, (ii) Essex, (iii) Hertfordshire, (iv) Greater London and (v) England in the last 10 years for which figures are available. [34292]

Ms Rosie Winterton: Information on dental nurses and hygienists is not held centrally as most dental care professionals are employed by independent general dental practitioners. It may be assumed that virtually all practising dentists will employ a dental nurse. Information on the numbers of dentists working in the relevant areas is shown in the following table as a rough indicator of the number of dental nurses.

General dental services (GDS) and personal dental services (PDS). Numbers of GDS and PDS dentists in England and the specified areas as at 30 September each year.

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*

South West London SHA	629	643	665	681	702	683	681	689	756
Southend on Sea PCT	57	62	64	65	65	62	61	60	66

Notes:

1. The dentists include principals, assistants and trainees. Prison contracts are excluded from the data.

2. The postcode of the dental practice was used to allocate dentists to specific geographic areas. primary care trust (PCT) and strategic health authority (SHA) areas have been defined using the Office of National Statistics all fields postcode directory.

3. Data includes all notifications, received by the Dental Practice Board, up to 2 November 2005 for England and 19 October 2005 for

PCT and SHA data. Figures for the numbers of dentists at specified dates may vary depending upon the notification period, e.g. data with a later notification period will include more recent notifications of dentists joining or leaving the GDS or PDS.

Departmental Estate

Pete Wishart: To ask the Secretary of State for Health if she will list the former *(a)* buildings and *(b)* land of (i) her Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which her Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was (x) retained by her Department and *(y)* claimed by the Treasury. [40136]

Jane Kennedy: Three properties, buildings and land combined, have been sold since 7 May 1997. All three properties were owned by the Department.

Sale of departmental properties since 7 May 1997

Property	Date of sale	Sale price (£)	Sale price (estimated current value) (£)
St. Charles Centre, Brentwood	1 February 2000	3,000,000	3,467,462
Capital Drive, Milton Keynes	5 January 2001	3,725,000	4,214,845
Glenthorne Youth Treatment Centre, Birmingham	14 May 2002	3,607,067	3,963,270

The money accrued from the sales was retained by the Department.

Bob Spink: To ask the Secretary of State for Health what *(a)* land and *(b)* property is owned by her Department in Castle Point. [42893]

Jane Kennedy: Neither the Department nor the Secretary of State for Health owns land or property in Castle Point.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Health what the expenditure on *(a)* buildings and *(b)* insurance of buildings and staff was of (i) her Department and (ii) each (A) non-departmental public body, (B) Executive agency and (C) other public body for which her Department is responsible in each English region in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40153]

Jane Kennedy: The expenditure on buildings and insurance for the Department, non-departmental public bodies (NDPB) and executive agencies in each of the last three years, plus planned expenditure for 2005–06 is shown in the table.

Details of expenditure for other public bodies in each region are not held centrally. The cost of collating this data would be disproportionate.

Department, NDPB and Executive agencies expenditure on buildings and insurance 2002–03 to 2005–06

£000

	2002–03	2003–04	2004–05	2005–06
Department				
Buildings	27,280	28,591	29,653	27,119
Insurance	102	134	160	147
NDPB				
Buildings	789	2,082	952	1,350
Insurance	12.5	24	24	28.5

Department, NDPB and Executive agencies expenditure on buildings and insurance 2002–03 to 2005–06

£000

	2002–03	2003–04	2004–05	2005–06
Agencies				
Buildings	1,185	1,930	1,407	1,211
Insurance	79	84	74	39

Mrs. Villiers: To ask the Secretary of State for Health how much was spent by her Department on refreshments in each year since 1997. [41246]

Jane Kennedy: The Department has spent the following amounts on refreshments and food since 2002, previous years are not available due to a change in contractor:

	£
2002	693,928
2003	705,889
2004	701,236
2005	794,021

This figure includes working breakfasts or lunches, meetings and official entertainment.

All expenditure of official entertainment is made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in "Government Accounting"

Mr. Francois: To ask the Secretary of State for Health how much has been spent by her Department on salaries paid to civil servants in each year since 1997. [41590]

Jane Kennedy: Information on the Department's administration costs, including paybill, for years from 1999–2000 is given in the Departmental Annual Report 2005 (Cm 6524). The most recent Public Expenditure Outturn White Paper (Cm 6639) gives some provisional information on the 2004–05 outturn for departmental administration costs.

Information for earlier years to 1997–98 is not available on a consistent basis, and information on the Department's running costs for those years is given at table 13.1 in the departmental report 2000–01 (Cm 4603).

Drug Treatment Centres

Mr. Malins: To ask the Secretary of State for Health if she will list the addresses of drug treatment centres which specialise in *(a)* opiate addiction and *(b)* cocaine addiction. [44639]

Caroline Flint *[holding answer 23 January 2006]:* The information requested is not available in the format requested. Comprehensive details of all drug treatment services is available on the National Treatment Agency's website at:

www.nta.nhs.uk and on DrugScope's website at:

www.drugscope.org.uk/drugbaseii/home.asp.

There are approximately 683 drug treatment services[1] currently available in England, the majority of which specialise in treatment of opiate addiction; there are few services which specialise in the treatment of cocaine addiction. All drug misusers have access to a wide variety of services including structured counselling, harm reduction, aftercare and complementary therapies.

DrugScope

Genetically Modified Foods

Gregory Barker: To ask the Secretary of State for Health what plans she has to commission research into the public health effects of genetically modified foods. [43860]

Caroline Flint: The Food Standards Agency (FSA) has a research programme on the safety of novel and genetically modified (GM) foods and its research requirements are published at regular intervals via its website. Genetically modified foods are approved in the European Union on a case-by-case basis after an extensive safety assessment. The FSA currently has no plans to commission research into public health effects of GM foods.

Health Care Fraud

Lynne Jones: To ask the Secretary of State for Health what recent estimate she has made of the cost to the NHS of people accessing free care to which they are not entitled. [42722]

Jane Kennedy: Anyone who is ordinarily resident in this country is entitled to receive free national health service hospital treatment. Anyone who is not ordinarily resident is subject to the provisions of the NHS (Charges to Overseas Visitors) Regulations 1989, as amended. Successive Governments have not required the national health service to provide statistics on the number of overseas visitors seen or treated under the provisions of these Regulations or on the costs of treatment. It is therefore not possible to provide the information requested.

Healthcare Commission

David Taylor: To ask the Secretary of State for Health what assessment she has made of staffing levels at the Healthcare Commission; and if she will make a statement. [40658]

Jane Kennedy: The chairman of the Healthcare Commission has confirmed that as at 5 January 2006 there were 684 whole time equivalent staff on the Commission's payroll. This included permanent and fixed term contractor staff. There were also 176 interim and temporary staff.

High Cholesterol

Mr. Lansley: To ask the Secretary of State for Health how many diagnoses of high cholesterol there have been in England in each year since 1997–98; and how many of these diagnoses were made in those under the age of 18 years. [43535]

Caroline Flint: The information requested is shown in the table.

All diagnosis count of finished consultant episodes and patients for high cholesterol[1] in national health service hospitals, England 1997–98 to 2004–05

Age group	1997–98 Finished consultant episodes	1997–98 Patient counts	1998–99 Finished consultant episodes	1998–99 Patient counts	1999–2000 Finished consultant episodes	1999–2000 Patient counts	2001–01 Finished consultant episodes	2001–01 Patient counts
Under 18	167	121	200	167	244	198	298	209
18 and above	53,537	39,373	72,748	53,420	94,622	67,977	132,880	91,718
Not known	226	153	35	32	42	40	257	133
Total	53,930	39,647	72,983	53,619	94,907	68,215	133,436	92,060

Age group	2001–02 Finished consultant episodes	2001–02 Patient counts	2002–03 Finished consultant episodes	2002–03 Patient counts	2003–04 Finished consultant episodes	2003–04 Patient counts	2004–05 Finished consultant episodes	2004–05 Patient counts
Under 18	344	240	336	270	393	318	558	426
18 and above	162,655	111,682	200,733	134,702	225,665	155,308	288,424	195,375
Not known	202	200	141	139	87	87	70	70
Total	163,201	112,122	201,211	135,111	226,145	155,713	289,052	195,871

[1] High cholesterol can be coded as either a diagnosis or as a test result. If the case notes states this as a firm diagnosis of high cholesterol then E78.0, pure hypercholesterolemia code would be used if it is recorded as an abnormal test finding then R79.8, other specified abnormal findings of blood chemistry code would be used. High cholesterol counts include both of the aforementioned defined International Category of Disease-10 (ICD-10) codes where they were recorded in the primary or in any of the secondary diagnosis fields.

Hospital Episode Statistics (HES), NHS Health and Social Care Information Centre.

Influenza Vaccine

Mr. Lansley: To ask the Secretary of State for Health on what date she ordered an additional 200,000 doses of winter influenza vaccine to act as a contingency reserve. [31911]

Caroline Flint: We ordered an additional 200,000 doses of flu vaccine for delivery in January on 3 November 2005.

Mr. Lansley: To ask the Secretary of State for Health how many doses of influenza vaccine were *(a)* ordered for and *(b)* administered as part of the routine seasonal influenza immunisation programme excluding the Department's contingency stock, in each year since 1997–98; what the size of the contingency stock of seasonal influenza vaccine was in each year; and what the size of each at-risk group eligible for free influenza vaccines has been in each year. [33198]

Mr. Burstow: To ask the Secretary of State for Health what estimate she has made of the number of people in each priority group for influenza vaccination in England in each of the last three years. [32490]

Caroline Flint: The data for the United Kingdom as a whole, is shown in the table.

	Number of vaccine doses issued in UK[4]	Size of government stockpile	Number in at-risk groups[2]
1997–98	7.2 million	0	n/a
1998–99	7.6 million	0	n/a
1999–2000	7.8 million	0	n/a
2000–01	10.9 million	0	[3]12.88
2001–02	11.4 million	500,000	12.93
2002–03	11.9 million	500,000	13.09
2003–04	11.8 million	0	13.09
2004–05	12.3 million	400,000 rising to 2.9 million	13.17
2005–06	[4]13.6 million	400,000 rising to 1.2 million	[5]13.26

n/a = Not available.

[1] Based on manufacturer's UK distribution figures. Does not include Government stockpile.

[2] These figures do not include carers, whom it has always been at the discretion of general practitioners to vaccinate.

[3] This is the first year in which the Department conducted a targeted campaign, when the policy of vaccinating all of those over the age of 65 was first introduced, and so is the first year for which the number in at risk groups are available.

[4] Estimated production.

[5] Individuals with liver disease were added to the at risk groups in this year.

Flu vaccine uptake data in the over 65 age group was first collected from the start of the flu campaign in 2000, and data on vaccine uptake in those under 65 years in a medical risk group has been collected since 2004.

Vaccine uptake in the 65+ group is as follows:

	Percentage
2000–01	65.3
2001–02	67.7
2002–03	68.5
2003–04	71.0
2004–05	71.5

Vaccine uptake in at-risk groups under 65 years of age for 2004–05 was 54 per cent.

Lone Heath Care Staff (Safety)

Bob Spink: To ask the Secretary of State for Health what assessment her Department has made of the potential of MobileSOS and similar technology to protect lone healthcare and social workers; and whether she plans to make such technology available to healthcare and social workers. [42580]

Jane Kennedy: Guidance on how national health service health bodies should properly protect NHS loneworking staff, including how they should evaluate the use of technology for this purpose, was published by the NHS security management service (NHS SMS) in March 2005. NHS SMS has responsibility for all policy and operational matters related to the management of security delivery within the NHS. It is raising standards

of security work in a comprehensive, inclusive and professional manner to ensure real, permanent improvements are made.

An extensive evaluation of a mobile phone based device specifically designed to protect NHS staff was carried out by the NHS SMS in 2004. The evaluation report is available from their website at: www.cfsms.nhs.uk.

The decision on whether to purchase such technology, and what system should be bought, must be a decision for the individual NHS health body, based on a comprehensive assessment of their staff's needs and the risks they face.

Maternity Units

Mr. Lansley: To ask the Secretary of State for Health how many maternity units achieved *(a)* level one, *(b)* level two and *(c)* level three of the clinical negligence scheme for trusts in each year since 2000. [42942]

Jane Kennedy: The first year of formal clinical negligence scheme for trusts (CNST) maternity standards assessments was 2003–04 when all national health service trusts and two primary care trusts (PCTs) with significant maternity services were assessed by the NHS Litigation Authority, unless they had demonstrated compliance during the pilot exercise held in 2002–03.

The table shows the number of trusts at each level of the CNST maternity standards at the end of the last two financial years and end of the third quarter 2005–06. These are the latest available figures.

	31 March 2004	*31 March 2005*	*31 December 2005*
Pending	0	0	1
Level 0	20	0	2
Level 1	108	102	94
Level 2	24	46	54
Level 3	1	5	7
Total	153	153	[1]158

[1] This figure includes PCTs with midwifery-led units, which were not previously assessed.

Mental Health Treatment

Danny Alexander: To ask the Secretary of State for Health what the average length of treatment was following referrals to *(a)* psychiatrists, *(b)* clinical psychologists, *(c)* psychotherapists, *(d)* cognitive and behavioural therapists and *(e)* other therapists in the last year for which figures are available, broken down to the most local level for which figures are available. [40891]

Ms Rosie Winterton: Information available about the average length of treatment for hospital admissions following referrals to psychiatrists in 2004–05 has been placed in the Library. Information is not available in respect of other categories.

Danny Alexander: To ask the Secretary of State for Health what the average waiting time was for treatment following referral to *(a)* a psychiatrist, *(b)* a clinical psychologist, *(c)* a psychotherapist, *(d)* a cognitive and behavioural therapist and *(e)* other therapists in each of the last five years, broken down to the most local level for which figures are available. [40893]

Ms Rosie Winterton: The Department does not routinely collect information on waiting times for appointments with non-consultant-led services. Information on the estimated average waiting time from general practitioner written referral to first outpatient appointment with a psychiatry consultant in each mental health provider trust in each of the last five years has been placed in the Library.

NHS Sites (Car Parking Charges)

Mr. Lansley: To ask the Secretary of State for Health what guidance she has issued to *(a)* NHS trusts and *(b)* other NHS organisations on charging for car parking space on NHS sites in the last three years. [42953]

Jane Kennedy: Guidance on implementing car parking charges was last issued to the national health service in 1996 but remains extant. It is a matter for individual NHS trusts to decide whether or not to charge for car parking, and the level of charges in the light of local circumstances.

Older People

John Bercow: To ask the Secretary of State for Health what steps the Commission for Social Care Inspection is taking *(a)* to promote the health of older people and *(b)* to improve chronic disease management in care homes; and if she will make a statement. [39435]

Mr. Byrne: The chairman of the Healthcare Commission has confirmed that the Healthcare Commission has identified supporting improvement in the care and treatment of older people and people with long-term conditions amongst its priorities.

This commitment is reflected in its programme of activities which includes;

assessing performance against national targets to make sure that care in these and other national priority areas continues to improve;

other improvement activities targeted at services for older people and people with long-term conditions, including improvement reviews of services for people with heart failure and diabetes, a national study of services for people with COPD and the funding of a programme of national clinical audits which includes a number of major long-term conditions and elements of the care of older people; and

publication in February of a major report on services used by older people, produced jointly with CSCI and the Audit Commission.

Osteoporosis

John Penrose: To ask the Secretary of State for Health whether she plans changes to the use of *(a)* biphosphonates, *(b)* ralox and *(c)* strontium ranelate as treatments for osteoporosis on the NHS. [42435]

Jane Kennedy: Raloxifene and strontium ranelate are licensed for the treatment and prevention of post-menopausal osteoporosis and the drugs may be used in the national health service within those licensed indications. The class of drugs called biphosphonates, which includes strontium ranelate, includes a number of different brands which are licensed for the treatment of

various indications. It is for manufacturers of those drugs to apply for changes to the licensed indications in order for their use in the NHS to change.

Parliamentary Questions

Mr. Ian Austin: To ask the Secretary of State for Health what guidelines are given to her Parliamentary Response Unit on dealing with questions of a scientific nature. [41138]

Jane Kennedy: The Department's answers to all parliamentary questions are drafted in accordance with the Cabinet Office document "Guidance to officials on drafting answers to parliamentary questions", copies of which are available in the Library.

Press Releases

Mr. Lansley: To ask the Secretary of State for Health how many press releases were issued by her Department in each year since 1992. [41969]

Jane Kennedy: The information requested is shown in the table.

Press releases issued by Department of Health, 1992-93 to 2005-06

Financial year	*Number*
1992–93	553
1993–94	625
1994–95	619
1995–96	431
1996–97	296
1997–98	330
1998–99	559
1999–2000	743
2000–01	697
2001–02	609
2002–03	441
2003–04	431
2004–05	427
2005–12 January 2006	266

Private Finance Initiative

Steve Webb: To ask the Secretary of State for Health what plans she has to review the use of the private finance initiative for major hospital rebuilding projects. [43547]

Mr. Byrne *[holding answer 19 January 2006]:* The private finance initiative (PFI) has been a major contributor to the largest hospital building programme in the national health service's history. Since May 1997, PFI has led to the construction of 48 new hospital schemes. Going into the future, we remain committed to the continued use of PFI as a mechanism for delivering the required capital investment into the NHS. Individual projects need a sound business case to be affordable and are scrutinised carefully.

Social Services (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Health how many clients aged 16 to 19 years were seen by social services in Tamworth in each of the last five years. [36029]

Ms Rosie Winterton: Information on the number of all referrals of children and young people to social services departments is published in the Department for Education and Skill's (DfES) "Referrals, Assessments and Children and Young People on Child Protection Registers" statistical volume, which is available on the DfES website at: www.dfes.gov.uk/rsgateway/DB/VOL/v000553/index.shtml

For clients aged 18 to 64, 2,940 new clients were assessed and 2,820 existing clients were reviewed in 2003–04 by Staffordshire council with social service responsibilities. Data for earlier years is not available on a comparable basis.

Testicular Cancer

Mrs. James: To ask the Secretary of State for Health what recent campaigns her Department has undertaken to raise awareness of testicular cancer. [38237]

Ms Rosie Winterton: We encourage men to be aware of the early signs and symptoms of testicular cancer. To increase awareness of testicular cancer we have collaborated with Cancer Research UK in the production of the leaflet, "Testicular Cancer: Spot The Symptoms Early". The leaflet is available in all primary care settings and in 2005–06 £600,000 copies for the leaflet were produced.

Also in 2003–04 we provided £30,000 to the men's health forum to help fund their publication, the men and cancer manual. This manual gives men information, in plain English, on all cancers including testicular cancer.

NORTHERN IRELAND

"A Shared Future"

Mark Durkan: To ask the Secretary of State for Northern Ireland what measures he is planning to prioritise the aims and objectives of "A Shared Future" in the spending plans of each Northern Ireland department. [43830]

Angela E. Smith: The measures that Departments will take to prioritise the aims and objectives of "A Shared Future" will be reflected in the triennial action plan, which ill be announced by March 2006.

Departmental spending plans will further reflect the policy objectives of "A Shared Future".

Mark Durkan: To ask the Secretary of State for Northern Ireland what resources will be provided for implementing the "Shared Future" strategy. [43831]

Angela E. Smith: Expenditure planned in 2006–07 on "community relations/good relations" activities across departments, which is about £15 million, will be specifically used to support the objectives of "A Shared Future".

Administration Costs

Mr. MacNeil: To ask the Secretary of State for Northern Ireland what the administrative costs were of each agency for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [39848]

Mr. Woodward: The administrative costs in the 2004–05 financial year for each Agency in the Northern Ireland Office are as follows:

Total administrative costs 2004–05

Agency	*£000*
Northern Ireland Prisons Service	13,196
Compensation Agency for Northern Ireland	4,332
Forensic Science Agency for Northern Ireland	7,229
Youth Justice Agency for Northern Ireland	2,327
Total	27,084

All the costs of the Northern Ireland Office (NIO) relate to "Northern Ireland" as per the public expenditure statistical analyses and are regarded as identifiable.

Mr. Salmond: To ask the Secretary of State for Northern Ireland what the administrative costs were of each non-departmental public body for which he has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [40056]

Mr. Woodward: The administration budgets regime which Treasury oversee is for Whitehall Departments only. This type of regime does not apply to non-departmental public bodies (NDPBs). However, information on NDPBs can be found on the public bodies database which is held on the Cabinet Office's "Civil Service Agencies and Public Bodies" website http://www.knowledgenetwork.gov.uk/ndpb/ndpb.nsf. The database gives full information, summary statistics and analysis only for bodies sponsored by UK Government departments (this includes the Northern Ireland Office).

All the costs of the Northern Ireland Office relate to "Northern Ireland" as per the Public Expenditure Statistical Analyses.

Chronic Back Pain

Mr. Pelling: To ask the Secretary of State for Northern Ireland what initiatives are being taken in his Department to help civil servants with chronic back pain. [34987]

Mr. Woodward: The following initiatives are being taken in the Northern Ireland Office to help civil servants with chronic back pain

Referral to appropriate Occupational Health Services for assessment on condition and for recommendation on adjustments taking account of the Disability Discrimination Act 1995.

Availability of Health and Safety Adviser, Premises Officer, Welfare Service and Disability Liaison Officer to provide appropriate advice.

Availability of an orthopaedic chair if approved by the Department's Medical Adviser.

Departmental Contracts

Mr. MacNeil: To ask the Secretary of State for Northern Ireland what the total value is of *(a)* catering and *(b)* entertainment contracts let by his Department; and what value of such contracts has been let in each nation and region of the UK, including London. [37475]

Mr. Woodward: For the financial year 2004–05 the value of catering contracts let in Northern Ireland was £48,000. The Northern Ireland Office has not let catering contracts in any other region of the UK. The NIO does not have any entertainment contracts.

Departmental Estate

Pete Wishart: To ask the Secretary of State for Northern Ireland if he will list the former *(a)* buildings and *(b)* land of (i) his Department and (ii) (A) non-departmental public bodies, (B) agencies and (C) independent statutory bodies for which his Department is responsible which have been sold since 7 May 1997; what the sale price of each (1) was at the time of sale and (2) is at current prices; and whether the money accrued was (x) retained by his Department and *(y)* claimed by the Treasury. [40135]

Mr. Woodward: The information requested is as follows.

(i) Northern Ireland Office (NIO) Core Department

		Sale price at:		*Money accrued was:*	
	Asset type	*Time of sale (1) (£)*	*Current prices (2) (£)*	*(x) Retained by Department*	*(y) Claimed by Treasury*
1997–98	One house	150,000	184,381	(x)	—
1998–99	Four houses	417,500	496,182	(x)	—
1999–2000	Two houses	169,500	198,399	(x)	—
2000–01	Two houses	223,495	254,073	(x)	—
2001–02	Three houses	1,798,000	2,008,614	(x)	—
2002–03	Three houses	264,000	290,070	(x)	—
2003–04	One house	145,000	154,837	(x)	—
2004–05	14 houses	1,874,500	1,943,777	(x)	—
2005–06	13 houses	3,052,500	3,052,500	(x)	—
	Land	56,000	56,000	(x)	—
Total	—	8,150,495	8,638,833	—	—

(ii) (A) Non-Departmental Public Bodies (NDPBs)

Please see following tables for the only NIO NDPBs which have sold land and buildings since 1997—the Police Service of Northern Ireland (PSNI) and the Probation Board for Northern Ireland (PBNI).

PSNI

	Sale price at:		Money accrued was:	
Asset type	*Time of sale(1) (£)*	*Current prices(2) (£)*	*(x) Retained by Department*	*(y) Claimed by Treasury*
2001–02

Total	622,198	702,187		

Notes:

1. Remaining land at HMP Maze prison site was gifted to The Office of the First Minister and the Deputy First Minister (OFMDFM) in March 2003.
2. Land at HMP Belfast site was gifted to the Department of Social Development in July 2003.
3. The Youth Justice Agency transferred land and buildings, valued at £400,000, to NIPS at nil value in April 2004.

(C) independent statutory bodies

None of the NIO's independent statutory bodies have sold land or buildings since 7 May 1997.

Departmental Staff

Mr. Spellar: To ask the Secretary of State for Northern Ireland how many civil servants in his Department worked from home for at least one day a week in the last year for which figures are available. [40286]

Mr. Woodward: In relation to the Northern Ireland Office this is a nil return.

Bob Spink: To ask the Secretary of State for Northern Ireland how many disciplinary actions against civil servants employed in his Department *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43490]

Mr. Woodward: The following warnings issued to NIO staff are in relation to poor attendance, performance and conduct. It is not possible to identify the number of staff where action was commenced but did not result in any warning being issued or to identify the number of staff who also received a sanction as a result of a warning being received. This could be provided only at disproportionate costs.

	Warnings
2005	25
2004	18
2003	56
2002	67
2001	31

Diabetes

Lady Hermon: To ask the Secretary of State for Northern Ireland which of the Health and Social Service Boards in Northern Ireland has appointed a network manager to lead in the development of the diabetes service. [44565]

Mr. Woodward: The Northern Health and Social Services Board has identified the provision of diabetes services as an area of healthcare, which they wish to provide through a Managed Clinical Network (MCN). The framework for the development of an MCN includes the nomination of a network manager and this is included in the Board's proposal for the Diabetes MCN. The Board advises me that a network manager has not yet been identified.

To date, no other Health and Social Services Board has indicated plans to develop a Managed Clinical Network in diabetes.

Lady Hermon: To ask the Secretary of State for Northern Ireland what provision is made in Northern Ireland for counselling and psychological support for people diagnosed with diabetes; and if he will make a statement. [44566]

Mr. Woodward: Each of the four Health Boards is aware of the need to ensure appropriate psychological and emotional support to assist people to come to terms with diabetes and having a life-long chronic condition. Counselling and psychological support is provided to patients by specialist diabetic nurses who are specifically trained to do so. However it is recognised that there is a lack of specialist clinical psychologists input to the process and Boards are currently taking steps to increase the level of clinical psychology support.

Lady Hermon: To ask the Secretary of State for Northern Ireland what strategy each Health Board in Northern Ireland has put in place for identifying people likely to develop *(a)* type 1 and *(b)* type 2 diabetes. [44568]

Mr. Woodward: The UK National Screening Committee has stated that there is no justification for universal (population) screening for Diabetes in the United Kingdom. However there is some support for screening population subgroups that are at a higher risk of undiagnosed diabetes and coronary heart disease. Further work is required in this area and a number of pilot projects are under way elsewhere in the UK, which would influence any decisions to introduce such screening programmes in Northern Ireland. The majority of early identification of both type 1 and type 2 diabetes will take place in primary care and there are regular reviews of patients with diabetes. This would include screening and investigation of the complications which may arise from diabetes.

Dog-fighting

Andrew Rosindell: To ask the Secretary of State for Northern Ireland how many individuals have been prosecuted for participating in organised dog-fighting in Northern Ireland in each of the last seven years. [43755]

Mr. Hanson: Under the Welfare of Animals (Northern Ireland) Act 1972, it is an offence to cause unnecessary suffering to an animal by causing, procuring or assisting at the fighting or baiting of an animal or to take part in such an episode. Under the same Act, it is also an offence to permit or cause cruelty to animals.

The following table provides statistics for calendar years 1997 to 2003 for the number of prosecutions for the offences of causing unnecessary suffering, cruelty to animals and permitting cruelty to animals; however it is not possible to determine the type of animal involved.

Data for 2004 is not yet available.

Prosecutions for specific offences under the Welfare of Animals (Northern Ireland) Act 1972: 1997–2003

	Causing unnecessary suffering to animals	*Cruelty to animals*	*Permitting cruelty to animals*	*Total*
1997	6	5	0	11
1998	8	15	0	23
1999	16	16	1	33
2000	10	8	0	18
2001	13	4	0	17
2002	6	2	0	8
2003	11	13	2	26

Educational Attainment

Sammy Wilson: To ask the Secretary of State for Northern Ireland what percentage of 18-year-olds in the Northern Ireland population achieved two or more A level grades A-E in *(a)* 2004 and *(b)* 2005. [44298]

Angela E. Smith: The percentage of 18-year-olds in the Northern Ireland population achieving two or more A levels at grades A-E for the 2003/04 academic year is 38. Figures for 2004/05 will be available by March 2006.

Elderly People (Care Packages)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many elderly people living in the Causeway Health Trust area in 2005 who have been assessed as requiring a care package while continuing to live in their own homes were waiting longer than one month from the assessment for that care to be delivered. [43625]

Mr. Woodward: At 30 September 2005, there were 258 people in the Causeway Health and Social Services Trust area who were in the Elderly Care Programme of Care and who were waiting in the community for five weeks or more for a care package to be delivered. This figure includes those people who were still waiting for part of a domiciliary care package to be delivered, unless the element awaited was not substantial.

Fixed Penalties (Speeding)

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many fixed penalty notices for speeding were issued in each *(a)* district council area and *(b)* parliamentary constituency area in Northern Ireland in each year since 2002; and how many such notices were issued where the offence was detected by a traffic camera in each year. [42414]

Mr. Woodward: The Police Service of Northern Ireland do not record statistics by council area or parliamentary constituency, but by district command unit. The following table covers the period 2002-05 and show *(a)* the total number of fixed penalty notices issued for speeding and *(b)* the number of fixed penalty notices issued for speeding following detection by mobile and fixed safety cameras.

Hamill Review

Mr. Dodds: To ask the Secretary of State for Northern Ireland what progress has been made in the implementation of the Hamill Review. [44517]

Mr. Woodward: As I announced on 6 June 2005, the Hamill report will be taken forward in the context of developing a Strategic Development Plan for the Northern Ireland Prison Service. The subsequent Blueprint programme encompasses the Hamill report in seeking to modernise and develop the Service. The programme is being project managed in six separate but interlinked strands.

Much work is nearing completion on the first four strands including assessments of population projections and prisoner needs, the development of the estate, alternative approaches to contestability and options for court escorting. Where appropriate, proposals will be published for comment or consultation during the spring.

Strand 5, covering staff reward and recognition, incorporates a range of issues which will be addressed during the course of this year.

Strand 6 covers a variety of separate improvement and efficiency projects, the full implementation of which will span a longer timescale. I have however already announced last autumn, the transfer to DHSSPS by 1 April 2007 of responsibility for prisoner healthcare.

IRA Disarmament

Andrew Rosindell: To ask the Secretary of State for Northern Ireland if he will make a statement on the effectiveness of IRA disarmament in Northern Ireland. [43725]

Mr. Woodward: The Chairman of the Independent International Commission for Decommissioning (IICD), General John de Chastelain, announced on 25 September 2005, that it had witnessed full and final decommissioning by the PIRA of arms and weaponry.

The seventh Independent Monitoring Commission (IMC) report published on 19 October 2005, recognised that statement as

"very significant"

and that

"initial signs following the PIRA statement are encouraging".

Subsequent IMC reports will provide a clear indication of whether or not the PIRA have met the commitments they have made to end all activity.

Murders/Punishment Beatings

Andrew Rosindell: To ask the Secretary of State for Northern Ireland how many people under the age of 16 have *(a)* been murdered and *(b)* received a punishment beating in Northern Ireland for each of the last eight years. [43721]

Mr. Woodward: PSNI has provided the following statistical information in response to this question:

	Persons under the age of 16	
	Murders	Casualties as a result of paramilitary style assaults
1998	[1]10	2
1999	1	8
2000	1	3
2001	2	16
2002	1	8
2003	2	7
2004	0	10
2005	2	3
Total	19	57

[1] Includes victims of the Omagh bomb

Organised Crime

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what his assessment is of the extent of Provisional IRA involvement in organised crime in Northern Ireland. [44805]

Mr. Woodward: There have been significant changes in PIRA activity, including in the area of criminality, since the July statement. However, there are complex assessments to be made to distinguish between criminality by individual PIRA members for their own gain and criminality carried out by PIRA members which is authorised by the organisation.

It is the job of the Independent Monitoring Commission to comment on these issues and to consider whether PIRA have met the commitments they have made to end all activity, including involvement in organised crime. I look forward to receiving the Commission's forthcoming report, and successive reports, to assess progress in this area.

The Government remains fully committed to tackling organised crime in Northern Ireland, from whatever source.

People Smuggling

David Simpson: To ask the Secretary of State for Northern Ireland what estimate the police has made of the number of *(a)* people smuggled illegally into Northern Ireland and *(b)* females brought into Northern Ireland to work as prostitutes in each of the last five years. [36214]

Mr. McNulty: I have been asked to reply.

(a) It is not possible to state with accuracy the number of people smuggled illegally into Northern Ireland over each of the last five years. The nature of facilitation is such that many of those who have been facilitated may state if encountered that they entered by themselves on a false passport or stowed away without assistance, or similar response. In the absence of any evidence to the contrary it is often not possible to disprove the subject's claimed method of entry.

(b) The Police Service of Northern Ireland has conducted a number of inquiries into suggestions of people-trafficking to Northern Ireland for the purposes of prostitution. There is presently no evidence to suggest that this is taking place in Northern Ireland. The Police Service of Northern Ireland is acutely aware of the problems experienced in other jurisdictions and they continue to monitor the situation closely.

Police Officer Training

Sammy Wilson: To ask the Secretary of State for Northern Ireland (1) for what reasons drill is included in the foundation training curriculum for police officers in Northern Ireland; [40934]

(2) whether it is essential for a trainee police officer *(a)* to pass a competence test and *(b)* to achieve competency in drill as a prerequisite for successfully completing foundation training; [40935]

(3) what the *(a)* frequency and *(b)* duration was of drill performed by each intake of trainee police officers in (i) 2003, (ii) 2004 and (iii) 2005; [40936]

(4) how many trainee police officers in each intake in *(a)* 2003, *(b)* 2004 and *(c)* 2005 reported injuries as a result of performing drill; how many were forced to interrupt their initial training as a result; and for how long each was absent on sick leave. [40937]

Mr. Woodward: These inquiries refer to operational decisions which are the responsibility of the chief constable. The hon. Gentleman should pursue them directly with the chief constable.

Rail Travel

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the cost was of the standard fare for the train journey between Coleraine and *(a)* Belfast and *(b)* Londonderry in each of the last five years. [44802]

Mr. Woodward: The standard fare for the train journey between Coleraine and Belfast in each of the last five years is as follows:

As at January	£
2006	7.20
2005	6.80
2004	6.50
2003	6.20
2002	5.90
2001	5.60

The standard fare for the train journey between Coleraine and Londonderry in each of the last five years is as follows:

As at January	£
2006	5.50
2005	5.20
2004	4.90
2003	4.70
2002	4.50
2001	4.30

Speed Cameras

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many motorists have been caught speeding by mobile speed cameras in each of Northern Ireland's parliamentary constituencies over the past 24 months. [41111]

Mr. Woodward: The Police Service of Northern Ireland do not record statistics by parliamentary constituency, but by District Command Unit. The table below shows the number of Fixed Penalty Notices and Conditional Offers issued by PSNI following the use of mobile safety cameras during the period 2004–05.

DCU Area	*2004*	*2005*
Antrim DCU	81	0
Armagh DCU	66	66
Ballymena DCU	186	85
Ballymoney DCU	22	19
Banbridge DCU	1,165	2,064
Belfast East DCU	864	643
Belfast North DCU	104	81
Belfast South DCU	257	538
Belfast West DCU	8	38
Carrickfergus DCU	54	7
Castlereagh DCU	398	456
Coleraine DCU	92	91
Cookstown DCU	60	194
Craigavon DCU	470	277
Down DCU	371	347
Dungannon DCU	207	431
Fermanagh DCU	102	141

Newtownabbey DCU	7	0
Newtownards DCU	90	126
North Down DCU	1,513	680
Omagh DCU	463	467

DCU Area	2004	2005
DCU not recorded	3	0
Total	9,074	9188

Note
Larne and Strabane do not currently have any identified camera locations for mobile safety cameras.

Stormont (School Visits)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many schoolchildren have participated in visits to Parliament Buildings, Stormont, in each of the last three years. [43621]

Angela E. Smith: The number of schoolchildren visiting Parliament buildings in each of the last three years was;

	Number
2003	3,852
2004	4,582
2005	4,783

Volunteering

Mr. Gibb: To ask the Secretary of State for Northern Ireland how many volunteering positions his Department has offered in each of the last five years. [17878]

Mr. Woodward: I am sorry for the delay in replying.

An office notice was issued to all staff on 12 June 2001 advising them of the Active Community Scheme launched the previous year by the Prime Minister. The aim of the circular was to encourage staff who were not already involved in voluntary activities to consider how they might participate.

The following table sets out the number of staff who volunteered over the last five years.

	Number of staff who took part in voluntary work
2000	0
2001	1
2002	1
2003	4
2004	1
2005	3

Water Meters

Mr. Lidington: To ask the Secretary of State for Northern Ireland whether it is his policy that the Government should bear the cost of *(a)* buying and *(b)* installing domestic water meters. [44798]

Mr. Woodward: No. Although there will be no 'up front' charge for meter installation, the cost of supplying and installing domestic water meters will be included in the metered tariff and will, therefore, be borne by metered water customers. This is similar to practice in England and Wales.

Written Answers to Questions

Wednesday 25 January 2006

TRANSPORT

A19

Jim Cousins: To ask the Secretary of State for Transport if he will put the *(a)* four major interchange improvements along the A19 from Hebburn to Seaton Burn and *(b)* major realignment of the A19/A1058 Coast Road interchange into the trunk road programme; and if he will make a statement. [45534]

Dr. Ladyman: The Government announced in December 2004 that they would seek the regions' advice on their priorities for schemes for housing, regeneration and transport expenditure. Indicative allocations for the next 10 years were given to each region. The North East Interim Regional Transport Board has been established to determine each region's priorities. The four junction upgrade schemes on the A19 around Tyneside at Testos, Coast Road, Moor Farm and Seaton Burn junctions, are part of that process.

We are expecting to receive each region's advice and priorities at the end of January. Once these have been assessed there will a further announcement of the Department's initial response to the proposals.

East West Rail (Western Section)

John Bercow: To ask the Secretary of State for Transport what his policy is on the proposed East West Rail (western section); and what estimate he has made of its cost. [43293]

Derek Twigg: The Department for Transport continues to work with the Office of the Deputy Prime Minister (ODPM) and local stakeholders to investigate the transport needs of the Milton Keynes to Oxford corridor as part of the Sustainable Communities agenda. East West Rail (western section) scheme is one potential component and we continue to investigate it.

The last cost estimate for the scheme is £55 million capital costs (based on basic scheme—Oxford to Bedford, December 2003). These costs require further development and should be seen as indicative.

Humber Bridge

Mr. Austin Mitchell: To ask the Secretary of State for Transport how much of the debt on the Humber Bridge has been written off; when it was written off; for what reasons; and what mechanism was used. [45337]

Dr. Ladyman: Under a loan agreement signed between the Humber Bridge Board (the Bridge Board) and the Secretary of State on 1 July 1998 and subject to an order under the Humber Bridge (Debts) Act 1996—The Humber Bridge (Debts) Order 1998 which came into force on 19 August 1998, it was agreed that the Bridge Board would not have to repay a £62 million debt owed to the Public Works Loan Board. This was part of a package of measures designed to help ensure the long-term financial future of the bridge.

Light Rail Schemes

Stephen Hammond: To ask the Secretary of State for Transport how many new light rail schemes in large cities are planned; how many light rail schemes have been delivered in the last five years; and how many he expects will be delivered by July 2010. [40844]

Derek Twigg: I refer the hon. Member to my answers of 18 January 2006, *Official Report*, columns 1385–6W and 24 January 2006 [UIN40581] to the hon. Member for Epsom and Ewell (Chris Grayling).

Railways

Mr. Atkinson: To ask the Secretary of State for Transport when he expects to publish the consultants' report on the review of the Northern Rail franchise; and whether he expects the results of that review to be incorporated into the 2006 timetable. [44826]

Derek Twigg: The review of the Northern rail franchise is continuing, and an announcement will be made in due course. It has yet to be decided whether any train service changes recommended by the review would be incorporated in the December 2006 timetable, or at a later date.

Mrs. Dunwoody: To ask the Secretary of State for Transport pursuant to the answer of 15 November 2005, *Official Report*, column 1150W, on train operating companies, what mechanisms exist to ensure that the interests of *(a)* passengers and *(b)* the public purse are protected through the franchise specification and tendering process for train operating companies. [39387]

Derek Twigg: Passenger interests are protected by ensuring that franchises specify an appropriate level of service, backed by punctuality and reliability targets and penalties for non-compliance. The public purse is protected by developing a financial model of the franchise against which bids are assessed to ensure value for money and by the competitive tendering process itself.

Stephen Hammond: To ask the Secretary of State for Transport what proportion of domestic freight traffic is transported by rail. [40863]

Derek Twigg: I refer the hon. Member to my answer of 18 January 2006, *Official Report*, column 1384W to the hon. Member for Epsom and Ewell (Chris Grayling).

Mr. Bone: To ask the Secretary of State for Transport what steps his Department is taking to ensure that railway ticket prices represent value for money for passengers. [42514]

Derek Twigg: I refer the hon. Member to my answer of 18 January 2006, *Official Report*, column 1383W to the hon. Member for Windsor (Adam Afriyie).

Mr. Hands: To ask the Secretary of State for Transport when the Strategic Rail Authority expects to report the findings of its consultation on the future of the Watford junction to Brighton service. [41605]

Derek Twigg: The Department for Transport has reviewed the work carried out by the Strategic Rail Authority on the Brighton main line route utilisation strategy (RUS), which included recommendations on the future of the Watford junction to Brighton service. The finalised RUS will be published shortly.

Chris Grayling: To ask the Secretary of State for Transport (1) what percentage of the rail network has the train protection and warning system; and if he will list those lines which do not; [40567]

(2) on which lines train safety systems have been installed since 2000. [40573]

Derek Twigg: Operation of the rail network in Great Britain is the responsibility of Network Rail (NR). I have asked NR to write direct to the hon. Member.

Gregory Barker: To ask the Secretary of State for Transport when he will make an announcement on the future of the direct train link between Hastings and London Victoria. [43958]

Derek Twigg: The direct Hastings to Victoria service is being considered as part of the Brighton main line route utilisation strategy (RUS). An announcement about the publication of the RUS will be made shortly.

Road Accidents

Chris Grayling: To ask the Secretary of State for Transport whether an individual who is subject to medical treatment in a hospital over a period including midnight following a road accident is automatically classified in official statistics as having been seriously injured. [44668]

Dr. Ladyman: Personal injury road accident data in Great Britain are collected by the police and reported to the Department using the STATS19 accident report format. Any casualty who is admitted to hospital as an in-patient should be coded as a serious casualty in this system. Furthermore, casualties with certain types of injury such as fractures, should be coded as a serious casualty regardless of whether they were detained as an in-patient or not. However, not all personal injury road accidents are reported to the police.

Mr. Hands: To ask the Secretary of State for Transport how many *(a)* fatal and *(b)* serious road traffic accidents occurred in the Borough of Hammersmith and Fulham in each year since 1997. [45266]

Dr. Ladyman: The number of *(a)* fatal and *(b)* serious personal injury road accidents in the London borough of Hammersmith and Fulham between 1997 and 2004 (the latest year which figures are available), is given in table.

Year of accident	*(a) Fatal accident*	*(b) Serious accident*
1997	6	136
1998	6	147
1999	6	148
2000	4	127
2001	6	135
2002	4	113
2003	6	94
2004	6	102

Transport for London (TfL)

Stage Cottage (East Sussex)

Gregory Barker: To ask the Secretary of State for Transport what his plans are for Stage Cottage, Hurst Green, East Sussex, following the Highways Agency's purchase of the cottage under a compulsory purchase order. [43957]

Dr. Ladyman: A compulsory purchase order has not yet been published for this scheme. Stage Cottage was a discretionary purchase in view of the preferred route announcement for this scheme. The A21 scheme was given regional status following the Highways Agency's announcement in December 2004 as part of the Spending Review round. It is too premature to declare this property surplus. The Highways Agency is making arrangements through its managing agent to rent out this property until the outcome of the Regional Transport Board's recommendations are known and agreed by Ministers.

Rolling Stock

Tom Brake: To ask the Secretary of State for Transport how many rail vehicles *(a)* were delivered in each year since 1996 and *(b)* are due to be delivered in each year to 2012, broken down by manufacturer; and what the total value of rolling stock orders (i) delivered in each year since 1996 and (ii) due to be delivered in each year to 2012 is, broken down by manufacturer. [42714]

Derek Twigg: The following table shows the number of new vehicles introduced into revenue earning service each year, broken down by manufacturer. The most recent new order is for vehicles which are due to be introduced into service in 2009. Not included are the orders anticipated but not yet in place for the replacement fleet for the existing HST—high speed trains—currently planned to enter service from 2012.

New vehicles introduced into revenue earning service

	Bombardier	*Alstom*	*Siemens*	*CAF/Siemens*	*Hitachi*	*Number Total*
1996	0	0	0	0	0	0
1997	0	0	0	0	0	0
1998	20	0	0	0	0	20
1999	145	8	0	0	0	153
2000	160	60	0	0	0	220
2001	332	222	0	48	0	602
2002	444	166	0	8	0	618
2003	228	259	172	8	0	667

New vehicles introduced into revenue earning service

	Bombardier	Alstom	Siemens	CAF/Siemens	Hitachi	Number Total
2004	773	178	409	0	0	1,360
2005	427	12	284	0	0	723
2006	6	0	157	0	0	163
2007	0	0	0	0	0	0
2008	0	0	0	0	0	0
2009	0	0	0	0	168	168
Total	2,535	905	1,022	64	168	4,694

The following table shows the estimated value of the orders placed for the aforementioned vehicles, broken down by manufacturer. The values are listed by year in which the order was placed.

Estimated value of new vehicle orders placed

	Bombardier	Alstom	Siemens	CAF/Siemens	Hitachi	£ million Total
1996	11	0	0	0	0	11
1997	257	92	0	0	0	349
1998	624	265	0	55	0	944
1999	47	663	0	0	0	710
2000	125	0	0	9	0	134
2001	19	0	679	9	0	707
2002	1,122	0	0	0	0	1,122
2003	163	0	200	0	0	363
2004	0	0	125	0	0	125
2005	7	0	0	0	235	242
Total	2,375	1,020	1,004	73	235	4,707

Town and Parish Councils

Mr. Clifton-Brown: To ask the Secretary of State for Transport (1) whether his Department is considering proposals to award town and parish councils statutory rights to object to all vehicle operators licence applications and renewals; [45600]

(2) whether his Department is considering proposals to make town and parish councils statutory consultees for all vehicle operators licence applications and renewals. [45602]

Dr. Ladyman: There are no plans to review the categories of persons who may object to, or make representations against, the issue of a goods vehicle operator's licence by a traffic commissioner. These persons include county, district and unitary authorities and individuals who own or occupy land in the vicinity of a proposed operating centre for goods vehicles. The existing arrangements provide adequate opportunity for persons who may be affected by the issuing of a licence to have their views considered. The most effective way for parish councils and similar bodies to comment on licence applications is to work with the local authorities who do have a right to object.

Transport Infrastructure Projects

Chris Grayling: To ask the Secretary of State for Transport if he will list the transport infrastructure projects with a potential cost of more than £5 million on which the Highways Agency has carried out feasibility studies since 1997. [43354]

Dr. Ladyman: All schemes with an estimated cost of more than £5 million are subject to an appraisal of economic and environmental benefits and costs before they enter the Highways Agency's investment programme, known as the 'Targeted Programme of Improvements'. Since 1997, 112 schemes have entered this programme and 32 have been completed as listed as follows:

Completed TPI Schemes

A1 Willowburn—Denwick Improvement
A1(M) Wetherby—Walshford
A2 Bean—Cobham Phase 1 Bean—Tollgate
A5 Nesscliffe Bypass
A5 Weeford—Fazeley Improvement
A6 Great Glen Bypass
A6 Rushden and Higham Ferrers Bypass
A6 Rothwell—Desborough Bypass
A6 Clapham Bypass
A6 Alvaston
A10 Wadesmill Colliers End
A11 Roudham Heath—Attleborough Improvement
A14 Rookery Crossroads Grade Separated Junction
A27 Polegate Bypass
A34 Chieveley/M4 J13 Improvement
A41 Aston Clinton Bypass
A43 Silverstone Bypass
A43 Whitfield Turn—Brackley Hatch Improvement
A43 M40—B4031 Dualling
A46 Newark—Lincoln Improvement
A63 Selby Bypass
A66 Stainburn and Great Clifton Bypass
A120 Stansted—Braintree Improvement
A500 Basford, Hough, Shavington Bypass
A650 Bingley Relief Road
A1033 Hedon Road Improvement
M25 J12–15 Widening
A47 Thorney Bypass

A1 Stannington Junction
M4 Junction 18 Eastbound Diverge
M5 Junctions 17–18a Northbound Climbing Lane (Hallen Hill)
A64 Colton Lane GSJ
Total—32 Schemes

TPI Schemes not yet completed

M25 J23–27 Widening
M25 J27–30 Widening
A21 Kippings Cross to Lamberhurst Bypass
A23 Handcross to Warninglid Widening
A453 Widening (M1 J24 to A52 Nottingham)
M25 Junction 28/A12 Brook Street Interchange
M27 J11 to J12 Climbing Lanes
M27 J3 to J4 Widening
M1 J30 to J31 Widening
M1 J31 to J32 Widening
M1 J32 to J34S Widening
M1 J34N to J37 Widening
M1 J37 to J39 Widening
M1 J39 to J42 Widening
M1 J31 to J32 Northbound Collector/Distributor
M62 J25 to J27 Widening
M62 J27 to J28 Widening
Total—80 Schemes

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Air Quality Management Zones

Anne Main: To ask the Secretary of State for Environment, Food and Rural Affairs how many air quality management zones have been created in England and Wales in each year since they were established. [43120]

Mr. Bradshaw: The number of local authorities in England and Wales who have passed orders declaring Air Quality Management Areas (AQMAs) in each year since the first declaration in 1999 are as follows:

	Number of authorities passing orders declaring AQMAs
1999	1
2000	10
2001	58
2002	29
2003	27
2004	31
2005	71
2006	1

Some local authorities have declared AQMAs in more than one year. Other local authorities have revoked or amended AQMAs in subsequent years. The total number of local authorities in England and Wales which currently have AQMAs declared is 170.

Animal Welfare Charities

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many British animal welfare charities have been awarded Government funds in each of the last two years; and how much was awarded to each charity. [43709]

Mr. Bradshaw: No British animal welfare charity was awarded Government funds in financial year 2004–05. One British animal welfare charity, the Welfare Fund for Companion Animals, has been awarded Government funds totalling £25,000 in financial year 2005–06.

Avian Influenza

Rosie Cooper: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the oral statement of 26 October 2005, *Official Report*, columns 307–09, what further work her Department has undertaken on the possibility of an avian influenza outbreak in the United Kingdom; what the results of that work have been; what *(a)* further work and *(b)* further work in conjunction with the Department of Health is planned; and if she will make a statement. [37103]

Mr. Bradshaw: An updated Qualitative Risk Assessment covering outbreaks of the highly pathogenic avian influenza (HPAI) H5N1 virus in the period since the end of October 2005 was published on 17 January 2006. It takes account of outbreaks in village poultry in Turkey, Romania, Ukraine and South Federal district of Russia (European Russia), and also in the south west of China.

This update and commentary does not alter our previous overall conclusion regarding the increased but still low likelihood of the introduction of the virus to the UK from the affected regions. Nevertheless, the increasing number of outbreaks in Eastern Europe raises concerns that the virus may be more widespread than previously anticipated in the affected region. Should the number of virus detections continue to increase in Eastern European countries, this may change the likelihood of introduction of the virus to the UK. Defra continues to monitor developments and assess the situation.

Defra is working closely with the Department of Health on all issues related to the protection of human health during an outbreak of avian influenza, both to ensure the protection of individuals who would be involved in the control of disease and possibly exposed to diseased birds, and to prevent the resortment of the virus and the development of human influenza.

Badgers

Adam Price: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her Department's policy on the culling of badgers; and whether the option of vaccines for badgers is being considered as an alternative. [44695]

Mr. Bradshaw: Responsibility for tackling bovine tuberculosis is a devolved matter and what happens in Wales is, of course, a matter for the Welsh Assembly. However, in England, we are currently consulting on both the principle and method of a badger culling policy. Developing a TB vaccine for badgers and cattle is one of our key longer-term goals, and significant research is focused on this.

OTMS

Mr. David Jones: To ask the Secretary of State for Environment, Food and Rural Affairs when the over-30-month-scheme will come to an end. [44040]

Mr. Bradshaw: The over-30-month-scheme (OTMS) came to an end at midnight on 22 January 2006. The Older Cattle Disposal Scheme replaced the OTMS on 23 January 2006.

Mr. David Jones: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to increase the number of abattoirs allowed to process over thirty months cattle. [44043]

Mr. Bradshaw: The decision to seek an approval to slaughter over-30-month (OTM) cattle for the food chain, is a commercial one.

There is no ceiling on the number of abattoirs allowed to process these cattle, although to be approved an abattoir must be able to demonstrate that it has the facilities and procedures in place to effectively test cattle for BSE. As at 18 January, 33 abattoirs had been approved in the UK. We expect more to seek approval as the market for OTM beef expands.

Birds' Eggs (Thefts)

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many people were prosecuted for the theft of rare birds' eggs in each of the last seven years; and what steps she is taking to tackle such thefts. [43712]

Jim Knight: The information we hold on offences under Section 1 of the Wildlife and Countryside Act 1981 does not distinguish between egg theft offences and other offences under that section.

However, information on the total number of defendants subject to proceedings at magistrates courts for offences relating to stealing of birds eggs in England and Wales, 1998–2004[1] is set out in the following table:

Act	*Offence description*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
Game Act 1831 sec. 12, 23, 3, 24	Killing game illegally. Killing or taking without certificate. Laying poison to destroy or injure game. Taking or destroying the eggs of game, wild fowl etc., or having eggs so taken in possession	20	25	9	7	7	16	10
Wildlife and Countryside Act 1981 sec. 1	Protection of nests and eggs of wild birds	19	14	10	31	10	17	18

Act	Offence description	1998	1999	2000	2001	2002	2003	2004
Wildlife and Countryside Act 1981 sec. 3	Protection of the nests and eggs of wild birds in sanctuaries	0	0	0	0	0	0	0
Wildlife and Countryside Act 1981 sec. 6	Sale etc. of live or dead wild birds, eggs etc.	3	2	4	1	0	1	1

[1] These data are on the principal offence basis

Source:
RDS Office for Criminal Justice Reform
Ref: IOS 020–06

The Government are committed to combating wildlife crime, and, through the Partnership for Action Against Wildlife Crime, supports the network of Police Wildlife Crime Officers who enforce these controls. In particular, the police response to egg thefts—'Operation Easter'—has made an important impact on this type of crime, and the criminals involved.

Cattle Movement Regulations

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 29 November 2005, *Official Report*, column 311W, on farming, in what circumstances an error regarding cattle movement regulations which occurred before 2003, where the animal is now dead, would be considered an infringement of loss compliance rules. [38906]

Mr. Bradshaw *[holding answer 20 January 2006]:* To reiterate the answer of 29 November 2005, *Official Report*, column 311W, a breach of the relevant requirements on or after 1 January 2005 will be regarded as a non-compliance and will be assessed for a penalty as required by the EC regulations. Breaches which commenced prior to the introduction of cross compliance and are continuing, through an act or omission of the farmer, into 2005, will also be assessed for a penalty.

The Cross Compliance Statutory Management Requirements covering cattle identification are the legal requirements set out in Council Regulation 911/2004, Commission Regulation 1760/2000 and the related domestic implementing legislation. Any act or omission that breaches this legislation, which took place before 1 January 2005, but which could have been rectified prior to being discovered at any cross compliance on the spot check will be regarded as a non-compliance.

Chewing Gum

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs how many litter enforcement notices were served on members of the public for dropping chewing gum in the Chewing Gum Action Group campaign pilot areas during the pilot period. [42532]

Mr. Bradshaw *[holding answer 18 January 2006]* There were two litter fixed penalty notices for dropping chewing gum issued during the pilot campaigns—one by Manchester city council and one by Preston city council.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what evidence there is from the Chewing Gum Action Group campaign pilot areas of reductions in the quantity of illegal littering of public areas by chewing gum; [42533]

(2) how much less gum there was on relevant streets at the end of the Chewing Gum Action Group campaign pilots compared with the beginning of the pilot period. [42534]

Mr. Bradshaw *[holding answer 18 January 2006]:* Reliable figures on the reductions in gum deposition are only available from Preston city council, as both Maidstone borough council and Manchester city council experienced problems over the accurate measurement of gum deposits. In Preston there was a 76 percent. reduction in levels of gum deposition in the control areas at the end of the campaign, and subsequent assessments have found that significant reductions in those areas have been sustained.

Clean Neighbourhoods and Environment Act

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* fixed penalty notices have been issued and *(b)* successful prosecutions have been brought for each section of the Clean Neighbourhoods and Environment Act 2005 that has been introduced to date, grouped by each local authority area in England and Wales. [45667]

Mr. Bradshaw: The fixed penalty provisions in the Clean Neighbourhoods and Environment Act 2005 will not be introduced until April 2006.

Figures for prosecutions will not be available until after this fiscal year has ended.

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs when the Minister of State will respond to the letter from the hon. Member for West Worcestershire of 3rd November 2005, reference: 29765. [41974]

Mr. Bradshaw *[holding answer 16 January 2006]:* A reply was sent on 31 December 2005, I apologise for the delay.

Mr. Spellar: To ask the Secretary of State for Environment, Food and Rural Affairs when her Department will reply to the letter of 10 November 2005 from the right hon. Member for Warley regarding climate change. [44700]

Mr. Morley: I apologise for the delay in replying to my right hon. Friend's letter of 10 November 2005 regarding climate change. A reply will be sent shortly.

Executive Agencies

Anne Main: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* targets, *(b)* advice and *(c)* guidance her Department has given to executive agencies that fall under the remit of her

Department on the reorganisation of their administrative functions on a regional basis; and if she will make a statement. [41644]

Jim Knight: No formal targets, advice or guidance has been given to Defra executive agencies on the reorganisation of their administrative functions on a regional basis.

Eight of the nine Defra executive agencies already have headquarters outside the London region and/or a presence across the regions.

Farm Waste Directive

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when the Government expects to introduce the Farm Waste Directive. [43833]

Mr. Bradshaw: There is no Farm Waste Directive as such. Following a public consultation exercise and an adverse judgment by the European court of justice on infraction proceedings by the European Commission against the UK, we are now finalising the waste management (England and Wales) Regulations 2006. The main purpose of the Regulations is to repeal the exclusion in section 75(7)*(c)* of the Environmental Protection Act 1990 and to apply to agricultural waste the national controls that are already in place to comply with the Waste Framework Directive and the Landfill Directive. Our aim is to make and lay the Regulations before Parliament by 31 March 2006.

Glue Traps

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to make illegal the *(a)* sale and *(b)* use of glue traps; and if she will make a statement. [41944]

Mr. Bradshaw: The use of glue traps is currently a lawful method of pest control and there are no plans to make their sale or use illegal.

However, when choosing to use glue traps instead of other methods such as spring and cage traps, or chemical control (warfarin for rats), the operator should consider their responsibilities in ensuring that the use of a glue trap does not cause any unnecessary suffering under Section 1, subsection (1) and Section 15 of the Protection of Animals Act 1911.

Habitats Directive

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many species the UK has requested to be added to the EU habitats directive 1992 in each year since 1992. [44868]

Jim Knight: The UK has not asked for any species to be added to the EU habitats directive.

However, the European Commission has set up a Marine Expert Group, which includes the UK. This group is looking to make an initial assessment of the marine chapters in the annexes of the habitats directive with a view to possible adaptations.

Horse Exports

Anne Main: To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to ensure that exported horses are categorised for export as for *(a)* breeding, *(b)* riding, *(c)* exhibition and *(d)* slaughter; and if she will take steps to ban the export of horses for slaughter. [42650]

Mr. Bradshaw: European Union animal health rules, which set out the requirements for exporting horses to other member states, do not stipulate different rule for horses being exported for breeding, riding, exhibition or slaughter. A unilateral ban on the export of live horses for slaughter would be illegal under EU law.

Under national animal welfare rules, we have a licensing system for the export of horses. Applicants wishing to export horses are asked the reason for export. However there is no evidence of a slaughter trade in this country or any demand for one. Information on reasons for export under the licensing arrangements can be found on the Defra website at: http://www.defra.gov.uk/animalh/welfare/farmed/transport/horsestats.htm http://defraweb/animalh/welfare/farmed/transport/horsestats.htm

House Building (Aylesbury)

John Bercow: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate she has made of the additional waste recycling capacity that will be required as a result of the planned expansion of housing in Aylesbury Vale; [44162]

(2) what assessment she has made of whether a new waste treatment facility will be required to take account of the Government's planned expansion of housing in Aylesbury Vale. [45347]

Mr. Bradshaw: Local authorities and regional assembles are the responsible bodies to plan for the management of all waste types within their areas. Any growth in waste volumes needs to be seen in the context of wider trends in waste volumes linked to overall economic performance as well as any waste growth linked to planned expansion of housing. In defined growth areas, the Office of the Deputy Prime Minister (ODPM) have held regional seminars to discuss how waste arising from increasing population, particularly from construction, demolition and excavation can be properly planned for to ensure that the necessary infrastructure can be developed.

The ODPM are also in discussions with the Environment Agency to carry out a study to predict quantities and types of waste that are likely to arise in the Thames Gateway region and the results from this study will be applicable to other designated growth areas. Additionally, the Environment and Quality of Life sub-group of the Milton Keynes South Midlands ((MKSM) Inter-Regional Board is conducting a desk study into waste strategies across the MKSM growth area, the results of which will be fed back through liaison with county and regional bodies.

The Government continue to encourage all local authorities to move towards innovative methods of waste disposal which will reduce amounts of waste sent to landfill. In the 2004 Spending Review the Government announced an increase in the EPCS

Formula Spending Share block of £888 million by 2007–08 over 2004–05. Over the three-year period to 2005–06, authorities are also benefiting from a total of £294 million invested through the Waste Minimisation and Recycling Fund and its successor the Waste Performance and Efficiency Grant, will provide a further £260 million over the three years to 2007–08. Finally, through the Private Finance Initiative (PFI), credits worth £355 million have been made available over the three years to 2005–06 as an extra source of funding, with a further £535 million available in 2006–07 and 2007–08.

Influenza Pandemic

Mr. Lansley: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the security and sustainability of food supplies in the event of an influenza pandemic. [43538]

Mr. Bradshaw: DEFRA is keeping the position under review with industry, in particular with help from our Food Chain Emergency Liaison Group which comprises representatives from all key food sectors, to ensure that the food supply chain can cope with the effects of an influenza pandemic. The main potential pinch point identified for the food industry is possible HGV driver shortages caused by drivers falling sick. We are exploring the option, for example, of increased sharing of driver resources.

Landfill Allowances

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what the timetable is for the implementation of the Landfill Allowance Trading Scheme; and what the timescale is for the introduction of fines for local authorities exceeding their individual landfill allowances. [42909]

Mr. Bradshaw: The Landfill Allowance Trading Scheme (LATS) was launched on 1 April 2005 with key target years 2010, 2013 and 2020. Section 9(1) of the Waste and Emissions Trading Act (WET Act) places each waste disposal authority (WDA) under a duty to secure that the amount of biodegradable municipal waste (BMW) sent to landfills in that year does not exceed the amount authorised by the landfill allowances available to that authority for the year.

At the end of the each scheme year (31 March annually), there will be a six month reconciliation period. Authorities will have three months to submit their end of year data. During the following two months, the monitoring authority will provide each authority with a draft reconciliation between the amount of BMW the authority landfilled and the number of allowances it holds. Should an authority have landfilled more waste than it holds allowances for, it can then use the sixth month to trade or borrow allowances to balance the figures. Any authority which has landfilled in excess of the allowances it holds at the end of the reconciliation period will be liable to a financial penalty of £150 per tonne (Section 9(2) of the WET ACT). In a target year the Government will reserve the right to pass some or all of any fine imposed by the European Court of Justice. Guidance on the procedure for the application of penalties under section 9(2) of the WET Act and on the Secretary of State's powers to waive, and to extend the time for paying, penalties and interest with respect to landfilling of BMW in excess of allowances held has been published on the DEFRA website at

http://www.defra.gov.uk/environment/waste/localauth/lats/guidance.htm.

Local Government Inspections

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what role her Department plays in local government inspection. [39493]

Mr. Bradshaw: DEFRA does not carry out inspections of local authorities. The Audit Commission carries out inspections of local authorities within the Comprehensive Performance Assessment Framework. The Comprehensive Performance Framework includes a requirement to consider the performance of local authority environmental services.

DEFRA has interests in a range of local authority inspection and other regulatory activity including in relation to animal health and welfare, and environmental protection.

Methane Emissions

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government are taking to reduce methane emissions in the UK; and if she will make a statement. [43702]

Mr. Morley: UK methane emissions have fallen every year since 1990 and by 2004 had dropped to about half of 1990 levels. The main sources of methane emissions in the UK are landfill sites, agriculture, coal mining, gas distribution, and oil and gas production.

Landfill site operators that continue to accept waste must fulfil the requirements of the Landfill Directive including taking appropriate measures to collect, treat and use landfill gas to produce useful energy or, where that is not possible, flare it. Other Government measures to reduce the levels of biodegradable waste being sent to landfill include the landfill tax escalator, the Landfill Allowance Trading Scheme (designed to meet the Landfill Directive targets), and public awareness campaigns. Together these measures have resulted in a decrease of about 63 per cent. in landfill methane emissions between 1990 and 2004.

The nature of emissions from agriculture make them a more difficult target for reduction than in other sectors. Nonetheless, improvement in animal diet and productivity has produced an 11 per cent. decrease in methane emissions from animals since 1990, and further reductions are expected. Recent research from the Rowett Research Institute, based in Aberdeen into anti-methane feed ingredients has yielded promising results, and in initial trials a reduction of up to 70 per cent. in emitted methane has been achieved. The UK Government remain committed to research into reducing methane emissions from ruminants. We are also committed to exploring techniques for methane recovery from agricultural waste and its use as a clean energy source.

With regard to methane from coal mining, UK Coal signed up to the UK Emissions Trading scheme in 2002, with the target of reducing methane emissions from their installations by 400,000 tonnes by 2006. Furthermore methane extracted from abandoned coal mines and used as fuel has been exempt from the climate change levy since 2003. This exemption encourages the owners of mining facilities and decommissioned mines to invest in systems that capture methane that would otherwise be released into the atmosphere. In addition the Coal Authority and the Department of Trade and Industry are developing a scheme further to encourage the mitigation of methane from abandoned mines. Methane emissions from coal mining (including closed mines) fell by some 73 per cent. between 1990 and 2004.

Fugitive emissions from natural gas dropped by about 39 per cent. between 1990 and 2004. National Grid Gas plc, which owns and maintains the UK gas distribution network, is continuing to make improvements to the UK gas network. The planned replacement of 91,000 km iron gas mains with polyethylene pipes will lead to a further reduction in methane emissions from gas transmission.

Methane emissions from offshore production of oil and gas fell by 53 per cent. between 1990 and 2004 in line with trends in numbers of installations and production levels.

Operation of Legislation

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the operation of the Protection of Badgers Act 1992. [42306]

Mr. Bradshaw: The Government are satisfied with the operation of the Protection of Badgers Act 1992.

Recycling

Mr. Holloway: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to encourage industry to create recyclable products. [43259]

Mr. Bradshaw: The Government recognises the importance of encouraging industry to develop recyclable products. Since it began work in 2000 the Waste and Resources Action Programme (WRAP) has had a positive impact in developing markets for recycled materials and removing barriers to recycling. WRAP is engaged with producers and purchasers and has developed guidance along with the provision of advisory services to increase the take up of recycled products throughout a range of industries.

Producer responsibility legislation, such as the Packaging, End of Life Vehicle (ELV) and forthcoming Waste Electrical and Electronic Equipment (WEEE) Regulations, places obligations on producers to recycle products when they come to their end of life, providing an incentive for them to ensure their products are more recyclable from the outset.

Finally, as disposal costs continue to rise due to increased landfill tax, there should be an indirect pressure on manufacturers to make products more recyclable.

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs how many recycling points there are per 1,000 population in *(a)* England, *(b)* the Tees Valley and *(c)* Middlesbrough South and East Cleveland constituency. [43289]

Mr. Bradshaw: Requested figures, based on the 2003–04 DEFRA municipal waste management survey and 2003 mid-year population estimates are shown in the following table. Recycling points are considered as both civic amenity and recycling sites within the area.

	Recycling points per 1,000 population
England	0.41
Tees Valley	0.18
Middlesbrough unitary authority	0.09
Redcar and Cleveland unitary authority	0.10

Notes:

1. The Tees Valley includes the unitary authorities of: Stockton-on-Tees, Redcar and Cleveland, Middlesbrough, Hartlepool and Darlington.
2. Results for the unitary authorities of Middlesbrough and Redcar and Cleveland have been provided as data at constituency level are not available.

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are being taken to ensure that the recycling rate of *(a)* household and *(b)* business refuse in the Tees Valley region is brought up to the national average. [43290]

Mr. Bradshaw: The information is as follows:

(a) Waste strategy 2000 set out national recycling and composting targets for household waste, of 17 percent. in 2003–04, rising to 25 percent. in 2005–06, then 30 percent. in 2010 and 33 percent. in 2015. Each local authority was also set a statutory target for 2003–04 and 2005–06 and to assure that further progress is made, I recently launched for consultation options for further recycling/composting targets in 2007–08. All of the Tees Valley authorities met their 2003–04 targets and most are making good progress towards their 2005–06 targets.

In addition to the recycling targets, the Household Waste Recycling Act 2003 requires waste collection authorities—subject to certain exemptions—to provide a kerbside collection service of at least two recyclable materials by 2010. Furthermore, waste disposal authorities have been set challenging landfill diversion targets for biodegradable municipal waste which will drive authorities to ensure that the recycling of this waste is maximised.

The Government recognise the challenge local authorities in England face meeting their statutory performance standards in recycling and composting. Accordingly, the 2004 Spending Review announced an increase in the environmental, protective, and cultural services block of £888 million by 2007–08 over 2004–05.

Funding is also being provided from a variety of other sources to help authorities meet and exceed their targets. DEFRA's waste minimisation and recycling fund and its successor, DEFRA's waste performance and efficiency grant, are providing funding totalling £294 million over

the three years to 2005–06 for specific projects to expand recycling operations of which the Tees Valley authorities have in total received around £5.5 million.

The Tees Valley authorities have also benefited from consultancy support for the development of a joint waste management strategy through DEFRA's waste implementation programme which has devoted over £150 million over the three years to 2005–06 to strategic measures helping authorities to divert waste from landfill.

The waste resources and action programme—a not-for-profit company supported by funding from the Government—has provided support to the Tees Valley authorities on home composting and over £270 000 for funding local communications in four of the five authorities. Each of the Tees Valley authorities is also participating in a £66,000 household incentive pilot scheme funded by DEFRA. The scheme will provide valuable information to all authorities on what household incentives provide the best increases in recycling rates in different types of community in the region.

Within the context of the regional spatial strategy, which will provide the overarching framework for growth in the North East over the next 15 to 20 years, a regional waste strategy is being developed to encourage greater re-use and recycling of waste resources, moving them higher up the 'waste hierarchy'. The Government have also set up the North East regional support fund which has provided over £100,000 over the last two years for waste research chosen by the North East authorities—including strong Tees Valley representation.

(b) There are different mechanisms in place to encourage businesses to recycle more and divert more waste from landfill sites. These include:

The landfill tax escalator:

The standard rate of landfill tax, which applies to active wastes, has been increased by £3 per tonne in 2005–06, and will be further increased by at least £3 per tonne in the following years to reach a medium—to long-term rate of £35 per tonne. The rate is currently £18 per tonne. The landfill tax was introduced to stimulate reductions in the levels of waste going to landfill and encourage the development of more sustainable waste management practices.

The BREW programme:

The business resource efficiency and waste (BREW) programme, which recycles revenue generated through the landfill tax, provides new support to business that specifically targets waste minimisation and the diversion of waste away from landfill.

The landfill diversion targets:

These will apply to biodegradable commercial waste that is collected by a local authority. As the cost of disposing of this waste will increase, authorities that collect commercial waste will have an incentive to ensure that as much of the waste is recycled as possible.

Economics:

The economic incentive for businesses to recycle is often much more clear-cut than it is for households as businesses generally pay for the volume of waste they create whereas householders pay a flat fee as part of council tax.

Packaging waste regulations:

These regulations set annual business targets for recovery and recycling of packaging waste designed to meet the national targets. Any business handling more than 50 tonnes of packaging and with a turnover of more than £2 million is obligated. To date, businesses have recovered 53 percent in 2003 of packaging waste, compared with 33 percent in 1998; and recycled 47 percent. compared with 29 percent. in 1998.

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs what guidelines the Department provides to councils regarding reprimanding businesses and households who refuse to comply with recycling requirements. [45122]

Mr. Bradshaw: Local authorities can require householders to recycle their recyclables using their powers under section 46 of the Environmental Protection Act 1990. The Clean Neighbourhoods and Environment Act 2005 contains provisions which, when commenced in April 2006, will enable local authorities to issue fixed penalty notices to those breaching notices issued under sections 46 or 47 of the Environmental Protection Act 1990.

However, Government strongly believe that the right approach to changing behaviour is to continue to work with householders to ensure that they are given every opportunity to take part in recycling through the provision of a high quality recycling service, before enforcement is considered as an option.

Local authorities are not required to collect waste from businesses unless requested by the business and a charge can be levied for the service. The local authority would be at liberty to negotiate a requirement to separate recyclables as part of the contract.

Mr. Hurd: To ask the Secretary of State for Environment, Food and Rural Affairs how much Government funding *(a)* the Ruislip-Northwood constituency and *(b)* the London borough of Hillingdon received to support recycling in each year since 1997. [41828]

Mr. Bradshaw: DEFRA does not hold information on funding allocated to individual constituencies.

The main source of funding for local authorities' waste management services is the Environmental, Protective and Cultural Services (EPCS) block of annual Government grant. It is for the local authorities to decide what proportion of the block is invested in waste management services, including recycling.

Funding is also being provided from a variety of other sources to support recycling, the amounts received by the London borough of Hillingdon are shown in the following table:

£

	2002-03	2003-04	2004-05	2005-06
Waste Minimisation and Recycling Fund	202,500	200,000	—	—
Direct Consultancy Support	—	—	18,018	16,481
Grant to relieve spending pressures in the waste area	—	—	117,565	—
Waste Performance and Efficiency Grant	—	—	—	225,905

Roman Snail

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the roman snail (*helix* pomatia) was not added to Schedule 5 of the Wildlife and Countryside Act Review in 2002. [44866]

Jim Knight: Every five years the Joint Nature Conservation Committee (JNCC) advises Government about the animals and plants that need legally protected through inclusion on schedule 5 (animals) or schedule 8 (plants) of the Wildlife and Countryside Act 1981. The Committee's current review is considering the inclusion of the roman snail (*helix* pomatia) on schedule 5. No decision has been made to date as the review is still ongoing.

School Milk

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are in place to ensure that local authorities who discharge their responsibilities under the School Milk Subsidy scheme via contractors meet their legal obligation to ensure that free school milk is available to those children who qualify. [43868]

Jacqui Smith: I have been asked to reply.

There is no statutory requirement for milk to be provided in local authority maintained schools. It is a matter for local authorities and schools to decide. However, where a local authority provides milk, education legislation requires them to provide it free to pupils whose parents are in receipt of the following: income support; income based job seeker's allowance; support under part VI of the Immigration and Asylum Act 1999; child tax credit, provided that they are not entitled to working tax credit, and have an annual income (as assessed by Her Majesty's Revenue and Customs) that from 6 April 2005 does not exceed £13,910; or the guarantee element of state pension credit. In addition, children who receive income support or income based jobseeker's allowance in their own right are entitled to free school milk where it is provided.

It is this Department's view that where a local authority engages a contractor to supply milk to the schools in their area, the contractor is deemed to be acting on behalf of the local authority. In these cases the local authority would remain responsible for providing free milk to eligible pupils. The Department will investigate any complaints related to a failure to carry out duties imposed by education legislation. Ultimately, the Secretary of State may direct a local authority to carry out their duty in relation to free milk provision where they are failing to do so.

Timber

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to tackle the importation into the UK of illegal timber from *(a)* Indonesia, *(b)* China, *(c)* Brazil and *(d)* other timber exporting countries; and if she will make a statement. [44796]

Mr. Morley: The most important recent development is the adoption, in December 2005 under the UK presidency of the EU, of the EU Forest Law Enforcement, Governance and Trade (FLEGT) Regulation. This will allow the EU to enter into Partnership Agreements with developing countries and provide them with assistance to tackle illegal logging. This assistance will include a licensing system designed to identify products and license them for export to the EU. It will be reinforced by powers for HM Customs to take a range of actions relating to unlicensed products from partner countries; this will allow member states to prohibit the import of illegal timber from those countries into the EU for the first time.

The first Partnership Agreements will be signed in 2006. The Department for International Development (DfID) has recently announced that it will be setting aside 24 million over the next five years for this FLEGT negotiation process and for tackling illegal logging more generally.

The Government also have been giving specific help to producer countries to prevent trade in illegal timber. Examples from the countries mentioned are as follows:

(a) Indonesia

In Indonesia there is a programme of work under a Memorandum of Understanding (signed in 2002) that commits both governments to tackle illegal logging and associated trade.

(b) China

The Eighth EU-China summit, held in Beijing on 5 September 2005, agreed that the EU and China would work together to tackle the problem of illegal logging in the Asian region. The Government are working to take this forward.

(c) Brazil

The UK has contributed £14 million to the multi-donor pilot programme for the Preservation of Brazilian Rain Forests and is a major contributor to the Global Environment Facility (GEF) which is creating and maintaining protected areas in the region through the Amazon Region Protected Areas Programme.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the proportion of imported timber which comes from illegal sources; and what steps she is taking to prevent such imports. [44871]

Mr. Morley: The UK is the world's fourth largest importer of wood products. However, we are unable to estimate how much illegally logged timber is coming into the UK as timber is not identified as legal or illegal at ports of entry.

Once the recently adopted EU Forest Law Enforcement Governance and Trade (FLEGT) Regulation comes into force it will enable member states to enter into partnership agreements with developing countries and provide them with assistance to tackle illegal logging. This assistance will include a licensing system designed to identify products and license them for export to the EU. It will be reinforced by powers for HM Customs to take a range of actions relating to unlicensed products from partner countries; this will allow member states to prohibit the import of illegal timber from those countries into the EU for the first time.

Waste Management

Jeremy Corbyn: To ask the Secretary of State for Environment, Food and Rural Affairs how much waste was collected by each London borough in the most recent period for which information is available; and how much was *(a)* recycled, *(b)* sent to UK landfill sites, *(c)* incinerated and *(d)* sent overseas for landfill by each borough in that period. [44453]

Mr. Bradshaw: The latest available information is from the Defra and GLA joint Municipal Waste Management Survey 2003–04. Figures provided in table below show total municipal waste tonnages collected by all London boroughs and by disposal methods by all London authorities with disposal responsibilities. Amounts collected for recycling and composting by collection authorities have been included. The collection authority recycling and composting tonnages exclude waste collected centrally at civic amenity sites by the four London joint waste disposal authorities. The four London joint waste disposal authorities include both civic amenity recycling and composting as well as recycling and composting undertaken by their constituent collection authorities.

Landfill refers to UK landfill sites. No waste should have been exported from any London borough for landfill overseas since this is illegal under UK legislation.

2003–04 Total municipal waste collected with methods of disposal (tonnes)

Unitary authorities	*Total waste collected*	*(a) Recycled and composted*	*(b) Landfill*	*(c) Incinerated*
Bexley	132,340	26,967	95,767	9,606
Bromley	172,437	29,296	100,259	42,882
Croydon	198,931	26,815	171,986	130
Greenwich	124,021	12,966	32,441	78,614

Wandsworth	134,888	17,306	[1]	[1]

[1] type of activity not undertaken by authority.

Mr. Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what sanctions will be applied to packaging producers and compliance schemes that did not discharge their recycling responsibilities appropriately in 2004. [40466]

Mr. Bradshaw: This is a matter for the Environment Agency and potentially the Courts.

Mr. Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what volume of street litter, exclusive of that which is collected from public litter bins, was collected by each local authority in each year since 1997. [45642]

Mr. Bradshaw: Waste collection authorities under Schedule 2 of the Controlled Waste Regulations 1992 will include such services as street sweeping, bulky waste

collection, hazardous household waste collection, litter collections, household clinical waste collection and separate garden waste collection (not for composting). These type of wastes have been annually recorded in the Defra Municipal Waste Management Survey under the category "Other collected household waste". Authorities are not required to record street litter separately. Therefore the information requested is not held by the Department.

Mr. Hands: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of Hammersmith and Fulham Council's response to her Department's consultation on new waste regulations which place a duty of care on householders for their household waste. [45914]

Mr. Bradshaw: The Government consulted on household duty of care in their 'Living Places: Powers, Rights, Responsibilities' consultation in 2002. The Government considered responses to the consultation from the London borough of Hammersmith and Fulham, as well as other stakeholders. It took on board comments that a full waste duty of care requirement would be too onerous on householders, and difficult for local authorities to enforce. Instead, a partial waste duty of care was brought in by the Waste (Household Waste Duty of Care) (England & Wales) Regulations 2005.

The household duty of care has been brought in to ensure that England is in full compliance with Article 8 of the Waste Framework Directive.

Wild Mammals

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the operation of The Wild Mammals (Protection) Act 1996. [42301]

Mr. Bradshaw: The Government are satisfied with the operation of The Wild Mammals Protection Act 1996.

DEFENCE

C-130 Hercules

Mr. Gray: To ask the Secretary of State for Defence if he will list the defensive aids fitted to each *(a)* C130K and *(b)* C130J. [43369]

John Reid *[holding answer 19 January 2006]:* The following defensive aids are currently employed on the Hercules C130K and C130J fleet:

Directional Infra Red Counter Measures
Missile Approach Warning Systems
Radar Warning Receiver
Countermeasures Dispensing System
Lamp Infra Red Counter Measure
Flight Deck Armour

Only Hercules with appropriate defensive countermeasures are deployed to operational theatres.

Information relating to the defensive aids employed on each C130K and C130J airframe is being withheld because it would be likely to prejudice the security of the UK's armed forces.

Departmental Staff

Dr. Cable: To ask the Secretary of State for Defence what plans he has to relocate staff in his Department and related agencies into London and the south-east. [31747]

Mr. Touhig: The Ministry of Defence is fully committed to relocating 3,900 posts out of the south-east under the Lyons review. All relocation proposals are judged on the basis of value for money as demonstrated in a business case. A proposed move into London or the south-east must therefore offer significant value for money, efficiency and business benefits.

Currently the only confirmed move of posts into the south-east is a result of the collocation of the two existing RAF headquarters into a single integrated HQ at High Wycombe. This is an element of the Ministry of Defence's efficiency programme and will achieve significant manpower and financial savings, but will result in a net increase of 96 posts at High Wycombe.

There are some other proposals which might entail a move of posts into the south-east, the business cases for which are at varied stages of consideration. As at 20 January, however, none have been approved.

There are no confirmed or proposed relocations into London.

Documentary Guidance (Evidence/Documentary Access)

Mr. Amess: To ask the Secretary of State for Defence what his policy is with regard to *(a)* Ministers and *(b)* officials in his Department giving evidence to the (i) Scottish Parliament, (ii) National Assembly for Wales and (iii) Northern Ireland Assembly committees; and to what categories of document he gives (A) full access, (B) restricted access and (C) no access to (1) the Scottish Parliament, (2) National Assembly for Wales, (3) Northern Ireland Assembly and (4) House of Commons select committees. [37396]

Mr. Touhig: Requests for the attendance of Ministers or officials to give evidence to the devolved legislatures, and for the provision of information to the Assemblies, will be considered on a case by case basis. This consideration will reflect: the principles set out in the Cabinet Office guidance "Departmental Evidence and Response to Select Committees" (July 2005); the policy outlined in the Department for Constitutional Affairs' Devolution Guidance Note #12 "Attendance of UK Ministers and Officials at Committees of the Devolved Legislatures"; and the requirements of the Freedom of Information Act. The principles underlying the provision of information to House of Commons Select Committees are set out in "Departmental Evidence and Response to Select Committees", particularly sections 4B and 4C.

External Consultants

Mrs. Villiers: To ask the Secretary of State for Defence how much his Department has paid since 2004 to external consultants who had previously been employed by the Department in any capacity within the previous five years. [41204]

Mr. Touhig: Specific data on external consultants who had previously been employed by the Department are not held centrally and could be provided only at disproportionate cost.

However, summaries of MOD expenditure on external assistance, of which consultancy is a part, are available in the Library of the House for the years 1995–96 to 2004–05.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence how many ships from the navies of other countries called at Gibraltar in the last 12 months, broken down by country. [44535]

Mr. Ingram: During the last 12 months, the number of ships from the navies of other countries that have called at Gibraltar and used MOD facilities are as follows:

	Number
USA	6
The Netherlands	1
Germany	1
Australia	1

Mr. Hoyle: To ask the Secretary of State for Defence how many aircraft from other countries' air forces landed at RAF Gibraltar in the last 12 months. [44536]

Mr. Ingram: During the last 12 months, the number of aircraft from other countries' air forces that have landed at RAF Gibraltar are as follows:

Countries	*Number of aircraft*
United States of America	5
The Netherlands	3
Germany	3
Canada	1
Switzerland	1

Glencorse Barracks

Mr. David Hamilton: To ask the Secretary of State for Defence (1) how many new homes he estimates will be required to house the families of soldiers stationed at Glencorse Barracks; [44634]

(2) how many civilian jobs he estimates will be created at Glencorse Barracks over the next three years; [44635]

(3) how many Army personnel will be stationed at Glencorse Barracks over the next three years. [44636]

Mr. Touhig: We estimate that in the region of 650 army personnel will be stationed at Glencorse Barracks over the next three years.

151 new Service Family Accommodation house types are being built on the re-developed area of the old Milton Bridge Camp; this additional housing will ensure the requirements of the families of soldiers stationed at Glencorse Barracks are met.

Under current plans it is estimated that in the region of 40 civilian jobs will be created at Glencorse Barracks over the next three years.

Gurkhas

Mr. Roger Williams: To ask the Secretary of State for Defence when he will publish the findings of his review of Gurkhas' terms and conditions of service. [44044]

Mr. Touhig: Because of the complexity of some of the issues involved, the review of Gurkha Terms and Conditions of Service is taking longer than originally planned. We hope that an announcement can be made before the Whitsun recess.

Iraq

Mr. Ancram: To ask the Secretary of State for Defence what discussions he has had with his US counterpart about the comparative incidences of Gulf War illnesses in US and UK forces involved in the invasion of Iraq in 2003; and what the results of those discussions were. [44217]

Mr. Touhig: Defence Ministers have not held any formal discussions with the United States counterparts about the comparative incidence of "Gulf War illness" following the start of the current Iraq deployment (Operation Telic). A British Liaison Officer is based permanently in Washington DC and is tasked with ensuring that the United Kingdom has full visibility of US research into Gulf health issues and with providing a channel for communicating our own work to interested US parties. There has also been other discussions on the subject at official level.

Mr. Ancram: To ask the Secretary of State for Defence how many personnel from the 2003 invasion of Iraq on Operation Telic have since been diagnosed with recognised neurological illnesses. [44226]

Mr. Touhig: Information on illnesses reported by service personnel who have served on Operation Telic is not held centrally. Although the medical records of individuals who have left the services are held by each service at individual central locations, the records of personnel who are still serving are normally held at their unit medical centre.

However, data has been collated since September 2004 on how many service personnel, deployed on Operation Telic, reported to UK medical facilities in theatre with neurological disorders (including paralysis and altered consciousness). Between September 2004 and November 2005 inclusive, there were:

562 instances of personnel reporting to first line medical facilities with a neurological complaint; 54 were admitted bedded down; 18 were referred for specialist consultation.

The assessment of such disorders is made at the point of access to primary health care and is not a formal medical diagnosis. Additionally, it does not take into account any subsequent change in diagnosis.

Dr. Fox: To ask the Secretary of State for Defence what arrangements are in place regarding the air transportation of British troops from Germany to Iraq. [45145]

Mr. Ingram: A scheduled air service, comprising a mix of Royal Air Force and commercial aircraft, operates between the United Kingdom and Iraq five days a week, also calling in Germany on two of those days. Additionally, when the main body of troops in Iraq changes, dedicated aircraft move those troops to and from the country in which they are normally stationed, which may include Germany.

Joint Casualty Treatment Ship

Dr. Fox: To ask the Secretary of State for Defence if he will make a statement on the Joint Casualty Treatment Ship programme. [44175]

Mr. Ingram: The Joint Casualty Treatment Ship programme aims to deliver a ship-borne medical facility broadly similar in scope to a field hospital, capable of treating a full range of casualties, whether from sea, land or air environments. It is intended to replace the capability currently provided by RFA Argus. A review of the programme is currently taking place which will inform the requirement further.

Merchant Fleet

Mr. Hancock: To ask the Secretary of State for Defence what assessment he has made of the impact on measures to protect the British merchant fleet of the planned reduction in the fleet of commissioned frigates and destroyers; and if he will make a statement. [45193]

Mr. Ingram: The global threat to merchant shipping is kept under constant review, and the Royal Navy, in conjunction with other Government Departments and international partners, remains fully capable of providing support and assistance to British merchant shipping via its Maritime Trade Operations policy.

Nursing Services

Ann Winterton: To ask the Secretary of State for Defence how many personnel at 1 April 2006 will comprise the *(a)* Queen Alexandra's Royal Army Nursing Corps and *(b)* Princess Mary's Royal Air Force Nursing Service. [43694]

Mr. Touhig: The latest available information on the strength of the Queen Alexandra's Royal Army Nursing Corps (QARANC) and the Princess Mary's Royal Air Force Nursing Service (PMRAFNS) is given in the following table.

Number

	Strength 1 December 2005
QARANC	830
Officers[1]	260
Other Ranks	570
PMRAFNS	420
Officers	120
Other Ranks	300

[1] Excludes the ranks colonel and above.

Source:
DASA (Tri-Service).

QinetiQ

Dr. Fox: To ask the Secretary of State for Defence what work *(a)* the Department and *(b)* QinetiQ is undertaking to support the European Defence Agency's review of training and evaluation. [44172]

Mr. Ingram: Representatives from the Ministry of Defence participate, alongside their colleagues from other European nations, in a European Defence Agency (EDA) working group examining possible measures to rationalise the Defence Test and Evaluation base in Europe. QinetiQ is not directly involved in these discussions, but is consulted by the Ministry of Defence on matters of mutual interest. The EDA discussions are at an early stage, and no firm conclusions on the prospects for rationalisation have been reached.

RAF Bentley Priory

Mr. Gerald Howarth: To ask the Secretary of State for Defence what plans he has for the future of RAF Bentley Priory; what assessment he has made of its historic significance; and what discussions he has had on the subject with the Battle of Britain Fighter Association. [42319]

Mr. Touhig: Studies within the Ministry of Defence have concluded that there is no current defence requirement for retaining Bentley Priory and therefore the Department is considering options for its disposal. This work is being taken forward through Project MoDEL, which aims to consolidate the defence estate in Greater London to ensure that it is the right size and quality to support our future operational outputs and to improve working and living conditions for current and future generations of service personnel in London. The MOD is in the process of selecting an industry partner to take the project forward.

The MOD is well aware of the unique historical importance of RAF Bentley Priory. Defence Estates has completed a detailed Heritage Assessment, which was shared with English Heritage in July 2004. The Department has engaged with a wide range of stakeholders with an interest in the future of RAF Bentley Priory, including the Battle of Britain Fighter Association (BoBFA), and understands their aspirations. Meetings have also been facilitated between BoBFA and the two short-listed industry bidders for the Project MoDEL contract. Defence Estates' staff are also engaging with BoBFA over the development of a formal Conservation Statement, which will act as the definitive identification of the site's heritage importance.

The MOD wishes to identify a long-term and sustainable solution that will ensure that the site is preserved in a way that is appropriate to its significant importance, whilst seeking to enhance public access. In doing so, it is important that we maintain the momentum of Project MoDEL, in order to realise the benefits it will deliver at the earliest opportunity.

Royal Ordnance

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on ammunition supplied to his Department by Royal Ordnance from overseas; and how much of the ammunition supplied was rejected as being unsuitable for use in 2004–05. [43905]

Mr. Ingram: The Ministry of Defence procures a range of defence general munitions from BAE Land Systems (Formerly Royal Ordnance) through a Framework Partnering Agreement. Sourcing is principally a matter for the company, which is free to make commercial decisions to source components or complete rounds of ammunition from overseas. MOD monitor the performance of all ammunition in service, whether sourced in the UK or overseas. Statistics on ammunition rejected and the original source country are not held centrally, and could be supplied only at disproportionate cost.

Swimmer Delivery Vehicles

Dr. Julian Lewis: To ask the Secretary of State for Defence (1) what representations he has received from the Royal Navy regarding the operational implications of the loss of underwater launch facilities for swimmer delivery vehicles supplied by HMS Spartan; [44030]

(2) what assessment he has made of the effects on *(a)* insertion teams and *(b)* transportation units of the loss of underwater launch facilities for swimmer delivery vehicles; [44032]

(3) in what year he expects underwater launch facilities for swimmer delivery vehicles to be restored. [44033]

Mr. Ingram: I am withholding this information on the grounds that disclosure would prejudice the defence of the UK and the capability and effectiveness of the armed forces.

Dr. Julian Lewis: To ask the Secretary of State for Defence what factors were taken into account when HMS Spartan was selected *(a)* as the sole submarine capable of the underwater launch of swimmer delivery vehicles and *(b)* for decommissioning prior to other fleet submarines. [44031]

Mr. Ingram *[holding answer 24 January 2006]:* The decision to reduce our attack submarines from 12 boats to 10 was taken as part of the Strategic Defence Review. HMS Spartan was selected as one of the submarines to be withdrawn from service taking into account such factors as her age, material state and capability. I am withholding the further information requested on the grounds that disclosure would prejudice the defence of the United Kingdom and the capability and effectiveness of the armed forces.

Territorial Army

Ann Winterton: To ask the Secretary of State for Defence (1) how many *(a)* second lieutenants, *(b)* lieutenants, *(c)* captains, *(d)* majors, *(e)* lieutenant-colonels and *(f)* Territorial Army personnel with five-year service bars are serving in the Territorial Army; [43687]

(2) how many five-year service bars have been awarded to Territorial Army personnel in each of the last five years. [43686]

Mr. Touhig: The Volunteer Reserves Service Medal (VRSM) is awarded to members of the volunteer reserve forces subject to completion of 10 years continuous qualifying service. For the purposes of the reply, it is assumed that it is details of the number of clasps to the VRSM, awarded for subsequent continuous periods of five years' service, that are sought. This information is provided in the following table:

Rank	*Number currently serving with VRSM clasp(s)*
Second Lieutenant	1
Lieutenant	9
Captain	35
Major	28
Lieutenant Colonel	1
All TA Personnel	1,063

Calendar year	*Number of VRSM clasps issued*
2001	126
2002	334
2003	396
2004	267
2005	34

Ann Winterton: To ask the Secretary of State for Defence what the average age is of Territorial Army *(a)* recruits, *(b)* privates, *(c)* non-commissioned officers, *(d)* officers and *(e)* personnel as a whole. [43690]

Mr. Touhig: Of the 37,430 personnel who were on the strength of the Territorial Army (including TA mobilised reservists) as at 1 December 2005, the average age was as follows:

	Average age (years)
Recruits	23
Trained Privates	28
Non-Commissioned Officers	38
Officers	40
TA as a whole	31

Notes:
1. Figures exclude full-time reserve service (FTRS) and non-regular permanent staff (NRPS).
2. Figures include officer training corps.

Ann Winterton: To ask the Secretary of State for Defence upon which sections of the Territorial Army the call-out notices for Operation Telic 8 are being served. [43692]

Mr. Touhig: Call-out notices for Operation Telic 8 are being served upon volunteers from across a variety of regiments and corps in the Territorial Army, including: the pool of Watch Keepers; the Royal Armoured Corps; the Royal Artillery; the Infantry; the Royal Logistics Corps; and the Army Medical Services.

Mr. Hollobone: To ask the Secretary of State for Defence what steps he is taking to increase the number of soldiers in the Territorial Army. [44723]

Mr. Touhig *[holding answer 23 January 2006]:* The number of new recruits into the Territorial Army (TA) remains relatively high. We continue to recruit through professional advertising campaigns and recent TV campaigns have generated a lot of interest in people joining the TA. A new and integrated recruiting process will be introduced under Project One Army Recruiting (OAR) which will provide greater integration and coherence between Regular Army and TA recruiting. In addition, a manning action plan has been introduced to improve recruitment and retention which includes: improved and more flexible Terms and Conditions of Service (TACOS); better integration of training with the Regular Army

including increased levels of training support and availability of equipment; and enhancements to support administration, welfare, recruiting and employer support activities.

Ann Winterton: To ask the Secretary of State for Defence what *(a)* tax rates and *(b)* tax allowances are used when Territorial Army personnel are on deployment; and what advice is available after deployment about personal tax issues. [43674]

Mr. Touhig: Her Majesty's Revenue and Customs are notified of an individual's impending change in employment status prior to mobilisation, and a change of tax code is issued calculated under the normal pay-as-you-earn (PAYE) rules. Under these rules, the tax rates and allowances that apply vary according to an individual's income and personal circumstances.

Until the change of tax code is received and applied, which is normally during the second month of deployment, an emergency tax code is used for all Territorial Army personnel. This assumes that they are only entitled to the basic personal tax allowance.

Mobilised Territorial Army personnel on deployment are able to seek advice on tax issues in theatre from the regimental administration officer who, if necessary, can seek expert advice on more complex issues from armed forces pay officials within the United Kingdom.

Transport Aircraft

Dr. Fox: To ask the Secretary of State for Defence what his Department's expenditure on RAF *(a)* tanker and *(b)* transport aircraft was in each financial year since 1996–97. [44170]

Mr. Ingram: A number of areas within the Department incur expenditure on the RAF's Air Refuelling (AR) and transport fleets. The financial information requested is not held centrally and could be supplied only at disproportionate cost. The figures provided in the table are the logistic support costs of the Defence Logistics Organisation (DLO) that can be directly attributed to the fixed wing aircraft fleets in the financial years for which costs are readily available.

The AR fleet is comprised of Tristar and the VC10 aircraft. The transport aircraft are C-17, Hercules C-130J/K, Tristar, VC10, BAe 125 and BAe 146.

The table does not include contract lease costs for three commercially owned military registered Twin Squirrel helicopters, which are used in the VIP transport role, as these costs are commercially sensitive.

£ million

Financial year	*RAF's air refuelling (AR)*	*Transport aircraft*[1]
1996–97	58	—
1997–98	53	—
1998–99	53	—
1999–2000	45	—
2000–01	44	—
2001–02	41	—
2002–03	50	218
2003–04	47	229
2004–05	45	207

[1] These figures include the lease cost of the C-17 fleet which is managed by the Defence Procurement Agency (DPA). The value of the lease is commercial-in-confidence and is not identified separately.

Note:
DLO and DPA staff costs are not included.

Troop Safety

Mr. Hoyle: To ask the Secretary of State for Defence if he will bring forward legislation to make it a criminal offence for individuals *(a)* to place the safety of UK troops on active service in danger by their actions and *(b)* who question the reputation of British troops without basis. [45302]

Mr. Ingram: There is always a distinction to be drawn between the freedoms appropriate to a democracy and the abuse of those freedoms by an individual seeking to cause harm.

An individual who sought, deliberately and actively, to endanger the lives of UK troops may well be committing an offence under existing law, for example the Official Secrets Acts or the Prevention of Terrorism Act.

The Government would not envisage bringing forward legislation to make it a criminal offence to question the reputation of British troops. However, the relevant laws in respect of defamation may apply.

Veteran's Badge

Mr. David Hamilton: To ask the Secretary of State for Defence how many Midlothian residents *(a)* are eligible for and *(b)* have received a veteran's badge. [44885]

Mr. Touhig: It is not possible to say how many residents of Midlothian are eligible for the Veterans' Badge, as we do not know how many would fulfil the criteria. The badge was introduced in May 2004 and we cannot readily identify by postal area the location of badges issued in the initial year. However, since April 2005, 78 residents from Midlothian have received Veterans' Badges.

Mr. Paul Murphy: To ask the Secretary of State for Defence whether he plans to extend the Veterans' Badge to those who left the services recently. [44493]

Mr. Touhig: My predecessor announced on 20 January 2005, *Official Report*, columns 1039–1041, that from 1 February 2005, a Veteran's badge would be included as part of the Service leavers' packs, subject to certain conditions. One of these conditions was that this was to be a one-year trial. This trial will end shortly and work is under way to consider the way ahead.

SOLICITOR-GENERAL

Instant Justice Scheme

Keith Vaz: To ask the Solicitor-General what steps will be taken to protect *(a)* innocent people from conviction and *(b)* civil liberties under the proposed instant justice scheme; whether defendants will be able to seek independent legal advice before accepting a penalty; and whether they will have the option of going to court if they dispute the allegation made against them. [44843]

The Solicitor-General: The Government's aim is to deliver a speedier, more proportionate and cost effective response to low level offending that better meets the needs of victims and the wider community. The proposals at this stage relate to extending the conditional caution scheme and dealing with some minor documentary motoring offences and TV licence cases administratively. The Government are at an early stage in considering whether there might be a role for a prosecutorial fine, as is currently the case in Scotland.

Under all our proposals the accused will still be able to consult a lawyer before deciding whether to accept the disposal proposed and go to court to dispute either the allegation or the suggested penalty.

CABINET OFFICE

Departmental Staff (Castle Point)

Bob Spink: To ask the Chancellor of the Duchy of Lancaster how many staff employed by his Department live in Castle Point. [42810]

Mr. Jim Murphy: Cabinet Office figures are fewer than five and have been suppressed as disclosure could lead to identification of the people involved.

CULTURE, MEDIA AND SPORT

Correspondence

Mr. Cox: To ask the Secretary of State for Culture, Media and Sport when she will reply to the letter dated 23 August 2005 from the hon. Member for Torridge and West Devon, with regard to Mr. J. Moody. [44146]

James Purnell *[holding answer 20 January 2006]:* The hon. Member's letter was sent to my right hon. Friend the Minister for Industry and the Regions and it was received in DCMS on 8 December 2005. I wrote to the hon. Member for Torridge and West Devon on 17 January 2006.

Departmental Estate

Jo Swinson: To ask the Secretary of State for Culture, Media and Sport what she has identified as the most significant sustainable development impacts in relation to the operation of her Department's estate. [44706]

Mr. Lammy: The Department has identified its most significant sustainable development issues in relation to the operation of its estate as the following:

energy consumption
water use
Carbon levels
hazardous substances used
timber and timber products
biodiversity (in relation to the Royal Parks)
food procurement

Departmental Staff (Castle Point)

Bob Spink: To ask the Secretary of State for Culture, Media and Sport how many staff employed by her Department live in Castle Point. [42811]

Mr. Lammy: There are no staff employed by DCMS who live in Castle Point.

Historic Sites

Mr. Hands: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 16 January 2005, *Official Report*, column 955W, on historic sites, what the name and address is of each historic site in Hammersmith and Fulham that has *(a)* featured on this list, *(b)* been added to the list and *(c)* been removed from the list in the last five years. [45287]

Mr. Lammy: The following historic sites have featured every year on English Heritage's Building at Risk register for the London borough of Hammersmith and Fulham for the last five years:

St. Mary's Roman Catholic Cemetery, Harrow Road, NW10

Kent House including Front Boundary Railings and Gate, 10 Lower Mall, W6

St. Paul's Churchyard, Queen Caroline Street, W6

Dimco Machine Tools—former Central Railway generating station Wood Lane, W12

and the Lodge on the north east side of entrance to Fulham Palace, Fulham Palace Road, SW6.

Those historic sites that have been added to the Register in the last five years are:

The Walls of the Old Garden, Fulham Palace, SW6—in 2002

34 Black Lion Lane, St Peters Square, SW6—in 2003

The Black Bull sculpture outside Ravenscroft Arms Public House, 257 King Street, Hammersmith, W6—in 2003

The Black Bull sculpture was taken off the Register—in 2004

Other historic sites that have been removed from the Register in the last five years are:

11 Stamford Brook Road, W6—in 2002

and 282 North End Road, SW6—in 2003

Library/Leisure Facilities

Rosie Cooper: To ask the Secretary of State for Culture, Media and Sport what the total library service book stock was in Lancashire in each year since 1997. [45101]

Mr. Lammy: The total bookstock held by Lancashire County Libraries for each year between 1997–98 and 2003–04 is shown in the table. These figures are drawn from the Chartered Institute of Public Finance and Accountancy's annual Public Library Statistics (Actuals). Copies are kept in the House of Commons Library.

	Total bookstock
1997–98	3,113,918
1998–99	2,486,056
1999–2000	2,386,475
2000–01	2,316,941
2001–02	2,309,223
2002–03	2,184,021
2003–04	2,107,879

John Bercow: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with the Deputy Prime Minister on the demand for *(a)* libraries and *(b)* leisure facilities arising from the planned housing expansion in Aylesbury Vale. [45346]

Mr. Lammy: My right hon. Friend the Secretary of State has not had any discussions with my right hon. Friend the Deputy Prime Minister on the demand for libraries and leisure facilities in Aylesbury Vale. The Department has, however, been taking steps to ensure that adequate cultural infrastructure forms part of new developments across all of the growth areas including that covering Milton Keynes South Midlands (MKSM) The Department and its non-departmental public bodies have, for instance, been contributing to the work of the MKSM inter-regional board to ensure that the requirements of the cultural sector are reflected in proposals for development in the sub region and this led to the publication of the "Living Spaces Culture and Sustainable Communities in the MKSM, guide for Local Delivery Vehicles" consultation document, launched in March 2005.

Pornography

Mrs. Curtis-Thomas: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 19 December 2005, *Official Report*, column 2536W, on pornography, what measures are in place to ensure that vulnerable groups, with particular reference to children, are not harmed by this material. [45467]

Mr. Lammy: There are a number of relevant pieces of legislation which have an impact on the dissemination of pornographic material, including the Obscene Publications Act, the Indecent Displays Act, the Communications Act, the Video Recordings Act, and the Protection of Children Act.

Sustainable Development

Jo Swinson: To ask the Secretary of State for Culture, Media and Sport what parts of her Department's estate will not be covered by the commitments set out in the framework for sustainable development on the Government estate. [45438]

Mr. Lammy: All parts of the Department's estate are covered by the framework for sustainable development on the Government estate.

INTERNATIONAL DEVELOPMENT

International AIDS Vaccine Initiative

2. **Dr. Evan Harris:** To ask the Secretary of State for International Development what contribution his Department has made to the budget of the International AIDS Vaccine Initiative (IAVI) for 2005–06; and what proportion of IAVI's total budget that represents. [45075]

Mr. Thomas: The Department for International Development has committed £8 million to the International Aids Vaccine Initiative, for the financial year 2005–06. IAVI financial years coincide with calendar years.

The £8 million committed for 2005–06 is accounted for in IAVI's 2005 accounts where it represents 31 per cent. of the total funds received.

World Trade Organisation (Hong Kong Talks)

6. **Daniel Kawczynski:** To ask the Secretary of State for International Development if he will make a statement on the implications for developing countries of the outcome of the World Trade Organisation trade talks in Hong Kong. [45079]

Hilary Benn: We did not make substantial progress in negotiations in Hong Kong, although conditional agreements were reached on ending export subsidies by 2013; agreeing new controls on food aid; and providing duty and quota free access for the world's Least Developed Countries for most, though not all products. Increased Aid for Trade is now included, for the first time, in the Hong Kong Declaration.

However in the key areas of agricultural market access and trade distorting domestic support the outcome was disappointing. There is now a great deal of work to be done to reach an outline agreement ("modalities") by the new deadline of 30 April, and schedules of commitments based on this outline by 31 July.

Disaster Relief

7. **Ms Barlow:** To ask the Secretary of State for International Development what proportion of his Department's budget for 2005–06 is allocated to preparedness and risk reduction for natural disasters; what proportion is allocated to disaster relief; and if he will increase the funds available for disaster preparedness and risk reduction. [45080]

Mr. Thomas: Our spending on humanitarian assistance including response to disasters increased from £186 million in 1997–98 to £370 million in 2004–05. We are committed to give a higher priority to disaster risk reduction.

14. **Malcolm Bruce:** To ask the Secretary of State for International Development what measures he proposes to improve the humanitarian response to natural disasters and long-term reconstruction thereafter. [45088]

Hilary Benn: I made proposals in a speech in New York on 23 January. We have worked with the UN to establish a new Fund which will channel money to disasters quickly. We are calling for a strengthened role for UN humanitarian co-ordinators; improvements to the UN Flash Appeals system; and for the UN to develop proposals to increase staffing capacity.

The UK supports a clear role for the World Bank to support and co-ordinate longer-term recovery and reconstruction following natural disasters, properly co-ordinated with the UN. The Bank should ensure it has mechanisms in place for prompt and sustainable response to changed country needs.

East Africa

8. **Michael Gove:** To ask the Secretary of State for International Development if he will make a statement on good governance in East Africa. [45081]

Hilary Benn: The picture is mixed. I am encouraged by the recent constitutional referendum in Kenya, and the recent presidential and the parliamentary elections in Tanzania. The first multi-party elections for more than 20 years in Uganda next month will also be an important test of democracy but I am concerned about what has been happening there recently. I am also worried about corruption in Kenya, which I raised with President Kibaki last week, including the latest allegations in the Kenyan and UK press. It is essential that these are fully and swiftly investigated.

Developing World (Conflict)

9. **Mr. Hollobone:** To ask the Secretary of State for International Development what steps he is taking to address the humanitarian consequences of conflict in the developing world; and if he will make a statement. [45082]

Mr. Thomas: Conflict is one of the biggest obstacles to poverty reduction. DFID has taken a number of steps to address the humanitarian consequences of conflict. In 2005 DFID provided more than £29 million to support the work of the UN High Commissioner for Refugees, and in 2004 £36.5 million to the International Committee of the Red Cross. We expect to spend £175 million in Africa this year on humanitarian relief, including in conflict affected countries. A draft humanitarian policy will be available for consultation this week. DFID also works on preventing conflict, so as to reduce the humanitarian consequences, including through the Africa and Global Conflict Prevent Pools and the Post Conflict Reconstruction Unit.

Trade Barriers

10. **Mr. Gauke:** To ask the Secretary of State for International Development what steps he is taking to encourage the reduction of barriers to trade between the EU and developing countries. [45083]

Hilary Benn: Increased trade has the potential to help developing countries grow economically and therefore help them tackle the problems of poverty. We will continue to make the case in Europe that a more open import regime can be good for developing countries as well as helping the EU itself become more competitive and prosperous. We will continue to assist developing countries in formulating their own trade policies and priorities, help them to negotiate these priorities, and help them to capture the potential benefits of increased trade.

Since 1998 we have spent £181 million through our trade related capacity building programmes to help developing countries, and we have announced our intention to increase the amount we spend on so-called Aid for Trade to £100 million per year by 2010.

Sudan

11. **Tony Baldry:** To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in Darfur. [45084]

Hilary Benn: Despite recent surveys showing mortality and malnutrition rates in Darfur below emergency thresholds, the situation remains critical. Around 1.8 million people are displaced, almost entirely reliant on humanitarian assistance.

The recent upsurge in violence in West Darfur has caused the UN and other agencies to reduce staffing levels, and limit access to some areas. Although the UN is implementing contingency plans, any prolonged period without access will inevitably have a harmful effect on the population.

The UN launched its humanitarian workplan for 2006 last month. $650 million is being sought for Darfur. We have committed £40 million to the overall programme, and are encouraging other donors to respond generously.

Mr. Lancaster: To ask the Secretary of State for International Development what steps he is taking to ensure that international donors fulfil their pledges for $4.5 billion for humanitarian aid in Southern Sudan. [44825]

Hilary Benn: Approximately $4.5 billion was pledged for Sudan at last April's Oslo Donors' Conference. These pledges related to the whole of Sudan, including Darfur, not just to the south, and were for both humanitarian and development needs over the three years 2005–07.

It is important that these pledges are converted into cash. There will be an opportunity to formally review how well this is progressing at the donors' conference in Paris in early March, where there will undoubtedly be pressure on donors to fulfil their earlier pledges. We know that of the $194 million pledged for the first year of the Multi-Donor Trust Fund for development assistance, some $150 million has already been paid in, over $100 million of this is for the south. Last year, donors also contributed or firmly committed over $1 billion in humanitarian assistance.

Nevertheless, Sudan's needs remain acute, and we continue to take every suitable opportunity to encourage other donors to respond as generously as they can. We have particularly sought to persuade donors to contribute to the newly established Common Humanitarian Fund, administered by the UN. Sudan remains a priority country for DFID, and this year we will spend over £100 million there on aid.

Mrs. James: To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in Darfur, Sudan. [44209]

Hilary Benn: Despite recent surveys by the UN showing that average crude mortality and malnutrition rates in Darfur have fallen below emergency thresholds, the situation there remains critical. According to the UN, approximately 1.8 million people remain displaced in the region. They remain almost entirely reliant on humanitarian assistance.

The recent upsurge in violence and tension in West Darfur has led to the UN raising its security level to phase 4 (the highest before evacuation), causing the UN and other agencies to reduce staffing levels, and severely limiting access to some areas of the state. Although the UN is working hard to implement contingency plans, any prolonged period without access will inevitably have a harmful affect on the population.

The UN launched its Sudan-wide humanitarian work plan for 2006 last month. $650 million is being sought for the international response in Darfur. DFID has

already committed £40 million to the overall programme, and are encouraging other donors to respond as generous as they can.

Mrs. James: To ask the Secretary of State for International Development what recent reports he has received of abuse of women and children in Darfur, Sudan; and if he will make a statement. [44210]

Hilary Benn: The UN Security Council report of 23 December 2005 stated that

> "the incidence of sexual and gender-based violence in and around camps of internally displaced persons remained high throughout Darfur",

and that the authorities were still failing to act

> "with due diligence to prevent, investigate and prosecute acts of rape".

Such attacks are abhorrent and unacceptable. We have made clear to the Government of Sudan that more must be done to provide security for the people of Darfur, and that the perpetrators must be brought to justice. Last month, the UK with other representatives of the international community, participated in a joint mission to assess human rights in West Darfur. The mission paid specific attention to sexual violence, and produced a number of recommendations. We are pressing the Government of Sudan to implement these as a matter of urgency.

With our partners, we are encouraging the Africa Union Mission in Darfur to scale up patrols and provide protection for women and girls when they leave their camps. Where this happens the number of reported rapes has decreased significantly. Next month the UN will launch a new information system that will record details of all incidents of sexual and gender-based violence, better data helping to ensure better prospects of prosecution. Separately, DFID is providing funding for protection as part of our humanitarian and rule of law programmes.

Mrs. James: To ask the Secretary of State for International Development if he will make a statement on UK Government *(a)* aid and *(b)* humanitarian assistance projects in the Darfur region of Sudan. [44211]

Hilary Benn: We are responding generously to the humanitarian needs of Sudan, including Darfur, contributing £70 million in 2005. We are doing this by directly supporting the UN humanitarian work plan, and by our funding of international NGOs and other agencies.

In the main, our funding is not earmarked for any specific region, but a substantial proportion of our work plan contribution goes to the principal UN agencies working in Darfur, such as UNICEF (water and sanitation, especially in camps for displaced people), the World Health Organisation (WHO) and the World Food Programme (emergency food supplies). Of the main international NGOs working in Darfur, we are supporting Oxfam (water); Goal (provision of basic humanitarian services); Médecins Sans Frontières (health care); Action Contre Faim (nutrition); and CARE (non-food humanitarian items). We are also supporting the International Committee of the Red Cross, who are working in priority areas of Darfur, often beyond the reach of other humanitarian agencies.

The security and political situation in Darfur currently precludes the provision of significant development assistance there.

Ethiopia

12. **Vera Baird:** To ask the Secretary of State for International Development what means are available to the Department to use the allocation of overseas aid to create incentives for the Ethiopian Government to improve the political situation in that country. [45086]

Hilary Benn: HMG had previously agreed to provide direct budget support to Ethiopia. The terms of that agreement included mutual commitments, including commitments to the principles of good governance and democracy. In my view, recent political events amount to a breach of trust, and so I have decided that, in the current circumstances, DFID will not provide budget support but will seek to find other means to support the poorest in Ethiopia. I have emphasised to Prime Minister Meles that the only way to resolve the current political crisis is through inclusive political dialogue and the continuation of the democratisation process which we are ready to support. Our future assistance to Ethiopia will be designed with increased monitoring and accountability so we can be sure that the aid reaches the poor people who need it.

Tony Baldry: To ask the Secretary of State for International Development when he next expects to visit Ethiopia. [43822]

Hilary Benn: I refer the hon. Member for Banbury to the response I gave to my hon. Friend the Member for Hackney, North and Stoke Newington (Ms Abbott), on 23 January 2006, *Official Report*, column 1740W.

Pakistan (Earthquake Zone)

13. **Mr. Khan:** To ask the Secretary of State for International Development how his Department is assisting the Pakistani authorities to cope with winter conditions in the earthquake zone; and if he will make a statement. [45087]

Hilary Benn: DFID is continuing to support helicopter provision throughout winter through support to the UN Humanitarian Air Service.

DFID is airlifting further urgently needed items including 176,000 blankets, 125,000 16.6 metre ropes and 125,000 plastic sheets to reinforce tents that are not winterised. DFID is also delivering an additional 3,500 winterised tents.

DFID funded Royal Engineers are providing emergency shelter building operations in remote high-altitude areas in the Bagh region.

DFID continues to channel support through UN agencies and non-governmental organisations to ensure the provision of relief assistance throughout winter, including support to camp management, shelter, health, water and sanitation.

Aid Conditionality

Andrew George: To ask the Secretary of State for International Development what written correspondence he has had with the *(a)* World Bank, *(b)* International

Monetary Fund, *(c)* European Commission and *(d)* other G8 members on aid conditionality since March 2005. [44439]

Hilary Benn: Conditionality is an issue on which I and my officials are in ongoing discussions with a variety of partners, including the World Bank, the International Monetary Fund (IMF), the EC and other G8 countries. I wrote to the World Bank president in August 2005 regarding the UK's position on the World Bank's Review of Conditionality, this statement is available on the DFID website. DFID officials are engaging with the current evaluation and review of IMF policy conditions by the Independent Evaluation Office, and also meet regularly with the EC. During 2005 there was much written correspondence between senior DFID officials and G8 countries, including on conditionality.

Debt Relief

Clare Short: To ask the Secretary of State for International Development how much annual additional debt relief has been awarded to each of the 19 beneficiary countries as a result of the implementation by the International Monetary Fund of the decision taken at Gleneagles. [45019]

Hilary Benn: In response to the G8's proposals, the International Monetary Fund (IMF) has approved approximately £1.78 billion worth of debt relief to 19 countries under the Multilateral Debt Relief Initiative (MDRI). The following table provides estimates of this debt relief by country on an annual basis.

An additional 20 countries will qualify for IMF debt stock cancellation when they reach Completion Point of the Heavily Indebted Poor Countries (HIPC) Initiative.

Mauritania, which has already reached HIPC Completion Point, could also qualify for MDRI relief after certain remedial actions are taken.

£ million

Note

The figures in the table are in United Kingdom Pounds (£). They have been converted from International Monetary Fund data which is given in Special Drawing Rights (SDR). The exchange rates used was 0.82, the mid-market rate as at 10:00 am on 24 January 2006.

Democratic Republic of the Congo

Jeremy Corbyn: To ask the Secretary of State for International Development what monitoring of the use of *(a)* bilateral and *(b)* multilateral aid to the Democratic Republic of the Congo is undertaken by his Department; and if he will make a statement. [44467]

Hilary Benn: Monitoring of the use of aid to the Democratic Republic of the Congo (DRC) is conducted in accordance with standard DFID procedures that apply across all of the Department's programmes. For our bilateral aid, organisations implementing projects on behalf of DFID are required to submit regular, usually quarterly, financial and narrative reports on their activities. In addition, projects over £1 million require a full review to be undertaken by at least annually with recommendations for actions to maximise impact and a final completion report, including the lessons learned to inform future programming. Regular monitoring by DFID staff, who remain closely in touch with partner organisations throughout the duration of a project, is also an important part of the monitoring process.

All multilateral agencies have their own internal monitoring and evaluation systems and DFID's work on reforming of the international system has included helping to strengthen these systems to deliver results at a country level. An example is DFID's use of the Multilateral Effectiveness Framework to assess the performance of multilateral agencies and make recommendations for improvement. The UK has a seat on the board of multilateral organisations, and so is involved in multilateral decision making including the development and review of country strategies and programmes.

DFID also works jointly with multilateral agencies on many projects. DFID in the DRC works with multilateral agencies and other bilateral donors on justice, infrastructure, humanitarian, police, governance, HIV/AIDS and social sector projects. Working together in this way enables DFID to design, monitor and evaluate these programmes jointly with other donor organisations.

One of the most important ways in which we monitor multilateral agencies' work is through daily discussion, sharing information and ideas, between DFID staff in the DRC and partners in the European Commission, the World Bank, the International Monetary Fund and the United Nations on both the development of their overall strategies for the DRC and the implementation of individual programmes.

External Consultants

Mrs. Villiers: To ask the Secretary of State for International Development how much his Department has paid since 2004 to external consultants who had previously been employed by the Department in any capacity within the previous five years. [41197]

Hilary Benn: Since the beginning of 2004, the Department for International Development (DFID) has spent £407,781 on external consultants, who had been previously employed by the Department within the previous five years.

Illiteracy (Africa)

Mark Simmonds: To ask the Secretary of State for International Development what plans he has to tackle adult illiteracy in Africa. [44184]

Hilary Benn: The recent Education for All (EFA) Global Monitoring report 'Literacy for Life' highlights the problems many people face through lack of literacy skills in sub-Saharan Africa.

DFID plans to continue supporting the work of NGOs promoting literacy, such as Action Aid and GOAL. We welcome their focus on using literacy to empower women to play a key role in community affairs in addition to the education of their children.

DFID is supporting the UN Decade for Literacy and the UN Educational, Scientific and Cultural Organisation's (UNESCO) new Literacy for Empowerment (LIFE) programme, through the active participation of DFID specialists and core funding to UNESCO. We have also supported pioneer work by the University of South Africa (UNISA) in training adult educators working in a variety of development sectors. In Kenya, we are supporting research by UNESCO's Institute of Statistics as part of its 'Literacy Assessment and Monitoring Programme'.

Many countries in Africa are going through the second wave of the poverty reduction strategy (PRS) process. DFID considers this the major vehicle for encouraging African partner governments to invest more in adult literacy programmes through inter-disciplinary programmes.

Iraq

Andrew George: To ask the Secretary of State for International Development what proportion of the Iraqi population have had access to safe drinking water for each of the past four years. [44442]

Hilary Benn: The last reliable pre-conflict figures for safe water are for 2000, when urban and rural levels of access to safe water were estimated at 92 per cent. and 46 per cent. respectively. The discriminatory policies of the former regime meant access varied significantly by region and was generally worse in the south. Access to safe water deteriorated as a result of the conflict and post-war looting in 2003. The immediate post-conflict coverage was estimated at 60 percent. for urban and 30 per cent. for rural populations. Since then, donors, including DFID, have worked hard to restore supplies, and we estimate that 1.25 million more Iraqis have access to safe drinking water than before the conflict.

The best information we have on safe water supply in Iraq comes from the "Iraq living Conditions Survey 2004" conducted by the Iraqi Central Office for Statistics and Information Technology in April/May 2004. This survey can be found at http://www.iq.undp.org/ILCS/overview.htm

In urban areas, 99 per cent. of households have access to safe drinking water but for 33 per cent. the supply is unreliable. In rural areas, 65 per cent. of households have access to safe drinking water, but for 22 per cent. the supply is unreliable.

In most cases, the main barrier to access to safe drinking water is the condition of the pipelines, rather than the water supply itself. This is partly due to the tendency for insurgents to target water, electricity and oil pipelines, as well as the reconstruction staff working to repair them.

Andrew George: To ask the Secretary of State for International Development what the rate of unemployment has been in Iraq for each of the past four years. [44443]

Hilary Benn: No official figures on the Iraqi labour force exist, so only very broad estimates of unemployment are available, and we do not have information broken down by year exactly as requested. An International Labour Organisation (ILO) mission to Iraq in April/May 2000 estimated the unemployment rate as 50 to 60 per cent. The United Nations and World Bank social and economic needs assessments (carried out after the conflict in 2003) estimated that the unemployment rate before the 2003 war had been around 30 per cent.

Current estimates for unemployment vary considerably. The "Iraq Living Conditions Survey 2004", conducted by the Iraqi Central Office for Statistics and Information Technology in April/May 2004, estimates an unemployment rate of 10.5 per cent. This survey can be found at http://www.iq.undp.org/ILCS/overview.htm The Brookings Institution (Iraq Index, January 2006) estimates the current unemployment rate to be between 28 and 40 per cent., noting varying estimates from the Iraqi Ministry for Planning (30 per cent.) and the Iraqi Ministry for Social Affairs (48 per cent.). In the same report the Brookings Institution gives the following estimates of unemployment rates in previous months:

	Percentage
June 2003	50 to 60
January 2004	30 to 45
January 2005	27 to 40
December 2005	25 to 40

Andrew George: To ask the Secretary of State for International Development what the infant mortality rate has been in Iraq in each of the past four years. [44444]

Hilary Benn: Estimates of Iraq's infant mortality rate vary. The most detailed information we have on infant mortality rates in Iraq is the "Iraq living Conditions Survey 2004" (ILCS) conducted by the Iraqi Central Office for Statistics and Information Technology in April/May 2004. This survey can be found at http://www.iq.undp.org/ILCS/overview.htm This gives information about infant mortality for the period 1999–2003. We do not have a breakdown of the data by year as requested.

For the period 1999–2003, the survey shows the infant mortality rate as 32 deaths per 1,000 births during the first year of life. The rate for girls was 29 per 1,000 for girls and 25 per 1,000 for boys. However, other estimates have reported significantly higher infant mortality rates, and the ILCS report acknowledges that their estimate may be too low because of under-reporting of child deaths.

A 2003 report by Ali, Blacker and Jones (respectively of the World Health Organisation (WHO), the London School of Hygiene and Tropical Medicine (LSHTM) and UNICEF), reported the 1998 infant mortality rate as 100.8 deaths per 1,000 births. The UN Population Database (2004 revision) estimated Iraq's infant mortality rate as 94.3 deaths per 1,000 births for the period 1995–2000. They use the same estimate of 94.3 per 1,000 for the period 2000–2005.

Andrew George: To ask the Secretary of State for International Development what the economic growth rate has been in Iraq in each of the past four years. [44445]

Hilary Benn: Under Saddam Hussein's regime between 2001 and 2003, the economy shrank at an average rate of 9 per cent. per annum. After the 2003 conflict the economy recovered, with an initial economic growth rate of 46 per cent. in 2004. In 2005, the Iraqi authorities were successful in promoting macroeconomic stability despite the extremely difficult security environment, and economic growth was a modest 2.6 per cent. These are estimates which the International Monetary Fund (IMF) has accepted, but it acknowledges the data quality as poor. In 2006, the IMF predicts an increase in economic growth to 10 per cent., a reduction in inflation, and an increase in net international reserves, advancing Iraq's transition towards a market economy.

Andrew George: To ask the Secretary of State for International Development what the life expectancy at birth has been in Iraq in each of the past four years. [44446]

Hilary Benn: DFID does not have a four year series of figures from the same source; using a variety of sources, the life expectancy at birth in Iraq is reported as follows:

	Average life expectancy at birth (years)		
	Males	*Females*	*Source*
1997	58	59	Iraqi Central Statistical Organisation (GSO)
2001	59.2	62.3	United Nations Development Programme (UNDP)
2003	50	61	World Health Organisation (WHO)

Andrew George: To ask the Secretary of State for International Development what the literacy rate has been in Iraq in each of the past four years. [44447]

Hilary Benn: The best information we have on literacy in Iraq is the "Iraq Living Conditions Survey 2004" conducted by the Iraqi Central Office for Statistics and Information Technology in April/May 2004. This survey can be found at http://www.iq.undp.org/ILCS/overview.htm.

This tells us that two thirds of the adult Iraqi population; 65 per cent. claim to read and write without difficulty, and an additional 10 per cent. can read and write everyday material with some difficulty. In the younger age groups (aged 15 to 24), literacy rates are slightly higher than for the population at large: 71 per cent. claim to read and write without difficulty. There are significant differences in literacy by region and gender. This compares with adult literacy rates of 86 per cent. in Jordan, 75 per cent. in Syria and 53 per cent. in Yemen.

Accurate figures for previous years are not readily available, since the last population survey took place in 1997.

Andrew George: To ask the Secretary of State for International Development what the school enrolment rates have been in Iraq in each of the past five years for *(a)* girls and *(b)* boys, broken down by (i) primary and (ii) secondary schools. [44448]

Hilary Benn: The best information we have on school enrolment rates in Iraq is the "Iraq living Conditions Survey 2004" conducted by the Iraqi Central Office for Statistics and information technology in April/May 2004. This survey can be found at:

http://www.iq.undp.org/ILCS/overview.htm. It gives good information for 2004, but we do not have comparable data for the other years requested.

This survey tells us that in 2004, 79 per cent. of primary school age children were enrolled in school (83 per cent. for boys, 75 per cent. for girls). The net enrolment rate in intermediate school (lower secondary, covering ages 13–16) is 41 per cent. (47 per cent. for boys and 36 per cent. for girls). In secondary school (upper secondary, covering ages 16–18) the net enrolment rate is 36 per cent. (40 per cent. for boys, 32 per cent. for girls).

The Arab human development report (2003) estimates the primary school enrolment rate was 100 per cent. for boys and 85.66 per cent. for girls in 1999–2000. The secondary school enrolment rate was estimated at 39.6 per cent. for boys and 26.04 per cent for girls in the same period.

Andrew George: To ask the Secretary of State for International Development what the rate of oil production has been in Iraq in each of the last four years. [44450]

Hilary Benn: Iraq reached its highest production levels; 3.5 million barrels per day (mbd)—just before its invasion of Kuwait in July 1990, before exports were halted by an international boycott. After the first Gulf War, oil production fell to about 500,000 barrels per day, enough for domestic consumption. (Figures taken

from the US Congressional Research Service's Report to Congress on Iraq Oil, April 2005.) When the United Nations Oil for Food Programme started in December 1996, oil exports increased, although export levels were sporadic as a result of various disagreements between Iraq, its customers and the United Nations. During 1999 to 2001, production averaged 2.49 mbd and in 2002 Iraq's crude oil production rate was an estimated 2.02 mbd (source: US Energy Information Administration). Since the Second Gulf War, output has varied considerably as security problems and sabotage have disrupted the flow of crude oil to terminals in Turkey and the Persian Gulf; however, prices have remained high.

With 115 billion barrels of proven crude oil reserves, Iraq has the world's second largest oil reserves, amounting to 11 per cent. of the global total (the largest is Saudi Arabia with 260 billion barrels). Only 17 of 80 oil fields have been developed; the most significant are Kirkuk in the north and Rumayla in the south.

The following table shows rates of oil production in Iraq from 2003–05.

	Millions of barrels/day	
Time	*Crude oil production*	*Crude oil export*
Estimated Prewar Level	2.5 (prewar peak)	1.7–2.5
May 2003	0.3	0
June	0.675	0.2

Somalia

Kerry McCarthy: To ask the Secretary of State for International Development what financial assistance his Department is giving to Somalia in the financial year 2005–06; and if he will make a statement on his Department's programme for Somalia. [44133]

Hilary Benn: DFID's programme for Somalia amounts to approximately £12 million for the financial year of 2005–06 and is set to increase to around £21 million by 2007–08. We also expect to provide an additional £1.2 million to Somalia from HMG's Africa conflict prevention pool this financial year. Our programme is based on our commitment to reducing poverty by supporting peace and reconciliation in Somalia, contributing to humanitarian needs, improving governance, and expanding health and education services.

DFID has contributed to the new government's relocation costs, and are providing police advice, and support in economic analysis. With other donors, we are assisting planning for recovery, reconstruction and development through the UN/World Bank-led joint needs assessment. Access to basic services remains a major challenge. DFID is funding the publication of primary school text books and our humanitarian programme supports basic health care, supplementary feeding and basic livelihoods recovery. DFID is also funding HIV/AIDS prevention which complements the global fund support.

Jeremy Corbyn: To ask the Secretary of State for International Development what the total UK aid to Somalia granted *(a)* directly and *(b)* through multilateral sources was in each of the last five years; and what major projects have been funded. [44583]

Hilary Benn: DFID's programme for Somalia amounts to approximately £12 million in the financial year of 2005–06 and is set to increase to around £21 million by 2007–08. We also expect to provide an additional £1.2 million to Somalia from HMG's Africa conflict prevention pool this financial year. Our programme is based on our commitment to reducing poverty by supporting peace and reconciliation in Somalia, contributing to humanitarian needs, improving governance, and expanding health and education services.

DFID has contributed to the new government's relocation costs, and is providing police advice, and support in economic analysis. With other donors, DFID is assisting planning for recovery, reconstruction and development through the UN/World Bank-led joint needs assessment. Access to basic services remains a major challenge. We are funding the publication of primary school text books and our humanitarian programme supports basic health care, supplementary feeding and basic livelihoods recovery. DFID is also funding HIV/AIDS prevention which complements the global fund support.

In the following table are details of the UK's aid programme to Somalia for the last five financial years up to the end of financial year 2004–05 and a breakdown of the UK's share of multilateral expenditure for the five calendar years up to 2003 (the latest periods for which figures are available).

Total DFID and gross public expenditure to Somalia: 2000–01–2004–05

	£000
2000–01	1480
2001–02	1739
2002–03	3124
2003–04	3973
2004–05	5320

Total imputed multilateral shares to Somalia

Somaliland

Kerry McCarthy: To ask the Secretary of State for International Development what assessment he has made of the bilateral demining project in Somaliland in 2004–05. [44134]

Hilary Benn: DFID is funding HALO Trust in Somaliland at present to undertake demining and clearance of unexploded ordnance (UXO). £244,000 was provided in 2004–05 and further support of £141,000 is committed for 2005–06. DFID is presently reviewing HALO Trust's latest report of its work.

DFID's explosive ordnance disposal (EOD) and demining advisor visited Somaliland in 2003 to review mine action with the Somaliland authorities, the United Nations Development Programme (UNDP), HALO Trust and other relevant agencies. Although our adviser has not visited the area since then, he is in regular contact with the UNDP about mine action issues in the country.

As Somaliland is severely affected by the aftermath of conflict, we continue to take an interest in mine action and UXO clearance and keep the situation under review.

Kerry McCarthy: To ask the Secretary of State for International Development whether he plans to establish an office of his Department in Somaliland; and if he will make a statement. [44135]

Hilary Benn: I do not have any plans to establish an office in Somaliland. Our programme continues to be run from DFID's offices in London and in Nairobi.

Women's Rights

Mrs. James: To ask the Secretary of State for International Development what recent discussions he has had on the promotion of women's rights in developing countries. [44212]

Mr. Thomas: Eliminating gender inequality and promoting women's empowerment are essential to the achievement of all the millennium development goals (MDGs), not just MDG3 which focuses on women. My right hon. Friend the Secretary of State for International Development and I are regularly involved in discussions both internally and with external contacts on issues relevant to women's rights and empowerment. For example, my right hon. Friend the Secretary of State raised issues relating to social exclusion and women's rights in a high-level panel discussion during the millennium review summit in September and subsequently discussed the issue of gender equality in education when he gave evidence to the International Development Committee at their session on the International Monetary Fund (IMF) and World Bank meetings and the summit in October.

At a country level, my right hon. Friend the Secretary of State had the opportunity to raise these issues during his visit to Bangladesh in December, where our strategy focuses on women and children. The Beijing high level group/education fast track initiative meeting which I attended in China on 1 December, also provided the opportunity to discuss the importance of girls' education, and to highlight the links between girls'

education and reducing HIV infection. As part of our work on HIV and AIDS, we emphasise the unequal impact on women and their greater vulnerability, and on the occasion of world AIDS day, my right hon. Friend the Secretary of State launched the progressive EU statement on prevention that emphasises women's rights.

Issues of gender equality and the impact of development programmes on women are considered in preparation of DFID country assistance plans, and over the next year, we will be looking to see how we can strengthen this process given the increased emphasis in our development assistance on direct budgetary support. We recognise that no serious strategy for achieving the millennium development goals can fail to address gender inequality and women's empowerment as a central concern, and we are working to ensure that gender issues are made a priority across our work.

Zimbabwe

Mr. Andrew Turner: To ask the Secretary of State for International Development when he last discussed with African heads of government the assistance required to promote constitutional government in Zimbabwe. [45085]

Hilary Benn: It is encouraging that the African Commission on human and peoples' rights, at its recent meeting in Banjul, The Gambia, issued a report which clearly condemned the human rights violations currently being perpetrated in Zimbabwe. This reflects the wide interest in Zimbabwe across Africa, and the growing impatience of its leaders with the poor governance under Robert Mugabe. I meet African leaders in my frequent travels to Africa (most recently to Kenya and Ethiopia), at international meetings and in the UK. Zimbabwe is frequently among the topics discussed.

PRIME MINISTER

Iran (Nuclear Programme)

Mr. Jim Cunningham: To ask the Prime Minister what discussions he has had with his Israeli counterpart on Iran's nuclear programme. [44628]

The Prime Minister: I last met the Israeli Prime Minister, Ariel Sharon on 22 December 2004 during my trip to the Middle East. We discussed a wide range of issues, including Iran's nuclear programme.

Iraq

Mike Penning: To ask the Prime Minister what reports he has received of countries which apply rules of extra-territoriality in judicial matters that they are reviewing his role in Iraq with a view to future prosecution. [43418]

The Prime Minister: I have received no such reports.

Orams Case (Cyprus)

Mike Penning: To ask the Prime Minister what representations he has received from foreign governments on the involvement of his wife as counsel in the Orams case in Cyprus; whether he has discussed the matter with the Foreign Secretary; and if he will make a statement. [43425]

The Prime Minister: Mrs. Blair is acting in a private capacity.

ELECTORAL COMMISSION

Comptroller and Auditor General Report

Mr. Newmark: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, when the Speaker's Committee will publish the Comptroller and Auditor General's statutory value for money report on the Electoral Commission for 2003–04. [46458]

Peter Viggers: At its meeting on 13 December 2005, the Speaker's Committee agreed to publish this report, which deals with the Commission's expenditure on training electoral staff for the European Parliamentary Elections held in June 2004, as an Appendix to its Third Report 2005. This report was laid before the House on 20 December 2005 as House of Commons Paper No 783. Copies have been placed in the Library and are available in the Vote Office.

WALES

List 99

Mrs. Gillan: To ask the Secretary of State for Wales what discussions he has had with the Secretary of State for Education and Skills about the operation of List 99 in schools in Wales; and what the date was of the last such discussions. [45411]

Mr. Hain: The Department for Education and Skills is responsible for barring and restricting teachers in both England and Wales.

My right hon. Friend the Secretary of State for Education and Skills briefed me and other Cabinet colleagues on issues arising from the operation of List 99 shortly before her statement to the House on 19 January 2006, *Official Report*, columns 966–70. I, as the rest of Government, wholeheartedly support her in the actions she described to tighten the vetting and barring system.

National Offender Management Service

Mrs. Gillan: To ask the Secretary of State for Wales what representations he has made to the Home Secretary concerning the implementation of the National Offender Management Service in Wales; and when those representations were made. [45410]

Mr. Hain: I have regular discussions with my right hon. Friend about matters concerning Wales. My right hon. Friend has also discussed the implementation of the National Offender Management Service in Wales with the Assembly Government's Minister for Social Justice.

CONSTITUTIONAL AFFAIRS

Administrative Costs

Stewart Hosie: To ask the Minister of State, Department for Constitutional Affairs what the total administration costs for her core Department are; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39841]

Bridget Prentice: The information is as follows.

(a) The total (net) administration budget for the core departments of Department for Constitutional Affairs (DCA) as per audited Resource Accounts for the financial year ended 31 March 2005 was £915 million, ie:

	£ million
DCA Headquarters and Associated Offices	352
Court Service (CS)	547
Public Guardian Office (PGO)	16

(b) For the purposes of 'Public Expenditure Statistical Analyses 2005' (PESA) published as National Statistics annually by the HM Treasury, the administration budget of DCA HQ and Associated Offices (£352 million) and PGO (£16 million), totalling £370 million were regarded as identifiable. While the CS spending on 'collective services' was regarded as non-identifiable, ie:

	£ million
Identifiable costs	370
Non-identifiable	547

The administration expenditure reflects the costs of running the Department. Net administration budget includes administrative staff salaries, accommodation charges, depreciation and associated operating income.

Mr. MacNeil: To ask the Minister of State, Department for Constitutional Affairs what the administrative costs were of each agency for which she has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [39859]

Bridget Prentice: The information is as follows.

(a) The total (net) administration budget for each of the two Executive agencies of Department for Constitutional Affairs (DCA) for which she has responsibility as per audited Resource Accounts for the financial year ended 31 March 2005 were:

	£ million
Court Service	547
Public Guardian Office	16

(b) For the purposes of 'Public Expenditure Statistical Analyses 2005' (PESA) published as National Statistics annually by the HM Treasury, the administration budget of the Public Guardian Office was regarded as identifiable and the Court Service spending on collective services as non-identifiable respectively.

The administration expenditure reflects the costs of running the Department. Net administration costs include administrative staff salaries, accommodation charges, depreciation and associated operating income.

Mr. Salmond: To ask the Minister of State, Department for Constitutional Affairs what the administrative costs were of each non-departmental public body for which she has responsibility in the last year for which figures are available; what the total of such costs was in that year; and whether the costs are regarded for the purposes of public expenditure statistical analyses as *(a)* identifiable and *(b)* non-identifiable. [40054]

Bridget Prentice: The information is as follows.

(a) The DCA has two NDPBs, Legal Services Commission (LSC) and the Information Commissioner's (IC). In accordance with Government Accounting guidelines, these bodies are classified as outside the administration budget regime.

(b) For the purposes of 'Public Expenditure Statistical Analyses 2005', PES (2004) 20 (Annex D (Classification of Spending as 'Identifiable' or 'Non-identifiable')), the LSC spending and IC spending were regarded as identifiable and non-identifiable respectively.

Data-Sharing

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs if she will list the documents her Department has published on data-sharing between public sector organisations since 2001. [43539]

Ms Harman: In November 2003 DCA published authoritative legal guidance on data-sharing called "Public Sector Data Sharing Guidance on the Law". A public sector toolkit on data-sharing has also been published by DCA. The public service guarantee was published in October 2004. These documents can be found at:

http://www.dca.gov.uk/foi/sharing/index.htm

Departmental Expenditure

Mrs. Villiers: To ask the Minister of State, Department for Constitutional Affairs how many *(a)* laptops and *(b)* mobile phones her Department bought in each year since 1997; and what the cost of each category of equipment was in each year. [41261]

Ms Harman: Details of the number of laptops bought by my Department since 1999, and their cost, are listed in the following table. We do not hold information for the earlier years.

	Number	*Cost (£)*
1999	399	438,900
2000	383	494,623
2601	239	311,520
2002	131	183,205
2003	382	507,293
2004	190	233,598
2005	2,926	3,475,150

The Department's mobile phones are provided through the Office of Government Commerce (OGC) contracts with Vodafone and Orange. The contracts provide a package of services including a phone, SIM card and network access. The package also provides the purchaser with a £50 credit, which is designed to cover either the cost of the phone or as an airtime credit. It is therefore not possible to separately identify the cost of a phone.

Any purchases made solely for a phone, outside of these contracts, would have been placed locally, for which records are not held centrally. That information could only now be obtained at disproportionate cost.

Departmental Staff (Disciplinary Actions)

Bob Spink: To ask the Minister of State, Department for Constitutional Affairs how many disciplinary actions against civil servants employed in her Department *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43500]

Ms Harman: My Department has a conduct policy and supporting procedures which have been brought to the attention of all staff via the departmental intranet, internal publications and induction and management training. There is a range of sanctions which can be applied in cases of misconduct, up to and including dismissal. Dismissal might be justified for instances of gross misconduct for a first offence or for repeated instances of serious or minor misconduct.

Data for the number of employees against whom disciplinary action has been commenced, or in respect of whom disciplinary sanctions, short of dismissal, have been applied is only recorded on individual files. These are retained for the appropriate period before removal and destruction in compliance with the Department's obligations under the Data Protection Act. It is therefore not possible to obtain this information without incurring disproportionate costs. The number of employees who have been dismissed on disciplinary grounds in the past five financial years is as follows:

	Number
2000-01	14
2001-02	13
2002-03	27
2003-04	30
2004-05	43

External Consultants

Mrs. Villiers: To ask the Minister of State, Department for Constitutional Affairs how much her Department has paid since 2004 to external consultants who had previously been employed by the Department in any capacity within the previous five years. [41202]

Ms Harman: Although there have been instances in which former civil servants have been re-employed directly by the Department, no information is held centrally about any who may have been engaged as external consultants – either directly or via independent consulting firms and could only be obtained at disproportionate .

Fixed Penalty Notices (Postal Codes)

Joan Walley: To ask the Minister of State, Department for Constitutional Affairs which postal code areas are dealt with by the Central Finance Unit at Rugeley in respect of fixed penalty notices. [45039]

Ms Harman: The Central Finance and Enforcement Unit at Rugeley serves all postal code areas within Staffordshire. The postal code areas are:-

B77, B78, B79,

DE13, DE14, DE15,

DY7,

ST1 ,ST2, ST3, ST4, ST5, ST6, ST7, ST8,

ST10, ST11, ST12, ST13, ST14, ST15, ST16, ST17, ST18,

ST19,ST20,ST21,

WS3, WS6, WS7,

WS11, WS12, WS13, WS14, WS15, WS19,

WV4, WV5, WV6, WV8, WV9, WV18.

Freedom of Information

Peter Law: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the operation of the Freedom of Information Act 2000 during its first year in force; and what estimate she has made of the cost of its implementation to *(a)* central Government and its agencies and *(b)* local government. [41489]

Ms Harman: I am confident that the Freedom of Information Act is working and working well. It is estimated that in the first year of its operation, major central Government bodies alone received approximately 36,000 FOI requests. In the third quarter of 2005, for those bodies whose performance is monitored by DCA, 67 per

cent. of resolvable requests resulted in the full disclosure of information. For local government and the wider public sector, anecdotal evidence also suggests that there has been a large number of valuable releases of information on issues that matter to the public.

My Department has made no estimate to date of the cost of the implementation of FOI to either (1) central Government or its agencies, or (2) local government.

Legal Aid

Mr. Bone: To ask the Minister of State, Department for Constitutional Affairs what the change in criminal legal aid rates has been over the last 10 years. [45426]

Bridget Prentice: There are different rates prescribed for the many separate schemes across a variety of services provided within the criminal defence service (CDS). The changes to the prescribed basic legal aid rates for work in the criminal courts are set in the following table.

Defence legal aid rates Changes to the prescribed rates: Magistrates court proceedings, Crown court and Court of Appeal (Criminal) Proceedings

1995	Solicitors' rates and counsels' Crown court standard fee rates increased by 2 percent.
1996	Solicitors' rates and junior barristers' rates increased by 1.5 percent.
1997	Nil uprating.
1998	Nil uprating.
1999	Nil uprating.
2000	Nil uprating.
2001	Magistrates court—General Criminal Contract launched with an overall effect of an overall increase of 7.25 percent., though the increase in rates varied between classes of work. Criminal higher courts—Remuneration changes in October with the introduction of a common graduated fee scheme by the Department for Constitutional Affairs and the Crown Prosecution Service for advocates in all trials lasting up to 25 days in the Crown court. The effect of those changes was to raise total remuneration for one to 10 day cases by about £3.2 million and to leave the level of remuneration for 11 to 25 day cases broadly the same. These changes also included changes in the graduated fee scheme to allow for some payment for conferences and the attendance fee for plea and directions hearings was increased from £75 to £100.
2002	Contract mileage rate under the General Criminal Contract increased to 45p Nil remuneration uprating.
2003	Nil uprating.
2004	February—telephone fixed fee implemented for police station advice and assistance. £30.25 national £31.45 London. October—Duty Solicitor. Serious offences rate introduced for police station advice and attendance at £80 per unsocial hour and £60 per hour at other times. Overall impact to introduce £3 million new money. Criminal courts—Remuneration changes in August to the Very High Cost Criminal case contract rates and Criminal Graduated Fee schemes. The effects of the changes were: to reduce bureaucracy for the Bar by taking some 50 percent., of VHCC cases into an extended graduated fee scheme, which now covers cases up to 40 days; raising the graduated fee rates for 11 to 25 day cases to the level which was expected in 2001 when the scheme was introduced and carrying those rates through to the 40 day extension; all Category 4 VHCC cases will be paid at the same "rates as Category 3 VHCC cases; substantially increasing refreshers so that the same rate is now paid for Category 2 and 3 cases as for Category 1; moving terrorism cases into Category 1; moving under five-year advocate call rates to over five-year call rates. This settlement was a package to the Bar worth approximately £17 million. £11 million came from changes to the VHCCC scheme, and a further 6 million from the changes made to the 11 to 25 day graduated fee scheme where we made good the unintended shortfall that had occurred since the scheme was extended to 25 days on October 2001.
2005	October—Cuts in rates paid in some graduated fee and Very High Cost Criminal case contracts (to both advocate's and litigator's rates). Extension of the existing graduated fee scheme for cracks and guilty pleas. Estimated savings in RAB terms from these additional measures, excluding Cracks and Guilties, are £5.1 million and £20.8 million for 2005–06, 2006–07 respectively. The extension of the Cracks and Guilties schemes is anticipated to increase savings by an estimated total of £20 million over 2005–06 and 2006–07.

National Mediation Helpline

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the National Mediation Helpline. [41746]

Ms Harman: The National Mediation Helpline is a departmentally funded scheme that has been set up to help court users and the general public settle their disputes, and where appropriate refer the caller to a low cost mediation.

Since the Helpline started at the end of November 2004 it has received over 2,600 calls, and in the past five months, records show there have been over 6,000 visits to the supporting website (www.nationalmediationhelpline.com).

At the end of 2005, the Helpline had arranged 81 mediations with a total of 71 settling on the day or within 14 days of the mediation—a settlement rate of 87 per cent.

The Helpline is being piloted for a further year, and progress will be reviewed in autumn 2006.

Valuation Office Agency

Mrs. Spelman: To ask the Minister of State, Department for Constitutional Affairs how many cases the Information Commissioner has considered in relation to the Valuation Office Agency since the introduction of the Freedom of Information Act; and what the ruling of the Commissioner was in each case. [42826]

Ms Harman: The Information Commissioner's Office has considered four complaints from individuals about the Valuation Office Agency and disclosures of information under the Freedom of Information Act 2000.

In two cases the complainants were advised, in accordance with the Act, that they needed to seek an internal review of their complaint by the Valuation Office Agency before the Commissioner would consider their complaints. In a third case, as the complainant did not provide enough information to allow the Commissioner to investigate, the case was closed with no action being taken.

In the final case the Information Commissioner did investigate and issued a Decision Notice in June 2005. The Commissioner decided that the agency had not

dealt with the complainant's request in accordance with the requirements of part 1 of the Act in that it failed to comply with s1(1) or s17 within the time limit set out in s10(1). The complainant was provided with the information he requested.

HOME DEPARTMENT

Aliens (Removal)

Dr. Evan Harris: To ask the Secretary of State for the Home Department how many aliens facing removal are signing on regularly at his Department. [38499]

Mr. McNulty: We do not use such an offensive term as "aliens". For the purpose of this question, "aliens in the country who are removable" is taken to mean failed asylum seekers and other immigration offenders who have no legal basis upon which to remain in the UK. The information requested, on the number of people in the country illegally who are facing removal and are signing on regularly at this Department, is not available. This information could be obtained only by examination of individual case files at disproportionate cost.

Asylum Seekers

Jeremy Corbyn: To ask the Secretary of State for the Home Department whether he has received reports concerning the monitoring of returned asylum seekers to the Democratic Republic of Congo by state officials; and if he will make a statement. [44579]

Mr. McNulty: I am aware of allegations such as those raised in the BBC World Service Assignment programme on 16 November 2005 and a subsequent BBC article of one December 2005 that failed asylum seekers are subject to mistreatment on return.

Bicester Accommodation Centre

Tony Baldry: To ask the Secretary of State for the Home Department what preparatory work his Department instructed GSL UK Ltd. to undertake on site A at Ministry of Defence Bicester as part of the project to build an accommodation centre for asylum seekers. [43506]

Mr. McNulty: GSL were not instructed to carry out any preparatory work on site A. All site enabling works were carried out by contractors working for the Immigration and Nationality Directorate.

Tony Baldry: To ask the Secretary of State for the Home Department if he will place in the Library the contract between his Department and GSL UK Ltd. to build an accommodation centre for asylum seekers at Bicester. [43507]

Mr. McNulty: Arrangements are being made to place a copy in the Library following appropriate scrutiny and removal of sensitive matters.

Tony Baldry: To ask the Secretary of State for the Home Department what the cost to his Department was of submitting detailed design plans for an accommodation centre for asylum seekers at Bicester to the planning inquiry. [43514]

Mr. McNulty: None.

No planning inquiry was held to consider the reserved matters, and, thereby, the detailed designs.

Civil Service Relocation (Scotland)

Stewart Hosie: To ask the Secretary of State for the Home Department how many departmental civil service jobs have been relocated to Scotland in each year since 2001. [32377]

Mr. Charles Clarke *[holding answer 28 November 2005]:* The existing Home Office personnel systems are designed to show moves of people not posts. The only information the Department holds is based on moves between buildings where 10 or more staff move on the same day, and all the relocations that can be identified are within the same city or area. Since 2001, there have been no such relocations of departmental civil service jobs to Scotland.

Criminal Records Bureau

Daniel Kawczynski: To ask the Secretary of State for the Home Department whether there is a deadline by which police checks via the Criminal Records Bureau should be completed. [44920]

Andy Burnham: Section 119 of the Police Act, 1997, which underpins the CRB Disclosure service states that

> "where the chief officer of a police force receives a request under section 115 or 116 he shall comply with it as soon as practicable".

Departmental Staff

Stewart Hosie: To ask the Secretary of State for the Home Department how many staff are employed by his Department in each *(a)* region and *(b)* nation of the UK; and if he will make a statement. [35908]

Mr. Charles Clarke: The number of staff employed in each area *(a)* region and *(b)* nation of the UK, please see the table.

Entry Clearance

Mr. Godsiff: To ask the Secretary of State for the Home Department how many nationals of each country from which a visa is required applied for entry clearance to come to the United Kingdom in *(a)* 2003 and *(b)* 2004 for temporary purposes, including visitor and student applications; how many visas were issued for temporary purposes; how many recipients of these visas returned to their country of nationality before the visas expired; and how many applied (i) to remain permanently in the United Kingdom and (ii) for political asylum. [31381]

Mr. McNulty: Entry clearance data are available by visa post of application, which is not necessarily the country of the applicant's nationality. Financial year data on applications and issues are published annually. Copies of the publication are available from the UK Visas website at http://www.ukvisas.gov.uk/servlet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c=Page&cid=1006977150151 Statistics on grants of settlement (indefinite leave to enter and remain) by main nationality are published annually in the Command Paper 'Control of Immigration: Statistics United Kingdom'. Information on asylum applications, initial decisions, appeals and removals are published quarterly and annually.

Information for 2003 and 2004 is published in the annual bulletin 'Asylum Statistics United Kingdom 2004', and the aforementioned mentioned Command Paper. Copies of these publications are available from the Library of the House and on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

Equality and Diversity

David T.C. Davies: To ask the Secretary of State for the Home Department pursuant to the answer of 3 November 2005, *Official Report*, column 1254W, on equality and diversity, what definition of inappropriate behaviour was used; what testing was undertaken; and what conclusions were drawn in relation to the Home Office 2005 senior management promotion exercises. [28315]

Mr. Charles Clarke: Inappropriate behaviour was considered in terms of two skills from the Home Office Core Competency Framework—Promotes Equal Opportunity and Develops Good Working Relationships. Though these are defined positively in terms of treating people fairly and developing effective working relationships with others, both may be demonstrated in a range of inappropriate ways.

A range of exercises was designed to enable candidates to present evidence of their understanding of appropriate and inappropriate ways of handling different kinds of diversity-related situations. Candidates were tested through:

Written In-tray exercise

This is a management problem solving scenario which includes the assessment of Develops Good Working Relationships.

Interview

Candidates were presented with two short realistic diversity-related situations followed by questions on how they would deal with the situation (and why), assessing the skill Promotes Equal Opportunity.

Video Incident Exercise

Candidates were presented with two short video clips of diversity related situations to assess Promotes Equal Opportunity and Develops Good Working Relationships.

As with the Interview, candidates were asked questions to test their insight into the scenario and appropriateness of their responses. The 2005 Grade 7 Assessment Centre has not yet finished and no conclusions have yet been drawn.

Home Detention Curfews

David Davis: To ask the Secretary of State for the Home Department pursuant to the answer of 14 December 2005, *Official Report*, column 2031W, on home detention curfews, how many of those offenders on home detention curfews that were recalled to custody were recalled for committing a criminal offence in each year since 1999. [42188]

Fiona Mactaggart: The information is not available in the form requested and could be provided only at disproportionate cost.

Immigration Act

Mr. Gerrard: To ask the Secretary of State for the Home Department how many of those detained under Immigration Act powers have been in detention for *(a)* less than one month, *(b)* over one month but less than three months and *(c)* over three months. [39521]

Mr. McNulty: Quarterly snapshots are published showing the number of people detained under Immigration Act powers on the last Saturday of each quarter and these can be broken down by length of detention. Information on the number of persons

detained, as at 24 September 2005, broken down by length of detention, are published in the Quarterly Asylum Bulletin, on the Home Office Research Development and Statistics Directorate website at:
http://www.homeoffice.gov.uk/rds/immigration1.html

Parliamentary Questions

Andrew Mackinlay: To ask the Secretary of State for the Home Department when he will reply to questions *(a)* 20379, *(b)* 20380 and *(c)* 20381 tabled by the hon. Member for Thurrock on 18 October. [39874]

Hazel Blears: I refer my hon. Friend to the answer I gave on 9 January 2006, *Official Report*, column 345W.

Prisons

Mr. Garnier: To ask the Secretary of State for the Home Department how many *(a)* prisoners entering adult prisons and *(b)* under 21-year-olds entering young offenders institutions on their first custodial sentence could not read or write to a sufficiently high standard to apply for a job via a job centre (i) at the beginning and (ii) at the end of their sentence in each of the last five years for which figures are available. [43579]

Phil Hope: I have been asked to reply.

We do not collate the information requested centrally, however Home Office statistics show that 37 per cent. of prisoners have reading skills below level 1. (Prison Statistics for England and Wales 2002).

As a result of learning and skills provision in prisons, the number of basic skills awards achieved by offenders in custody exceeded 63,000 in 2004–05 and the National Probation Directorate exceeded its annual target for basic skills awards with nearly 9,500 awards achieved by offenders in the community.

The Green Paper, "Reducing Re-offending through Skills and Employment" (Cm 6702) launched by the Secretary of State for Education and Skills on 15 December, set out the Government's strategy to improve the skills and job prospects of all offenders, so that more offenders secure employment in order to reduce re-offending.

Mr. Bellingham: To ask the Secretary of State for the Home Department what steps he is taking to improve the quality of management and leadership in the Prison Service; and if he will make a statement. [44359]

Fiona Mactaggart: The Prison Service is about to start developing a new qualifications framework which will provide pre-promotion development for managers at all levels. It is anticipated that implementation will start in 2007.

Mr. Bellingham: To ask the Secretary of State for the Home Department how many prisoners were assessed as having a serious drug problem in the last period for which figures are available; and if he will make a statement. [44371]

Fiona Mactaggart: In 2004–05, 59,025 initial assessments were completed by prison CARATs (counselling, assessment, referral, advice and through-care services) teams. Research showed that on average 74 per cent. of those assessed by CARATs took two or more different drugs in the month before custody, with 39 per cent. taking both heroine and crack cocaine in this period.

Probation Service

Mr. Bellingham: To ask the Secretary of State for the Home Department how many probation hostels there are; and what the capacity is of each. [44300]

Fiona Mactaggart: The number of bed spaces in the 101 Approved Premises in England and Wales, as of 30 April 2005, are in the table. In addition, three Prospects projects have now opened providing an additional 32 beds, 24 of these are in the South West Region and eight in the North West. These are pilot projects providing specialist services for residents with a history of offending linked to drug misuse. These bring the current number of Approved Premises in England and Wales to 104.

Region	*Number of male bed spaces*	*Number of female bed spaces*	*Total*
East Midlands	147	14	161
East of England	146	12	158
Yorkshire and Humberside	314	29	343
North West	342	40	382
London	278	18	296
West Midlands	230	26	256
South West	171	9	180
South East	203	28	231
North East	125	6	131
Wales	88	9	97
Total	2,044	191	2,235

Mr. Bellingham: To ask the Secretary of State for the Home Department what assessment he has made of the effect on the work of the Probation Service of transfers of prisoners between establishments; and if he will make a statement. [44336]

Fiona Mactaggart: An initial evaluation of the Offender Management Pathfinder project in the North West of England, published last summer, identified the transfer of prisoners as one of the challenges to implementing effective offender management. The report is available on the Home Office website as Home Office Online Report 32/05. The Prison Service aims to keep the transfer of prisoners to a minimum subject to operational priorities and circumstances.

Respect Action Plan

Anne Main: To ask the Secretary of State for the Home Department what the total cost was of the production of the 'Respect Action Plan' document; and how many copies have been printed. [42649]

Hazel Blears: The total costs for publishing the Respect Action Plan including editing proof reading, Type setting and Translating into Welsh was £101,000. In total 105,000 copies were printed.

Sexual Assault

Judy Mallaber: To ask the Secretary of State for the Home Department what steps his Department is taking to enable sexual assault referral centres to develop the use of forensic nurses to undertake examinations of service users reporting rape or sexual assault. [43091]

Paul Goggins: The Home Office funded an independent evaluation of the forensic nurse examiner role at St. Mary's SARC in Manchester, published in 2004. We have since supported the development of a national training course for sexual assault forensic nurse examiners, the start-up costs for which have been funded by the Department of Health. This year the Home Office has also made a grant to the SAFE Centre, Lancashire, to fund a forensic nurse examiner post.

Traffic Offences

Mr. Amess: To ask the Secretary of State for the Home Department (1) how many *(a)* males and *(b)* females aged (i) 17 to 24, (ii) 25 to 30, (iii) 31 to 35, (iv) 36 to 40 and (v) over 40 years were (A) charged with and (B) convicted of (1) failing to comply with a road sign, (2) offences under sections (x) 14(3), *(y)* 15(2) and *(z)* 15(4) of the Road Traffic Act 1988, (3) failing to provide a breath specimen for analysis, (4) failing to stop for a police constable and (5) disobeying a police constable stopping traffic in (aa) Essex police area and (bb) Southend police area in 2004; [39658]

(2) how many *(a)* males and *(b)* females committed offences in England and Wales under sections (i) 14(3), (ii) 15(2) and (iii) 15(4) of the Road Traffic Act 1988 in 2004. [39659]

Paul Goggins: Statistics on persons charged with a crime are not centrally collected. Available data from the court proceedings database held by the Office for Criminal Justice Reform for Essex police force area, South East Essex petty sessional area and England and Wales, 2004 is contained in the tables. It is not possible to identify Southend police area as the data is not collected at this level of detail.

Paul Goggins: Statistics on persons charged with a crime are not centrally collected. Available data from the court proceedings database held by the Office for Criminal Justice Reform for Essex police force area, South East Essex petty sessional area and England and Wales, 2004 is contained in the following tables. It is not possible to identify Southend police area as the data is not collected at this level of detail.

Number of offenders found guilty of certain motoring offences in South East Essex petty sessional area and Essex police force area, 2004[1]

			Male

803/07	Failing without reasonable excuse to provide a specimen for preliminary test	Road Traffic Act 1988 S.6(4)					

[1] These data are on the principal offence basis.

Visas

Mr. Oaten: To ask the Secretary of State for the Home Department how many applications made in the United Kingdom for a spouse visa submitted prior to the introduction of the no switching rule remain to be dealt with; and when he expects that all such applicants will have heard the result of their applications. [43335]

Mr. Charles Clarke: The no switching rule for leave to remain as a spouse came into force on 1 April 2003. This date precedes accurate data from the current casework database, and statistics are therefore not entirely reliable. Provisional management information suggests that about 70 spouse applications in General Group have been outstanding from before 1 April 2003. It is not known how many of these cases might be switching applications.

Workers' Registration Scheme

Mr. Spellar: To ask the Secretary of State for the Home Department how many people from the new accession states registered on the Worker Registration Scheme are resident in Birmingham. [42845]

Mr. McNulty: The Accession Monitoring Report, published on a quarterly basis, provides detailed statistical data on Accession state nationals who have registered on the Worker Registration Scheme (WRS).

However, apart from London, the report does not contain data relating to individual towns or cities. For reference, the latest version of the report is available on the Home Office website via:http://www.ind.homeoffice.gov.uk/ind/en/home/0/reports/accession_monitoring.html. The following figures have therefore been obtained from local management information using the WRS database.

They have not been provided under National Statistics protocols and are therefore provisional and subject to change. The information covers the period one May 2004 to 30 September 2005, which corresponds with the period covered by the latest Accession Monitoring Report. The Birmingham postal area covers a large part of the West Midlands. Therefore the figures have been broken down into two parts (i) City of Birmingham covered by the area postcodes B1—B5 inclusive; (ii) Birmingham area postcodes (codes starting with "B") within the West Midlands (excluding those in Hereford and Worcestershire, Warwickshire and Staffordshire). The number of accession state nationals who registered with the scheme and gave an address in these respective areas during the period one May 2004—30 September 2005 is as follows: (i) Birmingham (city)—1,225 (ii) Birmingham (area)—1,335 (excluding those in the Birmingham city area).

This gives a total of 2,560 within the geographical area referred to. The figures show those applicants who have registered on the Scheme since one May 2004. The figures are not current; an individual who has registered to work and who leaves employment is not required to de-register, so some of those counted will have left the employment for which they have registered and some are likely to have left the UK. Thus the number currently residing in Birmingham or the West Midlands is unknown.

Young Offenders

David Davis: To ask the Secretary of State for the Home Department what the population of each young offender institution was in each of the last eight years. [42051]

Mr. Charles Clarke: The information requested is provided in the following table. Information for prison establishments is as recorded on the Prison Service IT system.

Populations of Young Offender and Juvenile Institutions at 30 June, 1998 to 2005

Young Offender Institution	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*

[1] Establishments with more than one unit
[2] Includes young offenders held within other prison establishments
Establishments listed above in this table are :
Male Young Offender Institutions, closed;
Male YOIs, open;
Female YOIs, closed;
Female YOIs, open;
Male Juvenile Institutions;
Female Juvenile Institutions

David Davis: To ask the Secretary of State for the Home Department what proportion of children and young people convicted of an offence have been subject to *(a)* an antisocial behaviour order, *(b)* a parenting order and *(c)* a parenting contract in each of the past two years. [42151]

Fiona Mactaggart: Data are not collected in the form requested.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department which part or agency of his Department is responsible for supervising young offenders under the Intensive Supervision and Surveillance Programme; and how much the programme has cost in each year since it was introduced for each local authority area. [43119]

Fiona Mactaggart: Through individual schemes attached to youth offending teams, the Youth Justice Board is responsible for funding the supervision of young offenders under the Intensive Supervision and Surveillance Programme. The cost of each scheme is only available from April 2003 onwards and is shown in the following table.

ISSP scheme	*2003-04*
Barnet, Enfield and Haringey	400,000
Bath, North East Somerset, North Somerset and Somerset	350,000
Bedfordshire, Luton	39,000
Bexley, Bromley, Croydon, Kingston, Merton, Richmond, Sutton	600,000
Birmingham	904,335
Blackpool, Blackburn, Darwen, Lancashire	943,396
Bournemouth and Poole, Dorset	89,700
Bracknell Forest, Reading and Wokingham, Slough, West Berkshire, Windsor and Maidenhead	350,000
Bradford	494,065
Brent, Ealing, Harrow, Hillingdon and Hounslow	800,000
Brighton and Hove, East Sussex	84,500

TRADE AND INDUSTRY

Civil Nuclear Energy

Mr. Andrew Smith: To ask the Secretary of State for Trade and Industry when he expects to bring forward proposals regarding the future of civil nuclear energy. [42564]

Malcolm Wicks: The Energy Review is examining a wide range of options, including civil nuclear energy. After an assessment of the options, the Review will bring forward proposals this year on energy policy to help us deliver our medium and long term objectives.

A consultation document was published on 23 January 2006, and is available at www.dti.gov.uk/energy/review.

Company Annual Returns

Mr. Fallon: To ask the Secretary of State for Trade and Industry what factors led Companies House to increase its charges for making an annual return; and if he will reduce this charge for not-for-profit companies. [44024]

Barry Gardiner: Companies House has not increased the annual document registration fee payable with the annual return filed electronically. In November 2004 Parliament approved the increase of the fee payable with the paper annual return to £30. There were two main reasons for the increase. First, Companies House is required to review its fees on a regular basis. The last full pricing review was completed in 2004 and confirmed that costs and prices were out of line in some areas and needed to be rebalanced. The fees are linked, as required by European Law and HM Treasury guidance, to the forecast cost of providing each service. Companies House is required to prevent the fees from one service subsidising the costs of another service. Secondly, the annual registration costs associated with filing in paper format has risen because handling paper is labour intensive compared to electronic filing. The fees Companies House charges to all companies, including not-for-profit companies, must reflect these differences in cost.

Employment Equality (Age) Regulations

Mr. Lancaster: To ask the Secretary of State for Trade and Industry when he expects to publish the final version of the Employment Equality (Age) Regulations 2006. [45008]

Mr. Sutcliffe: The final draft of the Employment Equality (Age) Regulations 2006 is scheduled to be published in the first quarter of this year. Subject to the regulations being approved by Parliament, I aim to make them before Easter.

Mr. Lancaster: To ask the Secretary of State for Trade and Industry what account he took of the time available to employers to consider the final form of the Employment Equality (Age) Regulations 2006 when deciding on the timetable for implementation. [45458]

Mr. Sutcliffe: We took into account the need for those with responsibilities under the legislation to have a reasonable time to complete their preparations. We have consulted widely and have been engaging with businesses and employers' groups for a number of years. The timetable envisages that they will have some six months with the final regulations.

Employment Rights

Mr. MacNeil: To ask the Secretary of State for Trade and Industry what changes there are to an individual's employment rights if their employer moves from registering staff in the UK to registration *(a)* offshore within the EU, *(b)* offshore outside the EU and *(c)* in Guernsey; and if he will make a statement. [8552]

Mr. Sutcliffe *[holding answer 30 June 2005]:* On the assumption that the workers in question are recruited in Great Britain and based in Great Britain for an unlimited period, the location and nationality of the employer is irrelevant to their enjoyment of the full range of applicable employment rights.

I apologise for the delay in responding caused by a computer glitch.

Energy (Security of Supply)

John Hemming: To ask the Secretary of State for Trade and Industry on what date the Joint Energy Security of Supply Working Group's report was due to be published; on what date he expects the report to be published; and if he will make a statement. [43356]

Malcolm Wicks: DTI officials, in conjunction with Ofgem, are currently drafting the sixth JESS report which I expect to be published in the next few weeks—about six months after my right hon. Friend the Secretary of State's first report to Parliament on security of gas and electricity supply in Great Britain was published.

Equal Opportunities Commission

Julie Morgan: To ask the Secretary of State for Trade and Industry what the total budget was of the Equal Opportunities Commission in *(a)* 2004–05 and *(b)* 2005–06. [42785]

Meg Munn: The total budget granted to the Equal Opportunities Commission for the period 2004–05 was £8.970 million.

The total budget granted to the Equal Opportunities Commission for the period 2005–06 is £9.755 million.

Julie Morgan: To ask the Secretary of State for Trade and Industry what funding the Equal Opportunities Commission *(a)* received in 2005–06 and *(b)* will receive in 2006–07 in relation to the forthcoming duty on public bodies (i) to end unlawful discrimination and harassment and (ii) to promote equality between women and men. [42786]

Meg Munn: In 2005–06 the Equal Opportunities Commission received £500,000 in relation to the duty on public bodies to end unlawful discrimination and harassment and to promote equality between women and men. The Department of Trade and Industry is currently reviewing the budgetary allocations of all it's non departmental public bodies.

Julie Morgan: To ask the Secretary of State for Trade and Industry what assessment he has made of the level of funding of *(a)* the Equal Opportunities Commission in relation to the forthcoming duty on public bodies to end unlawful discrimination and harassment and to promote equality between women and men, *(b)* the Commission for Racial Equality for its work with public bodies in relation to the duty on public bodies to promote race equality and *(c)* the Disability Rights Commission for its work with public bodies in relation to the duty to promote equality for disabled people. [42800]

Meg Munn: It is my right hon. Friend the Secretary of State's assessment that the following bodies were awarded the following funds to promote the Equality public duties mentioned

(a) Equal Opportunities Commission—500,000 in 2005–06 specifically for public duty.

(b) Commission for Racial Equality—approx £3 million (this covers a 3-year period 2001–02 to 2003–04 and was not ring fenced).

(c) Disability Rights Commission—has been allocated some £0.9 million in 2004–05 and £4.7 million in 2005–06 for work deriving from the Disability Discrimination Act 2005 including the Disability Equality Duty.

Export Licences (Defence)

Mr. Steen: To ask the Secretary of State for Trade and Industry how many appeals against refusal of export licences by his Department for the defence procurement industry have been lodged in each of the last five years; and how many of them were *(a)* refused and *(b)* successful. [44519]

Malcolm Wicks: The Government publish information on all appeals against a decision to refuse an application, including the number that were refused and the number that were upheld, in their annual reports on strategic export controls, available from the Libraries of the House.

Mr. Steen: To ask the Secretary of State for Trade and Industry how many applications for export licences for the defence procurement industry were made in 2004–05; and how many of them were dealt with within 20 days of receipt. [44520]

Malcolm Wicks: The Government publish information on the number of export licence applications they have processed and their performance against target in doing so, in its annual reports on strategic export controls, available from the Libraries of the House. The 20 working day target relates to processing Standard Individual Export Licence applications. The Government also publish quarterly licensing and performance information on the Export Control Organisation website,

www.dti.gov.uk/export.control.

Housing (Aylesbury Vale)

John Bercow: To ask the Secretary of State for Trade and Industry what discussions he has had with the Deputy Prime Minister on *(a)* the scale and *(b)* the cost of electricity requirements arising from planned expansion of housing in Aylesbury Vale. [45341]

Malcolm Wicks: None. This is a commercial matter.

Interconnector

Miss McIntosh: To ask the Secretary of State for Trade and Industry if he will make a statement on progress with negotiations for new interconnector with third countries to increase levels of energy supplies to the UK. [44053]

Malcolm Wicks: There are a number of projects planned which will increase the supply of gas into the country. The Langeled pipeline will enable us to increase imports from the Norwegian sector of the North Sea significantly—potentially meeting about the quarter of GB demand—when it is commissioned next year. The BBL pipeline being built between The Netherlands and Bacton will reinforce our connection to the European gas market when it commissions next year, with the potential to supply about 10 per cent. of our daily average winter gas demand.

In addition three new liquefied natural gas terminals have been authorised—one on the Isle of Grain in the Thames estuary and two in Milford Haven. Imports to the Isle of Grain have already begun, with the other two terminals expected to commission in 2007–08. Together these LNG projects could in due course meet up to 30 per cent. of UK daily average winter gas demand.

Inter-ministerial Meetings (Scottish Executive)

Mr. Weir: To ask the Secretary of State for Trade and Industry how many inter-ministerial meetings his Department has held with the Scottish Executive since May 1999; and what the *(a)* Scottish Executive department concerned, *(b)* subject and *(c)* date was in each case. [39778]

Alan Johnson: My predecessor met the First Minister and Deputy First Minister on 12 July and 6 December 2004. I met the Deputy First Minister on 17 May 2005.

These meetings were to discuss departmental business as it affected Scotland.

My ministerial colleagues met as follows:

Nigel Griffiths	3 November 2003	Met Jim Wallace to discuss small businesses and construction
Nigel Griffiths	2 March 2004	Met Lewis MacDonald to discuss construction issues
Stephen Timms	13 October 1999 20 November 2000 19 July 2001 25 October 2001	Met Wendy Alexander to discuss ICT issues
Stephen Timms	12 December 2001	Met Jack McConnell (subject not available)
Mike O'Brien	6 December 2004	Met Jim Wallace to discuss Energy issues
Malcolm Wicks	26 January 2005	Met Alan Wilson to discuss Energy issues
Meg Munn	25 October 2005	Video-conference meeting with Malcolm Chisholm to discuss equality issues
Ian Pearson	12 October 2005	Met Jim Wallace as part of UK-wide ministerial forum attended by Devolved Administrations
Lord Sainsbury	18 December 2002	Met Iain Gray to discuss implementation of 2002 Spending Review settlement and science strategy
Lord Sainsbury	3 November 2003	Met Jim Wallace to discuss research funding

Maternity Rights

David T.C. Davies: To ask the Secretary of State for Trade and Industry what representations the Department has received in the last 12 months from *(a)* individuals and *(b)* groups regarding the situation of women who return to work immediately after giving birth and receive neither full-time salary nor full time maternity pay; and if he will make a statement. [44312]

Meg Munn: The Department is not aware of any representations of the kind described in the question.

Ministerial Visits

Mr. Paul Goodman: To ask the Secretary of State for Trade and Industry how many visits abroad Ministers in his Department have made in relation to policy on maternity and paternity pay and arrangements since 2001; and if he will list those visits. [45213]

Mr. Sutcliffe: No visits have been made by Ministers.

National Debtline

Norman Lamb: To ask the Secretary of State for Trade and Industry (1) how many calls received by the National Debtline in each quarter of the last two years *(a)* received an engaged tone, *(b)* were answered by an adviser, *(c)* were abandoned by the caller and *(d)* were abandoned by the system; [45497]

(2) how many staff are employed to staff the National Debtline; and how many were so employed 12 months ago. [45499]

Mr. Sutcliffe: Calls received by National Debtline (NDL) over the past two years:

	Calls answered by adviser (b)	*Calls abandoned by caller (c)*	*Calls abandoned by system (timed out) (d)*
Q4/05	22,740	15,840	8,562
Q3/05	15,800	27,434	20,950
Q2/05	13,817	29,737	23,173
Q1/05	12,393	28,951	26,308
Q4/04	9,351	21,760	17,387
Q3/04	10,477	18,675	12,226
Q2/04	10,245	21,223	10,208
Q1/04	n/a	n/a	n/a

The number of calls that received an engaged tone is not recorded by NDL. Data before Q1/04 has been deleted from the computer system due to age.

Because not all calls are answered first time, clients do redial i.e. NDL answered 5,763 calls out of 11,648 calls received last month (50 per cent.), but an analysis of unique caller phone numbers showed that NDL eventually helped 76 per cent. of those who tried to get through to the helpline.

Staff employed by NDL, full-time equivalents:

January 2006: 67 (of which 45.2 are advisers);

January 2005: 48.9 (of which 32.1 are advisers).

Nuclear Power (Wales)

Jenny Willott: To ask the Secretary of State for Trade and Industry how much the Government have spent on decommissioning Welsh nuclear power plants in each year since 1997; and if he will make a statement. [43327]

Malcolm Wicks: The Nuclear Decommissioning Authority (NDA) assumed responsibility for the decommissioning and clean up of the UK's civil nuclear legacy on 1 April 2005. There are two Magnox nuclear power stations in Wales for which the NDA have responsibility. They are Trawsfynydd in Gwynedd, and Wylfa in Anglesey. Trawsfynydd ceased electricity generation in 1991 whilst Wylfa is still operational-in its draft Strategy the NDA have proposed that Wylfa ceases generation in 2010. The total decommissioning costs in respect of Trawsfynydd are given in the draft Strategy as £1.1 billion until final site clearance in 2096. The draft Strategy is available through the NDA website at: nda.gov.uk.

Nuclear Waste

Jenny Willott: To ask the Secretary of State for Trade and Industry how much and what proportion of spent nuclear fuel which has been imported into the UK is stored in *(a)* Wales, *(b)* Scotland and *(c)* England; and if he will make a statement. [45283]

Malcolm Wicks *[holding answer 24 January 2006]:* I am advised by the Nuclear Decommissioning Authority that with regard to overseas fuel stored in the UK, there is currently no inventory in Wales, less than one tonne in Scotland and around 760 tonnes in England, mostly stored at Sellafield.

Since 1976, all contracts for reprocessing of overseas spent fuel in the UK contain a clause stating that the materials, including waste, resulting from the reprocessing will be returned to the country of origin.

Jenny Willott: To ask the Secretary of State for Trade and Industry how much spent nuclear fuel is stored in *(a)* Wales, *(b)* Scotland and *(c)* England; and if he will make a statement. [45284]

Malcolm Wicks *[holding answer 24 January 2006]*: I am advised by the Nuclear Decommissioning Authority that of the spent nuclear fuel stored in the UK there are currently around 400 tonnes in Wales, around 225 tonnes in Scotland and around 5500 tonnes in England. These figures cover spent fuel stored following discharge from reactors and consists of fuel from Magnox and AGR reactors and overseas fuel received into the UK for storage pending reprocessing.

Since 1976, all contracts for reprocessing of overseas spent fuel in the UK contain a clause stating that the materials, including waste, resulting from the reprocessing will be returned to the country of origin.

Jenny Willott: To ask the Secretary of State for Trade and Industry how much the Government have spent on storing spent nuclear fuel in Wales produced from nuclear power plants located in the United Kingdom but not in Wales in each year since 1997; and if he will make a statement. [43328]

Malcolm Wicks: I am advised that no spent fuel from the rest of the United Kingdom is stored in Wales.

Salt Cavern Gas Storage

Sir Robert Smith: To ask the Secretary of State for Trade and Industry (1) when he expects the first planned offshore salt cavern gas storage facilities to be operational; [45291]

(2) when assessment he has made of the likely impact of offshore salt cavern storage on gas supplies for winter in 2006–07. [45292]

Malcolm Wicks: The Government propose to provide a clear legal framework for activities associated with offshore gas storage in salt caverns. When, subject to Parliament, legislation is in place, companies will be able to use new technology to create salt caverns offshore and store gas over the next decade. It will not be possible for any projects to be proposed, consented, constructed and commissioned as early as winter 2006–07.

Sir Robert Smith: To ask the Secretary of State for Trade and Industry what assessment he has made of the economic viability of the use of offshore salt caverns for gas storage. [45293]

Malcolm Wicks: This is a commercial matter, and I am aware of commercial interest in pursuing such projects.

THORP

Peter Law: To ask the Secretary of State for Trade and Industry whether he has asked the Nuclear Decommissioning Authority for the costings of the options of *(a)* re-opening the thermal oxide reprocessing plant (THORP) at Sellafield and *(b)* the final closure of reprocessing activities at THORP. [43913]

Malcolm Wicks: The Nuclear Decommissioning Authority (NDA) is currently undertaking detailed work to understand the full implications of the re-opening and final closure of THORP, which will include costings. The NDA will advise the DTI of its conclusions when this work is complete.

Waste Electrical and Electronic Equipment Directive

Gregory Barker: To ask the Secretary of State for Trade and Industry what representations the Government has received from the EU on the review of the implementation of the Waste Electrical and Electronic Equipment Directive announced in December 2005; and if he will make a statement. [41923]

Malcolm Wicks *[holding answer 18 January 2006]*: We have not received any representations from the EU regarding the review announced in December 2005. Officials will be keeping the Commission informed of progress towards implementation.

Gregory Barker: To ask the Secretary of State for Trade and Industry what mandatory targets the UK implementation of the Waste Electrical and Electronic Equipment Directive will put in place regarding *(a)* the reduction and *(b)* the recycling of electronic and electrical waste. [41860]

Malcolm Wicks: The Waste Electrical and Electronic Equipment Directive contains targets for reduction and recycling, which the UK is obliged to meet. The implementing UK regulations will be the means by which those targets are delivered; but no targets will be included in the text.

Gregory Barker: To ask the Secretary of State for Trade and Industry what percentage of electronic and electrical waste came from domestic users in 2004–05; which sector produced the largest amount of electronic and electrical waste in 2004–05; what measures are in place to deal with this waste; and what further measures the Waste Electrical and Electronic Equipment Directive will put in place. [41863]

Malcolm Wicks: There are no official data on the amount of waste electrical and electronic equipment (WEEE) in the UK. The Industry Council for Electronic Recycling (ICER) published in 2005 estimates for the volume and number of items of WEEE arising in the UK for the year 2003. This suggested that there are some 93 million units representing around 1 million tonnes of WEEE from domestic users arising in the UK annually.

The white goods sector is responsible for the largest proportion of this WEEE in terms of weight, but the ICT and consumer electronics sectors produce more units.

WEEE is currently dealt with via existing UK waste legislation. A significant volume of WEEE by weight is currently recycled or re-used in the UK. The remaining WEEE is disposed of in a similar manner to other forms of domestic waste.

The WEEE Directive requires the UK to promote the separate collection of WEEE from other forms of domestic waste to facilitate increased recycling and re-use of WEEE as a way of promoting sustainable development in Europe. The WEEE Directive also requires the pre- treatment of WEEE prior to recycling to prevent the dispersion of hazardous substances into the environment.

Mr. Quentin Davies: To ask the Secretary of State for Trade and Industry what estimate he has made of the incremental costs that will be borne by *(a)* local authorities and *(b)* the recycling industry as a result of the postponement of the implementation of the Waste Electrical and Electronic Equipment Directive announced by his Department on 15 December 2005. [42181]

Malcolm Wicks: The Government have agreed to meet all new burdens that result from the delay to implementation of the Waste Electrical and Electronic Equipment Directive. The exact sum has yet to be determined, but it will be based on the costs that local authorities will incur.

There should be no incremental costs to the recycling industry as a result of delayed implementation of the WEEE Directive.

MINISTER FOR WOMEN

Stay at Home Mothers

Mr. Bone: To ask the Minister for Women and Equality what the Government's policy is on mothers who wish to stay at home and bring up their children full-time; and what measures are in place to support those that do so. [43901]

Meg Munn: Parents are the best people to make decisions about the interests of their children. The Government's role is to support families and to ensure they have meaningful choices about how they live their lives. The core aim of the Work and Families Bill is about helping to give children the best start in life and how to enable all families to have genuine choices about how they balance their work and family caring responsibilities.

The Government offer practical support for families through changes in the tax and benefit system which further help parents make decisions whether to engage in paid work or stay at home.

As a result of the Government's reforms to the tax and benefit system since 1997, by October 2005, in real terms, families with children are, on average, £1,400 a year better off, while those in the poorest fifth are, on average, £3,200 per year better off.

The 2005 budget improved this situation still further by announcing a commitment to increase the child element of child tax credit at least in line with average earnings up to and including 2007-08. It is currently worth up to £1,690 a year per child, benefiting 7 million children in 3.6 million families.

HEALTH

Cancer Treatments

Mrs. Hodgson: To ask the Secretary of State for Health what steps are taken to monitor access to cancer treatments for patients in *(a)* the North East and *(b)* Gateshead East and Washington West; and what steps are taken to ensure access meets the targets the Department has set. [41625]

Mr. Byrne: The Department, in the NHS Cancer Plan, has set out new goals to reduce waiting times for diagnosis and treatment. There is a maximum two-month wait from urgent general practitioner referral for suspected cancer to start of treatment for all cancers by the end of 2005. For those patients who are routinely referred but subsequently diagnosed with cancer there is a maximum one month wait from diagnosis to treatment by the end of 2005.

The monitoring of access to cancer treatments in the North East and Gateshead East is a local matter. However, most recent figures for Northumberland Tyne and Wear strategic health authority show 99.4 per cent. of urgent referrals are seen within two weeks. At Gateshead Health National Health Service Foundation Trust 98.2 per cent. of urgent referrals are seen within two weeks.

Complementary and Alternative Medicine

Dr. Gibson: To ask the Secretary of State for Health what plans she has to implement the recommendations of the House of Lords Select Committee report on Complementary and Alternative Medicines. [44618]

Caroline Flint: The Government's response to the House of Lords Select Committee on Science and Technology's report on Complementary and Alternative Medicine (CM 5124) was published in March 2001. A number of commitments made in response to the recommendations have been, or are being, implemented. This includes work to improve the regulation of herbal medicines and most recently proposals to prepare the ground for the statutory regulation of herbal medicine and acupuncture practitioners.

Drug-related Admissions

John Penrose: To ask the Secretary of State for Health how many drug-related admissions to *(a)* hospitals and *(b)* accident and emergency departments there were in North Somerset in (i) 2003, (ii) 2004 and (iii) 2005. [45248]

Caroline Flint: The table shows counts of finished admission episodes where there was a primary diagnosis code for selected drug cases for residents in North Somerset Primary Care Trust area.

Figures for accident and emergency (A&E) admissions have been omitted. Due to reasons of confidentiality figures between one and five have been withheld.

Counts of finished admission episodes where there was a primary diagnosis code for selected drug[1] cases in North Somerset Primary Care Trust, 2002–03 to 2004–05

	A&E admissions[2]	Total admissions
2002–03	[1]—	28
2003–04	6	20
2004–05	[1]—	30

[1] Low numbers

Due to reasons of confidentiality, figures between one and five have been suppressed.

[2] A&E admissions defined as:

Emergency via A&E services, including the casualty department of the provider.

Emergency, other means, including patients who arrive via A&E department of another healthcare provider.

Notes:

1. Finished admission episodes

A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

2. Ungrossed data

Figures have not been adjusted for shortfalls in data, that is, the data is ungrossed.

3. Drug related cases defined as the following ICD-10 codes recorded in the primary diagnosis field:

F11 Mental and behavioural disorders due to use of opioids.

F12 Mental and behavioural disorders due to use of cannabinoids.

F13 Mental and behavioural disorders due to use of sedatives or hypnotics.

F14 Mental and behavioural disorders due to use of cocaine.

F15 Mental and behavioural disorders due to use of other stimulants, including caffeine.

F16 Mental and behavioural disorders due to use of hallucinogens.

F19 Mental and behavioural disorders due to multiple drug use and use of other psychoactive substances.

Genetically Modified Foods

Gregory Barker: To ask the Secretary of State for Health what research has been *(a)* commissioned and *(b)* evaluated since 1997 into the effects of genetically modified foods on public health. [43954]

Caroline Flint: The Food Standards Agency (FSA) has commissioned research in a number of areas relevant to the safety assessment of genetically modified (GM) foods. This research is undertaken by independent research scientists and the work is peer reviewed before the reports of the research are made publicly available through the FSA's library. Details of the research are published in the annual reports of the FSA's research and surveys programmes and also available on FSA's website at: www.food.gov.uk/science/research/researchinfo/foodcomponentresearch/novelfoodresearch/g01programme/ and at: www.food.gov.uk/science/research/researchinfo/foodcomponentresearch/novelfoodresearch/g02programme/.

GM foods are thoroughly assessed for safety on a case by case basis before they can be authorised in the European Union and this involves scrutiny of the scientific evidence concerning potential risks to human health. In addition, the FSA seeks advice from the advisory committee on novel food and processes on any new information that has implications for the safety of GM foods. Details of the advisory committee's evaluations of GM food safety research are available on its website and in its annual reports. The assessments of new GM food products are conducted at EU level by the European Food Safety Authority, which also publishes reports and opinions on the scientific data that it has evaluated.

Genito-urinary Medicine Clinics

Mr. Burstow: To ask the Secretary of State for Health what steps her Department is taking to improve the collection of data in respect of sexual health interventions in *(a)* primary care and *(b)* genito-urinary medicine clinics. [43515]

Caroline Flint: There is a variety of sexual health related surveillance data currently produced and routinely distributed to service providers and commissioners. These include data on sexually transmitted infections and waiting times for genitor-urinary medicine (GUM) appointments, which are collected and published by the Health Protection Agency and the Office of National Statistics published data on conceptions.

We recognise, however, that further improvements to the collection and availability of data are needed in order to meet the challenges of improving sexual health. To this end, the Department is currently funding a project to develop a common data set for sexual health with the aim of it being approved as a national health service information standard later this year. The standard is being assured by the Information Standards Board to ensure interoperability with other standards, fitness for purpose and implementability.

The common data set will apply to all settings providing sexual health services, including primary care, and will provide, among other improvements, much better residence based information at local level. It is anticipated that the common data set will ultimately be collected through the systems being put in place by the national programme for information technology in the NHS (Connecting for Health) and that data will be made available for surveillance, performance monitoring and other purposes.

A proposed common dataset is currently being piloted across GUM clinics, contraception services and general practitioners.

Influenza

Mr. Ian Austin: To ask the Secretary of State for Health pursuant to the answer to Question 15379, on influenza, what mechanisms she has put in place to monitor international research into the causes of influenza. [41095]

Caroline Flint: The national expert panel on new and emerging infections, set up in 2003 on the recommendation of the Chief Medical Officer, advises the Department on both national and international threats from infection to public health and on research. The panel's terms of reference and other details are available on the Department's website at:

www.advisorybodies.doh.gov.uk/nationalexpertpanel/20031125summary.htm.

The Medical Research Council (MRC), an independent body funded by the Department of Trade and Industry via the Office of Science and Technology, has a long-established and central role in influenza research. The World Health Organisation's international influenza centre, part of the MRC's National Institute for Medical Research, works with a network of collaborating laboratories to detect and characterise new influenza viruses wherever in the world they emerge, and contributes to international research.

Processed Food

Mr. Ancram: To ask the Secretary of State for Health what estimate she has made of the proportion of processed food in the United Kingdom which contains *(a)* added sugar, *(b)* Aspartame and *(c)* neither. [44228]

Caroline Flint: The Food Standards Agency does not hold information on all processed products on sale in the United Kingdom, and their ingredients. No estimate has been made of the proportion of these foods that contain added sugar, aspartame or neither of these substances.

Legislation defines that aspartame is only permitted to be used in certain categories of foodstuffs, in particular energy-reduced or no-added-sugar varieties. Intake estimates have been conducted that assume aspartame is used at the maximum permitted level in all foods permitted to contain the sweetener. These have shown that consumers, including young children, are unlikely to exceed the acceptable daily intake for this sweetener.

Smoking

Mr. Lansley: To ask the Secretary of State for Health (1) pursuant to the oral statement of the Parliamentary Under-Secretary for public health in Standing Committee E of 6 December 2005, *Official Report*, column 70, what exemptions must be made to a ban on smoking in workplaces and public places to satisfy compatibility with the European Convention on Human Rights; [42073]

(2) if she will place in the Library a copy of the Parliamentary Under-Secretary of State's reply to the Joint Committee on Human Rights letter on the subject of her proposals for a smoking ban being incompatible with Article 14 of the European Convention on Human Rights. [42968]

Caroline Flint: The European Convention on Human Rights requires a fair balance to be struck between the rights of those who seek smoke-free areas and the rights of those who smoke. That balance may be different in different states and it may change from time to time. However, the Convention does not make requirements in relation to particular categories of premises.

The Joint Committee on Human Rights' report, "Legislation Scrutiny: Third Progress Report", published on 19 December 2005, includes a letter from the Chairman asking a number of questions about what will be needed for the Health Bill to satisfy compatibility requirements. The Secretary of State will be responding to that letter in due course and a copy of the reply will be placed in the Library. A copy of the report is available in the Library.

Child Protection

Tim Loughton: To ask the Secretary of State for Health which *(a)* NHS services, *(b)* social service departments and *(c)* children's services departments are legally obliged to check their employees against her Department's list of individuals who are considered unsuitable to work with children. [44481]

Ruth Kelly: I have been asked to reply.

Section 7(1) of the Protection of Children Act requires an organisation which is concerned with the provision of accommodation, social services or health care services to children or the supervision of children and whose activities are regulated, to check both the PoCA List and List 99 in every instance where they propose to offer an individual a child care position.

Therefore all NHS services, social service departments and children's services departments who employ staff in child care positions are legally obliged to check the PoCA List and List 99 before employing a person in such a position.

DEPUTY PRIME MINISTER

Buncefield Oil Depot

Peter Law: To ask the Deputy Prime Minister what assessment has been made in respect of the explosion at the fuel depot at Buncefield of *(a)* the possibility of terrorist sabotage causing the conflagration, *(b)* the contribution to United Kingdom carbon emissions of the fires created by the explosion and *(c)* the cost of cleaning up the land contaminated at and around the site. [41487]

Jim Fitzpatrick: The cause of the explosion at the fuel depot at Buncefield has yet to be established and is the subject of an ongoing investigation by the Health and Safety Executive and the Environment Agency.

It is estimated that, in round terms, the fires at Buncefield will have contributed between 0.025 per cent. and 0.05 per cent. of UK carbon dioxide emissions in 2005.

The Environment Agency is working with, and advising, the oil companies' scientific advisers to establish a strategy to quantify the extent and scope of contamination both on and off site, including both land and water resources. Gathering such evidence should enable overall remediation costs to be quantified.

Cabinet Committees (Policy Clearance)

Mr. Amess: To ask the Deputy Prime Minister if he will list the occasions on which he has sought policy clearance for *(a)* legislation and *(b)* amendments to Government Bills from the Cabinet Committee on (i) Domestic Affairs and (ii) Economic Affairs during the current session. [41022]

Jim Fitzpatrick: Information relating to the proceedings of Cabinet Committees is generally not disclosed as to do so could harm the frankness and candour of internal discussion.

Council Tax

Geraldine Smith: To ask the Deputy Prime Minister what the average cost of collecting council tax was in each of the last five years. [44650]

Mr. Woolas *[holding answer 23 January 2006]:* The average cost of collecting council tax in England in each of the last five years is tabled as follows.

Average cost of collecting council tax per chargeable dwelling

	£ actual
2000–01	14.65
2001–02	14.55
2002–03	14.92
2003–04	15.87
2004–05	15.92

Notes:

The average is calculated by dividing the total net council tax collection costs in England by the total number of chargeable dwellings for council tax purposes.

Total net council tax collection costs are defined as local authority gross expenditure net of any income relating to the collection of council tax. Gross expenditure on council tax collection includes the cost of sending out bills and pursuing late payers.

The related income is mainly made up of recovered court costs.

Source:

The Office of the Deputy Prime Minister (ODPM) Revenue Outturn (RO) returns—RO6 data.

ODPM Council Tax Base (CTB1) returns.

Mr. Hands: To ask the Deputy Prime Minister what proportion of spending by Hammersmith and Fulham council he expects to be financed from council tax in *(a)* 2006–07 and *(b)* 2007–08. [45261]

Mr. Woolas: The information requested is not yet available. Local authorities as yet have not set council taxes or budgets for 2006–07 or 2007–08.

Mr. Hands: To ask the Deputy Prime Minister what proportion of spending by Hammersmith and Fulham Borough Council was financed from council tax in each financial year since 1996–97. [45275]

Mr. Woolas: The percentage of revenue expenditure by Hammersmith and Fulham borough council that has been financed from council tax in each financial year since 1996–97 is tabled as follows.

	Percentage
1996–97	24.3
1997–98	26.6
1998–99	24.9
1999–2000	23.8
2000–01	23.9
2001–02	22.8
2002–03	23.2
2003–04	22.1
2004–05	22.9
2005–06	22.9

The data are as reported by local authorities and are taken from Office of the Deputy Prime Minister (ODPM) Revenue Summary (RS) returns for 1996–97 to 2004–05, and ODPM Revenue Account (RA) Budget returns for 2005–06.

The definition of council expenditure used here is that expenditure funded from Aggregate External Finance (AEF), council tax and authorities' reserves.

Comparisons across years may not be valid due to changes in responsibilities and the method of reporting the information. In particular, the outturn data for 1996–97 to 2002–03 and the budget data for 2005–06 have been calculated on a non-FRS (Financial Reporting Standard) 17 basis while the outturn data for 2003–04 to 2004–05 have been calculated on an FRS 17 basis. Hence, figures for different years may not be directly comparable.

Councillors (Pensions/Income)

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 14 December 2005, *Official Report*, columns 1964–5W, on councillors (pensions/incomes), what estimate the Government have made of the cost resulting from the changes to rules relating to allowances and pensions. [42661]

Mr. Woolas: The Government hold no information on the cost resulting from changes to rules relating to allowances and pensions. Decisions about the levels of allowances paid in any case are for the local authority concerned.

Departmental Computer Services

Sarah Teather: To ask the Deputy Prime Minister how many working hours have been lost in his Department due to the loss of computer services in each of the last three years. [40678]

Jim Fitzpatrick: The Office of the Deputy Prime Minister was created in May 2002. Since that date there have been no instances when the loss of computer services resulted in lost working hours.

Departmental Expenditure

Mr. Weir: To ask the Deputy Prime Minister what expenditure on *(a)* buildings and *(b)* insurance of buildings and staff was of (i) his Department and (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which his Department is responsible in (1) Scotland, (2) Wales, (3) each English region and (4) Northern Ireland in each of the last three financial years; and what the planned expenditure is for 2005–06 in each case. [40106]

Jim Fitzpatrick: Expenditure on buildings and insurance of buildings managed by the Office of the Deputy Prime Minister and its Agencies, all of which are situated in England, is as follows:

ODPM

Region	2002–03	2003–04	2004–05	£ 2005–06
Maintenance and refurbishment				
London	2,902,212	3,461,057	1,947,698	6,472,895
Eastern	6,741	7,152	29,481	27,300
North West	0	0	0	0
South West	6,588	30,990	17,806	91,281
West Midlands	11,047	45,290	43,311	30,737
Insurance				
London	0	0	0	0

ODPM

£

Region	2002-03	2003-04	2004-05	2005-06
Eastern	4,527	5,186	5,038	5,168
North West	0	918	731	717
South West	0	0	0	0
West Midlands	910	1,013	1,568	0

Mr. Francois: To ask the Deputy Prime Minister how much has been spent in each year since 1997 by his Department on salaries paid to civil servants. [41577]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) was created following the Machinery of Government changes on 29 May 2002. Salaries paid to civil servants within ODPM were as follows:

	Salaries to civil servants £000	Departmental expenditure limit—(outturn figures) £ billion	Salaries as percentage of departmental expenditure limit
2002-03	170,304	42.95	0.4
2003-04	191,692	49.68	0.4
2004-05	184,069	52.56	0.4

Figures include costs for ODPM (Central), Government Offices for the Regions, the Planning Inspectorate, the Rent Service (for 2002–03 and 2003–04 only), Advisory bodies and Tribunals. The Rent Service transferred to the Department of Works and Pensions with effect from 1 April 2004.

For the Departmental Expenditure Limit, the figures include both ODPM Main Programmes DEL and Local Government Programmes DEL.

Departmental Staff

Bob Spink: To ask the Deputy Prime Minister how many staff employed by his Department live in Castle Point. [42813]

Jim Fitzpatrick: The Office of the Deputy Prime Minister had no staff living in Castle Point (as at 23 January 2006).

Local Authority Housing

Mr. Austin Mitchell: To ask the Deputy Prime Minister if he will make it his policy for all the income from council tenants' rents to be ring-fenced in the national housing revenue account. [40848]

Yvette Cooper: There are no plans to ring-fence rental income within the national housing revenue account.

Planning Appeals

Mr. Hunt: To ask the Deputy Prime Minister how many times the Planning Inspectorate has upheld on appeal an application for a residential development in *(a)* England, *(b)* the South East and *(c)* Waverley borough Council where over-development was recorded as an issue by the local authority in each year since 1997; and if he will make a statement. [45029]

Yvette Cooper *[holding answer 24 January 2006]*: The information requested is not held centrally, and could be provided only at disproportionate costs.

Stakeholder Perceptions

Mrs. Spelman: To ask the Deputy Prime Minister how much his Department has spent on commissioning reports from MORI on his Department's Stakeholder Perceptions. [42617]

Jim Fitzpatrick: MORI were commissioned to undertake two Stakeholder perception Surveys for the Office of the Deputy Prime Minister in 2003 and 2005 at an approximate total cost of £135,000.

Valuation Office Agency

Mrs. Spelman: To ask the Deputy Prime Minister what data the Valuation Office Agency has provided to Ordnance Survey in the last five years. [42618]

Mr. Woolas: The Valuation Office Agency has recently supplied samples of the non-domestic Rating List and addresses drawn from the Valuation List, followed by compilations of similar data covering the whole of England and Wales.

Wind Turbine Projects

Mr. Greenway: To ask the Deputy Prime Minister what account is taken of the viability of wind turbine projects in planning decisions. [42320]

Yvette Cooper: Planning Policy Statement 22 "Renewable Energy" makes it clear that the viability of a wind turbine project is an issue for the developer of the project. Regional planning bodies and local planning authorities should not make assumptions about the technical and commercial feasibility of renewable energy projects.

EDUCATION AND SKILLS

Adoption

David T.C. Davies: To ask the Secretary of State for Education and Skills how many same sex couples have adopted children in each of the last three years. [44766]

Maria Eagle: The information requested is not available. The Adoption and Children Act 2002 reformed adoption law so that married couples, civil partners, heterosexual couples and same sex couples may apply to adopt. The Act came fully into force on 30 December 2005.

Apprenticeships

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills if she will list the *(a)* apprenticeships and *(b)* advanced apprenticeships supported by each Learning and Skills Council in each year since 2002, broken down by sector; and how many people on each course were (i) of each sex and (ii) in each age group. [43126]

Phil Hope: We do not hold the data in the form requested. However, the Learning and Skills Council (LSC) publishes full information on the number of starts on each apprenticeship framework by programme type, gender, age and LSC local area on the internet via:

http://www.apprenticeships.org.uk/partners/frameworks/apprenticeshipsdata/.

The following tables provides information including apprentice data by area of learning, gender and age.

This shows that, in England in 2004/05 for example, 176,334 female and 234,904 male apprentices were in learning, of which 207,295 were aged below 19 and 203,943 over 19.

Table 1: Learners on WBL LSC funded provision by highest qualification level and age group

Bournemouth LEA

Mr. Ellwood: To ask the Secretary of State for Education and Skills how many *(a)* full-time teachers and *(b)* teaching assistants were employed in Bournemouth local education authority in each year since 1997. [44846]

Jacqui Smith: The following table provides the number of full-time regular teachers and the full-time equivalent number of teaching assistants employed in Bournemouth local authority in each January since 1998. Teaching assistant data can only be provided on a FTE basis. The FTE of regular teachers has been provided for consistency.

Bournemouth local authority was created on 1 April 1997. As figures are collected in January of each year figures are not available for 1997.

Full-time regular teachers and full-time equivalent number of teaching assistants in Bournemouth local authority

	Teachers[1]		
	Full-time	*FTE*	*Teaching assistants FTE*[2]
1998	950	1,040	130
1999	970	1,070	170
2000	980	1,090	210
2001	1,000	1,110	240
2002	1,040	1,140	380
2003	1,010	1,130	380
2004	1,010	1,130	410
2005	1,020	1,130	400

[1] Source: DfES annual survey of teachers in service and teacher vacancies, 618g.
[2] Source: Annual School Census.

Mr. Ellwood: To ask the Secretary of State for Education and Skills what the annual budget of *(a)* Bournemouth local education authority and *(b)* Middlesbrough local education authority was in each year since 1997; and if she will make a statement. [44847]

Jacqui Smith: The figures requested are set out in the following table. We do not hold comparable figures prior to 1999–2000.

The Education (Budget Statements) (England) Regulations
Total budgeted education revenue expenditure by Bournemouth and Middlesbrough local authorities since 1999–2000
Cash terms figures as reported by local authorities as at 23 January 2006

	Budgeted education revenue expenditure (£)	
	Bournemouth	*Middlesbrough*
1999–2000	56,548,000	67,420,000
2000–01	63,138,000	72,112,000
2001–02	67,582,000	80,978,000
2002–03	71,647,000	85,643,000
2003–04	76,987,000	86,853,000

The Education (Budget Statements) (England) Regulations
Total budgeted education revenue expenditure by Bournemouth and Middlesbrough local authorities since 1999–2000
Cash terms figures as reported by local authorities as at 23 January 2006

	Budgeted education revenue expenditure (£)	
	Bournemouth	*Middlesbrough*
2004–05	82,032,000	88,898,000
2005–06	86,880,000	94,898,000

1. Budgeted education revenue expenditure is drawn from local authorities' Section 52 Budget Statements submitted to the DfES. This is calculated as the gross elements of any grants lines plus the net elements of the remainder of the education revenue budget.
2. Cash figures are rounded to the nearest £1,000.

The figures for Middlesbrough are affected by some pupils in the area attending academies rather than maintained schools.

Care Leavers

Mr. Wills: To ask the Secretary of State for Education and Skills what national target she has set for increasing the proportion of care leavers aged 19 years who are in employment, education or training. [44857]

Maria Eagle: The DfES collects information from each local authority on the percentage of care leavers aged 19, who were looked after in their 17th year, who are participating in education, training or employment. However, currently there is no national target concerned with the proportion that is in employment, education and training.

Class Setting

Mr. Gibb: To ask the Secretary of State for Education and Skills what proportion of lessons inspected by Ofsted were recorded as setted in science in years *(a)* seven, *(b)* eight, *(c)* nine, *(d)* 10, *(e)* 11 and *(f)* all years in (i) England and (ii) West Sussex local education authority in each year since 1995. [42492]

Jacqui Smith: This is a matter for Ofsted. HM Chief Inspector, Maurice Smith, will write to the hon. Member and a copy of his reply will be placed in the Library.

Letter from Maurice Smith, dated 13 January 2006:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

You asked what proportion of lessons inspected by Ofsted were recorded as setted in science in years *(a)* seven, *(b)* eight, *(c)* nine,

(d) ten, *(e)* eleven and *(f)* all years in (i) England and (ii) West Sussex local education authority in each year since 1995.

The tables attached show the percentage of lessons which were setted by ability, seen by inspectors during the academic years 1996/97 to 2002/03. Prior to 1996/97 inspectors were not required to record information about grouping and from 2002/03 records do not distinguish between setting and streaming (banded).

The data at individual subject level and for the individual LEA, West Sussex, should be interpreted with caution as the small numbers of records are unlikely to be fully representative of the grouping arrangements as a whole in the LEA.

A copy of this reply has been sent to Jacqui Smith and will be placed in the Library of both Houses.

Notes:
Framework changes occurred in January 2000 and September 2003. Changes in the way groupings in lessons are recorded may mean that data are not directly comparable from one framework to another.
From January 2000 to July 2003, the inspection arrangements included full and short inspections. The majority of lessons observed will have been in full inspections. The most effective schools had short inspections.

Source:
Annual Schools Census

Class Sizes (West Lancashire)

Rosie Cooper: To ask the Secretary of State for Education and Skills what the average class size is in *(a)* primary schools and *(b)* secondary schools in West Lancashire. [45010]

Jacqui Smith: The requested information is given in the table.

Maintained primary and secondary schools[1]: average size of classes taught by one teacher[2]—as at January 2005—West Lancashire parliamentary constituency

	Average class size
Key Stage 1[3]	23.5
Key Stage 2	26.1
Primary	24.6
Secondary	21.9

[1] Includes middle schools as deemed.
[2] Classes as taught during a single selected period in each school on the day of the census in January.
[3] Includes reception classes.

Departmental Assets

David T.C. Davies: To ask the Secretary of State for Education and Skills if she will list the items valued at over £100 that have been reported as stolen from buildings occupied by her Department in the past 12 months. [43432]

Maria Eagle: The following table details items valued at over £100 that have been reported as stolen from Department of Education and Skills buildings in the past 12 months to date.

Item	*Number*
Laptop computers	35
Conference telephone	1

Departmental Expenditure

Mrs. Villiers: To ask the Secretary of State for Education and Skills how much was spent by her Department on refreshments in each year since 1997. [41244]

Maria Eagle: The following table details how much was spent by the Department on refreshments from 1999 to date. It is not possible to provide information from 1997 without incurring disproportionate costs.

	Amount (£)
1999-2000	408,026.82
2000-01	535,188.21
2001-02	464,715.26
2002-03	596,326.13
2003-04	631,962.89
2004-05	538,172.89
2005-06 to date	313,375.56

Disabled Parents

Annette Brooke: To ask the Secretary of State for Education and Skills what guidance she has issued to local authorities regarding supporting disabled parents in getting their children to school. [44620]

Beverley Hughes *[holding answer 23 January 2006]*: The Department has not issued any guidance to local authorities specifically in relation to supporting disabled parents with their responsibility to ensure the regular attendance of their children at school.

We would expect, however, that where the attendance of individual pupils gives cause for concern, the local authority's education welfare service would work closely with the family to resolve any problems.

Annette Brooke: To ask the Secretary of State for Education and Skills if she will take steps to provide a right to free school transport for pupils who are caring for disabled adults. [44621]

Jacqui Smith *[holding answer 23 January 2006]*: Free home to school transport is a service that local authorities provide to parents of school pupils where they consider it 'necessary' to secure a child's attendance at school. Local authorities must consider transport necessary for all pupils of compulsory school age (including those with disabled parents), and who attend their nearest suitable school, provided that the school is beyond the statutory walking distance.

From December 2006, the Disability Discrimination Act 2005, places a duty on the public sector to promote equality of opportunity for disabled people and to eliminate discrimination. This duty is anticipatory, meaning that public authorities will have to review all their policies, practices, procedures and services to make sure they do not discriminate against disabled people and ensure that all their services are planned with disabled people's needs fully considered in advance.

In the Department's view, this means that local authorities will be under a duty to amend their home to school transport policy if, for example, that policy relied on disabled parents accompanying their children along a walking route for it to be considered safe, and where the parents' disability prevented them from doing so. In such circumstances, a reasonable adjustment would be for the local authority to provide free home to school transport. The Department will publish guidance to this effect in advance of the duty coming into force.

Education Maintenance Allowance

Kerry McCarthy: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of the education maintenance allowance in encouraging 16 to 18-year-olds to stay in education. [44129]

Maria Eagle: I refer my hon. Friend to the reply given to the hon. Member for Yeovil (Mr. Laws) on 16 January 2006, *Official Report*, columns 1014-015W.

Kerry McCarthy: To ask the Secretary of State for Education and Skills what plans she has to increase education maintenance allowance payments in 2006. [44131]

Maria Eagle: There are currently no plans to increase the amount of education maintenance allowance payments.

Educational Attainment

Mr. Wills: To ask the Secretary of State for Education and Skills what national target she has set for increasing the number of primary schools meeting key stage 2 targets. [45400]

Jacqui Smith: The Department's Spending Review 2004 Public Service Agreement (PSA) targets are set out in the 2005 Departmental Report (cm 6522), a copy of which is in the House Library. The current PSA target at key stage 2 is to raise standards in English and mathematics so that:

> By 2006, 85 per cent. of 11-year-olds achieve level 4 or above, with this level of performance sustained to 2008; and
>
> By 2008, the proportion of schools in which fewer than 65 per cent. of pupils achieve level 4 or above is reduced by 40 per cent.

Good progress has been maintained towards delivery of this target. A record 79 per cent. of pupils achieved level 4 or above in English and 75 per cent. achieved level 4 or above in mathematics last year. Compared to 1997, the proportion achieving level 4 or above has increased by 16 percentage points in English and by 13 percentage points in mathematics.

Significant reductions have been made in the number of schools where fewer than 65 per cent. of pupils achieve level 4 or above. In 2003 (baseline), 2,849 schools in English and 3,570 schools in mathematics were achieving below the target. In 2005, these figures dropped to 1,871 schools in English and 2,800 schools in mathematics. Compared with 2003 this means an overall reduction of 34 per cent. (978 schools) in English and 21 per cent. (770 schools) in mathematics towards the floor target of 40 per cent. reduction by 2008.

Subsequent PSA targets will be agreed as part of the 2007 Comprehensive Spending Review.

Mr. Wills: To ask the Secretary of State for Education and Skills what national target she has set for the percentage of pupils achieving five GCSE A*-C grades by 2009. [45523]

Jacqui Smith: The Department's public service agreement (PSA) targets are set out in the 2005 departmental report (Cm 6522), a copy of which is in the House Library.

The current PSA targets at Key Stage 4 are: *(a)* by 2008, 60 per cent. of pupils achieve five or more GCSEs or equivalent at grades A*-C; and *(b)* in all maintained secondary schools at least 25 per cent. of 16-year-olds achieve five or more A*-C grades by 2006 and 30 per cent. by 2008.

Good progress has been made towards achievement of these targets. In 2005, 56.3 per cent. of 15-year-olds achieved five or more GCSEs or equivalent—a 2.6 percentage point increase on 2004 results and an increase of 11.2 percentage points compared with 1997.Over 67,000 more pupils are now achieving at this level than did so in 1997.

There has been a further significant drop in the number of schools below floor targets.

2005 results show:

112 schools are below the 25 per cent. floor target, down from 186 schools in 2004 and 616 in 1997;

232 schools are below the 30 per cent. floor target, down from 343 schools in 2004, and down from 896 schools in 1997.

Subsequent targets will be agreed as part of the 2007 comprehensive spending review.

Smoking

Mr. Hayes: To ask the Secretary of State for Education and Skills what her policy is on smoking in publicly funded educational establishments. [43071]

Jacqui Smith: Educational establishments which are publicly funded are covered by the provisions of the Health Bill currently before Parliament. The Bill, when passed, will prohibit smoking in enclosed public places including early years education settings, Sure Start children's centres, schools, colleges of further education and institutions of higher education, with some exemptions for residential accommodation for students and staff. Young people living in residential schools homes who are over the legal minimum age at which smoking is permitted, currently 16, would have the same right to smoke as other young people of the same age in their own rooms.

Currently, nurseries and pre-schools are required, under national standards, to have a no smoking policy. We already encourage schools to be smoke-free environments. All schools should aim to become healthy schools and should be smoke free or be working towards being smoke free by September 2007 to gain healthy school accreditation. The national minimum standards for residential special schools encourage smoke-free policies. Higher education institutions must comply with all smoking legislation for their premises: it is for individual institutions to decide their own smoking policies in line with current legislation.

Executive Agencies

Anne Main: To ask the Secretary of State for Education and Skills what *(a)* targets, *(b)* advice and *(c)* guidance her Department has given to executive agencies that fall under the remit of her Department on the reorganisation of their administrative functions on a regional basis; and if she will make a statement. [41642]

Maria Eagle: The Department for Education and Skills is not responsible for any executive agencies.

Language Tuition

Keith Vaz: To ask the Secretary of State for Education and Skills how many comprehensive schools offered non-European languages as an option in the last year for which figures are available. [44842]

Jacqui Smith: This Department does not collect this information or hold it centrally.

Music

Mr. Kidney: To ask the Secretary of State for Education and Skills what assessment she has made of the effectiveness of the music service of Staffordshire education authority. [45047]

Jacqui Smith: Music Services are not subject to statutory inspections but instead undertake regular self-reviews to ensure they are providing a high quality service to schools and young people. My Department does not hold copies of the results of these self reviews.

Nationally, my Department conducts a three-yearly survey of Music Service provision, looking at issues of access, quality and breadth. The 2005 report was published in December and copies are available in the House of Commons Library. Data on individual music services are anonymised in the report, however, and for internal use only.

Mr. Kidney: To ask the Secretary of State for Education and Skills how much her Department has paid to Staffordshire education authority for the provision of music services in each year since 1998. [45050]

Jacqui Smith: We do not hold figures for music service allocations prior to 1999. Since 1999, every local authority has received a grant through the music standards fund (MSF). Since the MSF was established, Staffordshire music service has received the following funding:

	£
1999-00	826,000
2000-01	826,000
2001-02	940,000
2002-03	1,054,000
2003-04	1,064,000
2004-05	1,054,000
2005-06	1,064,000

Mr. Kidney: To ask the Secretary of State for Education and Skills what assessment she has made of the pilots her Department established to trial new ways of teaching and learning music. [45048]

Jacqui Smith: My Department has established two sets of pilots in the last four years to trial new ways of teaching and learning in music. One set of pilots focused on instrumental and vocal learning at KS2 and one on teaching and learning at KS3.

In 2004, twelve of the thirteen instrumental and vocal pilots were evaluated by Ofsted. 'Consistently high quality of work' was observed in seven of the programmes; in the other five, Ofsted reported 'good, sometimes very good features in all of them, but not consistently so'. In 2005, Ofsted reported that 'the best provision' observed in primary schools was from these programmes, with 67 percent. of lessons good or outstanding. This compared with 43 percent. of conventional KS2 sessions.

The KS3 music pilots took place in 40 schools across five local authorities and came to an end in December 2005. My Department is currently considering evaluation data collected from the pupils, teachers and trainers involved in this pilot.

Mr. Kidney: To ask the Secretary of State for Education and Skills what progress her Department has made towards achieving the target for every child to be given the opportunity to learn to play a musical instrument. [45049]

Jacqui Smith: Since 2002, the percentage of KS2 pupils learning a musical instrument has risen from 7 percent. to 13 percent. We have achieved this by:

Piloting models of delivery in thirteen authorities;

Sending an Ofsted evaluation and a DVD of exemplar materials based on the pilots to all schools and local authorities in England;

Commissioning QCA guidance materials based on the pilots and sending them to all schools and local authorities in England;

Funding a series of national and regional training events for teachers, local authorities and music services;

providing local authority music services with an additional £3 million over the last three years to develop their own models of delivery.

We expect to make significant further progress over the next two years by:

Providing music services with a further £1.5 million for this work in 2006–07;

Investing £1 million per annum in a national musical instrument fund;

Investing £1 million per annum in a national strategy for workforce training and development;

Allocating £26 million to primary and special schools to buy in the specialist support they need to deliver this programme in schools.

Mr. Kidney: To ask the Secretary of State for Education and Skills what additional funding she plans to provide for the improvement of *(a)* teaching and *(b)* learning music in the next five years; and how much of this money will go to Staffordshire. [45051]

Jacqui Smith: In the next two years, my Department will be providing the following additional support for the improvement of teaching and learning in music:

£129 million for music service provision (Staffordshire: £2,108,000)

£1.5 million for music service provision at KS2 (Staffordshire: £20,000)

£26 million to primary schools for instrumental and vocal tuition at KS2 (Staffordshire: £422,094)

£2 million to music services for musical instruments (Staffordshire: figures not available)

£2 million to fund a national strategy of training and development for musicians and classroom teachers (Staffordshire: figures not available)

£2 million for Music Manifesto Pathfinders at the Halle, the Roundhouse and The Sage, Gateshead (Staffordshire: not applicable).

Figures are yet to be finalised for additional Music Manifesto projects, including the Festival of Practice 2006, and the possible roll out of a KS3 music pilot.

It is not possible to give any indication at this stage about funding for music post-2008.

This will be considered as part of the wider Comprehensive Spending Review.

Mr. Kidney: To ask the Secretary of State for Education and Skills what assessment she has made of the potential effect of paying the money for improving the teaching and learning of music directly to individual schools on the music services provided by local education authorities. [45052]

Jacqui Smith: There has been no reduction in the amount of money paid to local authority music services for improving the teaching and learning of music; this will remain at just under £60 million per annum until at least 2008. In addition, all music services will receive an additional £10,000 in 2006–07 to support further instrumental and vocal tuition at Key Stage 2. Over the next two years, they will receive a share of £2 million for musical instruments and support for continuing professional development at a cost nationally of a further £2 million. I would expect these increases to have a significant positive impact on music services' ability to support teaching and learning at Key Stage 2.

The further £26 million allocated to primary schools may be used to buy in specialist support from a range of providers—I believe it is right to allow schools this degree of choice. Given music services' track record at KS2, and their positive relationship with schools (96 per cent. say they are satisfied with the service they receive), it is likely that a great deal of this specialist support will continue to be bought in from local music services.

Office Equipment

Mr. Weir: To ask the Secretary of State for Education and Skills how many *(a)* personal computers, *(b)* laptops, *(c)* servers, *(d)* printers, *(e)* scanners, *(f)* photocopiers and *(g)* fax machines (i) her Department, (ii) each (A) non-departmental public body, (B) executive agency and (C) other public body for which her Department is responsible in each English region owned in (1) 2003–04 and (2) 2004–05. [40071]

Maria Eagle: My Department does not collect the information requested from NDPBs and public bodies. The information given in the following table is for my core Department only.

Category	*2003/04*	*2004/05*
Personal computers	7,216	6,692
Laptops	1,949	1,548
Servers	732	748

Category	2003/04	2004/05
Printers	2,266	2,142
Scanners	278	288
Photocopiers	0	0
Fax machines	310	286

Physical Education (West Lancashire)

Rosie Cooper: To ask the Secretary of State for Education and Skills what the average number of hours per week of physical education undertaken in *(a)* primary schools and *(b)* secondary schools in West Lancashire was in 2004-05. [45011]

Jacqui Smith: Data from the annual PE, School Sport and Club Links survey are not collected in the format requested. The 2004/05 survey found that overall, 69 per cent. of 5 to 16-year-olds in partnership schools were spending at least two hours in a typical week on high quality PE and school sport within and beyond the curriculum. This figure is 64 per cent. for primary schools and 75 per cent. for secondary schools. The survey collects data from schools within school sport partnerships. By September 2006, all maintained schools will be within a partnership.

The results from school sport partnerships in Lancashire established at the time of the survey are as follows:

Partnership name	Percentage of pupils who participated in at least two hours of high quality PE and out of hours school sport in a typical week
Tulketh	57
Brownedge St. Mary's	47
Fearns Community	53
Heysham	70
Our Lady's Lancashire	58
Worden	51

The overall average for Lancashire was 56 per cent.

Literacy/Numeracy

Mr. Laws: To ask the Secretary of State for Education and Skills what proportion of primary school pupils left primary school without attaining the target levels of *(a)* literacy and *(b)* numeracy in each year since 1996-97, broken down by local education authority; and if she will make a statement. [41451]

Jacqui Smith: The information requested has been placed in the House of Commons Library.

Standards of literacy and numeracy in our primary schools, as measured by the national curriculum tests, have never been higher. In 2005 79 per cent. of 11-year-olds achieved the target level 4 of the national curriculum in English and 75 per cent. did so in mathematics. In 1997 over a third of 11-year-olds left primary school without attaining the target level 4. The National Literacy and Numeracy Strategies introduced by the Government in 1998 and 1999 have contributed significantly to this dramatic rise in standards.

The Government are committed to improving primary teaching further and we are implementing the findings from the 2005 Rose Review of Reading and renewing both the literacy and numeracy teaching strategies over the next year to support this.

Our recent White Paper—Higher Standards, Better Schools for All—set out our determination to ensure every child masters the basics of literacy and numeracy. There will be an extra investment of £565 million by 2007/08 to support personalisation in primary and secondary schools, focusing particularly on helping children who have fallen behind in English and mathematics. A further £60 million will be available in each of the next two years to provide effective one-to-one and small group tuition for the lowest attaining pupils.

Protection of Children Act

Mr. Lansley: To ask the Secretary of State for Education and Skills how many individuals are on the Protection of Children Act list. [44896]

Ruth Kelly: There are currently 1,285 people on the Protection of Children Act List. This includes the names of individuals who were transferred from the Consultancy Service Index, which was maintained by the Department of Health prior to the introduction of the Protection of Children Act.

Pupil Exclusions

Tim Farron: To ask the Secretary of State for Education and Skills how many pupil exclusions there have been in *(a)* primary and *(b)* secondary schools in Westmorland and Lonsdale since 1997. [43378]

Jacqui Smith *[holding answer 19 January 2006]:* The requested information is given in the table.

Maintained primary and secondary schools: number of permanent exclusions 1996/97 to 2003/04, Westmorland and Lonsdale parliamentary constituency

	Primary		Secondary	
	Number	Percentage[1]	Number	Percentage[1]
1996/97	0	0.00	18	0.35
1997/98	0	0.00	17	0.32
1998/99	[2]—	[2]—	9	0.17
1999/2000	0	0.00	7	0.13
2000/01[3]	0	0.00	[2]—	[2]—
2001/02[3]	0	0.00	5	0.09
2002/03[3]	[2]—	[2]—	3	0.05
2003/04[3]	0	0.00	4	0.07

[1] The number of exclusions expressed as a percentage of the total number of pupils on the school roll in January of the same school year. Excludes dually registered pupils.

[2] 1 or 2 exclusions, or a rate based on 1 or 2 exclusions.

[3] There are known quality issues with exclusions data for these

years. Figures shown here are as reported by schools but are unconfirmed and should be used with caution.

Source:
Annual Schools Census

Mr. Lancaster: To ask the Secretary of State for Education and Skills how many pupil exclusions there have been in *(a)* primary and *(b)* secondary schools in Milton Keynes in each year since 1997. [45429]

Jacqui Smith: The requested information is given in the table.

Maintained primary and secondary schools[1]: number of permanent exclusions 1997/98 to 2003/04 Milton Keynes local authority area

	Permanent exclusions			
	Primary		Secondary	
	Number	Percentage[2]	Number	Percentage[2]
1997/98	4	0.02	39	0.34
1998/99	12	0.05	14	0.12
1999/2000	19	0.09	15	0.13
2000/01[3]	9	0.04	10	0.08
2001/02[3]	20	0.09	25	0.20
2002/03[3]	17	0.08	26	0.21
2003/04[3]	17	0.07	20	0.16

[1] Includes middle schools as deemed.

[2] The number of permanent exclusions expressed as a percentage of the number (headcount) of pupils, excluding dually registered pupils.

[3] Figures are as confirmed by local authorities via the data checking exercise.

Annual Schools Census

School Buildings (Hereford)

Mr. Keetch: To ask the Secretary of State for Education and Skills how much funding has been awarded to Herefordshire council to provide for new school buildings at each school in Hereford constituency since 1997; and what the sum awarded was in each case. [44615]

Jacqui Smith: Capital funding is allocated by the Department to local authorities and direct to schools. Funding allocated to each authority, together with other local resources that may be available, is prioritised to each school in accordance with local authorities' asset management plans, and the Department does not keep central records of this expenditure. Funding allocated by the Department to Herefordshire local authority and schools in its area since 1996–97 is set out in the following table.

	£ million Funding allocated to Herefordshire local authority
1996–97	6.0
1997–98	6.6
1998–99	4.1
1999–2000	5.4
2000–01	8.5
2001–02	5.9
2002–03	8.4
2003–04	27.6
2004–05	8.4
2005–06	8.7

The allocation of £27.6 million in 2003–04 includes a PFI amount of £19.5 million.

School Funding (Hammersmith and Fulham)

Mr. Hands: To ask the Secretary of State for Education and Skills what assessment she has made of whether the funding increase for schools in Hammersmith and Fulham will ensure that all the schools will be able to fulfil the planning, preparation and assessment initiative. [45255]

Jacqui Smith: All 55 schools in Hammersmith and Fulham have successfully implemented planning, preparation and assessment (PPA) time for teachers, and all have been validated by the Local Authority/ National Remodelling Team.

In terms of funding, Hammersmith and Fulham will receive an increase of 6.9 per cent. per pupil in its Dedicated Schools Grant (DSG) allocation for 2006–07, slightly above the national average. Within that figure there is an indicative allocation of £187,000 for implementing the final stage of PPA: the local authority should decide, after consultation with its Schools Forum how much additional funding it should allocate in 2006–07 for PPA.

School Playing Fields

Mike Penning: To ask the Secretary of State for Education and Skills how many school playing fields in *(a)* Dacorum, *(b)* Hertfordshire and *(c)* England have been sold off since May 1997. [43421]

Jacqui Smith: Since 1997 there has not been any applications involving the loss of a school playing field in Dacorum.

Five applications involving the loss of an area of school playing field capable of forming at least a small sports pitch have been approved at schools in Hertfordshire since 1997.

The number of approved applications to dispose of an area of school playing field capable of forming at least a small sports pitch at schools in England in each year since 1997 is as follows:

	Number
1997/98	2
1998/99	35
1999/2000	29
2000/01	28
2001/02	29
2002/03	19
2003/04	13
2004/05	11
2005/06	1
Total	167

Prior to October 1998, there was no regulation of the sale of school playing fields at local authority controlled schools. If a local authority wanted to sell a school playing field there was nothing to stop it and it could spend the proceeds as it wished.

Schools Admissions

Lynne Jones: To ask the Secretary of State for Education and Skills how many children have received places at *(a)* community schools, *(b)* foundation schools, *(c)* voluntary aided schools, *(d)* voluntary controlled schools, *(e)* community special schools and *(f)* foundation special schools at the insistence of their local authority in each of the last five years. [42772]

Jacqui Smith: We do not collect this information.

Local authorities have certain powers to secure the admission of children to schools in their area. For community and voluntary controlled schools, they are the admission authority and so they decide who is admitted. For foundation and voluntary aided schools, they have the power to direct the admission of a child. For special schools (and for the admission of children with statements of special educational need to mainstream schools), they have the power to 'name' the school in the child's statement.

School Staff

Mr. Hurd: To ask the Secretary of State for Education and Skills how many *(a)* classroom assistants and *(b)* teachers were employed in (i) the constituency of Ruislip-Northwood and (ii) each London borough in each year since 1997. [43883]

Jacqui Smith: The following tables provide the full-time equivalent number of teaching assistants and teachers employed in Ruislip-Norwood constituency and each local authority in London for each year from 1997.

Full-time equivalent number of teaching assistants and teachers in maintained sector schools[1] in Ruislip-Norwood constituency

	1997	1998	1999	2000	2001	2002	2003	2004	2005
Teaching assistants	120	140	140	150	170	180	210	210	260
Teachers	620	630	630	650	650	640	650	680	700

[1] Includes maintained and non-maintained special schools.

Note:
Figures are for the maintained sector. Teachers in academies (including those that were previously maintained schools) are not included.
Source:
Annual survey of teachers in service and teacher vacancies, 618g.

David T.C. Davies: To ask the Secretary of State for Education and Skills what representations she has received from the General Teaching Council Wales about ensuring that foreign nationals working as teachers have undergone appropriate background checks. [44731]

Ruth Kelly: I have not received representations from the General Teaching Council for Wales about ensuring that foreign nationals working as teachers have undergone background checks.

Mr. Davey: To ask the Secretary of State for Education and Skills what guidance the Department has issued to supply teacher agencies on *(a)* required and *(b)* recommended background checks on persons applying for work as supply teachers in the last two years. [43847]

Ruth Kelly *[holding answer 19 January 2006]:* Updated advice about checks on teachers, including supply teachers, was published on my Department's Teachernet website in September 2004. In addition my Department's guidance entitled "Safeguarding Children: Safer Recruitment and Selection in Education Settings" published in June 2005 was addressed to employment agencies and businesses that provide staff to schools as well as Head Teachers, Governing Bodies of schools, Local Education authorities, proprietors of independent schools, and Further Education institutions. That guidance included advice about the information that should be obtained from applicants and their referees and about interviewing candidates, as well as guidance on CRB, List 99 and other pre-appointment checks.

In the future we will require mandatory CRB checks on anyone selected for appointment who is or has been resident in the UK. For those who have never lived in this country, we already advise employers to take extra care in checks on overseas candidates and to seek information about the person's criminal history from their country of origin wherever possible. The CRB provides advice to employers about countries from which it is possible to obtain such information and how to obtain it.

Sex and Relationships Education

Dr. Kumar: To ask the Secretary of State for Education and Skills (1) what training staff at *(a)* primary and *(b)* secondary schools have to undertake in order to teach sex and relationships education; [45110]

(2) what requirements there are in the *(a)* statutory and *(b)* non-statutory element of the sex and relationships education syllabus on issues of sexuality; [45111]

(3) what her latest estimate is of the proportion of parents who withdraw their child from the non-statutory elements of sex and relationships education in *(a)* primary and *(b)* secondary schools in England; [45112]

(4) how much authority a school has to determine its own sex and relationships education policy. [45115]

Jacqui Smith: All teachers of sex and relationship education are encouraged to undertake the Government funded teachers' certificate in personal social and health education (PSHE). The certificate supports standards in the delivery of PSHE teaching including sex and relationship education and is available to both primary and secondary school teachers. Almost 5,000 teachers have undertaken the certificate since 2002. A PSHE certificate programme is also available to school and community nurses who support sex education in schools. Over 600 nurses have undertaken the certificate.

The statutory requirements for sex education are outlined in national curriculum science. In addition, secondary schools must teach about HIV/AIDS and other sexually transmitted diseases. Other discretionary elements of sex and relationship education are included in the non-statutory PSHE framework. Schools are able to develop their own sex education programmes beyond the statutory minimum taking into account the views of parents and the needs of pupils. Schools are free to determine their own sex education policy taking account of the requirements of the national curriculum and guidance issued by the Secretary of State.

We do not collect data centrally on the numbers of parents withdrawing pupils from the non-statutory elements of sex education. Ofsted ("Sex and Relationships, 2002") estimates 0.04 per cent. of parents exercise this right.

Sex Offenders Register

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills how many people who *(a)* are working for and *(b)* have worked for her Department in Coventry in the last 10 years (i) are on and (ii) have been on the Sex Offenders Register. [44630]

Ruth Kelly: My statement and the accompanying report explain the work under way to establish how many people on the list of registered sex offenders are currently employed in schools in England and Wales.

It is not the Government's policy to reveal publicly information that may lead to the identification and whereabouts of any individual on the Sex Offenders Register. Identifying individuals in this way does not enhance child protection.

Special Measures

Geraldine Smith: To ask the Secretary of State for Education and Skills how many schools were under special measures in 2005. [44656]

Jacqui Smith: The following table shows the number of schools in special measures at the end of each month during 2005.

	Number of schools in special measures
2005	
January	303
February	297
March	288
April	281
May	262
June	248
July	248
August	242
September	238
October	247
November	222
December	224

Teachers' Pensions

Lorely Burt: To ask the Secretary of State for Education and Skills if she will assess the cost-effectiveness of unifying teachers' pension benefits for England, Wales, Scotland and Northern Ireland. [45440]

Jacqui Smith: There are no plans to assess the cost-effectiveness of unifying teachers' pension benefits for England and Wales, Scotland and Northern Ireland. In practice there is a great deal of commonality across the UK pension schemes for teachers but, as part of the Devolution arrangements, it is important that Ministers in each country's Education Department have the freedom to adapt teachers' remuneration packages, of which pensions form a part, to meet differing recruitment and retention needs.

Truancy

Adam Afriyie: To ask the Secretary of State for Education and Skills (1) how many pupils were recorded as having at least one incidence of truancy in 2005; [41041]

(2) how many pupils were recorded as having at least one incidence of truancy in 2004–05. [41667]

Jacqui Smith: The information requested on unauthorised absence 2005 is shown in the table:

Unauthorised absence[1]

	Number of day pupils of compulsory school age	*Number of pupils absent*[2]
Primary	3,565,048	583,859
Secondary	3,037,013	774,347

[1] Unauthorised absence includes other forms of absence such as lateness, holidays during term time not authorised by the school, absence where reason is not yet established and truancy. Truancy forms only one part of the unauthorised absence figures.

[2] Number of pupils that missed at least one session due to unauthorised absence

Information on unauthorised absence in England 2004/05 can be found in table 6 of SFR 56/2005, Pupil Absence in Schools in England 2004/05 (Revised). This can be found at the following website: http://www.dfes.gov.uk/rsgateway/DB/SFR/s000626/index.shtml.

University Degrees

Mr. Hayes: To ask the Secretary of State for Education and Skills what the total cost is of educating a university student through a degree course in the 30 most popular subjects. [39916]

Bill Rammell: DfES provides funding for HE institutions through annual grants to the Higher Education funding council (HEFCE). In allocating grant to institutions, HEFCE reflect the fact that

different levels of resource per student are required for different subject groups. The table shows the unit of resource per full-time equivalent student per year. Figures relate to grant for teaching plus assumed tuition fee income only.

Subject group	*Assumed unit of resource per FTE student per year (2005–06) (£)*
The clinical stages of medicine and dentistry and veterinary science	14,432
Laboratory based subjects (science, pre-clinical stages of medicine and dentistry, engineering and technology)	6,134
Subjects with a studio, laboratory or fieldwork element	4,690
All other subjects	3,608

William Gibson

Mr. Ellwood: To ask the Secretary of State for Education and Skills if she will make a statement about the future employment of William Gibson. [44854]

Ruth Kelly: My statement to the House on 18 January made it clear that it would not be appropriate to comment on individual cases.

TREASURY

Child Benefit

Mrs. Curtis-Thomas: To ask the Chancellor of the Exchequer how many people are in receipt of child benefit allowance in the Crosby constituency; and what percentage they constitute of the total population of the constituency. [44966]

Dawn Primarolo: The information is as follows:

8,300 families in the Crosby constituency were receiving child benefit at August 2004 (for further details, see

www.hmrc.gov.uk/stats/child_benefit/cb_geog_aug04_aug05.pdf).

This represents 15 percent. of the 56,374 electors in the Crosby constituency at 1 December 2004 (for further details, see

www.statistics.gov.uk/StatBase/Expodata/Spreadsheets/D8887.xls)

Child Tax Credit

Mr. Paul Goodman: To ask the Chancellor of the Exchequer by how much the *(a)* family element and *(b)* child element of child tax credit has increased in each year since they were introduced. [43762]

Dawn Primarolo: The following table shows the rates for the family element and child element of the Child Tax Credit in the years since it was introduced.

£ per year

	2003–04 rates	*Change*	*2004–05 rates*	*Change*	*2005–06 rates*
Child Tax Credit					
Family element	545	(+0)	545	(+0)	545
Child element	1,445	(+180)	1,625	(+65)	1,690

Rates and thresholds for tax credits for 2005–06 and 2006–07 can be found on the HMRC website at: http://www.hmrcgov.uk/rates

Child Trust Funds

Greg Mulholland: To ask the Chancellor of the Exchequer (1) what estimate his Department has made of the cost of the Child Trust Fund scheme in the next five years, including administration costs; [45449]

(2) what the cost of the Child Trust Fund scheme has been, including administration costs, in each year since the scheme was introduced. [45451]

Dawn Primarolo: I refer the hon. Gentlemen to the answer given to my hon. Friend the Member for Birmingham, Hodge Hill (Mr. Byrne) on 22 March 2005, *Official Report*, column 701W.

Other Child Trust Fund costs including administration are set out in the table.

	£ million
2004–05	52
2005–06	37
2006–07	25
2007–08	15
2008–09	15
2009–10	15

Mr. Paul Goodman: To ask the Chancellor of the Exchequer what estimate he has made of additional payments made into child trust funds in 2004–05. [45178]

John Healey: No additional payments were made into child trust fund accounts in the financial year 2004–05. The child trust fund became fully operational on 6 April 2005.

Conference Attendance (Costs)

Mrs. Spelman: To ask the Chancellor of the Exchequer how many staff *(a)* from the Valuation Office Agency, *(b)* HM Revenue and Customs and *(c)* his Department attended (i) the International Property Tax Institute International Conference in Prague in August 2005, (ii) the Southern African Tax Institute Workshop on the Valuation and Rating of Public Service Infrastructure in June 2005 in Pretoria, South Africa and (iii) the Eighth International Conference of the Institute of Revenues Rating and Valuation in Alicante, Spain in February 2005; and

what the total estimated cost to the public purse was of attendance at each of the events. [42840]

Dawn Primarolo: The information requested is as follows:

Event	Number of staff attending VOA	HMRC	HMT	Cost (£)
IPTI Conference Prague August 2005	1	0	0	600
SATI Conference Pretoria June 2005	1	0	0	Nil
IRRV Conference Alicante February 2005	3	0	0	950

Correspondence

John Barrett: To ask the Chancellor of the Exchequer when he will reply to the correspondence dated 29 November 2005 about Mrs Pauline Duff, a constituent of the hon. Member for Edinburgh West. [44697]

Dawn Primarolo: HM Revenue and Customs have replied to the hon. Member.

Council Tax (Castle Point)

Bob Spink: To ask the Chancellor of the Exchequer how many Castle Point residents received council tax benefit in each of the last five years. [42831]

Mr. Plaskitt: I have been asked to reply.

The information is in the table.

Council tax benefit recipients in Castle Point borough council area.

May 2001	5,100
May 2002	5,100
May 2003	5,200
May 2004	5,400
May 2005	5,900

Notes:
1. Figures are rounded to the nearest hundred.
2. The data refer to benefit units, which may be a single person or a couple.
3. Council tax benefit totals exclude any second adult rebate cases.

Source:
Housing benefit and council tax benefit management information system quarterly 100 percent. caseload stock-counts taken between May 2001 and May 2005.

Death Statistics

Mrs. Curtis-Thomas: To ask the Chancellor of the Exchequer what the average death rates were, allowing for age and sex standardisation, from *(a)* all causes, *(b)* coronary heart disease, *(c)* stroke and *(d)* cancer in each ward in (i) Crosby constituency and (ii) the city of Liverpool in the last year for which figures are available. [45200]

John Healey: The information requested falls within the reasonability of the national statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 25 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the average death rates were allowing for age and sex standardisation from *(a)* all causes, *(b)* coronary heart disease, *(c)* stroke and *(d)* cancer, for each ward in (i) Crosby constituency and (ii) the City of Liverpool in the last year for which figures are available.

Due to small numbers of deaths in many wards, the Office for National Statistics (ONS) does not produce mortality rates for specific causes at the geographic level requested. Numbers of deaths in wards in England and Wales for selected causes, including coronary heart disease, stroke and cancer, are available for 2004, as part of the Vital Statistics (VS) series of outputs.

Standardised Mortality Ratios for all causes of death for wards in England and Wales, based on deaths in the period 1999–2003, will be published by ONS in Spring 2006.

The North West Public Health Observatory publication *Where Wealth means Heath: Illustrating Inequality in the North West*[1] *includes a map of Standardised Mortality Ratios for Lower-layer Super Output Areas in the North West.* This publication is available on the North West Public Health Observatory website at: http://www.nwpho.org.uk

Mortality rates for all causes, cancer and circulatory diseases are also available to download from this website for Middle-layer Super output Areas in the North West.

[1] Wood J, Hennell T, Jones A, Hooper J, Tocque K, Bellis M. Where Wealth means Health: Illustrating Inequality in the North West. Liverpool, 2006.

EU Budget (UK Contributions)

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer what methodology was used to calculate the *(a)* Treasury estimate of the UK net contribution to the EU budget and *(b)* the Office for National Statistics (ONS) estimates of the net contribution to EU institutions; what items are included in each; and if he will recalculate the UK net contributions for each year from 2006–07 to 2012–13 using the ONS methodology and taking account of the recent budget changes. [45339]

John Healey: Figures published by the Treasury for the United Kingdom's net contribution to the EC Budget consist of the United Kingdom's gross contribution less the UK abatement and less public sector receipts. An explanation of the reasons for any differences between this and the Office for National Statistics' presentation of "UK official transactions with Institutions of the EU" (Table 9.9 (page 151) of the 2005 Pink Book is given on page 183 of the Pink Book. The Office for National Statistics figures are published on a calendar year basis and are historic. Financial year forecasts are not produced on the basis of the Office for National Statistics presentation. Revised forecasts of UK net contributions to the EC Budget, on the usual HM Treasury method, will be included in the Financial Statement and Budget Report.

External Consultants

Jim Cousins: To ask the Chancellor of the Exchequer what the *(a)* nature and *(b)* value was of all contracts, consultancies and other services placed with (i) Deloitte and Touche, (ii) Ernst & Young, (iii) KPMG, (iv) PricewaterhouseCoopers and (v) all other consultants in 2004–05 by his Department and its agencies. [42069]

John Healey: The information in respect of contracts placed with the four named accountancy firms in 2004–05 is set out in the following table Equivalent information in relation to all other consultants could be provided only at disproportionate cost.

	£000
Core Treasury	
Deloitte and Touche	
Various secondments	220

Internal audit	63
Supplier audit	14
Subtotal KPMG	77
Ernst & Young and PricewaterhouseCoopers	0

[1] The contract with Ernst & Young for support to the in house internal audit team does not specify a total value, which will depend on the nature of the assignments, to be agreed by the Audit Committee each year, and the extent of the extra resources needed by the in house team. The value given is the total cost of Ernst & Young's internal audit services in 2004–05.

[2] This contract was entered jointly with the DTI Shareholder Executive and ECGD. HM Treasury's share is £26,000.

Franked Investment Income

Daniel Kawczynski: To ask the Chancellor of the Exchequer if he will take into account group litigation orders in the European Court of Justice on franked investment income tax rules in his next budget report. [44992]

Dawn Primarolo: The Government are confident that the current Franked Investment Income (FII) legislation is fully conformant with both its domestic and international legal obligations.

Fuel Duty/RPI

Mr. Chaytor: To ask the Chancellor of the Exchequer what the annual percentage change in *(a)* fuel duty and *(b)* the retail price index was in each of the last 10 years. [43050]

John Healey: Historical fuel duty rates can be found in Hydrocarbon Oils Bulletin published by HM Revenue and Customs and available on UK Trade Info website: www.uktradeinfo.com/index.cfm?task = statindex. Historical retail prices index can be found in Pocket Data Bank published by HM Treasury and available on HMT website: http://www.hm-treasury.gov.uk/economic_data_and_tools/data_index.cfm.

Incomes/Savings

Harry Cohen: To ask the Chancellor of the Exchequer what assessment he has made of the change in the differential in the *(a)* income and *(b)* savings of the rich and poor since 1997; and if he will make a statement. [44785]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 25 January 2006:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what assessment has been made of the change in the differential in the income and savings of the rich and poor since 1997. (44785)

Estimates of differential income are based on the Office for National Statistics (ONS) analyses 'The effects of taxes and benefits on household income'. The latest analysis for 2003–04 was published on the National Statistics website on 7th July 2005 edition of 'Economic Trends'. The analysis includes measures of income inequality for households in the United Kingdom based on data from the Expenditure and Food Survey. This is a sample survey covering approximately 7,000 households in the UK. The analysis for 2004–05 is due to be published on the National Statistics website in April 2006.

Disposable household income is a commonly used indicator of living standards. Table 26 in Appendix 1 shows the percentage share of total disposable income for each quintile group. The quintile groups are based on a ranking of households by disposable income, with the bottom quintile containing the bottom fifth of households, the 2nd quintile containing those households between the 20th and 40th percentile and so on. Figures are available from 1981 to 2003–04. In 1997–98 the bottom quintile received 8% of total disposable income and the top quintile received 42%. In 2003–04 the bottom quintile still received 8% of total disposable income and the top quintile 42%.

Comparable figures for household savings are not available. ONS is currently developing the Household Assets Survey to improve the availability of information on savings and wealth.

Insurance Companies (Additional Fees)

Gregory Barker: To ask the Chancellor of the Exchequer (1) if he will make a statement on the tax liability of additional fees charged by insurance companies; [44978]

(2) what fees charged by insurance companies are liable to tax; and how much revenue was raised by taxes on these charges since 1997. [44993]

John Healey: Insurance companies do not generally charge fees. They charge premiums, on which insurance premium tax (IPT) may be due either at the standard rate of 5 per cent. or the higher rate of 17.5 per cent., depending on the type of insurance. IPT receipts since 1997 are published by HM Revenue and Customs (HMRC) and can be found at:

www.uktradeinfo.com.

Any other services supplied by insurance companies which are not exempt from VAT under Group 2 Schedule 9 of the Value Added Tax Act 1994 will be liable to VAT at the standard rate of 17.5 per cent. HMRC does not collect data on VAT for individual goods and services.

Maternity Services

Rosie Cooper: To ask the Chancellor of the Exchequer how many births there were to women resident in West Lancashire at *(a)* individual maternity hospitals, *(b)* midwife-led units, *(c)* home and *(d)* other locations in each year since 2000. [45126]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell, dated 25 January 2006:

As National Statistician I have been asked to reply to your request for the number of births to women resident in West Lancashire at *(a)* individual maternity hospitals, *(b)* midwife-led units, *(c)* home and *(d)* other locations in each year since 2000. (45126)

The table below gives place of occurrence for live births or stillbirths occurring in England and Wales to women usually resident in the West Lancashire Local Authority area at the time of the birth. Information is not available centrally on which institutions are midwife-led units, so figures are presented for categories *(a)* and *(b)* combined, *(c)* and *(d)*.

Live births and stillbirths by place of occurrence for women resident in West Lancashire local authority area, 2000 to 2004

		Year of occurrence				
	Place of occurrence	*2000*	*2001*	*2002*	*2003*	*2004*
(a) and *(b)*	Maternity hospital/unit					
	District General Hospital, Ormskirk	783	830	822	949	1,029
	Christiana Hartley Maternity Hospital, Southport	104	112	105	42	11
	Billinge Hospital, Wigan	92	91	59	74	28
	Liverpool Womens Hospital	42	35	36	39	61
	Sharoe Green Hospital, Fulwood, Preston	9	21	25	12	9
	University Hospital Aintree	21	12	8	8	[2]
	Royal Albert Edward Infirmary, Wigan	[1]	[1]	[1]	[1]	20
	Other Hospitals	6	7	4	10	16
(c)	At Home	16	13	9	15	10
(d)	Elsewhere[2]	[2]	[2]	[2]	[2]	[2]
	Total	1,074	1,123	1,071	1,150	1,184

[1] Hospital not providing maternity services during the year.
[2] Annual counts of less than five. There were seven births, all live, during the period 2000–04.

Stakeholder Pensions

Gregory Barker: To ask the Chancellor of the Exchequer what plans he has to revise stakeholder pension tax relief levels in 2006. [43956]

Mr. Des Browne: From 6 April 2006 stakeholder pensions will, like all other registered pension schemes, enjoy the tax reliefs and advantages set out in Part 4 of the Finance Act 2004. This new regime, which has been widely welcomed, will help introduce greater choice, flexibility, transparency, clarity and cost-efficiency.

The Chancellor keeps all tax matters under review as part of the normal Budget process.

Private/Public Sector Employment (Coventry)

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer how many *(a)* private sector jobs in (i) manufacturing and (ii) the service sector and *(b)* public sector jobs there were in Coventry South in each year since 1997. [44632]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl, dated 25 January 2006:

The National Statistician has been asked to reply to your Parliamentary Questions about private and public sector employment. I am replying her absence. (44632)

The Office for National Statistics (ONS) compiles statistics for the United Kingdom of public sector employment from a quarterly survey of public sector organisations. However, estimates at local area level are not available.

Information at local area level is available from the annual local area Labour Force Survey (LFS) of individual people in households. However, in this source, the categorisation of employment in the public or private sector depends upon the responses from the individuals interviewed. As reported by ONS in October 2005 in the publication "Public Sector Employment Trends", some individuals tend to misreport private sector employment as being in the public sector hence leading to overestimates of the share of public sector employment.

With this reservation about the data quality, the attached table shows the number of persons in private sector employment, by the specified splits and for the public sector, for people resident in the Coventry South constituency as shown by the annual local LFS for the 12 month periods ending February 1998 to February 2004.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. Changes in the estimates from year to year should be treated with particular caution.

Yours sincerely,

Persons in employment resident in the Coventry South constituency by private-public sector split[1]

Thousand

12 months ending February	*Private Sector* *Manufacturing*	*Services*	*Other industries*[2]	*Public Sector*	*Total*
1998	n/a	n/a	n/a	n/a	34
1999	7	18	2	7	33
2000	7	19	2	7	35
2001	7	22	2	12	43
2002	10	23	4	10	47
2003	10	22	3	10	45
2004	10	18	3	10	41

n/a = Not available.

[1] Public/private sector split based on responses from individuals responding to the annual local area Labour Force Survey—generally overestimate public sector employment.

[2] Other industries are Agriculture, Fishing, Energy and Water and Construction.

Note:

Estimates are subject to sampling variability. Changes from year to year should be treated with particular caution.

Annual local area Labour Force Survey.

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer how many tax credit fraud cases have been prosecuted to date; and how many fraudulent claims are involved. [44970]

Dawn Primarolo: For the income tax year 2005–06 (to end December) we have prosecuted 180 cases. As regards the number of fraudulent claims, it is not possible to provide the information in the format requested.

Mr. Laws: To ask the Chancellor of the Exchequer how many prosecuted cases of tax credit fraud relate to *(a)* individuals and *(b)* criminal gangs. [44971]

Dawn Primarolo: The following table provides the breakdown of prosecuted cases for tax credit fraud.

Number

	Individuals	*Organised crime (Gangs)*
2000–01	2	—
2001–02	28	—
2002–03	35	—
2003–04	59	—
2004–05	211	—
2005–06[1]	190	3

[1] To end of December

Dr. Kumar: To ask the Chancellor of the Exchequer what estimate he has made of the proportion of households who are eligible for tax credits who are not claiming them. [45107]

Dawn Primarolo: I refer my hon. Friend to my reply to the hon. Member for Tatton (Mr. Osborne) on 19 July 2005, *Official Report*, column 1700W.

Rosie Cooper: To ask the Chancellor of the Exchequer how many claimants have made incorrect claims for *(a)* working tax credits and *(b)* child tax credits in West Lancashire constituency area since these tax credits were introduced. [45124]

Dawn Primarolo: I refer my hon. Friend to the answer given to the hon. Member for Kettering (Mr. Hollobone) on 31 October 2005, *Official Report*, column 735W.

Mr. Hands: To ask the Chancellor of the Exchequer how many cases of forged tax credits resulting in prosecution have been reported to Jobcentre Plus in Hammersmith and Fulham in the last 12 months. [45270]

Dawn Primarolo: None.

Mr. Hands: To ask the Chancellor of the Exchequer how many cases of forged tax credits there were in Hammersmith and Fulham in each of the five years before the Jobcentre Plus scheme was launched; and how many there were in the last year for which figures are available. [45271]

Dawn Primarolo: It is not possible to provide the information in the format requested.

Mr. Davidson: To ask the Chancellor of the Exchequer what criteria an individual from another EU country residing in the UK must meet to be entitled to *(a)* working tax credit and *(b)* child tax credit. [45327]

Dawn Primarolo: Nationals of other EEA member states who reside in the UK and claim child and working tax credits must meet the same criteria as other residents of the UK.

Anne Milton: To ask the Chancellor of the Exchequer what criteria he will use to measure the effectiveness of the HM Revenue and Customs recent tax credit advertising campaign. [42400]

Dawn Primarolo: Regular surveys are carried out to assess the effectiveness of tax credits communications, with particular regard to major advertising campaigns, as well as the overall awareness of tax credits and comprehension of key messages.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer (1) how many claimants have reported leaving the United Kingdom in relation to a tax credit claim in each year for which figures are available, broken down by *(a)* type of tax credit and *(b)* region; [43650]

(2) how many claimants have had their tax credit payments altered as a result of reporting leaving the United Kingdom in each year for which figures are available, broken down by *(a)* type of tax credit and *(b)* region. [43652]

Dawn Primarolo: The information requested is not available and could be obtained only at a disproportionate cost.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer how many complaints were received by HM Revenue and Customs in relation to the recovery of tax credit overpayments in each year for which figures are available broken down by *(a)* tax credit and *(b)* region. [43661]

Dawn Primarolo: Information on complaints about the recovery of tax credits received in HM Revenue and Customs is not available.

For information about the number of disputed tax credit overpayments received in HM Revenue and Customs, I refer the hon. Member to the answer I gave my right hon. friend the Member for Birkenhead (Mr. Field) and the hon. Member for Yeovil (Mr. Laws) on 12 December 2005, *Official Report*, columns 1791–92W. The number of disputed tax credit overpayments received in the month of November was around 32,500.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer (1) how much has been paid in additional payments to tax credit claimants on account of hardship after reporting excess in-year payments in each year for which figures are available, broken down by *(a)* type of tax credit and *(b)* region; [43696]

(2) how many tax credit claimants who reported excess in-year payments *(a)* received additional payments on account of hardship and *(b)* had their tax credits withdrawn in each year for which figures are available, broken down by (i) type of tax credit and (ii) region . [43697]

Dawn Primarolo: I refer the hon. Member to the answer I gave my hon. Friend the Member for Bishop Auckland (Helen Goodman) on 8 December 2005, *Official Report*, columns 1455–56W. The number of claims for which payments had been adjusted in 2005–06, up to 31 December 2005, is around 3,200. All of the information cannot be broken down in the format requested.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer (1) how many tax credit claimants have reported a fall in their child care costs of more than £10 a week in each year for which figures are available, broken down by *(a)* type of tax credit and *(b)* region; [43701]

(2) how many claimants have had their tax credit payments *(a)* increased and *(b)* decreased as a result of reporting a fall in their child care costs of more than £10 a week in each year for which figures are available, broken down by (i) type of tax credit and (ii) region. [43710]

Dawn Primarolo: The information requested is not available and could be obtained only at a disproportionate cost.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer (1) how much in tax credits has been found to have been overpaid as a result of annual tax credit reviews in each year for which figures are available, broken down by *(a)* type of tax credit and *(b)* region; [43730]

(2) how many claimants have been discovered during their annual tax credit review to have had tax credits overpaid to them in each year for which figures are available, broken down by *(a)* type of tax credit and *(b)* region; and in how many of these cases payments were (i) withdrawn and (ii) reduced. [43732]

Dawn Primarolo: Estimates for 2003–04 of the numbers of in-work families with tax credits awards, including information on overpayments and underpayments by constituency, based on final family circumstances and incomes for 2003–04 are published in "Child and Working Tax Credits. Finalised Awards. 2003–04 Geographical Analysis." This publication and provisional estimates for the number of in-work families by constituency with tax credit awards as at selected dates in 2004–05 are available on the HMRC website at: http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm. Estimates of numbers and values of overpayments or underpayments for 2004–05 awards at 5 April 2005 will not be available until after family circumstances and incomes for 2004–05 have been finalised. Information concerning withdrawn and reduced payments is not available.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer (1) by how much on average claimants have had their tax credits reduced as a result of it having been discovered in connection with their annual tax credit review that they had tax credits overpaid to them in each year for which figures are available, broken down by *(a)* type of tax credit and *(b)* region; [43731]

(2) how much in total has been withdrawn from claimants who have had their tax credits withdrawn entirely as a result of it having been discovered in connection with their annual tax credit review that they had tax credits overpaid to them in each year for which figures are available, broken down by *(a)* type of tax credit and *(b)* region. [43734]

Dawn Primarolo: The information requested is not available.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer how many claimants appealed *(a)* successfully and *(b)* unsuccessfully through the HM Revenue and Customs complaints procedure against a decision to change the amount of tax credits paid to them in each year for which figures are available, broken down by (i) type of tax credit and (ii) region. [43754]

Dawn Primarolo: The information is not available in the requested format.

For details of the number of appeals about tax credits received in HM Revenue and Customs from June 2005 until 31 October 2005, I refer the hon. Member to the answer I gave the hon. Member for Yeovil (Mr. Laws) and the right hon. Member for Birkenhead (Mr. Field) on 12 December 2005, columns 1791–92W.

In November 2005 HMRC received around 1,195 tax credits appeals. The figures for December 2005 are not yet available.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer what the maximum household income was below which *(a)* families and *(b)* individuals were eligible for each tax credit in each year for which figures are available. [43759]

Dawn Primarolo: Most families with children are entitled to tax credits with incomes of up to £58,000, or up to £66,000 if at least one child is under the age of one. This could be higher if there are a large number of eligible children or the family has two or more children and maximum eligible childcare costs.

For families without children, receiving the basic and 30-hour element of WTC only, the maximum income at which they could receive tax credits, since the introduction of working tax credit is given in the following table:

£

	Singles	*Couples*
2003–04	10,700	14,800
2004–05	10,900	15,100
2005–06	11,300	15,600

Mr. Paul Goodman: To ask the Chancellor of the Exchequer what percentage of eligible *(a)* lone parent households and *(b)* non-lone parent households (i) received and (ii) claimed tax credits for each year for which figures are available. [43765]

Dawn Primarolo: Estimates relating to working families' tax credit are available on the HMRC website at http://www.hmrc.gov.uk/stats/wftc/takeup_rates.htm. Analysis relating to 2003–04 is ongoing and we expect this work to be completed towards the end of 2005–06.

Valuation Office Agency

Mrs. Spelman: To ask the Chancellor of the Exchequer what the total cost was of the digital mapping software and hardware purchased by the Valuation Office Agency from the company Tenet. [42839]

Dawn Primarolo: Since Tenet were awarded the contract in May 1999 to provide Digital Mapping Application Software to the Valuation Office Agency the total paid to Tenet for the software and user licences is £706,668 excluding VAT. Tenet has not provided any hardware to the agency to date. This tool is used across the agency's business.

VAT Fraud

Mr. Gauke: To ask the Chancellor of the Exchequer what estimate he has made of the cost to the Government in 2004–05 of Missing Trader Intra Community (Carousel) VAT fraud; and what estimate he has made of the cost in 2005–06. [45244]

Dawn Primarolo: HMRC's latest estimates of MTIC fraud were published as part of the PBR 2005 documentation. http://www.hmrc.gov.uk/pbr2005/mitl 2005.pdf. These cover all forms of MTIC fraud, not just the carousel variant. Because of the difficulty of obtaining accurate estimates of the scale of fraud, the figures are presented as a range.

HMRC do not produce forecasts of MTIC fraud, so an estimate for 2005–06 is not available.

WORK AND PENSIONS

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions what his estimate is of the number of Child Support Agency cases *(a)* received and *(b)* cleared for each month from January 2004 to October 2005; and if he will make a statement. [21582]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 25 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions what his estimate is of the number of Child Support Agency cases *(a)* received and *(b)* cleared for each month from January 2004 to October 2005; and if he will make a statement.

Such information as is available is presented in the table below:

Potential new-scheme applications received and cleared

2005	*Received*	*Cleared*
January	22,000	16,000
February	25,000	19,000
March	25,000	24,000
April	25,000	24,000
May	25,000	27,000
June	25,000	26,000
July	25,000	25,000
August	23,000	22,000
September	24,000	28,000

Notes to the table:

1. Volumes are rounded to the nearest thousand.
2. A potential application is defined as cleared if the case is closed, a maintenance calculation has been carried out and a payment arrangement between the parent with care (PWC) and the non-resident parent is in place, the PWC is identified as claiming Good Cause, the PWC is subject to a Reduced Benefit Decision or the application is identified as being a change of circumstances on an existing case as opposed to a new application.

I hope you find this response helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many complaints have been made to the Child Support Agency in each month since January 2003; and if he will make a statement. [21961]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 25 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions how many complaints have been made to the Child Support Agency in each month since January 2003.

The volumes of complaints received direct from clients, their representatives and MPs to the Child Support Agency or to our Ministers over the requested period are in the attached table.

During 2003–04 a three-tier complaints process was introduced. Stage 1 complaints are dealt with by the complaints resolution team located within each of the Agency's six business units. Stage 2 complaints are an escalation to the relevant Area Director when the client is not satisfied with the outcome of stage 1; and stage 3 is an escalation to the Chief Executive if the client remains dissatisfied. At each level of the complaints process, clients are advised as to how they can escalate their complaint should they remain dissatisfied with the reply they receive.

In a letter sent to you by Mike Isaac in July 2005, the number of complaints received by the Agency incorrectly included those which had been escalated through stages 2 and 3 as a separate component of the total number of complaints received by the Agency, when in actual fact they are escalations of stage 1 complaints, of which they are a subset. This error has been rectified in this response. I apologise for any inconvenience this might have caused. We will, in the future, not include these figures as intake.

As you can see, the volume of complaints received by the Agency has broadly stabilised. In the twelve months up to November 2005, the Agency received a total of 54,000 complaints, this compares to 55,000 for the 12 months up to May 2005 (the earliest period for which comparable data for total numbers of complaints received is available).

To put the attached figures into context, the 54,000 complaints received by the Agency in the 12 months to November 2005 represents less than 4% of the 1.4 million cases currently dealt with by the CSA.

I hope you find this helpful.

Number of complaints received by the child support agency in each month since January 2003

	January 2003	*February 2003*	*March 2003*	*April 2003*	*May 2003*

[1] During 2003–04 complaints sent directly to the chief executive were not recorded separately from those complaints, which were escalated to him as part of the three-stage process. Therefore, although 7,183 complaints in total were received during 2003–04, it is not possible to separate out those complaints received by the chief executive directly (as opposed to those escalated via the complaints process), thus preventing meaningful comparison with data for other years.

[2] Complaints to chief executive include complaints direct from customers and MP's. In April and May of 2004, the chief executive received a total of 1,435 complaints directly however they were not recorded separately from those received as part of the three stage process.

Notes:

1. Treat-official letters are those received by a Minister from a member of the public, and referred to the CSA on behalf of the Minister.
2. These figures do not include complaints received by the Independent Case Examiner as these were not made to the Child Support Agency, (your PQ9328 refers).

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions how many complaints the Child Support Agency has received from members of the public in relation to the computer systems used by the Agency since their introduction. [30034]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 25 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions how many complaints the Child Support Agency has received from members of the public in relation to the computer systems used by the Agency since their introduction.

It is difficult to absolutely categorise every complaint as there is often a mix of elements that cause problems and delays. A complaint may cover a number of different issues.

I can report that between August 2004 and September 2005 approximately 11,000 complaints were received in relation to cases affected by issues relating to the Agency's computer systems.

I regret that equivalent information was not recorded prior to August 2004. I must point out that the figures I have quoted include all complaints received and not just those that are received directly from clients. A complaint may be received on behalf of a client or by a representative, for example an MP, and the figures relating to the types of complaint for such cases cannot be broken down separately.

The numbers presented in this response are rounded to the nearest thousand.

I hope you find this information useful.

Mr. Laws: To ask the Secretary of State for Work and Pensions pursuant to the answer of 24 November 2005, *Official Report*, column 2249W, on the Child Support Agency, for what reasons the Child Support Agency does not send a Deduction of Earnings Order to employers in all cases where an employed non-resident parent is not making regular payments. [37943]

Mr. Plaskitt: Deduction from Earnings Orders (DEOs) are a discretionary decision which means the Agency considers each case on merit and seeks to apply them if a non-resident parent (NRP) is employed but not compliant with maintenance payments. A DEO may not be appropriate for a limited number of reasons including, where the NRP's jobs are likely to be short term or if an NRP is employed outside of the UK.

Mr. Laws: To ask the Secretary of State for Work and Pensions what proportion of calls to the Child Support Agency helpline were *(a)* answered, *(b)* received, *(c)* engaged and *(d)* hung up on in each month from June to November; and if he will make a statement. [38207]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 25 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions what proportion of calls to the Child Support Agency helpline have been *(a)* answered *(b)* received *(c)* engaged and *(d)* hung up on in each month from June to November; and if he will make a statement.

The information requested is contained in the attached table.

With regard to the first part of the question, the proportion of calls answered has been presented in two ways. Some calls are either ineffective (due to a network failure, for example) or are abandoned or lost during the Interactive Voice Response (IVR) part of the process before they have joined a queue to be answered by staff (for example if a client does not have their National Insurance number to hand and hangs up to go and find it before calling back). Therefore this figure has also been presented as a proportion of the total calls that are available for Agency staff to answer.

I hope you find this helpful.

	2005					
	June	*July*	*August*	*September*	*October*	*November*
Attempted customer calls to both CS2 and CSCS numbers	463,000	418,000	440,000	500,000	480,000	454,000
Calls for which outcome not recorded	7,000	5,000	4,000	4,000	4,000	2,000
Calls for which outcome recorded	456,000	413,000	436,000	496,000	476,000	452,000
Of which:						
Percentage calls that received an engaged/busy tone	1	—	—	1	5	—
Percentage calls otherwise ineffective	3	2	2	3	3	2
Percentage calls abandoned/lost during the IVR process	4	5	5	5	6	7
Percentage calls abandoned in the queue (post IVR)	10	8	9	11	8	6
Percentage calls answered	82	86	83	79	77	85
Total	100	100	100	100	100	100
Percentage calls answered that were available to staff to answer (post IVR)	89	92	90	88	90	93

Notes:
1. Data is presented for calls made regarding cases on the new system (CS2) and the old system (CSCS) combined.
2. "—" indicates a figure less than 0.5 per cent.
3. Total calls attempted exclude calls attempted outside working hours.
4. 'Calls for which outcome not recorded' are those which were received but for which, due to problems with the MI system, the eventual outcome was not recorded. Some of these calls would have been answered, and others would have been abandoned. The volume of such calls has decreased significantly in the last 3 years as management information systems have improved.
5. 'Calls for which outcome recorded' are those which were received and for which there is management information to track the eventual outcome.
6. Other ineffective calls are those that resulted in a ring tone but no reply, fail due to network technical problems, or are answered by a BT message but do not connect to the CSA system.
7. IVR denotes the automated touch tone part of the process where customers enter their details via the telephone key pad. Once callers have cleared this part of the process, they enter a queue to be answered by a member of CSA staff. There is no IVR process on the old system.
8. The percentage of calls abandoned in the queue refers to the percentage of total calls received, for which the outcome is recorded, that were abandoned once in a queue to be answered by staff.
9. The percentage of calls answered that were available to staff to answer refers to calls answered as a proportion of those that were connected to the queue for an agent (post IVR where appropriate).
10. Numbers are rounded to the nearest thousand, and percentages to the nearest 1 per cent. Components may not sum to totals due to rounding.

Miss McIntosh: To ask the Secretary of State for Work and Pensions what the average length of time taken by the Child Support Agency is to update maintenance payments by absent parents where the income of the absent parent has changed. [41895]

Mr. Plaskitt: The information requested is not available.

Community Programme for Employment and Social Solidarity

Mr. Hayes: To ask the Secretary of State for Work and Pensions if he will make a statement on his Department's position on the Community Programme for Employment and Social Solidarity (PROGRESS); what *(a)* gender mainstream programmes, *(b)* diversity packages and *(c)* social inclusion projects are planned under the programme; what publicity work will accompany the programme; and if he will make a statement. [23012]

Mr. Plaskitt: The UK, along with other member states, supports the need for this successor EU-level spending programme for the period 2007–13, which will provide financial support for the implementation of the Community's objectives for employment and social affairs and the achievement of the Lisbon goals. It will replace existing programmes to promote measures to combat direct or indirect discrimination based on racial or ethnic origin, religion or belief, disability, age or sexual orientation; promote gender equality; support analysis, research and cooperation between member states in employment and labour market matters; and encourage cooperation between member states to combat social exclusion. The new programme does not propose a range of specific projects, but rather provides a framework to support EU-level actions under the areas covered, such as developing statistical tools, sharing of best practice, awareness-raising campaigns and support for organisations operating in the relevant fields. This includes action in the three areas the hon. Member mentions where, for example, we would expect support to continue for the common legislative framework on gender equality, which provides a level playing field for the single European market in goods and services. But legislation is only part of the story—practice has to change and PROGRESS will enable good practice to be developed and shared between member states. Similarly, PROGRESS is likely to maintain support for a range of intermediary groups from across the UK to increase knowledge and understanding by employers and individuals of new anti-discrimination law. It should also support a range of research projects, such as those looking at the provision of services for ethnic minority elders; the particular barriers faced by the most deprived children and families in gaining access to welfare provisions; and ways of improving links between local and central government in the field of social exclusion. Once agreed, the new unified programme will be publicised via the usual Commission and other European institute and news routes, including web and press, and through the existing management structures for those working under the current programmes.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions what studies his Department has carried out into the possibility of transferring child maintenance responsibilities to Her Majesty's Revenue and Customs; and if he will make a statement. [21439]

Mr. Plaskitt: The Department's policies and how they are delivered, including those of the Child Support Agency, are always kept under review.

Jobseeker's Allowance

Mr. Hands: To ask the Secretary of State for Work and Pensions how many people in the borough of Hammersmith and Fulham are in receipt of jobseeker's allowance. [45264]

Mr. Plaskitt: As at December 2005, there were 3,840 people in receipt of jobseeker's allowance in the London borough of Hammersmith and Fulham.

Pensions (Deemed Buy-back)

Mr. Waterson: To ask the Secretary of State for Work and Pensions what total *(a)* gross and *(b)* net amounts his Department has budgeted for in each of the next three years in respect of Deemed Buy-Backs of pensions. [43899]

Dawn Primarolo: I have been asked to reply

The information requested is not available. This is because a person may find himself or herself in a pension scheme that winds up in an underfunded position at any

time during their working life. If they opt for Deemed Buy-Back they will only benefit from any State Additional Pension rights secured when they become entitled to their State Retirement Pension. This could be many years into the future. No funds are, nor can be, set aside arising from Deemed Buy-Back.

Written Answers to Questions

Thursday 26 January 2006

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Harper: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the proportion of the gross national product of Afghanistan which was generated by the production of drugs in each of the last four years. [46085]

Dr. Howells: We have made no such assessment.

The United Nations Office on Drugs and Crime (UNODC), however, has estimated the value of opium production at farm-gate level as follows:

	Production (metric tonnes)	*Farm-gate value (US$ billion)*
2002	3,400	1.2
2003	3,600	1.02
2004	4,200	0.6
2005	4,100	0.56

Since 2003, UNODC have assessed the value of opiate exports from Afghanistan as a percentage of licit gross domestic product as follows:

	Total export value of opiates (US$ billion)	*Percentage of licit GDP*
2003	2.3	50
2004	2.8	61
2005	2.7	52

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to ensure a reduction in production of opium and its derivatives in Afghanistan. [44141]

Ian Pearson: As G8 lead nation on counter narcotics in Afghanistan, the UK and the international community are supporting the Government of Afghanistan (GoA) to deliver their National Drug Control Strategy and to bring about a sustainable reduction in the cultivation, production and trafficking of opium. To that end, the UK spent £24,442,350 on counter narcotics activity in Afghanistan in 2004–05. This included the running of seven training courses on intelligence and investigation techniques for the Afghan Counter Narcotics Police, support for interdiction operations, resulting in major seizures of opiates, the provision of a mobile forensic laboratory and help to establish regional law enforcement offices in seven provincial centres outside Kabul.

Over the next three financial years, the UK is providing more than £270 million. This is a funding increase, agreed by the Domestic and Overseas Policy Cabinet Committee on 21 July 2005, of £115 million. £130 million of the funding will be provided by the Department for International Development, with the rest coming from other Government Departments, including the Foreign and Commonwealth Office, the Ministry of Defence and the Home Office. In this three year period, we will focus on the following three key priorities, which we judge will make the greatest impact: targeting the trafficker and the top end of the drugs trade; strengthening and diversifying legal rural livelihood opportunities; and developing strong and effective counter narcotics institutions.

In November 2005, the UN Office on Drugs and Crime (UNODC) confirmed the poppy cultivation figures for 2004–05 from their annual survey. UNODC reported a 21 per cent. reduction in poppy cultivation from 131,000 hectares (ha) in 2003–04 (production of 4,200 metric tonnes) to 104,000 ha in 2004–05 (4,100 metric tonnes). Good weather and an absence of crop disease were responsible for the increased yield. While there remains a risk that cultivation may increase again this year, our goal is to ensure that the downward trend in cultivation is maintained in the long term. We are working hard with the GoA and other international partners to ensure that it is able to deliver on this goal.

Bosnia

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has had discussions with his Bosnian counterpart in relation to the 7 July bombings. [45349]

Mr. Douglas Alexander: My right hon. Friend the Foreign Secretary discussed the 7 July bombings in general terms with Bosnia and Herzegovina Presidency Member Tihic at the Srebenica commemoration on 11 July 2005. UK authorities are in regular contact with their Bosnian counterparts on counter-terrorism matters.

Burma

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with Daw Aung San Suu Kyi. [45737]

Ian Pearson: None. No one from the international community has had access to Aung San Suu Kyi since 2004, including representatives of the UN and the International Red Cross who have sought to see her.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs how many political prisoners were detained in Burma as of 1 January. [45738]

Ian Pearson: There are no definitive numbers, and the situation changes daily with releases and arrests as well as some tragic recent deaths in jail. We believe that the current estimate of 1,131 made by the Assistance Association for Political Prisoners (Burma) is broadly accurate.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs how many people are held in administrative detention in Burma under the 1975 State Protection Act. [45792]

Ian Pearson: We estimate that at least five prisoners are held under administrative detention under the 1975 State Protection Act, including Daw Aung San Suu Kyi

and U Tin Oo of the National league for Democracy (NLD), and Shan politician U Shwe Ohn, who has been detained since 7 February 2005.

We are also particularly concerned that this law has been used repeatedly to extend the detention of NLD MPs Dr. Than Nyein and Dr. May Win Myint, who are in very poor health. We have raised these cases with the Burmese regime and called for their immediate release.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs how many members of the Burmese parliament-elect are in prison in Burma. [45800]

Ian Pearson: Fourteen.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political and human rights situation in Burma. [45801]

Ian Pearson: We remain deeply concerned about the situation in Burma. Serious abuses of human rights continue, particularly in areas of armed conflict. We regularly raise our concerns with the Burmese authorities. We believe if Burma is to attain the State Peace and Development Council's (SPDC) stated goal of becoming a

'modern, developed and democratic nation',

and promote successful national reconciliation, this will require a more open and inclusive political process than is currently being pursued by the SPDC.

We are particularly concerned that there is an increasing risk of a breakdown of relations between the SPDC and a number of ethnic ceasefire groups, including the Shan, Kachin, and Mon. We believe that the SPDC should take steps to restore confidence with these groups, inter alia through the immediate release of the Shan leaders who received heavy sentences in 2005, and an independent inquiry into the circumstances surrounding the killing by SPDC troops of five Kachin Independence Organisation members and a civilian on 2 January.

China

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of China about the persecution of Christians. [45553]

Ian Pearson: We regularly raise concerns about freedom of religious belief in China, including the persecution of Christians, with the Chinese Government. We did so at the last UK-China Human Rights Dialogue in June 2005. Freedom of religion was a focus of the last EU-China Human Rights Dialogue, which took place under the UK presidency in October 2005. The UK led an EU demarche on the Chinese Government on freedom of religion in Beijing on 29 December 2005. Individual cases of concern, including Christians, were raised at this meeting and at the Dialogues. We will continue to raise our concerns about religious freedom with the Chinese authorities.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will answer the letter dated 28 November 2005 from the right hon. Member for Manchester, Gorton, with regard to Mrs B. Cush, forwarded from the Department for Environment, Food and Rural Affairs. [45408]

Ian Pearson: I replied to my right hon. Friend on 23 January 2006.

Cuba

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the meetings held by his Department with officials from the US to discuss relations with and policy towards Cuba since 1997. [44590]

Ian Pearson *[holding answer 24 January 2006]:* The Foreign and Commonwealth Office regularly holds meetings with US officials that include discussions about relations with and policy towards Cuba. To collate the information would incur disproportionate costs.

We continue to differ with the US in our policy towards Cuba. While the US favours sanctions and isolation, we prefer constructive engagement with the Cuban authorities. We frequently reiterate our differing approach to US officials in meetings with them. On 8 November 2005, we again voted to adopt the resolution of the United Nations General Assembly on the necessity of ending the economic, commercial and financial embargo imposed by the US against Cuba.

Democratic Republic of the Congo

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of prison conditions in the Democratic Republic of the Congo; and what visits to penal establishments have been made by embassy staff. [44580]

Ian Pearson: Prison conditions in the Democratic Republic of the Congo (DRC) remain poor, with frequent cases of overcrowding, malnutrition, ill treatment and disease. Years of conflict, exacerbated by the collapse of the state and chronic poverty, have resulted in abuses of humanitarian standards and insufficient government funds to maintain prisons. We have repeatedly called on the DRC authorities to respect international humanitarian law and Human Rights Conventions. We continue to register our concerns over human rights with the DRC Government in bilateral and multilateral political discussions.

Staff from the embassy and the Department for International Development in Kinshasa have made regular visits to prisons in different cities across the DRC over the last 12 months. They liaise regularly with UN staff monitoring human rights and the rule of law, who have regular access to the majority of the country's prisons.

EU Council Meetings

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* formal and *(b)* informal EU Council Ministers meetings he has attended since 1 July 2005; and if he will list the dates and subjects of the meetings. [44963]

Mr. Douglas Alexander: Since 1 July 2005, my right hon. Friend the Foreign Secretary has attended the following seven formal Council of Ministers meetings:

18–19 July General Affairs and External Relations Council (GAERC), Brussels (first day only);

3 October GAERC, Luxembourg;

18 October GAERC, Luxembourg;

7 November GAERC, Brussels;

21–22 November GAERC, Brussels (first day only);

7 December GAERC, Brussels; and

12–13 December GAERC, Brussels.

In addition, he attended the 15–16 December meeting of Heads of State or Government—the European Council—in Brussels.

He has also attended one informal Council meeting since 1 July: the Foreign Affairs Informal (or 'Gymnich') in Newport on 1–2 September.

Full details of all the above meetings can be found on the UK presidency website available at, www.eu2005.gov.uk.

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the forthcoming business in the Council of the European Union for January; and if he will list the major European Union events for the next six months. [45189]

Mr. Douglas Alexander: The forthcoming business in the Council of the European Union for January is as follows:

Council of Ministers meetings:

30–31 January: General Affairs and External Relations Council

Informal Ministerial meetings:

29 January: Informal meeting of Trade Ministers

During the first six months of 2006, the European Union, under the Austrian presidency, will hold meetings of EU Heads of State or Government ('European Councils') on 23–24 March and 15–16 June, 32 Council of Ministers meetings and 14 informal ministerial meetings. Full details of these and other major European Union events for the next six months can be found on the website of the Austrian presidency, available at www.eu2006.au.

Fiji

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the security situation in Fiji. [45352]

Ian Pearson: Although tensions between the Government and the armed forces have re-surfaced in recent weeks, the situation in Fiji is now calm following talks between the Acting President, the Prime Minister and the Commander of the Republic of Fiji Military Forces.

The Foreign and Commonwealth Office travel advice for Fiji was amended on 13 January. British nationals are advised to exercise caution, to avoid demonstrations and to keep up-to-date with local developments.

Holocaust Memorial Day

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to mark Holocaust Memorial Day. [45550]

Mr. Douglas Alexander: The Holocaust Memorial Day Trust, an independent charity supported by the Home Office, is responsible for Holocaust Memorial Day and organises the annual commemorative event. This year's event will be held in Cardiff on 26 January under the theme "One person can make a difference", hosted by my right hon. Friend for Cardiff West, Rhodri Morgan, AM. The Foreign and Commonwealth Office (FCO) will be represented by officials.

The FCO leads the UK delegation to the Task Force for International Co-operation on Holocaust Education, Remembrance and Research, in which a number of UK community groups participate.

The UK supported the UN General Assembly Resolution of 1 November 2005 designating 27 January as the annual Holocaust Memorial Day.

Illegal Drugs

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the Government spent in *(a)* 2002–03 and *(b)* 2003–04 on the reducing availability strand of its policy to prevent the supply of illegal drugs. [44120]

Dr. Howells: The Government's planned expenditure on reducing the supply of drugs in 2002–03 and 2003–04 is given in its publication "Updated Drugs Strategy 2002". The amounts are £376 million and £380 million respectively.

Iraq

Mr. Tyrie: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK has sought clarification from the US as to whether it will retain military bases in Iraq after the withdrawal of troops. [45041]

Ian Pearson: The issue of future US military bases in Iraq is a matter for the US Government and the Government of Iraq. The UK remains in close touch with the US Government about a range of issues in Iraq, including military planning and basing issues.

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what volume of gas at Iraqi oil production facilities is being lost per day as a result of flaring at the point of production; [45363]

(2) what the dollar average revenue received is by the Iraqi Government per barrel of oil produced. [45364]

Ian Pearson: Iraq sells its oil on the world market and the revenue gained is subject to fluctuations according to the world market price. The dollar average revenue per barrel of oil for 2005 was US$ 46.89. In 2005, Iraqi revenue from oil sales was US$ 23.5 billion. The latest estimate from the Iraq Reconstruction Management Office in Baghdad for the amount of gas flared is 700 million standard cubic feet per day for the south of Iraq and 20 million standard cubic feet per day for the north.

Israel

Mr. Laws: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reasons European Union Foreign Ministers decided not to publish the report by the British Consulate in Jerusalem on Israel's activities in the Occupied Territories; and if he will make a statement. [44763]

Dr. Howells: The EU remains concerned about the situation in East Jerusalem. EU Foreign Ministers discussed this at their meetings on 21 November and on 12 December 2005.

The EU analysis on East Jerusalem was submitted to Ministers by heads of mission in the region as well as by various committees in Brussels. A draft version of the report was leaked to the press.

At their meeting on 12 December 2005 EU Ministers decided, in response to changed circumstances in Israel and the Occupied Territories, including the imminence of elections on both sides, that publishing the report would be counter-productive. East Jerusalem issues remain a high priority for the UK and EU when lobbying the Israeli Government at all levels.

Mark Lazarowicz: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made representations to the Israeli authorities on the operation of a blacklist of persons not allowed to enter the occupied territories. [44907]

Dr. Howells: Where appropriate, we raise individual cases on behalf of British Nationals who are on the Israeli Authorities Government's blacklist.

Ivory Coast

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the situation in the Ivory Coast; and what status the UN mission there has. [45042]

Ian Pearson: The Government remain concerned at the situation in Cote d'Ivoire. We support the mediation efforts of the Africa Union (AU), UN and Economic Community Of West African States. An International Working Group (IWG) has been established by the UN and AU to oversee the peace process and the UK is represented at its monthly meetings.

The outbreak of unrest in Abidjan and elsewhere last week, however, was worrying. Violent demonstrations by supporters of President Gbagbo followed the recommendation by the IWG that the mandate of the National Assembly should not be renewed. This recommendation was in line with UN Security Council Resolution 1633 inviting the IWG to ensure that Ivorian institutions function normally until the holding of elections. We urge all Ivorians to unite in support of efforts to bring a lasting peace to the country.

The mandate of the UN Mission in Cote d'Ivoire remains unchanged: inter alia, to monitor the cessation of hostilities and to support the peace process leading to the organisation of free, fair, open and transparent elections in Cote d'Ivoire.

Myanmar

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the United Nations' special rapporteur on Myanmar. [45741]

Ian Pearson: My right hon. Friend the Foreign Secretary has had no recent meetings with the United Nations special rapporteur, Professor Pinheiro, but Foreign and Commonwealth Office officials met him most recently in Geneva in December 2005.

Russia

Mr. Clappison: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* the treatment of the Hindu community in Russia and *(b)* the effect on the community of the loss of the Hindu Temple in Moscow. [45227]

Mr. Douglas Alexander: The Hindu community, like a number of other religious communities, have faced difficulties freely practising their faith in Russia. These include the inability to establish a permanent place of worship in Moscow since the demolition of the Hindu Temple there in 2004. We raise the issue of religious freedom during regular EU and bilateral contact with the Russian Government. We will continue to monitor this and other religious freedom issues in Russia and raise them as appropriate in the course of our ongoing dialogue.

Rwanda

David T.C. Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations his Department has received in the past 12 months concerning the safety of *(a)* genocide survivors and *(b)* prisoners released under the gacaca system in Rwanda. [44319]

Ian Pearson: We have received no representations in the past 12 months on genocide survivors. Ibuka, the genocide survivors' umbrella organisation, makes regular representations to the Government of Rwanda. The Rwanda National police is tasked with investigating all allegations of crimes against genocide survivors and witnesses involved in genocide related gacaca trials. We have received no representations in the past 12 months on behalf of prisoners released into the community as part of the gacaca process. Fears among the population about the punishments believed to be meted out by gacaca courts led to around 15,000 Rwandans fleeing to neighbouring countries in the past six months. Most of them have now returned.

David T.C. Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the effectiveness of the gacaca prisoner-release system in Rwanda; and if he will make a statement. [44320]

Ian Pearson: I refer the hon. Member to the reply I gave to the hon. Member for Stroud (Mr. Drew) today (UIN 44815).

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the system of justice in Rwanda; how many

perpetrators of the genocide have been brought to justice; and what assessment he has made of the protection available to witnesses. [44815]

Ian Pearson: The Rwandan authorities are pursuing the traditional justice system, gacaca, in order to tackle the enormous number of people, estimated at 750,000, accused of genocide and related crimes. A new gacaca bill, which replaces the current gacaca law, has been forwarded to the Rwandan Parliament for approval. We have not yet seen this. With European partners we are urging the Rwandan Government to ensure that the new gacaca courts do not issue the death penalty, and that international concerns over the variable punishments and the lack of defence counsel are addressed.

So far, over 4,000 people have been judged and sentenced by gacaca courts. The International Criminal Tribunal for Rwanda (ICTR) has tried 26 people. The ICTR has, with the assistance of the Rwandan Government, placed 20 individuals in witness protection in Rwanda. Others have been relocated in third countries.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what help the Government have given towards the reconciliation process in Rwanda. [44816]

Ian Pearson: The UK played a significant role in designing and supporting the implementation of Rwanda's Poverty Reduction Strategy (PRSP), in which reconciliation is a key theme. We contributed technical assistance to help with policy development, institutional development and capacity building. As the major bilateral donor to Rwanda, the UK is providing development assistance worth some £46 million in 2005–06, which is targeted towards delivery of Rwanda's PRSP. In recent years, we have supported specific activities to promote understanding and reconciliation, including an allocation of over £0.9 million for peace education activities, linked to the 10th anniversary of the genocide in 2004.

Terrorist Suspects (Renditions)

Mr. Tyrie: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 12 December 2005, *Official Report*, column 1653W to the right hon. Member for North East Fife (Sir Menzies Campbell), on terrorist suspects (renditions), if he will list the records which were checked by officials in order to provide the answer. [42528]

Dr. Howells: In the Foreign and Commonwealth Office, records were searched under "rendition" and "extradition". In the Home Office, searches were made under "rendition", "extradition" and "IND casework". In the Ministry of Defence, officials looked for relevant information in records relating to US flights using UK military airfields.

Theresa McDermott

Mark Lazarowicz: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will investigate the case of Theresa McDermott, who was detained by the Israeli authorities on her arrival in Israel on 25 December 2005 and thereafter deported. [44895]

Dr. Howells: Our embassy in Tel Aviv investigated the detention of Theresa McDermott on 25 December 2005. Ms McDermott arrived in Israel for a conference on Celebrating Non Violent Resistance in Bethlehem and was refused entry to Israel because she has been on the "black list" since June 2004 due to her participation in a demonstration at Bidu and her alleged connection to the International Solidarity Movement. Ms McDermott appealed the decision but, as the appeal was held after the date of the conference, the appeal therefore became obsolete. She was deported on 2 January 2006.

Ms McDermott has previously tried to enter the Occupied Territories in May 2005 and was refused for the same reasons. In June 2005, Our Deputy Head of Mission wrote to the Ministry of Foreign Affairs on Ms McDermott's behalf, asking for her to be allowed to enter Israel.

Torture

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs to what treaties relating to the use of torture *(a)* the United Kingdom and *(b)* the United States is a signatory. [45301]

Ian Pearson: The principal human rights treaties which prohibit torture to which both the United Kingdom and the United States are parties are the International Covenant on Civil and Political Rights and the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment. The UK is party to the European Convention on Human Rights. The UK has also ratified the Optional Protocol to the UN Convention Against Torture and signed the European Convention for the Prevention of Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, both procedural treaties that establish visiting bodies which monitor states' compliance with their treaty obligations.

UK Citizens (Overseas Detention)

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the names of all United Kingdom citizens who are being held without charge abroad and have been so held for a period of 12 months or more. [45388]

Dr. Howells: We are aware of three British nationals who have been held without charge abroad for a period of 12 months or more. For confidentiality reasons, we are unable to give the names of any British nationals held abroad without their permission.

United States

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent estimate is of the number of individuals who have been subject to international rendition by the United States involving UK territory in each of the last 10 years. [45374]

Dr. Howells: I refer the hon. Member to my right hon. Friend the Foreign Secretary's written ministerial statement of 20 January 2006, *Official Report*, columns 37–38WS.

Western Sahara

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the legality of the EU-Morocco Fishing Agreement in respect of the waters off the coast of the Western Sahara; and if he will make a statement. [44576]

Mr. Douglas Alexander: The negotiation of such EC agreements falls within the responsibility of the European Commission. The Government will of course consider its position on the draft agreement as part of the approval process, and in order to do so is currently awaiting further information from the Commission.

TREASURY

North West Region

11. **Jim Dobbin:** To ask the Chancellor of the Exchequer what assessment he has made of the relationship between the level of skills in the work force and economic growth in the north west region; and if he will make a statement. [45623]

John Healey: Increases in the economy's trend rate of growth are supported by how many people are in work, and how productive they are.

Skills are one of the drivers of productivity and jobs, which is why as a Government, we have more than doubled overall investment in education and skills since 1997.

The NW development agency has led the preparation of the regional economic strategy, which sets out the contribution of skills to regional and local growth in the North West. And this week I met the chair and chief executive of the Skills for Business network, and I know that they and the local Learning and Skills Council are working out with the Rochdale development agency how the skills needs of the new Kingsway Business Park, which is set to bring around 7,000 jobs to my hon. Friend's area, can best be met.

Immunisation

13. **Mrs. Dean:** To ask the Chancellor of the Exchequer what progress he expects to make towards an international finance facility for immunisation at the forthcoming G8 meeting of international Finance Ministers in Russia; and if he will make a statement. [45625]

John Healey: The IFF for Immunisation (IFFIM) was launched in September 2005 with contributions from the UK, France, Italy, Spain and Sweden. Since then, Norway has also announced its participation and we are continuing to urge other countries—including those in the G8—to join.

The IFFIM will provide $4 billion over 10 years to support vaccinations in the world's poorest countries. It is estimated that the frontloaded IFFIM resources will save a total of 10 million lives.

Futurebuilders Fund

14. **Tim Loughton:** To ask the Chancellor of the Exchequer how much has been paid out from the Futurebuilders Fund; and to how many recipients. [45626]

John Healey: The Futurebuilders Fund has committed more than £26 million through 130 grants and investments.

A further 22 offers are currently being negotiated.

Capital Transfer Tax

15. **Mr. Roger Williams:** To ask the Chancellor of the Exchequer what recent discussions he has had with interested parties on capital transfer tax. [45627]

Dawn Primarolo: No Treasury Ministers have had any recent discussions with interested parties on Capital Transfer Tax, which was abolished in 1986.

Women's Finances

16. **Barbara Follett:** To ask the Chancellor of the Exchequer what assessment he has made of the need to encourage women to plan their finances for all of their lives. [45628]

Dawn Primarolo: The Financial Services Authority (FSA) has commissioned a comprehensive baseline survey which will show the level of financial capability within the UK population. The results will be reported in March 2006.

This will enable the FSA to monitor changes in financial capability and assess the effectiveness of measures under the National Strategy for Financial Capability.

Tax Credits

17. **Mr. Dunne:** To ask the Chancellor of the Exchequer what estimate he has made of the cost of changing the tax credits income increase disregard from £2,500 to £25,000. [45629]

Dawn Primarolo: The increase in the disregard from £2,500 to £25,000 from April 2006 is part of a package of measures announced in the 2005 pre-Budget report that is expected to have the following Exchequer effect: -£100 million in 2006–07, +£200 million in 2007–08, +£50 million in 2008–09, -£50 million in 2009–10 and -£150 million in 2010–11.

It is not possible to produce robust estimates of the impact of individual elements of the package of measures, as there are significant interactions between the different components.

Mr. Laws: To ask the Chancellor of the Exchequer (1) which telephone numbers are being given to tax credit claimants who wish to make a complaint; what the average length of time taken is before a caller speaks to an adviser; and how many calls have been *(a)* answered, *(b)* unanswered and *(c)* handled by an adviser in each month since April 2003; [18639]

(2) how many calls were *(a)* made to and *(b)* answered by the tax credits helpline in each month from January to September. [20441]

Dawn Primarolo: A new code of practice which replaces the Inland Revenue code of practice 1 'Putting things right" and Customs and Excise Notice 1000 is

planned and is being formulated. The current code of practice 1 quotes a telephone number 0151 966 1151 for callers to use if they wish to complain about tax credits. This number is no longer in operation and callers who wish to make a complaint are advised, by recorded message, to ring the tax credits helpline.

A table setting out details of average length of time taken before a caller speaks to an adviser; and how may calls have been answered, abandoned and handled by an adviser in each month since July 2005 is shown in the table. For figures relating to April 2004 to June 2005 I refer the hon. Member to the answer I gave on 22 July 2005, *Official Report*, column 721W.

Tax credits calls	*Average waiting time (minutes: seconds)*	*Calls received (thousands)*	*Calls abandoned (thousands)*	*Calls handled (thousands)*
July	0:54	1,989	94	1,896
August	1:18	2,474	184	2,290
September	1:39	2,921	272	2,649
October	0:48	1,668	67	1,601

Mr. Laws: To ask the Chancellor of the Exchequer how many tax credit renewals were not received by the deadline this year; how many termination notices were issued; and how many awards have been terminated; [23571]

Mr. Paul Goodman: To ask the Chancellor of the Exchequer (1) how many people who failed to renew their tax credit applications by the annual deadline in 2005 have ceased receiving payments; [41717]

(2) how many people did not renew their tax credit applications by the annual deadline in 2005. [42123]

Dawn Primarolo: At 30 September 2005 around 700,000 tax credits claimants had not renewed their award.

Around 208,000 awards were terminated and not subsequently reinstated.

Chris Ruane: To ask the Chancellor of the Exchequer how many *(a)* letters and *(b)* contacts through the MPs' hotline his Department has received from each hon. Member on the issue of tax credits, listed in descending order according to the total number of such representations received. [39302]

Dawn Primarolo: Information on the number of letters about tax credits and calls to the MP hotline for all hon. Members is available only at disproportionate cost. However, between the resumption of Parliament on 10 October 2005 and 30 November 2005: an estimate indicates:

(a) 20 right hon. and hon. Members have sent 10 or more letters to HM Treasury or HM Revenue and Customs about tax credits. Of those, one hon. Member has written 20 or more letters and one has written more than 30 letters about tax credits.

(b) 26 right hon. and hon. Members have called tax credit office's MP hotline on 10 or more occasions. Of those, nine have called 20 or more times and one hon. Member has called 30 or more times.

Bob Spink: To ask the Chancellor of the Exchequer how many tax credit overpayments have been written off *(a)* in part and *(b)* in full in respect of Castle Point residents since tax credits were introduced. [42832]

Dawn Primarolo: This information is not available at constituency level and in the format requested.

Mr. Holloway: To ask the Chancellor of the Exchequer how many families were in receipt of *(a)* less than £1,000, *(b)* between £1,000 and £2,500, *(c)* between £2,500 and £5,000, *(d)* between £5,000 and £10,000, *(e)* between £10,000 and £20,000 and *(f)* above £20,000 of working tax credit and child tax credit in (i) the UK and (ii) Gravesham constituency in each of the last three years. [43268]

Dawn Primarolo: The following table shows the average number of in-work families in the UK during 2003–04 by level of annualised finalised tax credit entitlement.

2003–04 Entitlement[1]

	Thousands Number of awards
Under £1,000[2]	2,092
Between £1,000 and £2,500	579
Between £2,500 and £5,000	676
Between £5,000 and £10,000	931
Between £10,000 and £20,000	58
£20,000 and over[3]	
All	4,336

[1] Annualised 2003–04 entitlement based on circumstances throughout the year and finalised 2003–04 incomes.
[2] Excluding families with awards tapered to zero.
[3] Sample size too small to provide a reliable estimate.

The following table shows the average number of in-work families in the Gravesham constituency in 2003–04 by level of annualised finalised tax credit entitlement.

2003–04 Entitlement[1]

	Thousands Number of awards
Under £1,000[2]	4.0
Between £1,000 and £2,500	0.8
Between £2,500 and £5,000	0.8
Between £5,000 and £10,000	1.2
Between £10,000 and £20,000[3]	
20,000 and over[3]	
All	7.0

[1] Annualised 2003–04 entitlement based on circumstances throughout the year and finalised 2003–04 incomes.
[2] Excluding families with awards tapered to zero.
[3] Sample size too small to provide a reliable estimate.

Figures for later years are not yet available.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer (1) how many claimants have reported a change in the number of people in their household in relation to a tax credit claim in each year for which figures are available, broken down by *(a)* type of tax credit and *(b)* region; [43648]

(2) how many claimants have had their tax credit payments *(a)* increased and *(b)* decreased as a result of reporting a change in the number of people in their household in each year for which figures are available, broken down by (i) type of tax credit, (ii) region and (iii) average amount. [43649]

Dawn Primarolo: I refer the hon. Member to my reply to the hon. Member for Yeovil (Mr. Laws) on 21 November 2005, *Official Report*, column 1578W.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer (1) how many tax credit claimants have reported changes in their income *(a)* within and *(b)* after three months of those changes taking effect other than changes caused by (i) a change in the number of adults in the household, (ii) leaving the UK and (iii) a fall in the claimant's childcare costs by more than £10 a week in each year for which figures are available, broken down by (A) type of tax credit and (B) region; how many of these claimants have had their tax credit payment (1) increased and (2) decreased; and by how much in each case; [43698]

(2) how many tax credit claimants have *(a)* reported and *(b)* reported after three months of the changes taking place changes in their income caused by (i) a change in their number of adults in the household within which the claimant lives, (ii) the claimant leaving the UK and (iii) a fall in the claimant's child care costs by more than £10 a week after three months of those changes taking effect in each year for which figures are available; and whether he will break these figures down by type of tax credit and by region. [43699]

Dawn Primarolo: The information requested in the first question and part *(b)* of the second question is not available. Only annual income is required for tax credit purposes. When income change is notified within the year, records are updated with new income levels and entitlement is reassessed if necessary.

In answer to the second question, for parts *(a)* and *(b)*, where (i) and (ii) occur, the award would cease but this would not prompt a change in income. In the case of (iii) where there is a fall in child care costs, income would not be affected.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer (1) how much has been waived in relation to overpayments of tax credit claimants as a consequence of official error having been admitted in each year for which figures are available, broken down by *(a)* type of tax credit and *(b)* region; [43714]

(2) in how many cases of tax credit overpayment *(a)* identified and *(b)* not identified at an annual review as a consequence of official error being admitted was overpayment (i) partially recovered and (ii) not recovered in each year for which figures are available, broken down by (A) type of tax credit and (B) region; [43718]

(3) in how many tax credit cases where it has been found *(a)* in connection with an annual review and *(b)* not in connection with an annual review that tax credits had been overpaid official error has been admitted in each year for which figures are available, broken down by (i) type of tax credit and (ii) region. [43729]

Dawn Primarolo: For the total amount of overpayments written off as a result of official error I refer the hon. Member to the answer I gave the hon. Member for Yeovil (Mr. Laws) on 15 November 2005, *Official Report*, column 1214W.

The amounts written off in October 2005 and November 2005 are around £11,000,000 and £4,000,000 respectively.

It is not possible to break these amounts down between child tax credit and working tax credit or between regions.

There is no information available about the number of overpayments partially written off. However, HMRC wrote off around 10,300 disputed overpayments in 2004–05 and around 153,000 between 4 April 2005 and 30 November 2005.

HMRC's Code of Practice 26 'What happens if we have paid you too much Tax Credit?' explains how HMRC deals with overpayments made as a result of their error.

Mr. Paul Goodman: To ask the Chancellor of the Exchequer how many telephone calls have been *(a)* made and *(b)* answered in relation to tax credit claims in each region in each year for which figures are available. [43735]

Dawn Primarolo: I refer the hon. Gentleman to the answer I gave the hon. Member for Cardiff, Central (Jenny Willott) on 17 January 2006, *Official Report*, column 1209W

Mr. Paul Goodman: To ask the Chancellor of the Exchequer how much money he estimates has been lost due to *(a)* fraud and *(b)* error in each tax credit (i) in total and (ii) through online claims in each year for which figures are available. [43760]

Dawn Primarolo: HMRC are currently undertaking a programme of work on finalised 2003–04 awards—the first year of working tax credit and child tax credit—to provide more information on the level of claimant error and fraud. This is due to be completed in spring 2006.

HMRC use a number of sophisticated tools to help detect fraudulent claims made for tax credits. Whenever possible this is aimed at stopping fraudulent claims from being paid but they also monitor payments to detect known traits of organised fraud. I refer the hon. Member to the statements I made to the House about organised fraud on 18 January 2006, *Official Report*, columns 1357–8W and 23 January 2006, *Official Report*, column 41WS.

Lady Hermon: To ask the Chancellor of the Exchequer whether the online system for claiming tax credits has been suspended in Northern Ireland; and if he will make a statement. [44585]

Dawn Primarolo *[holding answer 20 January 2006]:* I refer the hon. Member to the statement I made to the House on 5 December 2005, *Official Report*, column 55WS.

Rosie Cooper: To ask the Chancellor of the Exchequer how much has been overpaid to tax credit recipients in West Lancashire constituency; and how many tax credit recipients received overpayments in each year since tax credits were introduced. [45121]

Dawn Primarolo: I refer my hon. Friend to the answer given to the hon. Member for Mid-Bedfordshire (Mrs. Dorries) on 10 October 2005, *Official Report*, column 321W.

Mr. Ruffley: To ask the Chancellor of the Exchequer how many staff within HM Revenue and Customs have been tasked with investigating *(a)* tax credit fraud and *(b)* other criminal activity by organised gangs in each of the last three years, broken down by grade; and if he will make a statement. [45223]

Dawn Primarolo: To disclose details of the location and numbers of staff engaged in tackling serious and organised criminality would prejudice the prevention or detection of crime.

Mr. Davidson: To ask the Chancellor of the Exchequer (1) how many claims for working tax credit have been made by workers from the accession countries since May 2004; how many of these claims have been discovered to be fraudulent; what estimate he has made of the cost of such fraudulent claims; and if he will make a statement; [45325]

(2) how much has been paid to workers from the accession countries in *(a)* working tax credit and *(b)* child tax credit since May 2004; [45326]

(3) how many incidents of alleged fraudulent claims by individuals from other EU member states for *(a)* working tax credit and *(b)* child tax credit have been reported to HM Revenue and Customs in (i) England, (ii) Scotland, (iii) Wales and (iv) Northern Ireland; and how many of these reports have resulted in the payment of tax credits being stopped; [45329]

(4) what estimate he has made of *(a)* the number of fraudulent tax credit claims being made by individuals from other EU member states and *(b)* the cost of such claims. [45331]

Dawn Primarolo: The information requested is not available.

All claims for tax credits are checked thoroughly and any allegations of fraud investigated fully. When we find fraud we act quickly to shut it down and we can and do prosecute.

Public Finances (Forecasts)

19. **Mr. Hunt:** To ask the Chancellor of the Exchequer what measures he is taking to improve the reliability of public finances forecasts. [45631]

21. **Mr. Walker:** To ask the Chancellor of the Exchequer what assessment he has made of the reliability of public finances forecasts. [45633]

Mr. Des Browne: I refer the hon. Gentlemen to the answer I gave on the Floor of the House earlier today to the hon. Member for Rochford and Southend, East (James Duddridge), *Official Report*, column 1508.

House Prices

20. **Dr. Palmer:** To ask the Chancellor of the Exchequer if he will make a statement on trends in house prices and their impact on the economy. [45632]

John Healey: House prices have been stable for the past year, with prices over 2005 rising by around 3 per cent. The outlook for the near future is for further subdued growth. Stable house prices contribute to a less volatile economy, which has in turn enabled the UK economy to take full advantage of robust global economic growth, with steady domestic growth, low unemployment and low inflation.

Pension Contributions (Tax Relief)

22. **Rob Marris:** To ask the Chancellor of the Exchequer how much tax was foregone in *(a)* 2003–04 and *(b)* 2004–05 in relation to tax relief on pension contributions. [45634]

Dawn Primarolo: Tax relief on contributions to approved pensions schemes is estimated at £16.3 billion in 2003–04, and £18.0 billion in 2004–05.

Manufacturing Industry

23. **Mr. Kidney:** To ask the Chancellor of the Exchequer what assessment he has made of the prospects for the performance of UK manufacturing in 2006. [45635]

John Healey: The Government's latest assessment of prospects for the manufacturing sector was set out in the 2005 pre-Budget report. As set out in table A9 of this report, manufacturing output is forecast to pick up to between 1 and 1.25 per cent. in 2006.

Development Aid

24. **Mrs. Cryer:** To ask the Chancellor of the Exchequer what assessment he has made of the prospects for progress on development aid under Russia's presidency of the G8; and if he will make a statement. [45636]

John Healey: In 2005 the G8 made commitments on aid, debt relief and the promise of treatment for all AIDS sufferers by 2010. The UK's priority for 2006 is to ensure the international community delivers on these promises, including making progress on agreed targets for international aid.

EU Budget (Rebate)

25. **Sir Nicholas Winterton:** To ask the Chancellor of the Exchequer if he will make a statement on the future value of the UK rebate within the EU budget. [45637]

John Healey: I refer the hon. Member to the Prime Minister's statement to the House on 19 December and to the reply given by the Chancellor of the Exchequer to my right hon. Friend the Member for West Dunbartonshire (Mr. McFall) on 20 December 2005, *Official Report*, column 2796W.

Children's Trust Funds

Mr. Wallace: To ask the Chancellor of the Exchequer what the take-up of children's trust funds has been among low-income families. [45961]

Dawn Primarolo: Child trust fund statistics are produced quarterly. The latest set were published on 30 November 2005 at:

http://www.hmrc.gov.uk/stats/child_trust_funds/child-trust-funds.htm

A statistical and distributional analysis of the child trust fund will be published in 2007.

Construction Industry (Taxation)

James Duddridge: To ask the Chancellor of the Exchequer what assessment HM Revenue and Customs has made of the relative influence of the taxation system and the practice of individual contractors as causes of miscategorisation of construction workers as self-employed individuals. [45485]

John Healey: It is a general requirement that businesses correctly determine the employment status of individual workers by reference to the terms and conditions of the contract under which they are engaged.

The Construction Industry Scheme (CIS) requires that subcontractors working within the industry register with HM Revenue and Customs. Some contractors in the construction industry operate under a misconception that holders of CIS registration cards or tax certificates, which are issued to show whether the holder should be paid gross or under deduction, are accepted as self-employed by HMRC. This is not the case and HMRC have worked with the industry to dispel this misunderstanding.

The new construction industry scheme to be introduced in April 2007 will dispense with cards and certificates and remove this source of misunderstanding. It will also require contractors to consider properly the precise terms of engagement of each subcontractor so as to ensure that the right taxation consequences follow.

James Duddridge: To ask the Chancellor of the Exchequer what the rate of compliance for payments of deductions to HM Revenue and Customs under the Construction Industry Scheme was in each year since it was introduced. [45486]

John Healey: Deductions from payments made to subcontractors under the Construction Industry Scheme are paid by contractors to HM Revenue and Customs monthly along with any PAYE and NICs due in respect of the contractor's employees. It is not possible to separate out the CIS element of those payments.

James Duddridge: To ask the Chancellor of the Exchequer how many contractors had their gross payment status revoked for the tax year *(a)* 2002–03 and *(b)* 2005–06. [45487]

John Healey: No record is kept of the number of sub-contractors who lose their entitlement to gross payment status.

James Duddridge: To ask the Chancellor of the Exchequer if he will make a statement on the reform of the Construction Industry Scheme. [45488]

John Healey: I refer the hon. Member to the answer I gave to the hon. Member for Twickenham (Dr. Cable) on 19 October 2005, *Official Report*, column 1106W.

Correspondence

Sir Gerald Kaufman: To ask the Chancellor of the Exchequer when he will answer the letter to him dated 10 November 2005 from the right hon. Member for Manchester, Gorton, with regard to Ms Ruckshah Choudhury. [45409]

Dawn Primarolo: I have already done so.

Departmental Staff

Mr. Spellar: To ask the Chancellor of the Exchequer how many civil servants in his Department worked from home for at least one day a week in the last year for which figures are available. [40282]

John Healey: The Treasury actively promotes flexible working arrangements. A central record is not maintained of staff working from home.

Departmental Vehicles

Mrs. Villiers: To ask the Chancellor of the Exchequer how many cars are *(a)* owned and *(b)* leased by his Department; what models the cars are; what type of petrol each model requires; and what the fuel efficiency is of each model. [41348]

John Healey: The Treasury does not own any cars. The GCS provides six cars to the Treasury's Ministers and the permanent secretary. For vehicles provided to Government Departments by the Government Car and Despatch Agency (GCDA) my hon. Friend the Parliamentary Under-Secretary of State at the Department for Transport has asked the chief executive of the GCDA to write to the hon. Member with the information requested.

EDS

Mr. Laws: To ask the Chancellor of the Exchequer what estimate he has made of the total cost, including legal fees, of reaching the settlement with EDS concerning tax credits. [41989]

Dawn Primarolo: The costs, including legal fees, from the time the claim for compensation became litigious were around £4.5 million.

Mr. Laws: To ask the Chancellor of the Exchequer which legal firms were involved in the settlement with EDS for problems with the tax credit system on which Queen's Counsels opinions were sought; how many hours were charged by lawyers for work in connection with the settlement; and how many face to face meetings took place between *(a)* lawyers and HM Revenue and Customs (HMRC) staff and *(b)* the HMRC's lawyers and EDS's lawyers. [41990]

Dawn Primarolo: Morrison & Foerster and Pinsent Masons were the law firms involved.

Jeremy Storey QC provided the principal advice. Sir Jeremy Lever QC advised on a narrow point in the settlement agreement.

The hours charged by solicitors and Counsel for work in connection with the prospective litigation and the settlement came to 9,496.

There were many more meetings between lawyers and HMRC staff than can be readily enumerated. There were 18 meetings attended by legal representatives of HMRC and EDS.

Mr. Laws: To ask the Chancellor of the Exchequer if he will place in the Library the written advice from *(a)* internal and *(b)* external lawyers recommending accepting the settlement with EDS concerning compensation for problems with the tax credit system. [41991]

Dawn Primarolo: This advice is legally privileged and commercially sensitive. It would therefore be wrong to make it available in the way suggested.

HMRC retains the ability to revive its Claim against EDS if the settlement sum is not paid in full. Disclosure of this legal advice could prevent that, thereby depriving HMRC of its main enforcement mechanism.

EU Committees

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Advisory Committee for coordination in the internal market field, *(b)* Advisory Committee on opening up public contracts, *(c)* Customs Cooperation Subcommittee—EEC-Albania and *(d)* Customs Cooperation Subcommittee—EEC-Bulgaria have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved Governments; and if he will make a statement. [39023]

Dawn Primarolo: The Internal Market Advisory Committee met once on 18 November 2005, chaired by a senior official from the European Commission. The UK was represented by an official from the Department for Trade and Industry.

The Advisory Committee on opening up public contracts met on 25 October 2005, chaired by the European Commission. The UK was represented by the Office of Government Commerce. Agendas for meetings of this group are forwarded by the OGC to the Scottish Executive, who may attend at their discretion. No representative of the Scottish Executive attended on 25 October.

There have been no meetings of the Customs Cooperation Subcommittee—EEC-Albania during the UK presidency.

There have been no meetings of the Customs Cooperation Subcommittee—EEC-Bulgaria during the UK presidency.

With the exception of the Advisory Committee on opening up public contracts, these working groups deal with reserved matters and as such no provision was made for representation of the devolved Administrations.

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Customs Cooperation Subcommittee-EEC-Israel, *(b)* Customs Cooperation Subcommittee-EEC-Hong Kong, *(c)* EEC-Mexico Special Committee on Customs Cooperation and *(d)* Advisory Committee on the Communities' own resources have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [39024]

Dawn Primarolo: The information is as follows:

(a) There have been no meetings of the Customs Cooperation Subcommittee-EEC-Israel during the UK presidency.

(b) There was one meeting of the EC-Hong Kong Joint Customs Cooperation Committee during the UK presidency on 18 November, Co-chaired by European Commission and Hong Kong Customs. Officials from Foreign and Commonwealth Office and HMRC represented the UK presidency. No provision was made for representation of the devolved governments.

(c) The EEC-Mexico Special Committee on Customs Cooperation met once during the UK presidency on the 21 October 2005 in Brussels, chaired by the Commission.

The UK was represented by officials from the UK Permanent Representation to the EU. This was attended by UKRep.

(d) There were three meetings of the Advisory Committee on the Communities' own resources during the UK presidency, on 7 July, 13/14 October and 8 December. The Commission chaired these meetings. The UK representatives were officials from HMRC.

These working groups deal with reserved matters and as such no provision was made for representation of the devolved Administrations.

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Customs Cooperation Committee-EEC-San Marino and *(b)* EEC-Denmark-Faroe Islands Joint Committee have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provision was made for representation of the devolved governments; and if he will make a statement. [39025]

Dawn Primarolo: The information is as follows:

(a) There have been no meetings of the Customs Cooperation Committee-EEC- San Marino during the UK presidency.

(b) There has been one meeting of the EEC-Denmark-Faroe Islands Joint Committee during the UK presidency on 8 December 2005. The Commission represents the EC—apart from Denmark, no member state attended.

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* Joint Committee (EEC-Switzerland) on the simplification of inspections and formalities (and working party), *(b)* Customs Section of the Joint Committee (EEC-

Norway), *(c)* Customs Section of the Joint Committee (EEC-Iceland) and *(d)* Customs Section of the Joint Committee (EEC-Switzerland-Liechtenstein) have taken place during the UK presidency of the EU; who presided over each meeting; which other UK representatives were present; what provisions were made for representation of the devolved governments; and if he will make a statement. [39027]

Dawn Primarolo: The information is as follows:

(a) There has been one meeting of the Joint Committee (EEC-Switzerland) on the simplification of inspections and formalities (and working party) and the *(d)* Customs Section of the Joint Committee (EEC-Switzerland-Liechtenstein) during the UK presidency on 27 October 2005. The Commission represents the EC.

(b) There were no meetings of the Customs Section of the Joint Committee (EEC-Norway) during the UK presidency.

(c) There have been no meetings of the Customs Section of the Joint Committee (EEC-Iceland) during the UK presidency.

Angus Robertson: To ask the Chancellor of the Exchequer how many meetings of the EU *(a)* European Area Joint Committee, *(b)* Joint Committee with the countries of the European Free Trade Association (Iceland, Norway and Switzerland), *(c)* Joint Committee on the Agreement concerning products of the clock and watch industry between the EEC and Switzerland and *(d)* Joint Committee on the Agreement between Switzerland and the EEC on the processing traffic in textiles have taken place during the UK presidency of the EU; who presided over each meeting; what other UK representatives were present; what provisions were made for representations of the devolved governments; and if he will make a statement. [39030]

Dawn Primarolo: The information is as follows:

(a) The European Economic Area Joint Committee is made up of representatives of the EEA EFTA States and the European Commission and met on 8 July, 30 September, 21 October and 2 December. The UK did not attend.

(b) We are not aware of any meetings of the "Joint Committee with the countries of the European Free Trade Association" during the UK presidency; however representatives of the Finance Ministries of the EFTA countries met in Brussels alongside the ECOFIN Council meeting on 8 November. The Paymaster General chaired a meeting with EFTA on behalf of the EU Presidency.

(c) The Joint Committee on the Agreement concerning products of the clock and watch industry between the EEC and Switzerland did not meet during the UK presidency.

(d) There was one meeting of the Joint Committee on the Agreement between Switzerland and the EEC on 27 October 2005. The Commission represents the EC.

These working groups deal with reserved matters and as such no provision was made for representation of the devolved Administrations.

Financial Services Authority

Anne Main: To ask the Chancellor of the Exchequer what assessment he has made of the financial impact of the work of the Financial Services Authority on firms of independent financial advisers with *(a)* up to five employees and *(b)* with more than five employees; and if he will make a statement. [45612]

Mr. Ivan Lewis: The FSA is working with independent consultants to assess the cost of financial regulation on firms. The Chairman of the FSA will write with more details of this work.

Mr. Carswell: To ask the Chancellor of the Exchequer how many letters of complaint the Department received about the Financial Services Authority in *(a)* 2001, *(b)* 2002, *(c)* 2003 and *(d)* 2004. [46218]

Mr. Ivan Lewis: The Treasury does not keep this information and could obtain it only at disproportionate cost.

HMRC

Mr. Andrew Turner: To ask the Chancellor of the Exchequer what the full-time equivalent staffing complement is of each HM Revenue and Customs (HMRC) office in *(a)* the Isle of Wight and *(b)* Hampshire; what proportion of that complement is filled in each office; what percentage of those employed have worked for HMRC for (i) less than one year, (ii) one to two years, (iii) three to five years, (iv) six to 10 years and (v) more than 10 years; and what the annual expenditure was by each office on job advertising in each of the last three years for which information is available. [45713]

Dawn Primarolo: The information requested is given in the tables.

Hampshire

Totals	69.8	100.00

Information relating to recruitment advertising costs is not available and could be obtained only at disproportionate cost.

Mr. Andrew Turner: To ask the Chancellor of the Exchequer when the lease will expire on the HM Revenue and Customs office in Newport, Isle of Wight; how many premises are under consideration for its relocation; and how many *(a)* full-time equivalent employees and *(b)* employees are expected to be accommodated in the premises being sought. [45832]

Dawn Primarolo: The lease at 33 St. James Street, Newport, Isle of Wight will expire on 24 March 2006 although HMRC occupation of the building has been extended until 31 May 2006.

There are three premises under consideration for staff relocation, all located in Newport.

There are approximately 56 staff located at 33 St. James Street. HMRC also occupy 88/91 St. James St where approximately 14 staff are based. There is additional capacity in that building to accommodate another eight to 10 staff. The department is therefore looking to acquire a new building that can accommodate the balance, taking into account our projections of staff likely to remain on the island in both the short and long-term.

Mr. Frank Field: To ask the Chancellor of the Exchequer pursuant to the evidence of the Chairman of HM Revenue and Customs to the Public Administration Committee on 20 October 2005, question 78, on the tax credit IT system, if he will list those improvements and interventions made; and on what date each came into effect. [45834]

Dawn Primarolo: There have been two releases for the tax credit IT system during 2005, the first in spring 2005 and the second in autumn 2005.

The tax credits release in spring 2005 made improvements to the following areas:

the claim form

the award notice

to customer guidance

functionality for finalising and renewing awards

functionality for managing overpayments, including functionality to enable Tax Credit Office to adjust the level of payments to avoid hardship for customers

support for compliance risk assessment

payment accounting and reconciliation

This release also created new functionality to ensure that children from low-income families can receive the additional child trust fund endowment to which they are entitled.

The tax credits release in autumn 2005 made improvements to the following areas:

replacement of payment through the employer with direct payment

data matching to increase protection against non-compliance while reducing unnecessary delays for compliant customers

payment accounting and reconciliation

functionality for paying additional child trust fund endowments

This release also created new functionality for civil partnerships and gender recognition.

Identity Fraud

Mike Penning: To ask the Chancellor of the Exchequer what training the Department has provided for *(a)* front desk and *(b)* administrative staff in relation to identity fraud. [41279]

Dawn Primarolo: HM Revenue and Customs staff deal with a wide range of functions and their training varies depending on the operational need of the particular business unit and staff involved. Customer confidentiality and identification training is provided for customer-facing staff and in addition specialist training and guidance is provided in some business areas.

Inheritance Tax

Mrs. Spelman: To ask the Chancellor of the Exchequer (1) how much revenue was raised from inheritance tax in *(a)* each Government office region, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland in each financial year since 1996–97; [26940]

(2) how many estates paid inheritance tax in *(a)* each Government office region, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland in each financial year since 1996–97. [26941]

Dawn Primarolo: Regional annual figures for inheritance tax receipts and estates paying inheritance tax by Government office region are not available.

The totals for inheritance tax receipts are published in Table 1.2 Annual Receipts of Inland Revenue taxes. http://www.hmrc.gov.uk/stats/tax_receipts/menu.htm.

The totals of estates paying inheritance tax are published in Table 1.4 Estimated number of taxpayers. http://www.hmrc.gov.uk/stats/tax_receipts/menu.htm.

Iraq

Dr. Cable: To ask the Chancellor of the Exchequer what the Government's most recent estimate is of the cost of the British presence in Iraq, broken down by *(a)* military and *(b)* reconstruction costs in each month since the start of the conflict. [37146]

Mr. Des Browne: The Treasury does not estimate costs for Iraq in the manner requested.

The net additional costs of operations in Iraq, as recorded in the Ministry of Defence's annual reports and accounts total £3,068 million as follows:

Financial year	*£ million*
2002–03	847
2003–04	1,311
2004–05	910

The costs of operations in Iraq in 2005–06 will depend on force levels and operational tempo.

At the Madrid Donors' conference in October 2003, the Government announced a total UK pledge of £544 million towards the reconstruction effort in Iraq. To date, the Department for International Development have committed £423 million and disbursed over £350 million.

London Congestion Charge Zone

Mr. Prisk: To ask the Chancellor of the Exchequer what estimate his Department has made of the change in *(a)* VAT, *(b)* corporation tax and *(c)* national insurance contributions receipts which would arise from the extension of the London congestion charge zone. [45630]

Dawn Primarolo: The Government do not hold the figures requested, which would be extremely complex to estimate. The London congestion charge is the responsibility of the Mayor of London, who has published an assessment of the potential impacts of the planned Western Extension.

Long-term Savings

Harry Cohen: To ask the Chancellor of the Exchequer if he will take steps to provide long-term security and reasonable return on long-term savings invested in the private sector. [45820]

Mr. Des Browne: The Government have established a system of financial services regulation that works through the regulator, the Financial Services Authority, the Financial Ombudsman Service, and the Financial Services Compensation Scheme to provide statutory protection for consumers.

These bodies are independent of Government, although subject to the provisions of the Financial Services and Markets Act 2000. They replaced a collection of multiple regulators, complaint adjudicators, and compensation schemes.

Under The Pension Act 2004, the Government have also established The Pension Regulator and the Pension Protection Fund to protect the interests of members of occupational pension schemes.

Returns on long-term savings invested in the private sector are for the market to determine and lie outside the Government's remit.

Private Finance Initiative

Mr. Hoban: To ask the Chancellor of the Exchequer (1) if he will list private finance initiative projects which have been refinanced in each year since 1997; and what the value of each project was; [46033]

(2) how many private finance initiative projects were subject to refinancing in 2005; what the refinancing gain was in each case; and how much of this gain the relevant government body received through *(a)* a lump sum and *(b)* a reduction in the unitary charge. [46035]

John Healey: The table shows all recorded refinancings of PFI projects since 1997 and the value of each project.

There were five PFI projects, subject to refinancing in 2005. The following list shows the date the refinancing closed, the amount of the gain and the authority's share:

London borough of Tower Hamlets Groups Schools, 8 March 2005, no refinancing gain, no authority share.

Laganside Courts, 15 July 2005, refinancing gain £2.41 million, authority share £0.722 million.

Nottingham Tram, 10 November 2005, the outcome of the Authority's negotiations on gain share is yet to be confirmed.

Tyne and Wear Fire Services, November/December 2005, no refinancing gain, no authority share.

Greater Manchester Police Authority, 22 December 2005, total refinancing gain £1.02 million, total authority share £0.607 million.

Additionally, the BBC White City project was not concluded under a PFI structural framework, but shares many similar characteristics.

BBC White City, 23 March 2005, total refinancing gain £90 million. Total authority gains £62.00 million.

The list shows the refinancing gain in each case and produces a total refinancing gain of £93.42 million of which £63.329 million was for the public sector.

Information regarding how much gain the relevant government body received through a lump sum, or reduction in unitary charge, is not collated centrally.

Notes:
1. This is a list of UK-wide local and central government completed refinancings notified to PUK
2. The code referred to is a voluntary code of conduct on the sharing of refinancing gains on PFI projects, introduced in 2002.

Public Sector Pay

Miss McIntosh: To ask the Chancellor of the Exchequer what recent representations he has received on public sector pay. [45835]

Mr. Des Browne: Treasury Ministers receive a wide range of representations, in different forms, from different groups, bodies and individuals. There are different pay setting processes across the public sector and it is the responsibility of the relevant decision-making body to consider any representations that have been made.

Queen Alexandra Hospital, Portsmouth

Mr. Hoban: To ask the Chancellor of the Exchequer when his Department received the application to

approve the private finance initiative contract for the Queen Alexandra hospital, Portsmouth; and when approval was given. [46034]

John Healey: Department for Health Ministers submitted the application for the private finance initiative contract for the Queen Alexandra hospital, Portsmouth on 15 November 2005. The Chief Secretary provided Treasury approval on 9 December 2005.

Real Estate Investment Trusts

Mrs. Villiers: To ask the Chancellor of the Exchequer what assessment he has made of the merits of introducing unlisted real estate investment trusts; and what representations he has received on this. [46178]

John Healey: As set out in the 2005 pre-Budget report, the UK Real Estate Investment Trust regime will be open to qualifying property companies that are publicly listed on a recognised stock exchange as defined for tax purposes. The Government have consulted extensively on Real Estate Investment Trusts, and summaries of responses to these consultations were published alongside the 2005 Budget and pre-Budget report. Draft legislation to establish Real Estate Investment Trusts was released for consultation on 14 December 2005. Updated draft legislation, including clauses relating to groups of companies, will be published tomorrow. Copies will be available in the Libraries of both Houses and on HM Revenue and Customs' website, www.hmrc.gov.uk. The Government continue to consult extensively with representatives of the property and investment industries.

Special Compliance Office Staff

Mr. Laws: To ask the Chancellor of the Exchequer how many full-time equivalent staff have worked in the Revenue's special compliance office in each month of the last five years; how many and what proportion of them have worked on tax credits in each of the last three years; and what the administrative cost was of the special compliance office in each of the last five years. [38698]

Dawn Primarolo: The table shows, on a monthly basis for each of the last five years, the number of full-time equivalent staff working in the special compliance office of the Inland Revenue and HMRC.

Monthly staff in post for the past five years

	2001	*2002*	*2003*	*2004*	*2005*
January	486	616	683	789	823
February	475	621	690	796	826
March	470	623	718	797	821
April	479	623	734	791	812
May	499	628	739	801	812
June	550	627	750	805	799
July	574	638	759	808	816
August	572	638	764	810	796
[illegible]mber	568	645	764	811	794
[illegible]ber	572	642	769	804	788
[illegible]ber	586	669	775	827	791
December	618	652	786	830	—

It is not possible to identify the proportion allocated to tax credits work.

Cost information on the special compliance office is available only for 2001–2004, as follows:

	Administrative cost on special compliance office (£ million)
2001	29.96
2002	27.75
2003	30.59
2004	35.30

Stamp Duty Land Tax

Mr. Wallace: To ask the Chancellor of the Exchequer what funds have been returned to *(a)* individuals and *(b)* businesses as a refund of interest charges on late payments of stamp duty land tax in each year since 1997. [45936]

Dawn Primarolo: HM Revenue and Customs announced on 5 September 2005 that it had discovered a deficiency in its legal powers to charge interest on late payments of stamp duty land tax for the period from 1 December 2003 to 25 September 2005 inclusive, and that it would identify and repay (with supplementary interest) charges levied in error for this period. The total amount of interest wrongly charged was £1.5 million. HMRC started to make refunds in November 2005 and will complete all repayments by the target date of 31 January 2006. Refunds are made directly to the purchaser or lessee concerned. Information breaking down refunds to individuals and businesses is not collected.

Unemployment

Mrs. Curtis-Thomas: To ask the Chancellor of the Exchequer what the unemployment rate was in *(a)* England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland in each year from 2003 to 2005; and what the employment rate was in each as a percentage of the working age population. [45202]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 26 January 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question about employment and unemployment rates for England, Wales, Scotland and Northern Ireland. (45202)

The attached table gives the levels and rates of the number of employed people of working age and unemployed people aged 16 and over for the above countries and the UK, for the years 2003 to 2005.

Estimates are taken from the Office for National Statistic's Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

People in employment and those who are unemployed by country of residence: United Kingdom
Four quarter average

	Employment[1]		*Unemployment 16 +*	
	Thousands	*Percentage*[2]	*Thousands*	*Percentage*[3]
2003				
UK	27,003	74.6	1,451	4.9
England	22,709	75.0	1,200	4.9
Wales	1,263	72.6	64	4.6
Scotland	2,323	74.3	145	5.7
Northern Ireland	708	68.3	43	5.5
2004				
UK	27,157	74.7	1,395	4.7
England	22,848	75.1	1,150	4.6
Wales	1,259	72.1	61	4.5
Scotland	2,343	75.0	146	5.7
Northern Ireland	707	67.7	37	4.9
2005				
UK	27,218	74.7	1,426	4.8
England	22,890	75.0	1,188	4.8
Wales	1,257	71.8	62	4.5
Scotland	2,349	75.2	140	5.4
Northern Ireland	723	68.9	37	4.7

[1] Includes men aged 16–64 and women aged 16–59.
[2] In employment as a percentage of all persons of working age in each country.
[3] Unemployed aged 16 and over as a percentage of economically active aged 16 and over in each country.
Note:
Data based on average of four quarters each year. (2003: four quarters of period March 2003 to February 2004; 2004: four quarters of period March 2004 to February 2005; 2005: four quarters of period December 2004 to November 2005).

ONS – Labour Force Survey

VAT (Commemorative Headstones)

John Bercow: To ask the Chancellor of the Exchequer if he will make it his policy to exempt commemorative headstones for graves from VAT. [45812]

Dawn Primarolo: I refer the hon. Member to the answer I gave to my hon. Friend the Member for Chorley (Mr. Hoyle) on 15 December 2005, *Official Report*, column 2275W.

VAT Fraud

Mr. Gauke: To ask the Chancellor of the Exchequer (1) whether he intends to bring forward legislation to combat missing trader intra community, or carousel, VAT fraud as a consequence of the European Court of Justice judgment in the joined cases of Optigen Limited, Fulcrum Electronics Limited and Bond House Systems Limited; [45395]

(2) what estimate HM Revenue and Customs has made of its total liability for VAT refunds as a consequence of the European Court of Justice judgment in the joined cases of Optigen Limited, Fulcrum Electronics Limited and Bond Houses Systems Limited; [45398]

(3) what the implications are of the European Court of Justice judgment in the joined cases of Optigen Limited, Fulcrum Electronics Limited and Bond Houses Systems Limited; and if he will make a statement. [45399]

Dawn Primarolo: The Government note the decision of the European Court of Justice (ECJ) and will, of course, follow the guidance it has given. HM Revenue and Customs (HMRC) will now consider the detail of the ruling in order to determine the extent to which it applies to their previous decisions. The amounts claimed as recoverable VAT by the three traders total almost £40 million.

It is not possible to give a precise figure of the total amount that may be repaid to all traders affected by the decision, as the status of each case is being reviewed in the light of the ECJ's guidance and other action to protect the revenue may be taken.

The Government remain determined to tackle Missing Trader Intra Community (MTIC) VAT fraud and the criminals perpetrating it. HMRC is intensifying its operational activities throughout the UK and its co-operation with other countries to combat this fraud.

In order to strengthen further our strategy to combat VAT fraud, the Government have made an application to the European Commission (EC) for a derogation from the provisions of the EC sixth VAT directive to enable it to introduce a reverse charge procedure for

transactions between VAT-registered businesses in certain goods. The Government consider this measure to be a proportionate response to MTIC fraud. This is only one facet of a comprehensive strategy designed to thwart MTIC fraud by taking the criminal profit out of the transaction.

This measure will be targeted on those goods used in MTIC fraud, in particular mobile telephones, computer chips and some other similar electronic items. However, the Government will also be monitoring very closely how those carrying out this fraud react to this measure and will not hesitate to act to prevent any further threats to the tax system.

PRIME MINISTER

Honours (Prevention of Abuses) Act

Norman Baker: To ask the Prime Minister whether he plans to *(a)* review and *(b)* reform the Honours (Prevention of Abuses) Act 1925. [45974]

The Prime Minister: No.

Rendition

Mr. Clegg: To ask the Prime Minister when he was first informed of the United States policy on international rendition. [45343]

The Prime Minister: I refer the hon. Member to the answers I gave the right hon. Member for Ross, Skye and Lochaber (Mr. Kennedy) at Prime Minister's Questions on 7 December 2005, *Official Report*, columns 862–63.

TRANSPORT

A46 (Nottinghamshire)

Mr. Kenneth Clarke: To ask the Secretary of State for Transport what the cost to public funds has been to date of the promotion of, preparation for, design of and public consultation on the proposed improvements to the A46 between Widmerpool and Newark-on-Trent in Nottinghamshire. [45935]

Dr. Ladyman: The A46 Newark to Widmerpool Improvement scheme was added to the National Roads programme in May 1989 and was withdrawn in 1997. There are no records of historic costs for this period. Since its re-introduction and entry into the Targeted Programme of Improvements the cost to public funds for the development of the scheme has been £10.2 million (exc. VAT).

Audible Fire Alarms

Bob Spink: To ask the Secretary of State for Transport what proportion of the premises occupied by his Department is fitted with audible fire alarms. [42870]

Ms Buck: 100 per cent. of departmental premises that require audible fire alarms, as determined by the departments risk assessment of the premises, are fitted with audible fire alarms.

However the Department does have a number of small, regional operational sites, such as vehicle test stations and coastguard sites, for which information is not collected in the form required and an audit of the departmental estate could only be conducted at disproportionate cost. The Department is committed to ensuring compliance with fire safety law in premises it occupies. That includes provision of fire detection and warning systems that are appropriate to the circumstances of the case.

Aylesbury North (Railway Station)

John Bercow: To ask the Secretary of State for Transport what his policy is on the proposed construction of an Aylesbury North railway station. [43298]

Derek Twigg: On 15 January, the Department received proposals, including a business case, from Chiltern Railways for a new station at Aylesbury Vale Parkway. We will be considering these submissions during 2006.

C2C Rail Line (Benfleet)

Bob Spink: To ask the Secretary of State for Transport if he will assess the need for additional rolling stock on the c2c rail line to Benfleet; and if he will make a statement. [43311]

Derek Twigg: I refer the hon. Member to my answer of 8 December 2005, *Official Report*, column 1464W. The two remaining units referred to in my answer due to return to c2c by the end of December 2005 have now been returned, increasing capacity on the route.

It is for the operator to ensure that sufficient rolling stock is available to deliver the train service specified in the franchise agreement.

Concessionary Travel

Mr. Clappison: To ask the Secretary of State for Transport what assessment he plans to make of the number of *(a)* people aged 60 and over and *(b)* disabled people obtaining bus passes under the Government's concessionary fare schemes; and what funding is being made available by central Government to provide free travel outside district and unitary authority boundaries. [44701]

Ms Buck: The percentage of people 60 and over holding a bus pass will be estimated using data from the National Travel Survey, a continuous household survey. The Department will be surveying local authorities on their concessionary fares schemes, and will be asking for the number of bus passes issued to disabled people.

The Government are providing an extra £350 million for 2007–08 which will be sufficient to fund the cost to local authorities of introducing free local off-peak bus travel. As now, there will be no specific central Government funding for cross-boundary travel. Local authorities will have discretion to work together to provide travel outside their area, as they do at present, based on their judgment of local needs and their overall financial priorities.

Dr. Kumar: To ask the Secretary of State for Transport how many pensioners in *(a)* the Tees Valley and *(b)* Middlesbrough South and East Cleveland will qualify for free off-peak bus travel from April. [45105]

Ms Buck: The number of residents aged 60 or older who will qualify for free off-peak bus travel in *(a)* the five unitary authorities which comprise the Tees Valley,

is 137,200. This is from mid-2004 population estimates from the Office for National Statistics. In *(b)* the Parliamentary Constituency of Middlesbrough South and East Cleveland, over 17,100 people were of retirement age; that is men aged 65 or older and women aged 60 or older, at the time of the 2001 census.

Consultancy Contracts

Chris Grayling: To ask the Secretary of State for Transport what the total amount spent by *(a)* his Department and *(b)* the Highways Agency on consultancy contracts was in each of the past five years. [43596]

Ms Buck: I refer the hon. Member to my answer of 9 January 2006, *Official Report*, column 13W, to the hon. Member for Angus (Mr. Weir).

Crossrail

Chris Grayling: To ask the Secretary of State for Transport what his estimate is of the final construction cost of Crossrail. [43600]

Derek Twigg: The estimate of expense submitted with the Crossrail hybrid Bill in February 2005 estimates the cost of Crossrail as £10.292 billion in first quarter 2002 prices.

Cycling

Chris Grayling: To ask the Secretary of State for Transport what budget he has made available for improvements to facilities for cycling in each of the past five years. [43599]

Derek Twigg: The Department provides funding for cycling through the local transport plan settlement and English local highway authorities outside London have informed the Department that their investment in cycle facilities for each of the last five years is as follows:

	£ million
2001–02	29.58
2002–03	39.90
2003–04	32.13
2004–05[1]	38.89
2005–06[1]	35.39

[1] Estimate

London boroughs also receive funding from the Department via a block settlement through Transport for London and TfL estimate they have invested a further £50 million over this period from this source.

To supplement this spend, the Department has provided an additional budget for cycling programmes and initiatives. A further £4.37 million was allocated in 2002–03 and 2003–04 and £10.56 million in 2004–05. The Department has also awarded Cycling England a budget of £5 million for 2005–06 to fund their work plan aimed at encouraging an increase in cycling of which £3.15 million has been allocated for cycle facilities.

Departmental Consultants

Mr. Austin Mitchell: To ask the Secretary of State for Transport how many civil servants in each grade have left his Department in each of the last three years to join consultancy firms; and which firm each joined. [37366]

Ms Buck: Under the business appointment rules, staff are required to submit an application for approval to accept an outside appointment following resignation or retirement from Crown service. All senior civil servants must seek formal approval for any outside appointments within two years of leaving the Department. There have been two members of staff below the senior civil service and three senior civil servants who have left the civil service and taken up appointment with a consultancy within the past three years.

Identifying individual firms might lead to individual's identities being revealed.

Departmental Estate

Mr. Amess: To ask the Secretary of State for Transport what *(a)* land and *(b)* property his Department owns in the Southend, West constituency. [41749]

Ms Buck: The Department owns no land or property in the Southend, West constituency.

Insurance Certificates (Display)

Mr. Gordon Prentice: To ask the Secretary of State for Transport if he will make it mandatory for certificates of insurance to be displayed on the windscreens of vehicles. [45971]

Dr. Ladyman: We are not persuaded that a windscreen disc would help reduce uninsured driving and have no plans to make them mandatory. During 2004 Professor David Greenaway of Nottingham University carried out a review of motor insurance arrangements in the UK to see what could be done to tackle the problem of uninsured driving.

He considered windscreen insurance discs but reached the conclusion that they were unlikely to have any significant or long-term impact on uninsured driving and did not recommend them.

Ladbroke Grove Crash

Tom Brake: To ask the Secretary of State for Transport pursuant to the answer of 6 December 2005, *Official Report*, columns 1857–58W, on the Ladbroke Grove crash, when he expects the remaining four recommendations from public inquiry reports to be implemented. [41846]

Derek Twigg: The four outstanding recommendations and the anticipated completion dates are:

1. Pilot schemes (on train protection) using ETCS or ETCS elements should be carried out.

Trial of ERTMS on the Cambrian line is due to enter service in 2008.

2. The selective fitment of GSM-R (a radio system) in advance of ETCS fitment to trains should be considered.

3. There should be a national system of direct radio communication between trains and signallers.

Network Rail is implementing GSM-R across the network, starting with Strathclyde during 2006 with full national completion due in 2012.

4. Suppliers of products or services of a safety-critical kind should be required to hold an accreditation but the features of such a system require further study.

The Railway Industry Supplier Approval Scheme is scheduled to be rolled out throughout 2006, starting in March.

Marine Environment

Emily Thornberry: To ask the Secretary of State for Transport when he plans *(a)* to announce the location of marine environment high risk areas in waters within UK jurisdiction and *(b)* to consult on the proposed protective measures for these areas. [R] [45494]

Dr. Ladyman: We will make an announcement on marine environmental high risk areas (MEHRAs) shortly.

Maritime and Coastguard Agency

Mr. Sanders: To ask the Secretary of State for Transport what the national targets are for the Maritime and Coastguard Agency; and what the performance of offices in South Devon is in relation to those targets. [46615]

Dr. Ladyman: The Maritime and Coastguard Agency's Ministerial Targets for the 2005–06 business year appear on page 19 of the agency's annual plan and accounts 2005, which is also available on the agency's website, www.mcga.gov.uk. They focus on search and rescue response times, ship survey and inspection targets and other projects, including prevention.

Agency performance against these targets will be published in the MCA's annual plan and accounts 2006, following audit and ministerial scrutiny, but performance of specific offices are not published.

P-plate Scheme

Mr. Clifton-Brown: To ask the Secretary of State for Transport (1) what consultations his Department undertook on introducing a compulsory probationary P-plate scheme for newly-qualified drivers; [45606]

(2) what steps his Department has taken to encourage take-up of the P-plate scheme among newly-qualified drivers. [45608]

Dr. Ladyman: A compulsory P-plate scheme was one of the options discussed in the Department's consultation paper, "A Structured Approach to Learning to Drive", published in 2002. The decision letter responding to that consultation, published in August 2004, explained that Ministers had decided against additional regulation of newly-qualified drivers, and no further work has therefore been done on a P-plate scheme. Copies of the consultation paper and the decision letter were placed in the Library of the House and are also available online at—http://www.dft.gov.uk/stellent/groups/dft_control/documents/contentservertemplate/dft_index.hcst?n=10204&l=2.

The Department also commissioned research in September 2003 on the likely impact of a trial P-plate scheme, during which free plates would be issued to all those passing the practical driving test. This study found so much resistance to P-plate use within the target population, however, that the trial itself was abandoned. A short report on this project will be published by the Department in due course.

Road Building

Mr. Ancram: To ask the Secretary of State for Transport what public expenditure per head on new road building was in each of the counties of England for *(a)* 2004–05 and *(b)* 2005–06 in descending order; and what the planned spending is for 2006–07 in each case. [42317]

Dr. Ladyman: The Department for Transport does not hold centrally information on all public expenditure per head on new road building.

The following tables contain public expenditure per head in each year for those authorities/counties in England which have new Highways Agency roads or local authority roads built at a cost of £5 million of more. There are separate Highways Agency and local authority programmes of expenditure on road improvements costing less than £5 million. However, it is not possible to identify separately within these programmes new road building schemes from other types of road improvement. Therefore this information is not included.

County/authority	*2004–05 public expenditure - per head (£)*
Stoke-on-Trent	78.74
Peterborough	67.19
Bedfordshire	40.44
Staffordshire	36.76
East Riding of Yorkshire	36.36
Medway	29.87
Surrey	24.52
Nottinghamshire	23.01

Shropshire	0.73

Road Safety

Chris Ruane: To ask the Secretary of State for Transport how much has been spent by central Government on road safety in relation to *(a)* speeding, *(b)* drink driving, *(c)* seat belts and *(d)* cyclists' safety in each of the past 20 years. [45671]

Dr. Ladyman: I refer my hon. Friend to my answer of 28 November 2005, *Official Report*, column 152W, to my hon. Friend the Member for Crewe and Nantwich (Mrs. Dunwoody). Detailed information as requested is not available.

Romsey/Chandlers Fore/Eastleigh Railway Line

Mr. Hancock: To ask the Secretary of State for Transport (1) if he will discuss the future of the Romsey/Chandlers Ford/Eastleigh passenger railway line with Hampshire county council before any final decision is made; [43861]

(2) what plans he has to maintain the Romsey/Chandlers Ford/Eastleigh passenger railway; and if he will make a statement. [43867]

Derek Twigg: The South Western franchise replacement consultation document proposed a shuttle service between Romsey and Eastleigh via Chandlers Ford. Meetings to discuss the document were held with stakeholders, including Hampshire county council. The consultation closed on 13 January 2006. Responses will be considered prior to the issue of a core specification for bidders to price as part of the franchise replacement competition.

South West Trains

Mr. Hancock: To ask the Secretary of State for Transport what his timetable is for publishing the responses to the Rail Franchise and Utilisation consultation for the South West trains area. [43865]

Derek Twigg: A document responding to the comments received on the Department's South Western franchise consultation will be issued once all the comments have been considered fully. This is expected to be before the invitation to tender is issued at the end of March. Timing of the publication of responses to the South West Main Line Route Utilisation Strategy consultation document is a matter for Network Rail.

Thameslink 2000

Stephen Hammond: To ask the Secretary of State for Transport when the *(a)* Thameslink 2000 and *(b)* the East London Line extension projects will be completed. [41709]

Derek Twigg: The public inquiry into the Thameslink 2000 project re-opened on 6 September 2005 and closed on 7 December 2005. The inspector is expected to present his report to the Secretary of State and the Deputy Prime Minister in March 2006. A separate report by London TravelWatch on railway closures in connection with the Thameslink project is expected to be completed around spring 2006. This will also need to be considered by the Secretary of State. Were all the

various consents and orders required for the project to be approved, and funding made available, construction would be likely to take approximately five years.

Phase 1 of the East London Line extension, which will connect the line to Dalston Junction to the North and Crystal Palace and West Croydon to the South, is on course to be delivered by June 2010. Phase 2 of the extension, which will further extend the line to Highbury and Islington in the North and add a new branch, just south of Surrey Quays, to Clapham Junction, is not included in the Mayor's current five year investment strategy. However, the Mayor has indicated that he intends to take forward construction of this further extension in the future.

Transport Expenditure

Chris Grayling: To ask the Secretary of State for Transport (1) how much his Department has spent on *(a)* reducing crime on public transport, *(b)* (i) widening and (ii) building (A) roads and (B) motorways, *(c)* rail safety, *(d)* transport for school children, *(e)* ensuring disabled people have access to public transport, *(f)* concessionary travel for students, *(g)* building cycle lanes, *(h)* promoting the use of bicycles, *(i)* promoting environmentally friendly travel options, *(j)* investigating new technologies for environmentally friendly travel, *(k)* road safety *(l)* initiatives and (2) campaigns, *(l)* installing new speed cameras, *(m)* ensuring the safety of level crossings, *(n)* preventing public access to railway tracks, *(o)* repairing bridges, *(p)* refurbishing railway stations, *(q)* ensuring maritime safety, *(r)* maintenance of lighthouses, *(s)* improving ports, *(t)* ensuring air safety and *(u)* studies into increasing airport capacity since May 2002; and what projections his Department has for spending on each category of expenditure over the next three years; [43025]

(2) how much his Department has spent on schemes to promote *(a)* road travel, *(b)* rail travel, *(c)* bus travel, *(d)* cycling and *(e)* walking in each of the past three years. [43597]

Ms Buck: It is not practical to produce a detailed breakdown under the requested categories. This is due to the following factors:

(a) the identified objectives in many cases constitute a part of the rationale for individual projects that are intended to achieve a range of objectives, with not all spending being targeted only at a single objective;

(b) Department for Transport spending in many cases consists of general funding support for partner organisations, rather than support for particular projects or objectives; and

(c) in other cases, spending towards the objectives is funded by user charges or levies, rather than by taxation, and thereby does not score as part of DfT's public expenditure.

Details of spending since 1999–2000 by the Department for Transport and its predecessor are set out in Tables A1 to A3 of DfT's Annual Report 2005 (Cm 6527), copies of which were placed in the Library of the House when it was published in June 2005. These tables also set out spending plans for the current year, 2006–07 and 2007–08. Spending plans for 2008–09 will be set as part of the Comprehensive Spending Review in 2007.

SOLICITOR-GENERAL

Antisocial Behaviour

Mrs. Curtis-Thomas: To ask the Solicitor-General what progress has been made towards establishing *(a)* a team of specialist prosecutors and *(b)* specialist courts to deal with cases of antisocial behaviour. [45203]

The Solicitor-General: The Crown Prosecution Service (CPS) established a team of specialist antisocial behaviour (ASB) prosecutors in March 2004. They are located in 14 CPS areas, and have led the CPS' contribution to the multi-agency drive to reduce antisocial behaviour. In September 2005, those CPS areas without a specialist ASB prosecutor were required to appoint an ASB co-ordinator to lead on ASB work in their CPS area.

Antisocial behaviour response courts, which are magistrates courts having a particular focus on dealing effectively with ASB cases in co-operation with local agencies, were established in 12 areas in summer 2004. These locations were chosen so as to dovetail with the appointment of the CPS specialist prosecutors. There are now 157 ASB response courts located within 31 criminal justice areas across England and Wales. Lesson learned from their operation have been circulated to all courts to promote best practice in the handling of ASB cases.

EDUCATION AND SKILLS

Child Care

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills (1) what consultation events were held with key stakeholders in relation to child care during 2005; what Government representatives attended these events; and what the cost of each event was; [43670]

(2) how many structured discussions were held with parents through local forums about child care during 2005; what Government representatives attended these discussions; and what the cost of each discussion was. [43939]

Beverley Hughes: We have consulted widely with parents and key stakeholders on child care throughout 2005 and details of principal events are given in the following table:

Event	*Government representatives who attended*	*Cost*
Eight events held to consult on the development of the Early Years Foundation Stage attended by a range of key stakeholders	Primary National Foundation Stage Advisors	£34,400
Seven regional seminars held with local authorities on Phase 2 of the Children's Centre's programme	DfES officials	£50,000
A consultation with key stakeholders on the Ten Year Strategy for Childcare at 11 Downing Street	Minister and Paymaster General from Treasury	£700 (excluding food)

Event	Government representatives who attended	Cost
Several events held with local authorities and practitioners from the private and voluntary sectors to discuss the free entitlement code of practice. Staff time only	DfES Officials	
Five focus groups held with parents looking at their information needs	DfES contractors	£40,000
Parenting strategy stakeholders meeting to discuss parenting issues to develop a DfES Parenting strategy.	DfES officials	£1,102
11 events held with parents to discuss the Ten Year Strategy	Ministers and Paymaster General from Treasury	£70,000
Seminars for representatives of local authorities, PCTs, strategic health authorities, the voluntary and community sector and the police consulting on "The 10 Year Childcare Strategy" were held as part of the "Every Child Matters : Delivering change for children" regional events.	DfES officials	The total cost of these event, (which included nine other seminar choices in addition to those on childcare) was £569,607.65 (excluding VAT)

In addition, the national remodelling team within the Teacher Development Agency has an ongoing programme of events with local authorities, schools and other key stakeholders to consult and support them in the development of extended services, including childcare accessible through schools. Costs vary according to region and the number of attendees but some examples of key events held during 2005 include a national conference with Directors of Children's Services, other senior local authority staff and key stakeholders at a cost of £84,351 and nine regional briefings for local authority delivery managers and stakeholders from the early years, childcare and health sectors at an average cost of £7,538 per event.

Mr. Paul Goodman: To ask the Secretary of State for Education and Skills (1) how many child care places have closed in each year since 1997; [43798]

(2) what percentage of child care providers closed in each year for which figures are available. [43947]

Beverley Hughes: The Department is unable to provide accurate details of closure rates for child care places and providers before 2003.

Since March 2003 data on closure rates have been available from Ofsted and are shown in the following table:

	April to March	
	2003-04	2004-05
Stock of child care places	967,821	1,102,686
Child care places closed	128,351	200,775
Percentage of places closed	13.2	18.2
Stock of child care providers	85,804	92,604
Child care providers closed	14,350	19,223
Percentage of child care providers closed	16.7	20.8

Closure rates recorded for the first six months of the 2005-06 financial year show that closures are declining. For the year September 2004 to September 2005 the provider closure rate has reduced to 18.3 per cent. with the closure rate for full day care for this period reducing from 14.2 per cent. to 13.1 per cent. Since April 2005, funding for local authorities has focused on sustaining existing good quality provision that meets local needs, rather than creating new places which may not match local demand and may put existing provision at risk.

From March 2003 to September 2005, despite closures the stock of child care places has continued to grow as follows:

Stock	Number of registered places	Increase since 2003 (percentage)
March 2003	967,821	n/a
March 2004	1,102,686	14
September 2005	1,220,607	26

Rosie Cooper: To ask the Secretary of State for Education and Skills how many child care places were available in each of the past 10 years in West Lancashire constituency. [45007]

Beverley Hughes: Statistics have been collected by local authority area only since 1999 following the introduction of the National Childcare Strategy for England. We are unable to provide details of places by parliamentary constituency.

The following table details the stock of child care places in Lancashire, each year since 1999.

As at March:	Stock of child care places
1999	17,193
2000	18,072
2001	19,769
2002	22,288
2003	22,538
2004	26,391
2005	29,008

Consultants

Ms Katy Clark: To ask the Secretary of State for Education and Skills how many consultants have been engaged by her Department since March 2005; and at what cost. [43684]

Bill Rammell: The Department for Education and Skills spent £2.3 million from administration costs and £7.5 million from programme expenditure on consultants from March 2005 to date. The Department does not hold centrally information on the number of consultants engaged in this period and it could be provided only at disproportionate cost.

All these figures relate to consultancy as defined centrally by the Office for Government Commerce (OGC). Other transactions also take place with consultancy firms, who supply a range of services which are not consultancy under this standard definition.

Contact Visits

Margaret Moran: To ask the Secretary of State for Education and Skills what steps the Government are taking to ensure that contact visits are safe for adopted and fostered children. [44666]

Maria Eagle: The Children Act 1989 recognises that, in the majority of cases, it will be in a child's best interests to maintain contact with his or her birth family and includes a duty to promote contact, unless that is not reasonably practicable or consistent with the child's welfare. In such cases, the Act makes provision for contact arrangements to be supervised, restricted or suspended. Exceptionally, contact will be refused from the time the child enters care.

Consideration of contact is an essential part of the care planning process for looked after children and any arrangements for contact will therefore be kept under ongoing review and monitored in order to identify problems which may arise and changes which may need to be made to the arrangements. Detailed records about contact will form part of each child's case record and will be considered as part of regular formal review meetings, although the review of contact arrangements should not be restricted to such meetings. Following an amendment to the Review of Children's Cases Regulations in 2004, review meetings must, where possible, be chaired by an independent reviewing officer, whose role it is to ensure both that the child's views are understood and taken into account and that reviews are carried out in accordance with the relevant regulations.

Once an adoption order is made, any existing contact order will be extinguished and the adopters will acquire full parental responsibility for the child. Unless the court makes a new contact order, it will be for the adopters themselves to decide on the nature and extent of the child's contact with his or her birth family. The Government have, however, put in place a new framework for supporting adoptive families, which includes counselling, advice, information and assistance with facilitating appropriate contact arrangements.

Departmental Expenditure

Mr. Gibb: To ask the Secretary of State for Education and Skills if she will list the organisations to which her Department made payments through grants or contracts other than in relation to the Department's administrative expenditure over the value of £20,000 in 2004–05. [39512]

Bill Rammell: A list of organisations who received over £20,000 in grants and contracts in 2004–05 from the Department for Education and Skills other than in relation to the Department's administrative expenditure has been placed in the House of Commons Library.

Mr. Francois: To ask the Secretary of State for Education and Skills how much has been spent by her Department on salaries paid to civil servants in each year since 1997. [41576]

Maria Eagle: The information requested is set out in the following table. The figures are taken from the Department's resource accounts for the years in question. They represent the gross wages and salaries of civil servants, including bonuses, but excluding the costs of Ministers and special advisers and social security and other pension costs.

	Salaries (£ million)	*Salaries as percentage of net admin costs*
1997–98	107	57
1998–99	108	47
1999–2000	135	49
2000–01	142	50
2001–02	109	47
2002–03	116	50
2003–04	130	55
2004–05	128	49

These figures reflect the Department as constituted at the time the accounts were produced and so are not adjusted for machinery of government changes.

Educational Attainment

Mr. Wills: To ask the Secretary of State for Education and Skills what national target she has set for the percentage of children looked after for a year or more achieving five or more GCSE *(a)* A*-C and *(b)* A-G grades by 2009. [45522]

Maria Eagle: Our current targets in this area run until 2006 and 2008 respectively.

In SR 2002 (amended by the SEU report 'A better education for children in care' in 2003) a national PSA target was set to improve life chances for children by:

Substantially narrowing the gap between the educational attainment and participation of children in care and that of their peers by 2006. This will have been achieved if:

outcomes for 11-year-olds in English and Maths are at least 60 per cent. as good as those of their peers;

the proportion who become disengaged from education is reduced, so that no more than 10 per cent. reach school leaving age without having sat a GCSE equivalent exam; and

the proportion of those aged 16 who get qualifications equivalent to five GCSE's graded A*-C has risen on average by 4 percentage points each year since 2002; and in all authorities at least 15 per cent. of young people in care achieve this level of qualification.

This target is still extant and will be reported on when the figures for 2006 are made available in May 2007.

In SR 2004 a national PSA target for looked-after children was set as follows:

To narrow the gap in educational achievement between looked after children and their peers, and improve their educational support and the stability of their lives, so that by 2008, 80 per cent. of children under 16 who have been looked after for 2.5 or more years will have been living in the same placement for at least two years, or are placed for adoption.

This is underpinned by a number of indicators to improve absolute performance and narrow the gap

between the performance of looked-after children and that of their peers. For education this included the following measures:

percentage of children aged 11, looked after for at least 12 months, who obtain level 4 in key stage 2 English and Maths;

percentage of young people, looked after for at least 12 months, who reach school leaving age without having sat a GCSE equivalent exam;

percentage of young people, looked after for at least 12 months and in year 11, who achieve five or more GCSEs graded A*-C or equivalent;

participation of care leavers aged 19 in education, employment and training.

Local authorities are still required to set targets against these performance indicators through the school and local authority target setting exercise (SaLTs).

Employer Training Programme

Mr. Chaytor: To ask the Secretary of State for Education and Skills what assessment she has made of the Institute of Fiscal Studies evaluation of the employer training programme; and if she will make a statement. [43052]

Phil Hope: The IFS report identified a number of issues relating to the employer training pilots. The report has highlighted that we need to do more to attract the harder to reach employers and the subsequent phases of the pilots have shown us better how to do so. That has been one of the many real values of the pilots and their evaluation.

In some ETP areas around 25 per cent. of eligible employers are now taking part in the pilots—a far higher penetration rate than the 8 per cent. that IFS estimated carried out similar training without the pilots. We therefore anticipate that a higher proportion will be additional. Skills brokers in the new national programme, Train to Gain, will have a target of at least half the employers they engage being "hard to reach", additional employers. We are making £15 million available in 2005–06 and £20 million in 2006–07 to develop the capacity of the brokerage network and implement a performance management system that focuses services on this priority and rewards achievement accordingly.

A number of evaluations, including the IFS report, have shown that employers identify many benefits from ETP including productivity improvement, changed attitudes to learning, improved motivation and provided employers and employees with a platform for progression. Participating employers were more likely to train their low-skilled staff to the benefit of their business and say that ETP has allowed them to train more people over a shorter period of time. So we are confident that we are already involving more hard-to-reach learners.

We expect Train to Gain to deliver over 40,000 additional level 2 qualifications in 2006–07; over 140,000 in 2007–08 and, by the time the programme reaches full capacity, 175,000 in 2008–09 and in each year thereafter.

Young Carers

Annette Brooke: To ask the Secretary of State for Education and Skills (1) what guidance she has given to local authorities in relation to Fast-track to Attendance and young carers; [44305]

(2) what assessment her Department has made of the proportion of identified serial truants who are young carers. [44307]

Kerry McCarthy: To ask the Secretary of State for Education and Skills if she will ensure that teachers and school staff are aware of *(a)* the needs of young carers and *(b)* the impact caring responsibilities may have on their schoolwork and attendance at school. [44132]

Maria Eagle *[holding answer 20 January 2006]:* The Government want to ensure that young carers can gain maximum life chance benefits from educational opportunities. Local authority children's services and adults social services should work with families to ensure that young people are not expected to carry inappropriate levels of caring. We have also advised schools that in a genuine crisis, they can approve absence for a child to care for a relative until other arrangements are made—the school should set a time limit for the absence and set some school work so that the pupil does not fall far behind while at home. This advice is reflected in the existing guidance on the codes which are used to record absence and attendance in the school register. It is also reflected in "Managing Behaviour and Attendance: Groups at Particular Risk". This guidance has been available since 1999, initially included within the Department's Social Inclusion circulars, and was published again on the Department's school attendance and behaviour website in 2005 as "Managing Behaviour and Attendance: Groups at Particular Risk".

The Department has not made any assessment of the proportion of young carers who have school attendance difficulties and does not collect or hold data that would enable it to do so. Census data are based on self-identification by carers' families.

When a pupil is not attending school regularly, for whatever reason, local authorities are best placed to decide on the most appropriate course of action on a case by case basis. The Government would expect, however, any assessment of school attendance difficulties to take into account the possibility of circumstances such as caring responsibilities.

One of the options available is the Fast-track to Attendance framework which is a time-focused approach to case management. Its aim is to ensure that schools and local authorities deal with attendance cases quickly and in the most effective way to get the child back into school. The Fast-track framework promotes early intervention both by the school and, when necessary, by the local authority and other agencies. Fast-track is not just about prosecutions or sanctions, rather the approach aims to ensure that appropriate action is taken to identify and tackle attendance problems as soon as they become apparent. Guidance on the 'Fast-track' process was issued to local authorities in 2003. As the guidance relates to a process it does not specifically refer to young carers or any other group.

Further Education

Mr. Wills: To ask the Secretary of State for Education and Skills (1) what national target she has set for increasing the proportion of 16-year-olds taking part in further education; [44855]

(2) what target she has set for increasing the number of people in education at the age of 17 years. [44856]

Bill Rammell: The Government are committed to tackling our internationally low post-16 participation rate. In the 14–19 White Paper we set out our aim to increase participation at age 17 from 75 per cent. to 90 per cent. over the next 10 years. Critical to achieving this ambition will be securing our reform of 14–19 curriculum, in particular the introduction of specialised Diplomas from 2008.

Higher Education

Mr. Amess: To ask the Secretary of State for Education and Skills what the participation rate of each age group in *(a)* higher education and *(b)* first degree courses in (i) Southend, (ii) Essex, (iii) Hertfordshire, (iv) Greater London and (v) England was in each year since 1978. [34231]

Bill Rammell: The available information is given in the tables.

The latest available figures on participation by local areas were published by the Higher Education Funding Council for England (HEFCE) in January 2005 in "Young participation in higher education", which is available from the HEFCE website at: http://www.hefce.ac.uk/pubs/hefce/2005/05_03/. The HEFCE report shows participation rates for young people who enter higher education aged 18 or 19 disaggregated by constituency, local education authority (LEA) and region for the years 1997 to 2000.

Figures for the relevant LEAs and Greater London, together with the comparable figure for England, are shown in the table.

Young Participation Rate (YPR (A))

Percentage

	Year cohort aged 18 in:			
	1997	*1998*	*1999*	*2000*
Southend-on-sea[1]	26	23	24	27
Essex[1]	27	26	27	28
Hertfordshire[1]	37	35	37	38
Greater London	33.1	34.2	35.0	36.4
England	29.2	28.8	29.2	29.9

Higher Education Funding Council for England

The Higher Education Initial Participation Rate (HEIPR) measures the percentage of English-domiciled students aged 17 to 30 years, participating in higher education (both full-time and part-time courses) at UK Higher Education Institutions and English Further Education Colleges. The available figures for the academic years from 1999/2000 to 2003/04 are shown in the table.

Higher Education Initial Participation Rate (HEIPR) for English domiciled entrants (full-time and part-time) to higher education courses from 1999/00 to 2003/04[1]

	HEIPR
1999	41
2000	42
2001	42
2002	43
2003	43

DfES National Statistics Statistical First Release 14/2005, "Participation Rates in Higher Education: Academic Years 1999/2000 – 2003/2004 (Provisional)".

The figure for 2004/05 will be published in April 2006.

The Age Participation Index (API) measures full-time participation by UK-domiciled students, aged below 21 years, in higher education courses in Great Britain. Ramsden, B. (1995), 'Participation in Higher Education: A Study to Determine Whether the Higher Education Initial Participation Rate Should Be Disaggregated', confirmed that there are significant weaknesses in the Age Participation Index and the figures should therefore be treated with caution.

The available figures are shown in the table.

Age Participation Index[1] *for UK-domiciled ants to higher education courses in Great Britain 1978/79 to 2001/02*

Looked-after Children

Mr. Wills: To ask the Secretary of State for Education and Skills what national target she has set for reducing the number of looked-after children each year. [45532]

Maria Eagle: There is currently no national target for reducing the number of looked-after children by local authorities each year. In SR2004 a National PSA target for Looked After Children was set as follows:

> To narrow the gap in educational achievement between looked after children and their peers, and improve their educational support and the stability of their lives, so that by 2008, 80 per cent. of children under 16 who have been looked after for 2.5 or more years will have been living in the same placement for at least 2 years, or are placed for adoption.

This target is a recognition of the fundamental importance of stability to the lives of these most vulnerable of children and young people. Children become looked after for a variety of reasons, though the most common reason for children becoming looked after is abuse or neglect (in 62 per cent. of cases). It is important that this decision is based on the individual assessed needs of each child. To set a target to reduce the number of looked after children could create a perverse incentive that would serve as a barrier to children who may need to become looked after, which would not be in their best interests.

Mr. Wills: To ask the Secretary of State for Education and Skills what national targets she has set for reducing the number of looked-after children *(a)* placed more than 20 miles from their local authority, *(b)* placed in independent placements and *(c)* from black and ethnic communities. [45533]

Maria Eagle: There are currently no national targets for any of these categories. In SR2004 a National PSA target for Looked After Children was set as follows:

> To narrow the gap in educational achievement between looked after children and their peers, and improve their educational support and the stability of their lives, so that by 2008, 80 per cent. of children under 16 who have been looked after for 2.5 or more years will have been living in the same placement for at least two years, or are placed for adoption.

This target is a recognition of the fundamental importance of stability to the lives of these most vulnerable of children and young people. However data on the groups of looked after children are available in the departmental statistical volume: "Children Looked After by Local Authorities, Year Ending 31 March". The most recent figures are available at: http://www.dfes.gov.uk/rsgateway/DBA/OL/v000569/index.shtml

Nursery Schools (West Lancashire)

Rosie Cooper: To ask the Secretary of State for Education and Skills how many children in West Lancashire constituency attended nursery in each of the past 10 years; and how many have taken up free nursery places since the policy was introduced. [45006]

Beverley Hughes: All four-year-olds have been entitled to a free early education place since 1998 and from April 2004 this entitlement was extended to all three-year-olds. The free entitlement consists of a minimum of five two and a half hour sessions per week for 33 weeks of the year for six terms before statutory school age, which is the term following their fifth birthday.

Some local authorities may additionally offer subsidised childcare places but this information is not collected centrally.

Figures for January 2005 show that all four-year-old children receive some form of free entitlement. The figure for three-year-olds is 96 per cent. This covers all maintained, private, voluntary and independent providers and represents 535,100 three-year-olds and 568,300 four-year-olds.

The available information on the number of free nursery education places taken up by three and four-year-olds in West Lancashire parliamentary constituency area and Lancashire local authority is shown in the tables.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release 43/2005 "Provision for children under five years of age in England—January 2005 (final)" in September, which is available on my Department's website www.dfes.gov.uk/rsgateway/.

[5] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.

Changes in pupil figures may arise from changes to the underlying population in the local authority area and other factors. However, my Department doesn't publish population figures for individual age cohorts at sub-national level because of the unreliability of the underlying population estimates. The Office for National Statistics publish sub-national population estimates in five-year age bands.

Ofsted

Mr. Chaytor: To ask the Secretary of State for Education and Skills what steps Ofsted is taking to ensure that inspectors who have been removed from, and subsequently reinstated to, the list of team inspectors should not be disadvantaged in the award of future contracts. [43051]

Jacqui Smith: This is a matter for Ofsted. HM chief inspector, Maurice Smith has written to my hon. Friend and a copy of his reply has been placed in the House Library.

Letter from Maurice J. Smith, dated 24 January 2006:

Your recent parliamentary question has been referred to me, as Her Majesty's Chief Inspector of Schools, for reply.

You asked what steps Ofsted is taking to ensure that inspectors who have previously been removed from, and subsequently reinstated to, the list of team inspectors should not be subsequently disadvantaged in the award of future contracts.

In connection with inspections under Section 10 of the School Inspections Act 1996, a person whose name was included on the roll of team inspectors should not have been disadvantaged in seeking and securing inspection work on the basis that they had previously been removed from, and then reinstated to, the roll. Inclusion on the roll signified that a team inspector satisfied the conditions of his or her enrolment: that he or she was fit and proper, and competent and effective, to discharge the functions of a team inspector. However, the roll of team inspectors was discontinued in September 2005 following the implementation of the Education Act 2005 and the introduction of the new Section 5 inspection arrangements.

Under the Education Act 2005, Ofsted has secured the provision of inspection services for the inspections of schools covered by Section 5 of that Act, by contract with six Regional Inspection Service Providers (RISPs). The RISPs are responsible for the recruitment, selection, training and deployment of inspectors, and the standards of competence required of the inspectors are specified; inspectors must be fit and proper, and competent and effective. Further details on the competencies of inspectors are available at:

http://www.ofsted.gov.uk/publications/index.cfm?fuseaction=pubs.summary&id=1438

It is for the RISPs to satisfy themselves that inspectors meet these competences and they may only carry out Section 5 inspections once they have inspected satisfactorily under the supervision of HMI. The RISPs have different recruitment and selection processes but all include checking whether inspectors were previously Section 10 inspectors. Where an inspector had previously been de-registered or removed from the roll, the RISP would have to look at the individual's circumstances. However, we have no reason to believe that inspectors would be disadvantaged in seeking and securing inspection work simply on the basis that they were previously removed from, and reinstated to, the Section 10 roll of team inspectors. Finally, I should inform you that, although there is no longer a roll of team inspectors, HMCI is required, under the Education Act 2005, to publish at intervals of not more than 12 months the names of those persons who are notified to him by a RISP as persons with whom the RISP proposes to make arrangements for carrying out of inspections on behalf of HMCI. The list of these persons, known as additional inspectors, was published on the Ofsted website on 07 December 2005 and can be found at:

http://www.ofsted.gov.uk/publications/index.cfm?fuseaction=pubs.summary&id=4112

A copy of this reply has been sent to Jacqui Smith and will be placed in the library of both Houses.

Policy Reviews

Anne Main: To ask the Secretary of State for Education and Skills if she will list the policy reviews her Department has conducted in each year since 1997. [44330]

Bill Rammell: The Department maintains all of its key policies under review. Material on the key policy areas for which the Department is responsible can be found on our website at http://www.dfes.gov.uk/

Recreation Areas and Holiday Play Schemes

John Bercow: To ask the Secretary of State for Education and Skills what steps she is taking to develop *(a)* safe and accessible recreation areas and *(b)* affordable school holiday play schemes for the most vulnerable families. [39406]

Maria Eagle: Thanks to the £155 million play programme announced by the Big Lottery Fund in March 2005, a huge number of existing play facilities across England will be improved and new ones created. 80 per cent. of the fund will be used to develop free, open-access play provision in the areas of greatest need. Allocations will be made to local authorities based on child population weighted by the level of deprivation in each area but also taking into account where relatively affluent areas have pockets of deprivation (for example, rural areas).

For the older child, we have outlined new national standards for 'things to do and places to go' for young people. The standards include ensuring access to 'a range of safe and enjoyable places in which to spend time'. We intend to introduce new legislation that will clarify local authorities' responsibilities to secure access to such provision.

The Youth Matters Green Paper also outlined plans to put resources directly into the hands of young people so that they have more say over the way that resources are spent. Extra resources made available through the pre-Budget report mean that a total of £115 million will be available in the two financial years from April 2006 to support the provision of youth activities in communities, including the development of the Youth Opportunity and Youth Capital funds which will particularly help to support access for young people from vulnerable families.

We have also committed £840 million to help develop extended services, including holiday play schemes, so that they are accessible through all our schools by 2010. These funds have also been distributed with a weighting for levels of deprivation. The National Remodelling Team within the Training and Development Agency has been appointed to provide support to all schools to help develop extended services.

Special Educational Needs

Bob Russell: To ask the Secretary of State for Education and Skills what arrangements there are to enable the statutory assessment procedure for a statement of special educational needs to be continued for pupils who transfer to a school in another local education authority area during the course of the procedure; and if she will make a statement. [45171]

Maria Eagle: Under the Education Act 1996 local authorities have a duty, where necessary, to assess the special educational needs of children for whom they are responsible. If, during the course of the assessment, a child transfers to a school in another local authority's area but remains resident in the original authority's area then the original authority remains responsible for completing the assessment. If the child moves to the area of the school which he or she is transferring to or any area other than that of the original authority, the original authority is no longer responsible for the child or completing the assessment. If the new authority to which the child moves deems that it is necessary to assess the child's special educational needs then the new authority is under a duty to do so. In such circumstances we would expect the two authorities concerned to contact each other and, within any legal constraints, transfer information from the assessment begun by the original authority to inform the assessment by the new authority.

Student Finance

Helen Jones: To ask the Secretary of State for Education and Skills what representations she has received on allowing more flexibility to higher education institutions in the use of access funds; and if she will make a statement. [45215]

Bill Rammell *[holding answer 24 January 2006]:* My right hon. Friend, the Secretary of State and I have regular discussions with representatives from the higher education sector about a range of student finance issues, including the access to learning fund. The fund is designed to ensure that support is available to students from low-income backgrounds who might otherwise be unable to enter or remain in higher education. Higher education institutions, who administer the fund, have a high degree of discretion as to how to provide support, in order to target those most in need.

Last October, as part of our continuing commitment to part-time study, we announced an enhanced support package for part-time undergraduates from 2006/07, including an increase in the discretionary funds available to part-time students from £3 million to £12 million. Institutions will have the added flexibility to use this resource to provide additional fee support (on top of the statutory part-time grant) or to increase help to students facing financial hardship, for example, in meeting child care costs.

We also announced, in November, an additional £40 million (£20 million each from the Department and the Higher Education Funding Council for England) of institutional funding for 2006–07 to encourage participation and improve provision for part-time students from the most under-represented groups.

Teenage Pregnancies

Mr. Dismore: To ask the Secretary of State for Education and Skills if she will introduce targets for teenage pregnancy reduction which reflect that some teenage pregnancies are planned; and if she will make a statement. [45230]

Beverley Hughes: We recognise that a minority of teenage pregnancies are planned. However, around half of under-18 conceptions end in abortion and the 1999 Social Exclusion Unit report on Teenage Pregnancy estimated that around 75 per cent. of teenage conceptions were unplanned.

While recognising that decisions about the outcome of pregnancy are for individuals to make, the aim of the Government's Teenage Pregnancy Strategy is to reduce unplanned pregnancies while encouraging young people to delay parenthood. Health and education outcomes for young mothers and their children are likely to be significantly worse than for older mothers.

Vocational Training

Mr. Hayes: To ask the Secretary of State for Education and Skills what recent assessment she has made of the impact of vocational training on industry. [40433]

Phil Hope: Our Department is committed to ensuring that everyone has the skills he or she needs to be employable and personally fulfilled. Our 14–19 and Skills White Papers set out our strategies for ensuring that education and training meets the needs of employers.

The Learning and Skills Council (LSC) is responsible for the effective planning and funding of learning to raise the skills of the work force and the potential work force. It engages through the year with providers and employers to ensure that provision matches employer skills demands.

Recent findings of the LSC funded National Employer Skills Survey (NESS) in 2003 and 2005 show:

Just 4 per cent. of employers were reporting any vacancies relating to skill shortages.

The proportion of vacancies relating to skill shortages has fallen from 20 per cent. in 2003 to 17 per cent. in 2005.

Progress has been made in terms of skill gaps with the number of establishments reporting having staff not fully proficient falling from 22 per cent. in 2003 to 16 per cent. in 2005.

Young Parents (Higher Education)

Ed Balls: To ask the Secretary of State for Education and Skills how many 16 to 19-year-old parents have returned to higher education in *(a)* the Wakefield district and *(b)* the Normanton constituency since 1997. [30435]

Bill Rammell: The information is not held centrally.

CULTURE, MEDIA AND SPORT

Gaming Machines

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the triennial review of stakes and prizes for category C gaming machines; and if she will make a statement. [45883]

Mr. Caborn: Following the triennial review conducted by the Gaming Board in 2004, the Secretary of State decided not to make any changes for the time being to gaming machine stake and prize limits. A schedule for stakes and prize limits on implementation of the Act was published when the Gambling Bill was introduced, and this remains Government policy.

The Government are committed to increasing the maximum stake category C gaming to 50p. This increase will be implemented in September 2007 when the new safeguards relating to social responsibility introduced by the Gambling Act 2005 will be in place.

Identity Fraud

Mike Penning: To ask the Secretary of State for Culture, Media and Sport what training the Department has provided for *(a)* front desk and *(b)* administrative staff in relation to identity fraud. [41286]

Mr. Lammy: The information is as follows:

(a) The Department's front desk security staff, who deal with the public, are employed by an external security contractor who ensures that their staff are trained in relation to identity fraud.

(b) The Department currently has one administrative officer who checks the identity of new staff and who will be shortly undertaking a centrally held training course which covers identity fraud.

National Sports Foundation

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether the English Cricket Board's Chance to Shine programme will be eligible for support from the National Sports Foundation. [45954]

Mr. Caborn: The England and Wales Cricket Board will be eligible to apply for funding from the National Sports Foundation (NSF). This will be subject to the Chance to Shine Programme meeting the NSF criteria and also delivering against the key performance indicators agreed between the England and Wales Cricket Board and Sport England for the £2 million lottery funding this year and in 2006–07.

Olympic Games

Ms Gisela Stuart: To ask the Secretary of State for Culture, Media and Sport what reassessment she has made of the costs of the London 2012 Olympics since the bid was successful; what further reassessments are planned; and if she will make a statement. [43401]

Tessa Jowell: I have commissioned KPMG to provide advice on the costs of the London 2012 Olympic games. Their work, which is ongoing, will inform our strategy for managing the Olympic project and costs will be kept under close scrutiny throughout.

Mr. Hands: To ask the Secretary of State for Culture, Media and Sport what proportion of council tax collected by Hammersmith and Fulham council is expected to be used to finance the 2012 London Olympics in each year between now and 2012. [45289]

Mr. Caborn: The proportion of council tax collected by Hammersmith and Fulham council which is expected to be used to finance the 2012 Olympic games and Paralympic games is a matter for the Mayor of London.

Sports Programmes

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport (1) what assessment she has made of the likely effects of the establishment of the National Sports Foundation on *(a)* the Football Foundation and *(b)* community programmes run by (i) the Rugby Football Union, (ii) the Rugby Football League and (iii) the Lawn Tennis Association; [45950]

(2) what part will be played by *(a)* Sport England and *(b)* regional sports boards in the operation of the National Sports Foundation; [45951]

(3) what decisions have been made on the *(a)* size of, *(b)* location of, *(c)* budget of, *(d)* condition of and *(e)* key personnel to be involved with the National Sports Foundation; [45952]

(4) what progress has been made towards establishing the National Sports Foundation. [45953]

Mr. Caborn: The National Sports Foundation (NSF) will be launched in April with funds being available from that date. The budget is £27.5 million over the next two years.

The NSF will be responsible for levering in additional private sector investment for grassroots sport and marketing and promoting the benefits of grassroots sport. It will have a strong, recognisable brand. There will be national and regional funding streams.

There will be three broad programmes for the initial period:

Fit for Sport—projects to improve both physical and human infrastructure for community clubs;

2012 Kids—building on the success of winning the Olympics, projects to encourage children to take up sport; and

Women in Sport—projects to increase female participation in sport.

The NSF will be delivered using Sport England's infrastructure. We need an established delivery structure so that the NSF is up and running from April. It will have a governance arrangement that allows for a light touch and speedy decision-making process, but ensures that appropriate checks and balances are in place.

Precise details of the governance arrangements, staffing, location and conditions, and the role of the Regional Sports Boards, is under consideration.

The five national governing bodies—the Rugby Football Union, Football Association, England and Wales Cricket Board, Lawn Tennis Association and the Rugby Football League—will be eligible to apply for NSF funds for specific projects that meet the criteria. The NSF will not however duplicate existing funding for community sport initiatives.

Sustainable Development

Jo Swinson: To ask the Secretary of State for Culture, Media and Sport what steps she is taking to promote the delivery of sustainable development within Government. [45828]

James Purnell: The Department for Culture, Media and Sport's sectors contain many iconic and high profile buildings, which are used by large numbers of the public. Some have introduced innovative projects demonstrating sustainable development, such as the installation of photovoltaic panels in the roof of the Science Museum in South Kensington. These now power the Museum's Energy Gallery. The DCMS Sustainable Development Forum draws membership from DCMS's non departmental public bodies who share these innovative ideas and other examples of best practice. My officials also provide the secretariat for the Museums and Galleries Energy and Carbon Forum, a body which seeks to implement energy saving and the reduction of carbon emissions in national museums, galleries and libraries. Sustainable development considerations are being fully included in the current refurbishment of DCMS Headquarters building. The Department's Headquarters building and The Royal Parks are both powered entirely by renewable sources.

Jo Swinson: To ask the Secretary of State for Culture, Media and Sport what progress has been made on her Department's sustainable development strategy. [45829]

James Purnell: The Department for Culture, Media and Sport published a sustainable development strategy in February 2004. I expect to report in March on progress as part of the Department's sustainable development action plan.

Television Licences

Rosie Cooper: To ask the Secretary of State for Culture, Media and Sport how many people in West Lancashire were prosecuted in 2004 for failing to hold a valid television licence. [43159]

Fiona Mactaggart: I have been asked to reply.

The information from the court proceedings database held by the Office for Criminal Justice Reform shows that 4,145 people were proceeded against at magistrates courts in Lancashire police force area for offences under the Wireless Telegraphy Acts 1949 to 1969 (mainly television licence evasion), in 2004. It is not possible to identify those prosecutions in West Lancashire, as the data is not collected at this level of detail.

Urban Design

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport when she last met the Commission for Architecture and the Built Environment to discuss aesthetic urban design. [45964]

Mr. Lammy: My right hon. Friend the Secretary of State met the Commission for Architecture and the Built Environment on 17 January. They discussed her role as Government Design Champion and the promotion of high standards in architecture and urban design, which goes beyond aesthetic considerations. They also discussed how the Commission can help deliver well designed facilities for the London Olympic games in 2012.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Carbon Emissions

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what funding has been made available by her Department for schemes to tackle carbon emissions since 1997; and what money will be made available in future years. [39049]

Mr. Morley: Since DEFRA's inception in June 2001 we have provided significant grant funding for a number of schemes which aim to tackle carbon emissions. Headline programmes include: those governed by the Carbon Trust—who lead in encouraging business and public sector energy efficiency and low carbon innovation; the Energy Saving Trust—whose activities aim at increasing demand for domestic sector energy efficiency and the Emissions Trading Scheme—which reduces carbon emissions at least cost to industry. In summary, the following expenditure has been incurred.

	£ million
2001–02	59
2002–03	108
2003–04	121
2004–05	128
2005–06	[1]130

[1] Budget.

Final budgets for future years are still being determined. This Government remains committed to the policies and measures which will help us meet our goal of a 20 per cent. reduction in carbon dioxide levels by 2010, based on 1990 levels.

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs how many coal-fired power stations she estimates are not complying with the proposed EU legislation which requires the installation of equipment to cut emissions. [45220]

Mr. Morley: Pollution controls for coal-fired power stations in England and Wales are a matter for the Environment Agency and are applied through authorisations issued under the integrated pollution control (IPC) system or by permits under the EU Integrated Pollution Prevention and Control (IPPC) Directive which is replacing IPC. These contain emission limits and other conditions which have to be based on the use of best available techniques (BAT).

The EU Large Combustion Plants Directive (LCPD), which was finalised in 2001 and is being implemented through the IPPC Permit, sets emission limits for releases of sulphur dioxide, nitrogen oxides and dust from these plants but without prejudice to the requirements of IPPC which may in many cases be more stringent.

The LCPD requirements for emissions limits for "existing" coal-fired power stations (those first authorised before 1987) take effect from 1 January 2008. These will be taken into account in setting the emission limits in IPPC permits, for which operators of these power stations have to apply to the Environment Agency by 31 March 2006. Provided their operators comply with their permits (and they would face enforcement action if they did not), all those power stations should therefore comply with the extant EU legislation by the due date. There are currently no EU proposals for further legislation in this area.

Climate Change

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms are in place to ensure regular review of climate change indicators and policy to ensure that the necessary steps are being taken on emissions reductions. [45837]

Mr. Morley: Overall progress on climate change indicators is publicly reported annually, as described on the sustainable development website, and reviewed by the inter-departmental Sustainable Development Programme Board.

The current review of the UK Climate Change Programme is looking at how existing climate change policies are performing, and the range of policies that might be put in place in future to put the UK back on track to achieving our domestic carbon dioxide goals.

Additionally, the Sustainable Energy Policy Network (SEPN), set up following the publication of the Energy White Paper in 2003, meets regularly at official and ministerial level to discuss progress on a range of climate change and energy policy issues.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions her Department has had with the Office of the Deputy Prime Minister on the climate change programme. [45838]

Mr. Morley: I and my officials have regular discussions with the Office of the Deputy Prime Minister on the Climate Change Programme both as part of the review process, and our involvement in the Sustainable Energy Policy Network.

Illegal Timber

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the amount of illegal timber imported into Europe from *(a)* China, *(b)* Indonesia and *(c)* Brazil in each of month of the last three years. [44797]

Mr. Morley: The UK is the world's fourth largest importer of wood products. However, with the exception of species included on the Convention on International Trade in Endangered Species (CITES) we are unable to estimate how much illegally logged timber is coming into the UK as timber is not identified as legal or illegal at ports of entry.

Once the recently adopted EU Forest Law Enforcement Governance and Trade (FLEGT) Regulation comes into force it will enable member states to prohibit the entry into the EU of illegal timber products from countries that enter into Partnership Agreements with the European Union.

Warm Front Scheme

Rosie Cooper: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many households in *(a)* West Lancashire constituency and *(b)* North West region received assistance under the Warm Front scheme in each year since the scheme began; [45022]

(2) what steps the Government are taking to identify older people in fuel poverty who are not in receipt of benefits in West Lancashire. [45035]

Mr. Morley: Between the launch of the Warm Front scheme in June 2000 and the 31 December 2005, the number of households assisted in West Lancashire constituency each year are:

	Number of households assisted
2000–01	364
2001–02	1,023
2002–03	465
2003–04	534
2004–05	1,048
2005–06 (to 31 December 2005)	537
Total	3,971

The number of households assisted in the North West region each year are:

	Number of households assisted
Year 1	23,372
Year 2	74,134
Year 3	55,669
Year 4	48,729
Year 5	47,246
Year 6 (to 31 December 2005)	27,815
Total	276,965

The Warm Front scheme is the Government's main tool for tackling fuel poverty in the private sector. Eligibility for the scheme is via the receipt of one of a number of qualifying benefits.

Eaga Partnership, in their role as Warm Front scheme manager, carry out a range of activities at a national and local level to encourage those households at risk from fuel poverty to apply to the scheme for assistance. Those not in receipt of a qualifying benefit at the time of application are offered a benefit entitlement check, which is designed to provide both the potential of increasing household income and to establish eligibility of households to benefit from measures under Warm Front.

Rosie Cooper: To ask the Secretary of State for Environment, Food and Rural Affairs how many central heating systems have been fitted for people over 65 years under the Warm Front scheme in each year since the scheme started; and what percentage this represents of the total systems fitted in West Lancashire. [45036]

Mr. Morley: During the first phase of the Warm Front scheme new gas central heating was available, as part of Warm Front plus, for those households over 60.

Between the launch of the Warm Front scheme in June 2000 and the end of March 2005, the following table indicates:

The number of gas central heating systems installed by Warm Front across England. The number of gas central heating systems installed by Warm Front in West Lancashire

The number of gas central heating systems installed by Warm Front in households over 65 in West Lancashire.

The percentage of those gas central heating systems installed by Warm Front in West Lancashire for households over 65.

Scheme year	*All gas central heating*	*West Lancashire gas central heating*	*West Lancashire gas central heating (over 65)*	*Percentage of West Lancashire over 65*
2000-01	6,718	18	11	61
2001-02	34,004	67	51	76
2002-03	19,524	25	19	76
2003-04	13,652	26	21	81
2004-05	19,736	21	16	76
Total	93,634	157	99	63

Water/Sewerage Services (Aylesbury Vale)

John Bercow: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Deputy Prime Minister on *(a)* the scale and *(b)* the cost of water supply and sewage treatment requirements arising from planned expansion of housing in Aylesbury Vale. [45340]

Mr. Morley: My right hon. Friend, the Secretary of State and the Deputy Prime Minister have not held discussions on these particular issues.

Aylesbury is served by Thames Water Utilities. Along with the other water supply companies, Thames Water produces a water resources plan, which looks forward 25 years. The plan is updated annually by the company, and is reviewed by the Environment Agency for consistency with the national and regional water resources strategies. Any planned residential developments in the area will be factored into this process.

An integrated study of the whole water cycle at Aylesbury has been commissioned jointly by the Environment Agency, Aylesbury Vale district council, Aylesbury Vale Advantage Ltd (the local delivery vehicle for housing growth) and Thames Water. The study is intended to examine the consequences of the additional housing for water supply, flood risk, sewer capacity, sewage treatment and for the ecology of the River Thames downstream of Aylesbury. The costs and timing of providing the necessary water and sewerage infrastructure and services will be a part of the study.

The first phase is expected to start shortly and to be completed in six to nine months.

DEFENCE

Administrative Costs

Angus Robertson: To ask the Secretary of State for Defence which functions of his core Department are carried out in *(a)* England and *(b)* London; and what administrative costs were associated with these functions for each area in the last year. [39822]

Mr. Weir: To ask the Secretary of State for Defence which functions of his core Department are carried out in *(a)* Northern Ireland and *(b)* Wales; and what administrative costs were associated with these functions for each area in the last year. [39946]

Pete Wishart: To ask the Secretary of State for Defence what functions in his Department are carried out in Scotland; and what the administrative costs of these functions were in the last year for which figures are available. [40013]

Mr. Touhig: Defence is a national capability and is funded accordingly. The wide variety of activities that support the Defence Mission are provided by the Department's 11 Top Level Budget Holders (TLBs) who are responsible for their own element of the Defence Budget. These activities are diverse and widely distributed throughout the UK and as a consequence we cannot answer the question without committing to disproportionate cost.

I refer the hon. Member to the answer given to the hon. Member for Dundee, East (Stewart Hosie) on 9 January 2006, *Official Report*, column 215W.

Armed Forces (Spiritual Care)

Mr. Allen: To ask the Secretary of State for Defence whether he plans to make provision for the spiritual care of armed services personnel who have no declared religion. [45806]

Mr. Touhig: The armed forces provide a comprehensive range of support and care for all their personnel. In addition to this being a key responsibility of every commanding officer, such care is available from unit welfare officers, specialist welfare providers, doctors and other professionals. Chaplains, as well as providing spiritual care for Service personnel and their families within their denomination, also provide practical care for personnel of all religions or none. We also issued last year a "Guide on Religion and Belief", which includes a section on non-religious belief and no belief, including contact details for appropriate organisations.

Civil Servants

Mr. Francois: To ask the Secretary of State for Defence how much has been spent in each year since 1997 by his Department on salaries paid to civil servants. [41584]

Mr. Touhig: The gross salary costs (excluding national insurance contributions and superannuation) paid to civil servants and locally employed civilians (overseas) from 2000–01 to 2004–05 are detailed in the following table.

£ billion

	Civil servants gross salary costs	*Locally employed civilians salary costs*	*Total*
2000–01	1.756	0.221	1.977
2001–02	1.750	0.211	1.961
2002–03	1.754	0.218	1.972
2003–04	1.785	0.241	2.026
2004–05	1.892	0.257	2.149

Detailed analysis for 1997–2000 is not held centrally and could only be provided at disproportionate cost.

The Executive Defence Agencies established as Trading Funds fall outside the departmental accounting boundary. For completeness, I have included the gross salary costs for civil servants and locally employed civilians (overseas) of these organisations from 1997–98 to 2004–05 in the following table.

£ million

	Defence Evaluation and Research Agency (DERA)/defence science and technology laboratory (Dstl)[1]	*UK Hydrographic office*	*Met Office*		*Defence Aviation Repair Agency*	*Army Base Repair Organisation*	
			Civil servants	*Locally employed civilians*		*Civil Servants*	*Locally employed civilians*
1997–98	281	16	55	n/a	n/a	n/a	n/a
1998–99	284	17	57	0.5	n/a	n/a	n/a
1999–2000	293	18	59	0.4	n/a	n/a	n/a
2000–01	305	20	59	0.5	n/a	n/a	n/a
2001–02	141	21	58	0.5	92	n/a	n/a
2002–03	90	22	61	0.5	94	54	n/a
2003–04	97	24	60	0.7	90	52	n/a
2004–05	102	25	58	0.7	81	54	0.9

[1] Up to 2000–01 the figures are for DERA, 2001–02 is three months for DERA and nine months Dstl, 2002–03 onwards are for Dstl

Bob Spink: To ask the Secretary of State for Defence how many disciplinary actions against civil servants employed in his Department *(a)* were commenced and *(b)* resulted in a sanction being applied in each of the last five years. [43498]

Mr. Touhig: Information is not held centrally on the number of Ministry of Defence civil servants that have had disciplinary actions commenced against them and had resultant sanctions applied in each of the last five years. Because action on investigating and dealing with disciplinary offences has been delegated to line management in individual MOD business units, it would incur disproportionate cost to collate the data.

The sanctions that can be awarded against civil servants for breaches of minor and major discipline include any or all of the following (although the list is not exhaustive):

oral warning; written warning; reprimand; a bar on promotion (for up to three years); the withholding of pay and/or bonus payments; restitution (a monetary payment recoverable by deduction from pay);

suspension from duty;

downgrading or dismissal.

Gross misconduct is the only category of major disciplinary offence that can result in dismissal, usually even for a first offence.

Compensation (Japanese Detainees)

Mr. Austin Mitchell: To ask the Secretary of State for Defence whether the original Treasury authority for payments to British civilian detainees of the Japanese allowed payments to be made to detainees with no blood links to the UK. [45336]

Mr. Touhig: HM Treasury agreed that funding for the Ex-Gratia Scheme would initially be made available from the Contingency Reserve pending parliamentary approval for the Scheme as part of the then spring supplementary estimate. At that stage, the birthlink criterion had not been defined though the estimates for the cost of the scheme assumed that payments would only be made to civilian internees with a close link to the United Kingdom.

Departmental Staff/Research Budget

Mr. Chaytor: To ask the Secretary of State for Defence if he will list, for each of the last three years, *(a)* the total number of staff in his Department and *(b)* the total budget allocation related to all aspects of research into thermobaric weapons. [43053]

John Reid: The MOD's research budget is focussed on examining technical possibilities in a variety of technology areas. We do not collate information on research activity in the way requested, not least given the lack of an agreed definition of the term 'thermobaric'. It would be disproportionately expensive and potentially misleading to provide a detailed breakdown for individual research projects.

The MOD remains committed to the UK's obligations and duties under international law and treaties. Any and all weapons introduced into service are subjected to appropriate legal review.

Destroyer/Frigate Tours

Dr. Fox: To ask the Secretary of State for Defence how many tours have been undertaken by each of the *(a)* Type 42 Destroyers, *(b)* Type 22 frigates and *(c)* Type 23 frigates in the last three years; where each tour was; what the length of each tour was; and what the length of time was between each tour. [45143]

Mr. Ingram: A Royal Navy tour or deployment is considered to be an activity of at least 90 days' endurance. A list of each deployment, its duration and the ships engaged on it is as follows:

Type	*Ship*	*Tour Length*	*Tour*
2003			
T42	Liverpool	January-July	Gulf/Far East
T22	Cornwall	March-October	West Atlantic
T22	Chatham	January-August	Gulf
T23	Portland	February-August	Mediterranean
T23	Iron Duke	January-August	Caribbean
T23	Richmond	February-August	Gulf/Indian Ocean
2004			
T42	Edinburgh	April-August	Standing Naval Force Atlantic
T42	Gloucester	January-June	Gulf with the French aircraft carrier Charles de Gaulle
T42	Exeter	March-November	Five Powers Defence Arrangement
T22	Campbeltown	October 2003-May 2004	Standing Naval Force Atlantic
T22	Cumberland	April-October	Gulf-Op Oracle
T23	Somerset	June-December	Gulf-Op Armilla/Telic
T23	Monmouth	December 2003-July 2004	Atlantic Patrol Task (North)
T23	Iron Duke	September-December	Atlantic Patrol Task (South)
T23	Richmond	July-December	Atlantic Patrol Task (North)
T23	Grafton	February-August	Gulf-Op Armilla
T23	Kent	August-December	NATO-Mediterranean
T23	St. Albans	November 2003-May 2004	Gulf-Op Oracle
2005			
T42	Gloucester	November 2004-March 2005	Atlantic Patrol Task (South)
T42	York	May-November	Five Powers Defence Arrangement
T42	Liverpool	December 2004-August 2005	Atlantic Patrol Task (North)
T42	Southampton	August 2005-February 2006	Atlantic Patrol Task (South)
T22	Campbeltown	July-December	Gulf-Op Telic
T22	Chatham	November 2004-May 2005	Gulf-Op Oracle
T22	Cumberland	August-December	Atlantic Patrol Task(North)
T23	Portland	March-September	Atlantic Patrol Task(South)
T23	Somerset	June-August	Nato
T23	Argyll	February-August	Gulf-Op Telic
T23	Monmouth	November 2004 May 2005	Nato
T23	Montrose	October 2005-April 2006	Gulf-Op Telic

Iraq

Mr. Ancram: To ask the Secretary of State for Defence (1) how many of the violent contacts between Coalition forces and insurgents in Iraq in the last 12 months were initiated by *(a)* British forces, *(b)* non-British Coalition forces and *(c)* insurgents; and if he will make a statement; [29888]

(2) when he will answer the question from the right hon. and learned Member for Devizes, reference 29888, tabled on 15 November for answer on 17 November. [36797]

Mr. Ingram: During 2005 there were some 25,200 recorded violent incidents involving Coalition troops across the whole of Iraq. Of these, about 510 took place in MND(SE). It is not possible in all cases to determine whether those who engaged our troops were Iraqis or foreign insurgents. Nor is it always possible to determine whether those incidents represented planned attacks on the Coalition, or chance encounters with those engaged in criminal behaviour.

In MND(SE), British troops are authorised to open fire only when they judge that doing so is the only way in which they can avert a threat to life. It follows that in the vast majority of incidents, British troops will only have opened fire when fired upon, or when clear hostile intent had been demonstrated towards them.

Peter Law: To ask the Secretary of State for Defence whether British troops have visited the Iraqi Interior Ministry Building in the Jadirya district of Baghdad. [35803]

Mr. Ingram: United Kingdom troops have visited the Iraqi Interior Ministry building in the Jadirya district of Baghdad. They did not visit the detention facility in the basement of the building nor did they see any evidence of abuse.

Dr. Fox: To ask the Secretary of State for Defence how many joint exercises have been conducted by elements from *(a)* 16 Air Assault Brigade and *(b)* the Joint Helicopter Command for possible deployment to Iraq; and if he will make a statement. [42986]

Mr. Ingram: Elements from the Joint Helicopter Command (JHC), including 16 Air Assault Brigade, have undertaken no joint exercises in preparation for a possible future deployment to Iraq. JHC has, however provided Battlefield Helicopter support to 12 joint exercises in order to prepare other units and formations for such a deployment.

I can however confirm that Joint Helicopter Command has undertaken three joint exercises in preparation for a possible deployment of elements of 16 Air Assault Brigade to Afghanistan.

Military Personnel (Private Hiring)

Andrew Mackinlay: To ask the Secretary of State for Defence (1) whether members of *(a)* the Royal Military Police and *(b)* other military units have been hired on a (i) part-time and (ii) consultancy basis by (A) C Force Security and (B) other private security companies in the last five years; and if he will make a statement; [39600]

(2) who will conduct the investigation ordered into the unauthorised hiring of service personnel by private security companies; and if he will make a statement. [39604]

Mr. Ingram: Information on whether members of military units have been hired by any private companies is not held centrally. In accordance with The Queen's Regulations, records of all approved applications to undertake off duty employment are maintained by Commanding Officers. Such records are retained at unit level and only for as long as the applicant remains at the unit.

Recent allegations in the media concerning C Force Security are being investigated by the Royal Military Police.

QinetiQ

Dr. Cable: To ask the Secretary of State for Defence what benefits employees of QinetiQ will receive from the company's flotation. [44178]

John Reid: The financial benefits to QinetiQ employees at the time of the initial public offering (IPO) are two-fold; first they will benefit from the award of free shares (£500 each) and the opportunity to purchase further shares in priority offers; secondly those who acquired shares or options at the time of the original public private partnership with the Carlyle Group will have the opportunity to exercise those options or sell those shares. Senior managers will be subject to a lock-up agreement which restricts the proportion of shares they are able to sell at the IPO and for the three years after flotation, and the chairman and chief executive will sell no shares at IPO. Full details of employee share schemes will be set out in the Prospectus, a copy of which will be placed in the Library of the House once it has been published.

Mr. Duncan: To ask the Secretary of State for Defence if he will make a statement on the availability of shares in QinetiQ to QinetiQ employees. [43849]

John Reid *[holding answer 19 January 2006]:* At present, a total of 13 per cent. of the company is owned by QinetiQ employees in the form of ordinary shares (including share options): 7 per cent. by the company's 250 to 300 managers, and 6 per cent. by other members of the work force. All QinetiQ employees were given the chance to buy shares in the company at the time of the Public Private Partnership between the Ministry of Defence (MOD) and the Carlyle Group, and around 2,000 chose to do so. The investment amount was not restricted and provided for employees to invest through a Co-investment share scheme on the same terms as the MOD and the Carlyle Group. All employees were also issued free share options worth a nominal value of £40 on 25 July 2003. All QinetiQ employees have now been offered £500 of free shares to be awarded on the date of the Initial Public Offering and they will also be entitled to purchase additional shares at that time. Full details of employee share schemes will be set out in the prospectus, a copy of which will be placed in the Library of the House once it has been published.

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether his Department will have the power to veto third party contracts proposed to be entered into by QinetiQ following its flotation. [44160]

John Reid: The existing arrangements, which were established in July 2001, and which allow the Ministry of Defence to prevent QinetiQ entering into transactions that would cause an unmanageable conflict of interest or otherwise be contrary to the defence or security interests of the UK, with the company's contracts with the MOD, will remain in place.

Mr. Hancock: To ask the Secretary of State for Defence what discussions his Department has had with the United States Administration on the proposed sale of QinetiQ; and if he will make a statement. [44532]

John Reid: The Ministry of Defence has kept the United States Administration, and other allies, informed throughout the Public Private Partnership process for QinetiQ (and formerly the Defence Evaluation and Research Agency). This has been through various means, including briefing by staff from the British embassy Washington and updates at international meetings.

Mr. MacNeil: To ask the Secretary of State for Defence what share options will be made available to each grade of employee of QinetiQ. [44956]

John Reid *[holding answer 23 January 2006]:* The Initial Public Offering will include an employee offer which will, regardless of grade, provide £500 of free shares to all QinetiQ employees. In addition, all employees will be entitled to purchase further shares at

that time. Full details of employee share schemes will be set out in the Prospectus, a copy of which will be placed in the Library of the House once it has been published.

RAF Hythe, Hampshire

Dr. Julian Lewis: To ask the Secretary of State for Defence (1) what assessment he has made of the *(a)* current and *(b)* future roles of RAF Hythe, Hampshire, in respect of (i) the refurbishment of military watercraft and (ii) the repair of mobile military generators and trailers; [45316]

(2) whether he has received proposals by the United States to *(a)* discontinue and *(b)* relocate the functions carried out at RAF Hythe. [45318]

Mr. Ingram: RAF Hythe is an RAF facility made available to the United States visiting force under the terms of the NATO Status of Forces Agreement 1951. It is currently operated by the US Army as a combat equipment base whose mission is the repair and maintenance of US Army water vessels, vehicles and mobile equipment. This includes the occasional modification of US Army boats and the repair and refurbishment of flatbed trailers and power generators.

No US proposals have been received regarding an alteration to the US Army's current use of RAF Hythe.

Sea Cadets

Dr. Fox: To ask the Secretary of State for Defence what funding was provided to sea cadets in each year since 1997. [45685]

Mr. Touhig: Prior to financial year 1999–2000 records of funding to the Sea Cadet Association, and more recently to the Marine Society and Sea Cadets, the parent charitable organisation of the Sea Cadet Corps, are no longer held. Details of funding provided since then are as follows:

Financial year	*£ million*
1999–2000	6,448
2000–01	6,942
2001–02	7,879
2002–03	7,852
2003–04	7,996
2004–05	8,397

Figures for financial year 2005–06 are not yet available.

Smuggling (Mediterranean)

Mr. Ancram: To ask the Secretary of State for Defence what recent discussions he has had with *(a)* EU and *(b)* NATO colleagues about the use of British naval ships to combat people and narcotic smuggling in the Mediterranean. [44227]

Mr. Ingram: Ministers have had no discussions within either the EU or NATO about the use of British naval ships to combat people and narcotic smuggling in the Mediterranean.

However, we are alive to this issue and RN ships transiting the Mediterranean are in contact with littoral states and will, as appropriate, pass intelligence relating to people suspected of engaging in unlawful activity to the anticipated country of destination. For example, in October 2005 the UK contributed a Nimrod Maritime Patrol Aircraft on a short term basis to Operation NEPTUNE IV, a Greek-Italian operation to organise and perform counter illegal immigration operations in pre-defined sea areas and ports in the Mediterranean.

United States Military Assets

Dr. Julian Lewis: To ask the Secretary of State for Defence if he will list the principal United States military assets in the United Kingdom; and where those assets are located. [45314]

Mr. Ingram: The locations of the principal United States military assets in the United Kingdom are:

RAF Alconbury, Cambridgeshire
RAF Croughton, Northants
RAF Daws Hill, Buckinghamshire
RAF Fairford, Gloucestershire
RAF Feltwell, Norfolk
RAF Hythe, Hampshire
RAF Lakenheath, Suffolk
RAF Menwith Hill, North Yorkshire
RAF Mildenhall, Suffolk
RAF Molesworth, Cambridgeshire
RAF Upwood, Cambridgeshire
RAF Welford, Berkshire.

Dr. Julian Lewis: To ask the Secretary of State for Defence what assessment he has made of the contribution made by United States military assets based in the United Kingdom to *(a)* the overall military capability of NATO and *(b)* local economies. [45317]

Mr. Ingram: United States visiting force military assets stationed in the United Kingdom are potentially available, as necessary, in support of NATO missions. Any actual deployment will be undertaken on a case-by-case basis.

The US visiting force makes a significant contribution to the local economies, where they have a large presence, largely through the direct hire of labour and the award of contracts on, for example, construction projects as well as more routine servicing and maintenance works. It is difficult to gauge a precise figure in monetary terms although one study by the US Air Force Europe suggests that the overall benefit to the UK economy in 2004 was in the region of $1 billion.

War Pensions Committee

Mr. Benyon: To ask the Secretary of State for Defence what the average time taken by a war pensions committee panel to report its findings once it has been convened is in the last period for which figures are available; and what the average time taken to act on the recommendation of such panels was in that period. [45224]

Mr. Touhig: For the period April 2004 to March 2005 there were 11 panel cases heard by war pensions committees. The average time taken for a War Pension Committee (WPC) to report its findings was 26 working days. It then took the Veterans Agency an average 33 working days to act on those recommendations.

Mr. Benyon: To ask the Secretary of State for Defence whether the age of claimants of war disability pensions is taken into account in the prioritising of the processing of such claims. [45225]

Mr. Touhig: The Veterans Agency client group consists primarily of the older world war two generation, with well over 60 per cent. being aged 70 or over. With such a high number of elderly pensioners cases are prioritised on a needs basis with terminally ill, cancer and far east prisoners of war cases being fast tracked. Other cases are dealt with as a matter of priority where individual circumstances of the case require it.

MINISTER FOR WOMEN

Commission for Equality and Human Rights

Anne Snelgrove: To ask the Minister for Women and Equality if she will ensure that the Commission for Equality and Human Rights will provide a regional network of local organisations to carry out anti-discrimination and racial equality work. [44100]

Meg Munn: The Government are committed to the Commission for Equality and Human Rights having an effective regional presence to help it better serve all parts of Britain. These regional arrangements, which we will develop through consultation in due course, will enable the CEHR to understand local and regional priorities, build networks and partnerships with local bodies, and deliver services that are relevant and appropriate. The CEHR will have powers to make grants to local organisations, including continuing support for the network of Racial Equality Councils and its anti-discrimination and local race equality work. The work of the RECs is an important foundation on which the new Commission will build. The Government have made clear that funding through the CEHR for the RECs will be maintained at current levels for the foreseeable future.

Senior Public Appointments

Miss McIntosh: To ask the Minister for Women and Equality what discussions she has had with the Chancellor of the Duchy of Lancaster on the promotion of women to senior public appointments. [44052]

Meg Munn: I am pleased that the percentage of women in public appointments has risen from 32 per cent. in 1997 to 38 per cent. in 2004–05 but still below the Government target of 50 per cent.

I look forward to discussing how to continue with this important work once the post of the Chancellor of the Duchy of Lancaster is filled.

SCOTLAND

Arbuthnott Commission

Mark Williams: To ask the Secretary of State for Scotland when the Arbuthnott Commission on Boundary Differences and Voting Systems in Scotland will publish its report; and if he will make a statement. [44051]

David Cairns: The Arbuthnott Commission published its report on Thursday 19 January. My right hon. Friend welcomed the report and said he would consider carefully the recommendations and respond in due course.

Departmental Expenditure

Mr. Weir: To ask the Secretary of State for Scotland how much was spent on external consultants and advisers by *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) Executive agency for which his Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by his Department in each year since May 1997. [39071]

David Cairns: The Scotland Office was established on 1 July 1999. Since that date, the Scotland Office has spent the following on external consultants and advisers:

	£
1999–2000	0
2000–01	5,465
2001–02	17,864
2002–03	10,720
2003–04	10,044
2004–05	2,817

Mr. Weir: To ask the Secretary of State for Scotland how much was spent on advertising by *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* each independent statutory body, organisation and body financially sponsored by his Department in each year since May 1997. [39073]

David Cairns: The Scotland Office was established on 1 July 1999; since that date, the Office has spent the following on advertising:

	£
1999–2000	26,861
2000–01	270,494
2001–02	186,564
2002–03	10,390
2003–04	0
2004–05	0

Most of the expenditure in 2000–01 and 2001–02 relates to electoral registration matters; since 2001, this has been the responsibility of the Electoral Commission.

The Boundary Commission for Scotland has spent the following on advertising:

	£
1999–2000	0
2000–01	0
2001–02	0
2002–03	107,349
2003–04	66,105
2004–05	0

Norman Lamb: To ask the Secretary of State for Scotland how many widescreen televisions have been purchased by his Department for use in London headquarters in each of the last five years; and what the cost was in each year. [39136]

David Cairns: The Scotland Office does not maintain a central record of electrical devices purchased. The information requested could therefore be provided only at disproportionate cost.

Stewart Hosie: To ask the Secretary of State for Scotland what the total administrative costs of his core Department were in the last period for which figures are available; and whether these are regarded as *(a)* identifiable and *(b)* non-identifiable for the purposes of public expenditure statistical analyses. [39830]

David Cairns: The total administration costs for the Scotland Office for 2005–06 is £4.789 million which is all regarded as identifiable.

Scottish Parliament

Mr. MacNeil: To ask the Secretary of State for Scotland what plans he has to meet representatives of the *(a)* Scottish Parliament and *(b)* Scottish Executive to discuss mechanisms for consulting on the Government's policy on changing the number of Members of the Scottish Parliament. [40020]

David Cairns: There are no plans for such meetings. Government policy on the number of Members of the Scottish Parliament is reflected in the Scottish Parliament (Constituencies) Act 2004.

PR Companies

Mr. Weir: To ask the Secretary of State for Scotland if he will list the public relations companies that have had contracts with *(a)* his Department, *(b)* each (i) non-departmental public body and (ii) executive agency for which his Department is responsible and *(c)* independent statutory bodies, organisations and bodies financially sponsored by his Department and other such organisations since May 1997. [39072]

David Cairns: The Scotland Office was established on 1 July 1999; since that date, no contracts have been awarded to any public relations companies.

Proceeds of Crime Act

Mr. Devine: To ask the Secretary of State for Scotland how much money was recovered in Livingston as a consequence of the Proceeds of Crime Act 2002 in 2004. [38434]

David Cairns: This is a devolved matter and the information requested is not broken down by constituency or local authority area. However, from 1 April 2004 to 31 March 2005, the Financial Crime Unit of the Crown Office successfully obtained confiscation orders for over £1,367,000 worth of assets gained from criminal activity for the whole of Scotland. In addition, restraint orders were granted during that period for £37,860,000 worth of assets.

Television Licence

Mr. Devine: To ask the Secretary of State for Scotland how many people in Livingston were prosecuted in 2004 for failing to hold a current TV licence. [38432]

David Cairns: Responsibility for these statistics lies with the Scottish Executive.

NORTHERN IRELAND

Aimspro

Dr. McCrea: To ask the Secretary of State for Northern Ireland what assessment has been made of the merits of the introduction of the medicine Aimspro in Northern Ireland for patients with secondary progressive multiple sclerosis. [44919]

Mr. Woodward: The Department of Health, Social Services and Public Safety has made no assessment of the merits of introducing Aimspro in Northern Ireland for patients with secondary progressive multiple sclerosis. Aimspro is not a licensed medicine in the United Kingdom. Before a product is granted a licence, an applicant needs to demonstrate that the product complies with appropriate standards of safety, quality and efficacy as laid out in the relevant European and national legislation and guidelines. This will include demonstration of the safety and efficacy of the product in appropriately conducted clinical trials in the population for which the medicine is to be used.

Child Care

Chris Ruane: To ask the Secretary of State for Northern Ireland how many *(a)* state funded and *(b)* private child care places there are in each ward in each Parliamentary constituency in Northern Ireland expressed as (i) a number and (ii) a percentage of children and listed in descending order. [45652]

Mr. Woodward: The information is not available in the format requested. The latest available information on state funded and private child care places in Northern Ireland is detailed in Table 1 and Table 2 below by Health and Social Services Trusts, and relates to the position as at 31 March 2005.

The information in Table 1, column *(a)* details for each HSS Trust the total numbers of private day care places[1] for children, and this total expressed as a percentage of the population aged under 18[2] for each Trust and for Northern Ireland as whole (column *(b)*) in descending order.

Table 2 details similar totals *(c)* and percentages *(d)* as per Table 1, in respect of children placed and paid for by Trusts. Table 2 also details children placed and paid for by Trusts as a percentage of private day care places *(e)*.

[1] Including Day Nurseries, Play Groups and Child Minders

[2] Based on the 2001 Census of Population in Northern Ireland

Table 1

Trust	Private day care places for children (a)	Private day care places for children as a % of the population aged under 18 (b)
South and East Belfast	4,467	10.5
Ulster Community and hospitals	3,514	10.0
Causeway	2,329	9.0
Homefirst	6,764	7.9
Down Lisburn	3,260	6.8
Craigavon and Banbridge	1,800	5.4
Armagh and Dungannon	1,339	4.5
Sperrin Lakeland	1,248	3.7
North and West Belfast	1,405	3.3
Foyle	1,327	2.7
Newry and Mourne	464	1.8
Northern Ireland	27,917	6.2

Table 2

Trust	Children placed and paid for by Trust (c)	Children placed and paid for by Trust as a % of the population aged under 18 (d)	Children placed and paid for by Trust as a % of the private day care places (e)
Craigavon and Banbridge	129	0.4	7.2
South and East Belfast	140	0.3	3.1
Armagh and Dungannon	81	0.3	6.0
Ulster Community and hospitals	92	0.3	2.6
Down Lisburn	121	0.3	3.7
Causeway	60	0.2	2.6
Newry and Mourne	55	0.2	11.9
Homefirst	175	0.2	2.6
North and West Belfast	45	0.1	3.2
Foyle	18	0.0	1.4
Sperrin Lakeland	11	0.0	0.9
Northern Ireland	927	0.2	3.3

Civil Service

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what steps he is taking to avert the possible Civil Service industrial action in Northern Ireland. [44801]

Angela E. Smith: The Government regrets the Trade Union's decision to proceed with a statutory ballot for strike action. As part of the normal negotiating process officials had a series of meetings with trade union representatives on the 2005 pay round dating back to July of last year. In addition, my right hon. Friend the Secretary of State for Northern Ireland met personally with the Trade Union on two occasions in an attempt to reach agreement with them on the 2005 pay deal. During the course of the negotiations a number of information bulletins were issued to staff, continually up-dating them on the negotiations and providing them with details of the 3.49 per cent. pay offer made by management. This offer represented the maximum available to the Northern Ireland Civil Service under the terms of the Government's pay policy. Officials made it clear that they were prepared to negotiate the content of the offer in order better to meet Trade Union concerns, subject to remaining within the 3.49 per cent. envelope approved.

Under the terms of the offer the majority of staff this year will see their pay increase by between 2.2 per cent. and 6.5 per cent. depending on their position on their pay scale. It took cognisance of the fact that inflation was 2.3 per cent. at July 2005 (the settlement date was 1 August) while private sector earnings growth was less than 3 per cent. In this wider context I firmly believe that the 2005 pay deal is fair and reasonable and represents the best that could have been achieved for staff in the prevailing economic circumstances.

There was no additional money available for this year's pay round and as a result there was nothing to be gained in further delaying payment of the pay offer to staff. My right hon. Friend the Secretary of State therefore wrote to all staff on 20 December 2005 indicating that the deal would be paid as soon as possible. This was the fairest course of action in all the circumstances. Naturally it would have been preferable if agreement could have been reached with the Trade Union not just on this year's pay deal but on how best to address next year's pay remit. In that context My right hon. Friend the Secretary of State has invited the Trade Union to work with officials in developing the strongest possible business case in support of the 2006 pay remit. I hope that that invitation will be accepted and that we can work constructively together to secure the best possible deal for staff in 2006.

I hope that the staff will form a judgment based on the facts, and that a strike can thus be avoided. In the meantime however, Departments have been asked to draw up appropriate contingency plans to be put in train in the event of an all out strike. All appropriate measures will of course be taken to minimise the impact of any strike action on our public services.

Civil Service Relocation

Mr. Dodds: To ask the Secretary of State for Northern Ireland what progress has been made in relation to the Lyons Relocation Target for the Northern Ireland Office. [44514]

Mr. Woodward: The Lyons report asked that eight NIO staff be relocated from London and the South East of England by March 2008. The Northern Ireland Office is on target to deliver 9.5 staff by this date and have at present (January 2006) delivered 6.5 staff.

Communication Aids Project

Mark Durkan: To ask the Secretary of State for Northern Ireland whether he plans to extend the Communication Aids Project launched by the Department for Education and Skills in England in 2002 to Northern Ireland. [44201]

Angela E. Smith: There are no plans to introduce the Communication Aids Project, which has run in England and Wales from 2002 and will end this year, to Northern Ireland. The remit of this project is covered by the C2k (Classroom 2000) project in Northern Ireland.

Crime

Mr. Dodds: To ask the Secretary of State for Northern Ireland what progress has been made by his Department in its objective of reducing crime and the threat of crime. [44886]

Mr. Hanson: The Northern Ireland Office has a specific public service agreement to reduce the incidence of domestic burglary in Northern Ireland by 15 per cent. by March 2007 and to reduce vehicle crime by 10 per cent. in the same timescale. The reduction is measured against the recorded crime figures for the year 2001–02.

At 31 March 2005, the level of domestic burglary against the 2001–02 recorded crime figures had reduced by 19.5 per cent. and the level of vehicle crime by 37 per cent. Further reductions have been noted in the crime figures for the first nine months of the 2005–06 year against both categories of crime. We are therefore well on course to meet these targets but will continue to closely monitor progress and take appropriate action where necessary.

While there is no specific target to reduce the fear of crime, we consider reducing fear of crime to be a key part of our target to improve confidence in the CJSNI. It is crucial that the people of Northern Ireland feel safe in their homes and in going about their daily lives. The criminal justice organisations, working together through the Criminal Justice Board, are committed to improving public awareness and understanding of the justice system, and therefore help reduce fear of crime. A number of these initiatives include: a one-stop CJSNI website, a criminal justice module in the citizenship curriculum for key stage 4, and a series of criminal justice roadshows planned for spring and summer of this year.

All criminal justice agencies are working towards reducing crime and the fear of crime. The police are, for example, on course to meet their target in the Policing Plan around the number of police that are available for frontline duties by 2007–08. The Northern Ireland Community Safety strategy outlines further measures to be taken forward to tackle fear of crime among older people, vulnerable adults and children. A number of successful projects have or are being implemented, including the extension of the Bee Safe project for primary school children, supporting "Get Home Safe" projects across Northern Ireland and providing information to older people about bogus callers in addition to improving home security through the Lock Out Crime scheme.

Departmental Equipment

Mrs. Villiers: To ask the Secretary of State for Northern Ireland how many *(a)* laptops and *(b)* mobile phones his Department bought in each year since 1997; and what the cost of each category of equipment was in each year. [41273]

Mr. Woodward: The Northern Ireland Office (NIO), excluding its Agencies and NDPBs, is unable to provide all of the information requested by the hon. Member.

In regards to question *(a)* the Department has purchased the following number of laptops since 1997:

	Number
1997–98	28
1998–99	34
1999–2000	55
2000–01	30
2001–02	22
2002–03	34
2003–04	37
2004–05	34

Each laptop costs, on average, £1,500.

In regards to question *(b)*, we are unable to provide total numbers and costs of mobile phones as the majority of them have been purchased as part of a contract package which does not involve a cost at the time of purchase. The numbers of mobile phones we have purchased outside of contract packages are as follows:

	Number
1997–98	6
1998–99	8
1999–2000	1
2000–01	3
2001–02	3
2002–03	6
2003–04	1
2004–05	5
2005–06	2

Departmental Expenditure

Mrs. Villiers: To ask the Secretary of State for Northern Ireland how much was spent by his Department on refreshments in each year since 1997. [41256]

Mr. Woodward: The Northern Ireland Office (NIO), excluding its Agencies and NDPBs, is unable to provide an answer in the form requested by the hon. Member due to the NIO's financial system being unable to separate out this type of expenditure. To answer the hon. Member's question would involve a manual trawl of files which could only be carried out at disproportionate cost.

Departmental Finance

Mr. Dodds: To ask the Secretary of State for Northern Ireland what efficiency gains have been made by the Northern Ireland Office in each of the last three years for which figures are available. [44518]

Mr. Woodward: The Northern Ireland Office has been collating detailed information regarding efficiency gains since 2004–05. Information prior to this date would not be sufficiently comprehensive to allow for a wholly accurate picture to be articulated.

In 2004–05 efficiency gains of £8.6 million were identified across the range of bodies which come within the NIO departmental expenditure limit, including the core Department, PSNI, and NI Prison Service. In 2005–06, it is expected that these same organisations will generated efficiency gains of almost £39 million.

Education and Library Boards

Mark Durkan: To ask the Secretary of State for Northern Ireland for what reason the senior education officer posts in the *(a)* Western and *(b)* Southern education and library boards are not being advertised publicly. [45185]

Angela E. Smith: The Senior Education Officer posts have been created as a result of a collaborative working proposal brought forward by the Southern and Western Education and Library Boards and are being trawled on a restricted basis between both Boards. The Boards and the Staff Commission for the Education and Library Boards have advised that under existing procedures, appointment to any reconfigured post/s within a new structure where voluntary redundancies have been approved can be made on the basis of a restricted trawl within the defined unit of redundancy. In the case of these posts, the unit of redundancy is the Western and Southern Education and Library Boards and the posts, which have a fundamentally new remit within a Collaborative Working context, are being trawled on a restricted basis within both Boards. This is to ensure that the necessary savings are achieved at each Board.

Under RPA Boards are conscious of the need to plan for reduction in staffing levels while taking all reasonable steps to avoid compulsory redundancies. To achieve this, Boards, with the agreement of the Staff Commission, are using restricted trawls to avoid adding to their staffing complements and to achieve efficiency savings.

Mark Durkan: To ask the Secretary of State for Northern Ireland whether education and library boards require departmental approval before recruiting for a senior post by internal trawl rather than public advertisement. [45186]

Angela E. Smith: The Staff Commission for education and library boards is the statutory body that is responsible for the oversight of matters connected with the recruitment, promotion, training and terms and conditions of employment of education and library board staff. It has agreed with the five boards procedures for the recruitment of staff that reflect legislative requirements and good practice. The Department's approval role in such matters relates only to the arrangements for appointing at chief executive and chief librarian level and the terms and conditions of remuneration for second tier posts.

Under RPA boards are conscious of the need to plan for reduction in staffing levels while taking all reasonable steps to avoid compulsory redundancies. To achieve this, boards, with the agreement of the Staff Commission, are using restricted trawls to avoid adding to their staffing complements and to achieve efficiency savings.

Education Finance

Chris Ruane: To ask the Secretary of State for Northern Ireland how much funding per pupil in real terms was spent on *(a)* primary, *(b)* secondary and *(c)* further education in each local authority area of Northern Ireland in each of the past 20 years. [44526]

Angela E. Smith: The information in the form requested is not available in the format or over the time period requested.

Firearms

Andrew Rosindell: To ask the Secretary of State for Northern Ireland how many suspected members of the IRA have been found in possession of firearms since the IRA declared it had fully disarmed. [43726]

Mr. Woodward: PSNI has confirmed that no suspected members of the IRA have been found in possession of firearms since the IRA declared it had fully disarmed.

Hospitals (Delayed Discharges)

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps he is taking to reduce unnecessary delays in discharges from hospitals in Northern Ireland. [44910]

Mr. Woodward: Reducing the number of delayed discharges is a key priority for the Government. We have set a target to reduce the number of delayed discharges in 2005-06 by 15 per cent. Action is being taken to streamline processes within hospitals to ensure that people remain as patients no longer than is necessary.

HPSS bodies have drawn up detailed plans to address delayed discharge, a key feature of which is the expansion of intermediate care services designed to prevent unnecessary admissions and facilitate prompt discharge. These developments are part of wider reform and modernisation across the HPSS, which aims to reduce reliance on hospitals by expanding community-based services so that people can have access to efficient and high quality services in the most appropriate setting.

Inter-community Projects

Mark Durkan: To ask the Secretary of State for Northern Ireland what measures he is proposing to sustain PEACE II funded inter-community projects in Northern Ireland beyond 2008. [43829]

Angela E. Smith: EU PEACE funding is finite, special assistance. As a result, all assisted projects were required to have an exit strategy in place.

We have now secured a third round of EU PEACE funding but with a much smaller budget than before. The details of this third PEACE Programme, including its spending priorities and project selection criteria, will be developed following extensive consultation over the coming months. Some projects currently funded under PEACE II may be eligible to compete with other project proposals for a share of the available funding.

Alternatively, some current PEACE II projects may bid for mainstream public expenditure. Such bids will be assessed against other, competing bids on the basis of merit and potential contribution to the overall objectives of the relevant accountable Department.

Interuterine Insemination

Mark Durkan: To ask the Secretary of State for Northern Ireland for how many patients each health board has commissioned interuterine insemination (IUI) treatment in each of the last five years, broken down by IUI *(a)* service provider and *(b)* location. [44817]

Mr. Woodward: The number of patients for whom interuterine insemination treatment (IUI) was commissioned in each of the last five financial years is shown in the following table:

Number of patients receiving Interuterine Insemination Treatment

Health Board of Residence	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Eastern[1]	n/a	70	40	100	35
Northern[1]	n/a	n/a	102	111	129
Southern	150	150	150	150	150
Western	58	42	45	31	54

[1] Figures for Eastern Board are not available for 2000–01 and Northern Board figures are not available prior to 2002–03.

Note:
Eastern Board figures do not include unstimulated intrauterine insemination (SIUI) treatments.

Mark Durkan: To ask the Secretary of State for Northern Ireland how many patients have received interuterine insemination treatment at Altnagelvin Area Hospital in each of the last five years. [44818]

Mr. Woodward: The number of patients who have received interuterine insemination treatment at Altnagelvin Area Hospital is shown in the following table. It is important to note that each patient will have had up to four cycles of treatment with numerous hospital visits for each cycle.

	Number of patients
2000–01	58
2001–02	42
2002–03	45
2003–04	31
2004–05	54

Source:
Altnagelvin Group HSS Trust

Mark Durkan: To ask the Secretary of State for Northern Ireland how many patients have been affected by the withdrawal of interuterine insemination services at Altnagelvin Area Hospital. [44819]

Mr. Woodward: There are currently 68 patients on the waiting list for interuterine insemination treatment at Altnagelvin Area Hospital. In addition, there are 94 patients who have already been registered for interuterine insemination treatment and will have their treatment completed.

Mark Durkan: To ask the Secretary of State for Northern Ireland how long the *(a)* waiting lists and *(b)* average waiting times are for interuterine insemination treatments in Northern Ireland, broken down by provider. [44820]

Mr. Woodward: Waiting list information is collected by time band. It is therefore not possible to calculate the arithmetic mean (average) length of time waiting. It is however possible to identify the median or mid point waiting time band.

The number of patients waiting for interuterine insemination treatment (IUI) and the median waiting times for Altnagelvin Group, Craigavon Area Hospital Group and the Royal Group of Hospitals Health and Social Service Trusts (the three providers of this service) are shown in the following table.

Waiting for interuterine insemination treatment at 31 December 2005

Health and social service trust	*Number waiting*	*Median waiting time band*[1]
Altnagelvin Group	68	6 months for women approaching 38 years 15–18 months for younger women
Craigavon Area Hospital Group[2]	n/a	< 1 month
Royal Group of Hospitals	62	Not able to provide median waiting times

n/a = not available

[1] Waiting times are from consultant referral to commencement of treatment.

[2] For number waiting, fertility patients cannot be identified separately from gynaecology patients.

Mark Durkan: To ask the Secretary of State for Northern Ireland if he will make a statement on the limitation and subsequent withdrawal of interuterine insemination services at Altnagelvin Area Hospital in late 2005; and what steps he is taking to provide alternative service providers for the patients affected. [44821]

Mr. Woodward: Interuterine insemination (IUI) was provided at Altnagelvin until December last year. However, in 2005 the Trust assessed how it could most appropriately maintain existing services within Obstetrics and Gynaecology in the context of competing clinical priorities, the constraints of the new consultant contract and the effectiveness of treatments.

On the basis of this assessment the Trust, together with the Western Board, has determined that patients who require IUI treatment should more appropriately be referred to the specialised fertility services at the Regional Fertility Centre (RFC).

Patients wishing to access publicly funded IVF services are required to have had four IUI treatments. The Trust advises that those patients who have already commenced their IUI treatment cycle at Altnagelvin will have their four cycles completed there.

The Western Board has made arrangements to commission IUI treatment from the RFC for those patients who have not yet commenced treatment.

Mark Durkan: To ask the Secretary of State for Northern Ireland what plans he has to review the number of interuterine insemination treatments a patient has to undergo in order to qualify for health service-funded IVF treatment; and if he will make a statement. [44823]

Mr. Woodward: In 2001 a Steering Group established by the Health and Social Services Boards recommended that couples with unexplained fertility of at least three years duration and those with minimal/mild endometriosis or mild or moderate male factor infertility should have at least four cycles of interuterine insemination before accessing publicly funded fertility services.

I expect to announce revised criteria for accessing IVF and related treatments in the very near future.

IRA Decommissioning

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 9 January 2006, *Official Report*, column 329W, on IRA decommissioning, what the *(a)* original and *(b)* final estimates were for the size of the IRA arsenal. [46467]

Mr. Woodward: It remains the case that publishing estimates of IRA armaments would be tantamount to pre-empting the IICD's report, which it intends to hand over to Government at the conclusion of its work.

The Government expect a full report on armaments to be published when the IICD's mandate is complete.

IRA Prisoners (Early Release)

Andrew Rosindell: To ask the Secretary of State for Northern Ireland how many members of the IRA have been released from jail before their sentence has been fully served since 1997, broken down by the year which they were released. [43752]

Mr. Woodward: The information sought is available only in relation to the perceived affiliation of those persons who were released 'early' under the terms of the Northern Ireland (Sentences) Act 1998 as follows:

	Number
PIRA	208
UDA	90
UVF	67
INLA	31
LVF	17
UFF	13
RHC	3
'Loyalist'	4
'Republican'	2
No Affiliation	12
Total	447

For those believed to be affiliated to PIRA the number of releases by year since 1998 are as follows:

	Number of Releases
1998	112
1999	31
2000	54
2001	11
Total	208

Note:
Perceived affiliations are noted at the time of a person's committal to prison or taken from a prisoner's assertion at time of application for 'early' release.

IVF Treatment

Mark Durkan: To ask the Secretary of State for Northern Ireland for how many patients IVF treatment has been commissioned in each of the last five years. [44822]

Mr. Woodward: It is not possible to provide precise data on the number of patients that have received IVF treatment as the data collected refer to treatment cycles provided rather than patients treated. The following table sets out the number of IVF treatment cycles commissioned since 2002–03. Accurate data are not available prior to 2002–03.

	Number of IVF cycles commissioned
2002–03	132
2003–04	203
2004–05	183

Jobcentres

Dr. McCrea: To ask the Secretary of State for Northern Ireland what plans there are to change the amount of personal advice available to unemployed people at jobcentres in Northern Ireland. [44911]

Angela E. Smith: Jobs and benefits offices provide a personal adviser service for every jobseekers allowance, income support and incapacity benefit claimant. The Department and the Social Security Agency are increasing the support offered to incapacity benefit (IB) customers through Pathways to Work pilots in Lurgan, Magherafelt and Ballymoney. IB claimants in these areas are supported by a specialised personal adviser, who is trained to deal with the additional challenges these customers face. It is intended to expand the pilot to an additional seven offices during 2006–07.

Kidney Transplants

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will provide ring-fenced funding for kidney transplants in Northern Ireland. [44921]

Mr. Woodward: The kidney transplant service in Northern Ireland, based at the Belfast City Hospital, is one of a number of specialised services commissioned by the Health and Social Services Boards, which work collaboratively through the Regional Medical Services Consortium to ensure a co-ordinated, regional approach. Funding for specific specialist or regional services is not normally ring-fenced. There are no plans to ring-fence funding for the kidney transplant service.

Lavery Report

Mr. Lidington: To ask the Secretary of State for Northern Ireland in respect of each recommendation of the Lavery Report on vetting and child protection in Northern Ireland *(a)* whether the Government accepts the recommendation, *(b)* the action that the Government have taken to date in respect of the recommendation; *(c)* any further action he intends to take; *(d)* the time scale for such further action and *(e)* whether the recommendation requires legislation. [43914]

Angela E. Smith: The Government issued a response to the report by the Commissioner for Children and Young People on vetting arrangements in Northern Ireland, "A Right to Protection", which was conducted by Ruth Lavery on 22 November 2005. Copies have been placed in the Libraries of the House. Government have accepted all of the Commissioner's recommendations. The response sets out the actions that have been or will be taken. Government have agreed to provide the Commissioner with time scales for the completion of outstanding actions as soon as possible. Finally,

legislation will be required for those recommendations linked to the implementation of the Bichard Report in Northern Ireland.

Measuring Public Opinion

Mr. Dodds: To ask the Secretary of State for Northern Ireland what criteria are used to assess confidence of the public in the police in Northern Ireland. [44743]

Mr. Woodward: A range of quantitative surveys are commissioned by both the Northern Ireland Office and the Northern Ireland Policing Board with a view to measuring community confidence in various aspects of the service provided by the police in Northern Ireland.

Three main quantitative surveys are used, each of which is conducted by the Central Survey Unit of the Northern Ireland Statistics and Research Agency:

(a) The Northern Ireland Crime Survey (NICS), a personal interview survey of experiences and perceptions of crime, being conducted on a continuous basis since January 2005.

(b) The Northern Ireland Omnibus Survey, a 'snapshot' personal interview survey covering a range of topics, run several times each year.

(c) The District Policing Partnership (DPPs) Public Consultation Survey, a postal survey covering local policing priorities, satisfaction with the police and awareness of DPPs, conducted every two years.

Public confidence in the police is presently being measured as part of the NIO 2004 public service agreement (PSA target 1). The aim of target 1 is to increase confidence in the police throughout all parts of the community in Northern Ireland by 3 percentage points, by April 2008, from a composite baseline figure of 73 per cent. (obtained through NICS 2003–04 and the April 2004 Northern Ireland Omnibus Survey). The NICS is being used to monitor progress towards this target via a suite of seven indicators, which elicit views on the fairness and effectiveness of the police and policing arrangements:

1. how good a job the police are doing in the local area;

2. whether they can provide an ordinary day-to-day policing service;

3. whether they treat Catholic and Protestant members of the public equally;

4. whether the Northern Ireland Policing Board (NIPB) is part of the police or independent of the police;

5. whether the NIPB helps ensure that the police do a good job;

6. whether the Office of the Police Ombudsman for Northern Ireland (OPONI) is part of the police or independent of the police; and

7. whether OPONI helps ensure that the police do a good job.

The Northern Ireland Omnibus Survey is used by the Policing Board to commission research on public perceptions of the police, DPPs and the NIPB. Results from these surveys are published twice a year and can be found on the Policing Board website at www.nipolicingboard.org.uk

Ministerial Meetings

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many meetings Lord Rooker has attended in *(a)* Brussels and *(b)* Westminster on sea fisheries since taking up the position of Minister with responsibility for Agriculture and Rural Development. [44696]

Angela E. Smith: Lord Rooker has not attended any meetings in Brussels and Westminster on sea fisheries matters, but he has been fully briefed by senior officials on issues of significance and has contacted ministerial colleagues to press the Northern Ireland case as appropriate.

He met with EU Fisheries Commissioner Borg when he visited Kilkeel on 11 November 2005.

Missed Outpatient Appointments

Dr. McCrea: To ask the Secretary of State for Northern Ireland what steps he is taking to reduce the number of patients who fail to keep hospital outpatient appointments. [44909]

Mr. Woodward: The problem of patients failing to attend for an outpatient appointment is, at least in part, symptomatic of the very long time many of them have to wait. In the past patients here were given an appointment date months or even years in advance. To address this I recently announced a total redesign of the whole outpatient system and by March 2008 no patient will be waiting more than 13 weeks for an outpatient appointment following referral by his or her GP.

In the meantime, partial booking systems are already being implemented in all outpatient specialties to ensure that patients are given a choice of available appointment times and that no appointments are booked any more than six weeks in advance. Outpatient improvement managers are also being put in place in all trusts to ensure that services are more responsive to patients' needs.

Multiple Sclerosis

Dr. McCrea: To ask the Secretary of State for Northern Ireland what recent action has been taken to improve access to specialist drugs for patients with *(a)* relapsing and remitting and *(b)* primary progressive multiple sclerosis in Northern Ireland; and if he will make a statement. [44914]

Mr. Woodward: An additional £9 million has been provided over the last four years for specialist drug therapies, including disease modifying therapies for people with multiple sclerosis. A further £100,000 was made available from 2002–03 specifically to support the infrastructure for the provision of disease modifying therapies for MS. The number of people who currently have access to these drugs has increased from 442 in April 2003 to 579 at present.

It is for the health and social services boards, as commissioners of services, to prioritise how funding is used, taking into account the competing demands and pressures in their areas and the strategic objectives and priorities of my Department. This year, the boards will spend an estimated £4.7 million providing disease modifying treatment to patients with multiple sclerosis.

The Department remains committed to improving access to specialist drugs which offer the potential for significant improvements in patient care. Last November I indicated my intention to allocate an

additional £9 million recurrently for hospital and specialist drugs in 2006–07, with a further £5 million in 2007–08. I will be making a further announcement about specialist drugs shortly.

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many patients with multiple sclerosis (MS) in each of the four health board areas are waiting to receive MS drugs; what the waiting times were in each of the four health board areas from *(a)* general practitioner referral to first appointment with a hospital consultant and *(b)* first appointment until treatment was actually received in the last period for which figures are available; and if he will make a statement. [44915]

Mr. Woodward: The number of patients waiting for MS drug treatment at 4 January 2006 and the median waiting time in each health and social services board is shown in the table.

Waiting for MS drug treatment at 4 January 2006

Health board of residence	*Number waiting*	*Median waiting time band (month)*
Eastern	54	6–8
Northern	63	6–8
Southern	17	6–8
Western	22	9–11
Northern Ireland total	156	6–8

Notes:

1. Nine patients currently suspended from the waiting list are excluded from these figures.
2. Waiting time is measured from when the decision to treat the patient with disease modifying drugs for MS was taken.

Source: :

Royal Group of Hospitals HSS Trust

The Department remains committed to improving access to specialist drugs which offer the potential for significant improvement in patient care. Disease modifying treatments for people with multiple sclerosis have been available in Northern Ireland since the mid-1990s and some 579 people are currently receiving these drugs.

New Books

Dr. McCrea: To ask the Secretary of State for Northern Ireland how much was spent on new books in each of the education and library boards in each of the last four years. [46340]

Mr. Hanson: I refer the hon. Gentleman to the reply I gave the hon. Member for East Londonderry (Mr. Campbell) on 20 June 2005, *Official Report*, column 854W.

Orange Hall (Attacks)

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 14 December 2005, *Official Report*, column 2101W, on Orange Hall (Attacks), how many attacks were carried out in each month of 2005. [46464]

Mr. Woodward: PSNI has supplied the following statistical information in response to this question.

Month	*Number of attacks*
January	3
February	2
March	2
April	1
May	0
June	0
July	13
August	5
September	3
October	3
November	0
December	1
Total	33

Note:

Includes incidents such as stones thrown, petrol bombs thrown, shots fired, malicious fires, etc.

Organised Crime

Andrew Rosindell: To ask the Secretary of State for Northern Ireland what steps the Government are taking to tackle organised crime in Northern Ireland; and what assessment he has made of the scale of this problem. [43723]

Mr. Woodward: The Government are committed to tackling organised crime across the board, from whatever source. Through the Organised Crime Task Force (OCTF) the Government have brought together key law enforcement agencies in Northern Ireland to deliver a multi-agency, partnership response. The restructuring of the Task Force last year will further improve operational co-operation and strengthen the analytical focus on which this work is based.

The 2005 OCTF annual report has made clear that the overall levels of organised criminal activity remain high and criminal gangs are increasingly sophisticated and ruthless in the way they undertake their activities. The operational successes of the OCTF partner agencies continues to have a significant impact on top level organised crime gangs and I pay tribute to their on-going effectiveness and commitment.

Police

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much has been spent by his Department on police oversight arrangements in each year since the publication of the Patten report. [44744]

Mr. Woodward: I refer the hon. Gentleman to the answer I gave on 20 June 2005, *Official Report*, column 860W.

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much has been spent by *(a)* his Department and *(b)* the Northern Ireland Policing Board on the administration and running of district policing partnerships in Northern Ireland. [44745]

Mr. Woodward: The Northern Ireland Office is not responsible for spending on the administration and running of District Policing Partnerships in Northern Ireland. In accordance with the Police (Northern Ireland) Act 2000 the Policing Board is required to make to the district councils a grant equal to three-quarters of

the expenses reasonably incurred by the council in connection with the establishment of, or the exercise of functions by, a DPP.

The Policing Board has advised me that the total cost to the Policing Board of the administration and running costs in relation to the District Policing Partnerships from initial set up to the year ending 31 March 2005 was £7,283,000.

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much has been spent by the Police Ombudsman's Office on *(a)* administration and *(b)* case work in each year since its formation. [44746]

Mr. Woodward: The following information was provided by the Office of the Police Ombudsman for Northern Ireland:

£

Financial year	*Case related expenditure*[1]	*Administration expenditure*[2]
2004/05	4,445,271	3,304,840
2003/04	3,952,881	2,869,500
2002/03	3,902,966	2,945,546
6 November 2000 to 31 March 2002	4,342,610	3,478,768

[1] Case related expenditure covers specifically the costs of investigative staff designated to receiving and investigating complaints, as well as directly related expenditure incurred during the course of this work.

[2] All other costs incurred by the Office is classified under the broad heading of 'administration' and include premises related expenditure, stationary and equipment, non-cash elements such as depreciation, diminution of assets and notional cost of capital and support functions of the Office such as corporate services, executive, legal, media and policy and practice which are vital to underpin the work of the Investigations Directorate.

Private Sector Jobs

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what policies have been introduced in Northern Ireland since 1997 to increase the number of private sector jobs in the economy. [43627]

Angela E. Smith: Since 1997, Government have introduced a wide range of measures to deliver its long-term goal of improving Northern Ireland's competitive position which will ultimately lead to better employment opportunities for all. Examples include DETIs Accelerating Entrepreneurship and Regional Innovation Strategies, DARD's Vision Action Plan and a number of DSD initiatives designed to regenerate urban areas and promote private sector investment and job creation.

A significant policy decision taken has been to bring a more integrated approach to economic development through amalgamating the Industrial Development Board, Local Enterprise Development Unit and the Industrial Research and Technology Unit into one single agency, Invest Northern Ireland.

The Economic Vision for Northern Ireland recognises that the private sector must grow if Northern Ireland is to improve its economic performance. Investing in innovation, enterprise, skills and infrastructure will facilitate private sector growth in the Northern Ireland economy while policies such as national minimum wage, tax credits and new deal will ensure that work pays.

Since 1997, the number of private sector jobs in Northern Ireland has increased by 16.5 per cent. to 472,944 compared to an 11.6 per cent. increase in public sector jobs which at September 2005 stood at 217,805 jobs.

Sexual Violence Strategy

Mark Durkan: To ask the Secretary of State for Northern Ireland whether there is a timetable for the *(a)* publication and *(b)* implementation of the Sexual Violence Strategy; whether there is a publication date for the consultation paper; and what plans there are in each Department to prioritise the strategy's implementation. [45786]

Mr. Woodward: The development of a regional strategy to address sexual violence in Northern Ireland is being taken forward jointly by the Department of Health, Social Services and Public Safety and the Northern Ireland Office, in conjunction with other Departments and agencies whose responsibilities also have a bearing on matters relating to sexual violence. It is proposed to publish a consultation document by this summer and to publish the final strategy in April 2007. Implementation plans will be agreed with each Department and agency following the consultation process and prior to the strategy being finalised. The implementation plans will be published with the strategy.

Shorts/Bombardier

Mark Durkan: To ask the Secretary of State for Northern Ireland how many unfair dismissal claims were made against Shorts/Bombardier in each of the last five years; and what the outcome was in each case. [44698]

Angela E. Smith: The following table, provided by the Office of the Industrial Tribunals and the Fair Employment Tribunal, sets out the number of claims made against Shorts/Bombardier for each of the lasts five years, the outcome of those processed to date and the number of live cases.

Unfair dismissal cases registered against Shorts/Bombardier 2001–05

UD[1] *cases*	*Total number of claims which include jurisdiction of UD*[1]	*Number of cases allowed*	*Number of cases dismissed*	*Number of cases conciliated*	*Number of cases withdrawn*	*Number of cases stayed*[2]	*Number of cases DFWOP*[3]	*Number of cases WDS*[4]	*Number of live cases*
2001	3	0	0	1	0	0	0	1	1
2002	97	0	9	0	6	2	0	7	73
2003	358	0	1	2	77	0	29	4	245
2004	11	0	0	2	0	0	0	1	8
2005	5	0	0	0	4	0	0	0	1
Total	474	0	10	5	87	2	29	13	328

[1] UD—Unfair dismissal.

[2] Stayed—the proceedings are stopped until further notice.

[3] WDS—withdrawn following settlement.

[4] DFWOP—dismissed for want of prosecution.

Mark Durkan: To ask the Secretary of State for Northern Ireland if he will list the *(a)* amounts, *(b)* categories and *(c)* purposes of grant aid from public expenditure allocated to Shorts/Bombardier in each of the last five years. [44699]

Angela E. Smith: Shorts/Bombardier has been made a total of £26,678,958 in offers of assistance over the last five years. The information requested is set out as follows.

Public funding allocated to bombardier financial years 2000-01 to 2004-05

Allocating department/agency	*Financial year*	*Amount of grant offered (£)*	*Category: revenue/capital*	*Purpose of grant*
IDE	2000-01	11,752,000	Revenue	Participation in new aircraft programmes.
IDE	2000-01	2,090	Revenue	Attendance at Farnborough Air Show.
IRTU	2000-01	408	Revenue	To encourage Bombardier to meet with European Commission re collaborative R and D.
IDE	2001-02	181,780	Revenue	To improve and introduce new skills in company.
IDE	2001-02	1,155	Revenue	Attendance at Paris Air Show on Invest NI group stand.
Invest NI	2003-04	5,240,000	Revenue	To improve and introduce new skills in company.
Invest NI	2003-04	8,800,000	Revenue	Participation in Global 5000 and Learjet 40 Aircraft Programmes.
Invest NI	2004-05	701,525	Revenue	Research and Development on three new (Start) projects.

HEALTH

Arm's Length Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for Health if she will list her Department's arm's length bodies; what each body's full-time equivalent staffing level is; and what the annual budget of each body was in the last year for which figures are available. [42664]

Jane Kennedy: The information requested is shown in the table.

Arm's length body (ALB)	*Operating costs budget 2005-06 (excluding non-recurrent elements) (£000)*	*Number of staff in whole-time equivalents as at May/June 2005 (data from ALBs)*
Commission for Healthcare Audit and Inspection (the HealthCare Commission)	78,732	771
Commission for Patient and Public Involvement in Health	29,930	189
Commission for Social Care Inspection	144,260	2,622
Council for Healthcare Regulatory Excellence	1,950	11
Dental Practice Board	23,062	272
General Social Care Council	14,310	262
Health and Social Care Information Centre	42,900	366
Health Protection Agency	228,600	3,144
Human Fertilisation and Embryology Authority	8,421	106
Human Tissue Authority	1,000	[1]16
Independent Regulator of NHS Foundation Trusts (Monitor)	12,000	28
Medicines and Healthcare products Regulatory Agency	62,970	807
Mental Health Act Commission	5,218	36
National Institute for Biological Standards and Control	19,739	308
National Institute for Health and Clinical Excellence	29,894	230
National Patient Safety Agency	28,618	238
National Treatment Agency for Substance Misuse	11,510	88
NHS Appointments Commission	5,981	51
NHS Blood and Transplant	415,272	6,156
NHS Business Services Authority[2]		
NHS Connecting for Health	115,230	786
NHS Counter Fraud and Security Management Service	14,897	250
NHS Dental Vocational Training Authority England and Wales	281	3
NHS Direct	161,900	3,461
NHS Institute for Innovation and Improvement	80,000	170
NHS Litigation Authority	14,095	166
NHS Logistics Authority	70,658	1,462
NHS Pensions Agency	22,066	363
NHS Professionals	31,000	807
NHS Purchasing and Supply Agency	22,081	356
Postgraduate Medical Education and Training Board	6,742	36
Prescription Pricing Authority	75,606	1,940

[1] The Human Tissue Authority was not fully operational May/June 2005. The staff figure cited is therefore at January 2006.

[2] The NHS Business Services Authority will take on the functions of the Dental Practice Board, the Prescriptions Pricing Authority, the NHS Pensions Agency and the NHS Counter- Fraud and Security Management Service in April 2006.

Avian Influenza

Martin Horwood: To ask the Secretary of State for Health which primary care trusts have drawn up emergency plans for a possible outbreak of avian influenza. [23647]

Ms Rosie Winterton: It is important to be clear about the differences between seasonal influenza, avian influenza and pandemic influenza. Avian influenza is a disease which mainly affects birds. Seasonal influenza refers to the virus that circulates in the human population and causes widespread illness each winter. Pandemic influenza will only occur after an avian virus has mutated into a novel strain which can spread easily between humans, and to which they do not have immunity.

All primary care trusts and health organisations are required to develop and maintain local contingency arrangements to respond to any influenza outbreak, including a pandemic and those plans are currently being audited.

James Duddridge: To ask the Secretary of State for Health what procedure is in place to treat people exposed to potential cases of Avian influenza; which treatments are available; and what time scale has been set within which such treatment should be administered. [33054]

Ms Rosie Winterton *[holding answer 29 November 2005]:* It is important to be clear about the differences between seasonal flu, avian flu and pandemic flu. Avian influenza is a disease which mainly affects birds. Seasonal flu refers to the virus that circulates in the human population and causes widespread illness each winter. Pandemic flu will only occur after an avian virus has mutated into a novel strain which can spread easily between humans and to which they do not have immunity.

In the event of a confirmed outbreak of Avian influenza, all those who have been exposed, or at risk of exposure will be offered anti-viral therapy and seasonal influenza vaccine, as appropriate, within 24 to 48 hours of disease confirmation.

Antiviral drugs and seasonal influenza vaccine will be made available through the Health Protection Agency's local health protection units in collaboration with the national health service, similar arrangements will apply in Wales and Scotland.

Barts and the London NHS Trust

Mr. Lansley: To ask the Secretary of State for Health what the Government's policy is on the provision and specialised cancer and cardiac care services at the St. Bartholomew's site as part of a dual site operation at the Barts and the London NHS Trust; and if she will make a statement. [43445]

Jane Kennedy: In line with our policy of "Shifting the Balance of Power", the relevant local national health service organisations will need to plan their services within the framework of the NHS Plan and other national documents, such as the improving outcomes series of cancer service guidance and the national service framework for coronary heart disease, to meet the needs of the population they serve.

Mr. Lansley: To ask the Secretary of State for Health (1) what response her Department's access and capacity review yeam made to the full business case for redevelopment at the Barts and the London NHS Trust; [43449]

(2) what estimates she has made of the requirement for capacity at the Barts and the London NHS Trust. [43450]

Jane Kennedy [holding answer 19 January 2006]: No estimate of capacity requirements for Barts and the London NHS Trust have been made centrally. Capacity planning is the responsibility of strategic health authorities (SHAs) in conjunction with their primary care trusts; NHS trusts; and other relevant stakeholders in their local health economies. SHA level capacity plans are taken forward through the Department's local delivery planning process.

The Department's access directorate undertook an assessment of the Barts and the London NHS Trust private finance initiative scheme in October 2005. The assessment found that the bull business case for the scheme took into account the expected impact of the key elements of the capacity planning agenda and was broadly consistent with national assumptions and projected local capacity requirements. To supplement this work, the Secretary of State has asked the SHA to commission an independent review to ensure we have the right balance of cancer and cardiac services in North East London.

Bowel Cancer

Mr. Baron: To ask the Secretary of State for Health what steps her Department is taking to prepare for increases in demands placed on NHS bowel cancer services as a result of the roll-out of the National Bowel Cancer Screening Programme. [43777]

Ms Rosie Winterton *[holding answer 19 January 2006]:* The national health service bowel cancer screening pilot showed that screen detected cancers had no detrimental effect on bowel cancer services.

Training in endoscopy (bowel scoping) is vital to the diagnosis of bowel cancer. To prepare for the bowel cancer screening programme, we have built on the training established as part of the NHS Cancer Plan. A national training programme has been established, with three national and seven regional centres, to train medical staff, general practitioners, nurses and other health professionals to carry out vital procedures for diagnosing bowel cancer. By increasing the pool of staff able to undertake endoscopy and colonoscopy procedures, waiting times will be reduced and services made more convenient.

Based on current trends and definitions the training programme is projected to deliver 217 newly trained non-medical endoscopists and 1,353 medical endoscopists by 2006–07.

The National Institute for Health and Clinical Excellence (NICE) produced updated guidance, "Improving Outcomes in Colorectal Cancers" (May 2004). This guidance is aimed at helping those involved in planning, commissioning, organising and providing bowel cancer services to ensure that services are

configured to ensure appropriate high quality services. Implementation of NICE guidance is a developmental standard as set out in National Standards Local Action (July 2004). The Healthcare Commission is responsible for assessing progress of healthcare organisations towards achieving developmental standards.

Breast Cancer

Steve Webb: To ask the Secretary of State for Health if she will make a statement on progress being made on *(a)* achieving the Government's commitment for all people with breast problems to be seen by a specialist within two weeks and *(b)* making HER2 testing available for all women diagnosed with breast cancer. [43372]

Ms Rosie Winterton *[holding answer 19 January 2006]*: The Department has assessed the need for additional staff required to meet the commitment and we have commissioned skills for health, which is the Sector Skills Council for Health, to develop competencies in breast assessment. Once these competencies are agreed they could be used to develop training programmes to increase the number of breast assessment staff. Skills for health are engaging with a wide range of stakeholders in the development and piloting of the competencies including charities, Royal colleges, professional groups and national health service organisations.

It is very important that we identify those patients who are HER2 positive so that all the appropriate [redacted]ment options can be considered for them. Professor [redacted]hards, the National Cancer director, is [redacted]h Cancer Networks to ensure that facilities are put in place to enable women who need it to be tested. This work is ongoing.

Dentistry

Sir Paul Beresford: To ask the Secretary of State for Health pursuant to the written ministerial statement of 9 November 2005, *Official Report*, column 17WS, on national health service dentistry, how many new dentists each primary care trust will be receiving. [31966]

Ms Rosie Winterton *[holding answer 28 November 2005]*: Information on the number of dentists recruited to each primary care trust at the 31 October 2005 has been placed in the Library.

The total has increased slightly from 1,453 to 1,459, reflecting the fact that the data includes dentists recruited via local buy back at the end of October 2005. The published figure included dentists recruited at the end of September 2005 as October data had not been received at the time of the announcement.

Mr. Lansley: To ask the Secretary of State for Health whether primary care trusts will be able to commission dental services from providers not operating under general dental services contracts and personal dental services agreements from April 2006. [39352]

Ms Rosie Winterton: Primary care trusts (PCTs) must use their powers under section 16CA of the National Health Service Act 1977 to provide or secure the provision of primary dental services within their area to meet all reasonable requirements. Primary dental services may only be provided under a general dental services contract, a personal dental services agreement or by the PCT itself under section 16CA(2) of the 1977 Act.

Miss McIntosh: To ask the Secretary of State for Health pursuant to her oral answer of 20 December 2005, *Official Report*, columns 1704–05, on dentistry, if she will make it her policy to ensure that private dentists may be sued for medical negligence on the same terms as NHS dentists. [40251]

Ms Rosie Winterton: Private dentists may be sued on the same basis as national health service general dental practitioners. In July 2005, an Order amending the Dentists Act was made to empower the General Dental Council to make it a condition of registration that every dentist, whether practising privately or in the NHS, has adequate and appropriate indemnity cover. This provision will come into force in the summer, once the General Dental Council has made rules on the detail of this requirement.

Mr. Sheerman: To ask the Secretary of State for Health what resources her Department has allocated for NHS dentistry in 2004–05. [37109]

Ms Rosie Winterton: Most primary dental care services are provided within the general dental service (CDS), which is currently a demand led service where expenditure is mainly determined by the activity of dentists rather than set by a fixed budget allocation. Net expenditure on the GDS in England in 2004–05 amounted to £1,246 million.

In 2004–05 the Department made an additional £262 million pounds available to primary care trusts (PCTs) to support the net cost (after taking account of dental charge income from patients) of personal dental service pilots. In addition, the Department distributed a total of £24 million revenue funds to help PCTs with particular dental access difficulties support local access and quality initiatives, and £35 million was distributed amongst all PCTs to fund capital grants to dental practices to improve access and practice facilities.

Funding levels for hospital and community dental services are set locally by PCTs and resourced from their general national health service budget allocations.

Departmental Staff

Dr. Cable: To ask the Secretary of State for Health how many staff in her Department have been relocated into London and the South East in each of the last five years for which records are available. [31768]

Jane Kennedy: The information requested is not held centrally by the Department. Details on staff moving to London and the South East is held locally on individual personnel files. The information can only be obtained at disproportionate cost.

Any relocation into London and the South East during 2004–05 and 2005–06 to date would have been agreed as an exception to the Government's relocation policy.

Influenza Pandemic

Mr. Lansley: To ask the Secretary of State for Health how she plans to incentivise general practitioners to provide extra capacity in primary care in the event of an influenza pandemic. [23009]

Ms Rosie Winterton: The Department published the revised "UK Influenza Pandemic Contingency Plan" in October. The plan provides guidance for health professionals and the public in preparing for a future pandemic. Operational guidance to the national health service was issued in May which encourages them to work closely with local stakeholders in all sectors to ensure robust local plans are put in place, regularly tested and updated.

As part of their statutory duties, primary care trusts (PCTs) should ensure arrangements are in place for the provision of primary care services in the event of influenza pandemic. Local capacity planning should include arrangements with all primary medical care contractors including general medical services, personal medical services, PCT-led medical services and alternative provider medical services. In order to meet the likely volume of work during a pandemic, PCTs should discuss with their general practitioners the non-essential work that can be put on hold. Specific arrangements will also be needed with their out of hours providers.

Medical Provision (Aylesbury Vale)

John Bercow: To ask the Secretary of State for Health what assessment she has made of whether there is a need for a new community hospital in Aylesbury Vale as a result of housing expansion in the area. [44188]

Ms Rosie Winterton: The Secretary of State has made no assessment.

Responsibility for the provision of local services rests with local national health service organisations working in conjunction with other key stakeholders. The organisation responsible for managing planning and implementation in this part of the Milton Keynes south midland sub-region growth area is Aylesbury Vale Advantage, which is a company limited by guarantee, consisting of five key partners including Vale of Aylesbury Primary Care Trust.

Mental Health

Danny Alexander: To ask the Secretary of State for Health whether her Department has a preventative strategy on mental health; and if she will make a statement. [40899]

Ms Rosie Winterton: Preventative mental health strategies are set out in the 1999 national service framework (NSF) for mental health, standard one, which is dedicated to promoting mental health for all, working with individuals and communities and to combating discrimination against individuals and groups with mental health problems and promoting their social inclusion. Local national health service bodies are expected to implement standard one in their localities.

The NSF should be seen in conjunction with the commitments made in the White Paper "Choosing Health" to fully implement standard one nationally.

In addition, the joint publication by the Care Services Improvement Partnership/National Institute for Mental Health in England, "Making it Possible: Improving Mental Health and Well-being in England", sets out good practice in relation to developing and delivering improved mental health well-being. This contributes to the United Kingdom commitment to developing a country-wide action plan on mental health, in line with the World Health Organisation's declaration on mental health which I signed in January 2005.

Tim Loughton: To ask the Secretary of State for Health what discussions she has had with the Department for Constitutional Affairs regarding the transfer of responsibility for mental health tribunals from her Department to the Department for Constitutional Affairs. [44482]

Ms Rosie Winterton: In line with the White Paper, "Transforming Public Services: Complaints Redress and Tribunals", the mental health review tribunals will transfer to the Department for Constitutional Affairs, where they will form part of the Tribunals Service. Following discussions between our Departments, we have agreed that the transfer will take place with effect from April of this year.

Keith Vaz: To ask the Secretary of State for Health what progress has been made in her Department's discussions with SANE on Government funding for SANELINE. [43892]

Ms Rosie Winterton: Discussions with SANE are continuing. SANE, like other voluntary and community sector organisations, can apply for Government funding for work they wish to undertake.

NHS Finance

Jeremy Corbyn: To ask the Secretary of State for Health what her latest estimate is of the budget over-spending at *(a)* University College Hospital, *(b)* the Royal Free Hospital and *(c)* Whittington Hospital. [44582]

Jane Kennedy: The forecast outturn position for 2005–06, as submitted by National Health Service organisations (strategic health authorities, primary care trusts and NHS trusts) at the mid-year point (month six), is available in the Library and is also available on the Department's Health website at: www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en.

The Department does not hold this data for University College London Hospital NHS Foundation Trust.

University College London Hospital is an NHS foundation trust. As such, my noble Friend Lord Warner has written to the chair of the trust, Peter Dixon, informing him of my hon. Friend's inquiry. He will reply shortly and a letter will be placed in the Library.

Policy Reviews

Anne Main: To ask the Secretary of State for Health if she will list policy reviews her Department has conducted in each year since 1997. [44328]

Jane Kennedy: The Department maintains all of its key policies under review. Material on the key policy areas for which the Department is responsible is available on our website at: www.dh.gov.uk.

Private Finance Initiative

Steve Webb: To ask the Secretary of State for Health what her latest estimate is of the cost of implementing the Bristol health services plan; whether the financing of the plan will be made through the private finance initiative; and if she will make a statement. [43548]

Ms Rosie Winterton *[holding answer 19 January 2006]:* The Bristol health services plan affects the two major capital investment projects being taken forward for Bristol—the United Bristol Healthcare (UBH) and the North Bristol National Health Service Trust/South Gloucestershire primary care trust schemes. Both schemes are currently revising the funding and service options in their outline business case. The latest capital cost of the former is approximately £100 million and, of the latter, £420 million.

Mr. Streeter: To ask the Secretary of State for Health when a decision to make progress on the private finance initiative scheme for a new hospital for Plymouth will be taken by her Department. [44627]

Ms Rosie Winterton *[holding answer 23 January 2006]:* The outline business case (OBC) for a new £200 million diagnostic and care centre for Plymouth Hospitals National Health Service Trust has been approved by South West Peninsula strategic health authority and has now been submitted to the Department for approval. The proposal for the emergency and specialist services centre is at a much earlier stage; the trust is currently developing options for the OBC.

Sexually-transmitted Diseases

Mr. Lansley: To ask the Secretary of State for Health how many cases of *(a)* HIV, *(b)* chlamydia, *(c)* gonorrhoea, *(d)* syphilis, *(e)* genital warts and *(f)* genital herpes there have been in England in each year since 1997. [41971]

Caroline Flint: The number of cases of chlamydia, gonorrhoea, syphilis, genital warts and genital herpes diagnosed in genitourinary medicine (GUM) clinics in England from 1997 to 2004, are shown in the table. The number of HIV diagnoses in England from 1997 to 2004 are also shown, and include diagnoses made in GUM clinics as well as other settings such as infectious disease units and general practice.

Diagnoses of HIV and other selected sexually transmitted infections (STIs) in England between 1997–2004

Condition description	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
HIV	2,533	2,635	2,902	3,646	4,801	5,883	6,827	6,789
Primary and secondary syphilis	147	131	211	322	717	1,196	1,531	2,008
Uncomplicated gonorrhoea	12,399	12,535	15,549	20,494	22,398	24,357	23,497	20,919
Uncomplicated chlamydia	38,839	43,912	50,960	61,370	68,180	78,117	85,397	92,799
Genital herpes	15,079	15,815	15,880	16,147	17,054	17,510	17,120	16,953
Genital warts	58,711	59,681	61,157	60,661	62,423	63,934	65,194	68,155

Source:
Reports of HIV diagnoses and KC60 returns (other STIs)

Waiting Times

Anne Main: To ask the Secretary of State for Health how many patients have been waiting longer than six months for a non-urgent ear, nose and throat appointment in the West Hertfordshire NHS trust; and if she will make a statement. [44400]

Ms Rosie Winterton: There were no patients waiting longer than 17 weeks for an outpatient appointment at West Hertfordshire hospitals national health service trust at September 2005. This is the latest data available.

TRADE AND INDUSTRY

Agricultural Tariffs

Michael Gove: To ask the Secretary of State for Trade and Industry (1) what the weighted average tariffs applied by the EU on *(a)* all imports from the rest of the world, *(b)* agricultural imports from the rest of the world and *(c)* non-agricultural imports from the rest of the world are in (i) most favoured nation terms and (ii) effectively applied terms; [40941]

(2) what the weighted average tariffs applied by the EU are on *(a)* imports, *(b)* agricultural imports and *(c)* non-agricultural imports from each country listed in the World Trade Organisation and world integrated trade solution database in (i) most favoured nation terms and (ii) effectively applied terms. [40943]

Ian Pearson: The calculation of weighted average tariffs requires detailed trade data at a highly disaggregated level and requires that trade data be classified according to the tariff rate at which each trade transaction takes place, i.e. it is possible for imports of a specific good to the EU from a single country to take place at more than one effectively applied tariff. Although the world integrated trade solutions database contains information on trade and tariffs, and reports weighted averages for EU trade with other countries, given the gaps and uncertainty in the data sets we are reluctant to report weighted average data as the answer may be misleading or inaccurate.

The World Trade Organisation does provide data on the simple average most- favoured nation tariffs, i.e. those that prevail when no preferential arrangements exist, applied by the EU. These are:

(a) 4.2 per cent. on all imports;

(b) 5.9 per cent. on imports of agricultural goods;

(c) 4.0 per cent. on imports of non-agricultural goods.

Michael Gove: To ask the Secretary of State for Trade and Industry what the weighted average tariffs applied by the EU on non-agricultural imports from each country listed in the World Trade Organisation and world integrated trade solution database will be if the EU's current WTO offer is accepted in *(a)* most favoured nation terms and *(b)* effectively applied terms. [40942]

Ian Pearson: The calculation of weighted average tariffs requires detailed trade data at a highly disaggregated level and requires that trade data be classified according to the tariff rate at which each trade transaction takes place, i.e. it is possible for imports of a specific good to the EU from a single country to take place at more than one effectively applied tariff. Although the world integrated trade solutions database contains information on trade and tariffs, and reports weighted averages for EU trade with other countries, given the gaps and uncertainty in the data sets we are reluctant to report weighted average data as the answer may be misleading or inaccurate.

Before the WTO ministerial conference in Hong Kong the EU put forward a conditional proposal that included a reduction of non-agricultural tariffs through a simple Swiss formula with a co-efficient of 10 (i.e. a maximum resulting tariff of 10 per cent.). This was overtaken by negotiations in Hong Kong and the resulting ministerial declaration which adopted a Swiss formula with coefficients at different levels but did not agree those levels.

The effect of the conditional proposal would have been to reduce the simple average tariff applied by the EU in most favoured nation terms on non-agricultural imports from 4.2 per cent. to 2.5 per cent.

This simple average most favoured nation tariff would be the same for all WTO members.

Annual Leave

Norman Lamb: To ask the Secretary of State for Trade and Industry what average number of days annual leave was given to employees by each main business and industrial sector in 2004–05. [45503]

Mr. Sutcliffe: The following table shows the average holiday entitlement of full-time permanent employees by industry in the UK in autumn 2005. These data take no account of public holiday entitlement. These figures are from the Labour Force Survey from the Office for National Statistics.

Average length of paid holiday entitlement[1] for full-time permanent employees by industry[2]: United Kingdom, autumn 2005, not seasonally adjusted

	Days
Public admin, education and health	32
Energy and water	26
Transport and communication	25
Other services	24
Banking, finance and insurance	24
Manufacturing	24
Construction	23
Distribution, hotels and restaurants	23
Agriculture and fishing	22
UK average	26

[1] Takes no account of public holiday entitlement. Excludes those who did not give their holiday entitlement and those who were non-contactable in the autumn quarter.

[2] Industry groups are coding according to the 1992 Standard Industrial Classification.

Source:
Labour Force Survey

Career Development (Women)

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what assessment he has made of the achievements of *(a)* female entrepreneurs and *(b)* female-owned businesses. [43391]

Meg Munn *[holding answer 23 January 2006]:* The Government recognises the significant achievements of female entrepreneurs to the UK economy. Female entrepreneurs and female-owned businesses make a significant contribution to UK economy adding up £70 billion to gross value added.

That's why the Government views the development of women's enterprise in the UK as an economic imperative. The Government are continuing the development of the economic argument for Women's Enterprise following the publication, in March 2005, of the booklet, "Promoting Female Entrepreneurship", which captures headline facts and has been used to stimulate thinking across Government and the regional development agencies.

There are encouraging signs that entrepreneurial activity amongst women is increasing. Nearly one million women are self employed in the UK and this number has increased by around 10 per cent. over the last four years. 19 per cent. of UK businesses are now majority-owned by women.

Women are seizing the opportunities to turn their good ideas into great businesses. Women such as Manjit Sahota whose business, the Rocking Horse Kindergarten based in the Holbrooks area of Coventry, provides a supportive and stimulating learning environment for pre-school children. This business provides employment for fourteen members of staff. That's good news for the local and national economy.

Coal Aid Scheme

Gordon Banks: To ask the Secretary of State for Trade and Industry how much Scottish Coal received from the coal aid scheme in each month of 2001; and whether any of this assistance was ring-fenced for redundancy assistance. [30608]

Malcolm Wicks *[holding answer 21 November 2006]*: I apologise for not replying to this question when it was first tabled.

Scottish Coal (Deep Mine) Ltd. operated Longannet mine as a subsidiary company of Mining (Scotland) Ltd. Mining (Scotland) Ltd. received payments under the UK coal operating aid scheme (UKCOAS) of £19.65 million for Tranche 1 (2000) and £21.53 million for Tranche 2 (2001) to support Longannet. The aim of UKCOAS was to support mines badly affected by short term market problems by helping to bridge the gap between their production costs and income from coal sold for generating and other industrial uses. None of the payments made to Mining (Scotland) Ltd. was ring-fenced for redundancy assistance.

Company Rankings

Ms Dari Taylor: To ask the Secretary of State for Trade and Industry which 10 companies with a presence in the UK have the highest *(a)* number of employees and *(b)* annual turnover. [45131]

Alun Michael: The information requested could be obtained only at disproportionate costs.

Dentistry

Grant Shapps: To ask the Secretary of State for Trade and Industry what assessment he has made of the potential impact on NHS and private dentistry of the General Dental Council's decision of 7 December to prevent public access to dental care professionals without referral by dentists; and if he will make a statement. [41879]

Ms Rosie Winterton: I have been asked to reply.

The General Dental Council's (GDC) decision on 7 December signalled an important first step in removing unnecessary restrictions on the business of dentistry. Under recently conferred powers, the GDC has agreed that appropriately qualified clinical dental technicians, who are also known as denturists and whose practice is currently prohibited by law, should be allowed to see edentulous patients, without prior review by a dentist, for the purpose of supplying and maintaining complete dentures.

There will also be wider scope for treatments by other dental care professionals such as dental hygienists and dental therapists. The GDC has agreed that a dentist should carry out a full mouth assessment and provide a treatment plan, which specifies the intervals at which the patient should attend for further examination or treatment. Pending the re-assessment, the patient could take the treatment plan to any appropriately registered dental professional who could, within the overall limits of the plan and the limits of his or her competence, treat the patient.

The GDC has made it clear that it would welcome proposals to expand the curricula of dental care professionals to enable increased direct access by patients to dental care professionals, where there is robust training to ensure that patient safety is protected.

The Department shares the GDC's view that this represents the right balance between improving flexibility and patient choice and protecting patients.

Energy Review

Norman Baker: To ask the Secretary of State for Trade and Industry if he will ensure that the energy review takes into account the work of the interdepartmental task force established by the Office of the Deputy Prime Minister to look at energy use in existing buildings. [45982]

Malcolm Wicks: The work of the task force on the sustainability of existing buildings, to identify suitable measures to improve the energy efficiency and reduce emissions from existing building stock, is clearly an important one. As stated clearly in our consultation document: "Our Energy Challenge. Securing clean, affordable energy for the long term", the energy review will take into account the work of the task force.

Energy Supply

Mike Penning: To ask the Secretary of State for Trade and Industry pursuant to the answer of 15 December 2005, *Official Report*, column 2252W, on energy, what assessment has been made of the international supply of gas in relation to the anticipated demand for gas; and how many years of supply can be provided from the existing resources of gas in the world. [45728]

Malcolm Wicks: The department does not estimate world gas reserves and supplies, or future world gas demand. However, the International Energy Agency (IEA) has estimated that there are currently 180 trillion cubic metres of proven gas reserves. At current production rates, the IEA estimates that these would last for 66 years; based on its expectation that production rates will increase at 2.3 per cent. per year, these reserves could then last some 40 years (source—"World Energy Outlook 2004", www.iea.org.

Mike Penning: To ask the Secretary of State for Trade and Industry what plans he has to assess the percentage of electricity supplies produced by gas, coal and nuclear energy in light of the anticipated shortage of gas supplies in the future. [45729]

Malcolm Wicks: The Department already reports monthly, via statistics published on its web site, on the electricity supplied by fuel by major power producers, and quarterly in "Energy Trends" on electricity supplied by fuel by all electricity generators http://www.dti.gov.uk/energy/inform/index.shtml). Copies of "Energy Trends" are available in the Libraries of the House.

Bob Spink: To ask the Secretary of State for Trade and Industry what proportion of total UK piped gas imports he estimates will pass through each interceptor in *(a)* 2010, *(b)* 2015 and *(c)* 2020. [45721]

Malcolm Wicks: The current UK gas market arrangements are already delivering a number of gas pipeline import projects. By 2010, under current plans, the Belgium-UK Interconnector will have a total import capacity of 66 million cubic metres per day (mcm/d); the new Balgzand-Bacton pipeline (BBL) from the Netherlands of 44mcm/d; and the Langeled pipeline from Norway of up to 70mcm/d. Projections at and beyond this date are highly uncertain as key infrastructure investment decisions have yet to be made. The proportion of future gas imports to the UK made

via these pipelines, and any plans to construct further pipeline connections, will be commercial matters for market participants.

Bob Spink: To ask the Secretary of State for Trade and Industry what proportion of total gas for the UK he expects will be imported in *(a)* 2010, *(b)* 2015 and *(c)* 2020; and what proportion of this he expects will be (i) piped and (ii) imported by ship. [45722]

Malcolm Wicks: Details of new import infrastructure can be found in my right hon. Friend's "First Report to Parliament on Security of Energy Supplies" (http://www.dti.gov.uk/engegy.publications/policy/sec_supply_first_report.pdf), which shows forecast supply and demand to 2013. Projections beyond this date are highly uncertain as key infrastructure investment decisions have yet to be made. In addition to the projects listed in the report, new liquefied natural has (LNG) projects at Canvey Island and Teesside have recently been announced. Independent studies have suggested that imports may account for around 75 percent. of total gas supply to the UK by 2015–16 and 90 percent. by 2020–21. The proportion of future gas imports to the UK from pipes and ships, and any plans to construct further infrastructure, will be commercial matters for market participants.

Engagements (Nuclear Industry)

Norman Lamb: To ask the Secretary of State for Trade and Industry what meetings *(a)* he, *(b)* his Ministers and *(c)* his officials have had with representatives of the nuclear industry over the last four months; and what the (i) date and (ii) attendance was of each meeting. [45508]

Malcolm Wicks: The Department has many meetings with the nuclear industry and with other interested groups, such as oil, gas, coal, renewables and microgeneration industries.

Due to the number of meetings that take place, the effort required to compile a full list of meetings involving Ministers and officials would result in disproportionate cost to provide a comprehensive answer.

Export Credits Guarantee Department

Mr. Andrew Smith: To ask the Secretary of State for Trade and Industry what discussions the Export Credits Guarantee Department (ECGD) had with *(a)* BAE, *(b)* Rolls Royce and *(c)* Airbus regarding the ECGD consultation on the changes to the ECGD's anti-bribery and corruption procedures that were introduced in December 2004. [42565]

Ian Pearson: ECGD has not had discussions with the three companies named regarding the ECGD Consultation on the changes to its anti-bribery and corruption procedures introduced in December 2004, although employees of two of the companies named have represented the CBI at discussions which ECGD has had with the CBI. See, for example, the meeting of 9 June 2005, minutes of which are available on ECGD's website at: www.ecgd.gov.uk/index/pi_home/pi_pc/abc_int_resp.htm

Exports

Mr. Holloway: To ask the Secretary of State for Trade and Industry what the total value of British exports to *(a)* the Eurozone area, *(b)* the pre-enlargement 15 EU member states and *(c)* the post-enlargement 25 EU member states was in each quarter since 1997. [43269]

Ian Pearson: Data is not available for all the quarters requested. Those quarters for which data has been published are shown in the following table.

UK exports of goods and services to European countries

£ million

	EMU12	EU15	EU25
1997 Q1	—	29,281	—
1997 Q2	—	29,333	—
1997 Q3	—	29,490	—
1997 Q4	—	30,246	—
1998 Q1	—	30,106	—
1998 Q2	—	30,410	—
1998 Q3	—	30,249	—
1998 Q4	—	30,201	—
1999 Q1	28,078	30,270	31,335
1999 Q2	28,535	30,703	31,781
1999 Q3	30,229	32,394	33,496
1999 Q4	30,573	32,708	33,919
2000 Q1	30,996	33,365	34,547
2000 Q2	31,986	34,341	35,491
2000 Q3	32,908	35,351	36,598
2000 Q4	34,055	36,400	37,893
2001 Q1	33,807	36,286	37,843
2001 Q2	34,000	36,449	37,781
2001 Q3	33,309	35,654	36,988
2001 Q4	32,245	34,492	35,946
2002 Q1	33,517	35,298	37,233
2002 Q2	35,240	37,446	39,233
2002 Q3	33,542	35,769	37,539
2002 Q4	32,130	35,086	35,822
2003 Q1	33,833	35,442	37,661
2003 Q2	32,423	34,302	36,184
2003 Q3	32,631	34,430	36,532
2003 Q4	34,069	35,565	38,210
2004 Q1	32,398	32,635	36,343
2004 Q2	33,683	—	37,844
2004 Q3	34,355	—	38,497
2004 Q4	35,530	—	39,751
2005 Q1	34,957	—	39,230
2005 Q2	34,989	—	39,344
2005 Q3	35,694	—	40,057

Notes:
Balance of payments basis.
If the data for the EU15 had continued to be published, it is likely that the final figures shown here would have been revised, probably slightly upwards.

Fairtrade

Dr. Kumar: To ask the Secretary of State for Trade and Industry what criteria are used to determine whether a product can be classified as fairtrade, with particular reference to how much of the profit must go to the farmer. [44105]

Ian Pearson: For a product to be labelled Fairtrade, producers and traders must meet standards set by the Fairtrade Labelling Organisations International (FLO). Producer Standards comprise the organisational, social and environmental criteria that must be met for them to be certified as a Fairtrade producer. Smallholder cooperatives or other organisations must be instruments for the social and economic development of the

members, who must receive the benefits of Fairtrade. For workers on plantations and in processing factories, their employers must pay decent wages, guarantee them the right to join a trade union, and provide good housing, where relevant. Minimum health and safety as well as environmental standards must be complied with, and no child or forced labour can occur.

The price paid to producers is not determined as a percentage of profit, but Fairtrade criteria establish a minimum guaranteed price that covers the cost of production and ensures a living wage for growers. In addition to the purchase price paid by importers, a separate payment is designated for social and economic development in the producing communities. The farmers and growers themselves decide how these funds are to be spent, while being encouraged to invest in further sustainable development.

Dr. Kumar: To ask the Secretary of State for Trade and Industry if he will assess the merits of encouraging companies selling food produced in the developing world to publish on the packaging what proportion of the sale price is paid to the farmers. [44106]

Ian Pearson: The Government believe that the most effective way to develop fair and ethical trade labelling schemes is to ensure that they are voluntary and business led as they are likely to be more flexible and adaptable to changing circumstances. Government should provide an enabling rather than a prescriptive framework. There are already a number of successful voluntary labelling initiatives, which have been those developed by business, sometimes in partnership with civil society. For example, the Forest Stewardship Council (FSC) label, put together in partnership with NGOs and full industry backing, fills a communication gap and delivers environmental improvements.

With regard to pricing, Fairtrade criteria establish a minimum guaranteed price that covers the cost of production and ensures a living wage for growers. In addition to the purchase price paid by importers, a separate payment is made which is designated for social and economic development in the producing communities. The farmers and growers themselves decide how these funds are to be spent.

Gas Prices

Mike Penning: To ask the Secretary of State for Trade and Industry pursuant to the answer of 15 December 2005, *Official Report*, column 2253W, on gas prices, what response the Chancellor of the Exchequer and the Secretary of State for Trade and Industry have had to the letters which they sent to Commissioner Kroes about supplies of gas; when the letters were sent; and if he will publish the correspondence. [45731]

Malcolm Wicks: We expect the Commission to respond in mid-February to the letter sent by the Chancellor of the Exchequer and the Secretary of State on 5 December. The Commission are currently carrying out the investigation we requested and have already sought information from various parties.

So long as I am not prevented by confidentiality, I will write to you with a copy of the correspondence when we receive the Commission's reply and will also the place a copy in the Libraries of the House.

Green Ministers

Norman Lamb: To ask the Secretary of State for Trade and Industry what work his Department's Green Minister has undertaken in the last three months in relation to the environment and sustainable development. [45506]

Malcolm Wicks: As part of the Government's Sustainable Development Strategy 'Securing the Future' I oversaw and provided the Foreword to my Department's Sustainable Development Action Plan, showing how the DTI is taking forward its commitments under the strategy.

The Department is continuing to rationalise its main London HQ estate, reducing the space we occupy by about 30 per cent. by April 2006 compared to the position two years ago with corresponding reductions in all the building related environmental impacts.

I have announced an Energy Review which will be looking at securing clean, affordable energy for the long-term.

I have met representatives of a number of non-governmental organisations promoting policies for a better environment, including the Green Alliance.

I have set out the Government's position on climate change and sustainable energy at a number of events looking at these issues, including the British Wind Energy Association Annual Conference and the Cleaner Safer Greener conference in Croydon in October, and the Renewable Energy in Europe conference in Brussels in November.

I chaired a meeting of the EU Energy Council in December, which published Council Conclusions on climate change and sustainable energy.

I have appointed seven new members to the Renewables Advisory Board which provides advice to Government on a wide range of renewable energy issues.

I initiated a review on the implementation of the Waste Electrical and Electronic Equipment Directive (known as WEEE) which requires producers to pay for treatment and recycling or recovery of all WEEE products.

As Minister for Corporate Social Responsibility, I was also involved in and spoke at the UK Presidency Corporate Social Responsibility Conference which took place on 1 and 2 December.

India

Mr. Vaizey: To ask the Secretary of State for Trade and Industry what the balance of trade between India and the United Kingdom was in each of the last five years. [43315]

Ian Pearson: Information on the UK's balance of trade in goods and services with India are given in the following table.

UK balance of trade in goods and services with India 2000–04

	£ million, current prices
2000	293
2001	-178
2002	-224
2003	110
2004	-242

Source:
United Kingdom balance of payments, The Pink Book, 2005

Ms Dari Taylor: To ask the Secretary of State for Trade and Industry how many Indian companies set up *(a)* a subsidiary company, *(b)* a branch office and *(c)* an other presence in the UK in 2004–05. [45130]

Alun Michael: The information requested could be obtained only at disproportionate costs.

Miners' Compensation

John Mann: To ask the Secretary of State for Trade and Industry how many identical miners' claims have been submitted by two firms of solicitors where one of the two firms is *(a)* Beresfords, *(b)* Wake Smith, *(c)* Moss, *(d)* AMS Law, *(e)* BRM and *(f)* Vendside. [45748]

Malcolm Wicks: The number of claims submitted by two firms where one is one of those listed is as follows:

	Number
(a) Beresfords	3,413
(b) Wake Smith	195
(c) Moss	216
(d) AMS Law	439
(e) BRM	341
(f) Vendside/UDM	342

If a claim has been submitted by two of the above, it will appear in the figures for both solicitors. These figures include potential duplicate claims that have yet to be investigated and resolved. Most duplicate cases relate to deceased claims where different members of the family submit a claim. Only one claim can be pursued.

John Mann: To ask the Secretary of State for Trade and Industry how many solicitors have had claims for miners' compensation suspended because an identical claim has been submitted by a second firm of solicitors. [45749]

Malcolm Wicks: 295 different solicitors have had claims suspended as a result of duplicate claims having been registered. Some of these claims will have been investigated and progressed. These figures include potential duplicate claims that have yet to be investigated and resolved. Most duplicate cases relate to deceased claims where different members of the family submit a claim. Only one claim can be pursued.

John Mann: To ask the Secretary of State for Trade and Industry how many miners' claims in *(a)* Bassetlaw and *(b)* the UK have been temporarily suspended because they have been submitted by two separate firms of solicitors. [45750]

Malcolm Wicks: There are 160 duplicate claims temporarily suspended in Bassetlaw and 14,852 in the UK as a whole. These figures include potential duplicate claims that have yet to be investigated and resolved. Most duplicate cases relate to deceased claims where different members of the family submit a claim. Only one claim can be pursued.

John Mann: To ask the Secretary of State for Trade and Industry when issues relating to miners' compensation were last raised by his Department with *(a)* the National Audit Office, *(b)* the Treasury and *(c)* the Legal Services ombudsman. [45908]

Malcolm Wicks: The National Audit Office regularly review aspects of the schemes as part of their audit of the Department's accounts. Twice each year, we submit our forecast of expenditure to the Treasury. This was last carried out in December 2005. We are not aware of any discussions with the Legal Services ombudsman.

Mobile Telecommunications (London)

Bob Spink: To ask the Secretary of State for Trade and Industry what assessment he has made of the capacity of mobile telecommunications in London since the difficulties experienced with the network on 7 July 2005. [42581]

Alun Michael: The Government have reviewed with industry the performance of the telecommunications sector and provision of services on 7 July 2005. This shows that there was no failure of the mobile networks but the level of demand was significantly greater than usual and exceeded the extra margin of capacity—about 20 percent. above the average daily peak—that is built into the networks for unseen demand. Consequently, service was either restricted or not available for some customers at periods during the day. The congestion was managed by the operators through the application of network calming measures such as "call gapping", which restricted access from the fixed networks onto the mobile networks—but does not affect 999 services—and by squeezing more calls within the available capacity by reducing the quality of voice calls. Restricting customers to text messages only at such times to ease congestion, as has been suggested, is not possible because voice and text services use separately allocated network channels that are not interchangeable.

The measures taken by the operators, together with their advice to customers to keep calls short, succeeded in ensuring there was no collapse of the networks. This enabled a swift return to normal services when the congestion eased.

Nuclear Power (Wales)

Jenny Willott: To ask the Secretary of State for Trade and Industry how much the Government have spent on the running costs of nuclear power plants in Wales in each year since 1997; and if he will make a statement. [43326]

Malcolm Wicks: BNFL's records show that running costs of its nuclear power plants in Wales to 31 March 2005 are as follows.

£ million

	Trawsfynydd	Wylfa
1997	15.3	88.7
1998	14.2	85.8
1999	11.7	89.6
2000	18.6	95.6
2001	18.9	96.8
2002	22.5	89.7
2003	29.8	81.8
2004	34.9	98.3
2005	44.3	92.1

Parliamentary Questions

Bill Wiggin: To ask the Secretary of State for Trade and Industry when he will provide a substantive answer to question 38362. [45876]

Malcolm Wicks: I am sorry for the delay in replying to the hon. Member's question. I expect to reply very shortly.

Post Office Closures

Tim Farron: To ask the Secretary of State for Trade and Industry how many post offices have been closed in *(a)* Westmorland and Lonsdale and *(b)* Cumbria in each of the last five years. [45813]

Barry Gardiner: This is an operational matter for Post Office Ltd. and the chief executive has been asked to reply direct to the hon. Member.

Renewable Energy

Mr. David Jones: To ask the Secretary of State for Trade and Industry what grants have been made by his Department to facilitate the development of *(a)* wind power and *(b)* other forms of renewable energy in each of the last five years for which figures are available. [46150]

Malcolm Wicks: I refer the hon. Member to my replies of 25 October 2005, *Official Report*, columns 296–302W, to the hon. Members for Lewes (Norman Baker) and North Norfolk (Norman Lamb).

Lynne Featherstone: To ask the Secretary of State for Trade and Industry what steps the Government are taking to promote renewable forms of energy; and if he will make a statement. [46292]

Malcolm Wicks: The Government's main mechanism for supporting new renewable generating capacity is the renewables obligation (RO). Introduced in April 2002, the RO requires electricity suppliers to source an increasing proportion of their electricity sales from RO eligible sources of renewable energy.

The renewables obligation is also supported with around £500 million of Government investment, between 2002 and 2008, in capital grants and research and development into renewables and other low carbon technologies.

SITPRO

Norman Lamb: To ask the Secretary of State for Trade and Industry how many hits there were on the SITPRO website in each of the last five years; and how many companies have been assisted by SITPRO in this period. [42377]

Ian Pearson: The total hits on the SITPRO website in each of the last five years were as follows:

	Number of hits
2001	423,271[1]
2002	923,465
2003	1,584,498
2004	2,963,879
2005	3,475,254

[1] Records cover July-December only

It is not possible to estimate accurately how many companies SITPRO has assisted over this period. Since 2004, after SITPRO's helpdesk was relaunched, it has handled over 1,000 inquires a year, mostly from small traders enquiring about import and export documents and procedures on which it is uniquely placed to assist. SITPRO helps many other small and medium sized companies through seminars and workshops. It also engages with companies of all sizes through its policy groups and other stakeholder fora to influence developments in customs and other border regulation, both domestic and international, to promote trade facilitation principles and standards.

Norman Lamb: To ask the Secretary of State for Trade and Industry what assessment he has made of the level of co-ordination between SITPRO, UK Trade and Investment and the regional development offices in promoting international investment; how many times these organisations met each other in the last five years; how best practice is shared between these organisations; how potential conflicts of interest between the organisations are resolved; and if he will make a statement. [42378]

Ian Pearson: SITPRO, UK Trade and Investment and the Regional Development Agencies (RDAs) have distinct roles. SITPRO is the world's leading trade facilitation agency and its expertise lies in the simplification of documents and procedures, e.g. customs, for clearing goods at the border. UKTI's role is to support UK businesses undertaking international trade and in attracting inward investment to the UK. The RDAs work closely with UKTI on both inward investment and trade development activity at regional level. UKTI promotes the whole of the UK as a location for inward investment, working in partnership with the English RDAs and the Development Agencies (DAs) of the Devolved Administrations. In addition to working with UKTI to attract, retain and add value to inward investment, staff in all these agencies have actively participated in the Committee on Overseas Promotion (COP), which brings together inward investment practitioners from throughout the UK to discuss strategic and operational issues, as well as share best practice. In addition to the regular meetings of COP and its sub-groups, there is regular contact with the RDAs and DAs on a daily basis concerning individual investor inquiries.

SITPRO complements the international trade work of UKTI by providing technical advice to traders on customs formalities. It also influences customs and

other border agency policy and regulation with a view to making trade procedures simpler. SITPRO and UKTI meet at least three times a year. UKTI is the largest source of inquiries referred to SITPRO's helpdesk, reflecting the close co-ordination they have on policy and operational issues affecting the UK international trading community and demonstrating full awareness of the unique way the two organisations work together.

Small Business Research Initiative

Kitty Ussher: To ask the Secretary of State for Trade and Industry what evaluation he has made of small business innovation research programmes in other countries; and if he will make a statement. [45279]

Alun Michael: The UK's small business research initiative (SBRI) was modelled on the US Government's small business innovation research (SBIR) programme, which remains the most relevant international benchmark for SBRI.

Both the UK and US programmes aim to raise productivity and business innovation by providing research and development contract revenues to technology-based small firms, helping them to commercialise their intellectual property and supplying Government bodies with R&D services.

The Chancellor mandated Departments to take part in SBRI in his Budget on 16 March 2005. Until then participation had been voluntary. We aim to publish the voluntary phase performance figures for 2003–04 and 2004–05 under SBRI shortly.

Since its inception in 1982, the US programme has been subject to periodic evaluations by the US general accounting office and the UK Government keeps a careful eye on these. The reports to date have largely affirmed that SBIR is meeting its twin goals of furthering the economic development of technology-based small firms and delivering quality valuable R&D outputs to federal agencies.

Spent Nuclear Fuel

Jenny Willott: To ask the Secretary of State for Trade and Industry how much imported spent nuclear fuel is stored in the United Kingdom; and if he will make a statement. [43324]

Malcolm Wicks I am advised by the Nuclear Decommissioning Authority that around 750 tonnes of overseas spent fuel is currently stored at facilities in the UK, with the majority being stored at Sellafield.

Since 1976, all contracts for reprocessing of overseas spent fuel in the UK contain a clause stating that the materials, including waste, resulting from the reprocessing will be returned to the country of origin.

Telephone Preference Service

Norman Lamb: To ask the Secretary of State for Trade and Industry how many complaints of alleged breaches of Privacy and Electronic Communications (EC Directive) Regulations 2003 were received by the *(a)* Information Commissioner, *(b)* Direct Marketing Association and *(c)* Telephone Preference Services Ltd. in each quarter of the last three years. [42499]

Alun Michael: I am advised by the Information Commissioner that direct complaints received and dealt with about alleged breaches of Regulation 21 (unsolicited direct marketing calls) of the Privacy and Electronic Communications (EC Directive) Regulations 2003 were as follows:

	2004	*2005*
Q1	28	336
Q2	44	397
Q3	213	184
Q4	308	96

Figures before 2004 are not available due to the casework management system previously operated by the ICO.

The Telephone Preference Service Ltd. (TPSL) is a subsidiary company of the Direct Marketing Association (DMA) and runs the Telephone Preference Service under contract from Ofcom, the Communications regulator. Complaints to the DMA are forwarded to TPSL—the DMA does not keep its own figures.

I am advised by TPSL that complaints received were as follows:

	2003	*2004*	*2005*
Q1	1,953	4,456	8,613
Q2	1,143	3,776	9,154
Q3	1,925	5,354	5,561
Q4	1,944	7,008	4,889

If a customer's telephone number has been registered with the Telephone Preference Service for at least 28 days and the customer's is still receiving unsolicited telemarketing calls, he or she can complain to TPSL. TPSL will contact the organisation concerned with a view to stopping such calls and include the complaint in the regular report it sends to the Information Commissioner. The Information Commissioner does not investigate individual complaints received by TPSL but does use the information provided to monitor trends of complaints and potential multiple breaches. Where appropriate, the Information Commissioner can use this information as further evidence in investigations into complaints.

Norman Lamb: To ask the Secretary of State for Trade and Industry (1) pursuant to the answer of 29 November 2005, *Official Report*, columns 291–92W, on the Telephone Preference Service, how many companies were identified by complaints received in relation to alleged breaches of telephone call regulation; and how many companies received multiple complaints; [42500]

(2) pursuant to the answer of 8 December 2005, *Official Report*, columns 1487–88W, on the Telephone Preference Service, how many companies have received multiple warning letters for breaches of the Privacy and Electronic Communications (EC Directive) Regulations 2003; and how many cases have been referred to the Regulatory Action Division for them to consider enforcement. [42501]

Alun Michael: I understand from the Information Commissioner that due to the nature of the casework management system used, they are unable to identify the number of different companies about which they received complaints in relation to an alleged breach of Regulation 21 (unsolicited direct marketing telephone calls) of the Privacy and Electronic Communications (EC Directive) Regulations 2003. The system similarly prevents them from identifying the number of companies about which multiple complaints were received. The Information Commissioner plans to develop this function in the casework management system in future.

THORP

Norman Baker: To ask the Secretary of State for Trade and Industry if he will make a statement on the future of the THORP reprocessing plant. [46036]

Malcolm Wicks: The Government's position on the future of THORP was set out in the July 2002 White Paper "Managing the Nuclear Legacy". The Nuclear Decommissioning Authority (NDA) expects to complete their existing order book for reprocessing spent fuel at THORP by around 2010.

The Nuclear Installations Inspectorate (NII) are progressing with further investigations which will result in a separate report on the THORP incident. The plant will only reopen if the NII approves a safety case but if the NII is satisfied that its safety requirements can be met, the NDA in conjunction with the plant operator, the British Nuclear Group, will decide as to when to restart the plant. This decision is expected within the next few months.

Union of Democratic Mineworkers/Vendside

John Mann: To ask the Secretary of State for Trade and Industry how many meetings took place between officials in his Department and the Union of Democratic Mineworkers and Vendside in each year since 1995. [45751]

Malcolm Wicks: The number of meetings each year between the Department and the UDM/Vendside is as follows:

	Number
1999	5
2000	10
2001	6
2002	5
2003	6
2004	2
2005	1

These were mainly operational meetings about the progress of the coal health schemes.

Wind Power

Mr. Spellar: To ask the Secretary of State for Trade and Industry pursuant to the answer of 12 January 2006, *Official Report*, column 791W, on wind power, what steps his Department is taking to encourage the growth of British manufacturing capability to provide for demand from wind power developers. [44750]

Alun Michael: The Department's 2010 Target Team has a number of ongoing business development workstreams, designed to encourage the growth of British manufacturing capability, to provide for demand from wind power developers.

One such workstream includes co-ordinating activity with regional partners in order to raise awareness of the market among new and existing suppliers, and to identify companies capable of addressing the weaknesses identified in the supply gap analysis carried out in 2004. The next Meet the Buyer event will be held in May 2006.

Other activities include three pilot programmes targeted at improving the quality, cost and delivery performance of UK suppliers to the renewables sector.

World Trade Organisation

Peter Law: To ask the Secretary of State for Trade and Industry if he will *(a)* place in the Library and *(b)* post on his departmental website documents prepared by his Department for the trade negotiations meeting in Hong Kong; which departmental officials accompanied him to the meeting; what carbon offset measures were established to cover the Department's delegation; and if he will make a statement on (i) matters discussed and (ii) the outcome of the negotiations. [41488]

Ian Pearson: The Government have set out regularly its objectives for the Doha development agenda and the Sixth World Trade Organisation ministerial conference in Hong Kong but does not intend to publish documents prepared by the Department in advanced of the conference, many of which contain sensitive information.

Fifteen officials from the Department of Trade and Industry accompanied my right hon. Friend the Secretary of State and the Minister for Trade.

The DTI is committed to participate in the UK Government's scheme to offset carbon dioxide emissions from central Government air travel from April 2006.

HOME DEPARTMENT

Animal Welfare

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many people were convicted of cruelty towards animals in *(a)* Coventry, South and *(b)* the West Midlands in each year since 1997. [43393]

Fiona Mactaggart *[holding answer 23 January 2006]:* Persons found guilty for various offences connected with animal cruelty are shown in the table for Coventry Petty Sessional Area and West Midlands police force area, 1997 to 2004. It is not possible to identify Coventry, South as data are not broken down to that level of detail.

Number of offenders[1] found guilty for offences relating to animal cruelty in West Midlands police force area, 1997–2004

	Statute	1997	1998	1999	2000	2001	2002	2003	2004

[1] Principal offence basis.

Source:
RDS—Office for Criminal Justice Reform

Data for 2005 will be available in the autumn of 2006.

Asylum Seekers

Mr. Clegg: To ask the Secretary of State for the Home Department how many asylum seekers *(a)* became liable for removal in the last three years in which figures are available and *(b)* are signing with the UK Immigration Service (UKIS) as part of their reporting conditions; how many refused asylum seekers (i) are continuing to receive support from the National Asylum Support Service (NASS) because they have dependent minor children and

(ii) are receiving section 4 support from NASS; and for how many UKIS has a verifiable address other than their last NASS accommodation. [19037]

Mr. McNulty: Around 59,400 individuals, including dependants, were recorded as becoming failed asylum seekers (either did not appeal or appeal rights exhausted or clearly unfounded cases who meet the criteria for non-suspensive appeals) in 2004, 23 percent. lower that 2003 (77,200). Information for earlier years is not readily available and could only be produced at disproportionate cost.

Management information currently estimates that around 51,000 asylum applicants and failed asylum applicants report to immigration staff as a condition of temporary admission. Information on the number of asylum seekers supported by MASS with dependants under 18 who have no valid claim for asylum is not available and could only be produced at disproportionate costs by examination of individual case records. As at the end of September 2005, there were 7,630 people recorded as supported under section 4.

Information on the number of refused asylum seekers that UKIS has a potentially verifiable address other than their last MASS accommodation is not available and could only be produced at disproportionate costs by examination of individual case records.

British Citizenship

Mr. Devine: To ask the Secretary of State for the Home Department how many people living in Livingston constituency became British citizens in 2005. [44021]

Mr. McNulty: Information on the basis requested is not collected centrally and could be obtained only at disproportionate cost. Information is available by local authority area and indicates that 70 people who lived in the West Lothian local authority area were granted British citizenship in 2005. This is based on provisional management information. It is not a national statistic and may be subject to change.

Correspondence

Clare Short: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the letter of 18 July 2005 from the right hon. Member for Birmingham, Ladywood on behalf of Abbas Adeli (Home Office Reference A1165607). [44614]

Mr. McNulty: The Immigration and Nationality Directorate responded to the letter from my right hon. Friend on 24 January 2006.

Lynne Featherstone: To ask the Secretary of State for the Home Department when his Department will reply to the hon. Member for Hornsey and Wood Green's correspondence of 10 October 2005 regarding a constituent, Mr. Henry Compagnie-Coker (Home Office reference: C442214). [44999]

Mr. McNulty: The Immigration and Nationality Directorate replied to the hon. Member's letter to the head of Member of Parliament correspondence section on 20 January.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter dated 5 October 2005 from the right hon. Member for Manchester, Gorton with regard to Mrs. H. Akhtar. [41843]

Mr. Charles Clarke: I wrote to my right hon. Friend on 17 January 2006.

Crime Statistics

Lynne Jones: To ask the Secretary of State for the Home Department what proportion of *(a)* men and *(b)* women aged (i) under 25 years and (ii) 25 years or over arrested but not charged are subsequently convicted of a different crime; and what the conviction rate is for the general population in the same gender and age groups. [44204]

Fiona Mactaggart: The information requested on arrests is not collected centrally. Nor is it possible to identify those defendants arrested but not charged who are subsequently convicted of a different crime as the data on the court proceedings database held by the Office for Criminal Justice Reform is not collected at this level of detail.

Drug Treatment and Testing Orders

Mr. Malins: To ask the Secretary of State for the Home Department how many drug treatment and testing orders were made by courts in England in each of the last three years; and how many were breached in each year. [44145]

Fiona Mactaggart *[holding answer 19 January 2006]:* The number of drug treatment and testing orders (DTTOs) made by courts in England; for which breach proceedings were instigated; which were revoked at a breach hearing for failure to comply with the order; and/or revoked on application following conviction for another offence in each of the last three years is shown in the following table. Data on the number of orders where breach proceedings were instigated but the order expired before the case was heard has only been collected since 2004–05 so is shown only for that year. Since April 2005, the DTTO has gradually been replaced by the community order with a drug rehabilitation requirement (DRR) for offenders aged 18 and over.

	Number of DTTOs made	*Number of DTTOs for which breach proceedings were instigated*	*Number of DTTOs revoked for failure to comply with the requirements of the order*	*Number of DDTOs revoked following conviction for another offence*	*Number of DTTOs which expired with breach proceedings outstanding*
2002–03	5,747	5,096	2,087	915	—
2003–04	7,903	6,810	2,537	1,357	—
2004–05	9,726	8,450	2,453	2,238	332

Mr. Malins: To ask the Secretary of State for the Home Department if he will make a statement on the provision of drug treatment programmes to serving prisoners. [44660]

Fiona Mactaggart: Drug treatment goes wider than drug rehabilitation programmes alone. A comprehensive range of drug interventions is available for drug misusers in custody.

These address low, moderate and severe drug dependency and comprise:

Clinical services (detoxification and/or maintenance prescribing programmes), available in all local and remand prisons;

CARATs (Counselling, Assessment, Referral, Advice and Throughcare services), available in all prisons;

Drug Rehabilitation Programmes, 116 drug rehabilitation programmes, 40 of which are the Short Duration Programme, are running in 103 establishments ;with treatment being supported by a range of mandatory and voluntary drug testing programmes.

Engagements

Keith Vaz: To ask the Secretary of State for the Home Department when he next plans to visit India to discuss immigration issues. [45442]

Mr. McNulty: My right hon. Friend, the Home Secretary has no current plans to visit India. Officials maintain regular contact with their Indian counterparts on immigration issues and this involves some visits. I visited India to discuss immigration issues with the Delhi Government and the Punjab State Government in November 2005.

EU Accession State Workers

Mr. Hoban: To ask the Secretary of State for the Home Department what estimate he has made of the number of workers in the United Kingdom from EU accession states, broken down by *(a)* occupation and *(b)* country of origin. [44194]

Mr. McNulty: The Accession Monitoring Report for May 2004—September 2005 sets out the number of citizens from the Accession eight Countries of the EU (accession state nationals) who have applied to register with the Worker Registration Scheme during this period. This report is available on the Home Office website via:http://www.ind.homeoffice.gov.uk/ind/en/home/0/reports/accession_monitoring.html

IRIS Project

Mr. Wallace: To ask the Secretary of State for the Home Department pursuant to his answer of 30 November 2005, *Official Report*, column 597W, on the IRIS Project, when he will report the key findings to the House; and what elements of the pilot project will be commercially sensitive. [45949]

Mr. McNulty: Pursuant to my answer of 30 November key findings will be reported to the House following evaluation of the pilot. Implementation is scheduled for completion by the end of summer 2006. The contractual elements of the pilot project are commercially sensitive.

National Offender Management Service

Mr. Gerrard: To ask the Secretary of State for the Home Department what the *(a)* role and *(b)* functions are of regional offender managers. [23269]

Fiona Mactaggart: Details of the role and functions of Regional Offender Managers were contained in the information pack sent to all prospective candidates in the summer of 2004. A copy of the information pack has been placed in the House of Commons Library for Members to read.

Mrs. Dunwoody: To ask the Secretary of State for the Home Department what the latest job descriptions are of each of the regional offender managers working for the National Offender Management Service. [44878]

Fiona Mactaggart: Job specifications and selection criteria for the post of regional offender manager were contained in the information pack sent to all prospective candidates in the summer of 2004. A copy of the information pack has been placed in the House of Commons Library.

Mrs. Dunwoody: To ask the Secretary of State for the Home Department whether he plans to align public sector prison service areas to those of the regional offender managers. [44883]

Fiona Mactaggart *[holding answer 23 January 2006]:* The ten regions overseen by the regional offender managers (ROMs) are co-terminous with the prison service areas, with the exception of the south-east where three prison service areas fall within the ROM's remit. There are no plans to change these boundaries.

Mr. Llwyd: To ask the Secretary of State for the Home Department whether the job description for regional offender managers will be published; if he will place a copy in the Library; and if he will make a statement. [22656]

Fiona Mactaggart: The job description for the post of Regional Offender Manager was contained in the information pack sent to all prospective candidates in the summer of 2004. A copy of the information pack has been placed in the House of Commons Library.

Mrs. Dunwoody: To ask the Secretary of State for the Home Department how many staff are employed by each regional offender manager. [44943]

Fiona Mactaggart *[holding answer 23 January 2006]:* A full list of staff in post in each region, as of 10 January 2006, is shown in the following table:

	Number
London	5
South East	7
Wales	7
North East	6
Yorkshire and Humberside	6
North West	5
East Midlands	5
West Midlands	6
South West	8
East of England	7

Offenders' Children

Kerry McCarthy: To ask the Secretary of State for the Home Department what research the Government has evaluated on the likelihood of children with parents serving a custodial sentence being at risk of serving a future custodial sentence themselves; and if he will make a statement on the Department's plans to support children assessed to be at higher risk of offending due to their family circumstances. [41594]

Fiona Mactaggart: There is no research which directly answers this question. However, there is a body of research evidence which shows that having parents who have been convicted is strongly predictive of their sons being convicted or cautioned (Maguire et al, 1997; Dodd and Hunter, 1992).

The National Reducing Re-offending Action Plan, published on July 19, 2004, committed the Government to developing a cross-government approach to providing information, advice and support for offenders' children and families. £2.04 million has been secured by the Home Office from the Invest to Save Budget to pilot a regional approach over three years which will evidence a model for engagement and inform national roll-out in partnership with the Voluntary and Community Sector, DfES, DWP, the Learning and Skills Council and the Legal Services Commission. The Home Office works closely with a wide range of organisations, including the DfES, on preventing young people who are at risk as a result of a number of factors, including family circumstances, from involvement in offending and a range of negative outcomes. For example, the Youth Justice Board and Youth Offending Teams provide a number of targeted services for children and young people at high risk of offending. In addition, the Government's Every Child Matters reforms are an essential part of this work as they shift the focus of children's services towards early intervention and prevention. The DfES are supporting five organisations providing adult relationship and parenting skills support to prisoners' families.

Prison Service (Pay)

Mr. Fallon: To ask the Secretary of State for the Home Department what progress has been made in requiring the Prison Service Pay Review Body to consider local pay; and if he will make a statement. [44948]

Fiona Mactaggart *[holding answer 23 January 2006]:* Local pay additions are currently paid to staff at 28 sites to address local recruitment and retention difficulties. In October 2005, the Prison Service proposed to extend the scheme to five new sites, in its submission to the Prison Service Pay Review Body (PSRB). The PSRB is due to make its recommendations in February.

Prisons

Mr. Davey: To ask the Secretary of State for the Home Department what research his Department has commissioned into strategies to raise the reading age of serving prisoners whose reading age is significantly below the national average for their age group. [43188]

Fiona Mactaggart: Calculation of age-related average reading scores is only feasible for children up to about the age of 16, and adults have neither individual reading ages nor average ones for separate age groups.

However, a few studies have been conducted expressly on this topic. In 2005, the Home Office published findings based on a longitudinal evaluation of basic skills training for prisoners which indicated that the only significant predictor to improved literacy and numeracy was the amount of training received (over 30 hours). This can be found at: http://www.homeoffice.gov.uk/rds/pdfs05/r260.pdfpercent5D The Home Office has also developed a new longitudinal study of prisoners that aims to explore how interventions, including education and employment programmes, might work in combination to address the range of prisoners' needs.

The study, Surveying Prisoner Crime Reduction (SPCR), began in late 2005 and is of four years duration. It should greatly improve our knowledge about the nature of prisoners problems and needs on reception, how prison interventions are targeted, the extent of association between participation in interventions and post-release outcomes, as well as which prisoners benefit the most from interventions.

Greg Clark: To ask the Secretary of State for the Home Department what estimate his Department has made of the drop-out rate for education courses undertaken by prisoners. [40532]

Fiona Mactaggart *[holding answer January 2006]:* Percentages for uncompleted education courses undertaken by prisoners are not collected centrally.

Mr. Garnier: To ask the Secretary of State for the Home Department how many prison officers were employed by the Prison Service in each of the last five years for which figures are available. [43578]

Fiona Mactaggart: Information on the number of officers employed in each of the last five years is contained in the table. The figures include prison officers, senior officers and principal officers as well as specialist prison officer grades. The figures represent a snapshot staffing level on the last date of each year.

As at 31 December each year:	*Total officer grades*
2005	24,562
2004	24,355
2003	23,912
2002	23,327
2001	23,182
2000	24,046

Mr. Garnier: To ask the Secretary of State for the Home Department how many *(a)* full-time and *(b)* full-time equivalent literacy and numeracy teachers have been employed by the Prison Service in each of the last five years for which figures are available. [43581]

Fiona Mactaggart: Learning and skills for offenders in custody in England are delivered by contractors. These contract arrangements mean that the teachers engaged in delivering literacy and numeracy in English

prisons are employed not by the Prison Service but by external providers, largely further education colleges under the current arrangements.

Numbers of literacy and numeracy teachers employed by contractors are not collected centrally and could be collected only at disproportionate cost. The Prison Service employs a total of 13.5 full-time equivalent literacy and numeracy teachers in its three establishments in Wales. Those arrangements have been in place since 1 September 2005. Prior to that, the Prison Service employed no literacy and numeracy teachers in England and Wales.

Mr. Bellingham: To ask the Secretary of State for the Home Department what resources are made available to assist inmates preparing for release in finding *(a)* work and *(b)* accommodation; what assessment he has made of the effectiveness of these resources; and if he will make a statement. [44337]

Fiona Mactaggart: In purely financial terms, over £60 million is available as part of the PS Plus two programme, and an additional £14 million a year through the Prison Service Custody to Work Scheme. The Voluntary and Community Sector is also an important provider of these services and a leading partner in several large European Union funded programmes, such as Women into Work (SOVA) and PRISE (Rainer).

There is also a significant amount of time invested in preparing prisoners for release by staff from both the Prison and Probation services, from other Government departments and by voluntary and private sector partners. Significant progress has been made in both areas: nearly all prisons now have housing advice workers drawn from a wide range of providers and Jobcentre Plus surgeries to provide job advice. In 2004–05 the proportion of recorded offenders released from prison without accommodation to go to fell by one third; and over 41,000 had an education, job or training place to go to on release.

Mr. Bellingham: To ask the Secretary of State for the Home Department what account he has taken of the views of inmates in the organisation of prison education; and if he will make a statement. [44338]

Fiona Mactaggart: The Department for Education and Skills, along with the Home Office and the Department of Work and Pensions, published on 15 December a Green Paper on offender learning: "Reducing Re-offending through Skills and Employment". As part of the policy development for this document, officials invited a wide range of views, including those of organisations representing the rehabilitation and education of offenders.

Officials, and the Minister for Skills, Phil Hope, visited prisons and probation areas, where they were able to speak directly to offenders and staff. Two discussion groups were also run with prisoners prior to publication, focusing in particular on changes that would improve education provision. Offenders will also be able to take part in the Green Paper consultation—further discussion groups will be run to facilitate this. In addition, prisoners can on a day to day basis make their views known on education matters through other means, such as talking directly to prison or probation staff including the head of learning and skills; and they may refer matters to the prisons and probation ombudsman.

Mr. Bellingham: To ask the Secretary of State for the Home Department what the levels of overcrowding were for *(a)* each prison and *(b)* the whole Prison Estate broken down by (i) public and (ii) private sector prisons for each year since 1997; and if he will make a statement. [44343]

Fiona Mactaggart: The percentage of overcrowding in each prison is shown in the following table. Figures are shown for each financial year since 1998–99. The table shows the sector into which each prison falls and includes totals for public prisons, contracted out prisons and for the whole prison estate.

Mr. Bellingham: To ask the Secretary of State for the Home Department how many prisoners in each prison had *(a)* a job, *(b)* training and *(c)* an education placement to attend upon release in the last year for which figures are available; and if he will make a statement. [44345]

Fiona Mactaggart: The data collected identifies prisoners entering Education Training and Employment (ETE) which includes those who attended FRESHSTART appointments at Jobcentre Plus. FRESHSTART is the initiative whereby prisoners who do not have a job or training place to go to on release are linked into employment, training and benefits advice and support immediately after release. The compound elements of ETE cannot be broken down except at disproportionate cost. Figures for ETE are given as follows.

Mr. Bellingham: To ask the Secretary of State for the Home Department which prisons have local learning centres; what the cost of each centre is; what plans he has to create more local learning centres; and if he will make a statement. [44349]

Fiona Mactaggart: There are 13 local learning centres. Their location and running costs, for 2004–05, are detailed in the following table. Funding for a further three centres has been approved.

Prison service learning centres and running costs for 2004–05

	Amount (£)
Blakenhurst	9,989
Gartree	10,232
Ranby	12,000
Lancaster	7,067
Thorn Cross	9,555
Frescoed	5,716

Holme House	10,180
Lindholme	11,057
Guys Marsh	9,839
Verne	10,239
Woodhill	3,083
London	2,580

Mr. Bellingham: To ask the Secretary of State for the Home Department what plans he has to change the *(a)* entry criteria and *(b)* initial training programme for prison officers; and if he will make a statement. [44350]

Fiona Mactaggart: There are no plans to change the necessary entry requirements for new prison officers. However, all newly recruited prison officers now undertake an eight-week Prison Officer Entry Level Training course. The course provides new staff with a foundation level of training, including; interpersonal skills, mental health awareness, race and diversity, violence reduction, safer custody, security awareness and practical skills. An improved quality assurance system is now in place, which adheres to the Adult Learning Inspectorate common inspection framework.

Mr. Bellingham: To ask the Secretary of State for the Home Department (1) what assessment he has made of the Prison Service's policy on the management of sickness absence; and if he will make a statement; [44353]

(2) what steps have been taken to ensure that the Prison Service achieves the National Audit Office target on sickness absence; and if he will make a statement. [44354]

Fiona Mactaggart: During the last three years, the public sector Prison Service has introduced a new and robust framework for managing absence caused by ill health. Provisional figures for 2005 show average absence rates in the public sector Prison Service (including absence caused as a result of accidents and assaults at work) at 12.5 days per staff member. This represents a fall of up to 21 per cent. since 1999 and a fall of 15 per cent. since the introduction of a new policy framework in 2002–03. Absence rates for the financial year 2005–06 are expected to show a further fall.

Mr. Bellingham: To ask the Secretary of State for the Home Department what assessment he has made of the views of *(a)* prison governors, *(b)* prison education managers and *(c)* prison education contractors on the state of education delivery in the prison estate; and if he will make a statement. [44364]

Fiona Mactaggart: Ministers receive regular analysis of the performance of the learning and skills arrangements in prisons through the Home Office's standard reporting arrangements. The development of new arrangements for delivering learning and skills to offenders, planned and funded by the Learning and Skills Council, has involved a wide range of stake holding partners.

A national Project Board includes very senior Prison Service representatives, and each region has set up a separate Regional Partnership Board to drive forward arrangements there. The Regional Partnership Boards include Prison Service Area Managers, Governors and Heads of Learning and Skills. At each stage, therefore, the views of Prison Service Managers—and Regional Offender Managers—have been influential in determining the strategic way forward in developing the new service as it affects prisons.

In addition, officials from the Offenders' Learning and Skills Unit have taken account of contractors' views, for example through running a consultation workshop at the most recent Association of Colleges conference and arranging other stakeholder events at which contractors have been present as part of the preparatory activity towards publication of the Green Paper 'Reducing Re-Offending Through Skills and Employment'.

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on the effectiveness of the Drug Intervention Programme at HMP Pentonville. [44372]

Fiona Mactaggart: The prison element of the Drug Interventions Programme (DIP) is well established at HMP Pentonville and is proving effective in building on drug treatment deliveries in prison by making firm links for prisoners to continue their drug treatment on release.

Lynne Featherstone: To ask the Secretary of State for the Home Department what steps the Government are taking to improve race relations in prisons; and if he will make a statement. [44416]

Fiona Mactaggart: The Prison Service Associate Race Equality Scheme for 2005–08 sets out the Prison Service's actions over the next three years to improve its management of race relations. This information is available on the Prison Service website at www.mprisonservice.gov.uk/abouttheservice/racediversity, it is also available in the House of Commons Library.

Probation Service

Mr. Bellingham: To ask the Secretary of State for the Home Department how many cases the Probation Service handled in each region in the last year; how many staff were employed by the Probation Service in each region; and if he will make a statement. [44383]

Fiona Mactaggart: The number of cases (in terms of people under National Probation Service supervision) handled by the Probation Service is not recorded in whole years. Instead, workload is measured by the

number of active cases being handled by the service on a specific day at the end of each quarter. This figure will fluctuate over time, but the snapshot at a particular date is representative of the number of cases that are being handled at any particular point in time.

The table shows the number of people being supervised by the National Probation Service as at 31 December 2004, which is the most recent published figure. In addition, the table also shows the number of staff in post (full-time equivalent) on the same day as the case load information was captured. The staffing figures do not include staff employed by the national probation directorate in the Home Office, or Chief Probation Officers.

	Number of cases	*Staff in post*
North East	11,486	1,277.50
North West	34,405	3,198.99
Yorkshire and Humberside	22,836	2,380.85
East Midlands	16,954	1,719.64
West Midlands	26,762	2,186.76
East of England	16,287	1,503.90
London	34,013	2,398.30
South East	21,995	2,194.70
South West	12,517	1,480.22
Wales	12,215	1,182.08
NPS Total	209,470	19,522.94

Mr. Bellingham: To ask the Secretary of State for the Home Department what impact the introduction of *(a)* early release schemes and *(b)* intensive supervision schemes have had on the workload of the Probation Service; and whether additional resources have been made available to the Probation Service to deal with these schemes. [44386]

Fiona Mactaggart: The home detention curfew scheme was introduced in January 1999. Over 120,000 prisoners have been released on HDC since then. Before release on HDC is granted, Probation Service staff are involved in assessing the suitability of the offender and the proposed release address.

There is no special allocation of funding for this work. However in 1999, the year in which HDC began, funding for the Probation Service increased by 6 per cent. All offenders serving sentences of 12 months to four years, and young adult offenders aged under 22 years of age serving less than 12 months, are released subject to probation supervision. Changes in the way HDC has been applied have caused short term increases in the number of offenders released but they have not had any long-term impact on supervision resources.

The Probation Service piloted the Intensive Change and Control programme (ICCP) for young adult offenders in 17 areas from 2003. Additional funds were provided to the pilot areas in 2003–04 and 2004–05. From April 2005 the Criminal Justice Act 2003 has enabled orders to be made that contain several requirements. These new intensive orders are gradually replacing ICCP.

Funding to probation boards reflects the increase in workload stemming from the Criminal Justice Act. Funding increased by £54 million in 2005–06 (to £759 million) and is planned to increase further in 2006–07.

Prostitution

Keith Vaz: To ask the Secretary of State for the Home Department what programmes to assist women who wish to stop working as prostitutes receive support from his Department. [44839]

Fiona Mactaggart: No dedicated projects currently receive support from this Department. In 2000 the Home Office awarded £850,000 from the crime reduction programme to 11 multi-agency projects to assess what works in tackling prostitution.

The evaluation of these projects was published in the Home Office research study report "Tackling Street Prostitution: Towards an Holistic Approach" and these findings will form the basis of commissioning guidance for dedicated support projects to be developed for local partnerships as part of the implementation of the recently published prostitution strategy. Government funding is already available, for example to fund drug and alcohol treatment services, to support essential elements of the work of these projects in developing routes out of prostitution.

Rates

Stewart Hosie: To ask the Secretary of State for the Home Department how much was paid by *(a)* HM Inspectorate of Constabulary, *(b)* HM Inspectorate of Prisons and *(c)* HM Inspectorate of Probation function in rates to each local authority in the UK in 2004–05; and how much was paid in (i) each (A) nation and (B) region of the UK and (ii) London. [39163]

Mr. Charles Clarke: The following were the rates payments made by HM Inspectorate of Constabulary, HM Inspectorate of Prisons and HM Inspectorate of Probation during financial year 2004–05.

£

Local authority	*HM Inspectorate of Constabulary*	*HM Inspectorate of Prisons*	*HM Inspectorate of Probation*

2. Rates for their London offices which are within the Department's central London estate are paid centrally.

Remand Prisoners

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures are in place to assist remand prisoners in their preparations for trial. [44959]

Fiona Mactaggart: Remand prisoners who have not been tried are presumed to be innocent and it is the function of the Prison Service to hold them in readiness for their next appearance in court.

All prisons must have a Legal Services officer to assist prisoners in finding a solicitor, to whom they must provide confidential access. Prisons holding remand prisoners must also have a bail information scheme to assist the court in deciding if the period of remand should continue; and a comprehensive range of legal text books and facilities to obtain copies of relevant legal documents.

Inspectorates (Rental Costs)

Mr. Salmond: To ask the Secretary of State for the Home Department how much was paid in rent for properties by *(a)* HM Inspectorate of Constabulary, *(b)* HM Inspectorate of Prisons and *(c)* HM Inspectorate of Probation in 2004–05; and how much was paid in (i) each (A) region and (B) nation of the UK and (ii) London. [39166]

Mr. Charles Clarke: The following were the rent payments made by HM Inspectorate of Constabulary, HM Inspectorate of Prisons and HM Inspectorate of Probation during financial year 2004–05:

[2] The Inspectorates are housed in the Department's central London estate.

Note:

These Inspectorates provide services in England and Wales. Costs for their freehold London offices which are within the Department's central London estate are paid centrally.

Reoffending

Mr. Bellingham: To ask the Secretary of State for the Home Department what criteria are used, expressed as level of risk *(a)* to the public and *(b)* of re-offending, for each level of Probation Service supervision for an offender upon release from prison; and if he will make a statement. [44382]

Fiona Mactaggart: The Probation Service assesses offenders using the Offender Assessment System (OASys). There are two main elements within OASys, an assessment of the risk of serious harm posed by an offender and an assessment of the likelihood of reconviction.

Risk of serious harm to the public or to particular groups of people is assessed as low, medium, high or very high. The assessment involves two variables: the likelihood of an event occurring and the potential impact of that event. Serious harm is defined as life threatening and/or traumatic from which recovery (psychological as well as physical) can be expected to be difficult or impossible.

An offender's likelihood of reconviction is expressed as a numerical score that is split into three bands: low, medium and high. This assessment is based on such factors as the offender's criminal history and whether for example he or she is a drug misuser, abuses alcohol or anti-social attitudes. The two elements of assessment come together in the allocation of offenders to a four level 'tiering' structure through which all offenders under Probation Service supervision are managed.

Those offenders who require the least probation input will be in Tier One, while those requiring the most will be in Tier Four. Tier Four includes those offenders released on licence who are assessed as posing a high or very high risk of serious harm and where it is likely that more than one agency should be involved in their risk management under the Multi- Agency Public Protection Arrangements (MAPPA).

The MAPPA provide the framework to co-ordinate and strengthen the risk management activity of all the relevant agencies involved. High and very high risk of serious harm offenders are managed in the community at MAPPA Levels Two or Three, dependant on the nature and imminence of their risk and the level of resource, or senior management involvement, needed from the relevant agencies.

Dr. Kumar: To ask the Secretary of State for the Home Department what the re-offending rate was for individuals serving *(a)* custodial sentences and *(b)* community service orders in (i) England, (ii) the Tees Valley and (iii) Middlesbrough South and East Cleveland constituency in 2004–05. [37013]

Fiona Mactaggart: Re-offending rates are not currently available on a regional basis. National re-offending rates are published in 'Adult re-offending: results from the 2002 cohort'. Home Office Statistical Bulletin 25/05. This is available on the Home Office's website (http://www.homeoffice.gov.uk/rds/hosbpubs1.html)

Security (Small Ports)

Damian Green: To ask the Secretary of State for the Home Department if he will make a statement on security at small ports; and how many intelligence-led checks were made at small ports during 2005. [44828]

Mr. McNulty: A small port is defined by the Immigration Service as

"any location where we do not have a permanent presence or any other port or airport which, by virtue of volume and type of traffic, is considered suitable for exercising a flexible control".

Port staffing levels in the United Kingdom are determined by a number of factors:

Current and projected numbers of passenger arrivals;

At seaports, the number of freight vehicles that will require searching;

An assessment of the casework generated from the arriving passenger traffic; and

Projected numbers of asylum seekers that will require interview on arrival.

At smaller ports resources are deployed to meet arriving traffic and in addition powers under the Immigration and Asylum Act 1999 are used to clear passengers remotely following checks against warning indices. Passengers subject to control will be examined to ascertain whether they qualify for entry to the UK. All small ports are threat assessed for the degree of risk to the integrity of the control. Special multi-agency, and in some cases multi-national, exercises are run alongside ad-hoc intelligence checks at small ports.

Tax Credit Fraud

Mr. Laws: To ask the Secretary of State for the Home Department how many people have been *(a)* prosecuted for and *(b)* convicted of tax credit fraud in each of the last five years. [38488]

Dawn Primarolo: I have been asked to reply.

The information is contained in the table.

	Prosecutions	*Convictions*
2001–02	28	28
2002–03	35	34
2203–04	59	56
2004–05	211	193
2005–06 (end December)	190	160

Young Offenders

Mr. Wills: To ask the Secretary of State for the Home Department what target he has set for increasing the number of young offenders in education, training or employment when leaving the supervision of youth offender teams. [44858]

Fiona Mactaggart: The Youth Justice Board and the Connexions Service have jointly set youth offending teams a target of ensuring that 90 percent. of the young people they supervise are in full-time education, training or employment. Currently, 75 percent. of young people aged 10 and 17 who are supervised by youth offending teams are in full-time education, training or employment.

CONSTITUTIONAL AFFAIRS

Access to Justice

John Mann: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the effectiveness of systems of access to justice for *(a)* those with literacy problems and *(b)* other vulnerable groups. [40695]

Ms Harman: In 2005 my Department made an assessment of the additional support that might be helpful to vulnerable victims and witnesses, including those with communication difficulties, in the criminal justice process. An interdepartmental examination of early advice provision is also examining ways in which access to independent early legal advice can be improved for vulnerable groups. In addition my Department is testing the use of television as a means of delivering education and information for potential users of the Justice System, with a particular focus on vulnerable and socially excluded witnesses.

Her Majesty's Courts Service's victims and witnesses strategy aims to improve the court experience of victims and witnesses, including vulnerable ones. Examples of help given to vulnerable witnesses are: instructions to court ushers to offer witnesses the option of repeating the oath after the usher rather than reading it, thus assisting those with literacy problems; videolink facilities to enable housebound witnesses to give evidence from home and children to give evidence separate from the parties and in a less intimidating environment; and providing an interpreter automatically when a party has a hearing impediment and for those whose first language is not English in cases of committal, domestic violence and where children are involved, and in other cases if this is the only way in which a party can give evidence.

The Legal Service Commission, through the Community Legal Services Strategy, is looking at ways of targeting expenditure more on those who need it most, particularly the socially excluded. Community Legal Services Direct provides free legal advice and information which is available in different languages and formats and is particularly useful to people who may have problems accessing traditional services. People with literacy problems can call a national telephone service to find information about their nearest solicitor, obtain information leaflets in audio formats, and access a website that is speech-enabled.

Clinical Negligence

Mr. Baron: To ask the Minister of State, Department for Constitutional Affairs pursuant to her answer of 17 January 2006, *Official Report*, column 1211W, on clinical negligence, how much the *(a)* 10 barristers and *(b)* 10 solicitors who received the highest legal aid fees for clinical negligence work in the last year earned; and, for each barrister and solicitor, in what proportion of cases where proceedings are complete a substantive benefit to the client was reported. [45761]

Bridget Prentice: The information requested is not readily available and could be provided only at disproportionate cost.

Commission for Racial Equality

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs when the Secretary of State last met the Chairman of the Commission for Racial Equality. [45448]

Ms Harman: The Secretary of State has met the Chairman of the Commission for Racial Equality on several occasions.

Court Service (Northamptonshire)

Mr. Hollobone: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the recent performance of the Court Service in Northamptonshire. [45003]

Ms Harman: The information is as follows:

Ineffective trials (PSA 1)

YTD (Dec) Crown—3.0 per cent. Target 10 per cent.

YTD (Dec) Mags—12.3 per cent. Target 20 per cent.

Timeliness (PSA 1)

YTD (Dec) Crown—75.15 per cent. Target 78 per cent.

YTD (Sep) Mags—30 days from first listing to completion. No formal target.

Persistent Young Offenders (PSA 1)

YTD (Dec) Area (Crown and Mags)—85 days. Target 71 days.

Payment rate (PSA 2)

YTD (Dec) Mags—78.1 per cent. Target 81 per cent.

Confiscation Orders (PSA 2)

YTD (Dec) Mags—Outstanding Balance rate—1 per cent. Target—less than 50 per cent.

YTD (Dec) Orders closed—44 per cent. Target—greater than 25 per cent.

Family Public Law (PSA 4)

Percentage cases completed within 40 weeks

YTD (Dec) Care Centre—35.7 per cent. Local target 32 per cent.

YTD (Dec) Family Proceedings Court—54.5 per cent. Local target 68.9 per cent.

Family Private Law

YTD (Dec) County—77.10 per cent. Target 70 per cent.

Adoptions

YTD (Dec) County 57.10 per cent. Target 70 per cent.

County Court Small Claims

YTD (Dec) 78.2 per cent. Target 80.5 per cent.

County Court Fast Track

YTD (Dec) 86.2 per cent. Target 78 per cent.

County Court Multi Track

YTD (Dec) 84.4 per cent. Target 78 per cent.

Electoral Registration

Mr. Cranshy: To ask the Minister of State, Department for Constitutional Affairs what steps she is taking to improve the accuracy of the electoral register. [43093]

Ms Harman: The Electoral Administration Bill, introduced on 11 October, includes a new duty on electoral registration officers (EROs) to take all necessary steps to ensure comprehensive registers. Those steps include the following specific measures:

(a) Sending the canvass form more than once to any address;

(b) Making house to house inquires on more than one occasion;

(c) Making contact by such other means as the registration officer thinks appropriate with persons who do not have an entry in a register;

(d) Inspecting any records held by any person which the registration officer is permitted to inspect; and

(e) Providing training to others carrying out the duty.

The Bill also includes a clause empowering EROs to remove from the register the details of an elector if it becomes apparent, after the process of registration has been completed, that the elector should not have been registered.

Freedom of Information

Peter Law: To ask the Minister of State, Department for Constitutional Affairs whether she plans to institute charges for freedom of information requests assessed to cost less than £450 to prepare. [41811]

Ms Harman: The FOI Act gives the Secretary of State power to set an upper limit (known as the appropriate limit) for the cost of responding to FOI requests. The public authority is not required to comply with requests whose cost exceeds that limit. The Act also enables the Secretary of State to make regulations for public authorities to charge for requests that costs less than the appropriate limit. Under the Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations 2004 the appropriate limit was set at £600 for requests to central Government and £450 for requests to public authorities outside central Government. Public authorities could only charge for the cost of disbursements (such as photocopying and postage) if the cost of complying with the request was less than the upper limit.

DCA has no plans at present to revise either the appropriate limits or to change the fees that may be charged under those limits. As with any new regulations, however, provision was made for a review of fees and a ministerial commitment was given at the time of the passage of the regulations through Parliament that this should take place after the Act came into force. No timetable for any review has yet been agreed. There have also been no decisions taken on the scope of any review.

Judicial Pensions

Mr. Laws: To ask the Minister of State, Department for Constitutional Affairs pursuant to the written statement of 15 December 2005, *Official Report*, column 161WS, on judicial pensions, what estimate she has made of *(a)* the annual cost of the long service award and *(b)* the annual yield from tax paid by scheme members on pension contributions. [44764]

Ms Harman: Based on recent retirement patterns, the cost of the service award is estimated at about £6.7 million for 2006–07. This will be balanced by tax

income (tax payable on the retirement lump sum, and on the service award), and additional national insurance contributions.

Based on recent member contributions data for the judicial pension scheme, the additional tax yield, arising from the fact that member contributions will cease to attract tax relief, is estimated at about £2.5 million per annum, balanced by reduced income to the scheme.

Jury Service (West Lancashire)

Rosie Cooper: To ask the Minister of State, Department for Constitutional Affairs how many people summoned for jury service in West Lancashire sought *(a)* deferment and *(b)* exemption in each of the last five years. [45014]

Ms Harman: It is not possible to break down the number of people summoned geographically, but it is possible to break them down by court. The majority of people living in West Lancashire are summoned for jury service at Preston Crown court. The number and rate of people who applied for deferral and excusal at Preston Crown court is as follows:

In 2001 903 people applied to have their jury service deferred (10 per cent. of those summoned) and 2,917 people applied to be excused from jury service (31 per cent. of those summoned); in 2002 949 (11 per cent.) applied for deferral and 2,905 (34 per cent.) applied for excusal; in 2003 833 (12 per cent.) applied for deferral and 2,221 (33 per cent.) for excusal; in 2004 1,037 (15 per cent.) applied for deferral and 1,890 (28 per cent.) for excusal; and in 2005 1,040 (16 per cent.) applied for deferral and 1,659 (26 per cent.) for excusal.

These percentages are broadly the same as the overall percentages for England and Wales.

Magistrates Courts

Joan Walley: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on progress on proposals to fund a new build magistrates court in North Staffordshire. [45040]

Ms Harman: The North Staffordshire magistrates court scheme continues to be within the programme of new court projects. Work continues to finalise investment plans, as part of the development of business and estates strategy for Her Majesty's Court Service. It is expected that a further announcement will be made once spending plans have been agreed with Treasury.

Mr. Hands: To ask the Minister of State, Department for Constitutional Affairs what the current waiting time is from allocation to hearing for small claims at West London magistrates court. [45262]

Ms Harman: Small claim hearings are not heard in the magistrates court, but are dealt with in the county court. The figures for the West London county court show that between April 2003 to March 2004 there were 441 case dealt with, with an average waiting time of 7.5 weeks. Between April 2004 to March 2005 the average waiting time was 9.5 weeks (354 cases), and between April and December 2005 the average waiting time was 7.7 weeks (286 cases).

Mr. Hands: To ask the Minister of State, Department for Constitutional Affairs how many possession cases were issued at West London magistrates court between *(a)* 1 October 2004 and 31 March 2005 and *(b)* 1 April 2005 and 30 September 2005. [45288]

Ms Harman: Possession proceedings are a civil process, and dealt with in the county courts rather than the magistrates courts. The number of possession cases that issued at West London county court between 1 October 2004 and 31 March 2005 was 743, and 1 April 2005 and 30 September 2005, 833

National Mediation Helpline

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs how much was spent on the National Mediation Helpline during the last 12 months. [41747]

Ms Harman: In the last 12 months the Department has spent £75,197.00 on the National Mediation Helpline. The breakdown is as follows:

	£
Running costs	33,468.80
Publicity/launch	18,628.20
Independent evaluation	23,100.00

Supreme Court

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs when the Secretary of State last met Lord Bingham of Cornhill to discuss the new headquarters for the proposed Supreme Court. [45445]

Ms Harman: The Secretary of State has had regular meetings with Lord Bingham to discuss plans for the new headquarters of the Supreme Court.

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on progress towards housing the proposed new Supreme Court. [45446]

Ms Harman: The DCA is continuing to develop detailed designs for the refurbishment of Middlesex Guildhall in consultation with the Law Lords. The intention is that these designs will be submitted for the relevant planning permissions in March. Subject to these approvals, it is planned that the Supreme Court will be open for business in October 2008.

DEPUTY PRIME MINISTER

Correspondence

Tony Lloyd: To ask the Deputy Prime Minister pursuant to the answer of 16 January 2006, *Official Report*, column 959W, on correspondence, what guidelines he has given to his officials on the timescale for replying to correspondence from hon. Members. [45831]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) attaches great importance to the prompt handling of correspondence. The Office target is that 80 percent. of MPs' and peers' correspondence is

answered within 15 working days. Cabinet Office produce an annual report to Parliament monitoring the performance of departments and agencies for handling correspondence from Members of both Houses and their report for 2005 will be published in due course.

Guidance for officials on the handling of correspondence is available on the intranet site of the ODPM.

Departmental Effectiveness

Mr. Amess: To ask the Deputy Prime Minister (1) what evaluation his Department has undertaken of the findings of the MORI survey of perceptions of the effectiveness of his Department held by board members and unit heads within the Department; and if he will make a statement; [46577]

(2) if he will make a statement on the findings of the recent MORI poll on perceptions of the effectiveness of his Department held by external stakeholders of the Department. [46578]

Jim Fitzpatrick: The Permanent Secretary is responsible for the effective leadership and management of the Office of the Deputy Prime Minister's 2,000 staff and for the Government office network. As part of its work, the Permanent Secretary's management board commissions surveys to ascertain the views of staff on their working environment attitudes to their work in the Department, and the leadership provided by the senior civil service in the Office.

Peter Housden was appointed as Permanent Secretary of the ODPM in October 2005 and gave evidence to the Select Committee for the Office of the Deputy Prime Minister in November in which he described the purpose of the surveys. In its recent report the Committee welcomed ODPM's commitment to consulting its personnel on their experience of work and congratulated it on its success in encouraging participation in the staff survey undertaken in May 2005.

The Permanent Secretary has subsequently said:

"It is clear that the Office has achieved a huge amount since it was created in 2002. But we are not complacent. We have taken very seriously the views expressed in our stakeholder and staff surveys and put in place robust measures to address these concerns. We can demonstrate considerable strides forward over the past four years, but we all recognise we have more to do."

Responses to the 2005 survey showed that 65 per cent. of staff were satisfied overall with their experience of working in ODPM. This is in line with experience across Government. In responses to the statement

"I believe that this company/organisation is an equal opportunities employer,"

ODPM is in the second quartile of central Government organisations (and slightly above the central Government benchmark) according to the company that undertook the survey. In response to the statement

"I am treated with fairness and respect in this organisation,"

ODPM is close to the top quartile of central Government organisations, also slightly above the central Government benchmark.

In relation to bullying, responses in ODPM were in line with experience elsewhere in Government and in the second quartile of central Government organisations. Nonetheless the Permanent Secretary and Board take the issue extremely seriously and have instituted a wide range of activity to address the issues directly. The Permanent Secretary has confirmed:

"The ODPM does not tolerate bullying or discrimination. A programme of skills and awareness training is being put in place for all senior and middle managers, to ensure the organisation creates a positive climate for all staff and has the right procedures in place to deal with cases where staff are not treated with dignity and respect."

Departmental Equipment

Mrs. Villiers: To ask the Deputy Prime Minister how many *(a)* laptops and *(b)* mobile phones his Department bought in each year since 1997; and what the cost of each category of equipment was in each year. [41270]

Jim Fitzpatrick: Up until November 2004 phones were purchased jointly with the Department for Transport and laptops until April 2003. Information since then held by the Office of the Deputy Prime Minister is as follows:

	Number	*Cost (£000)*
November 2004 to November 2005		
Mobile phones	191	22.4
April 2005 to January 2006		
Laptops	159	174

Energy Efficiency

Mr. Wills: To ask the Deputy Prime Minister what target he has set for improving the energy efficiency of residential accommodation by 2010. [44870]

Yvette Cooper: The Sustainable Energy Act 2003 requires the Government to set an aim to improve energy efficiency in the residential sector in England. This obligation was fulfilled in our 2004 Energy Efficiency Action Plan, which included an aim to save 3.5 million tonnes of carbon per year by 2010.

Section 217 of the Housing Act 2004 requires the Government to take reasonable steps to ensure that, by 2010, the general level of energy efficiency of residential accommodation in England has increased by at least 20 per cent. compared with the general level of such energy efficiency in 2000. Such an increase would be broadly in line with the aim published in the Energy Efficiency Action Plan.

Gypsy Sites

Mark Williams: To ask the Deputy Prime Minister when he intends to publish the replacement for planning circular 01–94, regarding Gypsy sites and planning. [44055]

Yvette Cooper: The Office of the Deputy Prime Minister expects to publish the new planning circular for Gypsies and Travellers, to replace DOE circular 1/94 "Gypsy Sites and Planning", shortly.

Local Government Structure (Lancashire)

Dr. Pugh: To ask the Deputy Prime Minister whether Ministers from his Department plan to visit Lancashire as part of the review of the structure of local government. [44977]

Mr. Woolas: While the Office of the Deputy Prime Minister is not currently reviewing local government structures the ODPM is engaging in a wide debate about local governance, including the future of two-tier arrangements in the shire areas. Our aim is that, as part of this debate, council leaders in all shire areas will have had the opportunity to put their views to Ministers.

Rough Sleepers

Greg Mulholland: To ask the Deputy Prime Minister what information his Department *(a)* collects and *(b)* evaluates to estimate the number of rough sleepers. [43042]

Yvette Cooper *[holding answer 17 January 2006]:* As at June 2005 there were an estimated 459 people sleeping rough in England on any one single night, the lowest ever recorded figure.

This estimate is the result of data submitted to the Department from local housing authorities through their 2005 Housing Strategy Statistical Appendix (HSSA) return. Data reported on the HSSA reflect either a recent street count or an estimate, where no recent counts have taken place. Further detail on the methodology employed in producing the annual estimate of rough sleeping in England can be found via the following link on the Office of the Deputy Prime Minister's website at: http://www.odpm.gov.uk/index.asp?id=1150134.

Standards Board for England

Mrs. Spelman: To ask the Deputy Prime Minister how much the Standards Board for England and adjudication panel have so far spent on administering the complaints against *(a)* the Islington council chief executive and *(b)* the Mayor of London, including legal fees. [42613]

Mr. Woolas: The cases referred to at *(a)* involved allegations of misconduct against a number of councillors in Islington in respect of the appointment of Islington council's chief executive. The Standards Board estimate that the costs incurred in respect of these cases are £675,000 by the Board and £50,000 by the adjudication panel.

The case referred to at *(b)*, in respect of the London Mayor, is ongoing. The Standards Board estimate that the costs incurred to date are £45,000 by the Board and £7,000 by the adjudication panel.

Urban Migration

Mrs. Spelman: To ask the Deputy Prime Minister what recent assessment the Government have made of levels of migration out of towns and cities. [42614]

Yvette Cooper: Evidence from the Census shows that between 1991 and 2001 net out-migration from the English core cities (Birmingham, Bristol, Leeds, Liverpool, Manchester, Newcastle, Nottingham, Sheffield) declined dramatically and Birmingham, Bristol and Leeds all gained rather than lost population. In all cases, the population of city centres has risen as people have started to move back in response to the urban renaissance and new housing and job opportunities.

Preliminary findings from the state of the cities report show that many smaller towns and cities in England, particularly in the south and east, gained population over this period largely as a result of in-migration.

Further information on demographic trends including patterns of migration out of, into and between English towns and cities will be available from the state of cities report, due for publication in spring 2006. A full thematic report on demographic trends in urban England will be published later.

Valuation Office Agency

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the Valuation Office Agency (VOA) Management Board meeting minutes of 15 December 2005; if he will place in the Library a copy of *(a)* the report sent to the Department and HM Revenue and Customs and *(b)* the paper on the sale of VOA data on the lessons learned from the CTR2007 programme. [43031]

Mr. Woolas: Both documents, namely *(a)* the report relating to the lessons learned from CTR2007, and *(b)* the paper relating to the Valuation Office Agency's (VOA) database were prepared as an input to the formulation of Government policy. Accordingly they cannot be made available.

WORK AND PENSIONS

Benefit Claimants Living Overseas

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions which benefits and allowances are payable to claimants regardless of whether they are normally resident in the United Kingdom; what rules affect whether benefits are payable during short stays overseas; and what steps he takes to monitor the eligibility by place of residence of claimants into whose bank account benefits are paid. [41058]

Mr. Plaskitt *[holding answer 11 January 2006]:* Whether a benefit is payable to people who are not resident or present in the United Kingdom depends in the first instance on the entitlement conditions for each individual benefit. These conditions may be modified for EU nationals moving within the EU by the EU Regulations on Social Security for Migrant Workers, and in other cases by reciprocal social security agreements between the United Kingdom and other countries.

The effect of long-term or short-term absence abroad on each social security benefit is summarised in DWP leaflet GL29 'Going Abroad and Social Security Benefits' a copy of which has been placed in the Library.

The Department's International Pension Centre issues 'Life Certificates' to customers abroad to ask to confirm that they are still entitled to United Kingdom

benefit. The customer's signature must be witnessed by a person of standing in their community, for example a minister of religion, a civil servant, a police officer or a doctor. The purpose of Life Certificates is to uncover unreported deaths, and to provide an acceptable level of assurance that benefit is paid correctly.

Life Certificates are issued to a specific group of people chosen by, among other criteria, country, marital status, age and dependents. This allows for a manageable sample of customers to be chosen. The sample will, over time, reflect the customer variety. Customers are not selected on the basis of how they are paid.

Benefit is suspended if there is no contact from the customer after eight weeks. The letter advises the customer of this.

Benefit Entitlements (Women)

Miss McIntosh: To ask the Secretary of State for Work and Pensions (1) what entitlement is available for women who are supporting men aged below the state pension age; [44571]

(2) how many *(a)* men and *(b)* women in England and Wales are receiving the adult dependency addition; and if he will make a statement. [44572]

Mr. Timms: There is a range of benefits available to people below State pension age. In some cases people may be entitled to additional benefit if they have adult dependents. Whether or not adult dependency increases are payable will depend on the particular circumstances of each case.

The information relating to the number of men and women getting an adult dependency increase in England and Wales is in the table.

	Men		*Women*	
Benefit	*England*	*Wales*	*England*	*Wales*
State pension	50,400	3,100	100	[1]
Incapacity benefit	29,300	6,600	2,100	400
Severe disablement allowance	800	100	300	[1]
Carer's allowance	7,600	800	4,500	400
Maternity allowance	n/a	n/a	100	[1]
Industrial injuries disability benefit unemployability supplement	[1]	[1]	[1]	[1]

n/a = not applicable
[1] less than 100.
Notes:
1. Figures show Dependency increases paid in respect of a spouse or someone looking after a child.
2. Figures are rounded to the nearest hundred.
3. The maternity allowance figure for women in England is based on a five per cent. sample and is therefore subject to a high degree of sampling variation.
Sources:
State pension, incapacity benefit, carer's allowance and severe disablement allowance information—DWP Information Directorate: Work and Pensions Longitudinal Study 100 per cent. as at 31 May 2005.
Maternity Allowance—DWP Information Directorate: 5 per cent. sample as at 31 May 2005
Industrial injuries disability benefit unemployability supplement—Industrial Injuries Computer System 100 per cent. as at 31 March 2005.

Benefit Fraud

Mr. Laws: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of benefit fraud in each year since 1990–91; and if he will make a statement. [41331]

Mr. Plaskitt: The Department produces estimates for the amount overpaid through fraud across the benefits system. Previously published results are in the table.

	Estimate of benefit fraud (£ billion)	*Comment*
Pre-1998	[1]	A few isolated reviews of fraud and error in individual benefits were carried out, but there was no systematic attempt to estimate the level of fraud across the whole benefit system
1998	2–7	Published in the Green Paper, "Beating Fraud is Everyone's Business". Around £2 billion was considered confirmed fraud, with the remaining £5 billion coming from cases where there was a suspicion of fraud
1998–99 to 2002–03	2	A change in methodology in the ongoing measurement system meant that cases were investigated in more detail, and it was no longer appropriate to include cases where fraud was suspected in the headline estimates. Figure rounded to nearest £1.0 billion
2003–04 initial estimate	1.5	Figure rounded to nearest £0.5 billion
2003–04 revised estimate	1.0	Figure rounded to nearest £0.1 billion. Development work to improve the quality of the estimate suggested that the original figure was an overstatement
2004–05	0.9	Figure rounded to nearest 0.1 £billion

[1] No overall estimate available.

In recent years, benefit fraud has been reducing and now stands at £0.9 billion per year—less than one per cent of total benefit expenditure.

On 13 October 2005, the Department published our achievements in reducing levels of fraud in the benefit system and plans to reduce it further in "Reducing fraud in the benefit system: Achievements and ambitions". Copies are available in the Library.

Mr. Ruffley: To ask the Secretary of State for Work and Pensions (1) what representations his Department has received in the last three years regarding the use of lie detectors in the investigation of suspected fraudulent *(a)* incapacity benefit claims and *(b)* other benefit claims; and if he will make a statement; [44432]

(2) what discussions his Department has had in the last three years regarding the use of lie detectors in the investigation of suspected fraudulent *(a)* incapacity benefit claims and *(b)* other benefit claims; and if he will make a statement. [44433]

Mr. Plaskitt: The Secretary of State has received a small number of written representations in the last three years about the use of voice stress analysis. The Department is currently considering how the technology could be piloted in order to establish its effectiveness in relation to DWP business.

Bereavement Payments

Miss McIntosh: To ask the Secretary of State for Work and Pensions what bereavement payments are available to pensioners; and what the eligibility criteria are. [44569]

Mr. Plaskitt: Pensioners may be entitled to the bereavement payment. This is a lump sum of £2,000. The bereavement payment is available to a person over state pension age if their late spouse was not entitled to a category A retirement pension. A category A retirement pension is one earned by virtue of a person's own national insurance contributions.

Widows and widowers over pension age who are not entitled to receive any bereavement benefits may, subject to the normal qualifying conditions, be entitled to income-related benefits in the same way as any other person, including help towards funeral costs through the Social Fund.

Miss McIntosh: To ask the Secretary of State for Work and Pensions if he will increase bereavement payments available to people over 65. [44604]

Mr. Plaskitt: We keep all our policies under review but there are no plans to increase the bereavement payment available to people over state pension age.

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions what the Child Support Agency case compliance rate was on the *(a)* new scheme and *(b)* old scheme in each month since 1 January 2004; and if he will make a statement. [41373]

Mr. Plaskitt: The information can be found in table seven of the Child Support Agency's Quarterly Summary Statistics, a copy of which can be found in the House Library.

Vera Baird: To ask the Secretary of State for Work and Pensions (1) how many claims were rejected by the Child Support Agency as a result of computer error in the 12 months up to December *(a)* 2004 and *(b)* 2005; [43367]

(2) what the *(a)* target time is and *(b)* average time taken has been before the claim is processed manually when there is a Child Support Agency computer fault that means a claim cannot be processed. [43368]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to my hon. and learned Friend.

Letter from Stephen Geraghty, dated 26 January 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

(1) You asked the Secretary of State for Work and Pensions, how many claims were rejected by the Child Support Agency computer in the 12 months up to December *(a)* 2004 and *(b)* 2005.

There are still a number of defects in the new child support (CS2) computer system which can prevent some cases from progresaing. I am unable to provide a full response to your question, as we do not collect information at the level of detail you have requested. The figures in the table below show the total number of cases requiring technical intervention to progress against all identified defects, outstanding at the end of each month. Data for 2004 is only available for November and December.

These figures include cases which have been removed from the system and are being progresied clerically as well as cases for which no further action is required but which cannot be closed without technical intervention.

The clerical process allows staff to assess these cases off-line and to ensure that any money paid in by the non-resident parent is paid out to the parent with care.

Month	*Total number of cases not being progressed on the CS2 system*
November 2004	36,128
December 2004	25,931
January 2005	30,109
February 2005	28,983
March 2005	25,420
April 2005	25,877
May 2005	21,295
June 2005	23,713
July 2005	25,557
August 2005	26,757
September 2005	28,237
October 2005	29,354
November 2005	32,830
December 2005	33,937

Note:
Figures in the table show the total number of cases not being progressed at that point in time. An IT scan is run monthly to provide this information.

Work is on-going to remedy these problems, and IT releases are planned during 2006 and 2007 to resolve the various system performance issues.

(2) You also asked what the *(a)* target time is and *(b)* average time taken has been where there is a Child Support Agency computer fault that means a claim cannot be processed before the claim is processed manually.

(a) The Agency does not have a set target time to move to clerical action as the final decision to progress clerically is taken on a case-by-case basis. This decision is determined by the

Agency's ability to progress the case and address the customer's needs. Where faults arise, the Agency makes every effort to identify the problem and rectify it as quickly as possible.

(b) Information on the average length of time elapsed before a case is progressed clerically is not available. Each case is decided individually, taking into account the needs of the customer.

I hope you find this helpful.

Tony Baldry: To ask the Secretary of State for Work and Pensions in how many cases over the last five years the United Tribunal has made orders for compensation against the Child Support Agency. [44254]

Mr. Plaskitt: The Appeals Service cannot make orders for compensation against the Child Support Agency.

Departmental Travel

Mr. MacNeil: To ask the Secretary of State for Work and Pensions how much has been spent by his Department on taxi travel in the 2005–06 financial year; and what proportion of such travel was undertaken in each nation and region of the UK, including London. [37480]

Mrs. McGuire: The information is not available

Disability Benefits Unit

Anne Main: To ask the Secretary of State for Work and Pensions what measures are in place to ensure services to clients are not disrupted during the reorganisation of the Disability Benefits Unit; and if he will make a statement. [44326]

Mrs. McGuire: The reorganisation of the Disability Benefits Unit is a matter for the chief executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

Letter from Terry Moran, dated 26 January 2006:

You asked the Secretary of State for Work and Pensions, what measures are in place to ensure services to clients are not disrupted during the reorganisation of the Disability Benefits Unit.

The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the Chief Executive of the Disability and Carers Service.

In my reply to PQ41115, I referred to pre-implementation activities designed to safeguard services to customers during the reorganisation of the DBU. These include the deployment of a dedicated team that has targeted specific areas of work.

Additional measures include the gathering of management information on a daily and weekly basis through our IT systems and by means of clerical counts. This will ensure that all available work is visible and accounted for and the situation will be reviewed daily. The dedicated team will continue to be used to target specific areas, should this prove necessary.

The Customer Care Helpline will remain open during its usual hours throughout the implementation period and will continue to provide the full range of services. Normal contingencies will be used at periods of peak demand.

I hope this is helpful.

National Insurance Numbers

Mr. Redwood: To ask the Secretary of State for Work and Pensions how many people in the UK are eligible to receive a national insurance number. [44113]

Mr. Plaskitt: This information is not available.

Norcross

Mr. Wallace: To ask the Secretary of State for Work and Pensions what agencies and directorates within the responsibilities of his Department are located at Norcross. [45939]

Mrs. McGuire: The following agencies and directorates for which the Department is responsible are located at Norcross:

Disability and Carers Service

Jobcentre Plus

The Pension Service

Finance Directorate

Human Resources

Programme and Systems Delivery

Debt Management

Mr. Wallace: To ask the Secretary of State for Work and Pensions pursuant to the answer of 9 January 2006, *Official Report*, column 43W, on Norcross (job losses), how many staff have been re-deployed from *(a)* Norcross, *(b)* Peel Park, *(c)* Warbreck House and *(d)* Moorland Road; and to where these staff have been redeployed. [44845]

Mrs. McGuire: Information on the number of staff who have been redeployed from Norcross, Peel Park, Warbreck House and Lytham St. Anne's is in the following table. Staff redeployed from Moorland Road are not separately identified but are included in the total for Lytham St. Anne's.

Site	*Staff redeployed on site*	*Staff redeployed to other sites*	*Total number of staff redeployed*
Norcross	35	28	63
Peel Park	34	12	46
Warbreck House	1	0	1
Lytham St. Anne's	99	16	115
Total Redeployments	169	56	225

Note:
Numbers of redeployments are cumulative from 1 April 2004.

Parliamentary Questions

Mr. Maples: To ask the Secretary of State for Work and Pensions when he will answer questions *(a)* 26399, *(b)* 26327 and *(c)* 26331 tabled by the hon. Member for Stratford-on-Avon on 3 November. [33011]

Mrs. McGuire: Replies have been given to the hon. Member for all the questions as follows:

(a) 26399 on 19 December 2005, *Official Report*, column 2450W.

(b) 26327 on 9 January 2006, *Official Report*, column 73W.

(c) 26331 on 9 January 2006, *Official Report*, column 82W.

Mr. Wallace: To ask the Secretary of State for Work and Pensions when he will answer question 34383 tabled by the hon. Member for Lancaster and Wyre on 29 November 2005 on the Gershon review. [42427]

Mrs. McGuire: An answer was given to the hon. Member on 16 January 2006, *Official Report*, column 1044W.

Pension Credit

Derek Wyatt: To ask the Secretary of State for Work and Pensions how many *(a)* men and *(b)* women have claimed pension credit. [45855]

Mr. Timms: As at 30 September 2005 there are 1,714,600 women and 996,500 men in receipt of pension credit in Great Britain.

Notes:

1. Caseloads are rounded to the nearest 100.
2. PC data from the Generalised Matching Service (GMS) 100 per cent. scans taken on 16 September 2005 and the figures have been rated up to give month end estimates. This is the data used for the Pension Credit Quarterly Progress Report (QPR).
3. These figures are early estimates. Operational processing times mean that a number of claim commencements and terminations are not reflected in the figures. The final figures incorporated within the Work and Pensions Longitudinal Study (WPLS) will take account of such cases.

DWP Information Directorate: 100 per cent. GMS data

Pension Service

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how many complaints were received by the Pension Service in each of the last 12 months; and what the average time taken to resolve complaints was in the last period for which figures are available. [44522]

Mr. Timms: Details of the number of complaints/inquiries received in each of the last 12 months are in the following table.

The last period for which figures are available is December 2005. The average time taken to resolve complaints was 2.9 days, broken down as follows: direct complaints—two days; MP inquiries—11 days; and PCA inquiries—eight days.

	Customer complaints received	*MP inquiries/ complaints*	*PCA inquiries*	*Total complaints/ inquiries received each month*
January	1,517	204	12	1,733
February	1,532	213	31	1,776
March	1,520	201	22	1,743
April	1,741	196	31	1,968
May	1,307	97	26	1,430
June	1,218	127	22	1,367
July	1,623	134	26	1,783
August	1,945	98	21	2,064
September	1,942	121	41	2,104
October	1,979	101	32	2,112
November	2,257	132	28	2,417
December	1,464	119	34	1,617
Total	20,045	1,743	326	22,114

Post Office Card Account

Mr. Laws: To ask the Secretary of State for Work and Pensions what consultations his Department held with *(a)* pensioner groups and *(b)* others before the decision was taken to terminate the contract of the Post Office card account; and if he will make a statement. [45587]

Mr. Plaskitt: The Post Office card account contract is not being terminated. The Government will continue to fund the card account until March 2010 as always provided for in the contract. My officials will be meeting with customer representative groups and other key stakeholders over the next few weeks to discuss our future strategy for paying benefits and pensions.

Turner Report

John Penrose: To ask the Secretary of State for Work and Pensions what assessment his Department has made of the effect on the employment rate of the Turner report's proposed 3 per cent. employer contribution to the National Pension Saving Scheme. [41387]

Mr. Timms: We are in the process of examining the recommendations made by the Commission in detail. At this stage, nothing is ruled in and nothing is ruled out. One of the Commission's recommendations, to which we will be giving careful consideration, is the need for compulsory employer matching contributions. In looking at this option we will of course take account of possible impacts on business and on the labour market.

INTERNATIONAL DEVELOPMENT

Air Passenger Tax

Greg Mulholland: To ask the Secretary of State for International Development whether the proposed diversion of revenue from the air passenger tax to fund development aid will *(a)* be a new addition to the UK aid budget on top of the increases already announced this year and *(b)* replace money from other tax sources. [42420]

John Healey *[holding answer 16 January 2006]:* I have been asked to reply.

As part of an agreement to implement an international finance facility (IFF), the Government are prepared to allocate some of the existing revenue from the air passenger duty (APD) to provide a long-term financial commitment to the IFF.

The Government remains fully committed to its timetable for reaching 0.7 percent. ODA/GNI by 2013. As set out in Spending Review 2004, with the IFF the UK could achieve the equivalent of 0.7 percent. by 2008–09.

Biwater

Daniel Kawczynski: To ask the Secretary of State for International Development if the Government will act as insurer of last resort to Biwater through the Export Credit Guarantee Department after the company's losses in the Dar Es Salaam water system contract. [40774]

Ian Pearson: I have been asked to reply.

In June 2003, the Export Credits Guarantee Department (ECGD) provided Overseas Investment Insurance cover to Biwater for their City Water, Dar Es Salaam water and sewerage contract.

It is not possible at this stage to say whether the reported action of the Tanzanian authorities will result in any claim against ECGD. If Biwater does submit a

claim, ECGD will examine it under the terms of its Overseas Investment Insurance policy and the Department would only pay a claim if it was satisfied that it was liable under the policy.

Iraq

Mr. Clappison: To ask the Secretary of State for International Development pursuant to the answer of 17 January 2006 to the hon. Member for St. Ives (Andrew George), *Official Report*, column 1219W, on Fallujah, what assessment he has made of the position of the 61,000 people displaced from Fallujah since April 2004; and what assessment he has made of the ways in which aid disbursed to Fallujah has been spent, with particular reference to the repair of existing homes and the construction of new homes. [45345]

Hilary Benn: DFID understands that life in Fallujah is slowly returning to normal. A functioning local government exists and the population has voted in both the October 2005 constitutional referendum and December 2005 general election. The US now estimates the city's population to be at 239,000, compared to 300,000 before 2004. The US Government reports that there is currently no-one officially classified as a displaced person in the vicinity of Fallujah; many of those displaced by the conflict moved to stay with relatives or relocated to surrounding cities. A UN survey showed that 17 per cent. of former Fallujan residents (approximately 50,000) did not expect to return to the city.

The United Kingdom has provided advice but not financial aid for the reconstruction of Fallujah. In the aftermath of military operations in Fallujah, DFID staff and consultants made assessment visits to Fallujah and provided advice to the Iraqi Government on the management of health, humanitarian and co-ordination issues. The Iraqi Ministry of Industry and Minerals continues to lead on the reconstruction effort, with support from the US. Financial aid came from the Iraqi Government and the US. We have made no detailed assessment of the ways in which aid disbursed to Fallujah has been spent. However, the following information, drawn from US assessments, may be helpful.

The Iraqi Government has allocated US$100 million for Fallujah's reconstruction and US$178 million in housing compensation for Fallujah's citizens. Shortly after military operations in Fallujah ended, the Government initially estimated the damage to housing to be in the region of US$500 million. Fallujah residents have so far received US$103 million in housing compensation. The Government recently announced a further US$75 million which will be paid to citizens over the next month, bringing the total to US$178 million. It is unclear whether any additional funds will be made available.

The United States is funding 81 reconstruction projects in Fallujah worth over US$100 million. Of these, 14 have been completed, 25 are underway, 22 have contracts awarded but have not yet started and one is being evaluated. Major projects include:

- electrical system improvement—over US$40 million. Electrical distribution lines are now connected to about 80 per cent. of homes and businesses in Fallujah;
- a new waste water treatment plant and collection system—US$28 million. The Fallujah Water Department reports that 98 per cent. of residences in Fallujah are now supplied with safe drinking water;
- new police facilities—US$7.6 million. Two new police stations are due to be completed in April 2006.

Smaller projects include reconstruction of the Fallujah railway station, renovating the court house and constructing new health care facilities. Four new health clinics are due to be completed between February and August 2006.

No official data exist on the repair and construction of homes in Fallujah. Anecdotal evidence from those working in Iraq suggests that around 15 per cent. of homes have been restored. This is expected to increase with the distribution of the extra US$75 million.

Water Action Plan

Emily Thornberry: To ask the Secretary of State for International Development when he plans to publish the next update on his Department's work on water and sanitation since the Water Action Plan. [45495]

Hilary Benn: We plan to publish the next Water Action Plan update on the DFID external website by the end of March 2006.

Emily Thornberry: To ask the Secretary of State for International Development which African countries receiving budget support from his Department have spent 12 per cent. or more of those funds principally in support of increased access to safe water and sanitation. [45496]

Hilary Benn: DFID is currently providing budgetary support to Sierra Leone, Ghana, Rwanda, Uganda, Tanzania, Mozambique, Malawi and Zambia. The DFID report 'Financial support to the water sector 2002 to 2004' includes (page 22) an assessment of the percentage of public expenditure (including budgetary support) allocated to water and sanitation by partner countries. In the African countries receiving UK budgetary support, this varies between 0.3 per cent. and 4.8 per cent. No country allocates as much as 12 per cent. from central Government funds to water and sanitation services. Copies of the report are available in the Libraries of the House and also on the DFID website www.dfid.gov.uk.

World Trade Organisation

David Taylor: To ask the Secretary of State for International Development what steps he plans to take to promote the interests of the world's poor following the outcome of the World Trade Organisation's ministerial meetings in Hong Kong at the end of 2005. [44848]

Mr. Thomas: DFID recognises that the World Trade Organisation talks held in Hong Kong in December made only modest progress towards a pro development outcome to the Doha Development Agenda (DDA). We remain committed to work towards a successful conclusion to the round by the end of this year. A good deal that promotes the interests of the poor would include improved market access, particularly in agriculture, and significant reductions in trade distorting domestic support.

DFID places paramount importance on ensuring that the voices of developing countries are heard in trade negotiations. For some time DFID has provided advisory support and financial resources to help developing countries formulate their own trade policies and negotiate and participate in trade deals, including the Hong Kong talks; we will continue to provide similar support. Over the coming weeks we will remain in contact with the LDCs on their post-Hong Kong priorities. This will help focus our efforts on promoting the interests of poor countries where they want our support.

DFID believes that greater market access won't in itself enable the poorest countries to benefit more from trade; developing countries have to also overcome significant supply side capacity constraints, such as lack of investment in physical infrastructure and human capital. The international community has committed development assistance to support this so called aid for trade, pioneered by the UK during our twin presidencies of the G8 and EU. We have pledged to increase our own aid for trade to £100 million per annum by 2010. While this is not a substitute for significant changes to WTO trade rules, DFID believes it will assist poor countries to engage in and benefit from the international trading system. DFID will also focus its efforts over coming months on ensuring pledges on aid for trade are honoured.
